

Insights into the Pathophysiology of TBI

QUARTERLY EDUCATION SERIES

Traumatic Brain Injury Center of Excellence

Wednesday, Jan. 21, 2026

2 to 4 p.m. ET

2 CME/CE credits available

Gain a deeper understanding of TBI pathophysiology through a specialized training hosted by the Traumatic Brain Injury Center of Excellence. Leading experts will examine the changes in brain structure and function after subconcussive impacts, how white matter potholes may serve as indicators of neural injury, and the crucial role of biomarkers and diagnostic devices for concussion. Please join us as we explore these cutting-edge topics.
