

Contract No.: 282-98-0021
MPR Reference No.: 8860-500

2003 Health Care Survey of DoD Beneficiaries:

Adult Codebook and User's Guide

**Publication Date: November 2003
Quarter III**

Submitted to:

TRICARE Management Activity
5111 Leesburg Pike, Suite 810
Falls Church, VA 22041
(703) 681-4263

Task Order Officer:
Lt Col Michael Hartzell, DVM, MPH

Submitted by:

Mathematica Policy Research, Inc.
600 Maryland Ave., SW, Suite 550
Washington, DC 20024-2512
(202) 484-9220

Project Director:
Eric Schone, Ph. D.

Table of Variables

Page		
QUARTER III FREQUENCIES		
QUESTIONNAIRE RESPONSES		
MPRID	- Unique MPR Identifier	91
SVCSPML	- Branch of Service Sampling Variable	91
SEXSPML	- Sex Sampling Variable.....	91
STRATUM	- Sampling STRATUM	91
CACSPML	- Catchment Area.....	100
ENBGSPL	- Enrollment by beneficiary category	102
MPCSPML	- Military Personnel Category	103
NHFF	- Stratum Sample Size	103
SERVAREA	- Service Area	103
QUARTER	- Survey Quarter.....	104
DCATCH	- Catchment Area.....	104
DMIS_ID	- DMIS ID	107
E1	- Eligibility indicator for period = 1	115
E2	- Eligibility indicator for period = 2	115
E3	- Eligibility indicator for period = 3	115
E4	- Eligibility indicator for period = 4	116
E5	- Eligibility indicator for period = 5	116
E6	- Eligibility indicator for period = 6	116
E7	- Eligibility indicator for period = 7	116
E8	- Eligibility indicator for period = 8	116
E9	- Eligibility indicator for period = 9	117
E10	- Eligibility indicator for period = 10	117
E11	- Eligibility indicator for period = 11	117
SERVAFF	- Service Affiliation	117
BWT	- Basic Sampling Weight.....	118
DEERS VARIABLES		
MRTLSTAT	- Marital Status	118
RACEETHN	- Race/Ethnic Code	118
PNSEXCD	- Person Gender.....	119
LEGDDSCD	- DDS Code.....	119
DAGEQY	- Age (As of 28 February 2003)....	119
FIELDAGE	- Age as of July 1st 2003.....	119
PCM	- Primary Manager Code (Civilian or Military)	121
DBENCAT	- Beneficiary Category.....	121
DMEDELG	- Medical Privilege Code	122
DSPONSVC	- Derived Sponsor Branch of Service.....	122
MBRRELCD	- Member Relationship Code	122
MEDTYPE	- Medicare Type	123
PATCAT	- Aggregated Beneficiary Category	123
PNLCATCD	- Personnel Category Code (Duty Status).....	123
QUESTIONNAIRE RESPONSES		
H03001	- Are you the person listed on envelope.....	124
H03002A	- Health plan(s) covered: TRICARE Prime	124
H03002C	- Health plan(s) covered: TRICARE Ext/Stnd	124
H03002F	- Health plan(s) covered: MEDICARE	124
H03002G	- Health plan(s) covered: FEHBP	125
H03002H	- Health plan(s) covered: Medicaid	125
H03002I	- Health plan(s) covered: Civilian HMO	125
H03002J	- Health plan(s) covered: Other civilian	125

