Mathematica Reference No.: 40309.H51

2015 Health Care Survey of DoD Beneficiaries:

Adult Codebook and User's Guide

June 2015
Quarter II
Survey Fielded: January 2015

Submitted to:

Defense Health Agency
7700 Arlington Boulevard, Suite 5101
Falls Church, VA 22042-5101
(703) 681-3636

Task Order Officer:

Richard R. Bannick, Ph. D., FACHE

Submitted by:

Mathematica Policy Research, Inc.
1100 First Street, NE, 12th Floor
Washington, DC 20002-4221
(202) 484-9220

Project Director:

Nancy A. Clusen

TABLE OF VARIABLES

Page

SAMPLE VARIABLES		
MPRID	- Unique MPR identifier.....	141
SVCSMPL	- Branch of service sampling variable.....	141
SEXSMPL	- Sex sampling variable	141
STRATUM	- Sampling stratum	141
ENBGSMPL	- Enrollment by beneficiary category.....	149
MPCSMPL	- Military personnel category.....	149
NHFF	- Stratum sample size.....	149
QUARTER	- Survey quarter	149
D_HEALTH	- Health service region.....	150
TNEXREG	- TRICARE next generation of contracts region grouping	150
SERVAFF	- Service affiliation	150
BWT	- Basic sampling weight.....	151
DEERS VARIABLES		
RACEETHN	- Race/Ethnic code	151
PNSEXCD	- Person gender	151
RDAGEQY	- Age at time of sample preparation-Capped (18 and below, 86 and above)	151
RFLDAGE	- Age at start of fielding period-Capped (18 and below, 86 and above)	152
PCM	- Primary manager code (civilian or military)	152
ACV	- Alternate care value.....	153
DBENCAT	- Beneficiary category	153
DSPONSVC	- Derived sponsor branch of service.....	154
PATCAT	- Aggregated beneficiary category	154
PNTYPECD	- Person type code.....	154
QUESTIONNAIRE RESPONSE		
H15001	- Are you the person listed on the cover letter	154
H15002A	- Health plan(s) covered: TRICARE Prime	155
H15002C	- Health plan(s) covered: TRICARE Ext/Std.....	155
H15002N	- Health plan(s) covered: TRICARE Plus	155
H15002O	- Health plan(s) covered: TRICARE For Life	155
H15002P	- Health plan(s) covered: TRICARE Supplemental Insurance.....	155
H15002Q	- Health plan(s) covered: TRICARE Reserve Select	155
H15002S	- Health plan(s) covered: TRICARE Retired Reserve	156
H15002T	- Health plan(s) covered: TRICARE Young Adult Prime	156
H15002V	- Health plan(s) covered: TRICARE Young Adult Ex or Standard	156
H15002K	- Health plan(s) covered: Uniformed Services Family Health Plan (USFHP)	156
H15002U	- Health plan(s) covered: Continued Health Care Benefit Program (CHCBP).....	156
H15002F	- Health plan(s) covered: Medicare.....	156
H15002G	- Health plan(s) covered: Federal Employees Health Benefit Program (FEHBP)	157
H15002H	- Health plan(s) covered: Medicaid.....	157
H15002I	- Health plan(s) covered: civilian HMO	157
H15002J	- Health plan(s) covered: other civilian	157
H15002M	- Health plan(s) covered: Veterans.....	157
H15002R	- Health plan(s) covered: other Non-US government health insurance.....	157
H15002L	- Health plan(s) covered: not sure	158
H15003	- Which health plan did you use most in the past 12 months?	158
H15004	- Months or years in a row with health plan	159
H15005	- In last year: facility used most for health care	159
H15006	- In last year: have illness/injury/condition that needed care right away	159
H15007	- In last year: how often got care as soon as you believed you need it	160
H15008	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury.....	160
H15009	- In last year: made appointments for non-urgent health care.....	160

H15010	- In last year: how often got appointments for non-urgent health care as soon as you wanted	161
H15011	- In last year: days between making an appointment for regular or routine care and actually seeing a provider.....	161
H15012	- In last year: times went to an emergency room for own care.....	161
H15013	- In last year: times went to a doctor's office or clinic for yourself (not counting times went to an emergency room).....	162
H15014	- In last year: how often talk to doctor or other health care provider about illness prevention.....	162
H15015	- In last year: doctor or other health care provider talked about more than 1 choice for treatment	162
H15016	- In last year: doctor talked about pros/cons of each treatment/health care choice	162
H15017	- In last year: doctor/health care provider asked which treatment option you thought was best for you when there was more than one choice of treatment.....	163
H15018	- Rating of all health care in last year	163
H15019	- Have one person you think of as your personal doctor	163
H15020	- In last year: number of times visited personal doctor for care for self.....	164
H15021	- In last year: how often personal doctor listened carefully to you	164
H15022	- In last year: how often personal doctor explained things in a way that was easy to understand.....	164
H15023	- In last year: how often your personal doctor showed respect for what you have to say	165
H15024	- In last year: how often your personal doctor spent enough time with you	165
H15025	- In last year: got care from doctor or other health provider other than personal doctor	165
H15026	- In last year: how often personal doctor seemed informed and up-to-date about care received from other doctors	165
H15027	- Rating of your personal doctor	166
H15028	- In last year: tried to make appointment to see a specialist.....	166
H15029	- In last year: how often it was easy to get appointments with specialists	166
H15030	- In last year: how many specialists seen	167
H15031	- Rating of specialist seen most often in last year	167
H15032	- In last year: tried to get care, tests, or treatment through health plan	167
H15033	- In last year: how often easy to get care, tests, or treatment you thought you needed through health plan.....	168
H15034	- In last year: looked for information in written material or on the Internet about how health plan works.....	168
H15035	- In last year: how often written material/Internet provide information you needed about how your plan works.....	168
H15036	- In last year: looked for information from health plan on cost of health care service or equipment.....	168
H15037	- In last year: how often able to find out from health plan cost of health care service or equipment.....	169
H15038	- In last year: looked for information from health plan on cost of prescription medications	169
H15039	- In last year: how often able to find out cost of prescription medications	169
H15040	- In last year: tried to get information or help from health plan's customer service.....	169
H15041	- In last year: how often did customer service give needed information or help.....	170
H15042	- In last year: how often did customer service treat with courtesy and respect	170
H15043	- In last year: health plan gave forms to fill out	170
H15044	- In last year: how often forms from health plan were easy to fill out.....	171
H15045	- In last year: sent in any claims to your health plan	171
H15046	- In last year: how often health plan handled claims quickly.....	171
H15047	- In last year: how often health plan handled claims correctly	172
H15048	- Rating of all experience with health plan	172
H15049	- Blood pressure: when last reading	172

H15050	- Blood pressure: know if blood pressure is too high or not.....	173
H15051	- When did you last have a flu shot	173
H15052	- Smoked at least 100 cigarettes in life.....	173
H15053	- Smoke or use tobacco everyday, some days, or not at all	173
H15054	- Last year: how often advised by doctor to quit smoking or use tobacco	173
H15055	- Last year: how often medication was recommended or discussed by doctor to assist with quitting smoking or using tobacco	174
H15056	- Last year: how often doctor recommended or discussed methods and strategies to assist quitting smoking or using tobacco	174
H15057A	- Do you smoke or use: cigarettes	174
H15057B	- Do you smoke or use: dip, chewing tobacco, snuff, or snus	175
H15057C	- Do you smoke or use: cigars	175
H15057D	- Do you smoke or use: pipes, bidis, or kreteks	175
H15058	- Are you male or female	175
H15059B	- Female: last have a Pap smear test.....	176
H15060	- Female: are you under age 40	176
H15061	- Female: last time breasts checked by mammography.....	176
H15062	- Female: been pregnant in last year or pregnant now	177
H15063	- Female: in what trimester is your pregnancy.....	177
H15064	- Female: trimester first received prenatal care	177
H15065	- In general how would you rate your overall health.....	177
H15066	- Limited in any way in any activities because of any impairment or health problem	178
H15067	- In last year: seen doctor or other health provider 3 or more times for same condition or problem.....	178
H15068	- Condition lasted for at least 3 months	178
H15069	- Need to take medicine prescribed by a doctor	178
H15070	- Medicine to treat condition that has lasted for at least 3 months	178
H15071F	- Feet portion of height without shoes.....	179
H15071I	- Inches portion of height without shoes	179
H15072	- Weight without shoes in pounds.....	179
SREDA	- Highest grade completed	184
H15073	- Are you Spanish, Hispanic, or Latino	184
H15073A	- No, not Spanish, Hispanic, or Latino	184
H15073B	- Yes, Mexican, Mexican American, Chicano	184
H15073C	- Yes, Puerto Rican.....	185
H15073D	- Yes, Cuban.....	185
H15073E	- Yes, other Spanish, Hispanic, or Latino	185
SRRACEA	- Race: White.....	185
SRRACEB	- Race: Black or African American.....	185
SRRACEC	- Race: American Indian or Alaska native	185
SRRACED	- Race: Asian	186
SRRACEE	- Race: Native Hawaiian/other Pacific Islander.....	186
SRAGE	- What is your age now?	186
H15074	- Currently covered by Medicare.....	186
H15075	- Currently covered by Medicare part A	187
H15076	- Currently covered by Medicare part B	187
H15077	- Enrolled in a Medicare Advantage plan.....	187
H15078	- Currently covered Medicare supplemental.....	187
H15079	- Enrolled in Medicare Part D.....	188
S15009	- Had the same personal doctor or nurse before joining this health plan	188
S15010	- Since joined health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?	188
S15011	- Agree/disagree: Able to see provider when needed.....	188
S15014	- How satisfied with health care during last visit	189
S15B01	- Self rating of overall mental/emotional health	189
S15B02	- Last year: needed treatment/counseling for personal/family problem	189
S15B03	- Last year: problem getting needed treatment/counseling	189

S15B04	- Last year: rating of treatment/counseling received.....	190
S15J01	- Can obtain civilian health insurance for self	190
S15J02A	- Obtain civilian coverage: my current employer.....	190
S15J02B	- Obtain civilian coverage: previous-employer COBRA	190
S15J02C	- Obtain civilian coverage: previous-employer retirement.....	191
S15J02D	- Obtain civilian coverage: family member's employer	191
S15J02E	- Obtain civilian coverage: family member's previous-employer COBRA.....	191
S15J02F	- Obtain civilian coverage: family member's retirement.....	191
S15J02G	- Obtain civilian coverage: another organization.....	191
S15J02H	- Obtain civilian coverage: government program	192
S15J02I	- Obtain civilian coverage: don't know	192
S15J03	- Are you/family covered by a civilian policy.....	192
S15J04	- Pay all or part of civilian insurance premium	192
S15J05	- How much per month you/family pay for coverage	193
S15J06	- Used civilian coverage in past year	197
S15J07A	- Not used civilian coverage: not available	197
S15J07B	- Not used civilian coverage: better choice of doctors with TRICARE	197
S15J07C	- Not used civilian coverage: do not want to pay the premium for civilian coverage.....	197
S15J07D	- Not used civilian coverage: TRICARE has better customer service	198
S15J07E	- Not used civilian coverage: benefits are poor.....	198
S15J07F	- Not used civilian coverage: personal doctor not available.....	198
S15J07G	- Not used civilian coverage: always want military health care	198
S15J07H	- Not used civilian coverage: TRICARE costs less.....	198
S15J07I	- Not used civilian coverage: prefer military doctors	199
S15J07J	- Not used civilian coverage: prefer military hospitals.....	199
S15J07K	- Not used civilian coverage: have not needed health care	199
S15J07L	- Not used civilian coverage: another reason	199
S15J07M	- Not used civilian coverage: employer bonus	199
S15J07N	- Not used civilian coverage: family member's employer bonus.....	200
S15J07O	- Not used civilian coverage: better quality care through TRICARE	200
S15J08	- Used TRICARE for non-prescription drug health care	200
S15J09A	- Not used TRICARE: better choice of civilian doctors	200
S15J09B	- Not used TRICARE: I do not want to pay the premium for TRICARE.....	200
S15J09C	- Not used TRICARE: better civilian customer service	201
S15J09D	- Not used TRICARE: personal doctor not available	201
S15J09E	- Not used TRICARE: benefits are poor	201
S15J09F	- Not used TRICARE: easier to get civilian care.....	201
S15J09G	- Not used TRICARE: civilian plan costs less.....	201
S15J09H	- Not used TRICARE: no military facility near me.....	202
S15J09I	- Not used TRICARE: prefer civilian doctors	202
S15J09J	- Not used TRICARE: prefer civilian hospitals.....	202
S15J09K	- Not used TRICARE: have not needed health care.....	202
S15J09L	- Not used TRICARE: another reason	202
S15J10	- Dropped civilian coverage in past year.....	203
S15J11A	- Dropped civilian coverage: lost job.....	203
S15J11B	- Dropped civilian coverage: spouse or parent lost job.....	203
S15J11C	- Dropped civilian coverage: changed jobs.....	203
S15J11D	- Dropped civilian coverage: spouse or parent changed jobs.....	203
S15J11E	- Dropped civilian coverage: retired from job.....	204
S15J11F	- Dropped civilian coverage: spouse or parent retired.....	204
S15J11G	- Dropped civilian coverage: moved to new location	204
S15J11H	- Dropped civilian coverage: you/spouse/parent became active reservist.....	204
S15J11I	- Dropped civilian coverage: you/spouse/parent returned to Select Reserves.....	204
S15J11J	- Dropped civilian coverage: employer changed plans	205
S15J11K	- Dropped civilian coverage: found less expensive plan.....	205
S15J11L	- Dropped civilian coverage: married, divorced, or widowed	205
S15J11M	- Dropped civilian coverage: went on Medicare.....	205

S15J11N	- Dropped civilian coverage: problems with health plan	205
S15J12	- Main reason dropped civilian coverage	206
S15BE01A	- Has a doctor told you you have conditions: heart attack	206
S15BE01B	- Has a doctor told you you have conditions: angina or coronary heart disease	206
S15BE01C	- Has a doctor told you you have conditions: stroke	207
S15BE01D	- Has a doctor told you you have conditions: diabetes or high blood sugar.....	207
SURVEY FIELDING VARIABLES		
ONTIME	- Responded within 8 weeks of mail-out	207
FLAG_FIN	- Final disposition	207
DUPFLAG	- Multiple response indicator	207
FNSTATUS	- Final status	207
KEYCOUNT	- Number of key questions answered	208
WEB	- Web survey indicator	208
EMAILRES	- Email response.....	208
CODING SCHEME FLAGS AND COUNTS		
N1	- Coding Scheme Note 1	208
N1_J1	- Coding Scheme Note 1_J1	209
N1_J2	- Coding Scheme Note 1_J2	209
N1_J3	- Coding Scheme Note 1_J3	209
N1_J4	- Coding Scheme Note 1_J4	209
N1_J5	- Coding Scheme Note 1_J5	209
N1_J6	- Coding Scheme Note 1_J6	210
N2	- Coding Scheme Note 2	210
N3	- Coding Scheme Note 3	210
N4	- Coding Scheme Note 4	210
N5	- Coding Scheme Note 5	210
N6	- Coding Scheme Note 6	211
N7	- Coding Scheme Note 7	211
N8	- Coding Scheme Note 8	211
N8_01	- Coding Scheme Note 8_01	211
N9	- Coding Scheme Note 9	211
N10	- Coding Scheme Note 10	212
N10_B1	- Coding Scheme Note 10_B1	212
N11	- Coding Scheme Note 11	212
N12	- Coding Scheme Note 12	212
N13	- Coding Scheme Note 13	212
N14	- Coding Scheme Note 14	213
N15	- Coding Scheme Note 15	213
N16	- Coding Scheme Note 16	213
N17	- Coding Scheme Note 17	213
N18	- Coding Scheme Note 18	214
N19A	- Coding Scheme Note 19A	214
N19B	- Coding Scheme Note 19B	214
N20	- Coding Scheme Note 20	214
N21	- Coding Scheme Note 21	215
N22	- Coding Scheme Note 22	215
N23	- Coding Scheme Note 23	215
N23_HT	- Coding Scheme Note 23_HT	215
N23_WT	- Coding Scheme Note 23_WT	215
N24	- Coding Scheme Note 24	216
N25	- Coding Scheme Note 25	216
MISS_1	- Count of original survey responses (pre-cleaning): violates skip pattern	216
MISS_4	- Count of original survey responses (pre-cleaning): incomplete grid error.....	216
MISS_5	- Count of original survey responses (pre-cleaning): scalable response of don't know	216
MISS_6	- Count of original survey responses (pre-cleaning): not applicable - valid skip.....	217
MISS_7	- Count of original survey responses (pre-cleaning): out-of-range error.....	217
MISS_9	- Count of original survey responses (pre-cleaning): no response - invalid skip	217

MISS_TOT	- Total number of missing responses (pre-cleaning)	217
JSFLAG	- Joint Service Flag	217
CONSTRUCTED VARIABLES		
XENRLLMT	- Enrollment in TRICARE prime.....	218
XENR_PCM	- Enrollment by PCM type	218
XINS_COV	- Insurance coverage	218
XBENCAT	- Beneficiary category	219
XENR_RSV	- Enrollment by PCM type - reservist	219
XINS_RSV	- Insurance coverage - reservist	220
XREGION	- Region	220
XTNEXREG	- TRICARE next generation of contracts region grouping	221
USA	- CONUS/OCONUS indicator	221
XOCONUS	- Overseas Europe/Pacific/Latin indicator	221
OUTCATCH	- Out of catchment area indicator	221
XSEXA	- Male or female (recode)	221
XBMI	- Body mass index	222
XBMICAT	- Body mass index category	222
XBNFGRP	- Constructed beneficiary group.....	222
XSERVAFF	- Service affiliation	222
KMILOPQY	- Outpatient visits to military facility.....	223
KCIVOPQY	- Outpatient visits to civilian facility	223
KCIVINS	- Beneficiary covered by civilian insurance	223
HP_PRNTL	- Pregnant in last year received care in 1st trimester	223
HP_MAMOG	- Women age 40 and over: mammography in past 2 years	224
HP_MAM50	- Women age 50 and over: mammography in past 2 years	224
HP_PAP	- All women: pap smear in last 3 years.....	224
HP_BP	- Blood pressure check in last 2 years and know results.....	224
HP_FLU	- Age 65 and older: flu shot in last 12 months	224
HP_OBESE	- Obese or morbidly obese	225
HP_SMOKE	- Advised to quit smoking in last 12 months	225
HP_SMKH3	- Smoker under HEDIS definition (modified)	225
HP_CESH3	- Had smoking cessation counseling - HEDIS (modified).....	225
XCATCH	- XCATCH - Catchment area (reporting)	226
POSTSTRATIFICATION		
POSTCELL	- Poststratification cell for new weights.....	229
WEIGHTS		
FWRWT1	- Replicated/Jackknife quarterly weight 1	232
FWRWT2	- Replicated/Jackknife quarterly weight 2	232
FWRWT3	- Replicated/Jackknife quarterly weight 3	233
FWRWT4	- Replicated/Jackknife quarterly weight 4	233
FWRWT5	- Replicated/Jackknife quarterly weight 5	233
FWRWT6	- Replicated/Jackknife quarterly weight 6	233
FWRWT7	- Replicated/Jackknife quarterly weight 7	234
FWRWT8	- Replicated/Jackknife quarterly weight 8	234
FWRWT9	- Replicated/Jackknife quarterly weight 9	234
FWRWT10	- Replicated/Jackknife quarterly weight 10	234
FWRWT11	- Replicated/Jackknife quarterly weight 11	235
FWRWT12	- Replicated/Jackknife quarterly weight 12	235
FWRWT13	- Replicated/Jackknife quarterly weight 13	235
FWRWT14	- Replicated/Jackknife quarterly weight 14	235
FWRWT15	- Replicated/Jackknife quarterly weight 15	236
FWRWT16	- Replicated/Jackknife quarterly weight 16	236
FWRWT17	- Replicated/Jackknife quarterly weight 17	236
FWRWT18	- Replicated/Jackknife quarterly weight 18	236
FWRWT19	- Replicated/Jackknife quarterly weight 19	237
FWRWT20	- Replicated/Jackknife quarterly weight 20	237
FWRWT21	- Replicated/Jackknife quarterly weight 21	237

FWRWT22	- Replicated/Jackknife quarterly weight 22	237
FWRWT23	- Replicated/Jackknife quarterly weight 23	238
FWRWT24	- Replicated/Jackknife quarterly weight 24	238
FWRWT25	- Replicated/Jackknife quarterly weight 25	238
FWRWT26	- Replicated/Jackknife quarterly weight 26	238
FWRWT27	- Replicated/Jackknife quarterly weight 27	239
FWRWT28	- Replicated/Jackknife quarterly weight 28	239
FWRWT29	- Replicated/Jackknife quarterly weight 29	239
FWRWT30	- Replicated/Jackknife quarterly weight 30	239
FWRWT31	- Replicated/Jackknife quarterly weight 31	240
FWRWT32	- Replicated/Jackknife quarterly weight 32	240
FWRWT33	- Replicated/Jackknife quarterly weight 33	240
FWRWT34	- Replicated/Jackknife quarterly weight 34	240
FWRWT35	- Replicated/Jackknife quarterly weight 35	241
FWRWT36	- Replicated/Jackknife quarterly weight 36	241
FWRWT37	- Replicated/Jackknife quarterly weight 37	241
FWRWT38	- Replicated/Jackknife quarterly weight 38	241
FWRWT39	- Replicated/Jackknife quarterly weight 39	242
FWRWT40	- Replicated/Jackknife quarterly weight 40	242

H15001	- Are you the person listed on the cover letter	154
H15002A	- Health plan(s) covered: TRICARE Prime	155
H15002C	- Health plan(s) covered: TRICARE Ext/Stnd	155
H15002F	- Health plan(s) covered: Medicare.....	156
H15002G	- Health plan(s) covered: Federal Employees Health Benefit Program (FEHBP)	157
H15002H	- Health plan(s) covered: Medicaid.....	157
H15002I	- Health plan(s) covered: civilian HMO	157
H15002J	- Health plan(s) covered: other civilian	157
H15002K	- Health plan(s) covered: Uniformed Services Family Health Plan (USFHP)	156
H15002L	- Health plan(s) covered: not sure	158
H15002M	- Health plan(s) covered: Veterans	157
H15002N	- Health plan(s) covered: TRICARE Plus	155
H15002O	- Health plan(s) covered: TRICARE For Life	155
H15002P	- Health plan(s) covered: TRICARE Supplemental Insurance.....	155
H15002Q	- Health plan(s) covered: TRICARE Reserve Select	155
H15002R	- Health plan(s) covered: other Non-US government health insurance	157
H15002S	- Health plan(s) covered: TRICARE Retired Reserve	156
H15002T	- Health plan(s) covered: TRICARE Young Adult Prime	156
H15002U	- Health plan(s) covered: Continued Health Care Benefit Program (CHCBP).....	156
H15002V	- Health plan(s) covered: TRICARE Young Adult Ex or Standard	156
H15003	- Which health plan did you use most in the past 12 months?	158
H15004	- Months or years in a row with health plan	159
H15005	- In last year: facility used most for health care	159
H15006	- In last year: have illness/injury/condition that needed care right away	159
H15007	- In last year: how often got care as soon as you believed you need it	160
H15008	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury.....	160
H15009	- In last year: made appointments for non-urgent health care	160
H15010	- In last year: how often got appointments for non-urgent health care as soon as you wanted	161
H15011	- In last year: days between making an appointment for regular or routine care and actually seeing a provider.....	161
H15012	- In last year: times went to an emergency room for own care	161
H15013	- In last year: times went to a doctor's office or clinic for yourself (not counting times went to an emergency room).....	162
H15014	- In last year: how often talk to doctor or other health care provider about illness prevention.....	162
H15015	- In last year: doctor or other health care provider talked about more than 1 choice for treatment	162
H15016	- In last year: doctor talked about pros/cons of each treatment/health care choice	162

H15017	- In last year: doctor/health care provider asked which treatment option you thought was best for you when there was more than one choice of treatment	163
H15018	- Rating of all health care in last year	163
H15019	- Have one person you think of as your personal doctor	163
H15020	- In last year: number of times visited personal doctor for care for self	164
H15021	- In last year: how often personal doctor listened carefully to you	164
H15022	- In last year: how often personal doctor explained things in a way that was easy to understand.....	164
H15023	- In last year: how often your personal doctor showed respect for what you have to say	165
H15024	- In last year: how often your personal doctor spent enough time with you	165
H15025	- In last year: got care from doctor or other health provider other than personal doctor	165
H15026	- In last year: how often personal doctor seemed informed and up-to-date about care received from other doctors	165
H15027	- Rating of your personal doctor	166
H15028	- In last year: tried to make appointment to see a specialist.....	166
H15029	- In last year: how often it was easy to get appointments with specialists	166
H15030	- In last year: how many specialists seen	167
H15031	- Rating of specialist seen most often in last year	167
H15032	- In last year: tried to get care, tests, or treatment through health plan	167
H15033	- In last year: how often easy to get care, tests, or treatment you thought you needed through health plan.....	168
H15034	- In last year: looked for information in written material or on the Internet about how health plan works.....	168
H15035	- In last year: how often written material/Internet provide information you needed about how your plan works.....	168
H15036	- In last year: looked for information from health plan on cost of health care service or equipment.....	168
H15037	- In last year: how often able to find out from health plan cost of health care service or equipment.....	169
H15038	- In last year: looked for information from health plan on cost of prescription medications	169
H15039	- In last year: how often able to find out cost of prescription medications	169
H15040	- In last year: tried to get information or help from health plan's customer service	169
H15041	- In last year: how often did customer service give needed information or help.....	170
H15042	- In last year: how often did customer service treat with courtesy and respect	170
H15043	- In last year: health plan gave forms to fill out	170
H15044	- In last year: how often forms from health plan were easy to fill out.....	171
H15045	- In last year: sent in any claims to your health plan	171
H15046	- In last year: how often health plan handled claims quickly.....	171
H15047	- In last year: how often health plan handled claims correctly	172
H15048	- Rating of all experience with health plan	172
H15049	- Blood pressure: when last reading	172
H15050	- Blood pressure: know if blood pressure is too high or not.....	173
H15051	- When did you last have a flu shot	173
H15052	- Smoked at least 100 cigarettes in life.....	173
H15053	- Smoke or use tobacco everyday, some days, or not at all.....	173
H15054	- Last year: how often advised by doctor to quit smoking or use tobacco	173
H15055	- Last year: how often medication was recommended or discussed by doctor to assist with quitting smoking or using tobacco	174
H15056	- Last year: how often doctor recommended or discussed methods and strategies to assist quitting smoking or using tobacco.....	174
H15057A	- Do you smoke or use: cigarettes	174
H15057B	- Do you smoke or use: dip, chewing tobacco, snuff, or snus	175
H15057C	- Do you smoke or use: cigars.....	175
H15057D	- Do you smoke or use: pipes, bidis, or kreteks	175

H15058	- Are you male or female	175
H15059B	- Female: last have a Pap smear test.....	176
H15060	- Female: are you under age 40	176
H15061	- Female: last time breasts checked by mammography.....	176
H15062	- Female: been pregnant in last year or pregnant now	177
H15063	- Female: in what trimester is your pregnancy.....	177
H15064	- Female: trimester first received prenatal care	177
H15065	- In general how would you rate your overall health.....	177
H15066	- Limited in any way in any activities because of any impairment or health problem	178
H15067	- In last year: seen doctor or other health provider 3 or more times for same condition or problem.....	178
H15068	- Condition lasted for at least 3 months	178
H15069	- Need to take medicine prescribed by a doctor	178
H15070	- Medicine to treat condition that has lasted for at least 3 months	178
H15071F	- Feet portion of height without shoes.....	179
H15071I	- Inches portion of height without shoes	179
H15072	- Weight without shoes in pounds.....	179
H15073	- Are you Spanish, Hispanic, or Latino	184
H15073A	- No, not Spanish, Hispanic, or Latino	184
H15073B	- Yes, Mexican, Mexican American, Chicano	184
H15073C	- Yes, Puerto Rican.....	185
H15073D	- Yes, Cuban.....	185
H15073E	- Yes, other Spanish, Hispanic, or Latino	185
H15074	- Currently covered by Medicare.....	186
H15075	- Currently covered by Medicare part A	187
H15076	- Currently covered by Medicare part B	187
H15077	- Enrolled in a Medicare Advantage plan.....	187
H15078	- Currently covered Medicare supplemental.....	187
H15079	- Enrolled in Medicare Part D.....	188
HP_BP	- Blood pressure check in last 2 years and know results.....	224
HP_CESH3	- Had smoking cessation counseling - HEDIS (modified).....	225
HP_FLU	- Age 65 and older: flu shot in last 12 months	224
HP_MAM50	- Women age 50 and over: mammography in past 2 years	224
HP_MAMOG	- Women age 40 and over: mammography in past 2 years	224
HP_OBESE	- Obese or morbidly obese	225
HP_PAP	- All women: pap smear in last 3 years.....	224
HP_PRNTL	- Pregnant in last year received care in 1st trimester	223
HP_SMKH3	- Smoker under HEDIS definition (modified)	225
HP_SMOKE	- Advised to quit smoking in last 12 months	225
JSFLAG	- Joint Service Flag.....	217
KCIVINS	- Beneficiary covered by civilian insurance	223
KCIVOPQY	- Outpatient visits to civilian facility	223
KEYCOUNT	- Number of key questions answered	208
KMILOPQY	- Outpatient visits to military facility.....	223
MISS_1	- Count of original survey responses (pre-cleaning): violates skip pattern	216
MISS_4	- Count of original survey responses (pre-cleaning): incomplete grid error.....	216
MISS_5	- Count of original survey responses (pre-cleaning): scalable response of don't know	216
MISS_6	- Count of original survey responses (pre-cleaning): not applicable - valid skip.....	217
MISS_7	- Count of original survey responses (pre-cleaning): out-of-range error.....	217
MISS_9	- Count of original survey responses (pre-cleaning): no response - invalid skip	217
MISS_TOT	- Total number of missing responses (pre-cleaning).....	217
MPCSMPL	- Military personnel category.....	149
MPRID	- Unique MPR identifier.....	141

N9	- Coding Scheme Note 9	211
NHFF	- Stratum sample size	149
ONTIME	- Responded within 8 weeks of mail-out	207
OUTCATCH	- Out of catchment area indicator	221
PATCAT	- Aggregated beneficiary category	154
PCM	- Primary manager code (civilian or military)	152
PNSEXCD	- Person gender	151
PNTYPECD	- Person type code	154
POSTCELL	- Poststratification cell for new weights	229
QUARTER	- Survey quarter	149
RACEETHN	- Race/Ethnic code	151
RDAGEQY	- Age at time of sample preparation-Capped (18 and below, 86 and above)	151
RFLDAGE	- Age at start of fielding period-Capped (18 and below, 86 and above)	152
S15009	- Had the same personal doctor or nurse before joining this health plan	188
S15010	- Since joined health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?	188
S15011	- Agree/disagree: Able to see provider when needed	188
S15014	- How satisfied with health care during last visit	189
S15B01	- Self rating of overall mental/emotional health	189
S15B02	- Last year: needed treatment/counseling for personal/family problem	189
S15B03	- Last year: problem getting needed treatment/counseling	189
S15B04	- Last year: rating of treatment/counseling received	190
S15BE01A	- Has a doctor told you you have conditions: heart attack	206
S15BE01B	- Has a doctor told you you have conditions: angina or coronary heart disease	206
S15BE01C	- Has a doctor told you you have conditions: stroke	207
S15BE01D	- Has a doctor told you you have conditions: diabetes or high blood sugar	207

S15J01	- Can obtain civilian health insurance for self	190
S15J02A	- Obtain civilian coverage: my current employer.....	190
S15J02B	- Obtain civilian coverage: previous-employer COBRA.....	190
S15J02C	- Obtain civilian coverage: previous-employer retirement.....	191
S15J02D	- Obtain civilian coverage: family member's employer	191
S15J02E	- Obtain civilian coverage: family member's previous-employer COBRA.....	191
S15J02F	- Obtain civilian coverage: family member's retirement.....	191
S15J02G	- Obtain civilian coverage: another organization.....	191
S15J02H	- Obtain civilian coverage: government program.....	192
S15J02I	- Obtain civilian coverage: don't know	192
S15J03	- Are you/family covered by a civilian policy.....	192
S15J04	- Pay all or part of civilian insurance premium.....	192
S15J05	- How much per month you/family pay for coverage	193
S15J06	- Used civilian coverage in past year	197
S15J07A	- Not used civilian coverage: not available	197
S15J07B	- Not used civilian coverage: better choice of doctors with TRICARE.....	197
S15J07C	- Not used civilian coverage: do not want to pay the premium for civilian coverage.....	197
S15J07D	- Not used civilian coverage: TRICARE has better customer service	198
S15J07E	- Not used civilian coverage: benefits are poor.....	198
S15J07F	- Not used civilian coverage: personal doctor not available.....	198
S15J07G	- Not used civilian coverage: always want military health care	198
S15J07H	- Not used civilian coverage: TRICARE costs less.....	198
S15J07I	- Not used civilian coverage: prefer military doctors.....	199
S15J07J	- Not used civilian coverage: prefer military hospitals.....	199
S15J07K	- Not used civilian coverage: have not needed health care	199
S15J07L	- Not used civilian coverage: another reason	199
S15J07M	- Not used civilian coverage: employer bonus	199
S15J07N	- Not used civilian coverage: family member's employer bonus.....	200
S15J07O	- Not used civilian coverage: better quality care through TRICARE	200
S15J08	- Used TRICARE for non-prescription drug health care	200
S15J09A	- Not used TRICARE: better choice of civilian doctors	200
S15J09B	- Not used TRICARE: I do not want to pay the premium for TRICARE.....	200
S15J09C	- Not used TRICARE: better civilian customer service	201
S15J09D	- Not used TRICARE: personal doctor not available	201
S15J09E	- Not used TRICARE: benefits are poor	201
S15J09F	- Not used TRICARE: easier to get civilian care.....	201
S15J09G	- Not used TRICARE: civilian plan costs less.....	201
S15J09H	- Not used TRICARE: no military facility near me.....	202
S15J09I	- Not used TRICARE: prefer civilian doctors	202
S15J09J	- Not used TRICARE: prefer civilian hospitals.....	202
S15J09K	- Not used TRICARE: have not needed health care.....	202
S15J09L	- Not used TRICARE: another reason	202
S15J10	- Dropped civilian coverage in past year.....	203
S15J11A	- Dropped civilian coverage: lost job.....	203
S15J11B	- Dropped civilian coverage: spouse or parent lost job.....	203
S15J11C	- Dropped civilian coverage: changed jobs.....	203
S15J11D	- Dropped civilian coverage: spouse or parent changed jobs.....	203
S15J11E	- Dropped civilian coverage: retired from job.....	204
S15J11F	- Dropped civilian coverage: spouse or parent retired	204
S15J11G	- Dropped civilian coverage: moved to new location	204
S15J11H	- Dropped civilian coverage: you/spouse/parent became active reservist.....	204
S15J11I	- Dropped civilian coverage: you/spouse/parent returned to Select Reserves	204
S15J11J	- Dropped civilian coverage: employer changed plans	205
S15J11K	- Dropped civilian coverage: found less expensive plan.....	205
S15J11L	- Dropped civilian coverage: married, divorced, or widowed	205
S15J11M	- Dropped civilian coverage: went on Medicare	205
S15J11N	- Dropped civilian coverage: problems with health plan	205

S15J12	- Main reason dropped civilian coverage	206
SERVAFF	- Service affiliation	150
SEXSMPL	- Sex sampling variable	141
SRAGE	- What is your age now?	186
SREDA	- Highest grade completed	184
SRRACEA	- Race: White	185
SRRACEB	- Race: Black or African American	185
SRRACEC	- Race: American Indian or Alaska native	185
SRRACED	- Race: Asian	186
SRRACEE	- Race: Native Hawaiian/other Pacific Islander	186
STRATUM	- Sampling stratum	141
SVCSMPL	- Branch of service sampling variable	141
TNEXREG	- TRICARE next generation of contracts region grouping	150
USA	- CONUS/OCONUS indicator	221
WEB	- Web survey indicator	208
XBENCAT	- Beneficiary category	219
XBMI	- Body mass index	222
XBMICAT	- Body mass index category	222
XBNFGRP	- Constructed beneficiary group	222
XCATCH	- XCATCH - Catchment area (reporting)	226
XENR_PCM	- Enrollment by PCM type	218
XENR_RSV	- Enrollment by PCM type - reservist	219
XENRLLMT	- Enrollment in TRICARE prime	218
XINS_COV	- Insurance coverage	218
XINS_RSV	- Insurance coverage - reservist	220
XOCONUS	- Overseas Europe/Pacific/Latin indicator	221
XREGION	- Region	220
XSERVAFF	- Service affiliation	222
XSEXA	- Male or female (recode)	221
XTNEXREG	- TRICARE next generation of contracts region grouping	221

Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the Quarter II, 2015 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to assist users in creating tables and generating analyses above and beyond those associated with this project.

Beginning with 2006, reporting and documentation of the HCSDB are performed on a fiscal year basis. In previous years, reporting and documentation were based on calendar years. Thus, the current codebook describes the Quarter II, 2015 dataset for fiscal year 2015. Throughout, 2015 Quarter II dataset refers to the fiscal year 2015.

This version of the Codebook and User's Guide describes the Quarter II data set. It contains frequency counts of all variables in the second quarter of fiscal year 2015.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

HOW TO USE THIS GUIDE

Chapter 2 describes the survey fielding process.

Chapter 3 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 4 provides table-making instructions in both Statistical Analysis System (SAS) and Statistical Package for the Social Sciences (SPSS) and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™, WesVarPC®, or SAS/STAT® V8 or higher. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 5, where we give the quarterly counts for each variable in the database, including a list of all existing values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata

- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling
- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis
- Poststratification variables
- Weights

In addition, users may refer to the Table of Variables and the Alphabetical Table of Variables, which follow directly after the Table of Contents, for quick-reference lists intended to assist users in locating each variable.

Users interested in learning more about the technical aspects of the database creation, construction of new variables, or Mathematica's report production procedures may refer to "The 2015 Health Care Survey of DoD Beneficiaries: Adult Technical Manual," available in late 2015 from the Defense Health Agency Office.

What is the HCSDB?

The HCSDB is a health care survey of Active Duty military personnel, retirees, and their adult family members. Prior to 2011, it was comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. In 2011, only the adult survey was fielded to a representative sample of beneficiaries. Prior to 2013, the adult survey was fielded every quarter, whereas the child survey was fielded only in one quarter of each fiscal year. Beginning in FY 2013, the surveys for quarter four were canceled as a result of sequestration. Results from each quarter of the adult survey are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The survey collects data on beneficiaries' satisfaction with, and access to, health care; knowledge of the TRICARE system; and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly (with a change to 3 quarters starting in 2013 as noted above) and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2015 HCSDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, and 2012, as well as 3 quarters of 2013 and 2014. The annotated questionnaire for this quarter, including the percent of responses for each variable value by all respondents to each question, appears in Appendix A. A crosswalk between the 2015 questions and the questions from the 2007, 2008, 2009, 2010, 2011, 2012, 2013 and 2014 surveys appears as Appendix C.

CAHPS Questions

To make responses comparable to civilian surveys, the HCSDB core questions are similar in content and format to questions used in the Consumer Assessment of Healthcare Providers and Systems (CAHPS) Health Plan Survey. CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality (AHRQ), U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services. In 2015, the questionnaire was based on CAHPS version 5.

Core questions are described below.

Core questions

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance. Respondents are also asked about their Medicare coverage.
- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It covers topics such as the availability of providers and their staff for both urgent and regular care. Respondents are asked to rate their health care on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating. They are also asked if the health care providers informed them of the available treatment options.
- **Your Personal Doctor.** In this section, respondents are asked about their relationship with their personal doctor. They are asked to rate their personal doctor on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating. It also covers topics like the ability of the personal doctor to listen carefully and respectfully, clearly explain things, and be informed about care received from another doctor.
- **Getting Health Care from a Specialist.** This section collects information about respondents' access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0 is the lowest rating and 10 is the highest rating. Additionally, respondents are asked questions about any problems they may have encountered with getting necessary care, claims processing, customer service, processing paperwork, and finding necessary information in written materials or from the Internet.
- **Preventive Care.** This section collects information on the use of preventive health care services, including blood pressure readings and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography. All respondents are asked whether they smoke or use tobacco products. Tobacco users are asked to identify the type of tobacco products they used and how often they received cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health. They are further asked to report their height, weight, education level, race, and age.

Quarter II Supplements

- **Civilian Health Insurance Coverage.** Questions in this supplement concern those that are eligible for TRICARE and also have the opportunity to obtain other health insurance. Respondents are asked questions on their civilian coverage as well as their use of TRICARE.
- **Personal Doctor.** Questions in this supplement ask about the availability of the respondent's health provider and their satisfaction with their health care on their last visit.
- **Medical Conditions.** Questions in this supplement ask whether the respondent has ever been told they have one or more serious medical conditions, including heart attack and stroke.

Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a specific reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on Active Duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days), and other special categories of people who qualify for benefits
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members of people from the first two categories.

A stratified sample design was used to select DoD health care beneficiaries for the Quarter II, 2015 Adult HCSDB. Specific information on the sample design appears in "Health Care Survey of DoD Beneficiaries: 2015 Adult Sampling Report", Mathematica Policy Research, Washington, D.C.

From a sample of 100,000 beneficiaries, 8,901 adult MHS beneficiaries completed and returned a 2015 Adult HCSDB questionnaire for the second quarter, yielding a response rate of 9.0 percent. Information on developing response rates will be found in the "2015 Health Care Survey of DoD Beneficiaries: Adult Technical Manual".

Other Documents on the 2015 HCSDB

This document is intended for programmers and analysts using the Quarter II, 2015 Adult HCSDB data. The following is a list of other documents that may be requested from the Defense Health Agency Office:

- 2015 Health Care Survey of DoD Beneficiaries: Adult Technical Manual (Available late 2015)
- 2015 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report (Available late 2015)

Chapter
2

Survey of Adults

This chapter presents information on the survey administration cycle for the Quarter II, 2015 Adult Health Care Survey of DoD Beneficiaries (HCSDB), with specific details on the survey mailing cycle and the number of surveys returned.

A. SURVEY OPERATIONS ACTIVITIES

The Health Care Survey of DoD Beneficiaries (HCSDB) converted from a mail survey with Internet option in previous years to an all-Internet survey in FY2014. Operational support for the Quarter II, 2015 HCSDB involved two mailings to all beneficiaries on January 6, 2015 and February 4, 2015 and six emailings to Active Duty members from January 13, 2015 to February 24, 2015.

The mailings include:

1. Invitation letter with instructions on how to access the Internet survey.
2. Reminder letter with instructions on how to access the internet survey.

Both the Invitation Letter and the Reminder Letter include instructions on how to do the survey via the Internet and provide the respondent with their internet password. The Reminder Letter encourages the beneficiary to complete the survey if they have not yet done so. Furthermore, Mathematica emailed the Active Duty members six times over the course of the Quarter II survey period. Each email included the service members' password for the survey.

B. SAMPLE

A change in the sample file to increase response rate was initiated in Quarter I, 2014. Up to Quarter I, 2009, the Adult HCSDB was conducted quarterly on a sample of 50,000 beneficiaries, and starting in Quarter II, 2009, the sample size was increased to 51,000. In Quarter I, 2014 the sample size was again increased, this time to approximately 100,000 records.

The Quarter II, 2015 sample contained 99,691 records. This quarter the HCSDB invitation letter was mailed/emailed out to 99,047 respondents. The remaining 644 records did not include either the respondents' names or addresses (or in the case of Active Duty, the email or mailing address) and so were not able to be mailed/emailed.

C. SURVEY PROCESSING

Ipsos applies a Bar Code, Control Number (MIQ) and Password to each beneficiary upon receipt of the sample. This system ensures that all data collected is aggregated and available throughout the survey lifecycle. Each of the identifying labels is detailed below:

Bar Code

Digit 1 - Quarter Marker (1-4)

Digit 2 - Wave Marker (1-4)

Digit 3 - Study Marker (1=sample, 2=supplemental, 3=child)
Digits 4-8 - Sequential ID#

Control Number (MIQ) - 10-digit unique identifier
Digits 1-9 – Sequential ID #
Digit 10 – Check Digit

Password

Non-sequential 7-digit password (for online response access) – To ensure that the password is unique across all samples and across all DoD studies, the first digit is assigned to a specific quarter and study.

D. ADDRESSES

The HCSDB is designed so that beneficiaries may receive up to three mailings. Ipsos may collect up to seven addresses for each beneficiary in order to maximize the receipt rate for mailing. Addresses from Center for Health Care Strategies, Inc (CHCS) were used starting in Quarter I, 2008.

The first available address in the following order was used for each mailing.

- | | |
|---|--|
| 1. Respondent Updated | 9. Updated Residential (depending on date in file) |
| 2. USPS Updated | 10. Updated Sponsor |
| 3. National Change of Address (NCOA) | 11. Updated Unit |
| 4. Default - CHCS | 12. Original CHCS |
| 5. Default – Residential | 13. Original Residential |
| 6. Default – Sponsor | 14. Original Sponsor |
| 7. Default - Unit | 15. Original Unit |
| 8. Updated CHCS (depending on date in file) | |

The origin of the addresses is as follows:

▪ Altarum/DEERS Addresses

In the initial sample file, Altarum provides up to four addresses for each beneficiary. Ipsos considers these addresses to be Original CHCS, Original Residential, Original Sponsor and Original Unit.

Altarum also provides updates on each of the four addresses prior to the invitation letter and reminder lettermailings. Ipsos records these addresses as CHCS Updated, Residential Updated, Sponsor Updated, Unit Updated.

▪ NCOA Address

Upon receipt of the initial sample and prior to the Pre-Notification mailing, Ipsos selects the best available address for each beneficiary and sends it to an NCOA vendor for updating and hygiene services. The updated address returned by the vendor is marked as the NCOA address. The definition of “best address” changed in Quarter I, 2009. Ipsos compared the date on the Residential address to the date on the CHCS address. The address that had the more current date was sent off for NCOA processing. If the dates were the same or if one/both were missing dates, then the hierarchy of CHCS then Residential would prevail.

- Respondent Address Changes

Respondents were able to report address and status changes via regular mail, telephone, fax, and email. Address changes submitted by respondent were considered priority over any other address type.

- Address Correction via USPS

The United States Postal Service provided address corrections on returned mail if available.

- Sample Refreshes

Another change made in Quarter I, 2009 was the use of the sample refreshes sent by Altarum for the first and second questionnaire mailings. Prior to Quarter I, 2009, Ipsos used information on recently deceased beneficiaries, information regarding beneficiaries who were no longer in the TRICARE program (nomatch), and any updated addresses for the subsequent mailings. Starting in Quarter I, 2009, Ipsos only used the deceased and nomatch information, and did not use any refreshed addresses in order to maintain the integrity of the NCOA address. Starting in Quarter IV, 2011, the only Active Duty respondents who were mailed surveys were those who did not have a valid/known email address.

Table 2.1 gives the address breakdown for each mailing by beneficiary category.

Table 2.1
 Frequency of Address by Beneficiary Category – Total Sample – Quarter II, 2015

Note: The survey invitation letters were mailed to all Beneficiaries.

E. SURVEY ADMINISTRATION TIMELINE

Quarter II

File Receipt	17 December
NCOA Update	18 December
Invitation letter	6 January
Email 1 reminder to AD	13 January
Altarum-DEERS Update	16 January
Email 2 reminder to AD	20 January
Email 3 reminder to AD	26 January
Reminder letter	4 February
Email 4 reminder to AD	5 February
Email 5 reminder to AD	13 February
Email 6 reminder to AD	24 February
Close of Field	2 March
File to MPR	16 March
Final Report to DoD	16 March

F. DISPOSITION CODES

Ipsos assigns disposition codes to each sample member as the information is received and questionnaire is returned. These codes are outlined below.

