

MILITARY HEALTH SYSTEM **MHS GENESIS**

MHS GENESIS is the new, modern electronic health record (EHR) for the Department of Defense.

The EHR will launch at military hospitals and clinics worldwide, in planned waves through 2023. When deployment is complete, it will provide a single record of care throughout your military service. MHS GENESIS integrates inpatient, outpatient, and dental records. Benefits of the EHR include:

- Seamless secure messaging with providers
- Access to medical records through a new patient portal
- Improved communication with military hospitals and clinics, as well as the Department of Veterans Affairs and civilian providers

To learn more about MHS GENESIS and when it's coming your way, visit health.mil/mhsgenesis.