H03002K	- Health plan(s) covered: USFHP.....	125
H03002L	- Health plan(s) covered: Not sure	126
H03002M	- Health plan(s) covered: Veterans	126
H03002N	- Health plan(s) covered: TRICARE Plus.....	126
H03002O	- Health plan(s) covered: TRICARE For Life.....	126
H03003	- Currently Covered Medicare Part A	127
H03004	- Currently Covered Medicare Part B	127
H03005	- Currently Covered Medicare Supplemental	127
H03006	- Which health plan did you use most in the past 12 months?.....	128
H03007	- Years in a row with health plan	128
H03008	- When joined health plan received new personal Doctor.....	129
H03009	- Health plan: problem to get a personal doctor or nurse you are happy with.....	129
H03010	- Have one person you think of as personal doctor.....	129
H03011	- Rating of your personal doctor or nurse.....	130
H03012	- In last year: you or a doctor or nurse think you needed to see a specialist	130
H03013	- In last year: how much of a problem to get a referral to see a specialist.....	130
H03014	- In last year: did you see a specialist	131
H03015	- Rating of specialist seen in last year.....	131
H03016	- In last year: specialist saw was the same as personal doctor	131
H03017	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself	132
H03018	- In last year: when you called during regular office hours how often got help or advice you needed	132
H03019	- In last year: made any appointment for regular or routine health care	132
H03020	- In last year: how often made appointments for regular or routine health care as soon as you wanted	133
H03021	- In last year: days between appointment for regular or routine care and actually seeing a provider.....	133
H03022	- In last year: illness/injury needed care right away.....	133
H03023	- In last year: when needed care right away for an illness or injury got care as soon as wanted	134
H03024	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury.....	134
H03025	- In last year: times went to an emergency room for own care	135
H03026	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room).....	135
H03027	- In last year: problem to get necessary care	135
H03028	- In last year: problem with delays in healthcare while waiting for approval from health plan.....	136
H03029	- In last year: wait more than 15 minutes past appointment time to see a doctor.....	136
H03030	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect.....	136
H03031	- In last year: how often office staff at a doctor's office or clinic as helpful as expected.....	137
H03032	- In last year: how often doctors or other health providers listen carefully to you.....	137
H03033	- In last year: how often doctors or other health providers explain things in way you could understand.....	138
H03034	- In last year: how often doctors or other health providers show respect for what you had to say	138
H03035	- In last year: how often doctors or other health providers spend enough time with you	139
H03036	- Rating of all healthcare in last year	139
H03038	- In last year: facility used most for health care.....	140
H03039	- In last year: sent in any claims to your health plan	140
H03040	- In last year: health plan handled claims in a reasonable time	140
H03041	- In last year: how often health plan handled claims correctly.....	141
H03042	- In last year: before went for care knew amount to pay	141
H03043	- In last year: look for any information in written materials from health plan	141

H03044	- In last year: problem to find or understand information in the written materials	142
H03045	- In last year: called health plan's customer service to get information or help.....	142
H03046	- In last year: problem to get the help you needed when called health plan's customer service.....	142
H03047	- Called or written health plan with a complaint or problem	143
H03048	- How long for health plan to resolve complaint	143
H03049	- Complaint or problem settled to satisfaction.....	143
H03050	- In last year: have any experiences with paperwork for your health plan.....	144
H03051	- In last year: how much problem with paperwork for your health plan.....	144
H03052	- Rating of all experience with health plan	144
H03053	- In next year: likely to disenroll in TRICARE Prime.....	145
H03055	- Blood pressure: when last reading.....	145
H03056	- Blood pressure: know if blood pressure is too high or not	145
H03057	- When did you last have a cholesterol screening	146
H03058	- When did you last have a flu shot	146
H03059	- Smoked at least 100 cigarettes in life	146
H03060	- Smoke everyday, some days, or not at all	147
H03061	- How long since you quit smoking.....	147
H03062	- Last year: number of visits advised to quit smoking	147
H03063	- Are you male or female.....	148
H03064	- Male: Last prostate disease exam or blood test	148
H03065	- Female: Last have a Pap smear test	148
H03066	- Female: Are you under age 40	149
H03067	- Female: Last time breasts checked mammography.....	149
H03068	- Female: Last time breast exam by professional	149
H03069	- Female: Been pregnant in last year or pregnant now	150
H03070	- Female: In what trimester is your pregnancy	150
H03071	- Female: Trimester first received prenatal care	150
H03072	- In general how would you rate your overall health.....	151
H03073	- Limited in any way in any activities because of any impairment or health problem	151
H03074	- Last 30 days: Number of Days when your physical health not good	152
H03075	- Last 30 days: Number of Days when your mental health not good	153
H03076	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities	154
H03077	- Last 30 days: Number of Days when pain made it hard to do your usual activities	155
H03078	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	156
H03079	- Last 30 days: Number of Days when you have felt worried, tense or anxious	157
H03080	- Last 30 days: Number of Days when you did not get enough rest or sleep.....	158
H03081	- Last 30 days: Number of Days when you have felt very healthy and full of energy	159
H03082	- Are you Spanish/Hispanic/Latino	160
SREDA	- Highest grade completed	160
SRRACEA	- Race: White	160
SRRACEB	- Race: Black or African American	161
SRRACEC	- Race: American Indian or Alaska Native	161
SRRACED	- Race: Asian.....	161
SRRACEE	- Race: Native Hawaiian/other Pacific Islanders	161
SRAGE	- What is your age now?	162
S03Y01	- In last 90 days: Have you filled a prescription.....	162
S03Y02	- Distance traveled, home to MTF pharmacy	162
S03Y03	- In last 90 days:Prscrptn filled at MTF pharmacy.....	163
S03Y04	- In last 90 days:Info. rcvd about new prscrptn medcn, MTF	163
S03Y05	- In last 90 days:How oftn flld prscrptn wait >30min, MTF	164
S03Y06A	- prscrptn filled, MTF:There for medical appointment.....	164
S03Y06B	- prscrptn filled, MTF:Visiting MTF for other reason.....	164
S03Y06C	- prscrptn filled, MTF:Conveniently located.....	164