- FLAG_FIN=1
Returned survey – survey was completed and returned.
- FLAG_FIN=2
Returned ineligible – survey was returned with at least one question marked and information that the beneficiary was ineligible. The information indicating ineligibility may have come by mail, phone, fax, or the survey itself.
- FLAG_FIN=3
Returned blank – temporarily ill or incapacitated. Survey was returned blank along with information that the beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=4
Returned blank – deceased. Survey was returned blank along with information that the beneficiary was deceased. These sample members were ineligible.
- FLAG_FIN=5
Returned blank – incarcerated or permanently incapacitated. Survey was returned blank along with information that the beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG_FIN=6
Returned blank – left military or divorced after date of initial sample pull, retired. Survey was returned blank along with information that the beneficiary left the military after initial sample pull, divorced after initial sample pull, or retired. These sample members were eligible.

- FLAG_FIN=7
Returned blank – not eligible on date of initial sample pull. Survey was returned blank along with information that the beneficiary was not eligible for Military Health System Plan on initial sample pull. These sample members were ineligible.
- FLAG_FIN=8
Returned blank – other eligible. Survey was returned blank along with a reason given by the sample member. These sample members were eligible.
- FLAG_FIN=9
Returned blank – no reason. Survey was returned blank without an explanation. These sample members were eligible.
- FLAG_FIN=10
No return – temporarily ill or incapacitated. Survey was not returned and beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=11
No return – active refuser. Survey was not returned and beneficiary refused to take part in the survey. These sample members were eligible.
- FLAG_FIN=12
No return – deceased. Survey was not returned and beneficiary deceased. These sample members were ineligible.
- FLAG_FIN=13
No return – incarcerated or permanently incapacitated. Survey was not returned, beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG_FIN=14
No return – left military or divorced after date of initial sample pull, retired. Survey was not returned, beneficiary left service after initial sample pull, divorced after initial sample pull, or retired. These sample members were eligible.
- FLAG_FIN=15
No return – not eligible on date of initial sample pull. Survey was not returned, beneficiary was not eligible for Military Health System Plan on initial sample pull. These sample members were ineligible.

Example: Beneficiary turned 21 and is no longer covered under parents' plan.

- FLAG_FIN=16
No return – other eligible. Survey was not returned, beneficiary gave other reason for not completing the survey. These sample members were eligible.

Examples: Beneficiary claims they have not used benefits in past 12 months.
 Beneficiary is away at college, on a religious mission, lives overseas.
 Received information that beneficiary chosen for survey does not speak
 English well enough to participate.

- FLAG_FIN=17
No return – no reason. Survey was not returned, beneficiary gave no reason. These sample members had unknown eligibility.

- FLAG_FIN=18
Postal Non Deliverable (PND) – no address remaining. All addresses were attempted, mailing was returned PND. These sample members had unknown eligibility.
- FLAG_FIN=19
PND – address remaining at the close of field. At the close of field, the last address used was found invalid, next available was not attempted. These sample members had unknown eligibility.
- FLAG_FIN=20
Original Non-Locatable – no address at start of mailing. Substantially incomplete or blank address field before the survey was administered, no mailings attempted. These sample members had unknown eligibility.
- FLAG_FIN=21
Beneficiary provides written documentation declining to participate but doesn't specify a reason. These sample members were eligible.
- FLAG_FIN=22
Beneficiary indicates they are hospitalized but without providing any way to determine whether incapacity is temporary or permanent. Therefore, eligibility determination can not be made. These sample members had unknown eligibility.
- FLAG_FIN=23
Returned blank – deployed. Survey was returned blank along with information that the beneficiary was deployed. These sample members were eligible.
- FLAG_FIN=24
No return – deployed. Survey was not returned, beneficiary was deployed. These sample members were eligible.
- FLAG_FIN=25
Deceased. Beneficiary coded as deceased due to refresh sample sent by Altarum. These sample members were ineligible.
- FLAG_FIN=26
No match. Not eligible indicated by Altarum-DEERS update. Beneficiary coded as no longer having TRICARE coverage due to sample refresh.

Tables 2.2 shows frequencies of these disposition codes by beneficiary category.

Table 2.2

Frequency of Disposition by Beneficiary Category – Total Sample – Quarter I, 2015

Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

VARIABLE NAMING CONVENTIONS

The conventions used to name variables on the 2015 Adult HCSDB data file are listed below and summarized in Table 3.1. The naming conventions remain constant across the three quarters of the 2015 HCSDB.

- **Survey Variables.** Variable names for core survey questions consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("15") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the annotated survey. The original variables are suffixed with "_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. Like the core questions, supplemental questions also include up to eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("15"). The variable ends with an alphanumeric character or characters denoting the supplemental topic followed by the question number in the supplemental series as necessary.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables like N1-N25, reference the notes in the Coding Scheme for the Adult Survey. See Appendix D for the Coding Scheme for Quarter II for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable PNSEXCD was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2020 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Constructed Restricted Use Variables.** Original DEERS variables that have been recoded to maintain the confidentiality of the respondent are prefixed with "R."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "FW".

TABLE 3.1

NAMING CONVENTIONS FOR 2015 HCSDB VARIABLES – QUARTER II

1 st Character: Survey Type	2 nd – 3 rd Characters: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
H= Health Beneficiaries (18 and older, Adult Questionnaire) ----- S = Supplemental Question	15	001 to 079 ----- Quarter II 011, 014 – Supplemental questions about visits to the respondent’s healthcare provider. J01-J12 – Supplemental questions about civilian health care coverage.	A to V are used to label responses associated with a multiple response question
1 st Character: Survey Type	2 nd – 3 rd Characters: Survey Year	4 th – 7 th Characters: Question #	Additional Characters: Additional Information
S = Supplemental Question	15	Quarter II BE01 – Supplemental questions about medical conditions.	A to D are used to label responses associated with a multiple response question

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding Scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People 2020</i> variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
R=Constructed restricted use variables	Descriptive text, e.g., RDAGEQY (Age at time of data collection-capped-grouped those 18 and below, 86 and above)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)
FW=Quarterly weighting variables	Descriptive text, e.g., FWRWT for the overall final quarterly weight; Number referring to replicate weights, e.g., FWRWT10

CLEANING AND EDITING CONVENTIONS

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme for Quarter II appears in Appendix D. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when Ipsos created the SAS dataset:
 - Skipped items were encoded with SAS missing value code of ‘.’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “.N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “.C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “.O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in Quarter II, 2015 Adult HCSDDB data file appear in Chapter 5 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

RECORD SELECTION CRITERIA

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database. If there are multiple questionnaires received from a single respondent, only the most complete questionnaire is retained.

To determine if a questionnaire is “complete”, 20 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (more than nine) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H15003, H15005, H15006, H15009, H15013, H15018, H15019, H15027, H15028, H15031, H15033, H15040, H15043, H15048, H15051, H15052, H15065, H15073, SREDA, and the race indicator variables (SRRACEA-SRRACEE).

Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2015 Adult HCSDDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Basic sampling weights are equivalent to the reciprocal of the probability of each respondent’s selection into the sample. These basic sampling weights are further adjusted for nonresponse within the classes formed based on the percentiles of the propensity scores from the propensity model. Finally, we

poststratified the nonresponse adjusted weights to the frame totals to obtain specific domain weighted totals equal to the population totals. Chapter 5 contains the weighted and unweighted frequencies for each variable in Quarter II. For further details on the 2015 weighting, see “2015 Health Care Survey of DoD Beneficiaries: Technical Manual”.

Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the 2015 Quarter II HCSDB dataset.

HOW TO MAKE A TABLE USING SAS

The Quarter II, 2015 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 8.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 8.0 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the 2015 Quarter II adult dataset is located on a CD-ROM in the subdirectory HCSDB15\FORMA\Q2, your LIBNAME statement must look like this:

```
LIBNAME INFORMA 'F:\HCSDB15\FORMA\Q2';
```

The adult dataset can then be referred to as INFORMA.HCSDB15, where INFORMA is the location of the file HCSDB15.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

```
LIBNAME LIBRARY 'C:\HCSDB15\FORMA\Q2\FMTLIB';
```

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

```
OPTIONS PS=79 LS=132;
```

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

```
OPTIONS PS=50 LS=175 NOCENTER;
```

DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of Active Duty by sex:

```
/* Active Duty males */  
IF XSEX = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;  
* Active Duty females;  
ELSE IF XSEX = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;  
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /* */ or beginning with * and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION SVCSMPL H15050 H15052;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only TNEX region 3 observations */  
IF XTNEXREG = 3;
```

- Create a new temporary dataset. For example, SVC_1 is a temporary file of observations for only those respondents in service branch 1 (Army):

```
LIBNAME INFORMA 'F:\HCSDB15\FORMA\Q2';  
DATA SVC_1;  
/* Input file is HCSDB15 */  
SET INFORMA.HCSDB15;  
IF SVCSMPL = 1;  
RUN;
```

- Create a new permanent dataset. For example, OUT.SVC_2 is a permanent dataset only of Navy respondents:

```
LIBNAME INFORMA 'F:\HCSDB15\FORMA\Q2';  
LIBNAME OUT 'C:\HCSDB15\FORMA\Q2';  
DATA OUT.SVC_2;  
SET INFORMA.HCSDB15;  
IF SVCSMPL = 2;  
RUN;
```

PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;  
CLASS class variables;  
VAR analysis variables;  
TABLE << page expression, > row expression, > column expression </ table options >;  
WEIGHT FWRWT;  
RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in service branch 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE SVCSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XTNEXREG, XSEXA, and SVCSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE statement, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each *analysis variable*. In the HCSDB for Quarter II, 2015, the weight variable is FWRWT.

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

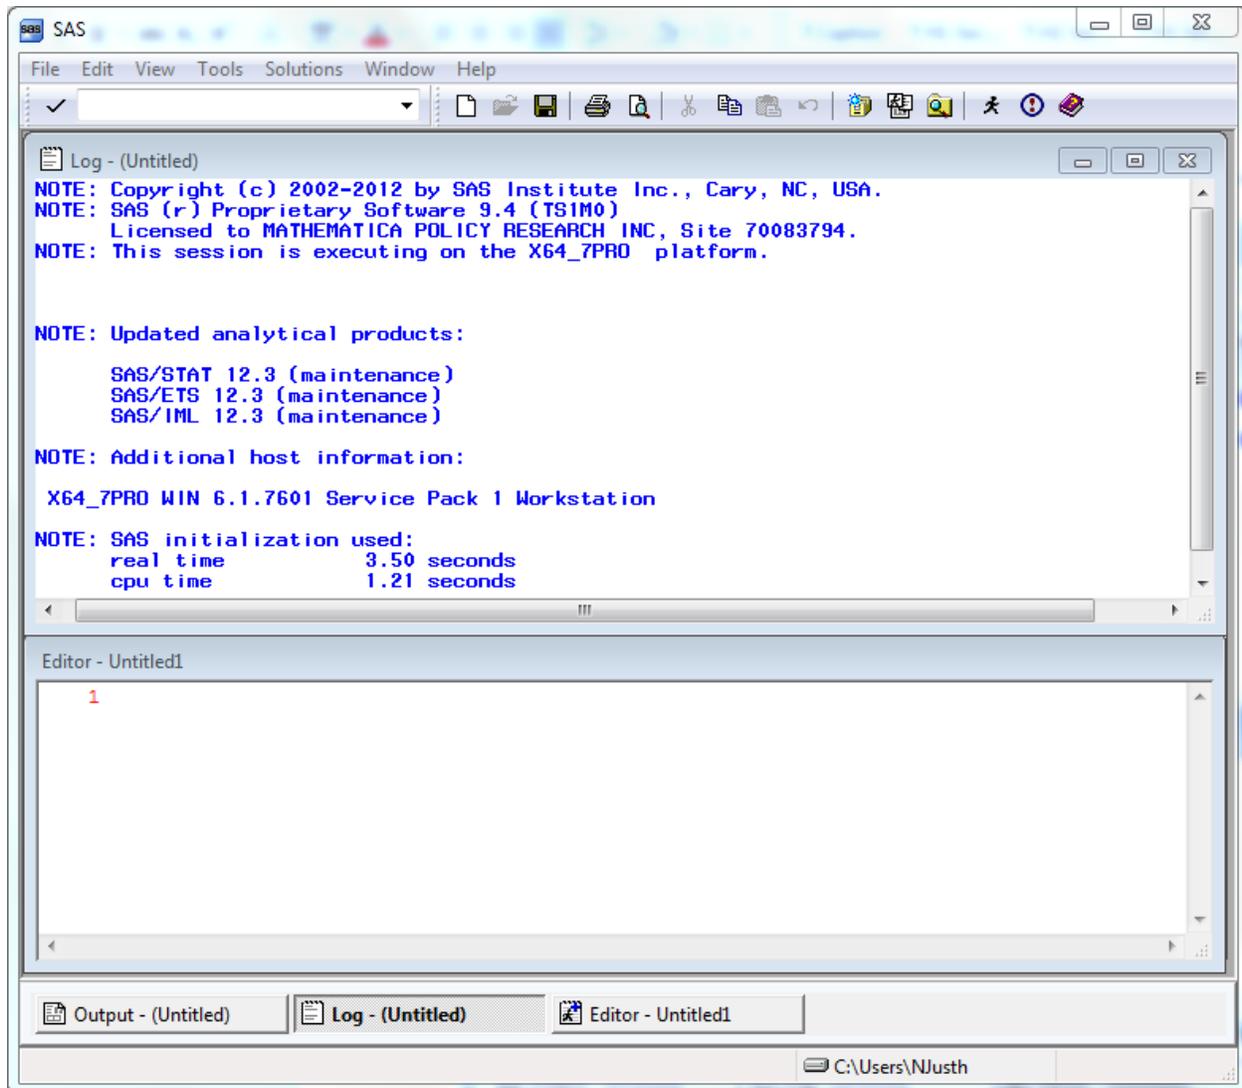

- Analysis variables

- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form =*label*; for example, XTNEXREG=TNEX Region' or MEAN=' ' (to eliminate the word MEAN from the headings).
- Crossing operator * (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H15018*MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H15018 H15048.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

(XBNFGRP ALL)*XSEXA

The SAS Display Manager System

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 9, the following screen opens.

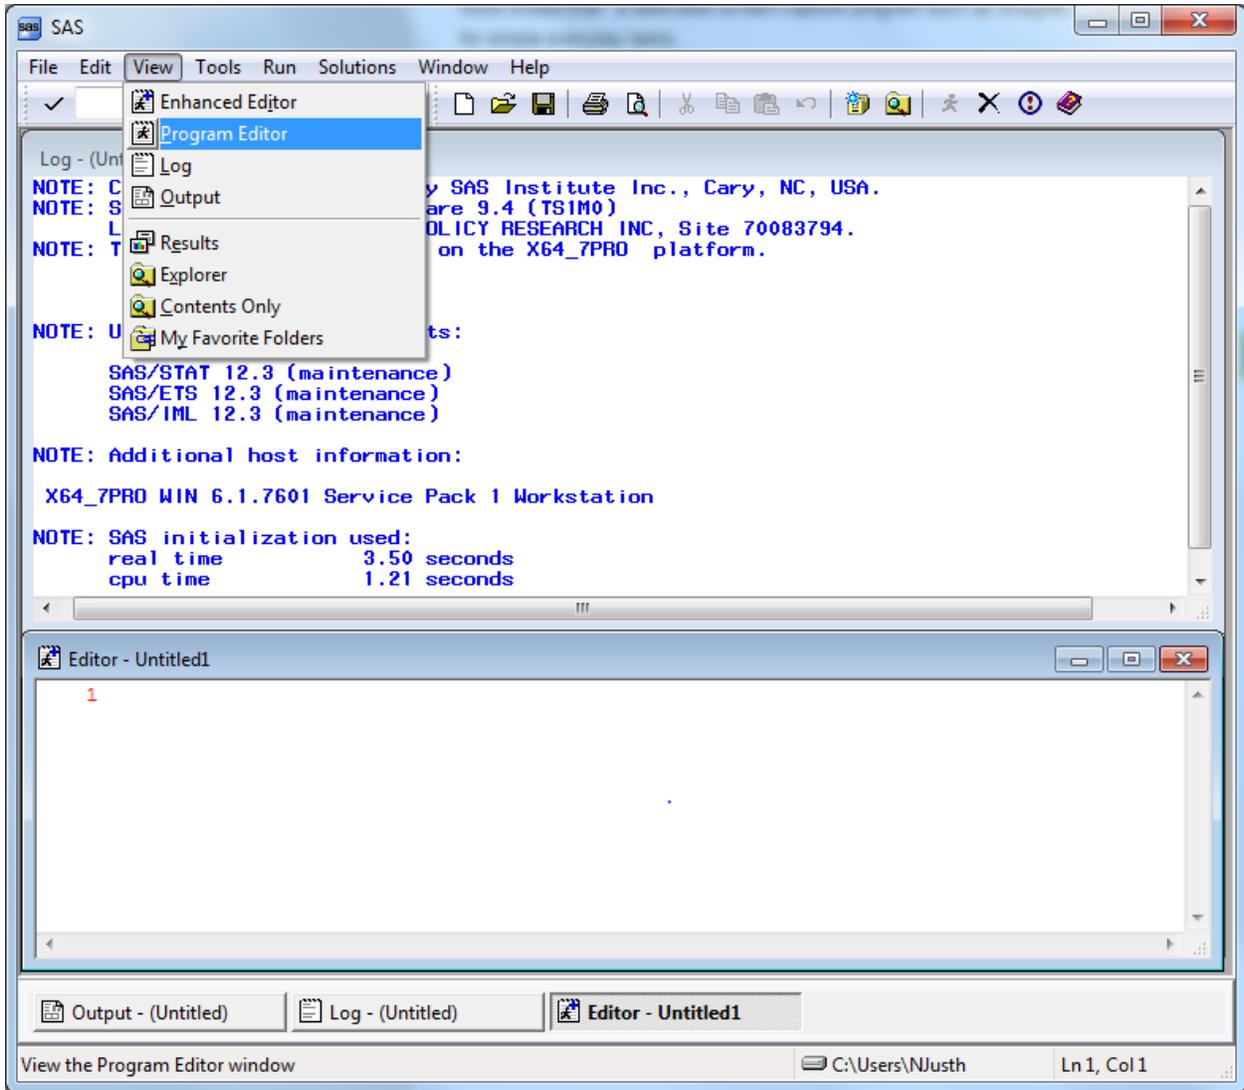

The screen is divided into two windows, a Log window above and an Editor window below.

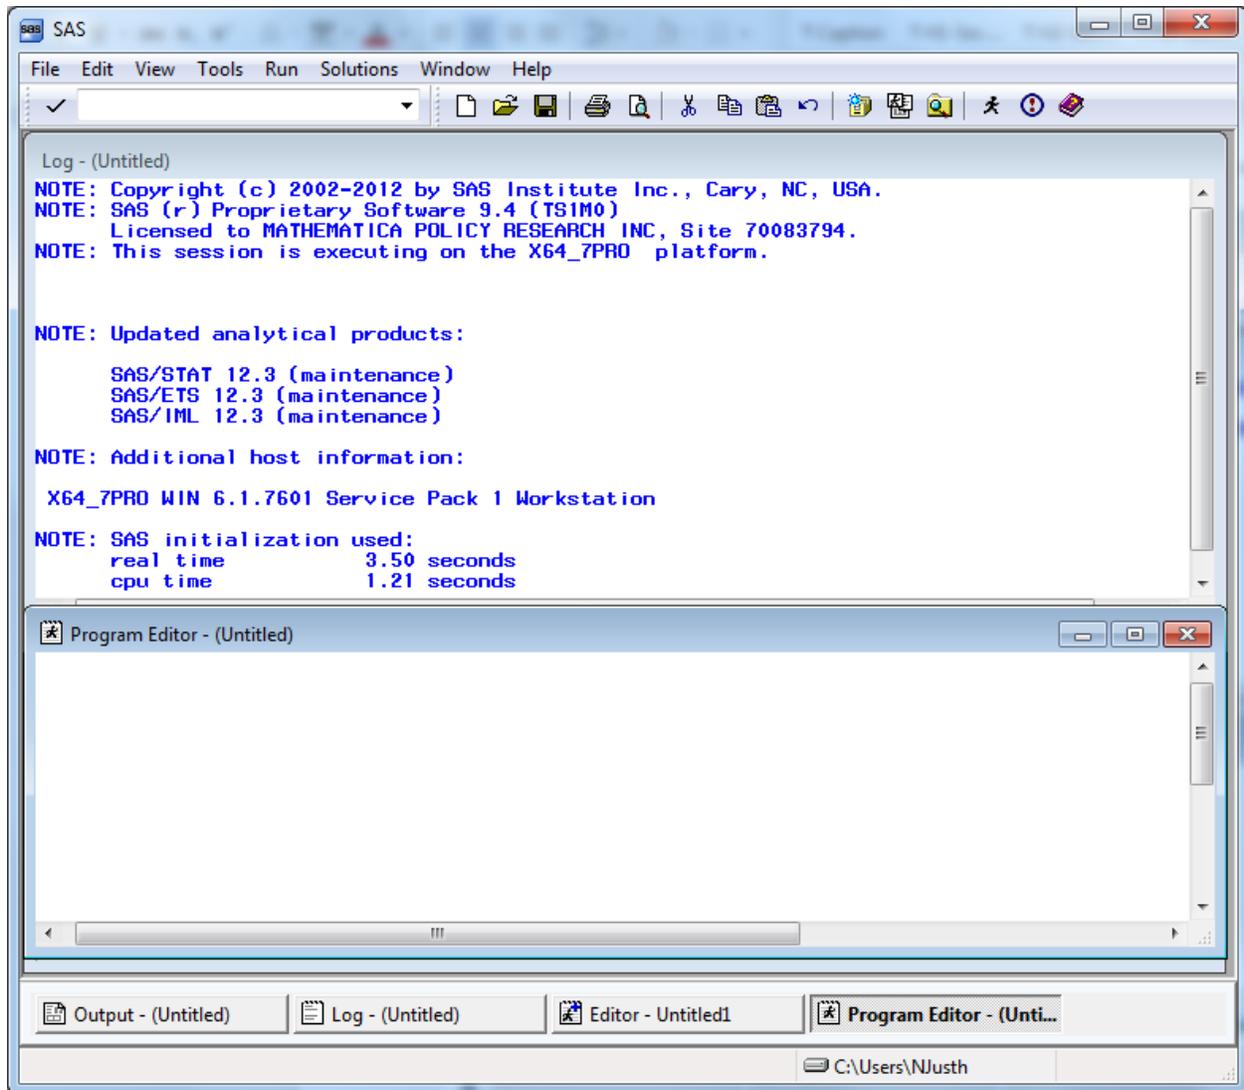

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 9 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

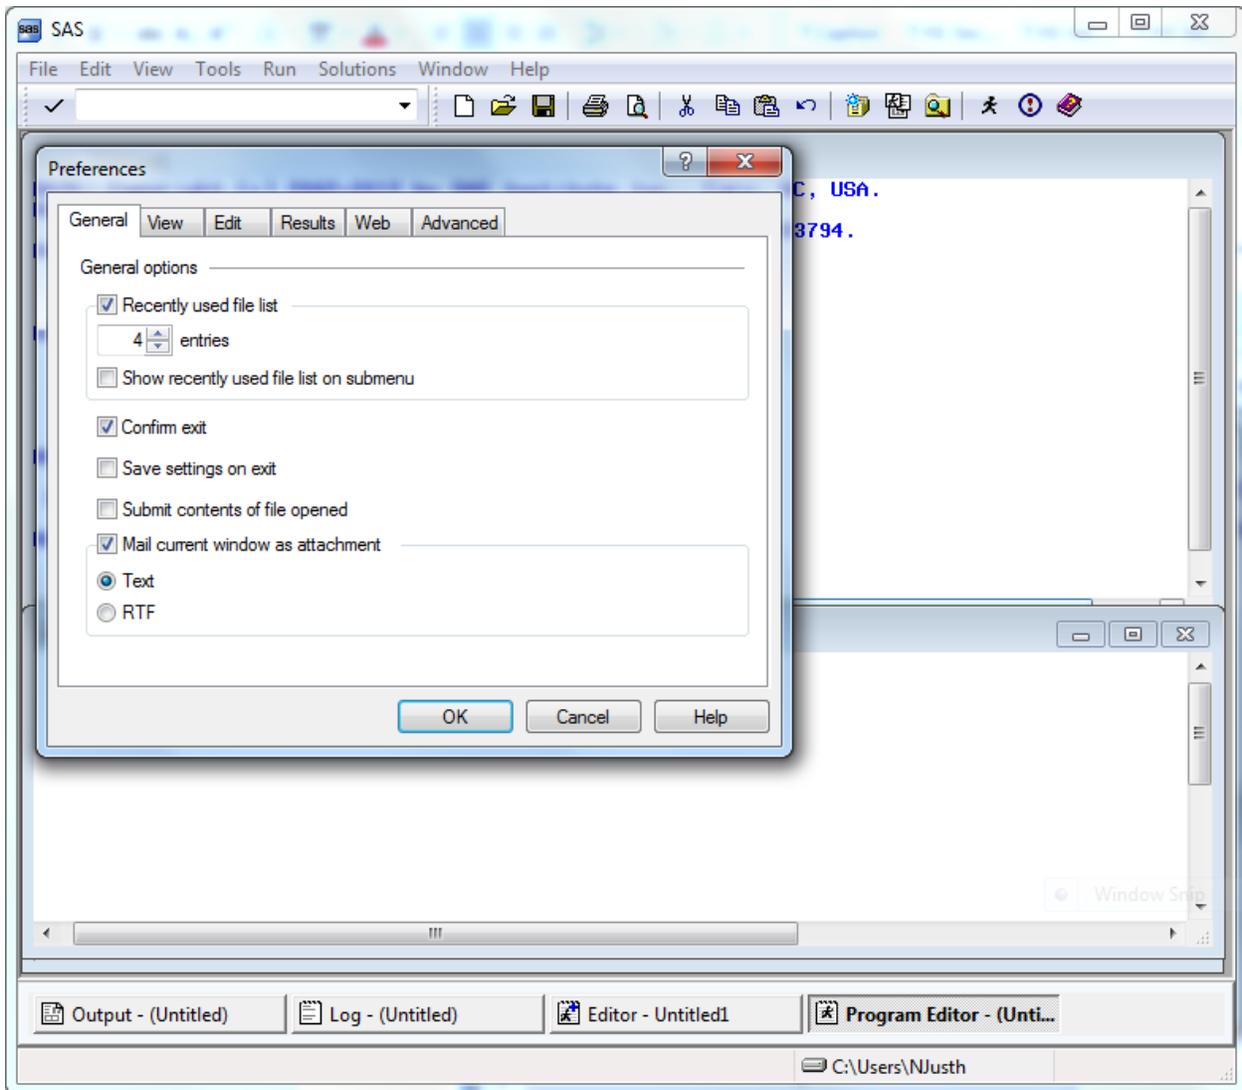

Click on View and select Program Editor as in the following:

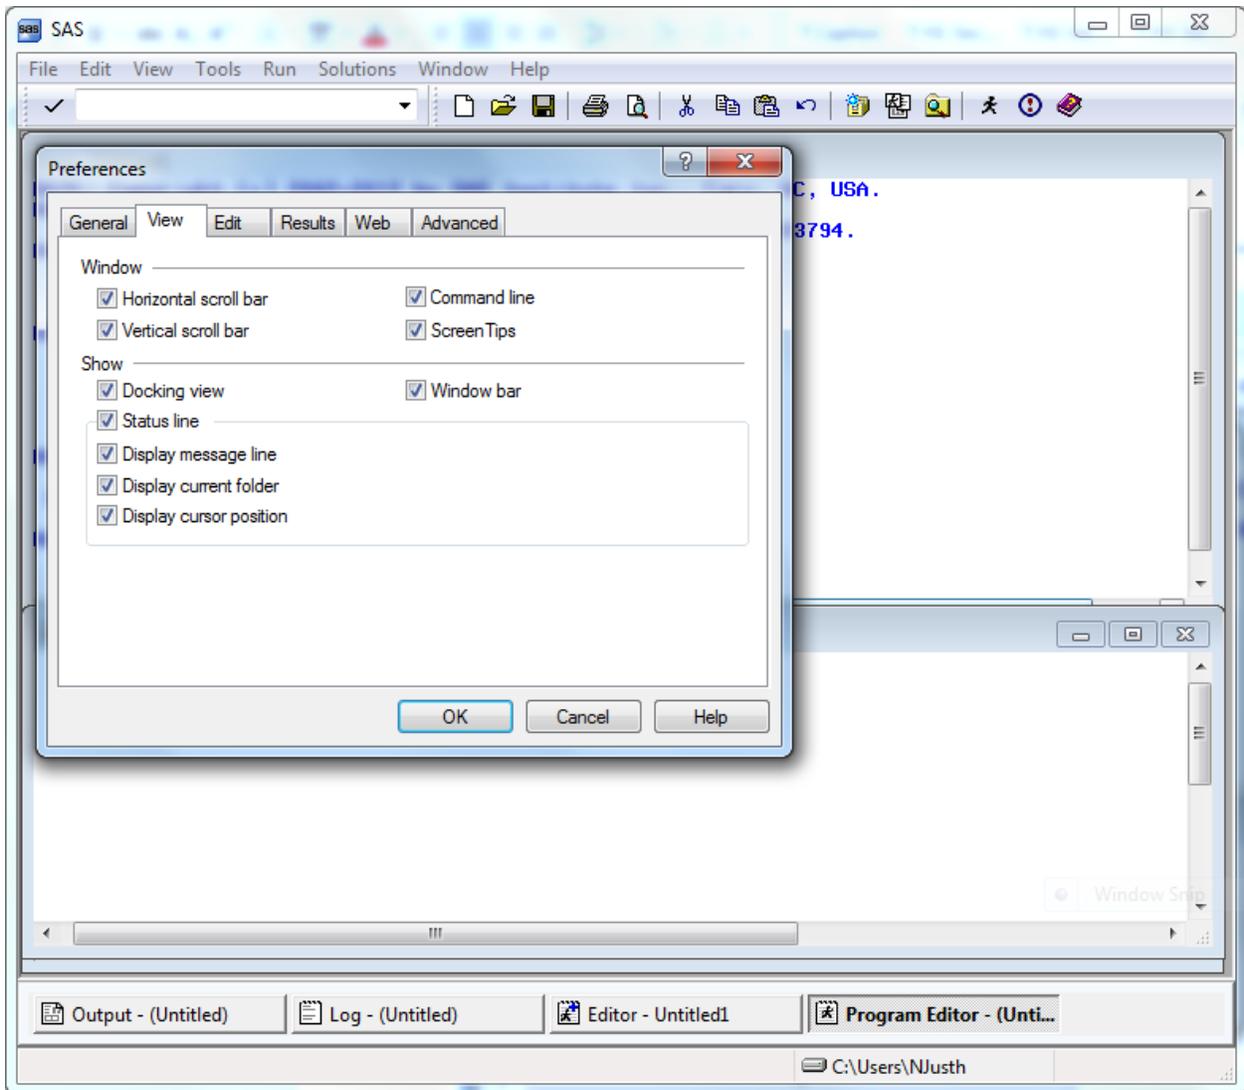

The lower Editor Window has now changed to Program Editor as in the following screen:

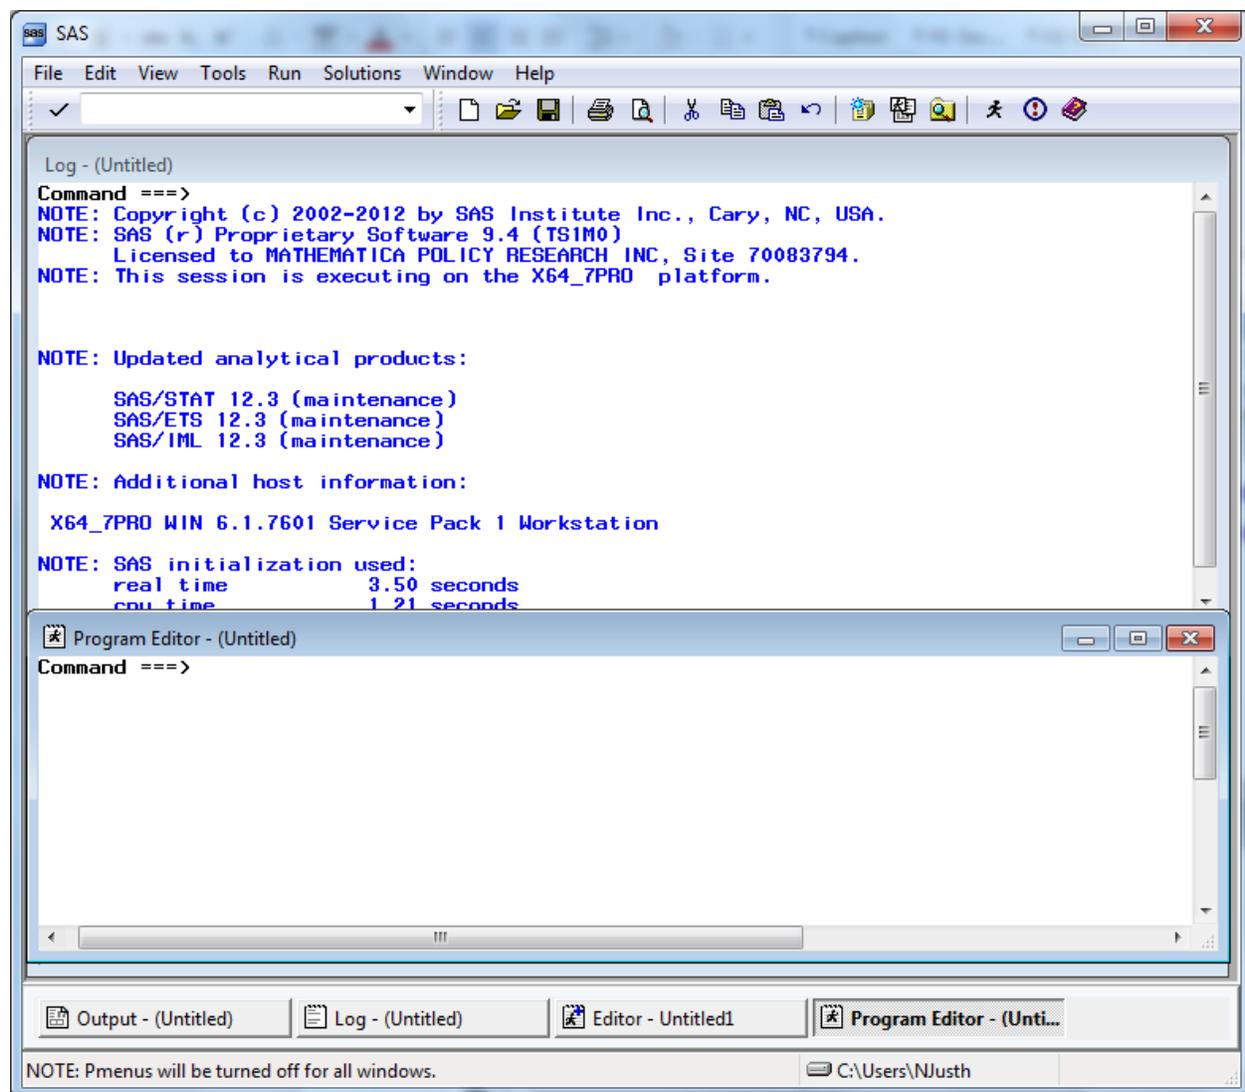

Open the Tools menu and choose Options and Preferences.

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

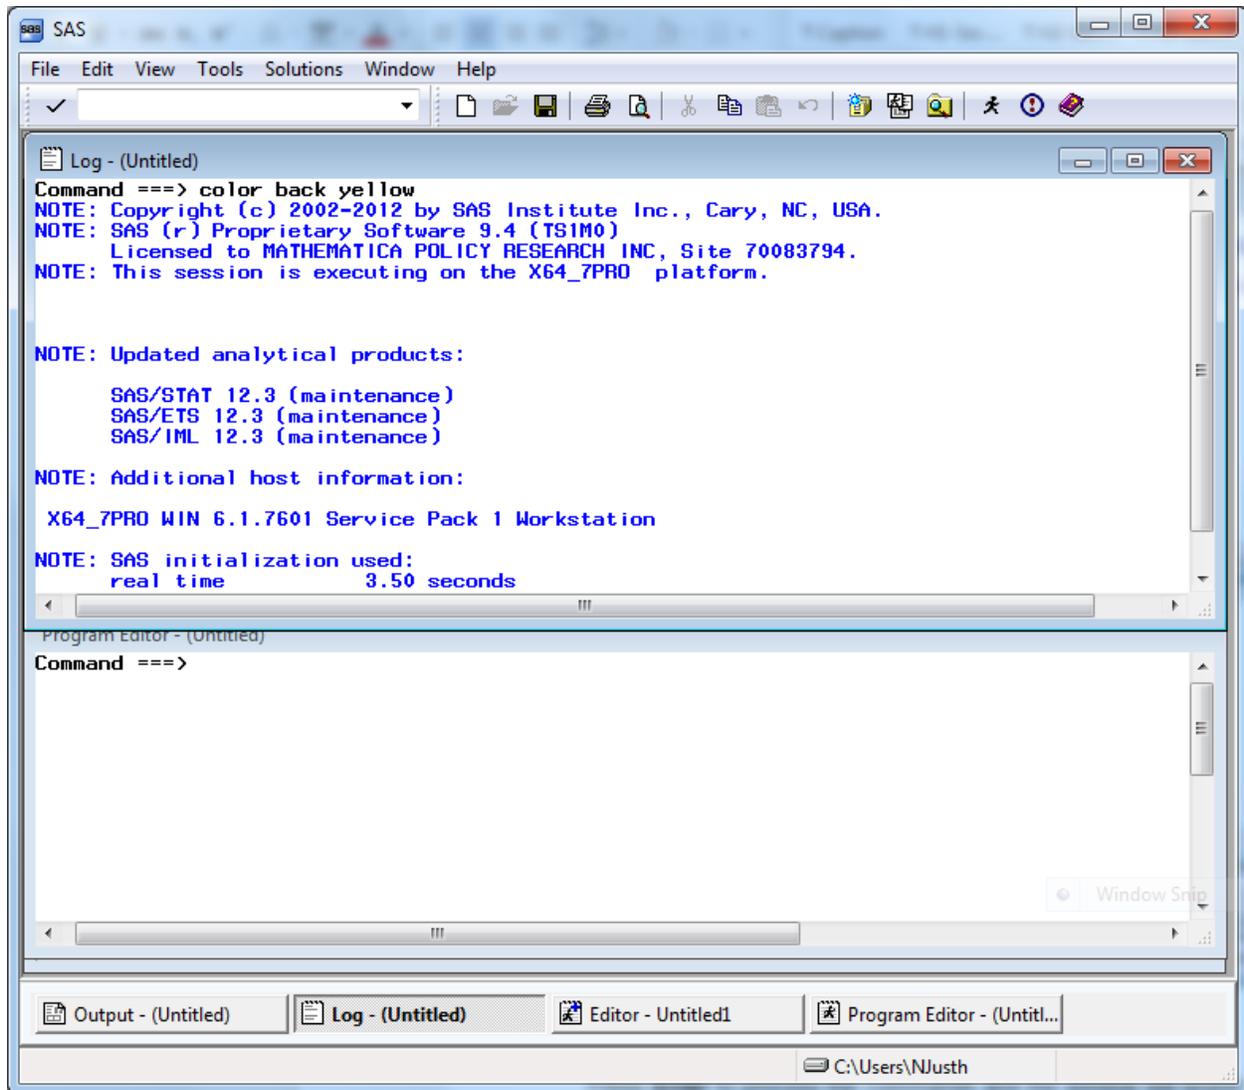

Click on OK and a command line will be added as in the screen below.

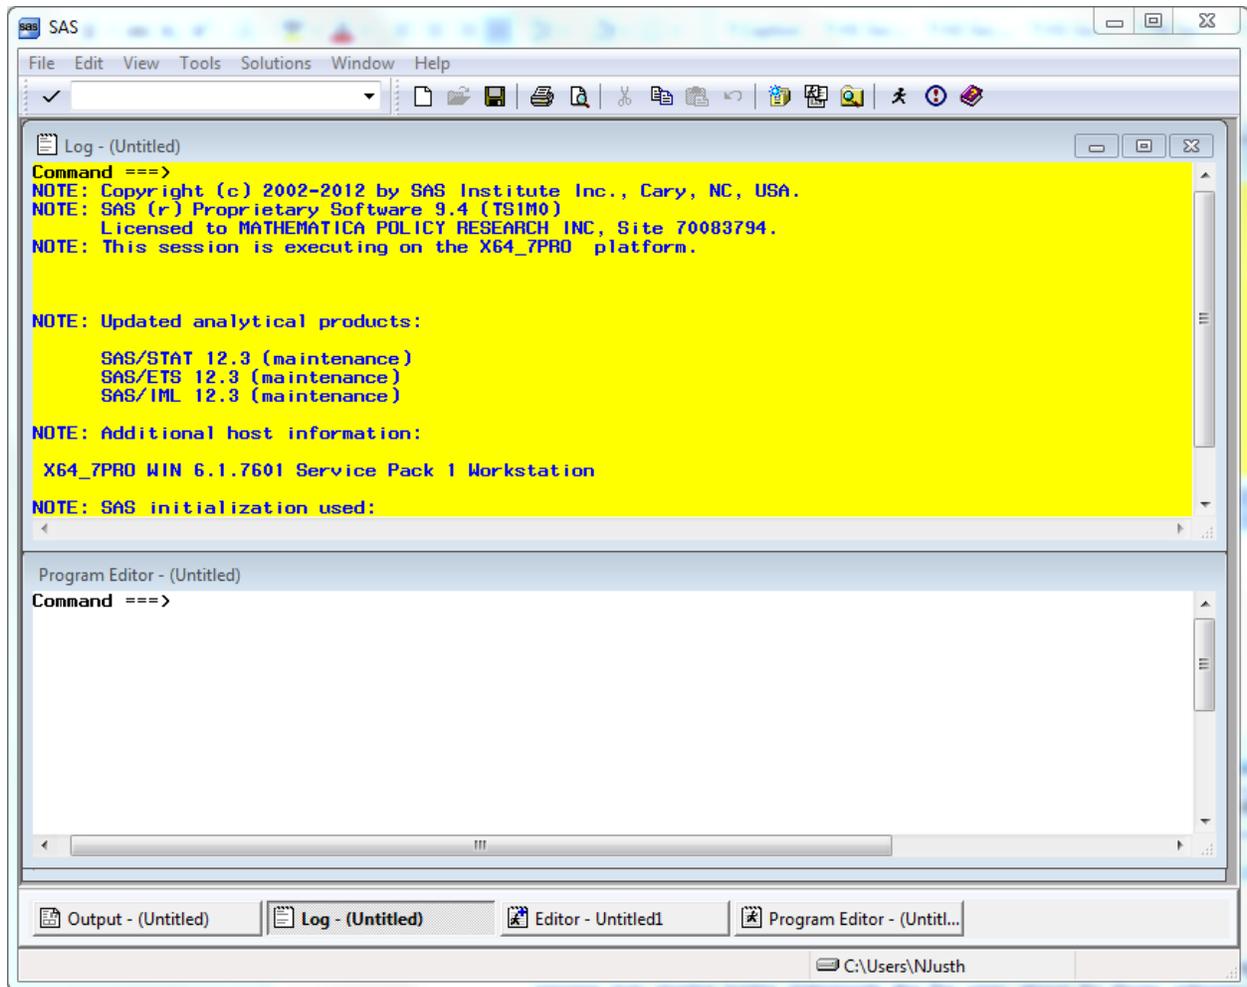

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

Toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allow you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

