

PRIVACY IMPACT ASSESSMENT (PIA)

PRESCRIBING AUTHORITY: DoD Instruction 5400.16, "DoD Privacy Impact Assessment (PIA) Guidance". Complete this form for Department of Defense (DoD) information systems or electronic collections of information (referred to as an "electronic collection" for the purpose of this form) that collect, maintain, use, and/or disseminate personally identifiable information (PII) about members of the public, Federal employees, contractors, or foreign nationals employed at U.S. military facilities internationally. In the case where no PII is collected, the PIA will serve as a conclusive determination that privacy requirements do not apply to system.

SECTION 1: PII DESCRIPTION SUMMARY (FOR PUBLIC RELEASE)

a. The PII is: (Check one. Note: Federal contractors, military family members, and foreign nationals are included in general public.)

- ☐ From members of the general public ☐ From Federal employees
- ☒ from both members of the general public and Federal employees ☐ Not Collected (if checked proceed to Section 4)

b. The PII is in a: (Check one.)

- ☐ New DoD Information System ☐ New Electronic Collection
- ☒ Existing DoD Information System ☐ Existing Electronic Collection

c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

The CellaVision DC-1 is an automated cell-locating device which locates and presents images of blood cells on peripheral blood smears. The CellaVision DC-1 facilitates the differential count of white blood cells (WBC), characterization of red blood cell (RBC) morphology and platelet estimation, by capturing and pre-classifying images of WBCs and RBCs on a stained peripheral blood smear, as well as capturing and presenting an overview image of the blood smear for platelet analysis.

The source for Personal Identifiable Information (PII) will be collected from an existing accredited hospital information system or health record system within the Department of War (DoW). The PII collected includes personal identifiers and medical information including Protected Health Information (PHI). The categories of individuals with records in this system are DoW health care beneficiaries to include Military members of the Armed Forces, Military retirees, and their family members; DoW Civilian employees; Foreign Nationals; members of the U.S. Coast Guard and Public Health Service; cadets and midshipmen of the military academies; and other categories of individuals who receive medical treatment at DoD treatment facilities/activities. Non-Centrally Managed MDE Cyber (NCM MDE Cyber) is responsible for the Risk Management Framework (RMF) process and gaining an approval from DHA's Joint 6 Risk Management Executive Division (RMED). Local sites are responsible for day-to-day operations, maintenance, and management of the device. Sites are responsible for ensuring the device is configured to meet NCM MDE Cyber and RMED approval configurations. CellaVision DC-1 Series is owned by DHA's NCM MDE Cyber and operated by various MTFs as needed.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII is collected for identification purposes to match an individual with his/her medical diagnostic reports and to ensure accuracy when these reports are integrated in the medical record for that individual. The PII is used for mission-related purposes to support the delivery of health care services. PII is needed for patient identification and for doctors to identify and perform intended in vitro testing.

e. Do individuals have the opportunity to object to the collection of their PII? ☐ Yes ☒ No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Individuals do not have the opportunity to object to the collection of their PII /PHI because this system is not the initial point of collection; however, the source system may provide the individual the opportunity to object to the collection.

f. Do individuals have the opportunity to consent to the specific uses of their PII? ☐ Yes ☒ No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals do not have the opportunity to object to the collection of their PII /PHI because this system is not the initial point of collection; however, the source system may provide the individual the opportunity to object to the collection.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

☐ Privacy Act Statement ☒ Privacy Advisory ☐ Not Applicable

You are accessing a U.S. Government (USG) Information System (IS) that is provided for USG-authorized official business only.

By using or accessing this IS, you understand and consent to the following:

1. You have no reasonable expectation of privacy regarding any communications or data transiting or stored on this system.
2. At any time, the USG or authorized personnel may monitor, intercept, record, and search any communication or data transiting or stored on this system.
3. Any communications or data transiting or stored on this system may be disclosed or used for any lawful government purpose.

Unauthorized or improper use of this system is prohibited and may result in disciplinary action, as well as civil and criminal penalties.

h. With whom will the PII be shared through data/system exchange, both within your DoD Component and outside your Component? (Check all that apply)

☒ Within the DoD Component

Specify. PII may be shared with personnel who have authorized access to systems within the MEDCOI.

☐ Other (If Other, enter the information in the box below)

MEDCOI collects PII which already exists within the packet data transported across, and inspected/monitored by the MEDCOI protection mechanisms against the threats of malware, malformed packets, and viruses; which may then be collected in the MEDCOI audit data.

k. Does this DoD Information system or electronic collection require a Privacy Act System of Records Notice (SORN)?

A Privacy Act SORN is required if the information system or electronic collection contains information about U.S. citizens or lawful permanent U.S. residents that is retrieved by name or other unique identifier. PIA and Privacy Act SORN information must be consistent.
