HEALTH AFFAIRS

MEMORANDUM FOR ASSISTANT SECRETARY OF THE ARMY (MANPOWER AND
RESERVE AFFAIRS)
ASSISTANT SECRETARY OF THE NAVY (MANPOWER AND
RESERVE AFFAIRS)
ASSISTANT SECRETARY OF THE AIR FORCE (MANPOWER
AND RESERVE AFFAIRS)

SUBJECT: Retirement of eLearning Systems

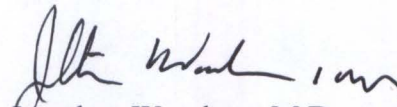

The Defense Health Agency (DHA) expects to deliver substantial savings by eliminating redundancies and improving business processes. One area suitable for this make-over is eLearning.

Our Education and Training (E&T) experts completed an extensive review of current eLearning systems and commercial contracts in use across the Military Health System (MHS). The Medical Deputies Action Group (MDAG) approved the recommendation to adopt Joint Knowledge Online (JKO) as the Enterprise Learning Management System (LMS). It is now time to transition off other LMSs where possible. This transition must be carefully planned to avoid any degradation of training. Therefore, I am directing the following:

1. The owners of the MHS contracted systems listed in Appendix 1 will work with the DHA Health Information Technology Directorate and the DHA E&T Directorate to complete a transition plan to retire the eLearning systems. The plan must include functional input for content and training data migration. The schedule and milestones for this action are included in Appendix 2.
2. Business rules and processes for content review have already been developed and approved by our functional experts. The DHA E&T Directorate will establish a sub-Working Group (sWG) to review existing learning content on the LMSs listed in Appendix 1 and make recommendations on what should be migrated to JKO. To ensure the functional community has a voice in system transition planning, the sWG will need the assistance of subject-matter experts (SMEs) from around the MHS on a short-term basis. Please assist with the identification of these SMEs and make them available to support the sWG as requested.
3. Appoint a representative from each of the Services, the DHA National Capitol Region Medical Directorate, and the DHA Learning and Development Division to serve on a tiger team to review the various contracts currently in place with Software as a Service content providers. This team will develop the appropriate request(s) for proposals for enterprise-wide contract(s) to replace them.

They must work with the respective Contracting Officers or their representatives to determine the best way to terminate local or Service-level contracts with the current SaaS vendors once an enterprise-wide contract is awarded. This team will report to the DHA E&T Directorate.

Request that names of personnel chosen to support this important work, in subparagraphs 2 and 3 above be provided to Dr. Rosemary Durica, rosemary.a.durica.civ@mail.mil, within 30 days of the date of this memorandum. We are poised to make great strides in the area of eLearning and, on behalf of the MDAG, I want to thank you in advance for your support in this effort. My interim point of contact for this is Dr. Rosemary Durica, Executive Director, Joint Medical Executive Skills Institute. Dr. Durica may be reached at (210) 295-0463, or rosemary.a.durica.civ@mail.mil.

Jonathan Woodson, M.D.