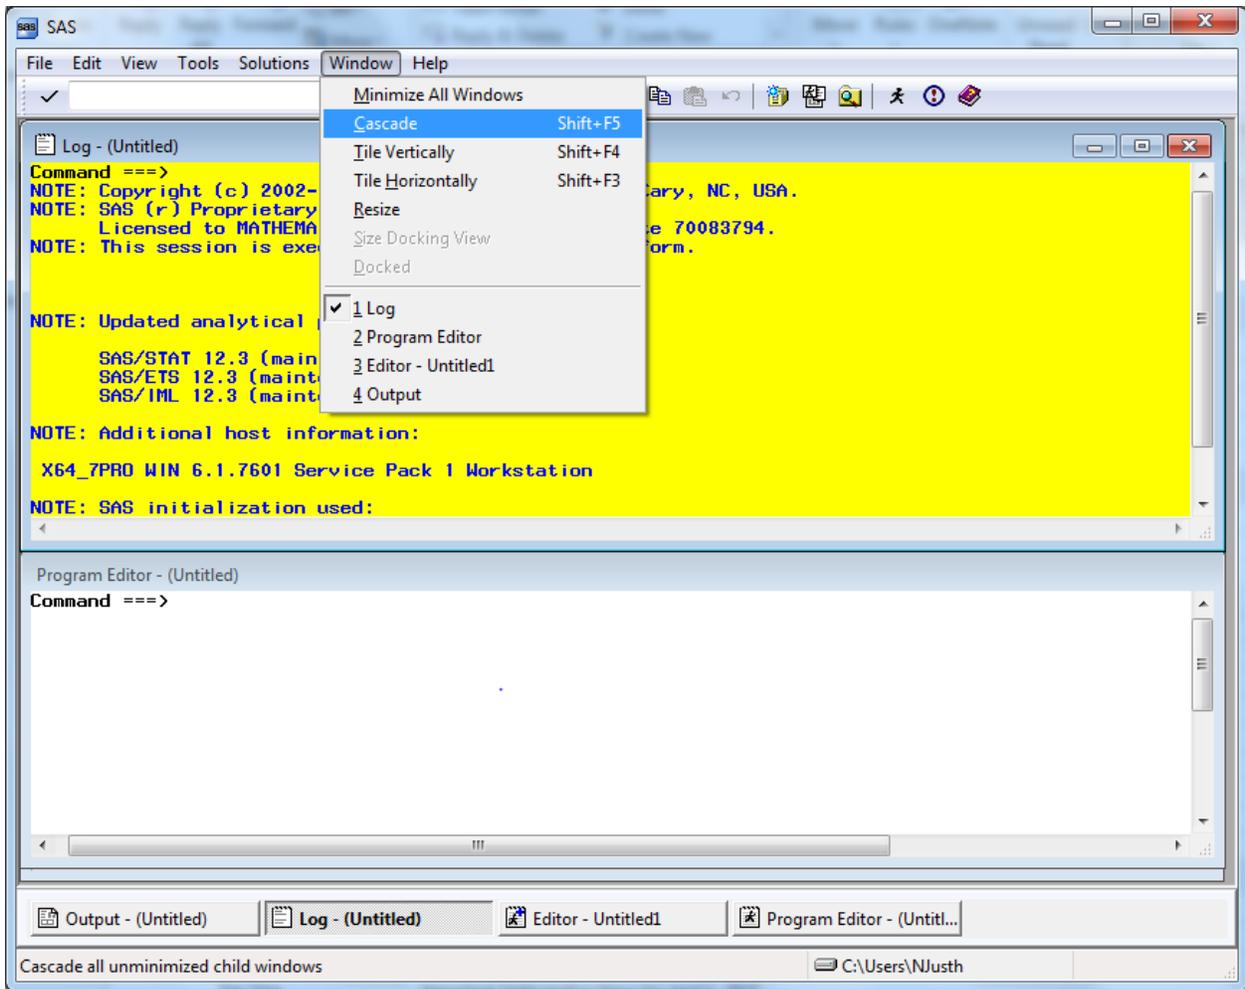

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

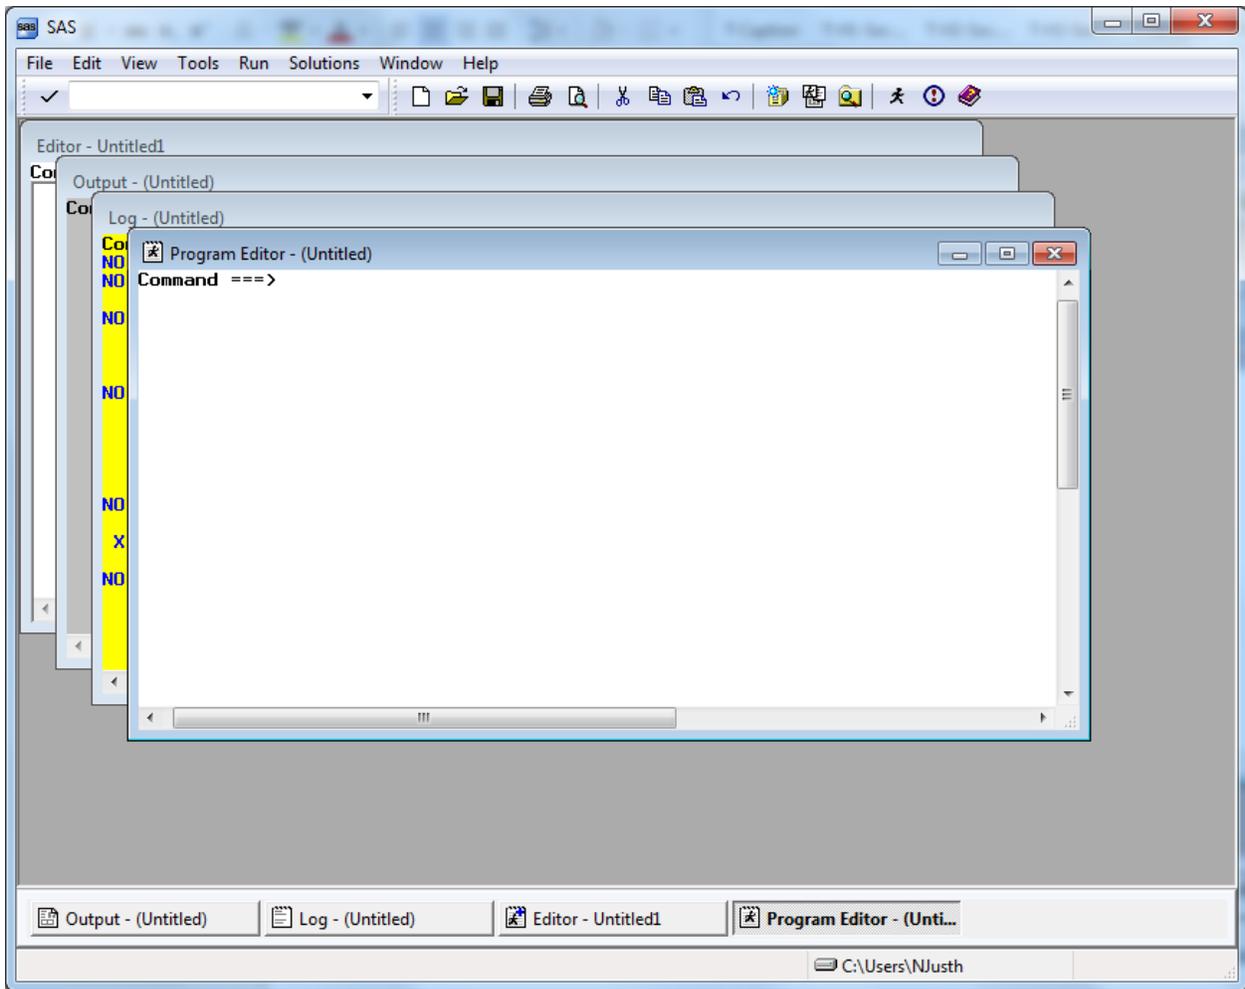

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

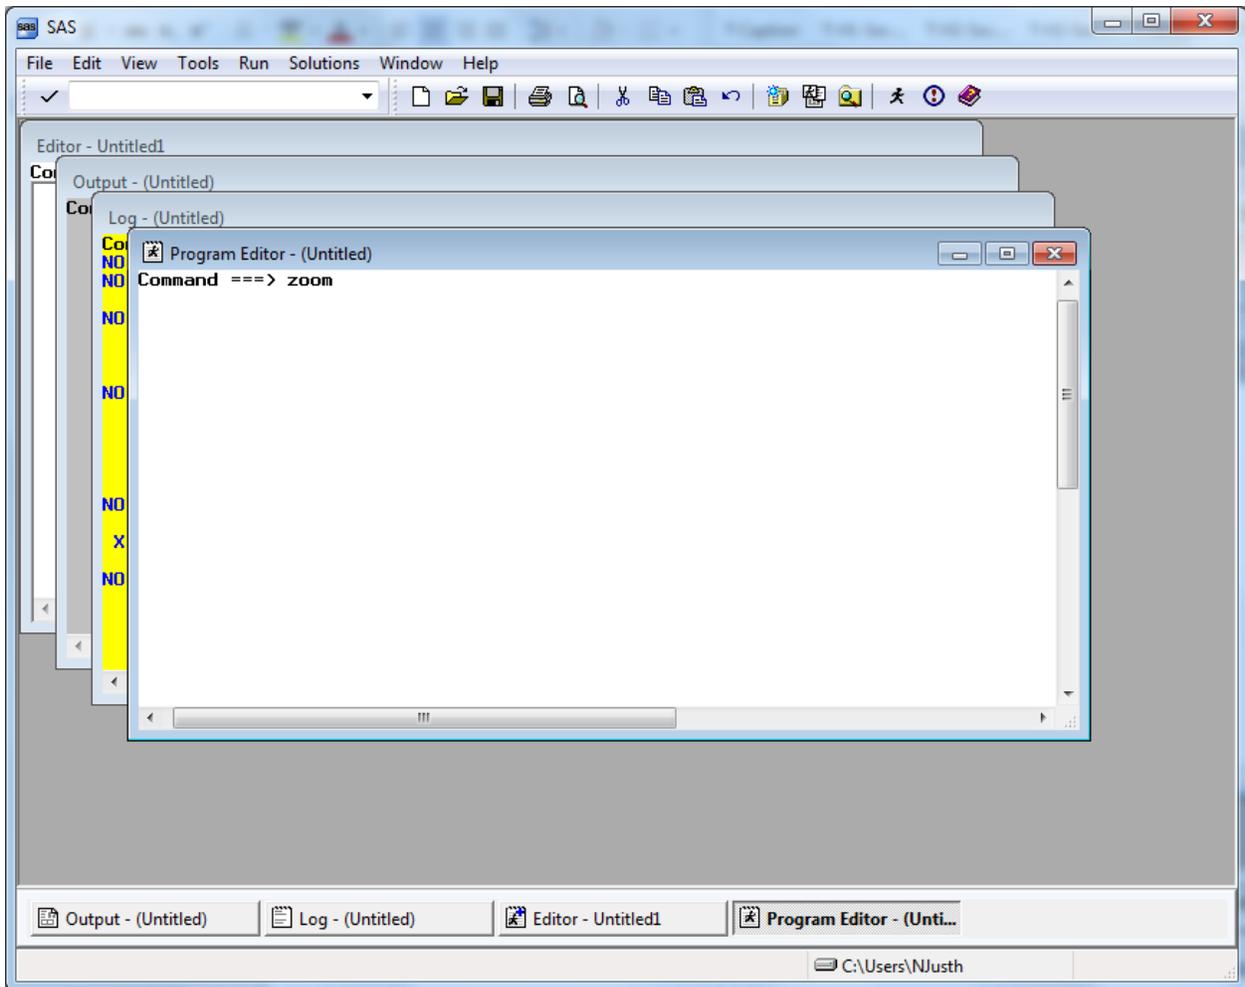

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option Cascade produces the following result.

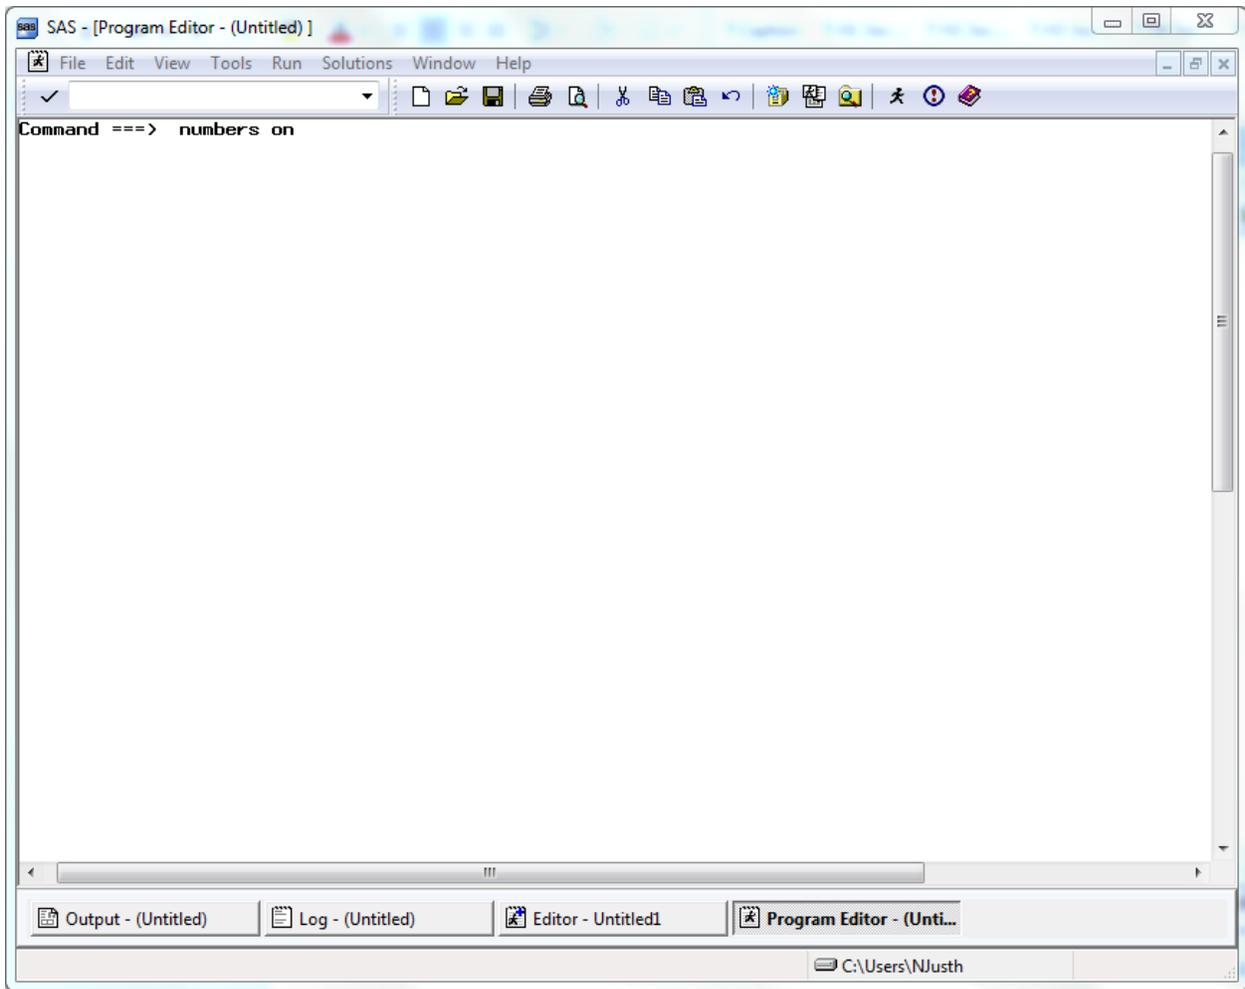

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

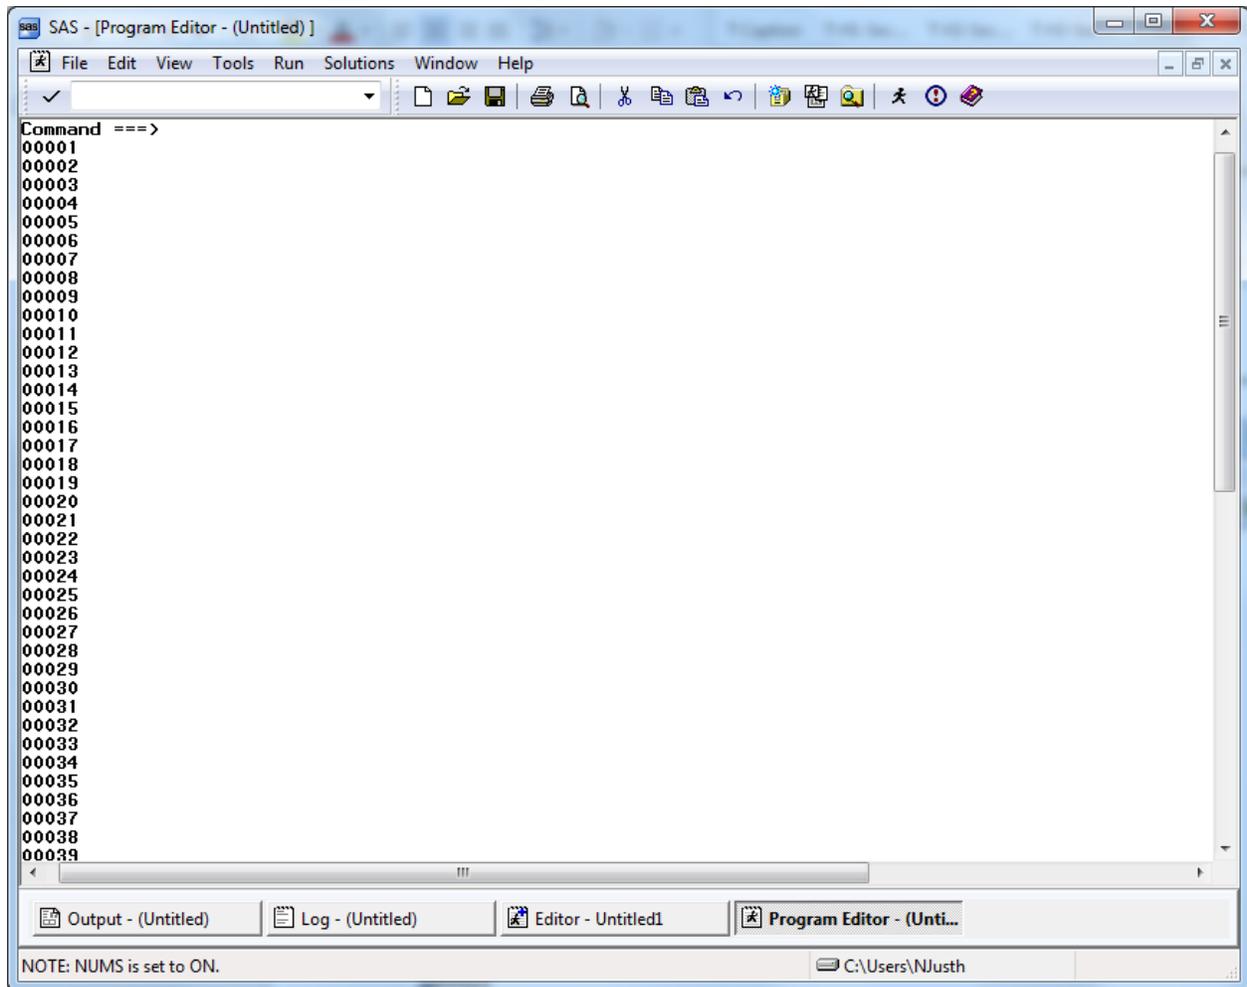

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS online documentation). At the **Command** line type “numbers on” as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

Below is an example of a PROC TABULATE to construct a table of health status and respondent's weight by beneficiary group and gender for respondents in TNEX region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The variables (H15072 and H15065) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

```

OPTIONS PS=79 LS=95;

```

NOTE: 1 modified line replaced.

Enter the Submit command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

```

```

The variable `FWT` was not found in the dataset. Type **Pgm** on the Command line to return to the Program Editor. Type **Recall** on the Command line and the program statements will reappear in the window.

You can correct the error by entering `FWRWT`, the correct variable name, in the weight statement. Then, rerun the procedure.

The corrected program produces the following output.

Table 4.1
Constructed Beneficiary Group by Gender for TNEC Region 3

		Beneficiary Group											All	
		Active Duty <65			Family of Active <65			Ret/Surv/Fam <65			Ret/Surv/Fam 65+			
		Male or Female - R		All	Male or Female - R		All	Male or Female - R		All	Male or Female - R

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2015\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is Active Duty; if XBNFGRP equals 2, the respondent is a family member of Active Duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

FORMAT _ALL_;

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table 4.1, the values of the statistics are of the form xxx.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

MEAN*F=6.2

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP are Active Duty, family members of Active Duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

XBNFGRP= ‘ ‘

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

MEAN= ‘ *F=6.2

The headings for XSEXA and ALL can be improved:

XSEXA= ‘Gender’
ALL= ‘Group Total’ for the ALL that is crossed with XBNFGRP
ALL= ‘Total’ for the TNEX Region 3 total

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2015';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2015\FMTLIB';
PROC TABULATE DATA=IN.HCS152_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H15072 H15065;
WEIGHT FWRWT;
TABLE (H15072 H15065)*MEAN= ' *F=6.2, /* Row Dimension */
      /* Column Dimension */
      XBNFGRP= '(XSEXA='Gender' ALL='Group Total')
      ALL='Total';

TITLE "Table 4.2";
TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
```

RUN;

Typing these statements into the Program Window produces the following screen.

```

Command ==> SUBMIT
00001  OPTIONS PS=79 LS=95;
00002  LIBNAME IN 'C:\FILES\DoD\ADULT 2015';
00003  LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2015\FMTLIB';
00004  PROC TABULATE DATA=IN.HCS152_1;
00005  WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */

In gnrl, how would you rate ovrall hlth	3.63	3.67	3.70	

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2015';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2015\FMTLIB';
PROC TABULATE DATA=IN.HCS152_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H15072 H15065;
WEIGHT FWRWT;
TABLE (H15072 H15065)*MEAN=' *F=6.2, /* Row Dimension */
/* Column Dimension */

```

```

XBNFGRP=' *(XSEXA=' ' ALL='Group Total')
ALL='Total' / ROW=FLOAT RTS=32;
TITLE "Table 4.3";
TITLE2' Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;
    
```

Typed into the Program Window, the revised program appears as follows.

```

Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all *class* variables that define the *row*. For example, if you want to look at the percentage of people in region 2 and each branch of service who answered yes (or no) to variable H15052, 'Have you ever smoked at least 100 cigarettes in your entire life?', your TABLE statement in the TABULATE procedure would look like this:

```

WHERE XTNEXREG = 2;
TABLE H15052 ALL='Total',
(All='Region Total' SVCSMPL=' ')*(N='#'*F=5.0 PCTN<H15052 ALL>='%'*F=6.2)
/RTS=25;

```

Table 4.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

```

The submitted statements produce the following output.

Table 4.4
Have You Ever Smoked At Least 100 Cigarettes In Your Entire Life
for Service Branches within TNEC Region 2

	Region Total		Army		Navy		Marine Corps		Air Force		Coast Guard		Other/Unknown	
	#	%	#	%	#	%	#	%	#	%	#	%	#	%
Smoked at least 100 cigarettes in life														
Yes	855	34.56	273	35.92	128	37.32	33	37.08	400	33.20	17	26.56	4	30.77
No	1619	65.44	487	64.08	215	62.68	56	62.92	805	66.80	47	73.44	9	69.23
Total	2474	100.00	760	100.00	343	100.00	89	100.00	1205	100.00	64	100.00	13	100.00

Table 4.4
 Have You Ever Smoked At Least 100 Cigarettes In Your Entire Life
 for Service Branches within TNEC Region 2

	Region Total		Army		Navy		Marine Corps		Air Force	
	#	%	#	%	#	%	#	%	#	%
Smoked at least 100 cigarettes in life										
Yes	855	34.56	273	35.92	128	37.32	33	37.08	400	33.20
No	1619	65.44	487	64.08	215	62.68	56	62.92	805	66.80
Total	2474	100.00	760	100.00	343	100.00	89	100.00	1205	100.00

(Continued)

Table 4.4
 Have You Ever Smoked At Least 100 Cigarettes In Your Entire Life
 for Service Branches within TNEC Region 2

	Coast Guard		Other/Unkno- wn	
	#	%	#	%
Smoked at least 100 cigarettes in life				
Yes	17	26.56	4	30.77
No	47	73.44	9	69.23
Total	64	100.00	13	100.00

The statistic N(#) is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table 4.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report having smoked at least 100 cigarettes in their lifetime, this would be a row percentage. To calculate a row percentage, the denominator definition must include all *class* variables that define the *column*. Your TABLE statement would look like this:

```
TABLE H15052 ALL='Total',
XENRLLMT *(XSEXA=' ' All='Group Total')*
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';
```

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include FWRWT (the 2015 quarterly weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table 4.5.

The following screen shows the new program typed into the Program Editor.

```

HOW TO MAKE A TABLE USING SPSS

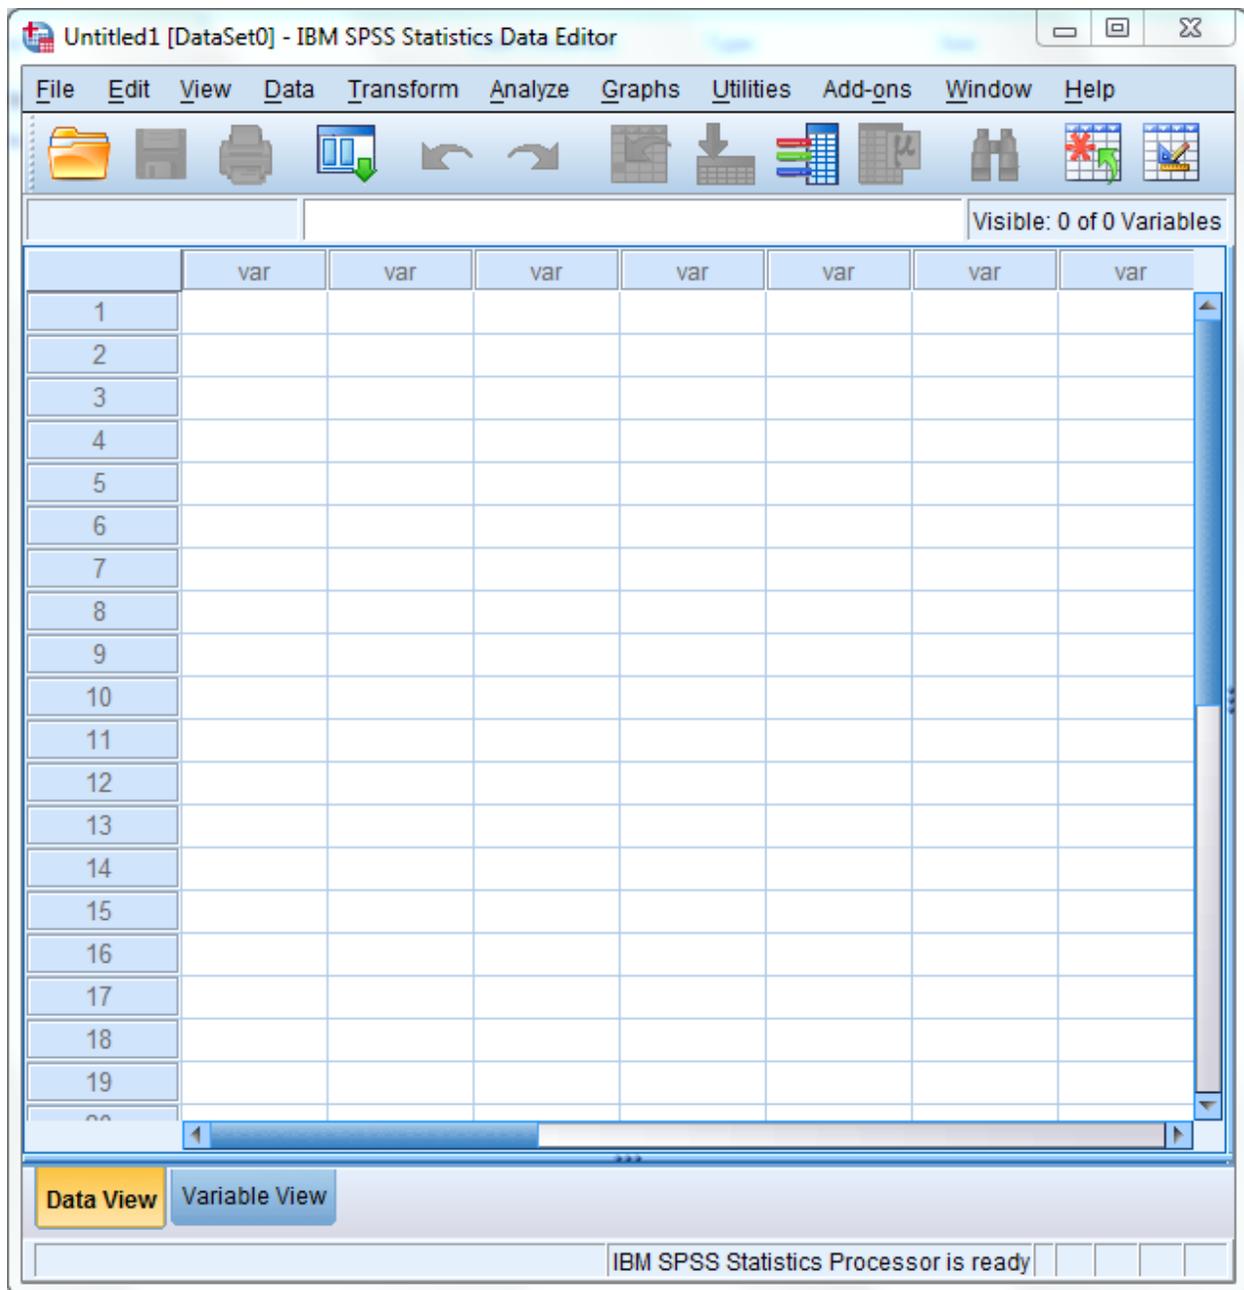

The Quarter II, 2015 Adult HCSDDB dataset is available in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

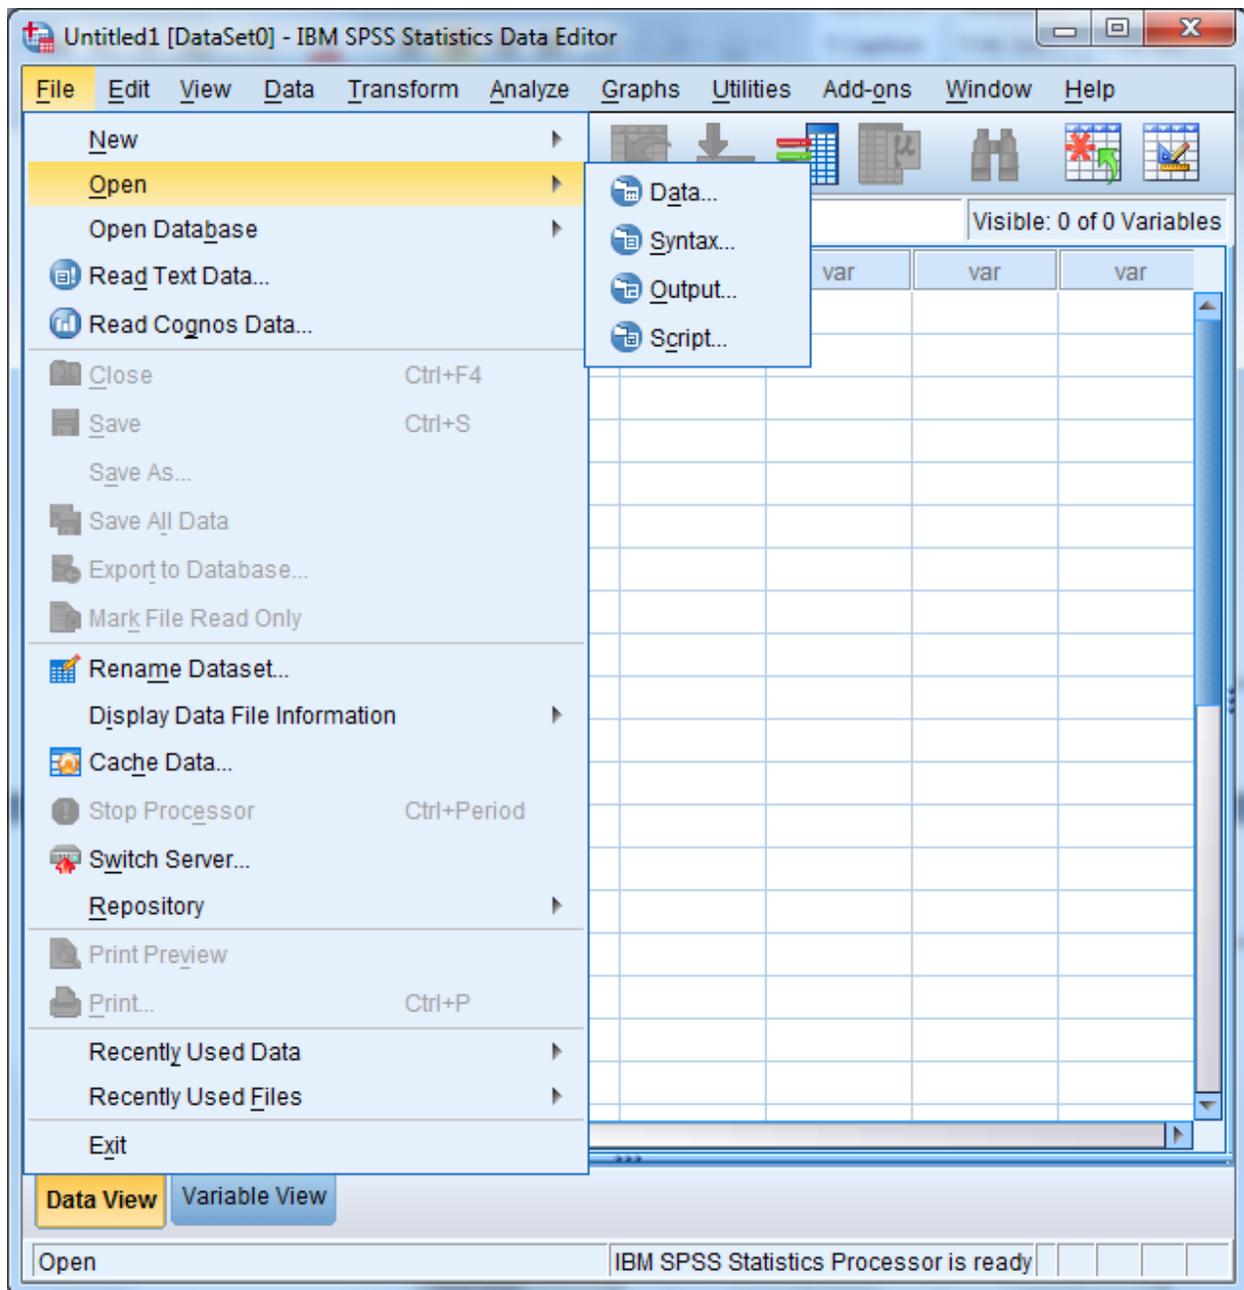

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

Locating and opening the data file

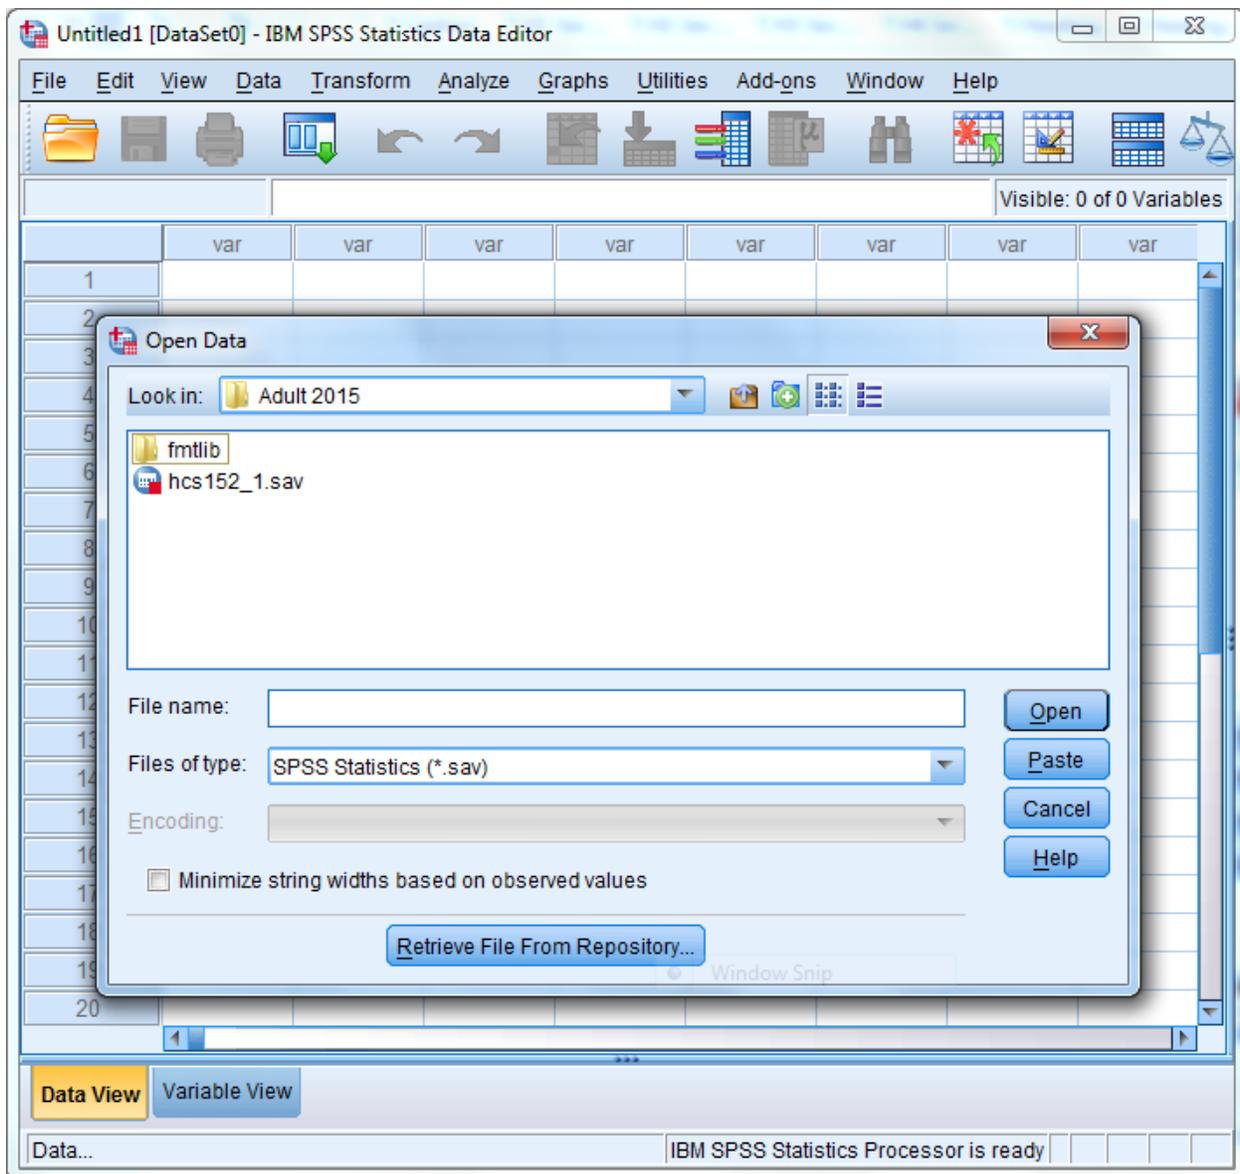

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a spreadsheet with a dialog box. Click Cancel in the bottom right corner to close the dialog box and a blank spreadsheet will appear:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** and **data** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The Quarter II, 2015 Adult HCSDB dataset has been opened and is displayed below.

	MPRID	SVCSMPL	SEXSMPL	STRATUM	JSFLAG	EN BG	MPCSMPL	NHFF
1	00005325	1	1	1007403	0 01	1	1	958
2	00011518	2	1	1621503	0 06	1	1	963
3	00019140	4	1	1036403	0 06	1	1	379
4	00019405	4	2	1005303	0 06	1	1	477
5	00024015	4	1	1036403	0 06	1	1	379

18	00068504	2	1	1621503	0 06	1	1	963

Constructing new variables

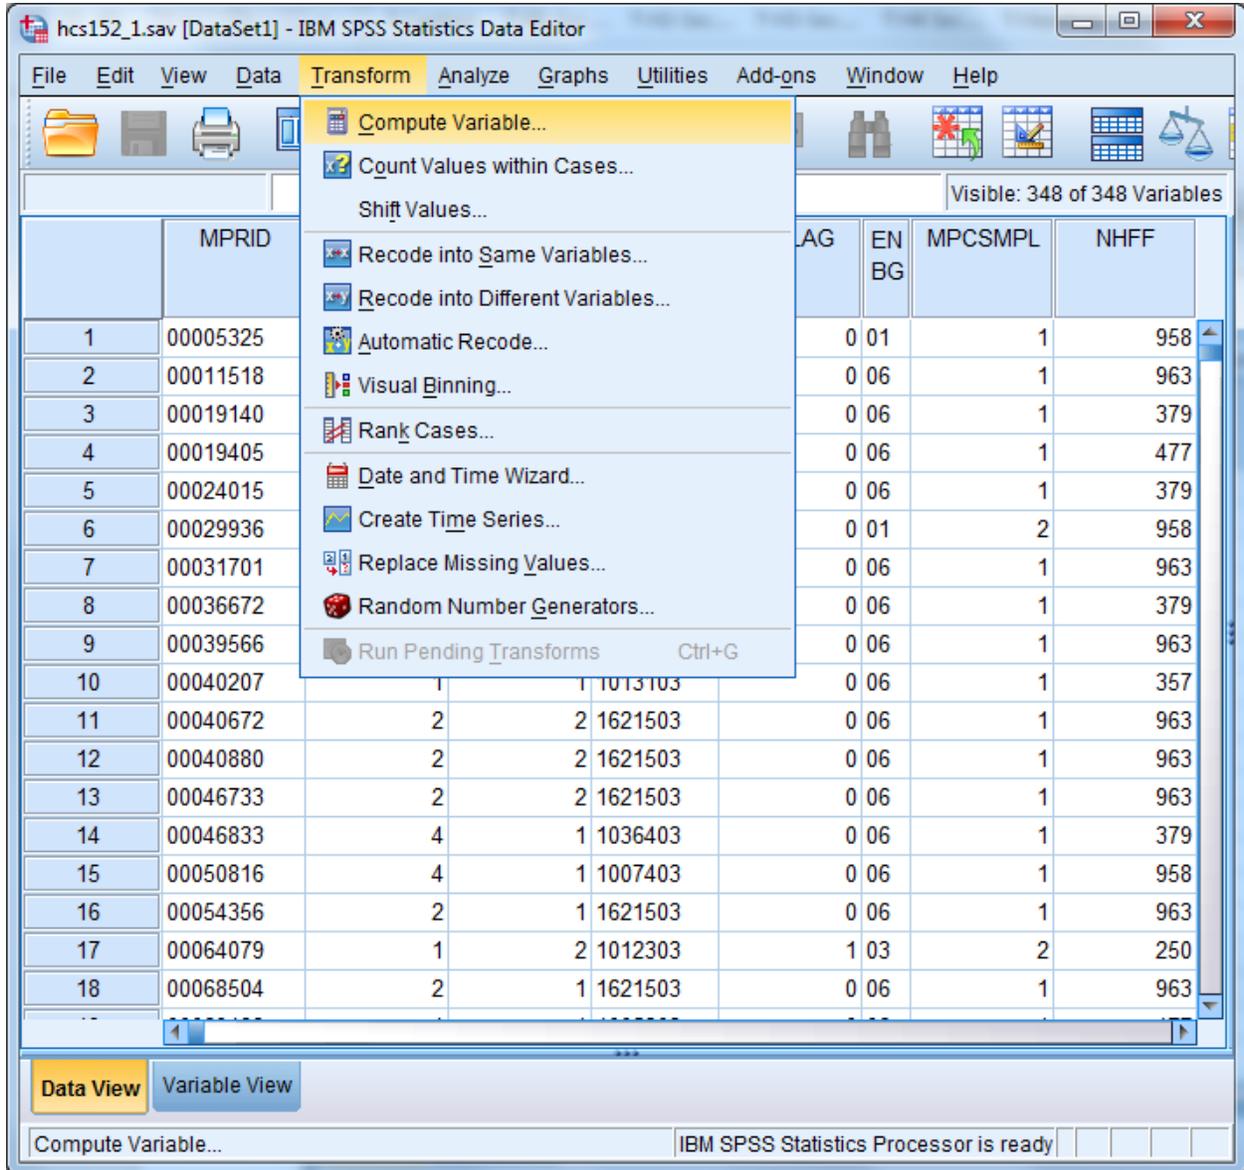

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

For example, the variable in the file for beneficiary group at the time of sampling is called `xbnfgrp`, and the variable for sex is `xsexa`. The value 1 for `xbnfgrp` indicates that the individual is on Active Duty. The relationships for constructing a new variable of Active Duty by sex are:

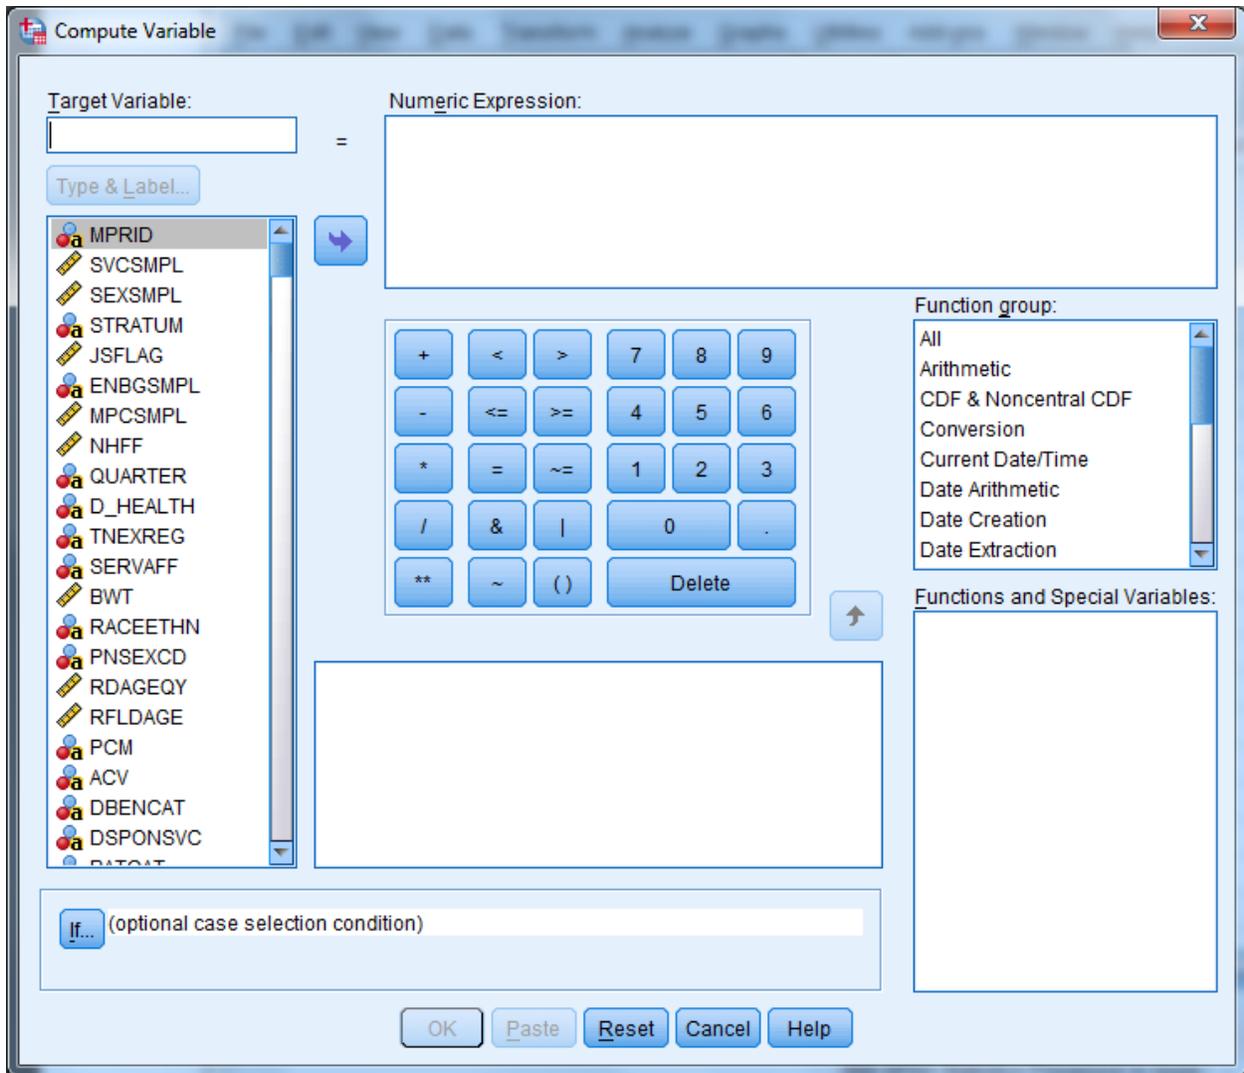

Active-Duty-males: ***XSEXA=1 and XBNFGRP=1***

Active-Duty-females: ***XSEXA=2 and XBNFGRP=1***

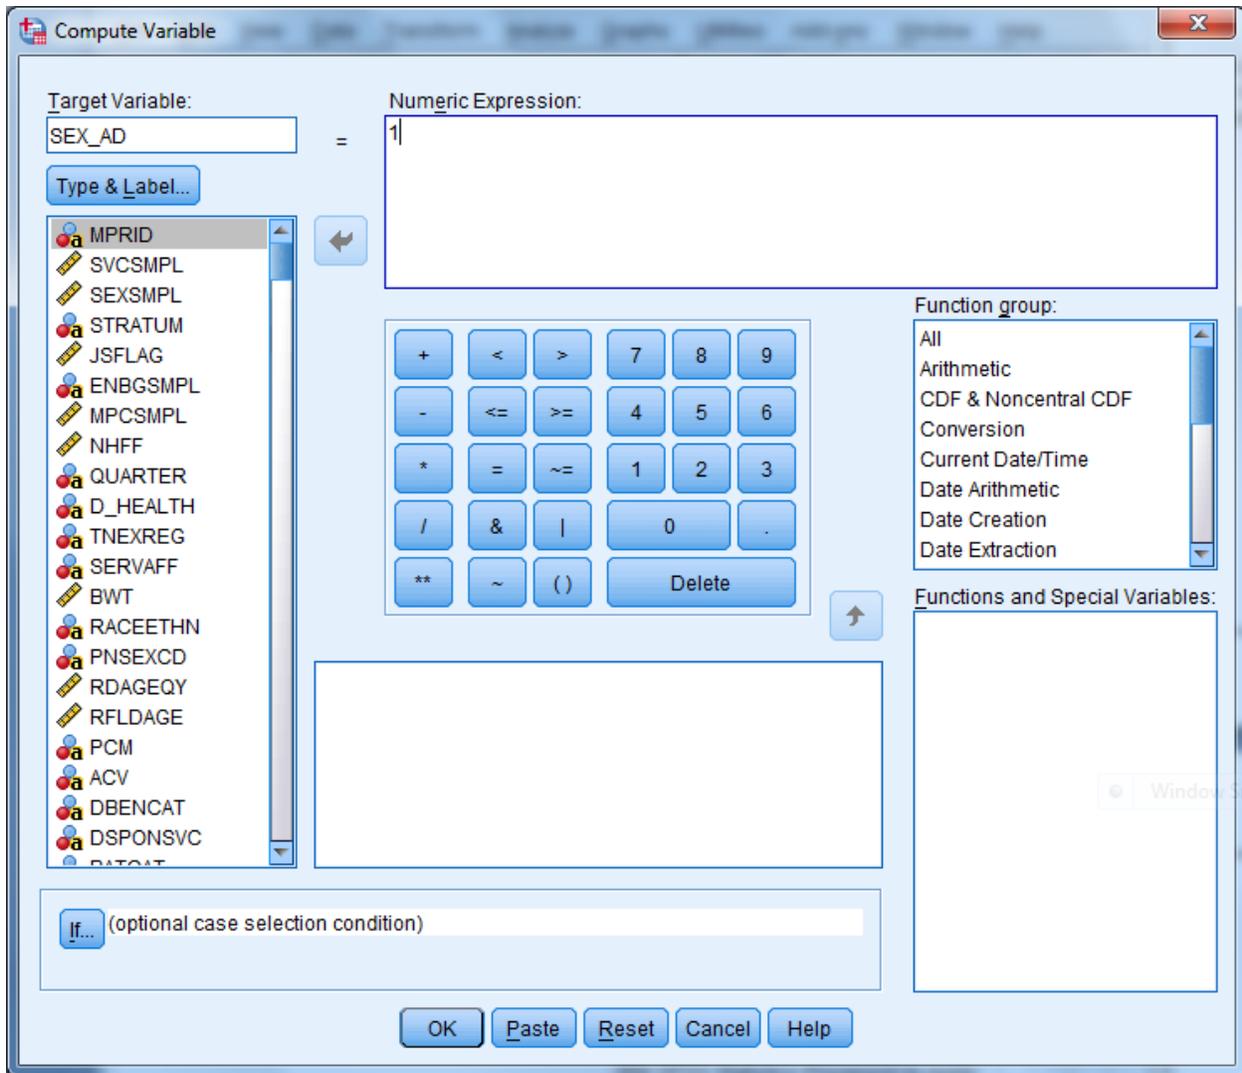

Open the Transform menu and select Compute Variable as in the following:

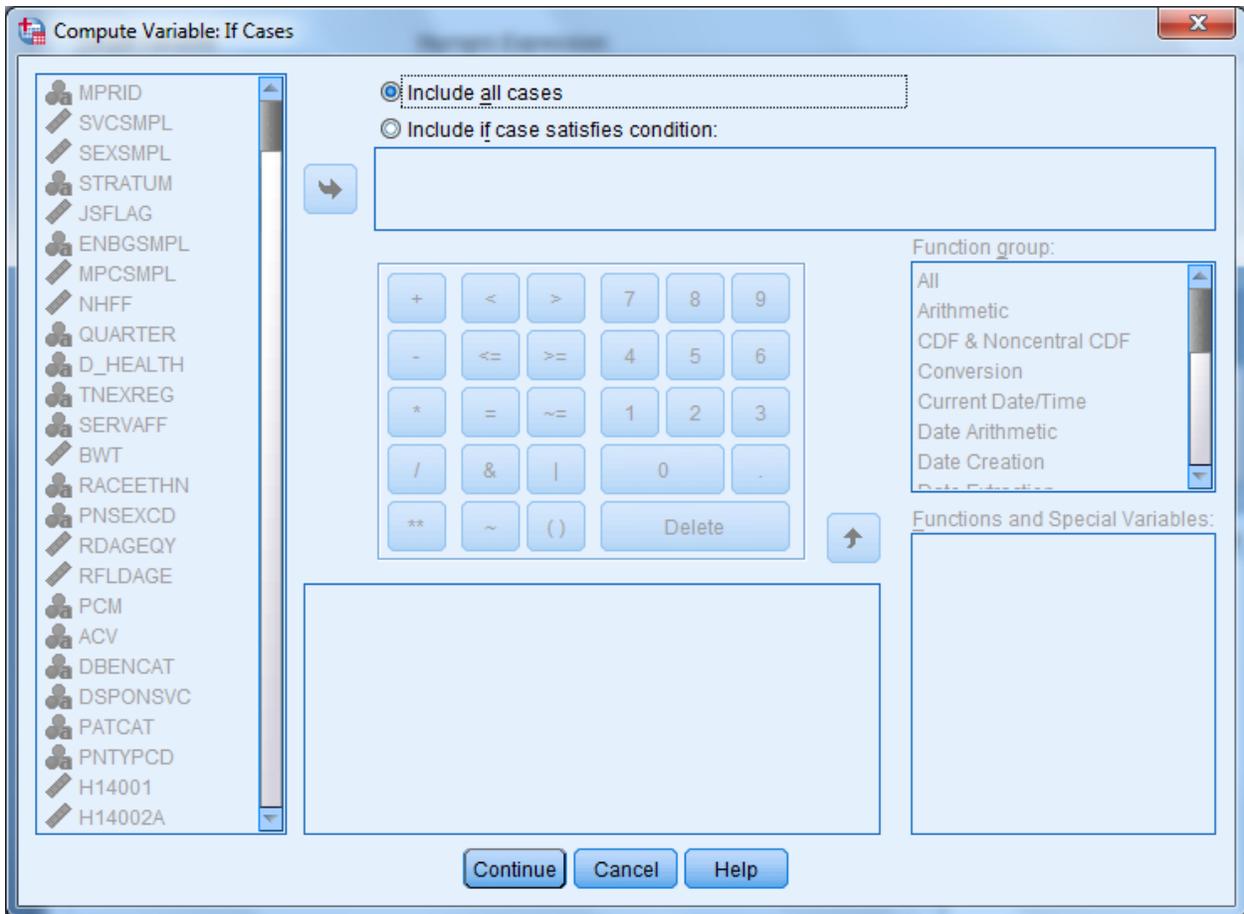

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable sex_ad. Next, assign the value 1 to sex_ad by entering it into the slot for Numeric Expression. Your screen should look like the following:

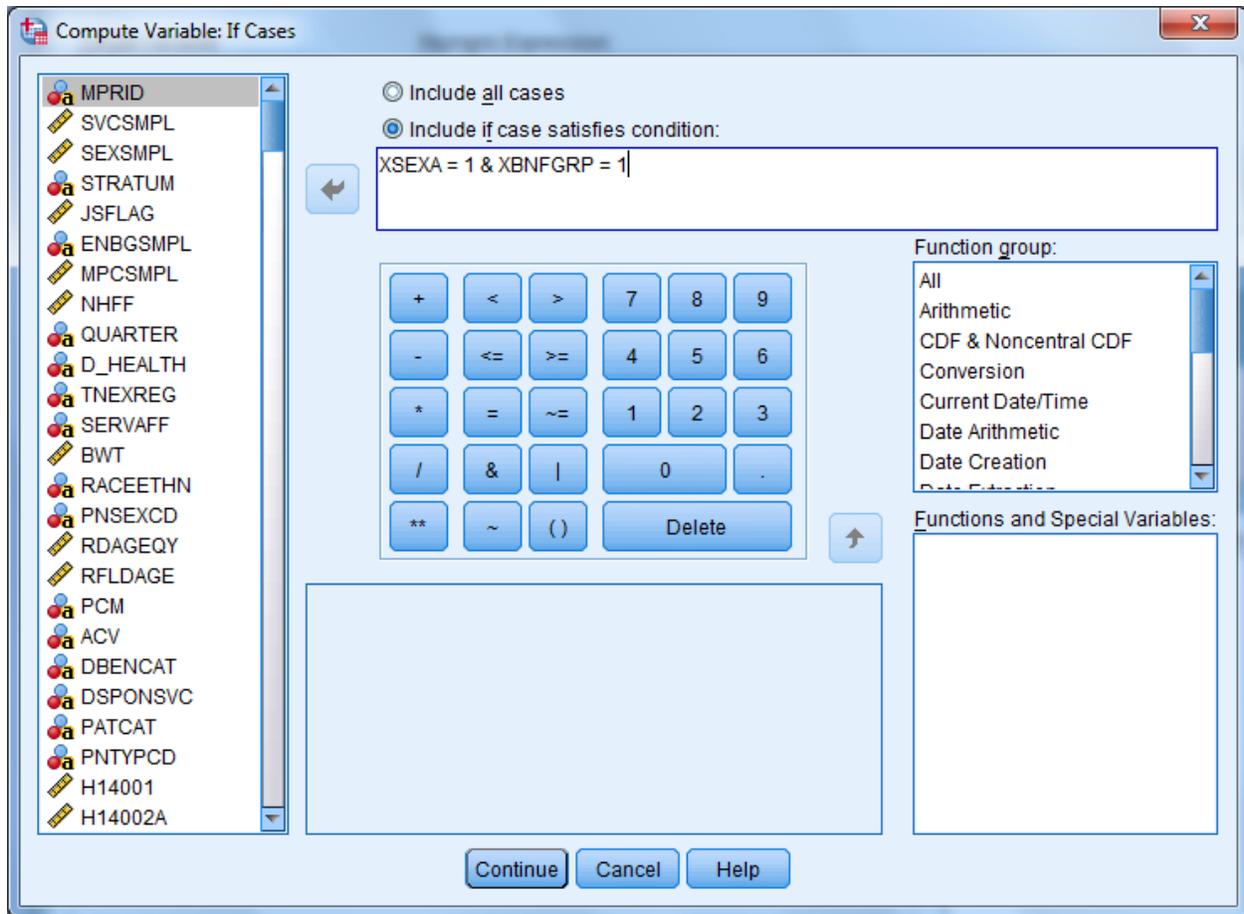

Once you we have assigned the value 1 to sex_ad, you can build the condition that qualifies the assignment. Click on If and open the following dialog box:

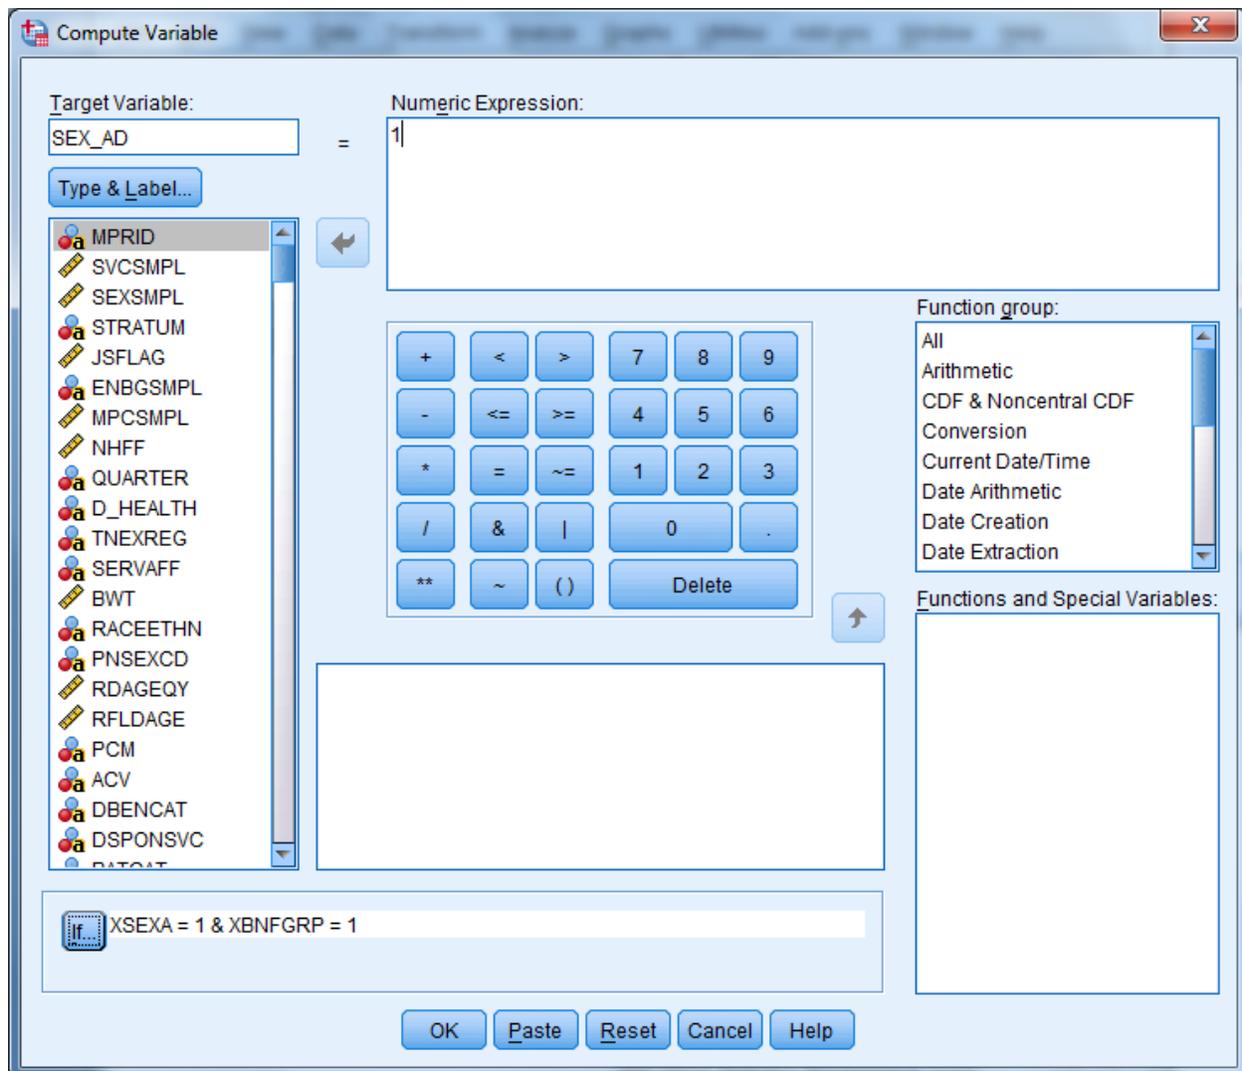

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the “if” condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements `xsexa = 1 & xbnfgrp = 1`.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable `sex_ad` will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply assign the value 2 to `sex_ad`, press If, and enter the new condition to identify Active Duty females. Click Continue, and finish with OK. The condition, if `xsexa = 2` and `xbnfgrp = 1`, will be added to the new variable `sex_ad`.

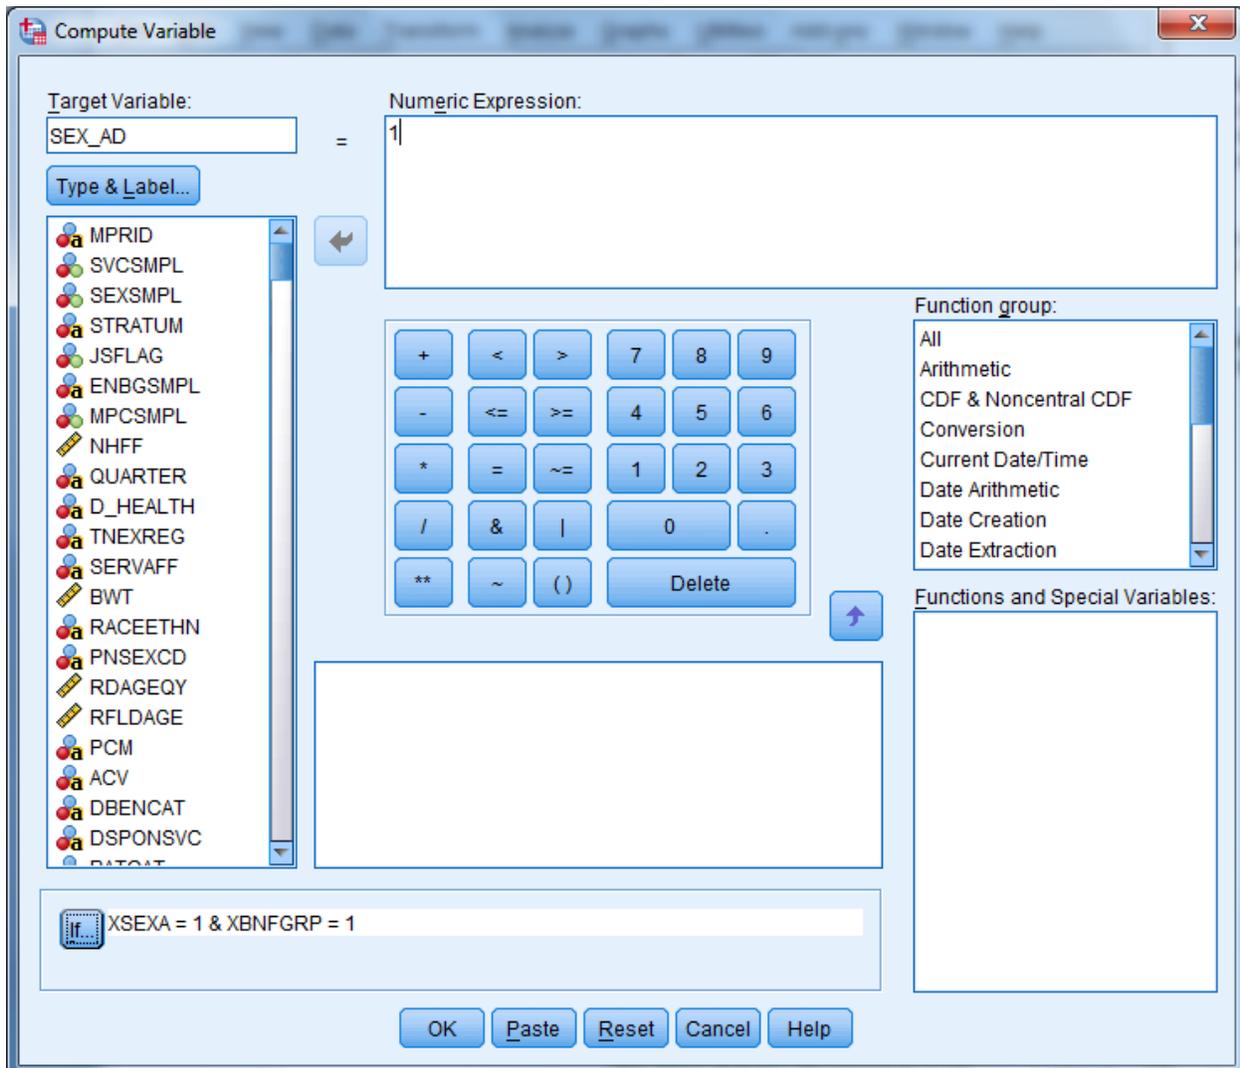

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

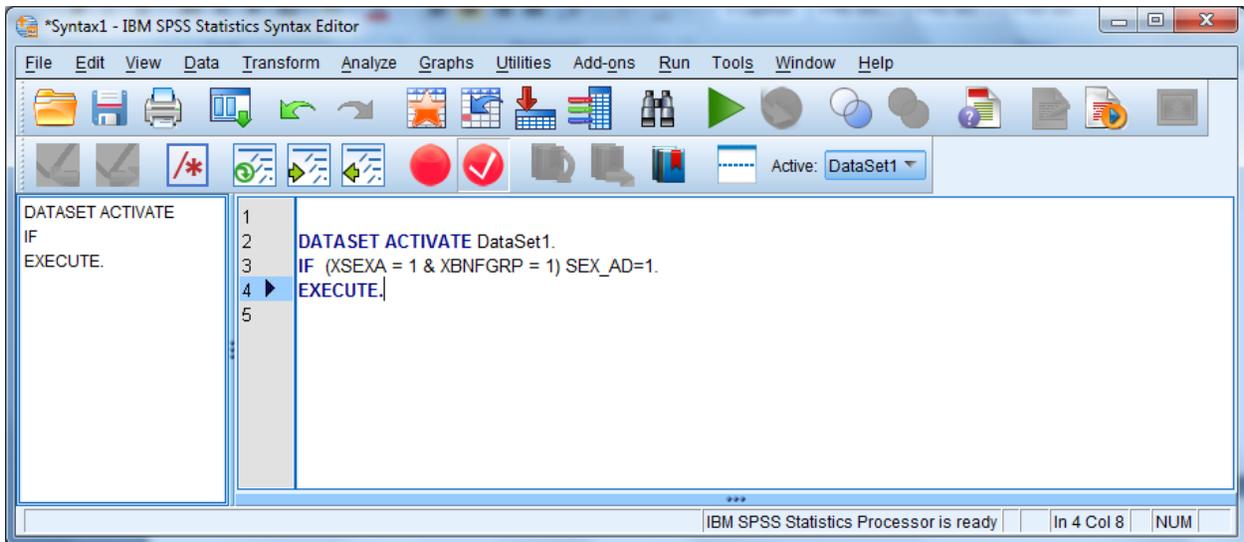

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

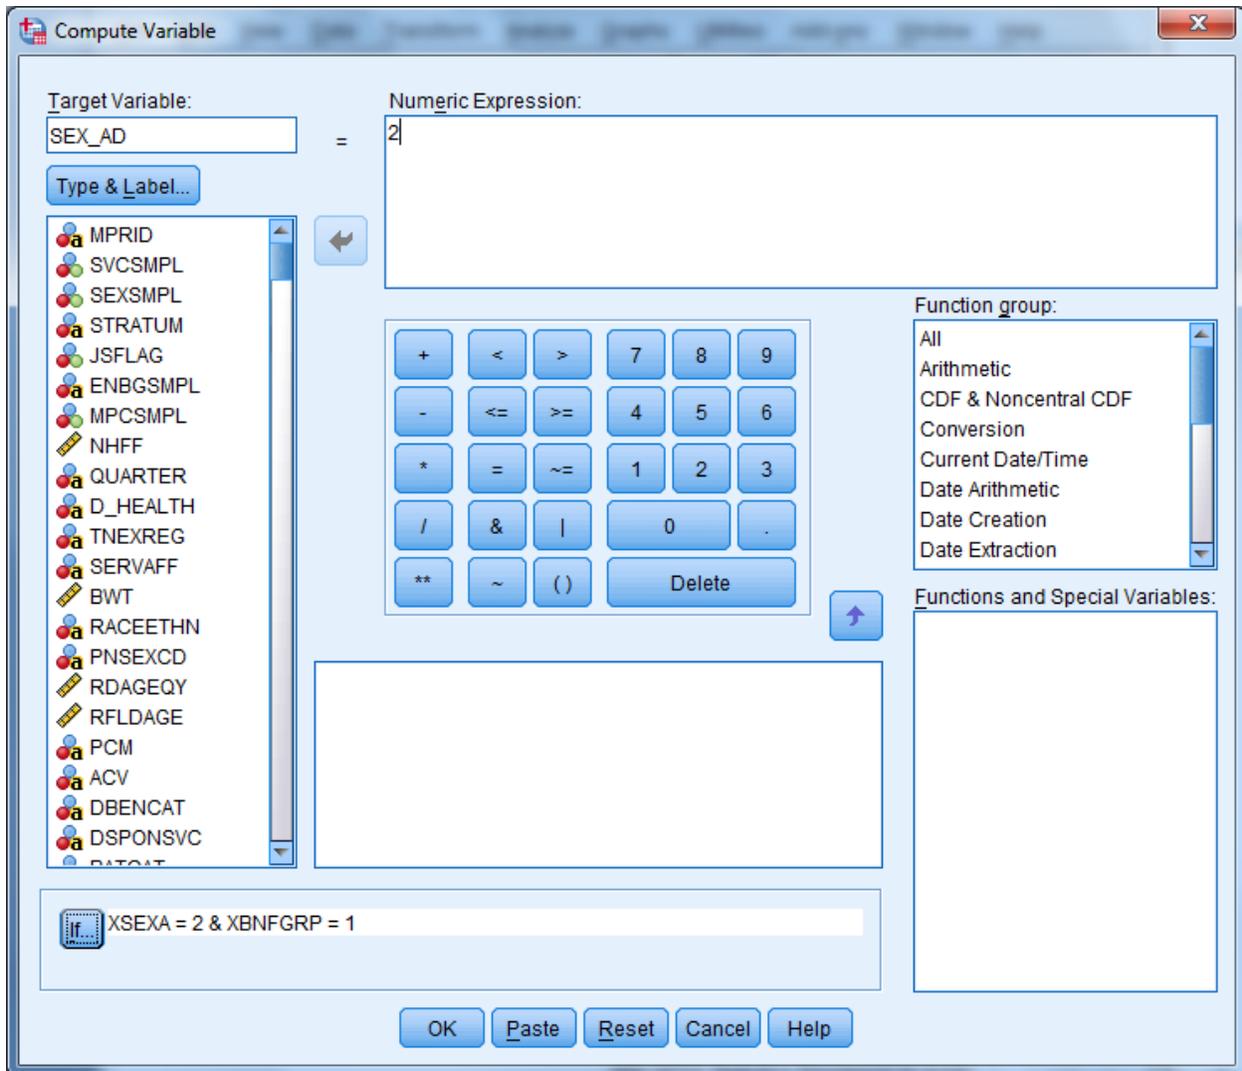

Recall the compute example for the new variable `sex_ad`. The screen below is the result of assigning 1 to `sex_ad` according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

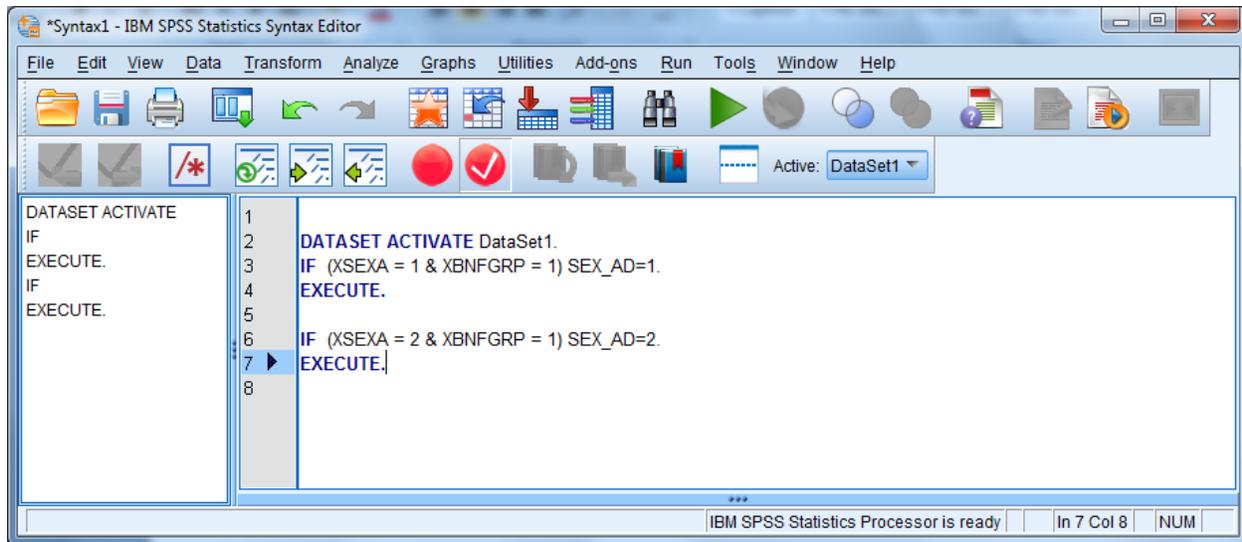

Click on the Paste button. A dialog box that says “Change existing variable?” will pop up. Click on OK, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex_ad** and build the “**if**” condition as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **RFLDAGE**, which exists on our dataset. **RFLDAGE** is coded in years from 18 to 86, which can be grouped into four age categories:

18 to 34 = 1 - label: "young adult"

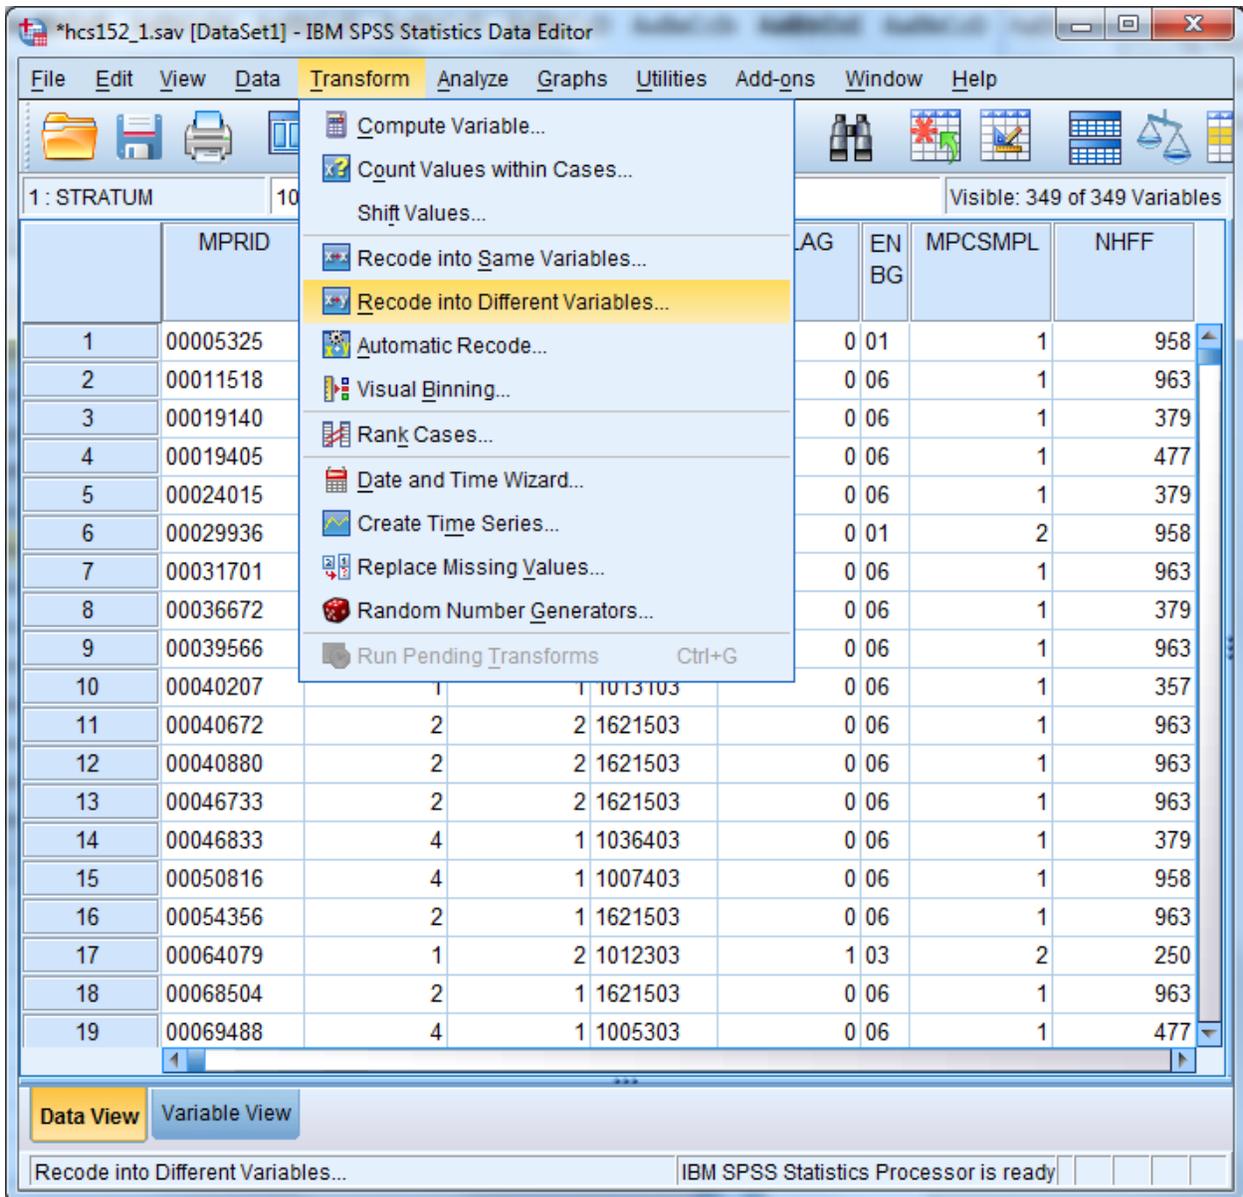

35 to 49 = 2 - label: "mature adult"

50 to 65 = 3 – label: "middle-age"

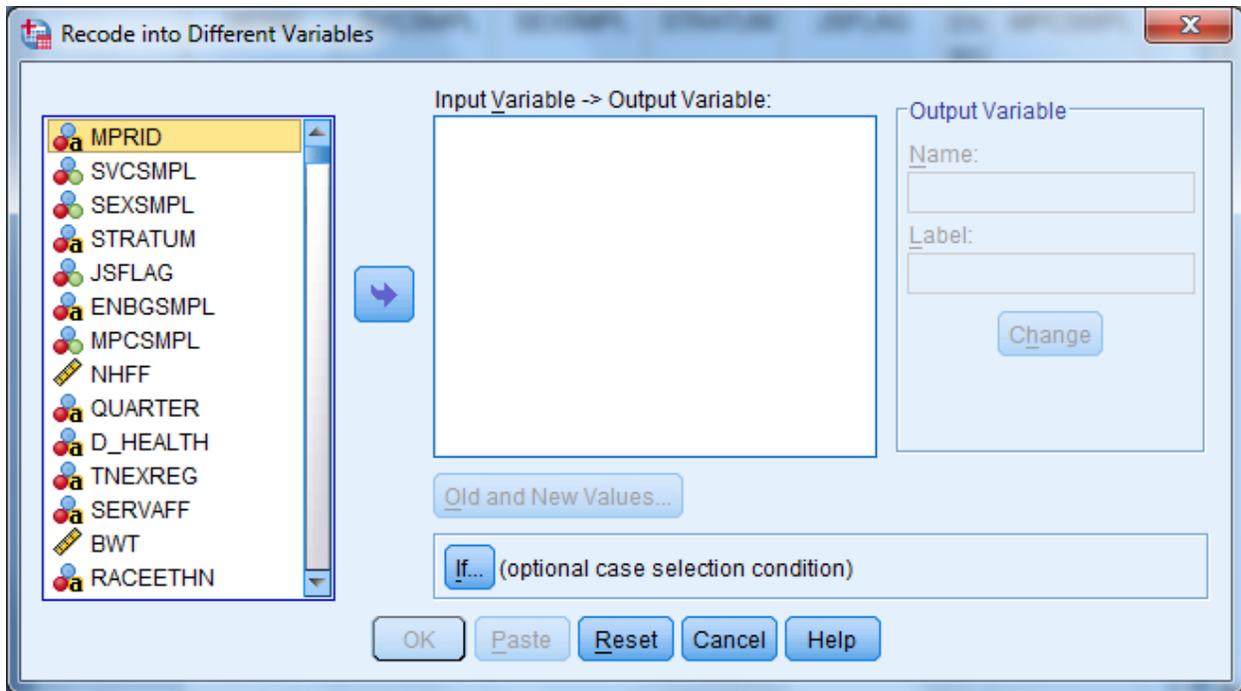

66 to 86 = 4 – label: "senior citizen"

The new variable is called **age_grp**.

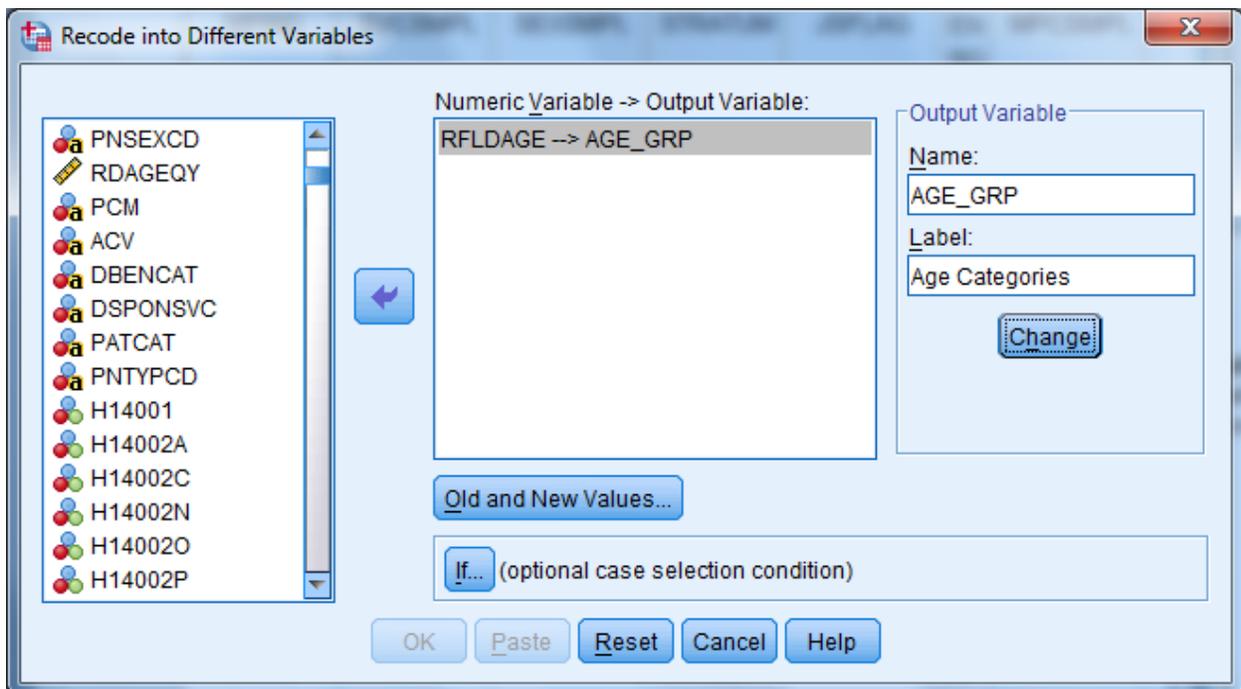

From the **Transform** menu, choose **Recode Into Different Variables** as pictured below:

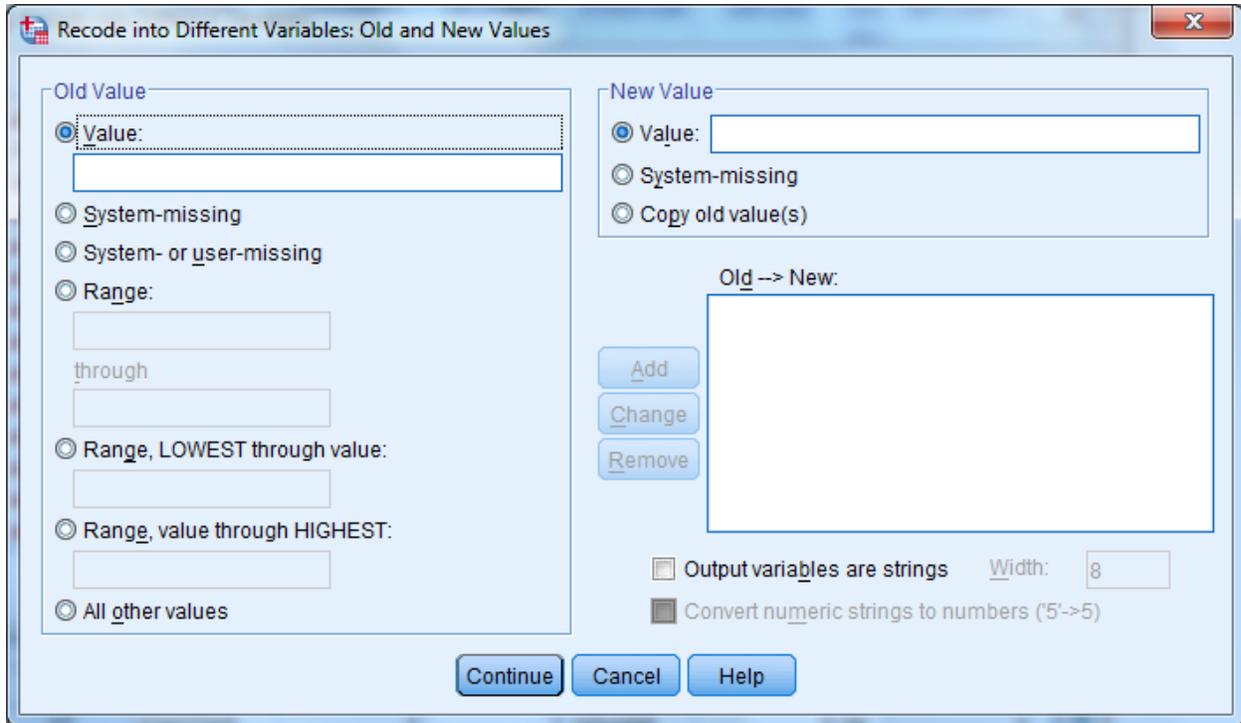

The following dialog box will open:

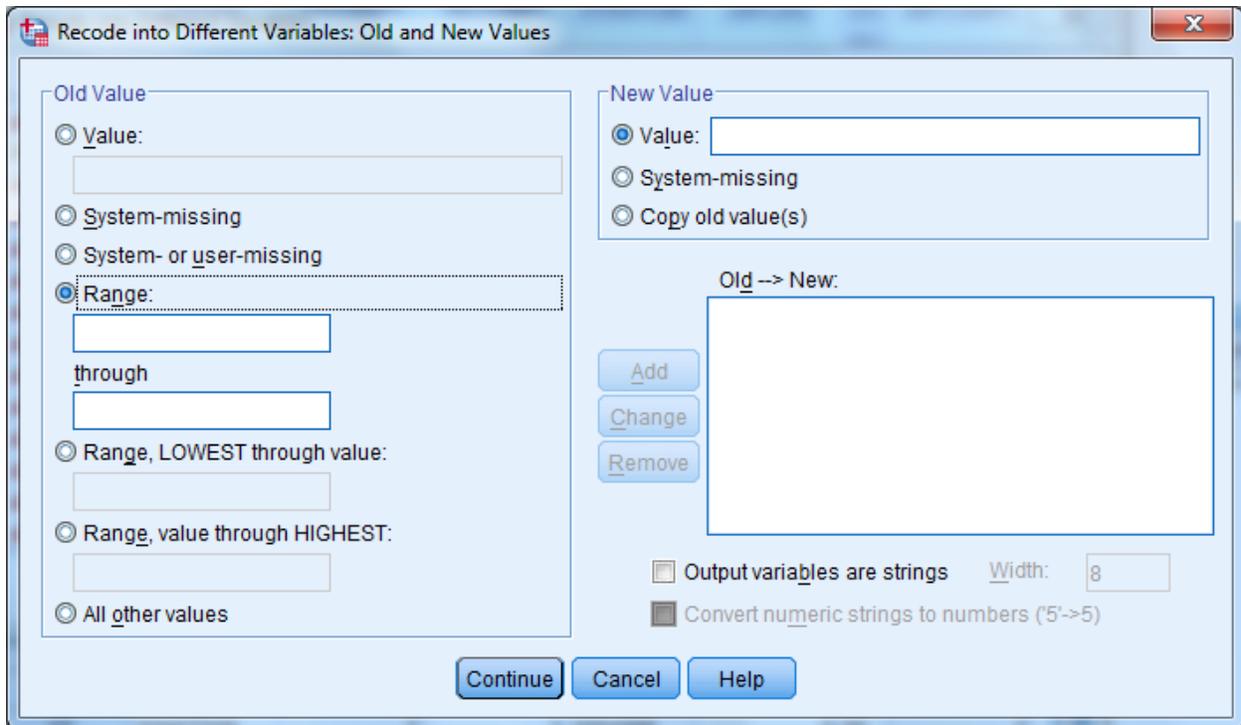

Move **RFLDAGE** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

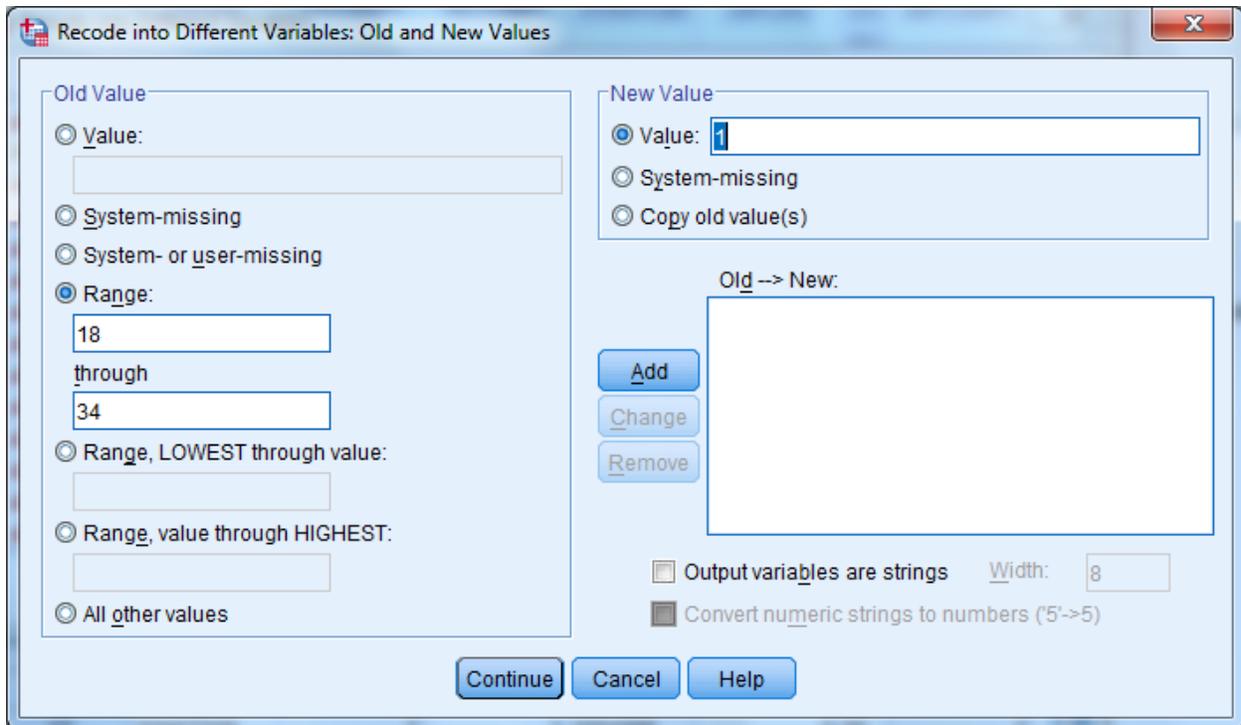

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

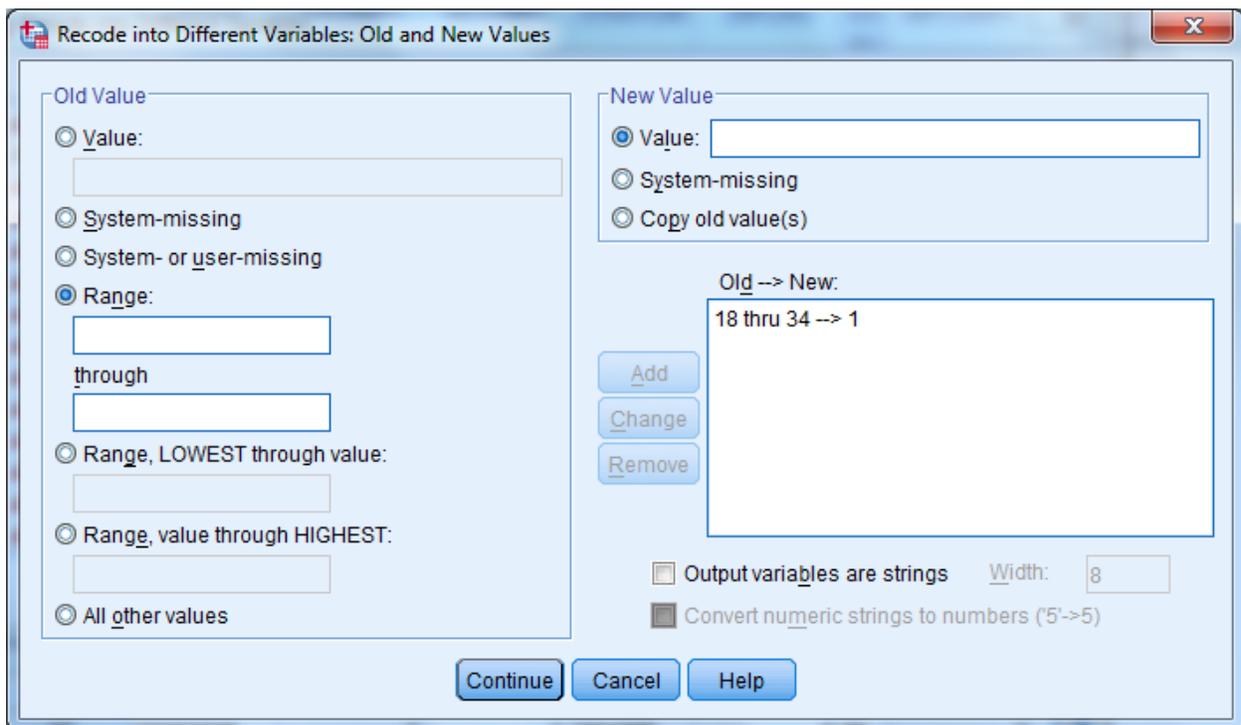

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 **through** 34 in the slots provided under **Range**. Next, enter the value 1 in the **Value** slot under **New Value**. **Add** is now illuminated.

