Objective

- **Understand and Become Familiar With:**
 - **Outpatient Rate Overview and Updates**
 - CY2017 Effective Date
 - Rate Components
 - Service Rate Requests
 - **UBO Rate Structures**
 - **Requesting rates for Services and Procedures**
 - **Inpatient Rates**
 - **MAC Rates**
 - **Billing Tips and Reminders**
 - **Health.mil and LaunchPad Navigation**
 - **DHA UBO Helpdesk Tickets**

Outpatient Rates Overview

- Outpatient rates are developed by the DHA UBO for each outpatient encounter, service, procedure, or supply provided at a MTF.
- UBO CHAMPUS Maximum Allowable Charge (CMAC) rates are developed for reimbursement in the purchased care community.
- Medical Expense Program Reporting System (MEPRS) data is used to calculate the average MTF operational expenses.
- Purchased Care System (PSC) data used to calculate the average allowable amounts. Some procedures require special handling and rates are based on PSC or Ambulatory Payment Classification (APC) charges.

- Four widely used billing rate structures intended to recover costs in the military fixed facilities
 - Full or Third Party Collections(TPC)
 - Interagency
 - International Military Education and Training(IMET)
 - Department of Defense – Department of Veterans Affairs (DoD-VA) Sharing
- The DHA UBO Program Office recommends billing rates for contractors and foreign nationals supporting deployed forces
- Patient Category (PATCAT) assignment drives the assignment of the applicable rate structure

UBO Rate Structures: Full or Third Party Collection (TPC) Rates

- Full /TPC Billing rates are used synonymously
 - Recover the full cost of healthcare services provided
 - Normally the highest UBO rate
- Rates used for billing commercial insurance carriers and pay patients
 - Exception: OCONUS DoD civilians and Cosmetic procedures
- Most UBO ambulatory/professional services (TPC rates) match TRICARE reimbursement (CMAC rates)
- Inpatient TPC rates are indexed to TRICARE percent growth
- TPC rates based on average MEPRS unit costs with adjustments for cost not reflected in MEPRS expenses
 - Dental, Ambulance, Ambulatory Procedure Visit (APV), specific Injectables

UBO Rate Structures: Interagency Billing Rates

- Interagency rates are full/TPC rates discounted to remove several cost factors for health care services
- Durable medical equipment and pharmaceuticals are not discounted
- Interagency charges does not include
 - Asset Use Charge: Use of assets (facilities and/or equipment) to recoup depreciation and interest on investment
 - Government Share of Unfunded Retirement (GSUR) Costs: Cover the cost of the unfunded civilian retirement, post retirement health benefits and life insurance

- The IMET Program provides training on a grant basis to students from allied and friendly nations
 - Authority for the IMET program is found in Chapter 5, part II, Foreign Assistance Act of 1961
 - Funding is appropriated from the International Affairs budget of the Department of State
 - Not all foreign national patients participate in the IMET program
- IMET rates does not include
 - Asset Use Charge and GSUR Costs
 - Military personnel cost

UBO Rate Structures: The PATCAT Table

- Patient category (**PATCAT**) assignment determines billing, who should be billed and under which rate structure

**DHA PATCAT Table

CMAC Rates Development Overview

- Primary Outpatient rate tables
 - CMAC and CMAC Component rate files
 - Categorized by CMAC localities
- Based on what TRICARE allows
- Certain CMAC codes are not available for separate reimbursement
 - Set to \$0.00 and/or reasonable rates applied
 - Telephone consults, assessments, post operative follow up visits
 - Emergency Department Services
 - Observation
- Effective Date for CY 2017: July 1, 2017

ABACUS Mapping Table

- Contains specific code ranges that maps to various applicable modifiers, claim forms and indicates which rate table to find the charge
 - CPT®/HCPCS driven

DMIS ID Mapping Table

- The Defense Medical Information System Identifier (DMIS ID) Mapping Table is used as a way of standardizing both medical and military facility identification and cost/workload classification.