S03Y06D	- prscrptn filled, MTF:Pharmacy has free prscrptn drugs.....	165
S03Y06E	- prscrptn filled, MTF:I like service	165
S03Y06F	- prscrptn filled, MTF:My doctor recommended MTF pharmacy.....	165
S03Y06G	- prscrptn filled, MTF:Better information and instructions	165
S03Y06H	- prscrptn filled, MTF:Trust prscrptn filled correctly.....	166
S03Y07	- Rating of MTF pharmacy where prscrptn is filled	166
S03Y08	- Dist:home, work to TRICARE retail network(TRN) pharmacy.....	167
S03Y09	- In last 90 days:prescription filled at TRN pharmacy.....	167
S03Y10	- In last 90 days:Info. rcvd about new prscrptn medcn, TRN	168
S03Y11	- In last 90 days:How oftn filled prscrptn wait is >30min, TRN.....	168
S03Y12	- In last 90 days:TRN filled prescription, taken >=90 days.....	168
S03Y13A	- prscrptn flld, TRN:Don't know how get drugs thru mail order phrmcy	169
S03Y13B	- prscrptn filled, TRN:Not comfortable getting drugs by mail	169
S03Y13C	- prscrptn filled, TRN:Conveniently located.....	169
S03Y13D	- prscrptn filled, TRN:Mail order phrmcy doesn't have needed medctn	169
S03Y13E	- prscrptn filled, TRN:like service	170
S03Y13F	- prscrptn filled, TRN:better information/instructions.....	170
S03Y13G	- prscrptn filled, TRN:MTF phrmcy doesn't have the medication.....	170
S03Y13H	- prscrptn filled, TRN:trust fill correctly	170
S03Y14	- Rating of TRN pharmacy where prescription filled	171
S03Y15	- In last 90 days:prscrptn filled at Non-network civilian(NNC) phrmcy	171
S03Y16	- In last 90 days:Info. rcvd about new prscrptn medcn, NNC.....	172
S03Y17	- In last 90 days:filed claims for NNC filled prscrptns.....	172
S03Y18A	- claim problems, NNC:none.....	172
S03Y18B	- claim problems, NNC:instrctn difficult	173
S03Y18C	- claim problems, NNC:dffcult obtaining form	173
S03Y18D	- claim problems, NNC:>20 days to process.....	173
S03Y19A	- prscrptn filled, NNC:other health insurance	173
S03Y19B	- prscrptn filled, NNC:traveling	174
S03Y19C	- prscrptn filled, NNC:not conveniently located	174
S03Y19D	- prscrptn filled, NNC:in network?	174
S03Y19E	- prscrptn filled, NNC:prefer non-network pharmacy.....	174
S03Y19F	- prscrptn filled, NNC:difference unknown	175
S03Y20	- Rating of NNC pharmacy where prescription filled	175
S03Y21	- In 1st 90 dys:prscrptn filled at Tricare mail order(TMO) phrmcy.....	175
S03Y22	- In 1st 90 dys:How oftn filled prscrptn wait <=14dys, TMO	176
S03Y23	- In last 90 days:Order refills via Express Scripts website(ESW).....	176
S03Y24	- In last 90 days:Problem ordering refills via ESW	176
S03Y25	- Rating of Tricare mail order pharmacy	177
S03V01	- In last year: Amount of healthcare from TRICARE civilian network(TCN).....	177
S03V02	- In last year: Problem getting wanted healthcare from TCN	178
S03V04	- In last year: Problem finding convenient TCN lab or x-ray facility.....	178
S03V05	- In last year: Learn physician whom you wanted to see left TCN	178
S03V06	- In last year: Problem finding convenient doctor from TCN	179
S03V07	- In last year: Problem finding specialist in Civilian network.....	179

