

The Extremity Trauma and Amputation Center of Excellence (EACE) is excited to host
Jamie Boehm, CPO, MSPO, Justin Boehm, CPO, MSPO at the monthly

Limb Trauma Educational Series

Monthly Topic: **Rotationplasty Rehabilitation:**

A Multidisciplinary Approach to Surgical Limb Salvage and Prosthetic Fitting

Live Session: August 27th, 2025 at 12:00 PM ET

Rotationplasty presents a rare but functionally powerful alternative to traditional amputation techniques, requiring highly customized prosthetic management. This session reviews the surgical anatomy, prosthetic design strategies, and real-world rehabilitation outcomes essential for optimizing mobility and quality of life.

Continuing education credits available

Jamie Boehm, CPO, MSPO