Revenue Mapping Table

- Identifies the CPT®/HCPCS procedure, supply, drug code, description and available revenue centers.
 - Revenue center code informs the payer where the procedure was performed

Modifier Mapping Table

- Contains a list of modifiers that can be attached to specific ranges of codes and which rate table to find the charge
 - Modifier driven – to identify applicable code ranges
 - Released with the annual CPT®/HCPCS codes update

Service Rate Requests

- Rate requests received
 - Mammogram (77065 – 77067, new for 2017)
 - TRICARE assigned and included in the CMAC Component files.
 - Physical therapy codes (97161 -97168)
 - TRICARE assigned
 - Unlisted procedures
- ***
- Rates assigned if TRICARE provided a rate
 - Rates assigned according to Ambulatory Payment Classification (APC) charges or Purchased Care (PSC) allowable amounts
 - Rates not assigned for
 - Case management codes
 - Government no pay list
 - Not billable
 - Per UBO PO guidance

Process for Requesting Rates for Procedure Codes

- Service/MTF/billing office identifies the CPT®/HCPCS procedure code that is not included in the DHA UBO rates file
- Draft a written explanation telling why the code(s) should be applied a charge, the date(s) of service, the number of times and specific details of when/how the code is being used
- Submit request with justification to Service/NCR MD Program Manager
- Service/NCR MD Program Manager forwards the written explanation and/or supporting documentation to the DHA UBO Helpdesk with a request for pricing.
 - Use “DHA UBO Special Price Request” in the subject line.
- The pricing request will be forwarded to the appropriate SME for verification
 - If confirmed that there is no DHA UBO current rate, a recommendation for an out-of-cycle rate update may be considered.
 - SME determines the recommended rate structure and charge to apply, if any
 - SME submits the recommended charge and supporting justification/documentation (including no charge if insufficient justification and documentation) to the PO for review and approval.
- Upon PO approval, charges are updated accordingly and submitted to be included in the next rates cycle or for an out of cycle update

Adjusted Standardized Amounts (ASA) Inpatient Rates

- *Inpatient* rates - billing inpatient medical services at MTFs
 - Each inpatient MTF has an Adjusted Standardized Amount (ASA)
- Effective rates for FY 2017 Inpatient Billing Rates
 - October 1, 2016 until superseded

- *MAC* rates - same as DHA UBO Inpatient Adjusted Standardized Amounts (ASAs) and Outpatient rates
 - Approved by Office of Management and Budget (OMB) and published in the *Federal Register* (FR)
 - Based on date(s) of service
- *Pharmacy* rates do not require OMB approval
 - Based on date(s) of service
- MAC collections are reported on a monthly basis

Determining Which Rate File to Use for MAC Claims

- Determine Date(s) of Service
- Find CMAC locality according to DMIS ID
- Look up CPT[®]/HCPCS code for rate
- Refer to UBO website to determine which file to use
- Follow Service/NCR MD specific guidelines for filing MAC claims

Industry updates

- Centers for Medicare & Medicaid Services (CMS) updates CPT/HCPCS codes on a quarterly basis
- The American Medical Association (AMA) updates CPT® codes annually, effective 1 January
- TRICARE updates CPT/HCPCS codes annually

DHA UBO Updates

- DHA UBO Outpatient rates: New codes, not assigned a rate yet
 - Can only bill if there is a DHA UBO rate associated with an effective code
 - DHA UBO rates cannot be applied retroactively
- Proper PATCAT assignment drives applicable rate structure and code assignment

Billing Tips and Reminders: Health Plan and Policy Billing Guidelines

Claim formats that are used in the MHS are based on encounter services provided, payer requirements, and Service and NCR MD billing policies

- Government may not collect more than the total charge from any one source or combination of sources
- If total payment exceeds the billed amount, MTF must refund the overage

Institutional - Hospital charges

Professional - Provider charges

Uniform Business Office (UBO)

The Army, Navy, Air Force, and National Capital Region Medical Directorate (NCR MD) establish and operate UBO offices at Defense Health Program (DHP) fixed military treatment facilities (MTFs) throughout the world that administer Third Party Collections (TPC), Medical Services Account (MSA), and Medical Affirmative Claim (MAC) Programs:

- MSA activities involve the first-payer billing of individuals and other Government Agencies for services rendered in MTFs to include, but not limited to, the U.S. Coast Guard, the National Oceanic and Atmospheric Administration, and the U.S. Public Health Service.
- TPC activities involve billing third-party payers on behalf of non-active duty dependents for treatment provided in MTFs.
- MAC activities involve billing all areas of liability insurance, such as automobile, products, premises and general casualty, homeowner's and renter's insurance, medical malpractice (by civilian providers), and workers' compensation (other than Federal employees).

