

TRICARE Users Consumer Watch

North ♦ Quarter 1 FY 2015

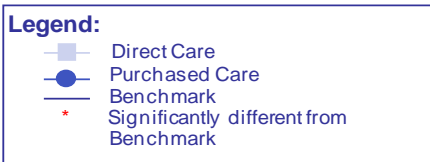

DEFENSE HEALTH COST ASSESSMENT & PROGRAM

Source: Health Care Survey of DoD Beneficiaries

Inside Consumer Watch

TRICARE Consumer Watch is a brief summary of what TRICARE users in your region say about their healthcare. Data are taken from the Health Care Survey of DoD Beneficiaries (HCSDB). The HCSDB includes questions from the Consumer Assessment of Healthcare Providers and Systems (CAHPS), a survey designed to help consumers choose among health plans. The survey for quarter four of FY2014 was canceled as a result of sequestration.

New benchmark data, from the National Committee for Quality Assurance (NCQA) for 2013, are used in calculating benchmarks. Rates differing significantly from the benchmark are in italics and shown in red.

Figures 1 through 4 show the proportion of Prime enrollees with a military PCM (direct care), or enrolled to a civilian PCM, or using Standard/Extra for most of their care in the past year (purchased care) who respond 8 or above when asked to give a rating on a 0 to 10 scale (0 is bad, and 10 is good), for Health Care, Health Plan, Personal Doctor, or the Specialist they see most often. Rates are adjusted for age and health status.

Health Care Topics

Health Care Topics scores average together results for related questions.

Each score is the percentage who “usually” or “always” got treatment they wanted. Asterisks show values significantly different from the benchmark ($p < .05$).

Figure 5 presents the composites “Getting needed care”. Scores are based on patients’ problems getting referrals and approvals and getting needed treatment.

“Getting care quickly” shown in Figure 6 scores concern how long patients wait for an appointment or wait in the doctor’s office.

Figure 8 shows “Customer service” scores, which concern patients’ ability to get information about their health plan.

“Claims processing” scores in Figure 9 are based on the timeliness and correctness of plan’s claims handling.

Preventive Care

The preventive care table compares TRICARE users’ rates for diagnostic screening tests and smoking and tobacco use cessation with goals from Healthy People 2020, a government initiative to improve Americans’ health by preventing illness.

Scores in Figure 7, “Doctor’s communication” are based on whether the doctor spends enough time with patients, treats them respectfully and answers their questions.

Preventive Care

Type of Care	Qtr 2 FY 2014	Qtr 3 FY 2014	Qtr 4 FY 2014	Qtr 1 FY 2015	Healthy People 2020 Goal
Mammography (women >= 40)					
Direct Care	84	85	-	86 (287)	81
Purchased Care	86	83	-	<i>*91</i> (133)	
Pap Smear (women >= 18)					
Direct Care	<i>*88</i>	<i>*88</i>	-	89 (530)	93
Purchased Care	<i>*80</i>	<i>*82</i>	-	<i>*80</i> (213)	
Hypertension Screen (adults)					
Direct Care	<i>*89</i>	<i>*88</i>	-	<i>*89</i> (1359)	95
Purchased Care	<i>*88</i>	92	-	95 (341)	
Prenatal Care (in 1st trimester)					
Direct Care	<i>*92</i>	89	-	82 (35)	78
Purchased Care	87	80	-	-	
Percent Not Obese (adults)					
Direct Care	<i>*83</i>	<i>*82</i>	-	<i>*82</i> (1261)	69
Purchased Care	66	74	-	72 (314)	
Non-Smokers (adults)					
Direct Care	88	87	-	90 (1320)	88
Purchased Care	90	<i>*94</i>	-	<i>*92</i> (329)	
Counseled to Quit (adults)					
Direct Care	79	77	-	81 (147)	-
Purchased Care	72	-	-	73 (36)	

*Numbers in red italics are significantly different from the Healthy People 2020 goal (p<.05). The number of responding beneficiaries for each type of care is in parentheses.

Figure 1: Health Care Rating

	Direct Care	Purchased Care
Benchmark	72	72
Q2/ FY14	*57	*81
Q3/ FY14	*56	77
Q4/ FY14	-	-
