c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

The Draeger Infinity Delta Series (enterprise) is intended for multi-parameter patient monitoring. The devices will produce visual and audible alarms if any of the physiological parameters monitored vary beyond preset limits and timed or alarm recordings will be produced. The Draeger Infinity Delta Series collect Physiological Data to include vital parameters - Electrocardiogram (ECG) respirations, ST segments analysis, End-tidal carbon dioxide (etCO2), Bispectral Index (BISx), electroencephalogram (EEG), multiple temperatures, invasive and noninvasive blood pressure and full arrhythmia and upload to DoD electronic medical records (EMR) system.

Personally identifiable information (PII) collected includes military records and protected health information (PHI). The categories of people in which PII is collected includes: All Active Duty Service Members, Retirees, Veterans, and their families. In addition, PII is collected from both members of the general public and Federal.

Draeger Infinity Delta Series is owned and operated by the Defense Health Agency (DHA) sites which purchase the workstation. Cyberlog is responsible for the risk management framework (RMF) process, and gaining an approval from DHA J6 Risk Management Executive Division (RMED). Local sites are responsible for day to day operations, maintenance, and management of the device. Sites are responsible for ensuring the device is configured to meet CyberLOG and RMED approved configurations.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII collected is to match patient with the medical device. The intended use of this PII is to enhance patient care.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Individuals do not have the opportunity to object to the collection of their PII because Draeger Infinity Delta Series is not the initial point of collection.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals do not have the opportunity to consent to the specific uses of their PII because Draeger Infinity Delta Series is not the initial point of collection.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

Privacy Act Statement Privacy Advisory Not Applicable

Draeger Infinity Delta Series does not collect PII directly from individuals, therefore; no Privacy Act Statement or Privacy Advisory is required.