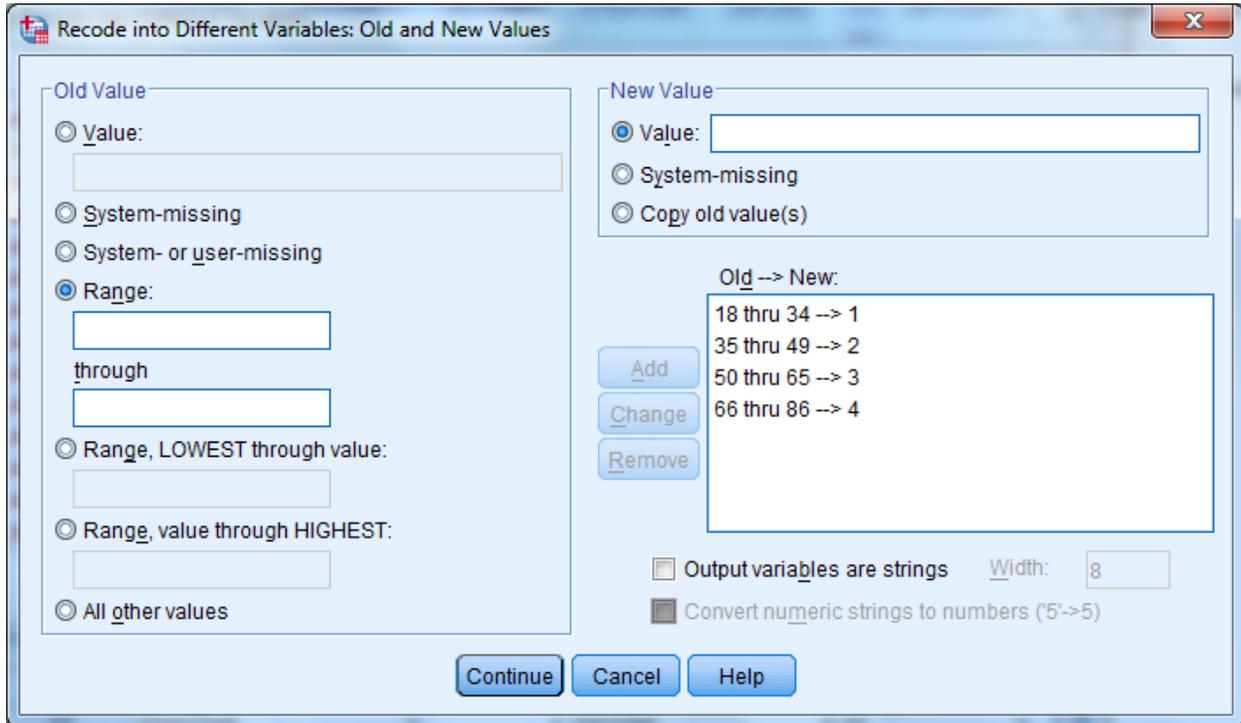

Clicking on Add produces the following result:

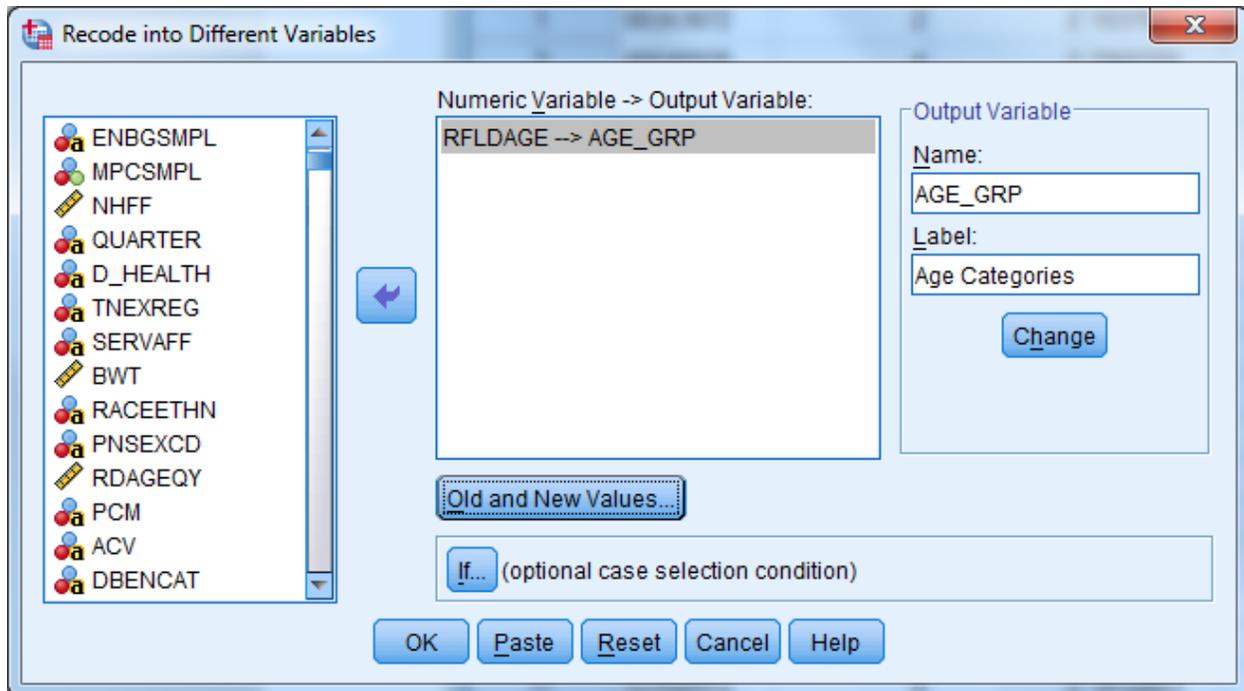

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

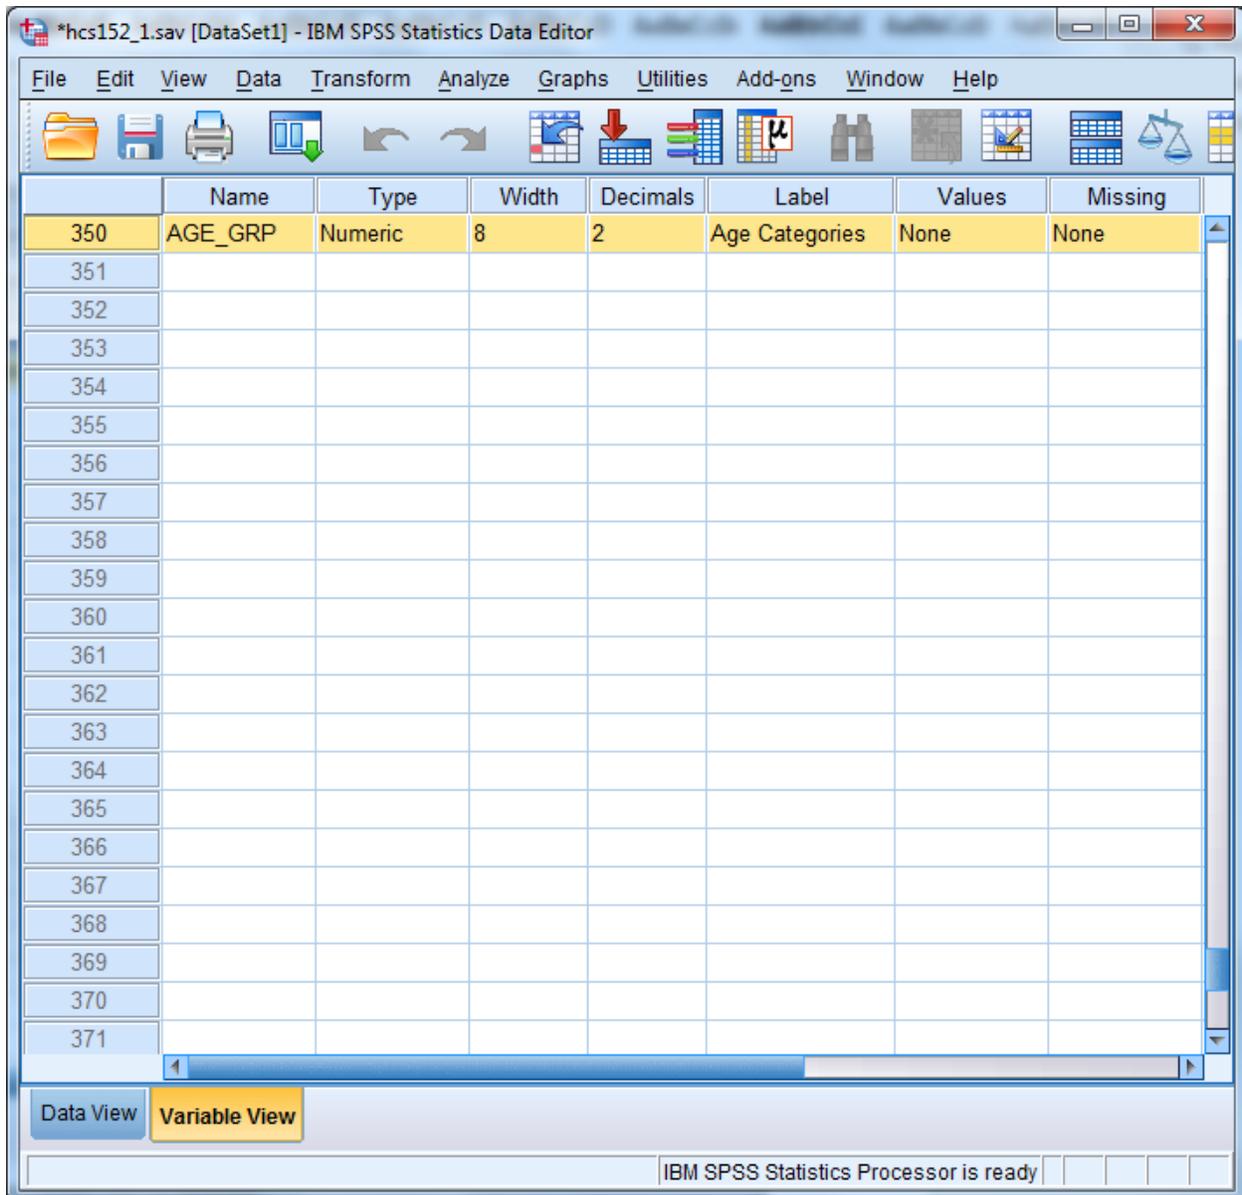

Click on Continue and return to the previous screen.

Click on **OK** to exit the screen. The new variable **age_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

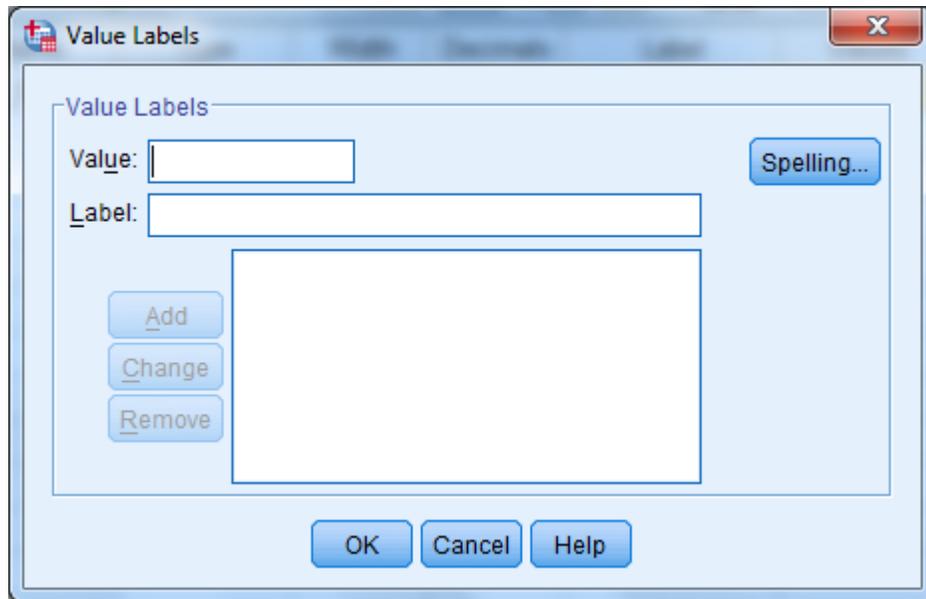

The final task is to create the value labels for the new variable **age_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

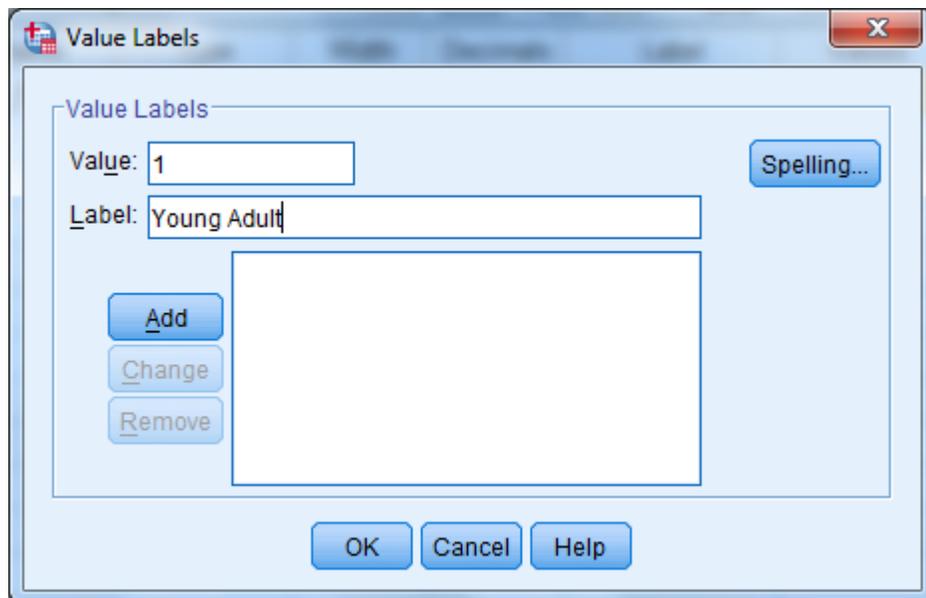

The variable **age_grp** is shown with its attributes.

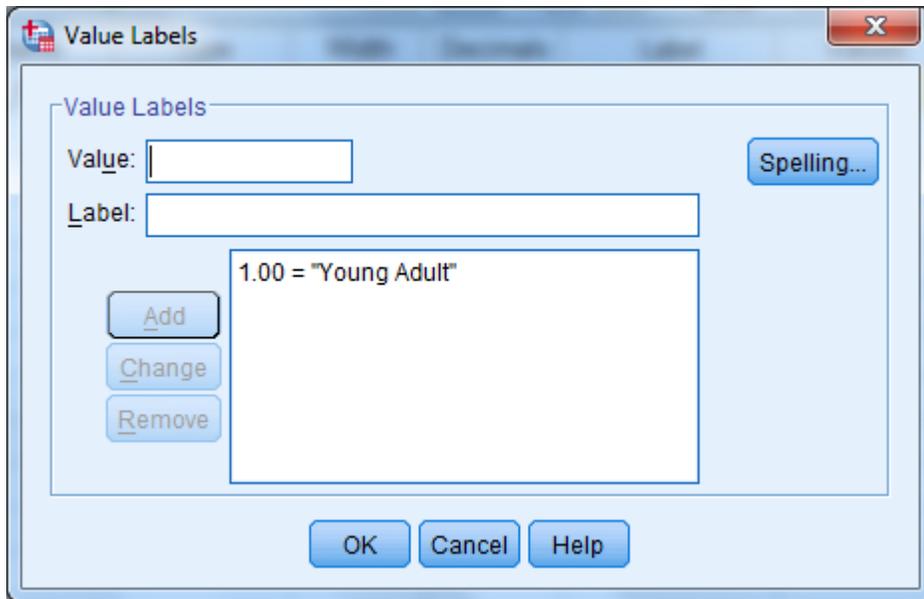

Click in the cell under **Values** and the following dialog box will open:

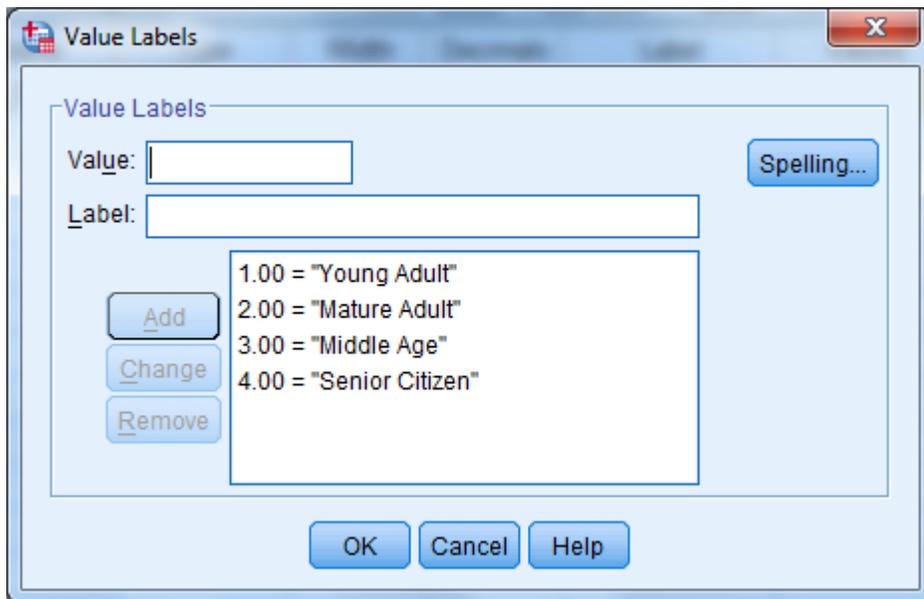

You can then begin to label the *values* of **age_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked Value Label. The screen will look like the following:

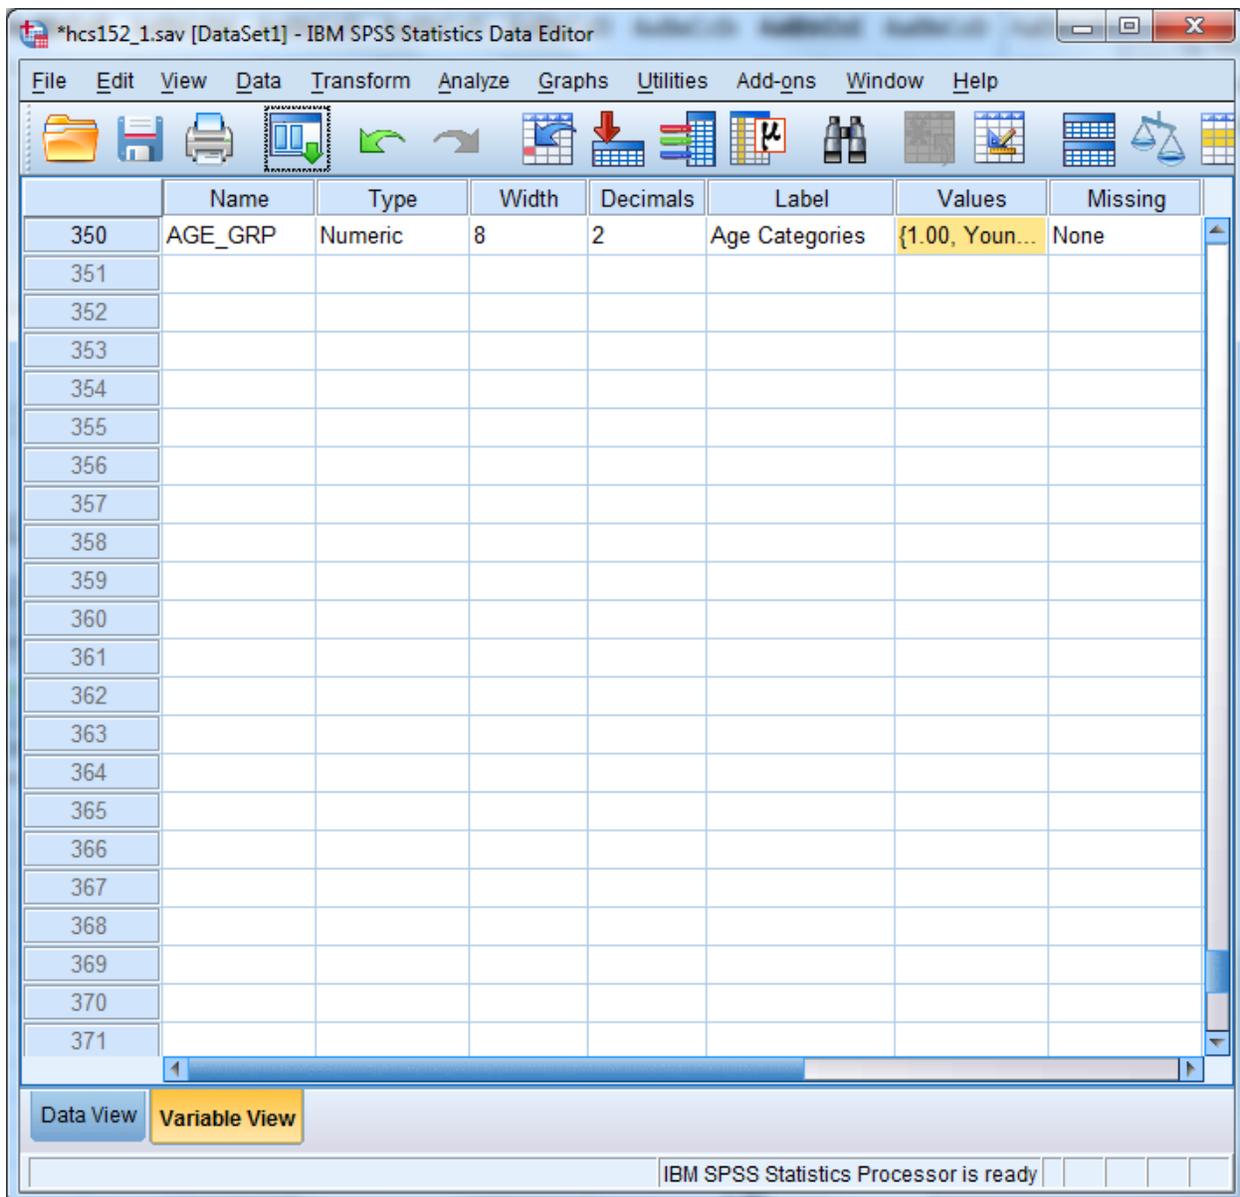

Add is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

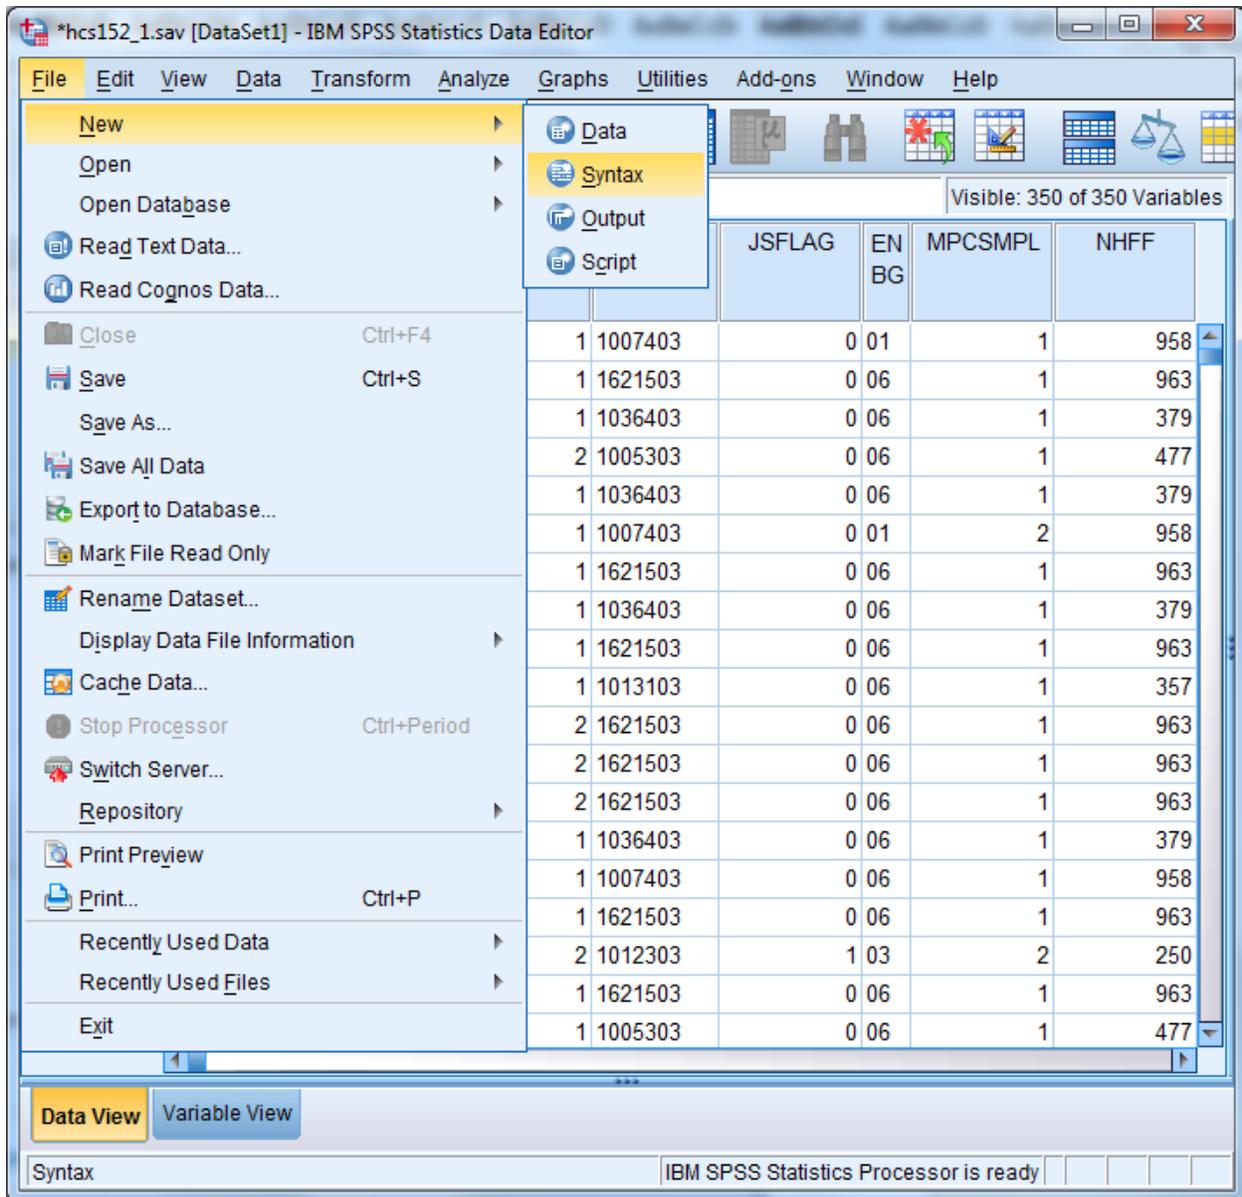

Limiting the Number of Variables

The HCSDDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate respondent’s weight as it relates to their state of health. You are also interested in people that have smoked at least 100 cigarettes in their lifetime, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among branches of service by beneficiary group and enrollment. You can do all the work on a subset of only nine variables, saving them in a separate file.

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New, Syntax** on the **File** menu as in the following:

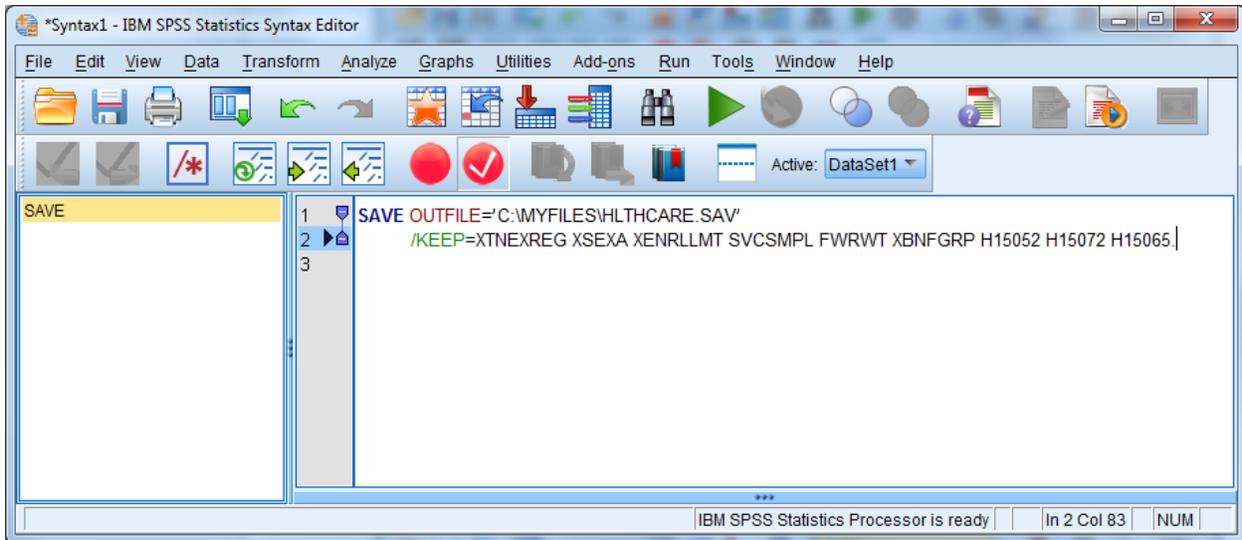

A blank syntax window will open.

Write the following command, substituting the file name and directory specification:

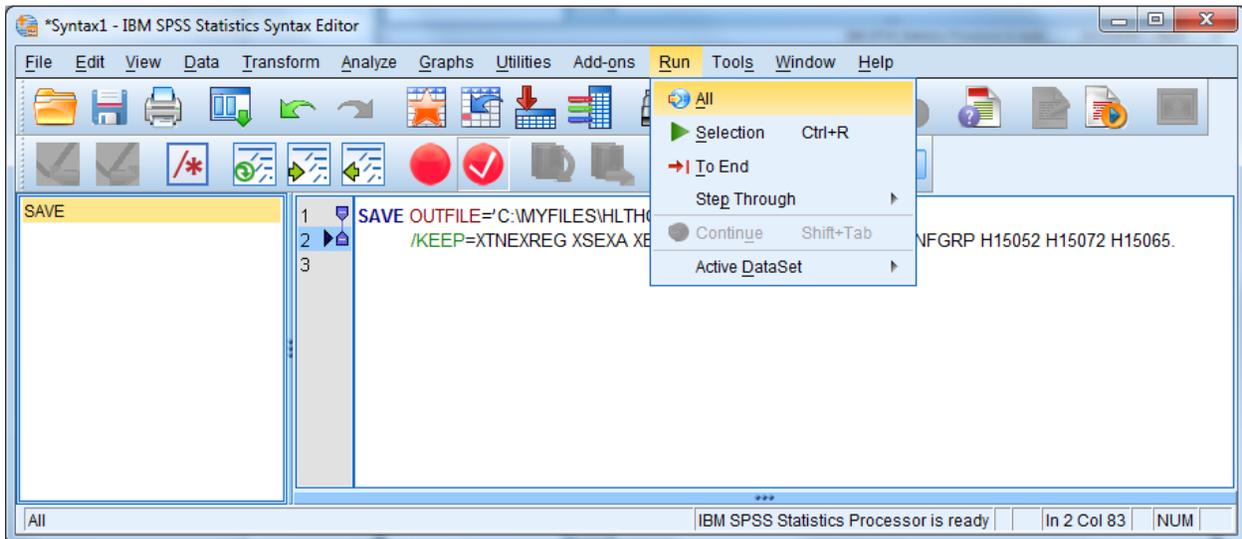

**SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XTNEXREG XSEXA XENRLMT
SVCSMPL FWRWT XBNFGRP H15052 H15072 H15065.**

as in the following:

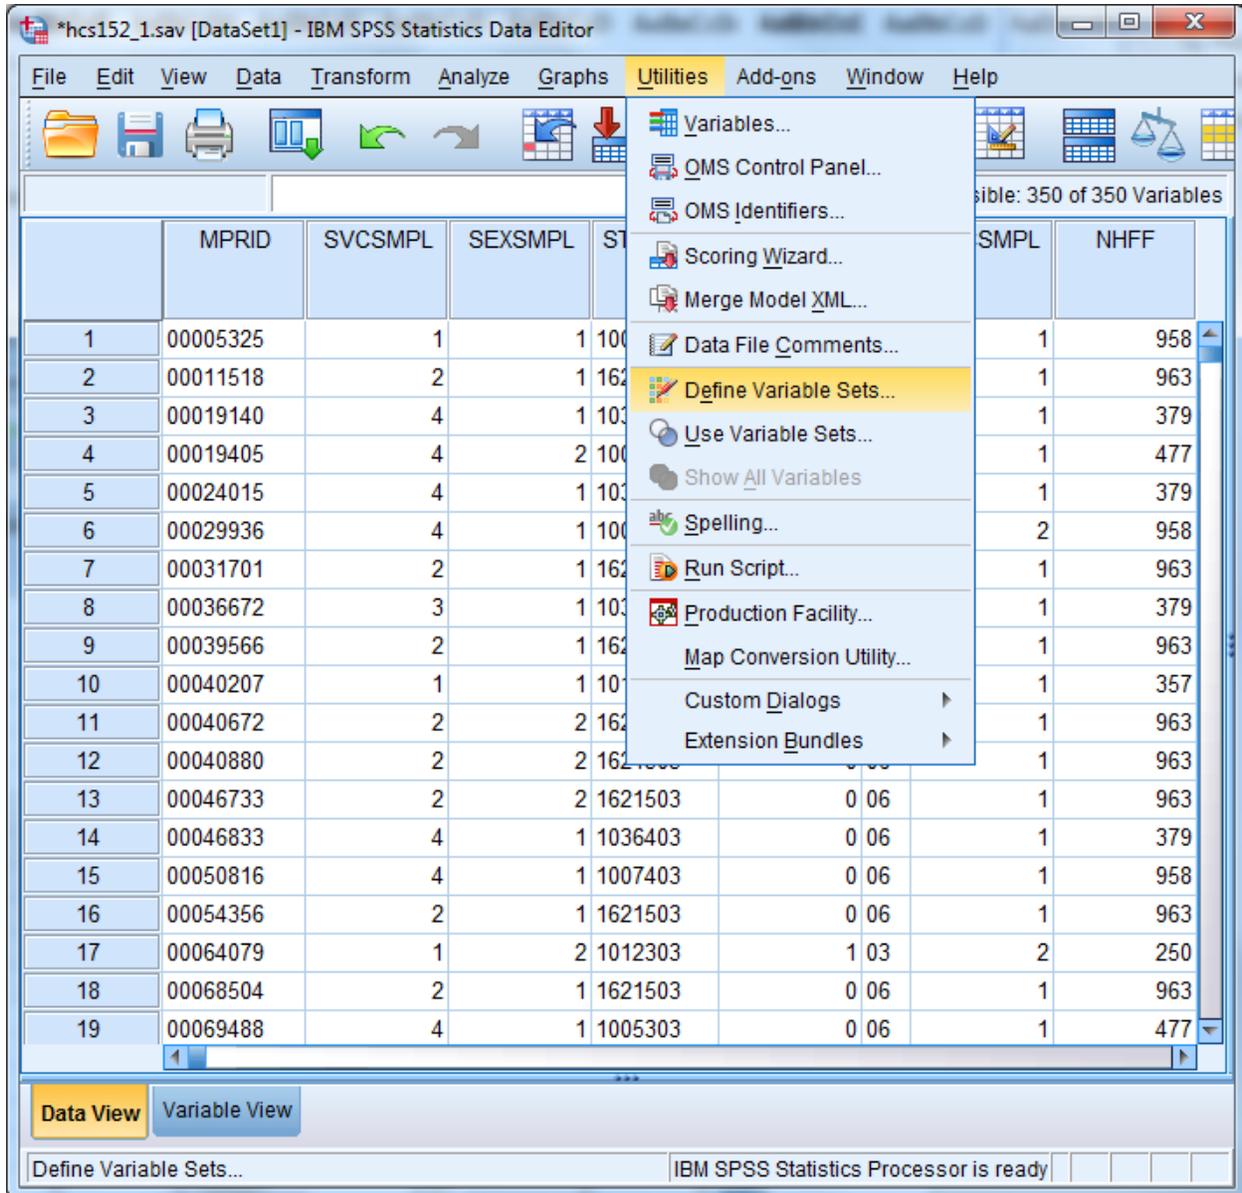

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

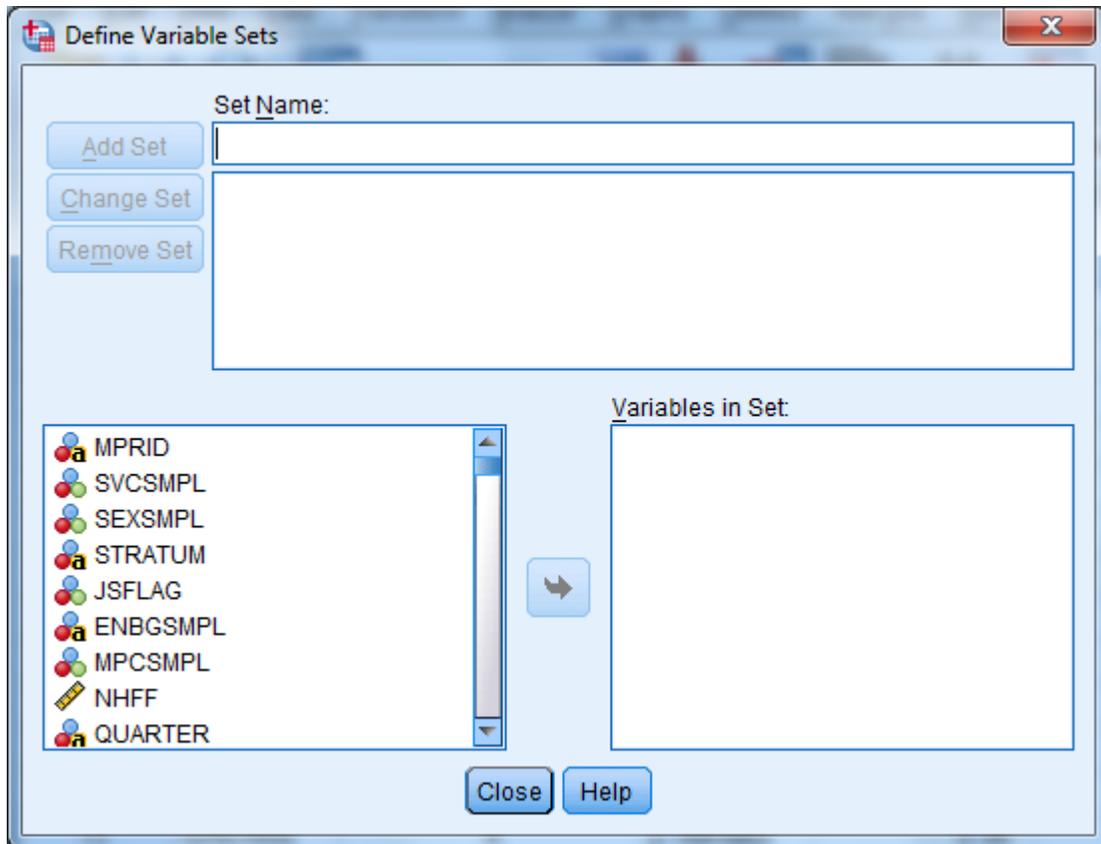

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utilities** menu, define a subset of variables as in the following:

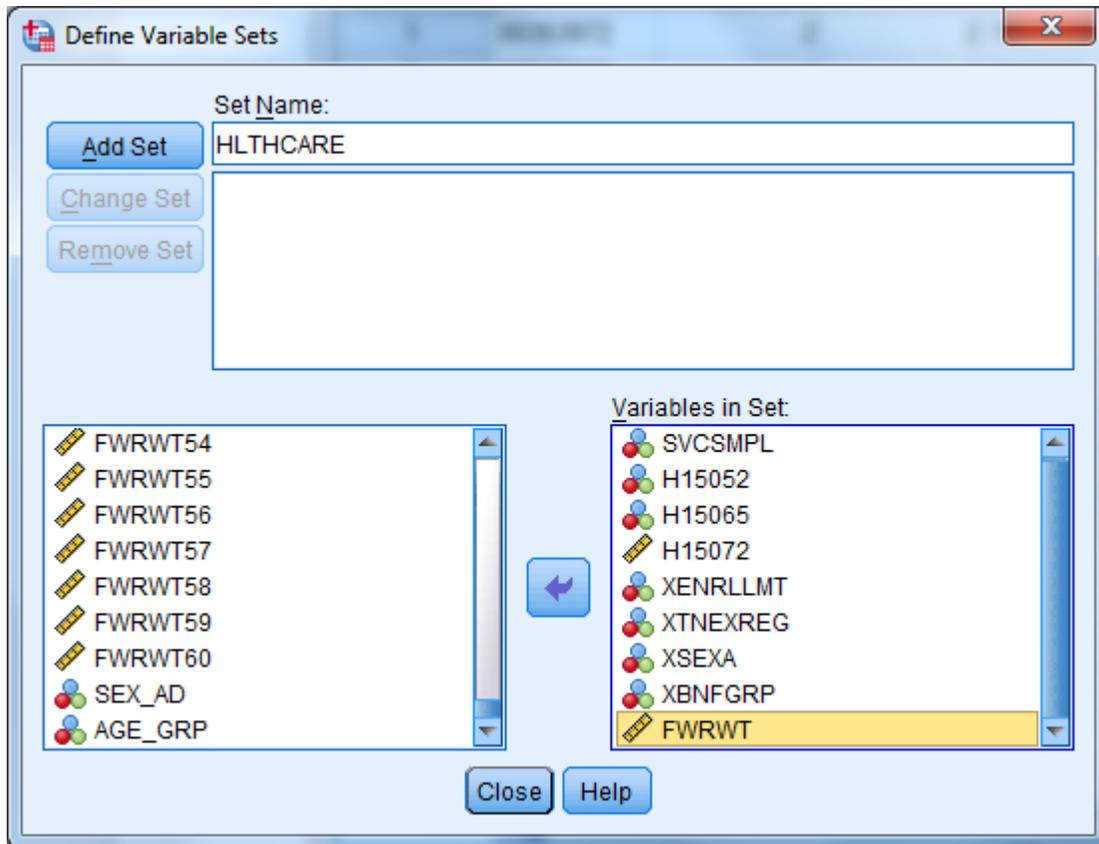

Select Define Variable Sets.

