

NSQIP Morbidity

DoD compares its surgical performance to over 600 leading hospitals (out of over 5000 hospitals in the US) who have chosen to participate the National Quality Surgical Improvement Program (NSQIP). We share best practices with participating civilian and military hospitals to drive improvement. Results below are for a one year period.	Complications related to surgery (All Case Morbidity) 7/2015-6/2016	Complications related to surgery (All Case Morbidity) 4/2015-3/2016	Complications related to surgery (All Case Morbidity) 1/2015-12/2015
