## Introduction

This workbook provides satisfaction ratings for one inpatient measure, Recommend Hospital.

## Data Requested

**Survey Questions:** TRICARE Inpatient Satisfaction Survey (TRISS) Recommend Hospital

**Time Frame:** FY15Q4

**Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) Benchmark:** 50th percentile based on national scores from 4/2014 to 3/2015 (Latest benchmark data available on the HCAHPS website)

**Surveys:** Inpatient TRISS.

### **TRISS: *Recommend Hospital***

**Willingness to Recommend:** “Would you recommend this hospital to your friends and family?” (4-point scale, from “definitely no” to “definitely yes”; percent satisfied is “definitely yes”).

The Defense Health Agency manages the TRICARE Inpatient Satisfaction Survey (TRISS) for all Military Health System hospitals worldwide. The TRISS is based on the HCAHPS (Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) survey instrument that is used by many hospitals in the private sector. The TRISS assesses the experiences of MHS beneficiaries receiving inpatient care. One of the HCAHPS measures is *Recommend Hospital*. This question asks respondents whether they would recommend the hospital where they received care to others, with the most positive response as “definitely yes.” The ratings reported are based on the top positive response. This measure has a national HCAHPS benchmark which allows us to compare to hospitals in the private sector.

The *Recommend Hospital* measure is important to understand the quality of inpatient care perceived by beneficiaries. This measure was designed by HCAHPS and the results are reported on CMS Hospital Compare.