These efforts are coordinated by the Chartered UBO Advisory Working Group, composed of the DHA, Army, Navy, Air Force, and NCR MD Program Officers, who meet quarterly to review and recommend effective processes to identify, review, validate, and prioritize functional changes and business process improvements to support MTF revenue cycle management activities.

UBO offices focus on ensuring that billable services are identified; payer information is available; accurate and complete claims are generated; and appropriate collections are received. Together, the three cost recovery programs provide the business processes for cost recovery including collections control, accounts receivable, and deposits.

The UBO Mission

Our mission is to optimize allowable health care cost recovery within compliance guidelines in support of the operational and readiness mission of the MHS.

The UBO supports the TRICARE managed care programs by providing tools and policies to enhance and improve the effectiveness of the financial and collection operations. Additionally, the UBO supports managing and expediting collections from patients and third party insurers; supports consistent and uniform reporting of expense, manpower and workload data, and enhancing third party reimbursements.

Visit the DHA [Launchpad](#) site and navigate to the UBO page for more information. CAC Authentication is required.

UBO Rates Overview

The UBO billing rates are based on TRICARE allowable charges and are used to determine charges for outpatient, inpatient, dental, cosmetic surgery, and pharmacy services. Outpatient rates are the charges for professional and institutional health care services provided bin MTFs. Inpatient rates are used when billing for inpatient medical services at MTFs. Each MTF providing inpatient care has its own applied Adjusted Standardized Amount (ASA). Pharmacy rates are based on TRICARE allowable charges, average wholesale price, or prime vendor program prices listed for the national drug codes and are used to set pharmacy rates for pharmaceuticals and approved drugs.

UBO rates differ slightly from the standard TRICARE rates. UBO rates are specifically formatted for military billing systems, and include charges for additional services not reimbursed by TRICARE.

The Assistant Secretary of Defense for Health Affairs (ASD/HA) approved the implementation of **CY2015 Outpatient Medical, Dental, and Cosmetic Procedure Reimbursement Rates** for direct care received at military treatment facilities (MTFs) as on July 1, 2015. These rates are used to determine:

- Charges for medical and dental services provided on an outpatient basis
- Ambulatory services
- Inpatient cosmetic surgery services

These rates were released in accordance with [U.S.C. Title 10](#), and will remain in effect until further notice.

The ASD/HA also approved the [FY2015 Inpatient Billing Rates](#) for direct care received at MTFs effective October 1, 2015, and will remain in effect until further notice. These rates are used to determine charges for inpatient professional and institutional health care services provided in MTFs under the Defense Health Program (DHP).

UBO rates are published online in accordance with [Executive Order 13410](#) (August 2006) to promote health care transparency relating to quality and cost.

For a copy of the deployed rates letters, please email the [UBO Helpdesk](#) or call 202-776-1532 and leave a message. We will respond to all inquiries within one business day.

Mapping Tables

UBO billing systems use rate files in conjunction with several mapping tables that directs the billing systems to the appropriate rate file for any given procedure. These mapping tables also specify the billing form for each procedure and provide appropriate revenue centers and modifiers for each procedure. The major mapping files include:

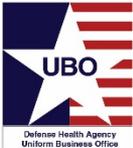

Calendar Year (CY)	Mapping Tables

Pharmacy Rates

Pharmacy rates are derived from the Managed Care Pricing File (MCPF) supplied by the Defense Supply Center and are based on TRICARE allowable charges, Average Wholesale Price (AWP), or Prime Vendor Program (PVP) prices listed for the National Drug Codes (NDC).

Rates are established on a unit measure price basis, and are standardized for NDCs within each generic sequence number (GSN). A GSN groups a set of NDCs with the same active ingredients, dosage form, and strength, regardless of vendor brand or generic description. Currently, rates are computed based on the median unit measure cost for all of the AWP listed NDCs in each GSN group. The median unit measure price is applied to all the NDCs in each GSN group.