SURVEY FIELDING VARIABLES

ONTIME	- Responded Within 8 weeks of Mail-Out.....	179
FLAG_FIN	- Final Disposition.....	180
DUPFLAG	- Multiple Response Indicator.....	180
FNSTATUS	- Final Status	180
KEYCOUNT	- Number of Key Questions Answered.....	180

CODING SCHEME FLAGS AND COUNTS

N1	- Coding Scheme Note 1	181
N2	- Coding Scheme Note 2	181
N3	- Coding Scheme Note 3.....	181
N4	- Coding Scheme Note 4.....	182
N5	- Coding Scheme Note 5.....	182
N6	- Coding Scheme Note 6.....	182

N7	- Coding Scheme Note 7	183
N8	- Coding Scheme Note 8	183
N9	- Coding Scheme Note 9	183
N9E	- Coding Scheme Note 9E	184
N9F	- Coding Scheme Note 9F	184
N9G	- Coding Scheme Note 9G	184
N9H	- Coding Scheme Note 9H	185
N9I	- Coding Scheme Note 9I	185
N9J	- Coding Scheme Note 9J	185
N9K	- Coding Scheme Note 9K	186
N9L	- Coding Scheme Note 9L	186
N13	- Coding Scheme Note 13	186
N14	- Coding Scheme Note 14	187
N15	- Coding Scheme Note 15	187
N16	- Coding Scheme Note 16	187
N17	- Coding Scheme Note 17	188
N18	- Coding Scheme Note 18	188
N19	- Coding Scheme Note 19	189
N20B	- Coding Scheme Note 20B	190
N20C	- Coding Scheme Note 20C	190
N20D	- Coding Scheme Note 20D	190
N21	- Coding Scheme Note 21	191
N22	- Coding Scheme Note 22	191
MISS_1	- Count of: Violates Skip Pattern	191
MISS_4	- Count of: Incomplete grid error	191
MISS_5	- Count of: Scalable response of Don't know	192
MISS_6	- Count of: Not applicable - valid skip	192
MISS_7	- Count of: Out-of-range error	193
MISS_8	- Count of: Multiple response error	193
MISS_9	- Count of: No response - invalid skip	194
MISS_TOT	- Total number of missing responses	195

CONSTRUCTED VARIABLES

XENRLLMT	- Enrollment in TRICARE Prime	196
XENR_PCM	- Enrollment by PCM type	196
XINS_COV	- Insurance Coverage	196
XREGION	- Region	197
CONUS	- CONUS/OCONUS Indicator	197
OUTCATCH	- Out of Catchment Area Indicator	197
XSEXA	- Male or Female (Recode)	198
XBNFGRP	- Constructed Beneficiary Group	198
KDISENRL	- Intention to disenroll	198
KMIOFFC	- Office wait of 15 min or more at Military facility	198
KCIVOFFC	- Office wait of 15 min or more at Civilian facility	199
KBGPRB1	- Big problem getting referrals to specialist	199
KBGPRB2	- Big problem getting necessary care	199
KMILOPQY	- Outpatient visits to Military facility	199
KCIVOPQY	- Outpatient visits to Civilian facility	200
KCIVINS	- Beneficiary covered by civilian insurance	200
KBRSTCR	- Women age 40 and over ever had mammogram and breast exam	200
HP_PRNTL	- Pregnant in last year received care in 1st trimester	200
HP_MAMOG	- Women age 40 and over mammography in past 2 years	201
HP_MAM50	- Women age 50 and over mammography in past 2 years	201
HP_PAP	- All women Pap smear in last 3 years	201
HP_BP	- Blood pressure check in last 2 years know results	201
HP_FLU	- Age 65 and older flu shot in last 12 months	202
HP_PROS	- Men age 50 or over prostate exam in last 12 months	202
HP_BRST	- Women age 40 and over breast exam in last 12 months	202
HP_CHOL	- Cholesterol screening in last 5 years	202