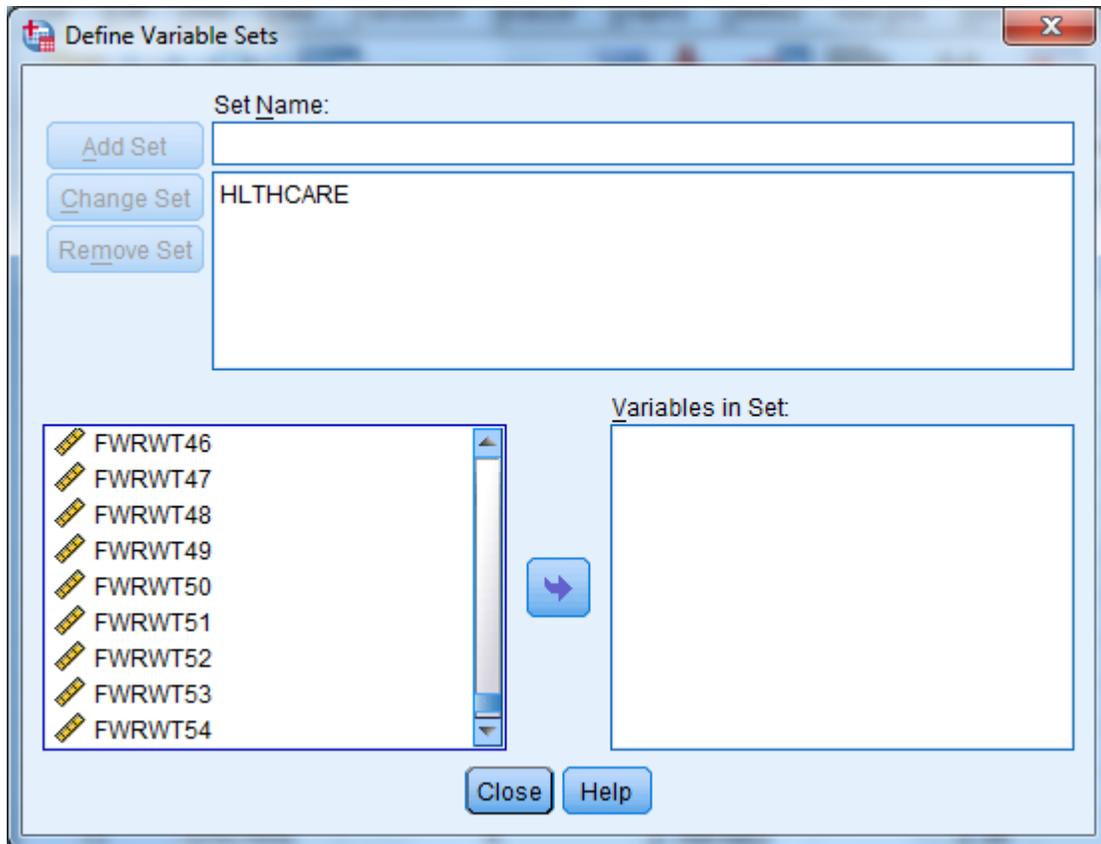

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

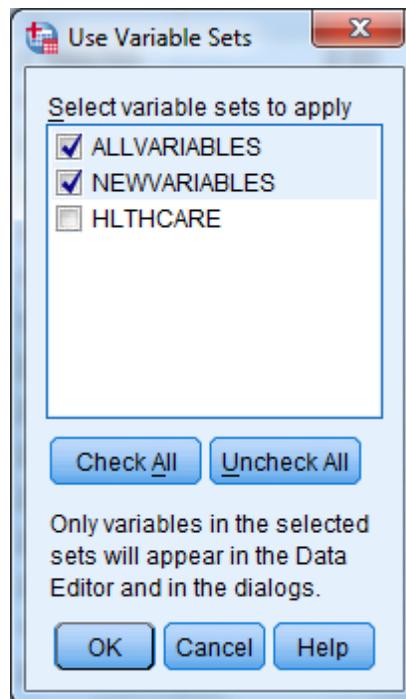

The screen should look like the following:

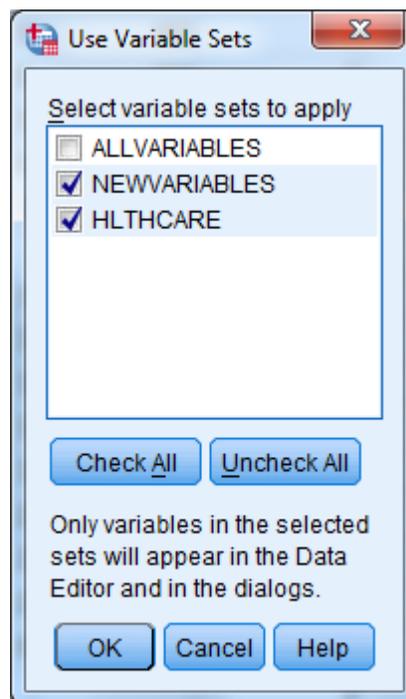

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Variable Sets...**, and receive this screen:

Click the checkbox next to HLTHCARE, and unclick the checkbox next to ALLVARIABLES. Leave NEWVARIABLES as is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

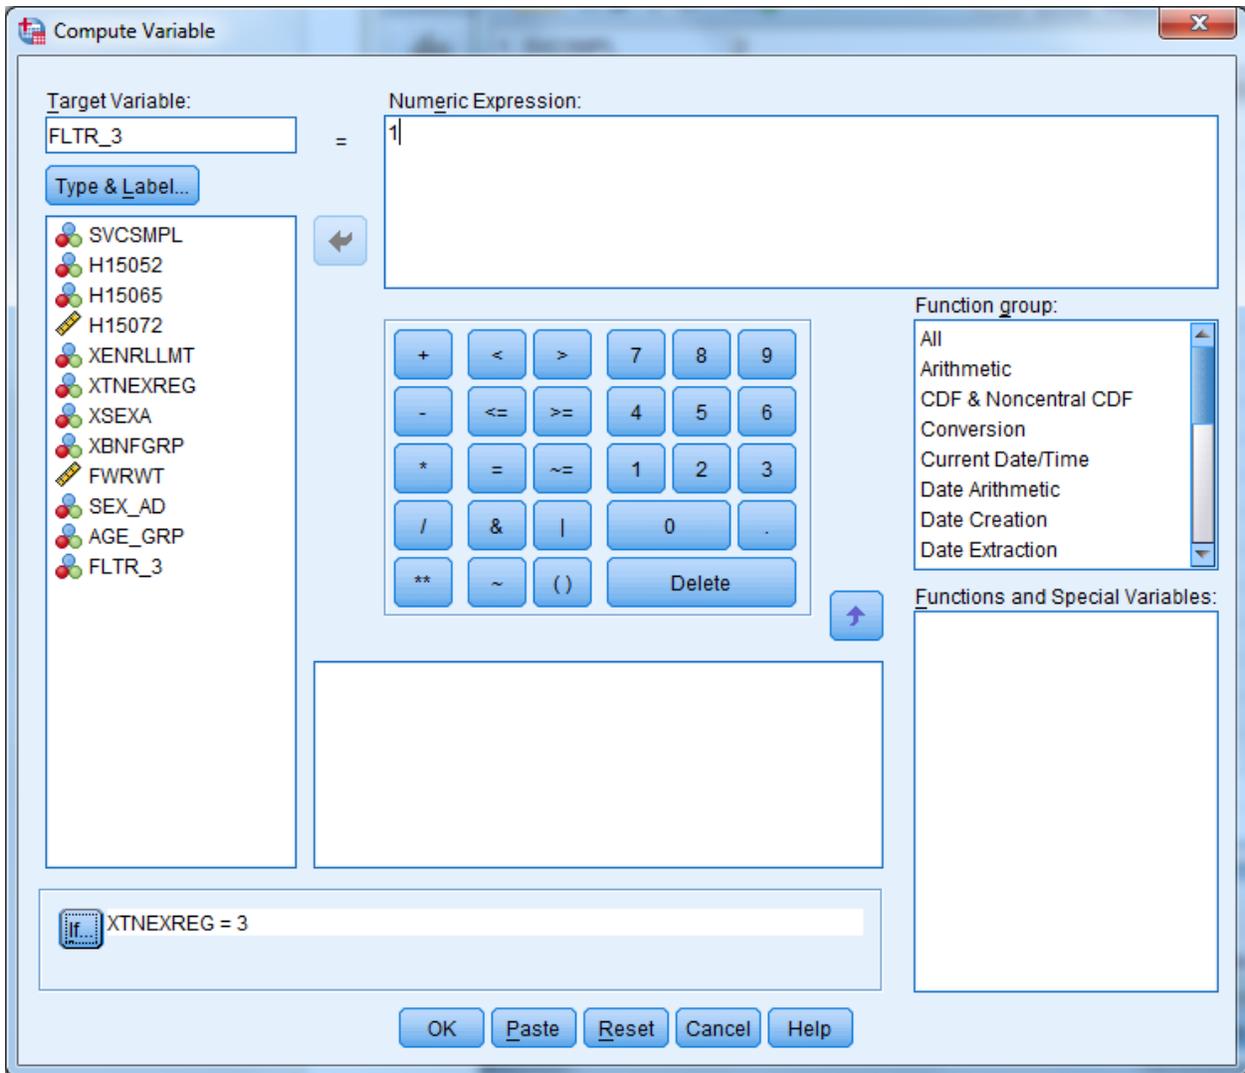

Limiting the Number of Observations

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

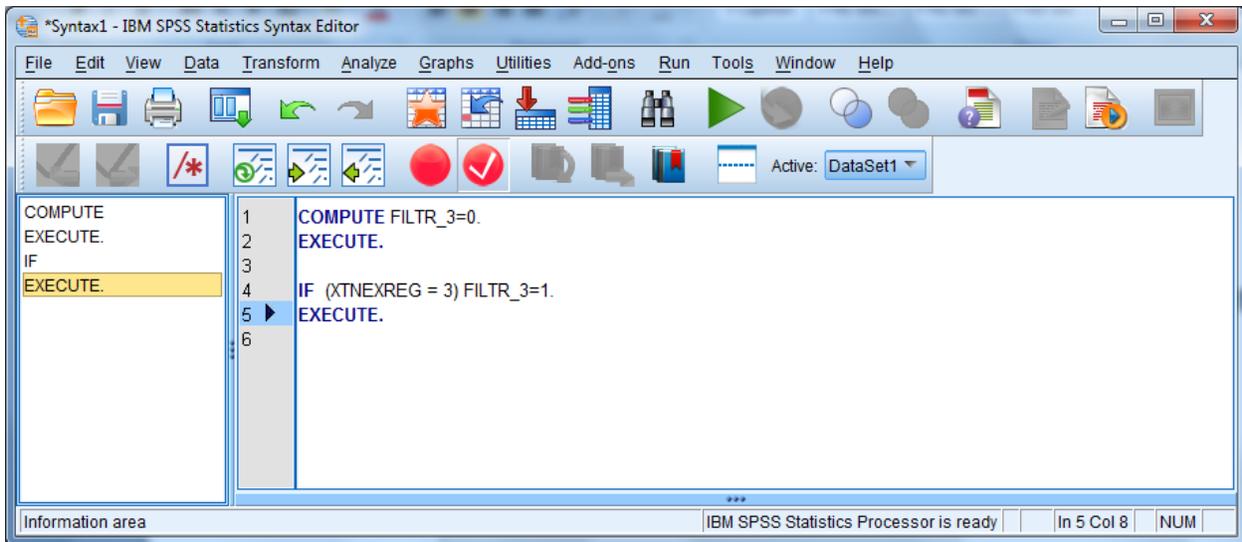

The first task is to **compute** a filter variable for all the cases in the file. A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the West, i.e., cases for which the variable **xtnexreg = 3**. You would build a filter variable named **filtr_3**, which has the value **1** associated with the cases in the West and 0 for all the other cases in the file. The logic is: if **xtnexreg = 3**, then **filtr_3 = 1**, else **filtr_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the "If" condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

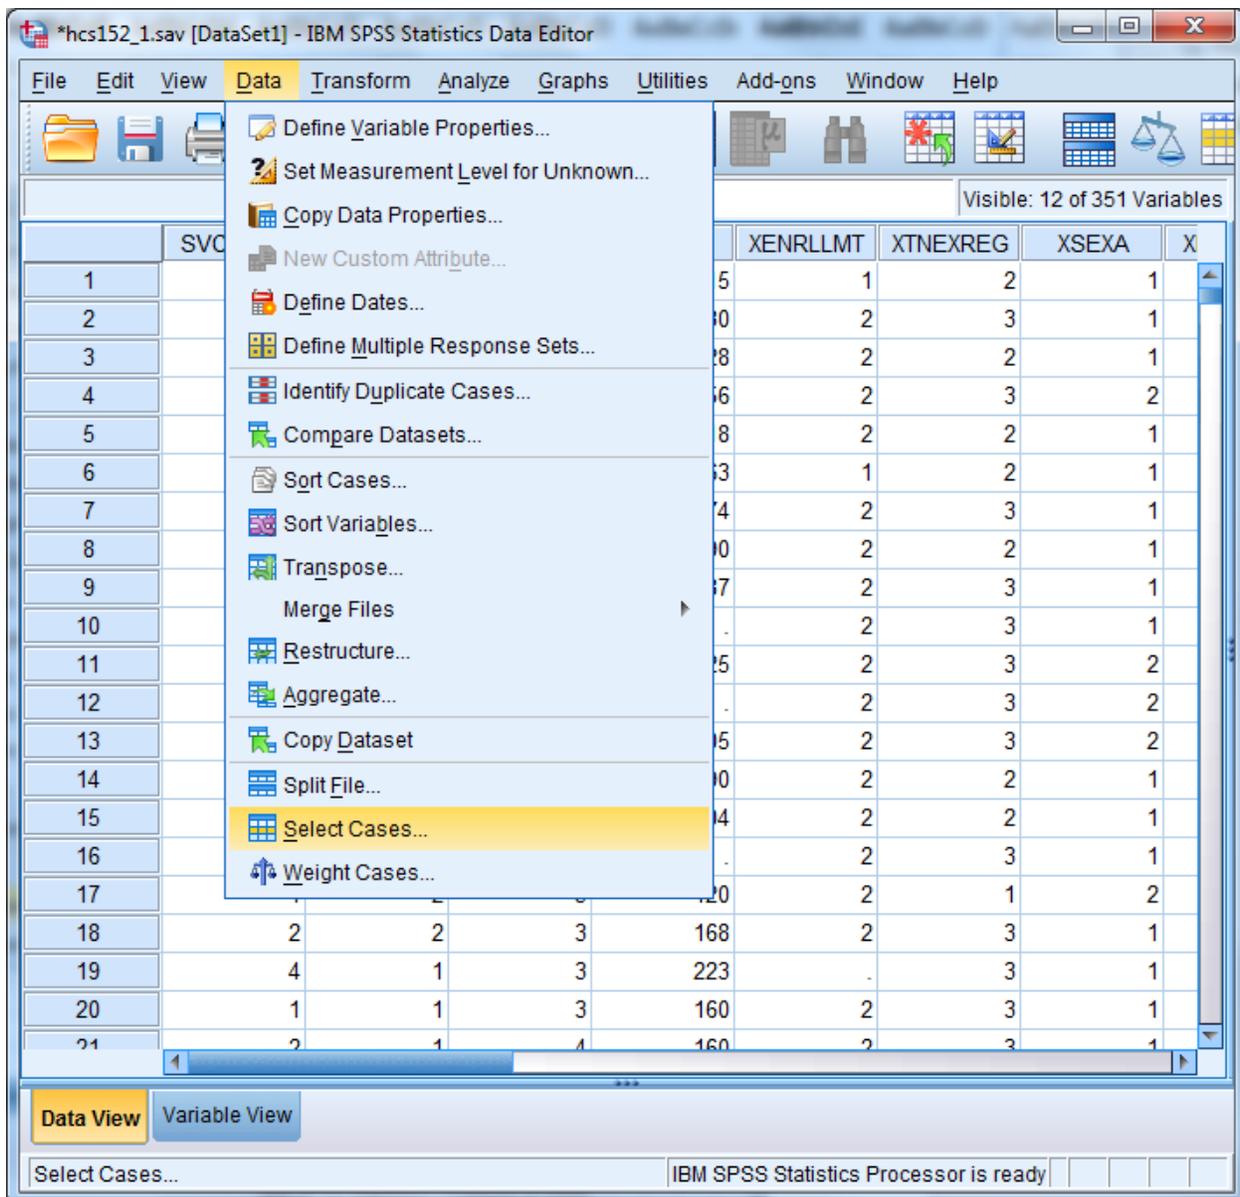

The screen that follows shows the syntax that was generated as you built the variable filtr_3.

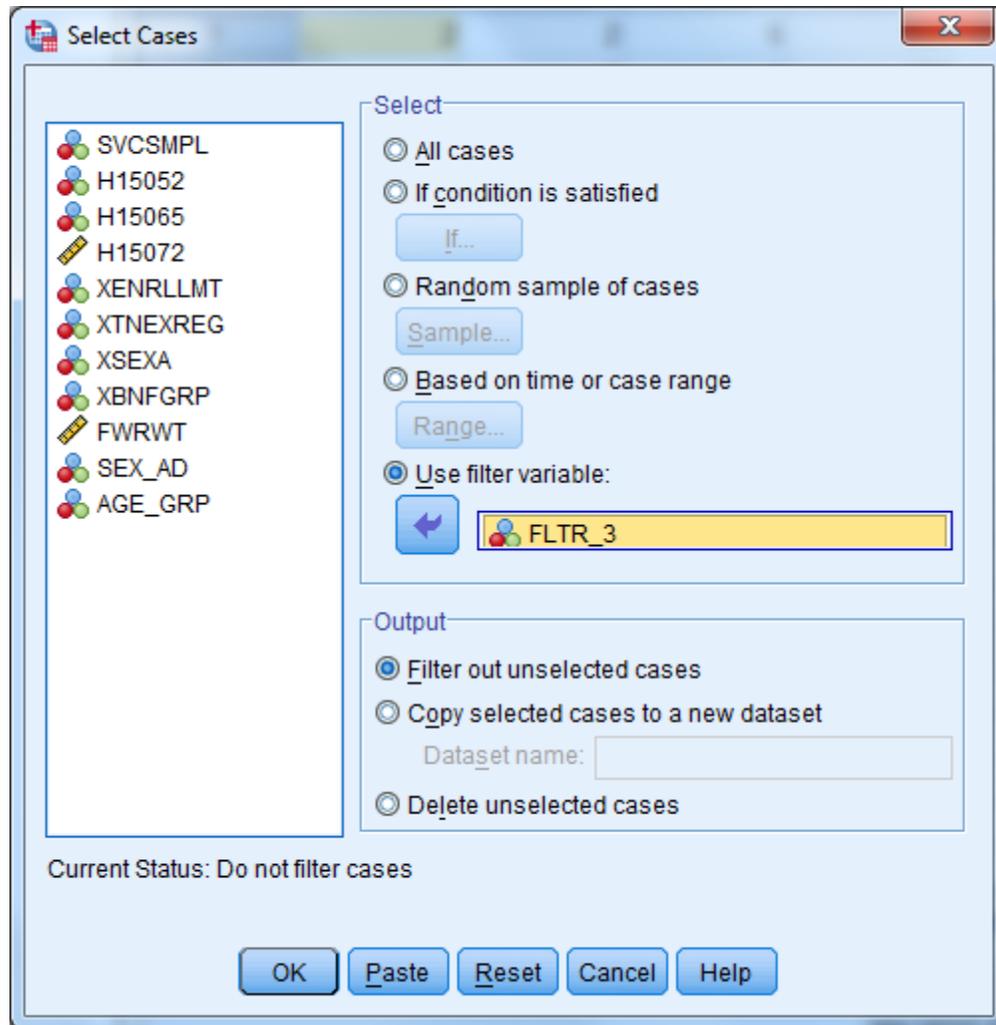

Once you build the filter variable, you can apply it for analyzing only those people from the West.

Using the **Data** menu, choose **Select Cases**.

In the dialog box, check **Use filter variable**. Move the variable **filtr_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filter out unselected cases** is checked under **Output**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

Visible: 12 of 351 Variables

	SVCSMPL	H15052	H15065	H15072	XENRLLMT	XT NexREG	XSEXa	X
1	1	1	4	215	1	2	1	
2	2	1	3	230	2	3	1

20	1	1	3	160	2	3	1	
21	2	1	4	160	2	3	1	

IBM SPSS Statistics Processor is ready | Filter On

You can now produce tables for the subset of cases.

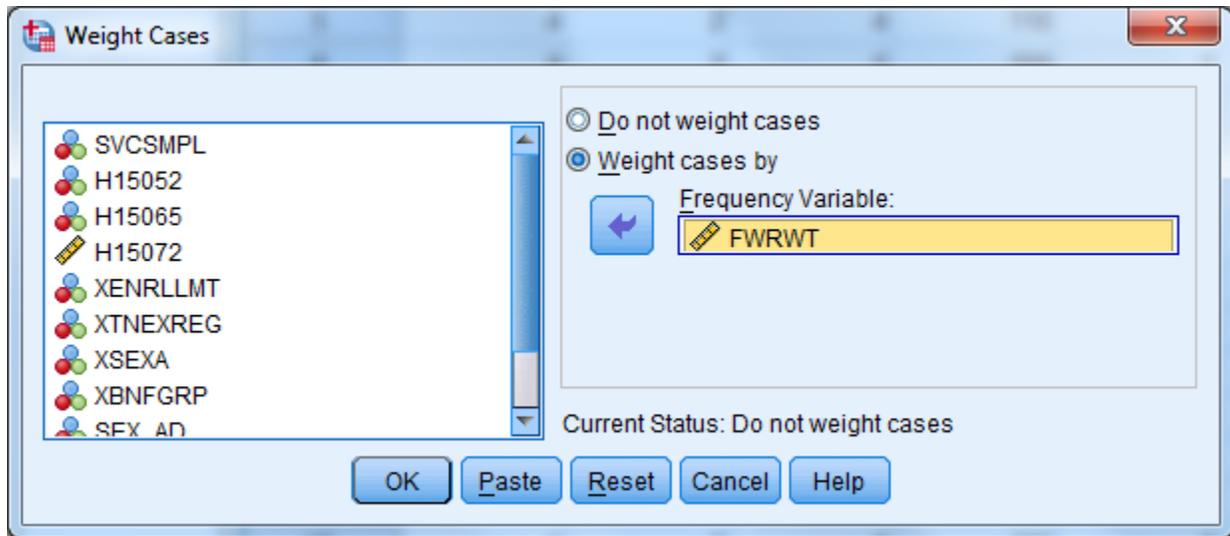

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see *which* filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

Weighting Data

The data file includes a weighting variable, FWRWT, which should be applied to all procedures and runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

Visible: 12 of 351 Variables

Data View Variable View

IBM SPSS Statistics Processor is ready Weight On

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H15052, H15072, H15065, svcsmpl, xbnfgrp, xsexa, xtnexreg, xenrllmt, FWRWT, and filtr_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

Calculating Means

As an example, suppose you want to analyze the health care variables and you want to focus on the West (**xtnexreg = 3**). Suppose you are also interested in how the respondent's weight relates to his

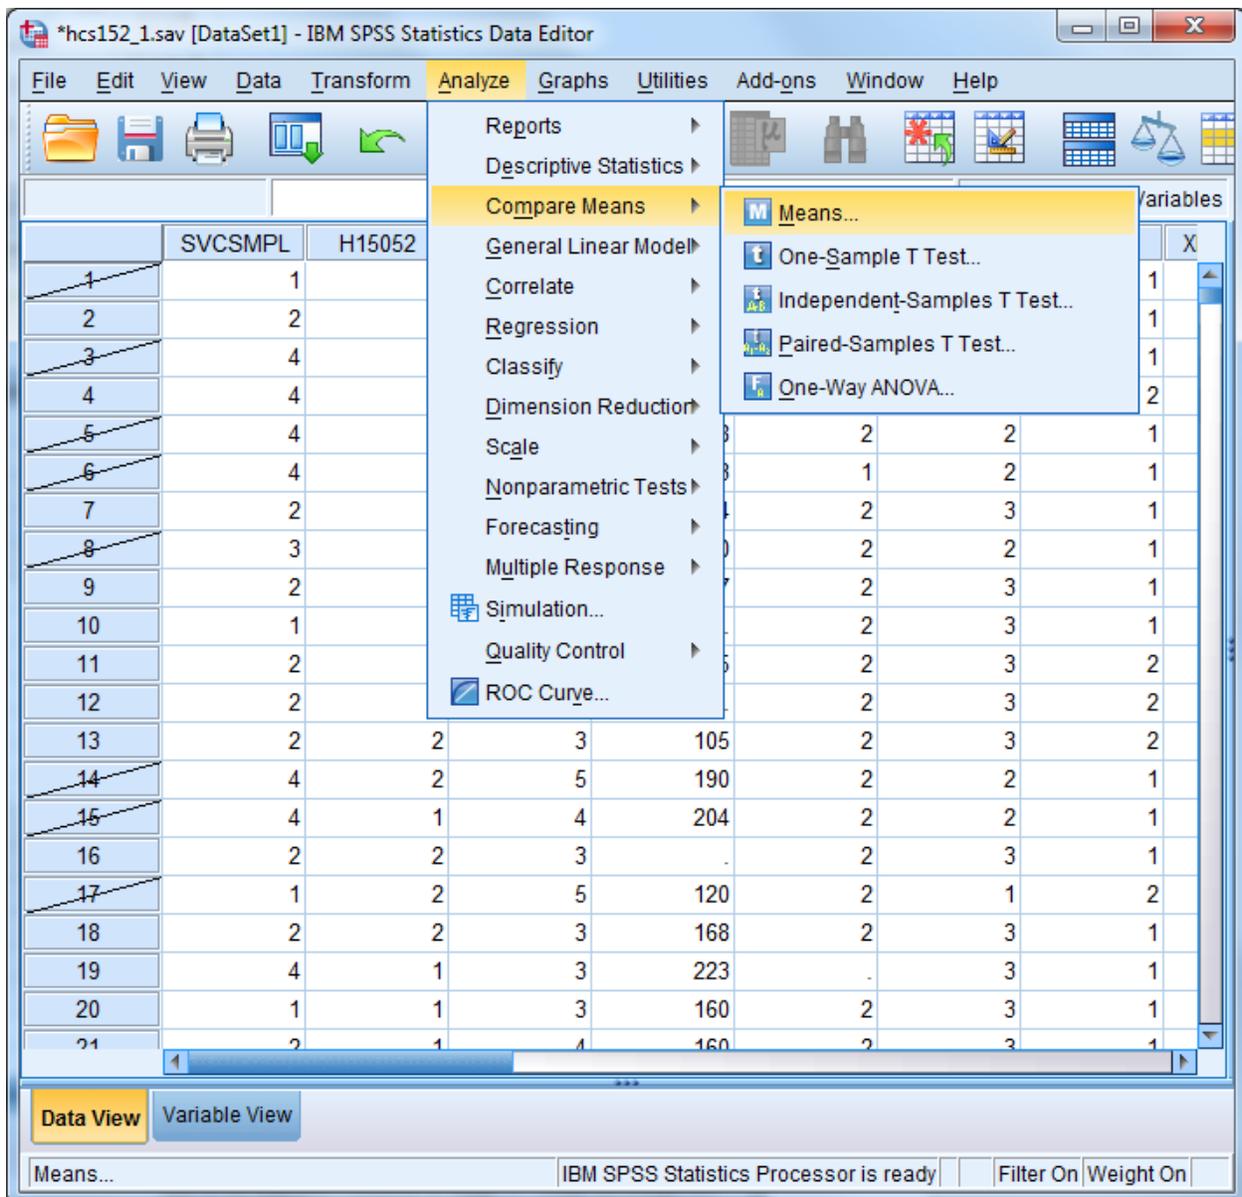

self-evaluation of his health for the West region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H15072** (respondent's weight), and **H15065** (assessment of the state of health). The statistic you want to see is the mean of the health care variables for each group in our breakdown.

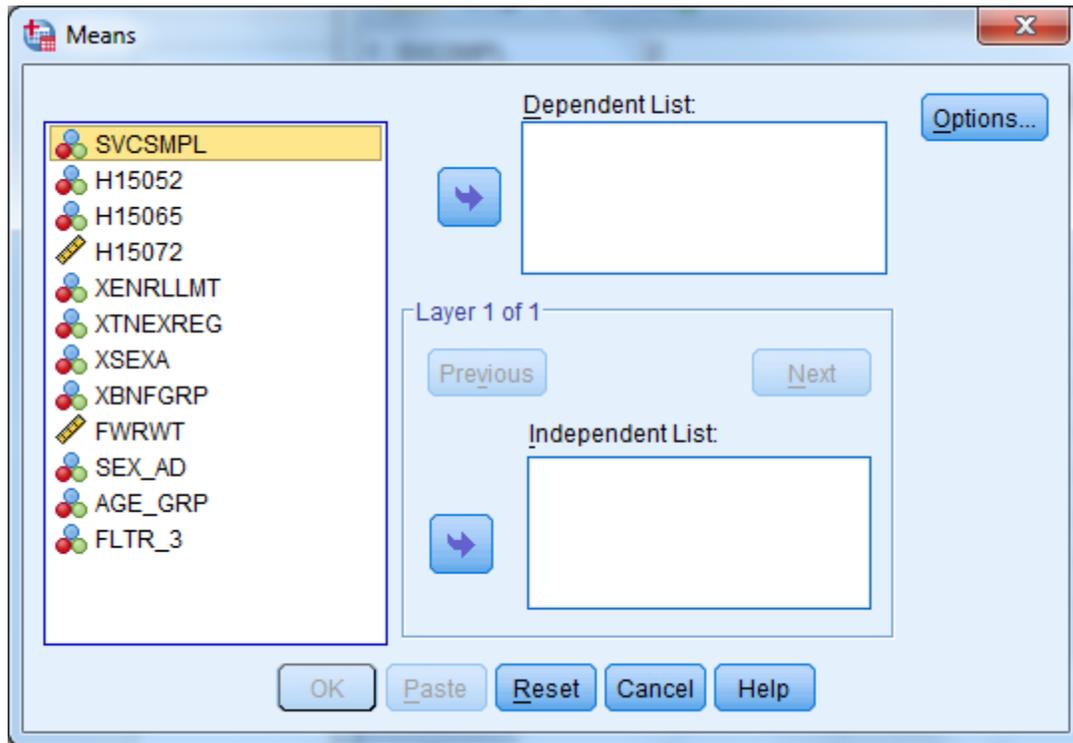

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **FWRWT**, which you would activate for procedure runs. The subset also includes the new variable, **filtr_3**, which allows us to select only those cases in the West.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **FWRWT**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr_3**. On the status line, **Filter On** and **Weight On** should appear.

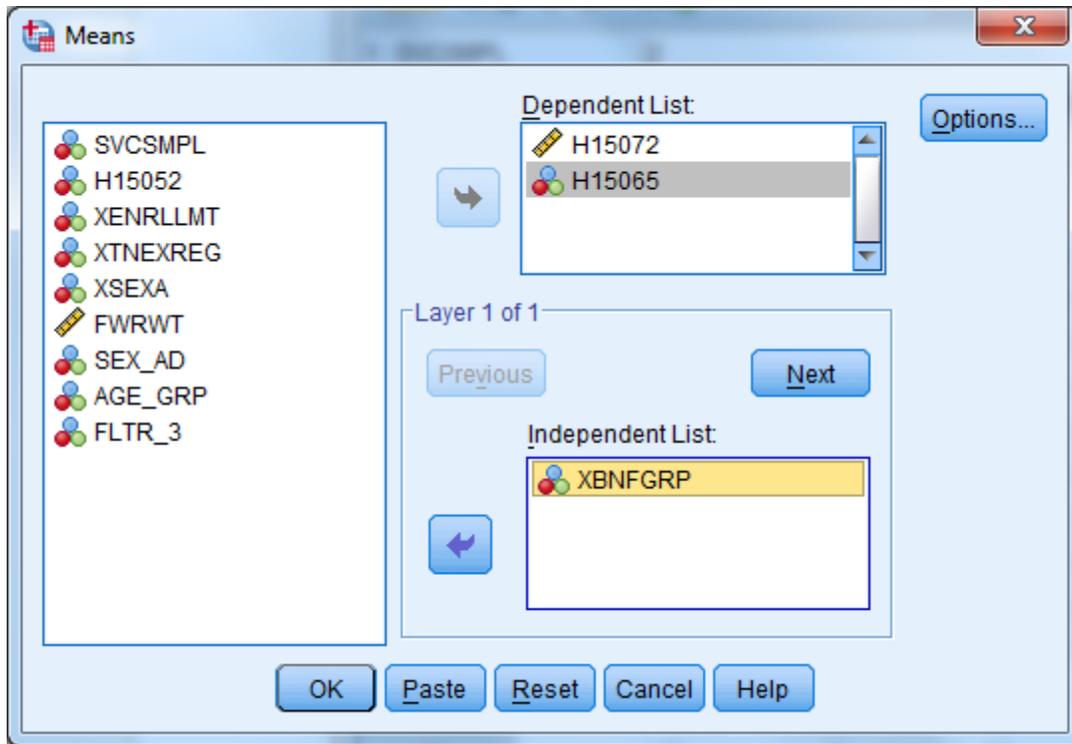

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

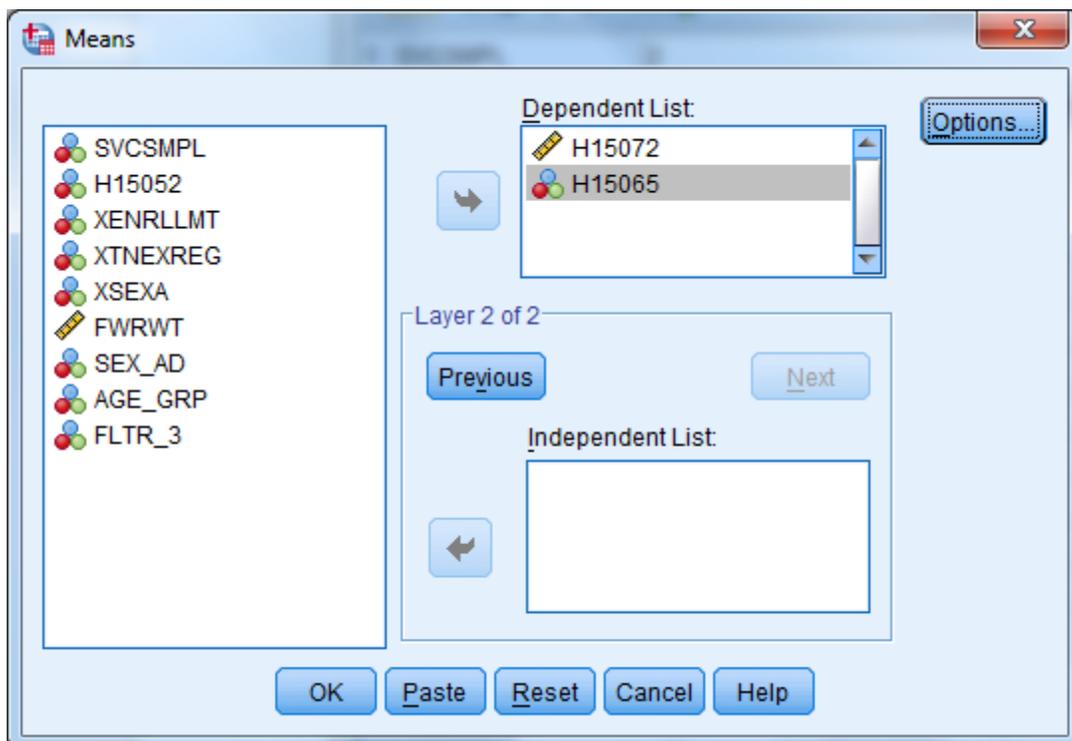

The dialog box for the Means procedure will open as in the following screen:

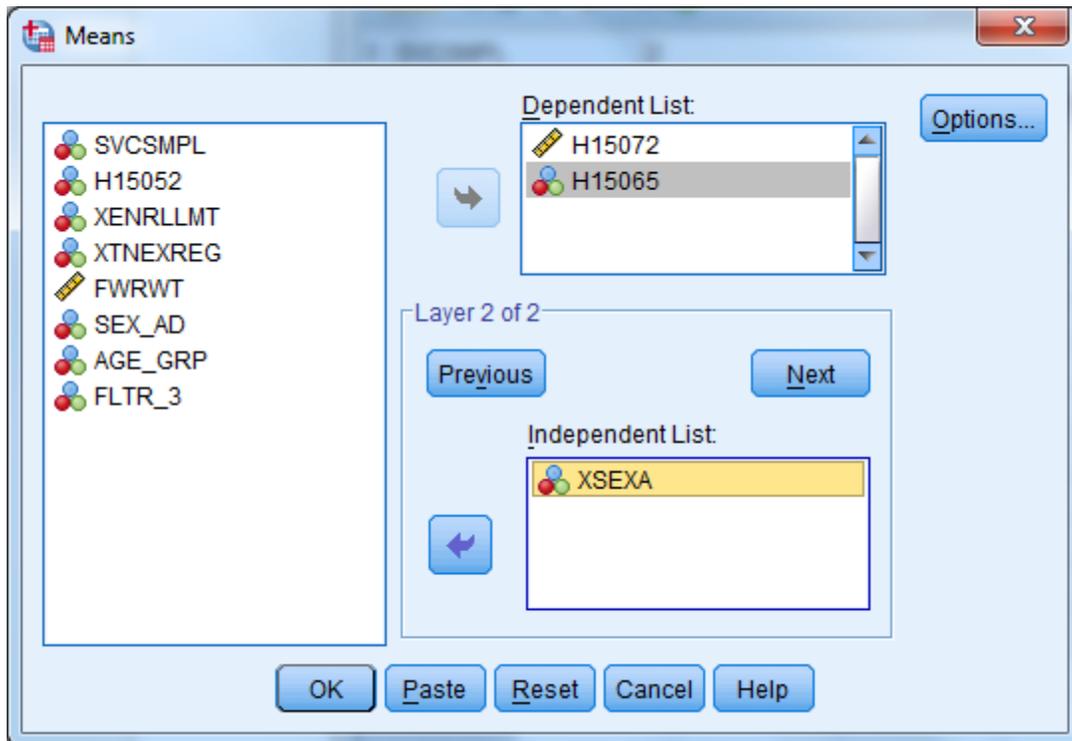

Move the variables **H15072** and **H15065** from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **XBNFGRP** from the variable list on the left into the box under **Independent List**. **XBNFGRP** is the first grouping variable. The screen should look like the following:

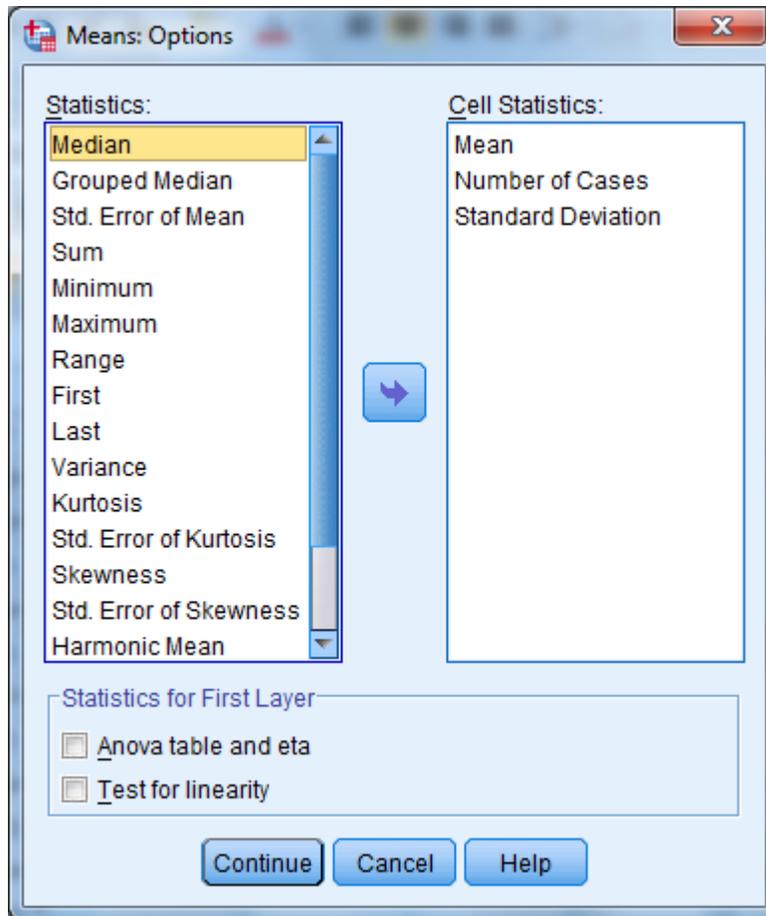

Click on **Next** in the center of the box to create a second layer. The following screen will open:

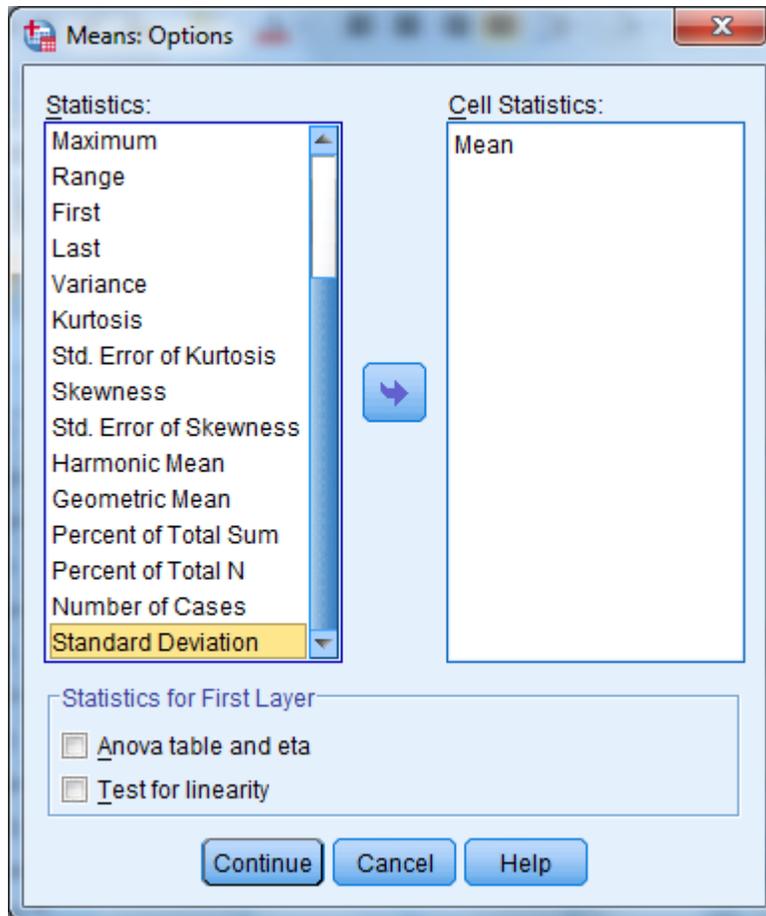

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsex** from the variable list on the left into the box under **Independent List**. **Xsex** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The screenshot shows the IBM SPSS Statistics Viewer interface. The left pane contains a tree view with the following structure:

- Output
 - Log
 - Means (selected)
 - Title
 - Notes
 - Case Processing Summary
 - Report

The right pane displays the following output:

Means

Case Processing Summary

	Cases					
	Included		Excluded		Total	
	N	Percent	N	Percent	N	Percent
Weight without shoes * Beneficiary Group * Male or Female - R	2097320	91.3%	199600	8.7%	2296920	100.0%
In gnrl, how would you rate ovrrl hlthh * Beneficiary Group * Male or Female - R	2175442	94.7%	121478	5.3%	2296920	100.0%

Report

Mean

Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrrl hlthh
Active Duty <65	Male	182.93	3.86
	Female	150.40	3.90
	Total	178.06	3.87

	Female	153.24	3.72
	Total	155.80	3.72

IBM SPSS Statistics Processor is ready | H: 0.23, W: 5.81 in

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

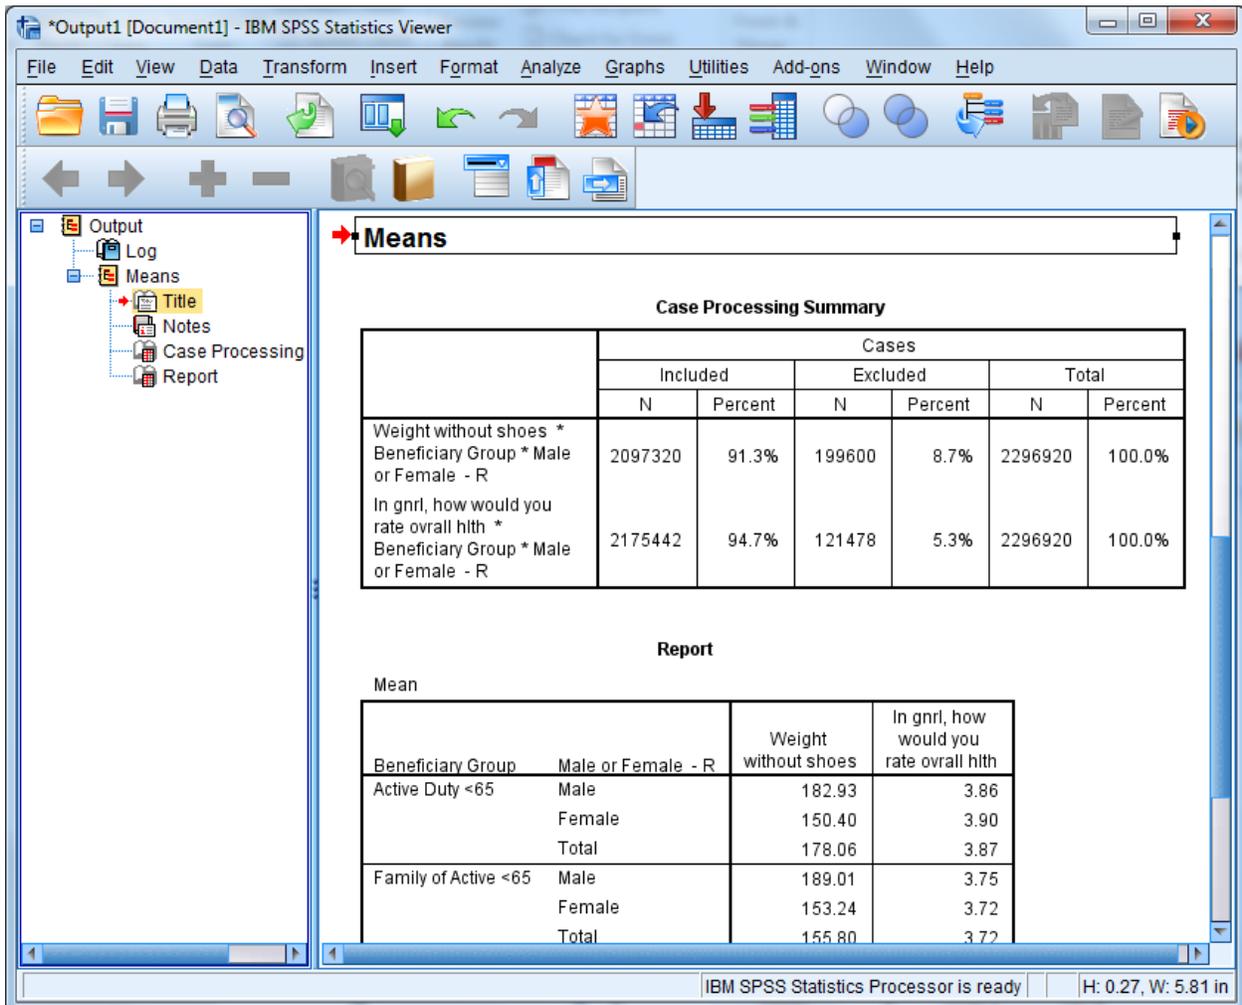

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

Mean of Respondent's Weight w/Health Assessment

Case Processing Summary

	Cases					
	Included		Excluded		Total	
	N	Percent	N	Percent	N	Percent
Weight without shoes * Beneficiary Group * Male or Female - R	2097320	91.3%	199600	8.7%	2296920	100.0%
In gnrl, how would you rate overall hith * Beneficiary Group * Male or Female - R	2175442	94.7%	121478	5.3%	2296920	100.0%

Report

	Active Dataset	DataSet1
	Filter	FILTR_3
	Weight	Final NEW Weight
	Split File	<none>
	N of Rows in Working Data File	2991
Missing Value Handling	Definition of Missing	For each dependent variable in a table, user-defined missing values for the dependent and all grouping variables are treated as missing.
	Cases Used	Cases used for each table have no missing values in any independent variable, and not all dependent variables have missing values.
Syntax		MEANS TABLES=H15072 H15065 BY XBNFGRP BY XSEXA /CELLS MEAN.
Resources	Processor Time	00:00:00.06
	Elapsed Time	00:00:00.05

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

The screenshot shows the IBM SPSS Statistics Viewer interface. The main window displays a pivot table titled "Mean of Respondent's Weight w/Health Assessment". The table is structured as follows:

Report			
Mean			
Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrrll hlth
Active Duty <65	Male	182.93	3.86
	Female	150.40	3.90
	Total	178.06	3.87
Family of Active <65	Male	189.01	3.75
	Female	153.24	3.72
	Total	155.80	3.72
Ret/Surv/Fam <65	Male	196.92	3.56
	Female	160.61	
	Total	177.85	
Ret/Surv/Fam 65+	Male	192.07	
	Female	162.78	
	Total	180.76	
Total	Male	189.74	
	Female	158.24	
	Total	175.86	

A context menu is open over the table, showing the following options: Cut, Copy, Copy Special..., Paste After, Create/Edit Autoscript..., Export..., and Edit Content (which is highlighted with a right-pointing arrow).