Where there are no AWP listed NDCs in a GSN group, the rate for the NDCs is set to the median unit measure price of the PVP listed for the NDCs in that GSN group. As of January 2010, unit measure prices reflect the median TRICARE allowable ingredient costs.

- For the most accurate information on whether a specific drug requires prior authorization, please use the [Formulary Search Tool](#).
- Before submitting claims to other health insurance carriers, MTFs should review the insurance carrier's website for its current list of pharmaceuticals requiring prior authorization.

Select Download:

Pharmacy Dispensing Fee

The total pharmacy charge is calculated by multiplying the number of units dispensed (e.g., the number of tablets or capsules) by the unit measure cost for the dispense NDC, available in the applicable pharmacy rate table, plus the dispensing fee.

Before July 2007, the dispensing fee covered non-ingredient costs, including overhead, supplies, and labor. Effective February 4, 2011, the dispensing fee was set to \$2.00 per script dispensed. This cost mirrors the average allowable dispensing fee allowed under the TRICARE Retail Pharmacy Program.

The \$2.00 dispensing fee remains in effect for FY15.

Rates for Care Provided at Deployed/Non-Fixed Facilities

The billing rates below are for services provided at DoD deployed/non-fixed facilities to foreign nationals covered under Acquisition and Cross-Servicing Agreements (ACSA) and for services for patients other than foreign military personnel covered under ASCA.

DHA Uniform Business Office

The Army, Navy, Air Force, and National Capital Region Medical Directorate (NCR MD) establish and operate UBO offices at Defense Health Program (DHP) fixed military treatment facilities (MTFs) throughout the world that administer Third Party Collections (TPC), Medical Services Account (MSA), and Medical Affirmative Claim (MAC) Programs:

- MSA activities involve the first-payer billing of individuals and other Government Agencies for services rendered in MTFs to include, but not limited to, the U.S. Coast Guard, the National Oceanic and Atmospheric Administration, and the U.S. Public Health Service.
- TPC activities involve billing third-party payers on behalf of non-active duty dependents for treatment provided in MTFs.
- MAC activities involve billing all areas of liability insurance, such as automobile, products, premises and general casualty, homeowner's and renter's insurance, medical malpractice (by civilian providers), and workers' compensation (other than Federal employees).

These efforts are coordinated by the Chartered UBO Advisory Working Group, composed of the DHA, Army, Navy, Air Force, and NCR MD Program Officers, who meet quarterly to review and recommend effective processes to identify, review, validate, and prioritize functional changes and business process improvements to support MTF revenue cycle management activities.

UBO offices focus on ensuring that billable services are identified; payer information is available; accurate and complete claims are generated; and appropriate collections are received. Together, the three cost recovery programs provide the business processes for cost recovery including collections control, accounts receivable, and deposits.

The UBO Mission

Our mission is to optimize allowable health care cost recovery within compliance guidelines in support of the operational and readiness mission of the MHS. The UBO supports the TRICARE managed care programs by providing tools and policies to enhance and improve the effectiveness of the financial and collection operations. Additionally, the UBO supports managing and expediting collections from patients and third party insurers; supports consistent and uniform reporting of expense, manpower and workload data, and enhancing third party reimbursements.

Questions Received via DHA UBO Helpdesk

- ***“I'm trying to locate information on billing an emergency room visit when the patient was admitted as an inpatient/observation.”***
 - **DHA UBO Helpdesk Response:** Policy guidance for Observation services are outlined in the DHA UBO User Guide, Section “Observation Services”, page 106. Please refer to the DHA UBO User Guide, which can be found on the DHA UBO Website of health.mil at <http://www.health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office>.
 - If you need further assistance, please contact the UBO Helpdesk to request a teleconference with a subject matter expert to go through your particular scenario.
- ***“How can I find the prices for Case Management codes (G9005, T1016)?”***
 - **DHA UBO Helpdesk Response:** The DHA UBO does not have rates assigned for Case Management codes G9005 and T1016. Rates are determined based on Service and NCR MD requests, necessity and PO approval.
 - To request a rate assignment for a code, please submit code with justification to the UBO Helpdesk via your Service or NCR MD Program Manager. The code will be reviewed and potential rate determined based on necessity and PO approval.