HP_SMOKE	- Advised to quit smoking in last 12 months.....	203
HP_SMOKH	- Smoker under HEDIS definition.....	203
HP_CESS	- Had smoking cessation counseling	203
ADJ_CELL	- Adjusted STRATUM cell	204
WEIGHTS

ENBGSMPL	- Enrollment by beneficiary category 102
FIELDAGE	- Age as of July 1st 2003..... 119
FLAG_FIN	- Final Disposition..... 180
FNSTATUS	- Final Status 180
H03001	- Are you the person listed on envelope..... 124
H03002A	- Health plan(s) covered: TRICARE Prime 124
H03002C	- Health plan(s) covered: TRICARE Ext/Stnd 124
H03002F	- Health plan(s) covered: MEDICARE 124
H03002G	- Health plan(s) covered: FEHBP 125
H03002H	- Health plan(s) covered: Medicaid 125
H03002I	- Health plan(s) covered: Civilian HMO 125
H03002J	- Health plan(s) covered: Other civilian 125
H03002K	- Health plan(s) covered: USFHP..... 125
H03002L	- Health plan(s) covered: Not sure 126
H03002M	- Health plan(s) covered: Veterans 126
H03002N	- Health plan(s) covered: TRICARE Plus 126
H03002O	- Health plan(s) covered: TRICARE For Life..... 126
H03003	- Currently Covered Medicare Part A 127
H03004	- Currently Covered Medicare Part B 127
H03005	- Currently Covered Medicare Supplemental 127
H03006	- Which health plan did you use most in the past 12 months?..... 128
H03007	- Years in a row with health plan 128
H03008	- When joined health plan received new personal Doctor..... 129
H03009	- Health plan: problem to get a personal doctor or nurse you are happy with..... 129
H03010	- Have one person you think of as personal doctor..... 129
H03011	- Rating of your personal doctor or nurse..... 130
H03012	- In last year: you or a doctor or nurse think you needed to see a specialist 130

H03013	- In last year: how much of a problem to get a referral to see a specialist.....	130
H03014	- In last year: did you see a specialist	131
H03015	- Rating of specialist seen in last year.....	131
H03016	- In last year: specialist saw was the same as personal doctor	131
H03017	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself	132
H03018	- In last year: when you called during regular office hours how often got help or advice you needed	132
H03019	- In last year: made any appointment for regular or routine health care	132
H03020	- In last year: how often made appointments for regular or routine health care as soon as you wanted	133
H03021	- In last year: days between appointment for regular or routine care and actually seeing a provider.....	133
H03022	- In last year: illness/injury needed care right away.....	133
H03023	- In last year: when needed care right away for an illness or injury got care as soon as wanted.....	134
H03024	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury.....	134
H03025	- In last year: times went to an emergency room for own care	135
H03026	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room).....	135
H03027	- In last year: problem to get necessary care.....	135
H03028	- In last year: problem with delays in healthcare while waiting for approval from health plan.....	136
H03029	- In last year: wait more than 15 minutes past appointment time to see a doctor.....	136
H03030	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect.....	136
H03031	- In last year: how often office staff at a doctor's office or clinic as helpful as expected.....	137
H03032	- In last year: how often doctors or other health providers listen carefully to you.....	137
H03033	- In last year: how often doctors or other health providers explain things in way you could understand.....	138
H03034	- In last year: how often doctors or other health providers show respect for what you had to say.....	138
H03035	- In last year: how often doctors or other health providers spend enough time with you	139
H03036	- Rating of all healthcare in last year	139
H03038	- In last year: facility used most for health care.....	140
H03039	- In last year: sent in any claims to your health plan	140
H03040	- In last year: health plan handled claims in a reasonable time	140
H03041	- In last year: how often health plan handled claims correctly.....	141
H03042	- In last year: before went for care knew amount to pay	141
H03043	- In last year: look for any information in written materials from health plan	141
H03044	- In last year: problem to find or understand information in the written materials	142
H03045	- In last year: called health plan's customer service to get information or help.....	142
H03046	- In last year: problem to get the help you needed when called health plan's customer service	142
H03047	- Called or written health plan with a complaint or problem	143
H03048	- How long for health plan to resolve complaint	143
H03049	- Complaint or problem settled to satisfaction.....	143
H03050	- In last year: have any experiences with paperwork for your health plan.....	144
H03051	- In last year: how much problem with paperwork for your health plan	144
H03052	- Rating of all experience with health plan	144
H03053	- In next year: likely to disenroll in TRICARE Prime	145
H03055	- Blood pressure: when last reading.....	145
H03056	- Blood pressure: know if blood pressure is too high or not	145
H03057	- When did you last have a cholesterol screening	146
H03058	- When did you last have a flu shot	146