Select **Edit Content** and **In Separate Window** as pictured below:

The screenshot shows the IBM SPSS Statistics Viewer interface. The main window displays a report titled "Mean of Respondent's Weight w/Health Assessment". The report contains a table with the following data:

Report			
Mean			
Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrral hith
Active Duty <65	Male	182.93	3.86
	Female	150.40	3.90
	Total	178.06	3.87
Family of Active <65	Male	189.01	3.75
	Female	153.24	3.72
	Total	155.80	3.72
Ret/Surv/Fam <65	Male	196.92	3.56
	Female	160.61	3.62
	Total	178.77	3.59
Ret/Surv/Fam 65+	Male	178.77	3.70
	Female	160.61	3.63
	Total	169.69	3.67
Total	Male	178.77	3.73
	Female	160.61	3.68
	Total	169.69	3.70

A context menu is open over the table, with the following options: Cut, Copy, Copy Special..., Paste After, Create/Edit Autoscript..., Export..., Edit Content, In Viewer, and In Separate Window. The "In Separate Window" option is highlighted.

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

Report

Statistics Mean

Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrall hith
Active Duty <65	Male	182.93	3.86
	Female	150.40	3.90
	Total	178.06	3.87
Family of Active <65	Male	189.01	3.75
	Female	153.24	3.72
	Total	155.80	3.72
Ret/Surv/Fam <65	Male	196.92	3.56
	Female	160.61	3.62
	Total	177.85	3.59
Ret/Surv/Fam 65+	Male	192.07	3.70
	Female	162.78	3.63
	Total	180.76	3.67
Total	Male	189.74	3.73
	Female	158.24	3.68
	Total	175.86	3.70

In this special editor, there are many options for formatting the table.

Suppose you want to change the table format from vertical to horizontal. Open the **Pivot** menu in the tool bar and choose **Transpose Rows and Columns** as shown below:

The screenshot shows a Pivot Table Report window with the 'Pivot' menu open. The 'Transpose Rows and Columns' option is highlighted. The table below displays the current data structure.

Beneficiary Group	Male or Female - R	vvergnit without shoes	would you rate ovrall hith
Active Duty <65	Male	182.93	3.86
	Female	150.40	3.90
	Total	178.06	3.87
Family of Active <65	Male	189.01	3.75
	Female	153.24	3.72
	Total	155.80	3.72
Ret/Surv/Fam <65	Male	196.92	3.56
	Female	160.61	3.62
	Total	177.85	3.59
Ret/Surv/Fam 65+	Male	192.07	3.70
	Female	162.78	3.63
	Total	180.76	3.67
Total	Male	189.74	3.73
	Female	158.24	3.68
	Total	175.86	3.70

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all of the table editing in the left section of the table, and the changes will spread through the entire table.

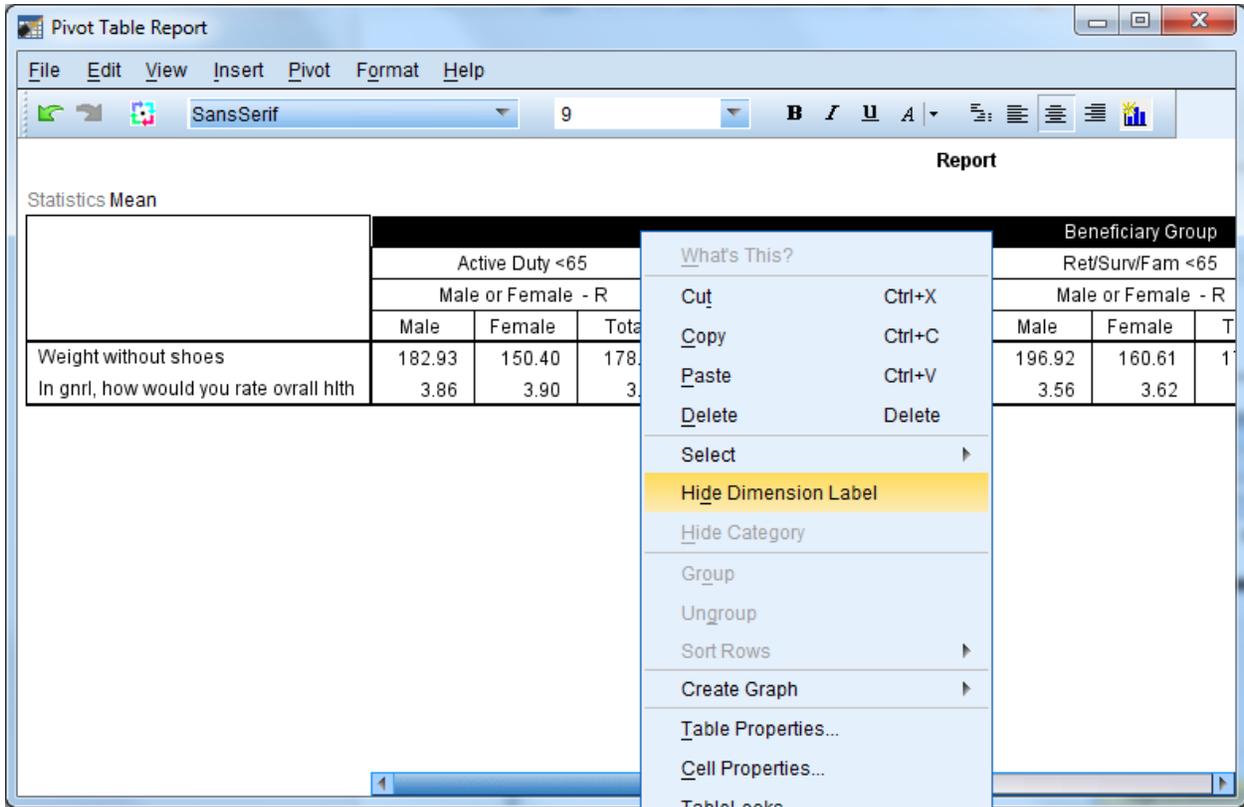

Report

Statistics Mean

	Beneficiary Group								
	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65		
	Male or Female - R			Male or Female - R			Male or Female - R		
	Male	Female	Total	Male	Female	Total	Male	Female	Total
Weight without shoes	182.93	150.40	178.06	189.01	153.24	155.80	196.92	160.61	161.17
In gnrl, how would you rate ovrrall hlth	3.86	3.90	3.87	3.75	3.72	3.72	3.56	3.62	3.62

You would then notice that certain labels are redundant. The labels **Beneficiary Group** and **Male or Female - R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

Click inside the table section labeled **Male or Female - R** and repeat the above procedure. An improved table is shown in the following screen.

Pivot Table Report

Page 1 SPSS Statistics Processor is ready

Calculating Percents

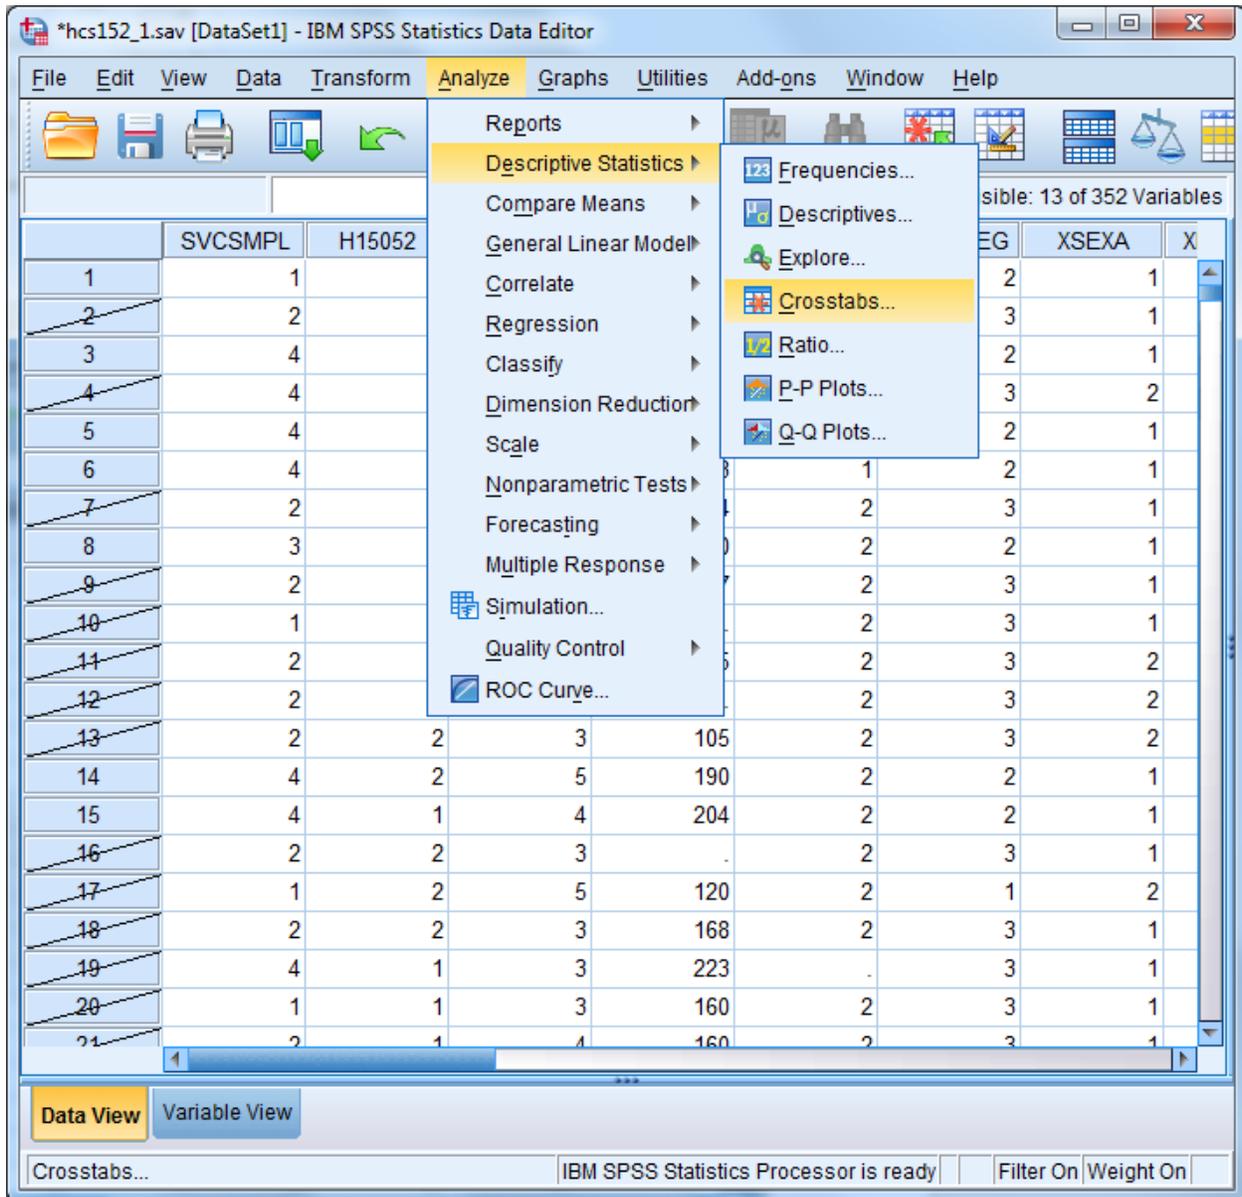

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

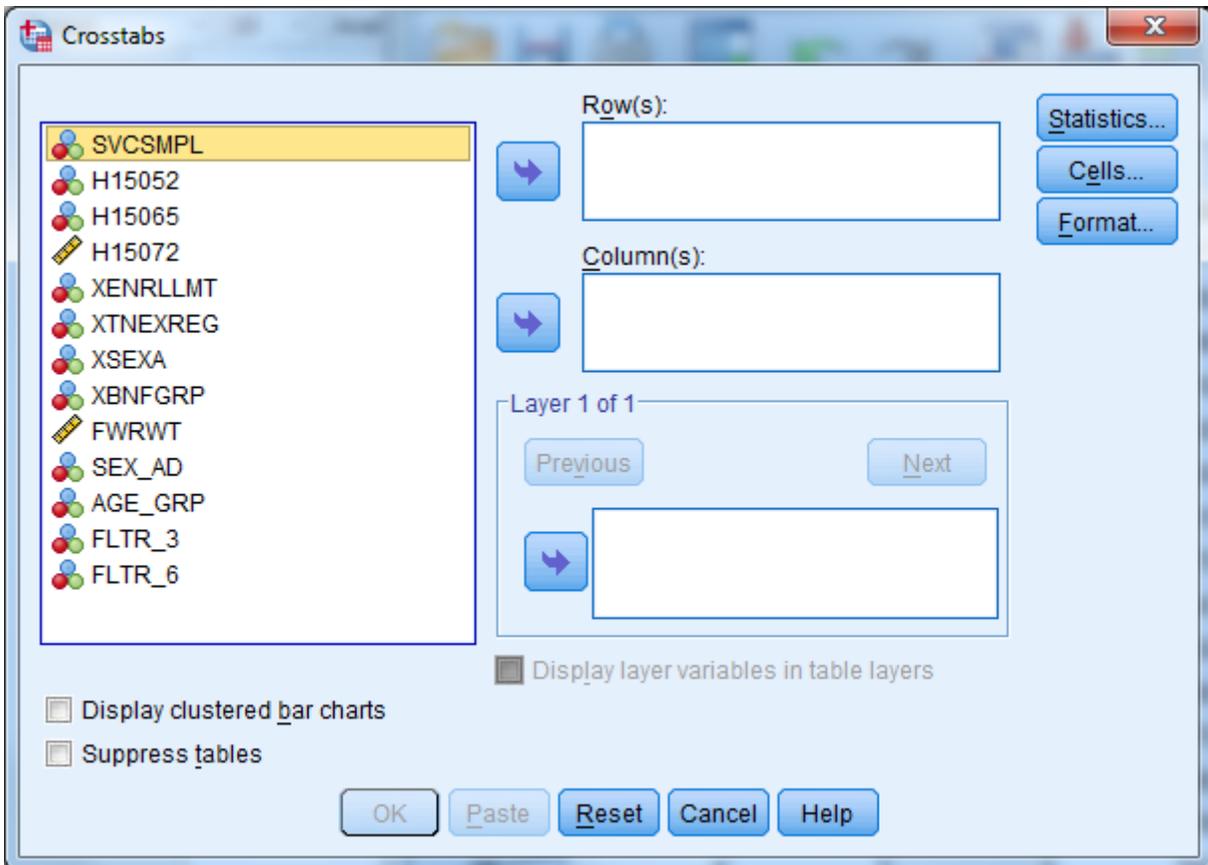

For example, suppose you want to see the percentage of people within each branch of service who answered “yes” or “no” to the question, “Did you ever smoke at least 100 cigarettes in your life?” The variables in this analysis are **svcsmpl** – the branch of service, and **H15052** – the questionnaire variable. The cases for the analysis are from the South only.

The first task is to build a new filter variable, assigning **1** to the variable when **XTNEXREG = 2**. You would call the variable **filtr_6** and build it the same way you built the filter, **filtr_3**. Cases from the South are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

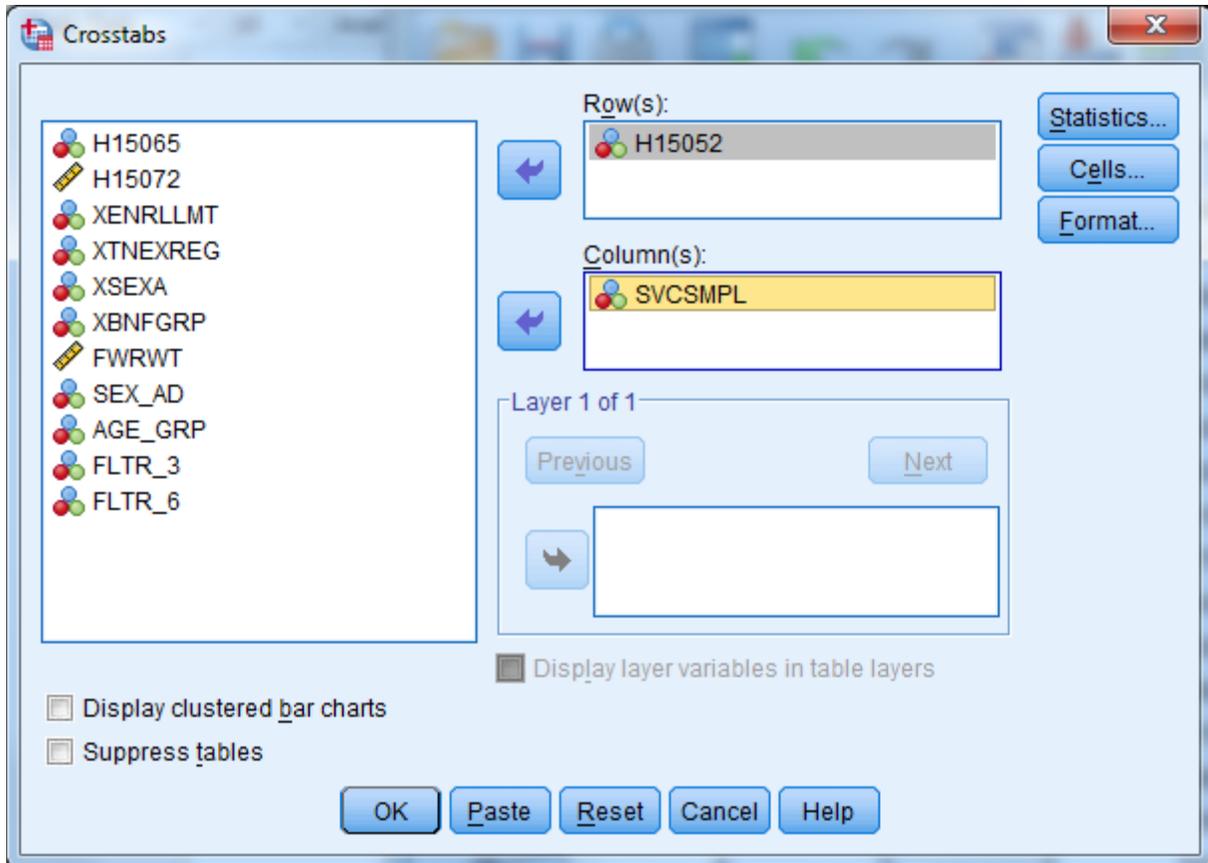

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

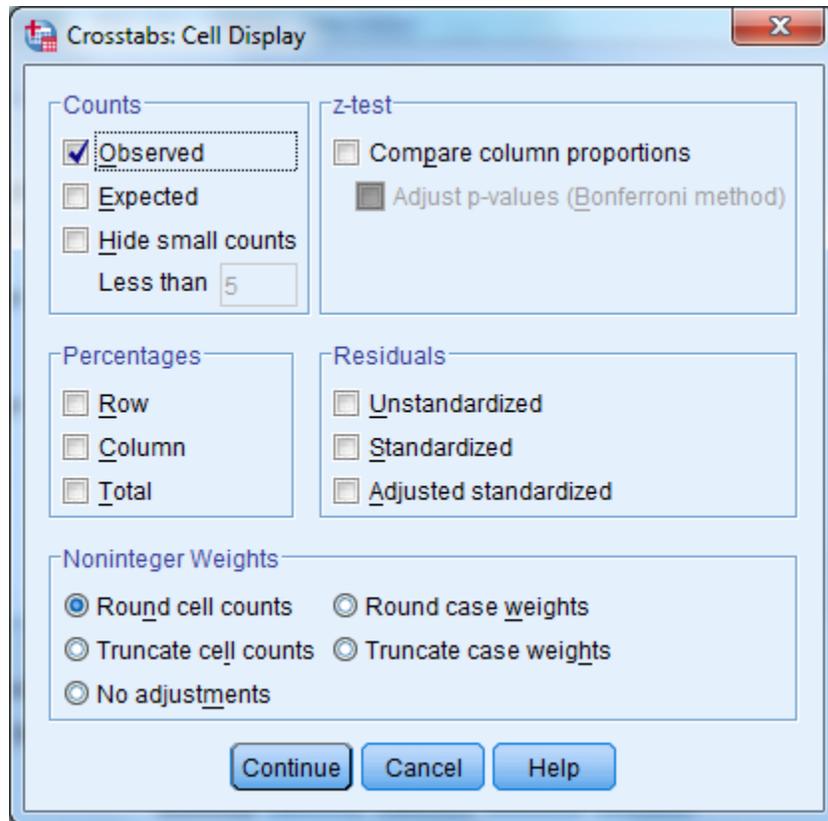

Move **H15052** from the variable list on the left into the box marked **Row(s)**., and move the variable **svcsmpl** into the box marked **Column(s)**:. The screen will resemble the following:

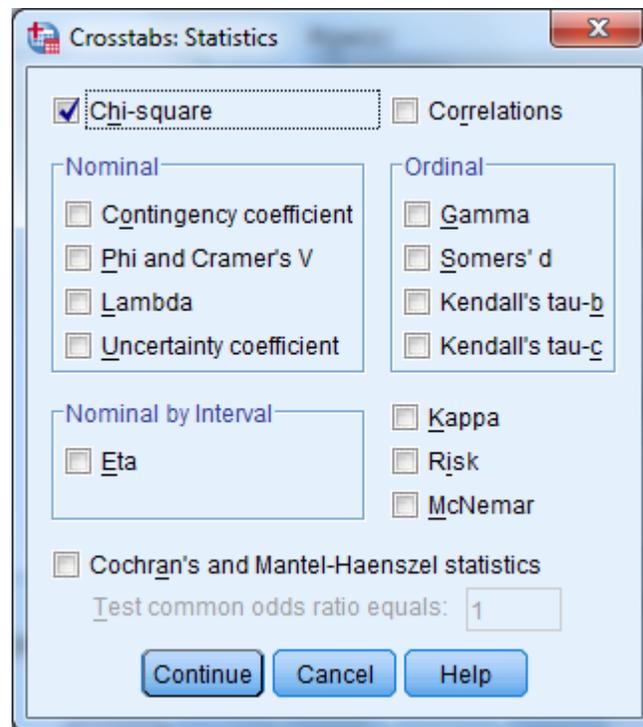

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

Under **Counts**, **Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each branch of service. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

If you wanted to calculate chi-square, you would check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter. For this crosstabulation we will not reflect the chi-square statistics.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output--in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

The screenshot shows the IBM SPSS Statistics Viewer interface. The main window displays the following output:

Mean of Respondent's Weight w/Health Assessment

Mean of Respondent's Weight w/Health Assessment: By E

Mean	Active Duty <65			Family of Active <65			Ret/S
	Male	Female	Total	Male	Female	Total	Male
Weight in pounds	182.93	150.40	178.06	189.01	153.24	155.80	196.92
Health State	3.86	3.90	3.87	3.75	3.72	3.72	3.56

→ **South Region: Smoked 100+ Cigarettes in Life**

Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Service Crosstabulation

			SVCSMPL - Branch of Service					
			Army	Navy	Marine Corps	Air Force	Coast Guard	Other/Unknown
Smoked at least 100 cigarettes in life	Yes	Count	364652	165005	59770	361938	16330	3614
		% within SVCSMPL - Branch of Service	42.9%	43.2%	47.6%	41.3%	35.0%	58.9%
	No	Count	485056	216656	65735	513779	30325	2521
		% within SVCSMPL - Branch of Service	57.1%	56.8%	52.4%	58.7%	65.0%	41.1%
Total		Count	849708	381661	125505	875717	46655	6135
		% within SVCSMPL - Branch of Service	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

Pivot Table Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Service Crosstabulation

File Edit View Insert **Pivot** Format Help

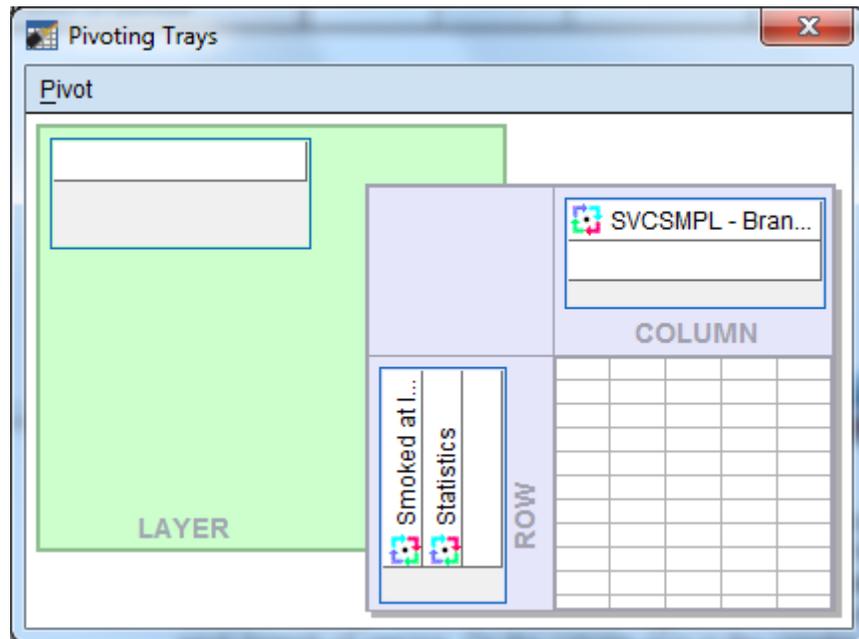

SansSerif 9 B I U A

- Reorder Categories
- Transpose Rows and Columns
- Pivoting Trays
- Go to Layers...

Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Service Crosstabulation

			SVCSMPL - Branch of Service					
			Army	Navy	Marine Corps	Air Force	Coast Guard	Other/Unknown
Smoked at least 100 cigarettes in life	Yes	Count	364652	165005	59770	361938	16330	3614
		% within SVCSMPL - Branch of Service	42.9%	43.2%	47.6%	41.3%	35.0%	58.9%
	No	Count	485056	216656	65735	513779	30325	2521
		% within SVCSMPL - Branch of Service	57.1%	56.8%	52.4%	58.7%	65.0%	41.1%
Total		Count	849708	381661	125505	875717	46655	6135
		% within SVCSMPL - Branch of Service	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The pivoting tool will appear:

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H15052** – smoked at least 100 cigarettes in life, and **Statistics** – the percent of people in each branch of service. On the column axis is the variable, **svcsmpl** – the branch of service.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

		SVCSMPL - Branch of Service							
		Army		Navy		Marine Corps		Air Force	
		Count	% within SVCSMPL - Branch of Service	Count	% within SVCSMPL - Branch of Service	Count	% within SVCSMPL - Branch of Service	Count	% within SVCSMPL - Branch of Service
Smoked at least 100 cigarettes in life	Yes	364652	42.9%	165005	43.2%	59770	47.6%	361938	
	No	485056	57.1%	216656	56.8%	65735	52.4%	513779	
Total		849708	100.0%	381661	100.0%	125505	100.0%	875717	

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **svcsmpl**. Select it by double-clicking and edit it for clarity (see the screen below).

Next, edit the text in the table label so that it better expresses the content of the table.

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, "Percent". The empty space disappears and the table appears as follows:

Pivot Table Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Service Crosstabulation

File Edit View Insert Pivot Format Help

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H15052**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrllmt**, who smoked at least 100 cigarettes in their lifetime. Suppose you are also interested in sex differences, **xsexa**, among the groupings. **Xsexa** is the **Layer** variable. You want to remain in the South region, using **fltr_6** as the filter variable. The cases will be weighted by **FWRWT**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

Do the following:

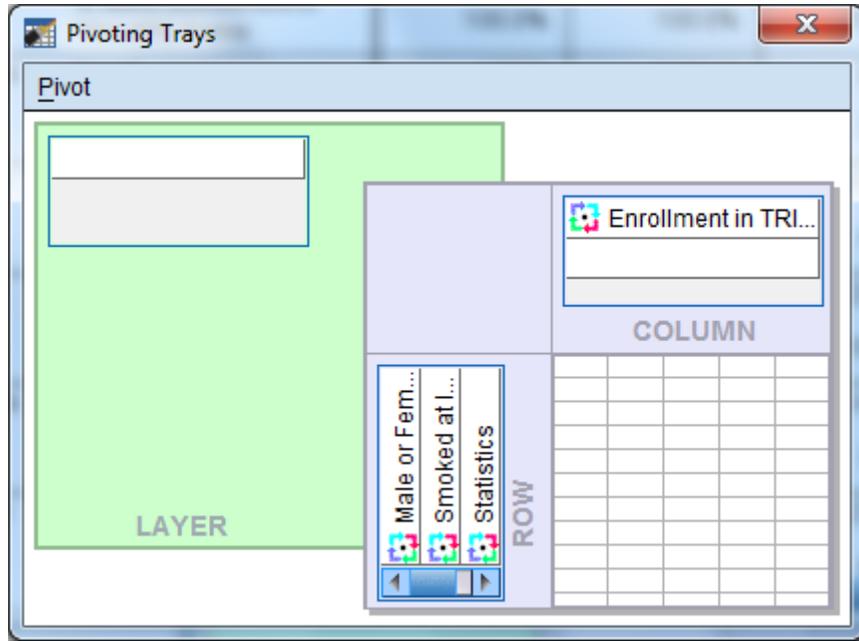

- Run Crosstabs.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

Pivot Table Smoked at least 100 cigarettes in life * Enrollment in TRICARE Prime * Male or Female - R Crosstabulation

			% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **Male or Female - R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

Pivot Table Smoked at least 100 cigarettes in life * Enrollment in TRICARE Prime * Male or Female - R Crosstabulation

CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the Quarter II, 2015 Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

Variance Estimation Methods

The 2015 HCSDB uses a stratified sample design. To account for complex estimators for the sample design¹, it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or Jackknife replication, the public release files for the Quarter II, 2015 Adult HCSDB include the following variables:

- The stratum variable (STRATUM) for the Taylor series linearization method
- Quarterly final weight (FWRWT)
- Quarterly jackknife replicate weights (FWRWT01 to FWRWT60)

Three popular software packages are available for performing Taylor series linearization method: SAS/STAT version 8.0 or higher, SUDAAN (Research Triangle Institute, 2001) and WesVarPC (Brick et al. 1996), respectively. The last two software packages can be used for replication methods including Jackknife variance estimation. The discussion below explains how SUDAAN and SAS are used to calculate variance estimates using Taylor series linearization method, and how SUDAAN and WesVarPC are used to calculate variance estimates using Jackknife replication method.

Taylor Series Linearization Method

For most sample designs (including the Quarter II, 2015 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in “The 2015 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”.

To calculate variance estimates based on the Taylor series linearization method with HCSDB's stratified sampling design, both the stratum variable (STRATUM) and the final weight (FWRWT) specified for each data record are needed.

¹ The 2015 HCSDB uses a stratified sampling design. For details, see “Health Care Survey of DoD Beneficiaries: 2015 Adult Sampling Report.” Washington, DC: Mathematica Policy Research, November 2014.

SUDAAN

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling design. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter II, 2015 Adult HCSDB, the data file for adults must be sorted by STRATUM before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is FWRWT.

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H15031), among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H15052=1) for each TNEX region (XTNEXREG)

```
PROC DESCRIPT DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
WEIGHT          FWRWT;  
NEST            STRATUM;  
SUBPOPN        H15052=1;  
SUBGROUP       XTNEXREG;  
LEVELS         4;  
VAR            H15031;  
RUN;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in TNEX region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H15049) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
WEIGHT          FWRWT;  
NEST            STRATUM;  
SUBPOPN        XTNEXREG = 3;  
SUBGROUP       H15049 XENRLLMT;  
LEVELS         3 5;  
TABLES         H15049 *XENRLLMT;  
RUN;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.
- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Research Triangle Institute (2001).

SAS

SAS/STAT version 8.0 and higher provide procedures for survey sampling. These procedures can be used to analyze data from a stratified random sampling. These procedures include:

- PROC SURVEYMEANS: for estimating population means, totals, and proportions, including domain (subpopulation) estimates
- PROC SURVEYREG: for performing linear regression model fitting.

The following procedures were added to SAS/STAT version 9.0:

- PROC SURVEYFREQ: for constructing one-way frequency tables, two-way and multiway crosstabulation tables, and estimating population totals and proportions
- PROC SURVEYLOGISTIC: for performing cumulative logit regression model fitting, logit, complementary log-log, and probit link functions, and generalized logit regression model fitting.

The above procedures currently provide only the Taylor series linearization method to estimate standard error or variance of the estimate.

The following program is an example of how to use SAS/STAT to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H15031), among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H15052=1) for each TNEX region (XTNEXREG)

```
PROC SURVEYMEANS DATA=HCSDB;  
WEIGHT          FWRWT;  
STRATA          STRATUM;  
DOMAIN          H15052 * XTNEXREG;  
VAR             H15031;  
RUN;
```

The above codes will provide output for H15052=1 and 2. User only needs to use output from H15052=1.

The following program is an example of how to use SAS/STAT to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in each TNEX region who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H15049) by TRICARE enrollment (XENRLLMT).

```
PROC SURVEYFREQ DATA=HCSDB;  
WEIGHT          FWRWT;  
STRATA          STRATUM;  
TABLES         XTNEXREG * H15049 * XENRLLMT;  
RUN;
```

For a more detailed and complete discussion of how to use SAS/STAT, see SAS Institute Inc. (1999) and SAS Institute Inc. (2004).

Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as Jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, Jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (FWRWT01-FWRWT60) for the Quarter II, 2015 Adult HCSDB file. Construction of these weights is described in the “2015 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”. With the replicate weights, you can produce Jackknife standard errors using in-house or custom-written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 8. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvar/demo/index.html>), the example below explains how it is used to produce Jackknife variance estimates for statistics from the Quarter II, 2015 Adult HCSDB.

Suppose you want to estimate the mean rating of the specialist seen most often (H15031) among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H15052=1) for each region (XTNEXREG). You would use SUDAAN or WesVarPC as follows.

SUDAAN

