c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

NMIS (Nuclear Medicine Information System Biodose) is an application hosted on a Virtual Machine (VM) Windows 2019 server. NMIS is only used by Radiology, particularly in the Nuclear Medicine Division, Radiation Safety, and National Intrepid Center of Excellence (NICOE) Nuclear Medicine. It serves as the only means to audit radioactive isotopes given to patients for treatment and provides a tracker for radioactive pharmaceutical supplies and drugs.

NMIS generates hard-copy reports or images containing private data and transmits and receives private data via a wired network connection. Personally Identifiable Information (PII) and Protected Health Information (PHI) elements collected include personal, employment, and medical information. It is collected from existing Department of Defense (DoD) Information systems and from both members of the general public and Federal employees.

The system is owned and operated by ATAMMC Radiology department.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII is collected and used for patient identification, tracking, and timely and effective patient care.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

The requested PII/PHI information is voluntary. The patient can verbally choose not to provide the information. Comprehensive health care may not be possible but care will not be denied.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

The notice itemizes the types of uses and disclosures that are permissible with and without the patient's authorization. If the patient wishes to consent to specific uses or sharing of PII, the individual may submit a written request to the Defense Health Agency (DHA) Privacy and Civil Liberties Office (PCLO), or the ATAMMC Health Insurance Portability and Accountability Act (HIPAA) Privacy Officer. The requested PII/PHI information is voluntary, and if the patient chooses not to provide the information, comprehensive health care may not be possible but care will not be denied.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)