H03059	- Smoked at least 100 cigarettes in life	146
H03060	- Smoke everyday, some days, or not at all	147
H03061	- How long since you quit smoking.....	147
H03062	- Last year: number of visits advised to quit smoking	147
H03063	- Are you male or female.....	148
H03064	- Male: Last prostate disease exam or blood test	148
H03065	- Female: Last have a Pap smear test.....	148
H03066	- Female: Are you under age 40	149
H03067	- Female: Last time breasts checked mammography.....	149
H03068	- Female: Last time breast exam by professional	149
H03069	- Female: Been pregnant in last year or pregnant now	150
H03070	- Female: In what trimester is your pregnancy	150
H03071	- Female: Trimester first received prenatal care	150
H03072	- In general how would you rate your overall health	151
H03073	- Limited in any way in any activities because of any impairment or health problem	151
H03074	- Last 30 days: Number of Days when your physical health not good	152
H03075	- Last 30 days: Number of Days when your mental health not good	153
H03076	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities	154
H03077	- Last 30 days: Number of Days when pain made it hard to do your usual activities	155
H03078	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	156
H03079	- Last 30 days: Number of Days when you have felt worried, tense or anxious	157
H03080	- Last 30 days: Number of Days when you did not get enough rest or sleep.....	158
H03081	- Last 30 days: Number of Days when you have felt very healthy and full of energy	159
H03082	- Are you Spanish/Hispanic/Latino	160
HP_BP	- Blood pressure check in last 2 years know results	201
HP_BRST	- Women age 40 and over breast exam in last 12 months	202
HP_CESS	- Had smoking cessation counseling	203
HP_CHOL	- Cholesterol screening in last 5 years	202
HP_FLU	- Age 65 and older flu shot in last 12 months.....	202
HP_MAM50	- Women age 50 and over mammography in past 2 years.....	201
HP_MAMOG	- Women age 40 and over mammography in past 2 years.....	201
HP_PAP	- All women Pap smear in last 3 years.....	201
HP_PRNTL	- Pregnant in last year received care in 1st trimester.....	200
HP_PROS	- Men age 50 or over prostate exam in last 12 months	202
HP_SMOKE	- Advised to quit smoking in last 12 months.....	203
HP_SMOKH	- Smoker under HEDIS definition.....	203
KBGPRB1	- Big problem getting referrals to specialist.....	199
KBGPRB2	- Big problem getting necessary care.....	199
KBRSTCR	- Women age 40 and over ever had mammogram and breast exam.....	200
KCIVINS	- Beneficiary covered by civilian insurance	200
KCIVOFFC	- Office wait of 15 min or more at Civilian facility	199
KCIVOPQY	- Outpatient visits to Civilian facility	200
KDISENRL	- Intention to disenroll.....	198
KEYCOUNT	- Number of Key Questions Answered.....	180
KMIOFFC	- Office wait of 15 min or more at Military facility.....	198
KMIOPQY	- Outpatient visits to Military facility	199
LEGDDSCD	- DDS Code.....	119
MBRRELCD	- Member Relationship Code	122
MEDTYPE	- Medicare Type	123
MISS_1	- Count of: Violates Skip Pattern	191
MISS_4	- Count of: Incomplete grid error	191
MISS_5	- Count of: Scalable response of Don't know	192
MISS_6	- Count of: Not applicable - valid skip.....	192
MISS_7	- Count of: Out-of-range error	193