```
PROC DESCRIPT DATA=HCSDB DESIGN=JACKKNIFE;  
WEIGHT          FWRWT ;  
JACKWGTS       FWRWT1-FWRWT60 / ADJJACK=1 ;  
SUBPOPN        H15052=1;  
SUBGROUP       XTNEXREG;  
LEVELS         4;  
VAR            H15031 ;  
OUTPUT         NSUM MEAN SEMEAN / TABLECELL=DEFAULT FILENAME=OUT1 ;  
RUN;
```

WESVARPC

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the *Prep* menu, choose the *Import Data Files* screen and import all variables for the analysis. For this example, input H15052, H15031, and XTNEXREG into the *Variables* box, FWRWT1-FWRWT60 into the *Replicates* box, and MPRID into the *ID* box. Also specify the replication method as JK1 on this screen.

- **Create a data file for the subpopulation.** Specify the subpopulation by choosing the *Subpop WesVarPC Data File* from the *Prep* menu: H15052=1.
- **Calculate estimates.** From the *Tables* menu, choose **New** and select the file created from the above procedure. Then, from the *Table Request* screen, specify H15031 as the **Analysis** variable, MEAN (H15031) as the **Compute Statistics**, and XTNEXREG as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Alphabetical Table of Variables in the Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

H15005					
In last year: facility used most for health care					
Value	Unweighted Count	Unweighted Percent	Weighted Count	Weighted Percent	Formatted Value
.	25	0.28	21,213	0.29	Did not answer
1	5,330	59.88	2,661,739	35.79	A military facility
2	2,902	32.60	4,088,720	54.98	A civilian facility
3	41	0.46	66,791	0.90	Uniformed Services Fam Hlth Plan facility
4	323	3.63	366,628	4.93	Veterans Affairs (VA) clinic or hospital
5	280	3.15	231,950	3.12	Went to none of listed types of facility

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age, including 18 and younger and 86 and older. You will notice that the second to last range representing ages “75 years to 85” includes 178 respondents aged 75 to 85.

RDAGEQY					
Age at time of sample preparation-Capped (18 and below, 86 and above)					
Value	Unweighted Count	Unweighted Percent	Weighted Count	Weighted Percent	Formatted Value
18	88	0.99	119,133	1.60	18 and younger
19 -- 34	2,565	28.82	2,128,533	28.62	19--34
35 -- 44	1,663	18.68	813,841	10.94	35--44
45 -- 54	1,685	18.93	758,885	10.20	45--54
55 -- 64	2,362	26.54	1,457,400	19.60	55--64
65 -- 74	332	3.73	1,330,375	17.89	65--74
75 -- 85	178	2.00	714,782	9.61	75--85
86	28	0.31	114,090	1.53	86 and older

MPRID - Unique MPR identifier

Health Care Survey of DoD Beneficiaries

A world-wide survey of beneficiaries
eligible for health care coverage through
the military health system

January 2015

THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.

**Military Health Care Survey:
Adult Questionnaire
January 2015**

Privacy Advisory

Providing information in this Survey is voluntary. There is no penalty nor will your benefits be affected if you choose not to respond, although maximum participation is encouraged so that the data will be complete and representative.

The Survey was written so that answers should not require you to provide any personally identifiable information (PII), but please be assured that any PII provided will be treated as confidential. Your responses are collected via a secure system which does not collect any information that could be used to determine your identity.

Answering the questions is voluntary; you may stop the Survey at any time.

According to the Privacy Act of 1974 (5 U.S.C. §552a), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C. §1074 (Medical and Dental Care for Members and Certain Former Members, as amended by National Defense Authorization Act of 1993, Public Law 102-484, §706); 10 U.S.C. §1074f (Medical Tracking System for Members Deployed Overseas); 32 C.F.R. §199.17 (TRICARE Program); 45 C.F.R. Part 160 Subparts A and E of Part 164 (Health Insurance Portability and Accountability Act of 1996, Privacy Rule); DoD 6025.18-R (Department of Defense Health Information Privacy Regulation); DoD 6025.13-R (Military Health System Clinical Quality Assurance Program Regulation); 64 FR 22837 (DHA 08 – Health Affairs Survey Data Base, April 28, 1999); and, E.O. 9397 (as amended, November 20, 2008, for SSN collection).

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military health care system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None.

Disclosure: Participation is voluntary. Failure to respond will not result in any penalty to the respondent however maximum participation is encouraged so that data will be as complete and representative as possible.

SURVEY INSTRUCTIONS

Thank you for taking the time to participate in this online survey.

Please note, if the survey is idle for more than 5 minutes, you will be logged out automatically to protect your privacy. If that happens, simply wait 15 minutes and log back in. Please keep your password because you may need it later.

During the survey, please do not use your browser's FORWARD and BACK buttons. Instead, please always use the buttons below to move backward and forward through the survey.

To begin, just click on the "Next" button below. This will take you right into the survey.

SURVEY STARTS HERE

As an eligible TRICARE beneficiary, please complete this survey even if you did not receive your health care from a military facility.

Please recognize that some specific questions about TRICARE benefits may not apply to you, depending on your entitlement and particular TRICARE program.

This survey is about the health care of the person whose name appears on the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to that person.

Question 1: Are you the person whose name appears on the cover letter?

Variable name: H15001

Editing notes: None

Response	Directions	Value	Percent
Yes	Go to Question 2	1	99.6%
No	Please give this questionnaire to the person addressed on the cover letter.	2	0.4%

Question 2: By which of the following health plans are you currently covered?**MARK ALL THAT APPLY****Variable names:** H15002A, H15002C, H15002F-H15002V**Editing notes:** None**Military Health Plans**

Response	Variable Name	Percent Marked
TRICARE Prime (including most Active Duty, TRICARE Prime Remote, and TRICARE Overseas)	H15002A	45.9%
TRICARE Extra or Standard (CHAMPUS)	H15002C	12.8%
TRICARE Plus	H15002N	1.2%
TRICARE for Life	H15002O	30.1%
TRICARE Supplemental Insurance	H15002P	0.8%
TRICARE Reserve Select	H15002Q	3.0%
TRICARE Retired Reserve	H15002S	1.3%
TRICARE Young Adult Prime	H15002T	0.5%
TRICARE Young Adult Extra or Standard	H15002V	0.5%
Uniformed Services Family Health Plan (USFHP)	H15002K	1.5%
Continued Health Care Benefit Program (CHCBP) (a COBRA-like premium-based health care program)	H15002U	0.2%

Other Health Plans

Response	Variable Name	Percent Marked
Medicare	H15002F	29.5%
Federal Employees Health Benefit Program (FEHBP)	H15002G	2.1%
Medicaid	H15002H	0.6%
A civilian HMO (such as Kaiser)	H15002I	1.0%
Other civilian health insurance (such as Blue Cross)	H15002J	6.8%
The Veterans Administration (VA)	H15002M	7.6%
Government health insurance from a country other than the US	H15002R	0.2%
Not sure	H15002L	3.7%

Question 3: Which health plan did you use for all or most of your healthcare in the last 12 months?**MARK ONLY ONE****Variable name:** H15003**Editing notes:** See Note 1

Response	Directions	Value	Percent
TRICARE Prime (including most Active Duty, TRICARE Prime Remote, and TRICARE Overseas)		1	44.6%
TRICARE Extra or Standard (CHAMPUS)		3	8.8%
TRICARE Plus		11	0.7%
TRICARE Reserve Select		12	2.9%
TRICARE Retired Reserve		14	1.2%
TRICARE Young Adult Prime		15	0.4%
TRICARE Young Adult Extra or Standard		17	0.3%
Uniformed Services Family Health Plan (USFHP)		9	1.4%
Continued Health Care Benefit Program (CHCBP) (a COBRA-like premium-based health care program)		16	0.0%
Medicare (may include TRICARE for Life)		4	25.0%
Federal Employees Health Benefit Program (FEHBP)		5	1.5%
Medicaid		6	0.4%
A civilian HMO (such as Kaiser)		7	1.0%
Other civilian health insurance (such as Blue Cross)		8	5.8%
The Veterans Administration (VA)		10	3.5%
Government health insurance from a country other than the US		13	0.2%
Not sure	Go to Question 5	-5	2.2%
Did not use any health plan in the last 12 months	Go to Question 5	-6	

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 3.

Question 4: How many months or years in a row have you been in this health plan?**Variable name:** H15004**Editing notes:** See Note 1

Response	Value	Percent
Less than 6 months	1	1.5%
6 up to 12 months	2	5.5%
12 up to 24 months	3	10.2%
2 up to 5 years	4	19.4%
5 up to 10 years	5	18.8%
10 or more years	6	44.6%

Many beneficiaries who are eligible for TRICARE also have the opportunity to obtain other civilian health insurance through their job or a family member’s job, through COBRA, or through retirement coverage from a previous job, or from some other group. COBRA lets beneficiaries pay to keep their coverage temporarily when they leave their job.

Question 5: Do you currently have the opportunity to obtain civilian health insurance coverage for yourself through some civilian plan?

Variable name: S15J01

Editing notes: See Note 1_J1

Response	Directions	Value	Percent
Yes		1	24.6%
No	Go to Question 17	2	75.4%

Question 6: What options do you have for obtaining civilian coverage?

MARK ALL THAT APPLY

Variable names: S15J02A-S15J02I

Editing notes: See Note 1_J1

Response	Variable Name	Percent Marked
Through my current employer	S15J02A	56.2%
Through COBRA from my previous employer	S15J02B	1.4%
Through retirement coverage from my previous employer	S15J02C	9.9%
Through a family member’s current employer	S15J02D	18.7%
Through COBRA from a family member’s previous employer	S15J02E	0.1%
Through retirement coverage from a family member’s previous employer	S15J02F	5.4%
Through another organization	S15J02G	4.5%
Through a government program	S15J02H	6.0%
Don’t know	S15J02I	7.6%

Question 7: Are you alone or are you and others in your household now covered by a civilian policy?

Variable name: S15J03

Editing notes: See Note 1_J1 and Note 1_J2

Response	Directions	Value	Percent
Yes, I alone am covered		1	15.8%
Yes, I and at least one other person in my household are covered		2	33.7%
No	Go to Question 10	4	50.5%

Question 8: For your civilian coverage, do you or your family member pay all or part of the insurance premium?

Variable name: S15J04

Editing notes: See Note 1_J1, Note 1_J2, and Note 1_J3

Response	Directions	Value	Percent
Yes, I or my family members pay all of the premium		1	26.8%
Yes, I or my family members pay part of the premium		2	45.1%
No, coverage is available at no cost	Go to Question 10	3	18.8%
Don't know	Go to Question 10	-5	9.4%

Question 9: How much per month do you or your family member pay for this coverage? If you do not know the exact amount, please indicate the approximate amount.

Variable name: S15J05

Editing notes: See Note 1_J1, Note 1_J2, and Note 1_J3

Response	Example dollars	Percent of responses
Please give your answer in dollars.	\$456	7.9%

Question 10: Have you used civilian coverage for any of your health care in the past 12 months?

Variable name: S15J06

Editing notes: See Note 1_J1 and Note 1_J4

Response	Directions	Value	Percent
Yes	Go to Question 12	1	43.3%
No		2	56.7%

Question 11: Why haven't you used civilian coverage?

MARK ALL THAT APPLY

Variable names: S15J07A-S15J07O

Editing notes: See Note 1_J1 and Note 1_J4

Response	Variable Name	Percent Marked
Civilian coverage is not available to me	S15J07A	3.2%
I have a better choice of doctors with TRICARE	S15J07B	23.6%
My personal doctor is only available to me through TRICARE	S15J07F	8.6%
I prefer to use military doctors	S15J07I	14.7%
I prefer military hospitals	S15J07J	12.8%
I want to be sure I can always use military health care	S15J07G	17.8%
I get better customer service with TRICARE	S15J07D	22.3%
Civilian benefits are poor compared to TRICARE	S15J07E	19.7%
I do not want to pay the premium for civilian coverage	S15J07C	48.5%
My employer pays a bonus for not taking employee coverage	S15J07M	2.7%
My family member's employer pays a bonus for not taking employee coverage	S15J07N	1.1%
I pay less for TRICARE than I would for civilian care	S15J07H	53.6%
I have access to better quality care through TRICARE	S15J07O	23.6%
I have not needed health care	S15J07K	1.1%
Another reason	S15J07L	1.6%

Question 12: Have you used TRICARE for any health care (except for prescription drugs) in the past 12 months?

Variable name: S15J08

Editing notes: See Note 1_J1 and Note 1_J5

Response	Directions	Value	Percent
Yes	Go to Question 14	1	79.3%
No		2	20.7%

Question 13: Why haven't you used TRICARE?**MARK ALL THAT APPLY****Variable names:** S15J09A-S15J09L**Editing notes:** See Note 1_J1 and Note 1_J5

Response	Variable Name	Percent Marked
I have a greater choice of doctors with my civilian plan	S15J09A	17.9%
My personal doctor is not available to me through TRICARE	S15J09D	10.3%
I prefer civilian doctors	S15J09I	6.5%
I prefer civilian hospitals	S15J09J	4.2%
There are no military facilities near me	S15J09H	18.4%
I get better customer service with civilian plans	S15J09C	5.6%
TRICARE benefits are poor compared to my civilian plan	S15J09E	5.4%
It is easier for me to get care through my civilian plan	S15J09F	19.4%
I do not want to pay the premium for TRICARE	S15J09B	3.4%
I pay less for civilian care than I would for TRICARE	S15J09G	6.6%
I have not needed health care	S15J09K	25.6%
Another reason	S15J09L	34.2%

Question 14: Have you dropped civilian coverage in the past 12 months?**Variable name:** S15J10**Editing notes:** See Note 1_J1 and Note 1_J6

Response	Directions	Value	Percent
Yes		1	5.0%
No	Go to Question 17	2	95.0%

Question 15: Which of the following are reasons you dropped civilian coverage in the past 12 months?**MARK ALL THAT APPLY****Variable names:** S15J11A-S15J11N**Editing notes:** See Note 1_J1 and Note 1_J6

Response	Variable Name	Percent Marked
You lost your job	S15J11A	10.4%
Your husband/wife/parent lost job	S15J11B	0.0%
You changed jobs	S15J11C	16.3%
Your husband/wife/parent changed jobs	S15J11D	0.0%
You retired from a job	S15J11E	8.6%
Your husband/wife/parent retired from a job	S15J11F	5.7%
Moved to new location	S15J11G	8.2%
You/your husband/wife/parent are/is Select Reserves and became active	S15J11H	9.3%
You/your husband/wife/parent are/is a Reservist and returned to Select Reserve	S15J11I	1.5%
Employer changed plans	S15J11J	4.5%
Found a less expensive health plan	S15J11K	5.6%
Married, divorced, or widowed	S15J11L	18.5%
Went on Medicare	S15J11M	17.0%
Problems with health plan	S15J11N	2.1%

**Question 16: Can you explain the main reason you dropped civilian coverage in the past 12 months?
 MARK ONLY ONE**

Variable names: S15J12

Editing notes: See Note 1_J1 and Note 1_J6

Response	Value	Percent
You lost your job	1	10.0%
Your husband/wife/parent lost job	2	15.0%
You changed jobs	3	0.2%
Your husband/wife/parent changed jobs	4	9.0%
You retired from a job	5	7.1%
Your husband/wife/parent retired from a job	6	4.0%
Moved to new location	7	7.6%
You/your husband/wife/parent are/is Select Reserves and became active	8	1.5%
You/your husband/wife/parent are/is a Reservist and returned to Select Reserve	9	3.8%
Employer changed plans	10	5.8%
Found a less expensive health plan	11	21.5%
Married, divorced, or widowed	12	13.0%
Went on Medicare	13	1.4%
Problems with health plan	14	10.0%

YOUR HEALTH CARE IN THE LAST 12 MONTHS

These questions ask about your own health care. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

Question 17: In the last 12 months, where did you go most often for your health care?

MARK ONLY ONE

Variable name: H15005

Editing notes: None

Response	Value	Percent
A military facility – This includes: Military clinic Military hospital PRIMUS clinic	1	35.9%
A civilian facility – This includes: Doctor’s office Clinic Hospital Civilian TRICARE contractor	2	55.1%
Uniformed Services Family Health Plan facility (USFHP)	3	0.9%
Veterans Affairs (VA) clinic or hospital	4	4.9%
I went to none of the listed types of facilities in the last 12 months	5	3.1%

Question 18: In the last 12 months, did you have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor’s office?

Variable name: H15006

Editing notes: See Note 2

Response	Directions	Value	Percent
Yes		1	44.4%
No	Go to Question 21	2	55.6%

Question 19: In the last 12 months, when you needed care right away, how often did you get care as soon as you needed?

Variable name: H15007

Editing notes: See Note 2

Response	Value	Percent
Never	1	1.8%
Sometimes	2	10.8%
Usually	3	20.0%
Always	4	67.4%
I didn’t need care right away for an illness, injury or condition in the last 12 months	-6	

Question 20: In the last 12 months, when you needed care right away for an illness, injury, or condition, how long did you usually have to wait between trying to get care and actually seeing a provider?

Variable name: H15008

Editing notes: See Note 2

Response	Value	Percent
Same day	1	67.0%
1 day	2	12.3%
2 days	3	5.1%
3 days	4	3.5%
4-7 days	5	6.0%
8-14 days	6	2.2%
15 days or longer	7	3.9%
I didn't need care right away for an illness, injury or condition in the last 12 months	-6	

Question 21: In the last 12 months, not counting the times you needed health care right away, did you make any appointments for your health care at a doctor's office or clinic?

Variable name: H15009

Editing notes: See Note 3

Response	Directions	Value	Percent
Yes		1	87.5%
No	Go to Question 24	2	12.5%

Question 22: In the last 12 months, how often did you get an appointment for a check-up or routine care at a doctor's office or clinic as soon as you needed?

Variable name: H15010

Editing notes: See Note 3

Response	Value	Percent
Never	1	3.9%
Sometimes	2	16.4%
Usually	3	25.3%
Always	4	54.3%
I had no appointments in the last 12 months	-6	

Question 23: In the last 12 months, not counting the times you needed health care right away, how many days did you usually have to wait between making an appointment and actually seeing a provider?

Variable name: H15011

Editing notes: See Note 3

Response	Value	Percent
Same day	1	9.0%
1 day	2	10.3%
2-3 days	3	23.5%
4-7 days	4	22.6%
8-14 days	5	17.3%
15-30 days	6	12.1%
31 days or longer	7	5.1%
I had no appointments in the last 12 months	-6	

Question 24: In the last 12 months, how many times did you go to an emergency room to get care for yourself?

Variable name: H15012

Editing notes: None

Response	Value	Percent
None	1	73.2%
1	2	16.9%
2	3	6.6%
3	4	2.0%
4	5	0.7%
5 to 9	6	0.5%
10 or more	7	0.1%

Question 25: In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get health care for yourself?

Variable name: H15013

Editing notes: See Note 4

Response	Directions	Value	Percent
None	Go to Question 31	1	10.7%
1		2	10.7%
2		3	17.5%
3		4	16.0%
4		5	13.8%
5 to 9		6	20.7%
10 or more		7	10.6%

Question 26: In the last 12 months, how often did you and a doctor or other health provider talk about specific things you could do to prevent illness?

Variable name: H15014

Editing notes: See Note 4

Response	Value	Percent
Never	1	12.0%
Sometimes	2	27.1%
Usually	3	29.1%
Always	4	31.8%

Question 27: Choices for your treatment or health care can include choices about medicine, surgery, or other treatment. In the last 12 months, did a doctor or other health provider tell you there was more than one choice for your treatment or health care?

Variable name: H15015

Editing notes: See Notes 4 and 5

Response	Directions	Value	Percent
Yes		1	56.7%
No	Go to Question 30	2	43.3%

Question 28: In the last 12 months, did a doctor or other health provider talk with you about the pros and cons of each choice for your treatment or health care?

Variable name: H15016

Editing notes: See Notes 4 and 5

Response	Value	Percent
Definitely yes	1	69.6%
Somewhat yes	2	27.0%
Somewhat no	3	2.4%
Definitely no	4	0.9%

Question 29: In the last 12 months, when there was more than one choice for your treatment or health care, did a doctor or other health provider ask which choice you thought was best for you?

Variable name: H15017

Editing notes: See Notes 4 and 5

Response	Value	Percent
Definitely yes	1	59.9%
Somewhat yes	2	30.7%
Somewhat no	3	6.5%
Definitely no	4	2.9%

Question 30: Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your health care in the last 12 months?

Variable name: H15018

Editing notes: See Note 4

Response	Value	Percent
0 – Worst health care possible	0	0.3%
1	1	0.4%
2	2	0.8%
3	3	1.8%
4	4	1.9%
5	5	4.9%
6	6	5.1%
7	7	11.0%
8	8	19.7%
9	9	21.6%
10 – Best health care possible	10	32.6%
I had no visits in the last 12 months	-6	

YOUR PERSONAL DOCTOR

Question 31: A personal doctor is the one you would see if you need a checkup, want advice about a health problem, or get sick or hurt. Do you have a personal doctor?

Variable name: H15019

Editing notes: See Note 6

Response	Directions	Value	Percent
Yes		1	78.8%
No	Go to Question 41	2	21.2%

Question 32: In the last 12 months, how many times did you visit your personal doctor to get care for yourself?

Variable name: H15020

Editing notes: See Notes 6 and 7

Response	Directions	Value	Percent
None	Go to Question 39	0	8.0%
1		1	18.4%
2		2	23.3%
3		3	19.2%
4		4	13.8%
5 to 9		5	14.2%
10 or more		6	3.0%

Question 33: In the last 12 months, how often did your personal doctor listen carefully to you?

Variable name: H15021

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	0.8%
Sometimes	2	6.1%
Usually	3	18.1%
Always	4	74.9%
I had no visits in the last 12 months	-6	

Question 34: In the last 12 months, how often did your personal doctor explain things in a way that was easy to understand?

Variable name: H15022

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	0.8%
Sometimes	2	3.7%
Usually	3	18.5%
Always	4	77.0%
I had no visits in the last 12 months	-6	

Question 35: In the last 12 months, how often did your personal doctor show respect for what you had to say?

Variable name: H15023

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	1.0%
Sometimes	2	4.3%
Usually	3	15.5%
Always	4	79.1%
I had no visits in the last 12 months	-6	

Question 36: In the last 12 months, how often did your personal doctor spend enough time with you?

Variable name: H15024

Editing notes: See Notes 6 and 7

Response	Value	Percent
Never	1	1.3%
Sometimes	2	7.4%
Usually	3	23.1%
Always	4	68.2%
I had no visits in the last 12 months	-6	

Question 37: In the last 12 months, did you get care from a doctor or other health provider besides your personal doctor?

Variable name: H15025

Editing notes: See Notes 6, 7, and 8

Response	Directions	Value	Percent
Yes		1	73.8%
No	Go to Question 39	2	26.2%

Question 38: In the last 12 months, how often did your personal doctor seem informed and up-to-date about the care you got from these doctors or other health providers?

Variable name: H15026

Editing notes: See Notes 6, 7, and 8

10 – Best treatment or counseling possible	10	27.8%
I had no treatment or counseling in the last 12 months	-6	

YOUR HEALTH PLAN

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 3.

Question 50: In the last 12 months, did you try to get any kind of care, tests, or treatment through your health plan?

Variable name: H15032

Editing notes: See Note 11

Response	Directions	Value	Percent
Yes		1	75.4%
No	Go to Question 52	2	24.6%

Question 51: In the last 12 months, how often was it easy to get the care, tests, or treatment you needed?

Variable name: H15033

Editing notes: See Note 11

Response	Value	Percent
Never	1	2.8%
Sometimes	2	10.5%
Usually	3	24.2%
Always	4	62.5%
I didn't need care, tests, or treatment through my health plan in the last 12 months	-6	

Question 52: In the last 12 months, did you look for any information in written materials or on the Internet about how your health plan works?

Variable name: H15034

Editing notes: See Note 12

Response	Directions	Value	Percent
Yes		1	32.4%
No	Go to Question 54	2	67.6%

Question 53: In the last 12 months, how often did the written material or the Internet provide the information you needed about how your plan works?

Variable name: H15035

Editing notes: See Note 12

Response	Value	Percent
Never	1	4.4%
Sometimes	2	27.7%
Usually	3	42.4%
Always	4	25.5%
I didn't look for information from my health plan in the last 12 months	-6	

Question 54: Sometimes people need services or equipment beyond what is provided in a regular or routine office visit, such as care from a specialist, physical therapy, a hearing aid, or oxygen. In the last 12 months, did you look for information from your health plan on how much you would have to pay for a health care service or equipment?

Variable name: H15036

Editing notes: See Note 13

Response	Directions	Value	Percent
Yes		1	16.0%
No	Go to Question 56	2	84.0%

Question 55: In the last 12 months, how often were you able to find out from your health plan how much you would have to pay for a health care service or equipment?

Variable name: H15037

Editing notes: See Note 13

Response	Value	Percent
Never	1	18.4%
Sometimes	2	19.4%
Usually	3	33.9%
Always	4	28.3%
I didn't need a health care service or equipment from my health plan in the last 12 months	-6	

Question 56: In some health plans, the amount you pay for a prescription medicine can be different for different medicines, or can be different for prescriptions filled by mail instead of at the pharmacy. In the last 12 months, did you look for information from your health plan on how much you would have to pay for specific prescription medicines?

Variable name: H15038

Editing notes: See Note 14

Response	Directions	Value	Percent
Yes		1	21.5%
No	Go to Question 58	2	78.5%

Question 57: In the last 12 months, how often were you able to find out from your health plan how much you would have to pay for specific prescription medications?

Variable name: H15039

Editing notes: See Note 14

Response	Value	Percent
Never	1	9.7%
Sometimes	2	14.4%
Usually	3	33.1%
Always	4	42.7%
I didn't need prescription medications from my health plan in the last 12 months	-6	

Question 58: In the last 12 months, did you try to get information or help from your health plan's customer service?

Variable name: H15040

Editing notes: See Note 15

Response	Directions	Value	Percent
Yes		1	26.8%
No	Go to Question 61	2	73.2%

Question 59: In the last 12 months, how often did your health plan's customer service give you the information or help you needed?

Variable name: H15041

Editing notes: See Note 15

Response	Value	Percent
Never	1	6.3%
Sometimes	2	18.5%
Usually	3	27.0%
Always	4	48.2%
I didn't call my health plan's customer service in the last 12 months	-6	

Question 60: In the last 12 months, how often did your health plan's customer service staff treat you with courtesy and respect?

Variable name: H15042

Editing notes: See Note 15

Response	Value	Percent

Strongly disagree	1	6.2%
Disagree	2	4.3%
Neither agree nor disagree	3	9.5%
Agree	4	40.2%
Strongly agree	5	39.8%

Question 103: Using a scale of 1 to 5, with 1 being “completely dissatisfied” and 5 being “completely satisfied”, how satisfied are you, overall, with the health care you received during your last visit?

Variable name: S15014

Editing notes: None

Response	Value	Percent
Completely dissatisfied	1	3.5%
Somewhat dissatisfied	2	4.9%
Neither satisfied nor dissatisfied	3	6.7%
Somewhat satisfied	4	23.4%
Completely satisfied	5	61.4%

THANK YOU FOR TAKING THE TIME TO COMPLETE THE SURVEY!

Your generous contribution will greatly aid efforts to improve the health of our military community.

APPENDIX B
SURVEY FIELDING LETTERS – QUARTER II

THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.

SAMPLE INVITATION LETTER - Quarter II
**OFFICE OF THE ASSISTANT SECRETARY OF DEFENSE
HEALTH AFFAIRS**

7700 ARLINGTON BOULEVARD, SUITE 5101
FALLS CHURCH, VIRGINIA 22042-5101

DEFENSE
HEALTH AGENCY

January 5, 2015

SSGT JANE DOE
222 S. RIVERSIDE DRIVE
CHICAGO, IL 60606-5809

Dear SSGT JANE DOE:

We at the Department of Defense (DoD) invite you to participate in the **January 2015 Health Care Survey of Department of Defense Beneficiaries**. We would very much appreciate your opinions by completing a brief online survey. Your feedback will benefit not only you and your family, but also other fellow military families. This survey is not about a particular health care visit, but about your health care experiences overall. The results are used to evaluate the services you have received in meeting your health care needs either through TRICARE or any other health insurance plan. DoD takes this survey very seriously and your input is truly critical to our efforts.

The survey web site is below. Please complete it **before March 2, 2015**. If you are an active duty service member, we will also send this link to your military email address through a digitally signed email.

Web site: **research.altarum.org/dodjan15**
Your password: **5654321**

Be sure to enter the web address into the address box of your internet browser, **not a search engine** (please DO NOT USE Google, Bing or Yahoo). The site can be accessed from any computer with internet access, at home or elsewhere. For more help, please look on the other side of this letter.

The purpose of this survey is to examine the health care experiences of our 9.5 million military health system beneficiaries. The results of the survey will be used to evaluate the care that members of the military and their families receive either through TRICARE or any other program. Even if you don't use TRICARE now, either on a military installation or in a civilian provider's office, we still want to understand your health care experiences. Your answers will be kept confidential, and the survey vendor DoD has contracted with to field this survey will not share any information that could identify you. Your participation is voluntary and will not affect your health benefits. The survey takes about 15 minutes to complete.

If you have questions about the survey or don't want to participate, please contact the Survey Processing Center by sending an email to **dod.health@ipsos-research.com**; by calling **877-236-2390**; or sending a fax to **800-409-7681**. For prompt assistance, please include your ID number, **1234567890**. For questions related to TRICARE, please go to www.tricare.mil/contactus, or for the North Region call 877-874-2273, South Region call 800-444-5445, or West Region call 877-988-9378.

Thank you for your time!

Sincerely,

CAPT Jamie Lindly, MSC, USN
Chief, Analytics Division

Office of the Assistant Secretary of Defense (Health Affairs)/Defense Health Agency

To verify the legitimacy of this survey, please go to the TRICARE web site at www.tricare.mil/hpae/home and click on Current Active Surveys under Quick Links. You can locate the survey by name or by its DoD RCS License Number - RCS# DD-HA(A) 1942. For more information about the survey, click on Surveys/Core Surveys/ Health Care Survey of DoD Beneficiaries on left side bar.

SAMPLE INSTRUCTIONS AND FREQUENTLY ASKED QUESTIONS - Quarter II

ACCESS THE SURVEY IN 3 EASY STEPS

STEP 1

Please open up your web browser. Here are some common browser icons:

**MICROSOFT
INTERNET EXPLORER**

**GOOGLE
CHROME**

**APPLE
SAFARI**

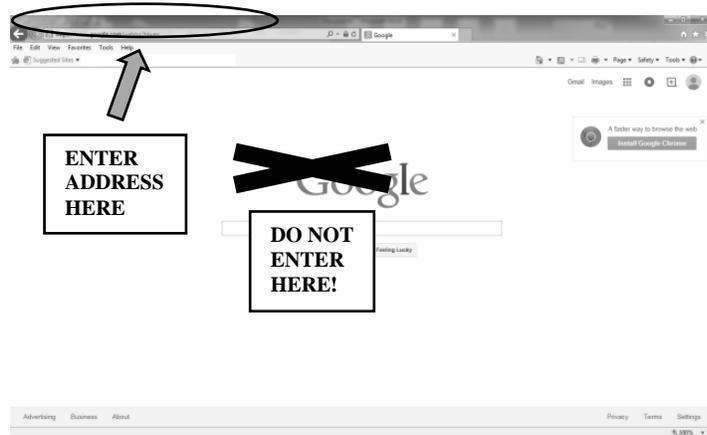

**MOZILLA
FIREFOX**

STEP 2

Locate the browser's address box, which is at the top of the window, and type the web address exactly as it appears on the notice you received.

STEP 3

Press the Enter key on your keyboard and you should go directly to the survey home page, which looks like the image below. Once there, enter your password to begin the survey.

FREQUENTLY ASKED QUESTIONS

Why should I take part in this survey?

Your feedback will benefit not only you and your family, but also other fellow military families. This important survey about your health care experiences will be used to evaluate the services beneficiaries have received in meeting their health care needs.

Is this survey regarding a particular health care visit?

No, this survey will ask you questions regarding your overall experience with your health care and not about a specific health care visit.

How was my name selected? Can you pick someone else?

We selected a statistical sample of beneficiaries. Those selected cannot be replaced, and your responses to the survey are critical to helping us learn more about health care experiences. This survey is very important to DoD and your input is truly critical to our efforts.

How can I complete the survey if I do not have a computer?

This survey cannot be completed over the phone or through the mail. However, there are several places in your community that may provide computers as well as Internet access to the public at no charge. You may find that your public libraries, recreational centers, seniors' centers, and community colleges have computers.

I have questions regarding TRICARE, not this survey. Where can I get answers?

The survey vendor, Ipsos, may not be able to answer questions regarding TRICARE or TRICARE eligibility. For those, please go to www.tricare.mil/contactus, or call 877-874-2273 for the North Region, 800-444-5445 for the South Region, or 877-988-9378 for the West Region.

SAMPLE EMAIL 1 - Quarter II

[#DATE#]

[SYNOVATEID]

Dear [RANKCD] [PN1STNM] [PNLSTNM]:

The military plays a vital role in the defense of our nation, so it is important to ensure that military members have their needs fulfilled. In particular, having access to affordable and comprehensive health care is essential, and the Department of Defense is actively seeking ways to improve the military health care system. You have been chosen to participate in the January 2015 Health Care Survey of Department of Defense Beneficiaries, which asks about your overall health care experiences. This is an opportunity to make your voice heard, and your feedback will benefit military members and their families nationwide.

Please complete the survey before March 2, 2015 by clicking the link below.

[URL]

The survey takes about 15 minutes to complete. If your work or installation's server blocks the survey site, please try to reach the survey from a civilian internet source, like a home computer. Also, if you are having trouble finding the survey, please make sure you are not searching for the web site address and instead, please click the link or copy and paste the web address directly in the address bar of your browser.

The purpose of the Health Care Survey of DoD Beneficiaries is to examine the health care experiences of our 9.5 million military health system beneficiaries. Your answers will be kept confidential, and the survey vendor that DoD has contracted with to field this survey will not share any information that could identify you. Your answers will not affect your benefits.

If you have questions about the survey or don't want to participate, please contact the Survey Processing Center by sending an email to dod.health@ipsos-research.com; by calling 1-877-236-2390; or sending a fax to 1-800-409-7681. For prompt assistance, please include your ID number, [SYNOVATEID]. APPENDIX D
CODING SCHEME AND CODING TABLES – QUARTER II

THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.

QUARTER II

2015 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

<u>SAS</u>	<u>ASCII/EBCDIC</u>	
Numeric	Numeric	Description
.	-9	No response
.O	-7	Out of range error
.N	-6	Not applicable or valid skip
.D	-5	Scalable response of “don’t know” or “not sure”
.I	-4	Incomplete grid error
.C	-1	Question should have been skipped

Missing values '.' and incomplete grids '.I' are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:
H15003, H15004**

N1	H15003 is:	H15004 is:	H15003 is coded as:	H15004 is coded as:	*
1	1-17: Health plan	Marked or missing response	Stands as original value	Stands as original value	
2	-6: No usage in past 12 months or -5: not sure	Marked response	Stands as original value	.C: Question should be skipped	F
3	-6: No usage in past 12 months or -5: not sure	Missing response	Stands as original value	.N: Valid skip	F
4	Missing response	Marked or missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 1_J1:

S15J01, S15J02A-S15J02I, S15J03-S15J06, S15J07A-S15J07O, S15J08, S15J09A-S15J09L, S15J10, S15J11A-S15J11N, S15J12

N1_J1	S15J01 is:	S15J02A-S15J02H are:	S15J02I, S15J03-S15J06, S15J07A-S15J07O, S15J08, S15J09A-S15J09L, S15J10, S15J11A-S15J11N, S15J12 are:	S15J01 is coded as:	S15J02A-S15J02H are coded as:	S15J02I, S15J03-S15J06, S15J07A-S15J07O, S15J08, S15J09A-S15J09L, S15J10, S15J11A-S15J11N, S15J12 are coded as:	*
1	1: Yes	Any value	Any value	Stands as original value	Stand as original value	Stand as original value	
2	2: No or .: missing	At least one value is 1: marked	Any value	1: Yes	Stand as original value	Stand as original value	B
3	2: No	All values are 2: unmarked or missing response	Any value	Stands as original value	.N: Valid skip	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
4	.: Missing	All values are 2: unmarked or missing response	At least one is "marked"	1: Yes	Stand as original value	Stand as original value	B
5	.: Missing	All values are 2: unmarked or missing response	"All are blank or don't know"	Stands as original value	.: Missing	.: Missing if 2: unmarked; stand as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank or don't know" in Coding Table for Note 1_J1:

Responses to S15J03-S15J06, S15J07A-S15J07O, S15J08, S15J09A-S15J09L, S15J10, S15J11A-S15J11N, and S15J12 are all missing or unmarked or -5:don't know. (Because the 1: marked value for S15J02I indicates a "don't know" response, it does not matter if S15J02I is marked, unmarked, or missing).

Definition of "marked" in Coding Table for Note 1_J1:

Any pattern of marks outside the definition "all are blank or don't know".

**Coding Table for Note 1_J2:
S15J03, S15J04, S15J05**

N1_J2	S15J03 is:	S15J04-S15J05 are:	S15J03 is coded as:	S15J04-S15J05 are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stand as original value	
2	1-2: Yes	Any value	Stands as original value	Stand as original value	
3	4: No	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	.: Missing	Any value	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 1_J3:
S15J04, S15J05**

N1_J3	S15J04 is:	S15J05 are:	S15J04 is coded as:	S15J05 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	1, 2: Yes or .: missing	Any positive value, don't know, or .: missing	Stands as original value	Stands as original value	
3	1, 2: Yes or .: missing	0	3: No	.C: Question should be skipped	B F
4	3: No or -5: don't know	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 1_J4:
S15J06, S15J07A- S15J07O**

N1_J4	S15J06 is:	S15J07A- S15J07O are:	S15J06 is coded as:	S15J07A- S15J07O are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stand as original value	
2	1: Yes or .: missing	At least one is "marked"	2: No	Stand as original value	B
3	1: Yes	"All are blank"	Stands as original value	.N: Valid skip	F
4	2: No	Any value	Stands as original value	Stand as original value	
5	.: Missing	"All are blank"	Stands as original value	.: Missing	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 1_J4:
Responses to S15J07A- S15J07O are all missing or unmarked.

Definition of "marked" in Coding Table for Note 1_J4:
Any pattern of marks outside the definitions "all are blank".

**Coding Table for Note 1_J5:
S15J08, S15J09A- S15J09L**

N1_J5	S15J08 is:	S15J09A- S15J09L are:	S15J08 is coded as:	S15J09A- S15J09L are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stand as original value	
2	1: Yes or .: missing	At least one is "marked"	2: No	Stand as original value	B
3	1: Yes	"All are blank"	Stands as original value	.N: Valid skip	F
4	2: No	Any value	Stands as original value	Stand as original value	
5	.: Missing	"All are blank"	Stands as original value	.: Missing	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 1_J5:
Responses to S15J09A- S15J09L are all missing or unmarked.

Definition of "marked" in Coding Table for Note 1_J5:
Any pattern of marks outside the definitions "all are blank".

Coding Table for Note 1_J6:

S15J10, S15J11A- S15J11N, S15J12

N1_J6	S15J10 is:	S15J11A- S15J11N, S15J12 are:	S15J10 is coded as:	S15J11A- S15J11N, S15J12 are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stand as original value	
2	1: Yes	Any value	Stands as original value	Stand as original value	
3	2: No or .: missing	At least one is “marked”	1: Yes	Stand as original value	B
4	2: No	“All are blank”	Stands as original value	.N: Valid skip	F
5	.: Missing	“All are blank”	Stands as original value	.: Missing	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 1_J6:

Responses to S15J11A-S15J11N and S15J12 are all missing or unmarked.

Definition of “marked” in Coding Table for Note 1_J6:

Any pattern of marks outside the definitions “all are blank”.

**Coding Table for Note 2:
H15006, H15007, H15008**

N2	H15006 is:	H15007-H15008 are:	H15006 is coded as:	H15007-H15008 are coded as:	*
1	1: Yes	“All are blank”	Stands as original value	Stand as original value	
2	1: Yes or .: missing	“Blank or NA”	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	1: Yes	“One marked and one NA”	Stands as original value	.: Missing if -6; stand as original value otherwise	F
4	1: Yes	At least one is “marked”	Stands as original value	Stand as original value	
5	2: No	“One marked and one NA”	Stands as original value	.C: Question should be skipped	F
6	2: No or .: missing	At least one is “marked”	1: Yes	.: Missing if -6; stand as original value otherwise	B F
7	2: No	“All are blank” or “blank or NA”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
8	.: Missing	“All are blank”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 2:
Responses to H15007-H15008 are all missing.

Definition of “blank or NA” in Coding Table for Note 2:
All of the following are true: H15007-H15008 are a combination of not applicable (-6) or missing.

Definition of “one marked and one NA” in Coding Table for Note 2:
H15007-H15008 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 2:
Any pattern of marks outside the definitions “all are blank”, “one marked and one NA”, and “blank or NA”.

**Coding Table for Note 3:
H15009, H15010, H15011**

N3	H15009 is:	H15010-H15011 are:	H15009 is coded as:	H15010-H15011 are coded as:	*
1	1: Yes	“All are blank”	Stands as original value	Stand as original value	
2	1: Yes or .: missing	“Blank or NA”	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	1: Yes	“One marked and one NA”	Stands as original value	.: Missing if -6; stand as original value otherwise	F
4	1: Yes	At least one is “marked”	Stands as original value	Stand as original value	
5	2: No	“One marked and one NA”	Stands as original value	.C: Question should be skipped	F
6	2: No or .: missing	At least one is “marked”	1: Yes	.: Missing if -6; stand as original value otherwise	B F
7	2: No	“All are blank” or “blank or NA”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
8	.: Missing	“All are blank”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 3:
Responses to H15010-H15011 are all missing.

Definition of “blank or NA” in Coding Table for Note 3:
All of the following are true: H15010-H15011 are a combination of not applicable (-6) or missing.

Definition of “one marked and one NA” in Coding Table for Note 3:
H15010-H15011 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 3:
Any pattern of marks outside the definitions “all are blank”, “one marked and one NA”, and “blank or NA”.

**Coding Table for Note 4:
H15013, H15014-H15018**

N4	H15013 is:	H15014-H15018 are:	H15013 is coded as:	H15014-H15018 are coded as:	*
1	1: None	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
2	2-7: Visits, or .: missing	“Blank or NA”	1: None	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2-7: Visits	At least one is “marked” or “all are blank”	Stands as original value	.: Missing if –6; stand as original value otherwise	F
4	.: Missing	“All are blank”	Stands as original value	Stand as original value	
5	.: Missing	At least one is “marked”	Stands as original value	.: Missing if –6; stand as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 4:
Responses to H15014-H15018 are all missing.

Definition of “blank or NA” in Coding Table for Note 4:
All of the following are true: H15014-H15018 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 4:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”.

**Coding Table for Note 5:
H15015, H15016-H15017**

N5	H15015 is:	H15016 is:	H15017 is:	H15015 is coded as:	H15016 is coded as:	H15017 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	1: Yes	Any value	Any value	Stands as original value	Stands as original value	Stands as original value	
3	2: No or .: missing	1: Definitely yes 2: somewhat yes	Any value	1: Yes	Stands as original value	Stands as original value	B
4	2: No or .: missing	3: Somewhat no, 4: definitely no, or .: missing	1: Definitely yes 2: somewhat yes	1: Yes	Stands as original value	Stands as original value	B
5	2: No	3: Somewhat no, 4: definitely no, or .: missing	3: Somewhat no, 4: definitely no, or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	3: Somewhat no, 4: definitely no, or .: missing	3: Somewhat no, 4: definitely no, or .: missing	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:
H15019, H15020-H15027, S15009**

N6	H15019 is:	H15020- H15024 are:	H15025- H15026, S15009 are:	H15027 is:	H15019 is coded as:	H15020- H15026, S15009 are coded as:	H15027 is coded as:	*
1	1: Yes	Any value	Any value	Any value	Stands as original value	Stand as original value	.: Missing if -6; stands as original value otherwise	F
2	2: No or .: missing	Any value	Any value	0-10	1: Yes	Stand as original value	Stands as original value	B
3	2: No or .: missing	At least one is "marked"	Any value	.: Missing	1: Yes	Stand as original value	Stands as original value	B
4	2: No	At least one is "marked"	Any value	-6: No personal doctor	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.C: Question should be skipped	F
5	2: No	"Blank or NA"	Any value	-6: No personal doctor or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	Any value	Any value	-6: No personal doctor	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	.C: Question should be skipped	B F
7	.: Missing	"Blank or NA"	Any value	.: Missing	Stands as original value	Stand as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "blank or NA" in Coding Table for Note 6:

All of the following are true: H15020 is either 0: None or missing and H15021-H15024 are either not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 6:

Any pattern of marks for H15020-H15024 outside the definition "blank or NA".

**Coding Table for Note 7:
H15020, H15021-H15026**

N7	H15020 is:	H15021-H15024 are:	H15025-H15026 are:	H15020 is coded as:	H15021-H15026 are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Any value	Stands as original value	Stand as original value	
2	0: None	Any value	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	1-6: Visits, or .: missing	“Blank or NA”	Any value	0: None	.N: Valid skip if missing; .C: question should be skipped if marked	B F
4	1-6: Visits, or .: missing	At least one is “marked” or “all are blank”	Any value	Stands as original value	.: Missing if -6; stand as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:
Responses to H15021-H15024 are all missing.

Definition of “blank or NA” in Coding Table for Note 7:
Responses to H15021-H15024 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 7:
Any pattern of marks for H15021-H15024 outside the definitions “all are blank” and “blank or NA”.

**Coding Table for Note 8:
H15025, H15026**

N8	H15025 is:	H15026 is:	H15025 is coded as:	H15026 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	1: Yes	Any value	Stands as original value	Stands as original value	
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	.: Missing	Stands as original value	.N: Valid skip	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 8_01:
S15009, S15010**

N8_01	S15009 is:	S15010 is:	S15009 is coded as:	S15010 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	Any value	Stands as original value	Stands as original value	
2	1: Yes	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: No	Any value	Stands as original value	Stands as original value	
4	.: Missing	Any value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 9:
H15028, H15029-H15031**

N9	H15028 is:	H15029-H15031 are:	H15028 is coded as:	H15029 is coded as:	H15030-H15031 are coded as:	*
1	1: Yes	Any value	Stands as original value	.: Missing if -6; stands as original value otherwise	Stand as original value	F
2	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stands as original value otherwise	Stand as original value	B
3	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	.: Missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	B F
5	.: Missing	"All are blank"	Stands as original value	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 9:
Responses to H15029-H15031 are all missing.

Definition of "blank or NA" in Coding Table for Note 9:

All of the following are true: H15029 and H15031 are a combination of not applicable (-6) or missing. H15030 is either missing or 0: None.

Definition of "marked" in Coding Table for Note 9:

Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 10:
H15030, H15031**

N10	H15030 is:	H15031 is:	H15030 is coded as:	H15031 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	1-5: Specialists	0-10 or .: missing	Stands as original value	Stands as original value	
3	1-5: Specialists or .: missing	-6: Didn't see a specialist in the last 12 months	0: None	.C: Question should be skipped	B F
4	0: None	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	0-10 or .: missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 10_B1:
S15B02, S15B03-S15B04**

N10_B1	S15B02 is:	S15B03-S15B04 are:	S15B02 is coded as:	S15B03-S15B04 are coded as:	*
1	1: Yes	Any value	Stands as original value	.: Missing if -6; stand as original value otherwise	F
2	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stand as original value otherwise	B F
3	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	.: Missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
5	.: Missing	"All are blank"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 10_B1:
Responses to S15B03-S15B04 are all missing.

Definition of "blank or NA" in Coding Table for Note 10_B1:

All of the following are true: S15B03-S15B04 are a combination of not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 10_B1:

Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 11:
H15032, H15033**

N11	H15032 is:	H15033 is:	H15032 is coded as:	H15033 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't need care, tests, or treatment	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't need care, tests, or treatment or .: missing	Stands as original value	.N: Valid skip if missing; .C: Question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 12:
H15034, H15035**

N12	H15034 is:	H15035 is:	H15034 is coded as:	H15035 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value

5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 14:
H15038, H15039**

N14	H15038 is:	H15039 is:	H15038 is coded as:	H15039 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't need prescription meds	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't need prescription meds or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15:
H15040, H15041-H15042**

N15	H15040 is:	H15041-H15042 are:	H15040 is coded as:	H15041-H15042 are coded as:	*
1	1: Yes	At least one is "marked" or "all are blank"	Stands as original value	.: Missing if -6; stand as original value otherwise	F
2	1: Yes or .: missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stand as original value otherwise	B F
4	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	"All are blank"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 15:
Responses to H15041-H15042 are all missing.

Definition of "blank or NA" in Coding Table for Note 15:
All of the following are true: H15041-H15042 are a combination of not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 15:
Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 16:
H15043, H15044**

N16	H15043 is:	H15044 is:	H15043 is coded as:	H15044 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't receive forms to fill out	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't receive forms to fill out or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17:
H15045, H15046-H15047**

N17	H15045 is:	H15046-H15047 are:	H15045 is coded as:	H15046-H15047 are coded as:	*
1	1: Yes	At least one is "marked", "all are blank" or "blank or don't know"	Stands as original value	.: Missing if -6; stands as original value otherwise	F
2	1: Yes, -5: don't know or .: missing	"Blank or NA" or "NA or don't know"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2: No, -5: don't know or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stands as original value otherwise	B F
4	2: No	None are "marked"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	-5: Don't know	"Blank or don't know" or "all are blank"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	"Blank or don't know" or "all are blank"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 17:

Responses to H15046-H15047 are all missing.

Definition of "blank or NA" in Coding Table for Note 17:

Responses to H15046-H15047 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of "blank or don't know" in Coding Table for Note 17:

Responses to H15046-H15047 are either all don't know (-5) or a combination of missing and don't know (-5).

Definition of "NA or don't know" in Coding Table for Note 17:

Responses to H15046-H15047 are a combination of not applicable (-6) and don't know (-5).

Definition of "marked" in Coding Table for Note 17:

Any pattern of marks outside the definitions "all are blank," "blank or NA," "blank or don't know," or "NA or don't know".

Coding Table for Note 18:

H14053, H14054-H14056, H14057A-H14057D

N18	H14053 is:	H14054- H14056 are:	H14057A- H14057D are:	H14053 is coded as:	H14054- H14056, H14057A- H14057D are coded as:	*
1	3: Some days, 4: every day, or .: missing	Any value	Any value	Stands as original value	Stand as original value	
2	2: Not at all or -5: don't know	Any value	"All are unmarked"	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
3	2: Not at all	Any value	At least one is "marked"	.: Missing	Stand as original value	B
4	-5: Don't know	Any value	At least one is "marked"	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are unmarked" in Coding Table for Note 18:
Responses to H14057A-H14057D are all missing or unmarked.

Definition of "marked" in Coding Table for Note 18:
Any pattern of marks outside the definition "all are unmarked"

Coding Table for Note 19:

Note 19 (Part A)

H15058, H15059B, H15060-H15064, SEX, XSEXA

N19A	H15058 is:	SEX is:	H15059B--H15064 are:	XSEXA is coded as:
1	:: Missing	F	Any marked	2: Female
2	:: Missing	F	All missing	2: Female
3	:: Missing	M	Any marked	1: Male
4	:: Missing	M	All missing	1: Male
5	:: Missing	Z or :: missing	Any marked	2: Female
6	:: Missing	Z	All missing	:: Missing
7	:: Missing	:: Missing	All missing	:: Missing
8	1: Male	Any value	All missing	1: Male
9	1: Male	F	Any marked	2: Female
10	1: Male	M, Z, or :: missing	Any marked	1: Male
11	2: Female	Any value	Any marked	2: Female
12	2: Female	M	All missing	1: Male
13	2: Female	F, Z, or :: missing	All missing	2: Female

SEX (PNSEXCD) is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H15058), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

Note 19 (Part B):**XSEXA, H15059B, H15060-H15064**

N19B	XSEXA	H15059B--H15064	H15059B--H15064	*
	is:	are:	are coded as:	
1	1: Male	“All are blank”	.N: Valid skip	F
2	1: Male	At least one is “marked”	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stand as original value	
4	.: Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 19b:
All variables H15059B--H15064 are missing.

Definition of “marked” in Coding Table for Note 19b:
Any pattern of marks outside the definition “all are blank”.

Coding Table for Note 20**XSEXA, AGE, H15060, H15061**

N20	XSEXA	AGE	H15060	H15061	H15060	H15061	*
	is:	is:	is:	is:	is coded as:	is coded as:	
1	1: Male	Any value	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Any value	Stands as original value	Stands as original value	
3	2: Female	Any value	1: Under 40	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	2: Female	Any value	.: Missing	Marked	2: >= 40	Stands as original value	B
5	2: Female	< 40	.: Missing	.: Missing	1: < 40	.N: Valid skip	F B
6	2: Female	>=40	.: Missing	.: Missing	2: >= 40	Stands as original value	B
7	2: Female	.: Missing	.: Missing	.: Missing	Stands as original value	Stands as original value	
8	.: Missing	Any value	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

AGE (DAGEQY) is from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

**Coding Table for Note 21:
XSEXA, H15062-H15064**

N2 1	XSEXA is:	H15062 is:	H15063 is:	H15064 is:	H15062 is coded as:	H15063 is coded as:	H15064 is coded as:	*
1	1: Male	Any value	Any value	Any value	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: Pregnant now	1: First trimester	Any value	Stands as original value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: Female	1: Pregnant now	2: Second trimester	2: Third trimester	Stands as original value	Stands as original value	.: Missing	F
4	2: Female	1: Pregnant now	2: Second trimester	4: First trimester, 3: second trimester, 1: did not receive prenatal care, or .: missing	Stands as original value	Stands as original value	Stands as original value	
5	2: Female	1: Pregnant now	3: Third trimester or .: missing	Any value	Stands as original value	Stands as original value	Stands as original value	
6	2: Female	2: Pregnant in last 12 months	Any value	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	Stands as original value	F
7	2: Female	3: Not pregnant in past 12 months	Any value	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
8	2: Female	.: Missing	1: First trimester	Any value	1: Pregnant now	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	B F
9	2: Female	.: Missing	2: Second trimester	2: Third trimester	1: Pregnant now	Stands as original value	.: Missing	B F
10	2: Female	.: Missing	2: Second trimester	4: First trimester, 3: second trimester, 1: did not receive prenatal care, or .: missing	1: Pregnant now	Stands as original value	Stands as original value	B
11	2: Female	.: Missing	3: Third trimester	Any value	1: Pregnant now	Stands as original value	Stands as original value	B
12	2: Female	.: Missing	.: Missing	Any value	Stands as original value	Stands as original value	Stands as original value	F
13	.: Missing	.: Missing	Marked or .: missing	Any value	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F)

**Coding Table for Note 22:
H15067, H15068**

N22	H15067 is:	H15068 is:	H15067 is coded as:	H15068 is coded as:	*
1	1: Yes	Any value	Stands as original value	Stands as original value	
2	2: No or .: missing	1: Yes or 2: no	1: Yes	Stands as original value	B
3	2: No	.: Missing	Stands as original value	.N: Valid skip	F
4	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 23:
H15069, H15070**

N23	H15069 is:	H15070 is:	H15069 is coded as:	H15070 is coded as:	*
1	1: Yes	Any value	Stands as original value	Stands as original value	
2	2: No or .: missing	1: Yes or 2: no	1: Yes	Stands as original value	B
3	2: No	.: Missing	Stands as original value	.N: Valid skip	F
4	.: Missing	.: Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 23_HT:
XSEXA, H15071F, H15071I**

N23_HT	XSEXA is:	H15071F and H15071I is:	H15071F and H15071I are coded as:	*
1	1: Male or 2: female	“Height within range for gender” or .: missing	Stands as original value	
2	1: Male or 2: female	“Height out of range for gender”	.O: Out of range	F
3	.: missing	“Height within range for either gender” or .: missing	Stands as original	
4	.: missing	“Height out of range for either gender”	.O: Out of range	F

* Indication of backward coding (B) or forward coding (F).

Definition of “Height within range for gender” in Coding Table for Note 23_1:
From 2006 NHIS, height for men is 63”-76” (5’3”-6’4”), height for woman is 59”-70” (4’11”-5’10”).

Definition of “Height out of range for gender” in Coding Table for Note 23_1:
Any height outside the definition of “Height within range for gender”.

Definition of “Height within range for either gender” in Coding Table for Note 23_1:
Use lowest and highest height from either gender to set range: 59”-76” (4’11”- 6’4”).

Definition of “Height out of range for either gender” in Coding Table for Note 23_1:
Any height outside the definition of “Height within range for either gender”.

**Coding Table for Note 23_WT:
XSEXA, H15072**

N23_WT	XSEXA is:	H15072 is:	H15072 is coded as:	*
1	1: Male or 2: female	“Weight within range for gender” or .: missing	Stands as original value	
2	1: Male or 2: female	“Weight out of range for gender”	.O: Out of range	F
3	.: missing	“Weight within range for either gender” or .: missing	Stands as original	
4	.: missing	“Weight out of range for either gender”	.O: Out of range	F

* Indication of backward coding (B) or forward coding (F).

Definition of “Weight within range for gender” in Coding Table for Note 23_2:
From 2006 NHIS, weight for men is 126-299 pounds, weight for woman is 100-274 pounds.

Definition of “Weight out of range for gender” in Coding Table for Note 23_2:
Any height outside the definition of “Weight within range for gender”.

Definition of “Weight within range for either gender” in Coding Table for Note 23_2:
Use lowest and highest weight from either gender to set range: 100-299 pounds.

Definition of “Weight out of range for either gender” in Coding Table for Note 23_2:
Any height outside the definition of “Weight within range for either gender”.

**Coding Table for Note 24:
H15073, H15073A-H15073E**

N24	H15073A is:	H15073B is:	H15073C is:	H15073D is:	H15073E is:	H15073 is coded as:	H15073A-E are coded as:	*
1	Any value	1: Marked	Any value	Any value	Any value	2: Yes, Mexican, Mexican American, Chicano	Stand as original value	F
2	Any value	2: Unmarked	Any value	Any value	1: Marked	5: Yes, other Spanish, Hispanic, or Latino	Stand as original value	F
3	Any value	2: Unmarked	1: Marked	Any value	2: Unmarked	3: Yes, Puerto Rican	Stand as original value	F
4	Any value	2: Unmarked	2: Unmarked	1: Marked	2: Unmarked	4: Yes, Cuban	Stand as original value	F
5	1: Marked	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	1: No, not Spanish, Hispanic, or Latino	Stand as original value	F
6	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	.: Missing	Stand as original value	F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 25:
H15074, H15075-H15079**

N25	H15074 is:	H15075-H15079 are:	H15074 is coded as:	H15075-H15079 are coded as:	*
1	1: Yes	Any value	Stands as original value	Stand as original value	
2	2: No or -5: don't know	"All are uncovered/unknown"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: No, -5: don't know, or .: missing	At least one is "covered"	1: Yes	Stand as original value	B
4	.: Missing	"All are uncovered/unknown"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are uncovered/unknown" in Coding Table for Note 25:
Responses to H15075-H15079 are all 2: no, -5: don't know, or missing.

Definition of "covered" in Coding Table for Note 25:
Any pattern of marks outside the definition "all are uncovered/unknown".

APPENDIX G

RESPONSE RATE TABLES – QUARTER II

THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.

TABLE G.1

RESPONSE RATES BY ENROLLMENT AND BENEFICIARY CATEGORY– QUARTER II, 2015

	Unweighted Response Rate	Weighted Response Rate
Active Duty	14.3	12.6
Active Duty fam,Prime,civ PCM	3.8	3.9
Active Duty fam,Prime,mil PCM	4.2	4.2
Active Duty fam,non-enrollee	2.8	2.8
Retired,<65,civ PCM	13.6	13.6
Retired,<65,mil PCM	13.3	14.3
Retired,<65,non-enrollee	10.1	10.9
Retired,65+,enrolled	28.6	28.3
Retired,65+,non-enrollee	20.9	20.9
TRICARE Reserve Select	7.9	7.9

TABLE G.2

RESPONSE RATES BY XOCONUS – QUARTER II, 2015

	Unweighted Response Rate	Weighted Response Rate
In US/Missing Region	9.0	14.1
Europe	9.3	12.0
Western Pacific	8.6	12.2
Latin America	9.3	12.7

TABLE G.3

RESPONSE RATES BY SEX – QUARTER II, 2015

	Unweighted Response Rate	Weighted Response Rate
Male	12.6	16.5
Female	6.7	11.4

TABLE G.4

RESPONSE RATES BY CONUS/OCONUS INDICATOR – QUARTER II, 2015

	Unweighted Response Rate	Weighted Response Rate
Invalid/Missing	8.7	12.4
Not in USA	9.0	12.2
In USA	9.0	14.1

TABLE G.5

RESPONSE RATES BY BENEFICIARY CATEGORY – QUARTER II, 2015

	Unweighted Response Rate	Weighted Response Rate
Active Duty and Guard/Reserve	14.3	12.5
Dependent of Active Duty & Guard/Reserve	3.8	3.9
Retiree/Depend of Retiree/Survivor/Other 65+	21.7	21.6
Retiree/Depend of Retiree/Survivor/Other <65	12.3	12.5

TABLE G.6
