## ELECTRONIC DATA QUALITY

### eDQ– Data Quality Automation– Optimized Performance

**eDQ is a web-based application used by Data Quality (DQ) Managers and Commanders at virtually every Air Force (AF) Military Treatment Facility (MTF) to track and correct healthcare data quality issues with an automated input system.**

eDQ is located on the CarePoint Information Portal (CIP) and provides an automated submission process via an input workflow mechanism. MTF DQ Managers use this tool complete the eDQ Review List and send results to Air Force Medical Operations Agency (AFMOA). eDQ also uses an automated workflow to capture the results of auditing records through which results feed into the DQ process to track the completion and trending of those efforts.

### Key Benefits

- ▶ Tracks and corrects healthcare DQ issues as they occur
- ▶ Allows adherence to TRICARE Management Activity (TMA) policy Department of Defense Instruction (DoDI) 6040.40. mandating that all services must monitor DQ
- ▶ Streamlined communication through automatic submission and notification from the DQ manager to the DQ commander to Headquarters (HQ)
- ▶ Supports the completion and submission of DQ Review Lists and Statements on a monthly basis

### Key Features

- ▶ Automated data validation improves speed and accuracy
- ▶ Tracks both the completion and trending of auditing record results
- ▶ Facilitates electronic validation email notification
- ▶ Supports pre-populated data within the review list to streamline data entry
- ▶ Calculates the percentages and provides stoplights based threshold

#### eDQ Homepage

The screenshot shows the eDQ homepage with a navigation menu on the left and a main content area. The main content area includes a header with the goal of eDQ, a table for 'eDQ Review' with columns for Facility, Status, Submission Date, Commander Approval Date, and AFMOA Approval Date. Below this is a 'Review Lists Pending' section with a table for Facility, Submission Date, and DMS ID. A 'Waiting for Com' section is also visible.