- ***“I am currently working on a MAC Claim and trying to find the pricing for CPT Code 27899. According to the coders, it is a valid code but I cannot find the pricing for this code. Would you be able to assist with finding the pricing or assist me in this matter?”***
 - **DHA UBO Helpdesk Response:** Rates used for MAC billing are the same as those included in the Outpatient, Inpatient and Pharmacy rate packages. However, these rates must be approved by the OMB and published in the Federal Register before they can be used for MAC purposes. You want to make sure that you refer to date of service to determine which OP or IP rate file applies.
 - CPT code 27899 is an unlisted code and there is not a DHA UBO assigned rate for this code. (Remember MAC rates are based on Dates of Service and the CYs 13, 14, and 15 OP rates does not have any rates assigned for this code).
 - Rates are determined based on Service and NCR MD requests, necessity and PO approval. To request a rate assignment for a code, please submit code with justification to the UBO Helpdesk via your Service Program Manager. The code will be reviewed and potential rate determined based on necessity and PO approval. Any rate requests submitted at this time will be considered for future Outpatient Rate cycles unless granted special approval for an out of cycle update.

Questions Received via DHA UBO Helpdesk

- ***Where are the TRICARE CMAC rates? I do not see them on the UBO Web site.***
 - **DHA UBO Helpdesk Response:** TRICARE CMAC rates are available on the Health.mil Web site under the “Rates and Reimbursement” (<http://www.health.mil/Military-Health-Topics/Business-Support/Rates-and-Reimbursement>) section. These rates are used to recover the cost of healthcare services provided by MTFs that abides by DoD/VA Resource Sharing agreements. These rates are different than the DHA UBO CMAC rates which are based on TRICARE CMAC rates, but are formatted for military billing systems and include charges for additional services not reimbursed by TRICARE.
- ***Where can I find MAC billing rates from previous years?***
 - **DHA UBO Helpdesk Response:** MAC rates are same as DHA UBO Inpatient Adjusted Standardized Amounts (ASA) and Outpatient rates, but must first be approved by Office of Management and Budget (OMB) and published in the Federal Register (FR)
 - You can find the appropriate MAC rates under “UBO Archived Rates” on the DHA UBO Launchpad. Select the appropriate rate file according to the date(s) of service for MAC billing.

Instructions for CEU Credit

This in-service webinar has been approved by the American Academy of Professional Coders (AAPC) for 1.0 Continuing Education Unit (CEU) credit for DoD personnel (.mil address required). Granting of this approval in no way constitutes endorsement by the AAPC of the program, content or the program sponsor. There is no charge for this credit.

- **Live broadcast webinar (post-test not required)**
 - Login prior to the broadcast with your: 1) full name; 2) Service affiliation; and 3) e-mail address
 - View the entire broadcast
 - After completion of both of the live broadcasts and after attendance records have been verified, a Certificate of Approval including an AAPC Index Number will be sent via e-mail to participants who logged in or e-mailed as required. This may take several business days.

- **Archived webinar (post-test required)**
 - View the entire archived webinar (free and available on demand at http://www.tricare.mil/ocfo/mcfs/ubo/learning_center/training.cfm)
 - Complete a post-test available *within* the archived webinar
 - E-mail answers to UBO.LearningCenter@altarum.org
 - If you receive a passing score of at least 70%, we will e-mail MHS personnel with a .mil email address a Certificate of Approval including an AAPC Index Number

- The original Certificate of Approval may not be altered except to add the participant's name and webinar date or the date the archived Webinar was viewed. Certificates should be maintained on file for at least six months beyond your renewal date in the event you are selected for CEU verification by AAPC

- For additional information or questions regarding AAPC CEUs, please contact the AAPC.

- Other organizations, such as American Health Information Management Association (AHIMA), American College of Healthcare Executives (ACHE), and American Association of Healthcare Administrative Managers (AAHAM), may also grant credit for DHA UBO Webinars. Check with the organization directly for qualification and reporting guidance.
