

PRIVACY IMPACT ASSESSMENT (PIA)

PRESCRIBING AUTHORITY: DoD Instruction 5400.16, "DoD Privacy Impact Assessment (PIA) Guidance". Complete this form for Department of Defense (DoD) information systems or electronic collections of information (referred to as an "electronic collection" for the purpose of this form) that collect, maintain, use, and/or disseminate personally identifiable information (PII) about members of the public, Federal employees, contractors, or foreign nationals employed at U.S. military facilities internationally. In the case where no PII is collected, the PIA will serve as a conclusive determination that privacy requirements do not apply to system.

c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

The CARESCAPE Patient Monitoring system consists of four main sub-components: CARESCAPE Central Station (CSCS), Gateway, ApexPro Telemetry, & Monitors. The CARESCAPE Central Station is intended for use under the direct supervision of a licensed healthcare practitioner. The intended use is to provide clinicians with adult, pediatric and neonatal patient data within a hospital or clinical environment. The CARESCAPE Central Station is intended to collect, display and print information from a network, including patient demographics, physiological parameters and waveforms, alarm annunciation and/or other non-medical information from monitors and telemetry systems. The CARESCAPE Gateway is a network service that collects data from devices on patient monitoring networks and provides both near real-time and trended data to clinical information systems (CIS), translated into formats supported by these systems. The CARESCAPE Gateway is intended to electronically transfer data to and from medical devices. However, it is not intended to control any monitoring functions of the monitoring devices to which it connects, nor is it intended to be used in the monitoring of the patients connected to said devices.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII / PHI is collected for the mission-related purpose of creating an accurate electronic health record that will follow a member through a continuum of care. The intended use of the collected PII / PHI will be used to associate the correct patient

e. Do individuals have the opportunity to object to the collection of their PII? ☐ Yes ☒ No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Individuals do not have the opportunity to object to the collection of their PII / PHI because this system is not the initial point of collection; however, the source system may provide the individual the opportunity to object to the collection.

f. Do individuals have the opportunity to consent to the specific uses of their PII? ☐ Yes ☒ No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals do not have the opportunity to object to the collection of their PII / PHI because this system is not the initial point of collection; however, the source system may provide the individual the opportunity to object to the collection.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

- ☐ Privacy Act Statement ☒ Privacy Advisory ☐ Not Applicable

You are accessing a U.S. Government (USG) Information System (IS) that is provided for USG-authorized official business only. By using or accessing this IS, you understand and consent to the following:

1. You have no reasonable expectation of privacy regarding any communications or data transiting or stored on this system.
2. At any time, the USG or authorized personnel may monitor, intercept, record, and search any communication or data transiting or stored on this system.
3. Any communications or data transiting or stored on this system may be disclosed or used for any lawful government purpose.

Unauthorized or improper use of this system is prohibited and may result in disciplinary action, as well as civil and criminal penalties.

k. Does this DoD Information system or electronic collection require a Privacy Act System of Records Notice (SORN)?

A Privacy Act SORN is required if the information system or electronic collection contains information about U.S. citizens or lawful permanent U.S. residents that is retrieved by name or other unique identifier. PIA and Privacy Act SORN information must be consistent.

☐ Yes ☒ No

If "Yes," enter SORN System Identifier

SORN Identifier, not the Federal Register (FR) Citation. Consult the DoD Component Privacy Office for additional information or <http://dpcl.d.defense.gov/Privacy/SORNs/>
or

If a SORN has not yet been published in the Federal Register, enter date of submission for approval to Defense Privacy, Civil Liberties, and Transparency Division (DPCLTD). Consult the DoD Component Privacy Office for this date.

If "No," explain why the SORN is not required in accordance with DoD Regulation 5400.11-R: Department of Defense Privacy Program.

Information is not being maintained within a System of Records where it is retrieved by the use of a unique identifier.

(b) If direct statutory authority or an Executive Order does not exist, indirect statutory authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

(c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.

n. Does this DoD information system or electronic collection have an active and approved Office of Management and Budget (OMB) Control Number?
