## FACT SHEET VIRTUAL HOPE BOX

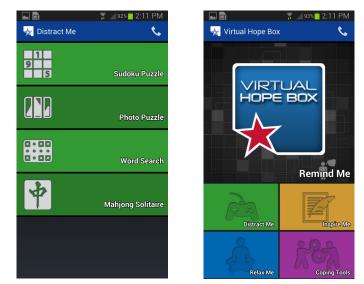

VIDEOS, PICS AND GAMES TO COPE WITH STRESS

The Virtual Hope Box (VHB) is a smartphone application designed for patients and their behavioral health providers as an accessory to treatment. The VHB contains simple tools to help patients with coping, relaxation, distraction and positive thinking.

The Virtual Hope Box (VHB) mobile application received the 2014 Department of Defense Innovation Award for its unique application of technology in supporting behavioral health in service members and military families. Patients and providers can work together to personalize the VHB content on the patient's own smartphone according to the their specific needs. The patient can then use the VHB away from the clinic, updating content as needed.

The VHB provides help with emotional regulation and stress management via personalized supportive audio, video, pictures, games, mindfulness exercises, positive messages and activity planning, inspirational quotes, coping statements, and other tools.

This app was produced by the Web & Mobile Technology (WMT) Program Management Office, part of the Defense Health Agency (DHA) Solution Delivery Division.WMT provides web and mobile solutions to the DHA and other Department of Defense and Department of Veterans Affairs organizations.

SDD is a component of the DHA DAD IO (J-6). To subscribe for SDD product news, please visit https://public.govdelivery.com/accounts/USMHSDHSS/ subscriber/new.
