MEMORANDUM FOR DEPUTY SURGEON GENERAL OF THE ARMY
DEPUTY SURGEON GENERAL OF THE NAVY
DEPUTY SURGEON GENERAL OF THE AIR FORCE

SUBJECT: Policy Memorandum - Military Health System Data Quality Management
Control Program, Revised Reporting Documents

This memorandum revises Enclosure 1 (Data Quality Management Control (DQMC) Review List) and Enclosure 2 (Data Quality Statement) of Department of Defense Instruction (DoDI) 6040.40 (Military Health System (MHS) Data Quality Management Control Procedures), dated November 26, 2002. These important documents are the basis for the Military Treatment Facility (MTF) Report Format submitted to you monthly from your MTFs. The changes recommended in this memorandum will be incorporated into the DoDI through a reissuance process at a later date; changes to the enclosures are authorized in the DoDI.

The DQMC Workgroup which includes both Surgeon General staff and TRICARE Management Activity representation has recommended changes to the reporting and management tools. The primary changes for fiscal year 2010 focus on clarifying the methodology and instruction language for DQMC Review List items B (Data Input) and E (System Design, Development, Operations, and Education/Training. Item B.5 – Closing every clinic “end of day” has been deleted to put more emphasis on closing every appointment – every day. Two new questions were added to item C (Data Output) exploring DMHRSi timecard issues. The revised DQMC documents will be used beginning with the December 2009 Reporting Period (October 2009 Data Month). These documents can be viewed on the DQMC webpage http://www.tricare.mil/ocfo/mcfs/dqmc/mcp/management_control.cfm.

Thank you once again for your staff's cooperation in making improvements to the DQMC Program and continued support of the MHS data quality initiatives.
