AT THE

Thursday, April 27, 2023, 6 p.m.

DoD Multi-Disciplinary Rehabilitation for Limb Trauma

A multi-disciplinary team of providers from the Walter Reed National Military Medical Center and the Extremity Trauma and Amputation Center of Excellence will present on emerging trends and technology in caring for the limb trauma patient, focusing on the severely to critically injured limb. Highlights include discussions on the evolution in powered orthoses, treatment protocols, and best practices in the collaborative care setting.