MISS_8	- Count of: Multiple response error.....	193
MISS_9	- Count of: No response - invalid skip	194
MISS_TOT	- Total number of missing responses.....	195

Chapter
1

Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the 2003 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to facilitate users in creating tables and generating analyses above and beyond those associated with this project.

This version of the Codebook and User's Guide describes the third quarter data set. It presents the frequency counts of all variables from the third quarter survey.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

How to Use This Guide

Chapter 2 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 3 provides table-making instructions in both SAS and SPSS and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™ or WesVar PC®. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 4, where we describe each variable in the database, including a list of all possible values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata
- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling
- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for an alphabetical quick-reference list intended to assist users in locating each variable.

What is the HCSDB?

The HCSDB is a health care survey of active duty military personnel, retirees, and their adult family members. It is comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. The adult survey is fielded every quarter, whereas the child survey is fielded only in the third quarter of each year. Results from each quarter are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The surveys collect data on beneficiaries' satisfaction with, and access to, health care, knowledge of the TRICARE system, and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2003 HSCDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001 and 2002. The annotated questionnaire appears in Appendix A. A crosswalk between the 2003 questions and the questions from the 1994-1995, 1996, 1997, 1998, 1999, 2000, and 2002 surveys appears as Appendix B.

The HCSDB fixed questionnaire covers the following topics:

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance.
- **Your Personal Doctor or Nurse.** In this section, respondents are asked about their relationship with their personal doctor or nurse. They are asked to rate their personal doctor or nurse on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Getting Health Care from a Specialist.** This section collects information about respondents' need for and access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Calling Doctors' Offices.** Questions in this section ask beneficiaries whether they were able to access care and obtain information by telephone from their doctor's office or clinic.
- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It also covers topics such as the availability of providers and their staff, convenience, and courtesy and respect shown by providers and their staff. For comparison purposes, the questions are similar in content and format to questions used in the Consumer Assessment of Health Plans Survey (CAHPS). CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality, U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0

is the lowest rating and 10 is the highest rating. TRICARE Prime enrollees are asked about their satisfaction with Prime and about their likelihood of possibly disenrolling. Additionally, respondents are asked questions about any problems they may have encountered with claims processing, accessing and comprehending written materials, customer service, processing paperwork, and resolving complaints.

- **Your Preventive Health Care.** This section collects information on the use of preventive health care services, including blood pressure readings, cholesterol screening, and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography and breast examination by a health care professional. Men are asked about prostate examinations. All respondents are asked whether they smoke. Smokers are asked whether they have received smoking cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health, as well as the number of days in the past month they have felt their physical or mental health was not good. They are further asked to indicate how many days they have experienced more specific physical or mental health problems, and if these problems prevented them from performing usual activities. Finally, respondents are asked to report their education level, race, and age.

Quarter III Supplements

- **Prescription Medicine.** Questions in this supplemental concern the experience of beneficiaries with filling prescriptions. Respondents are asked to describe their experiences filling prescriptions in military treatment facility pharmacies, TRICARE retail network pharmacies, non-network civilian pharmacies, and TRICARE mail order pharmacies.
- **TRICARE Civilian Network.** These supplemental questions provide information about respondents' experiences with the TRICARE civilian network. Questions concern the amount of care received, problems getting wanted care, convenience of care, and physician retention within the TRICARE civilian network.

Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on active duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days, and other special categories of people who qualify for benefits)
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members.

A stratified probability sample design was used to select DoD health care beneficiaries for the Quarter III 2003 Adult HCSDB. Strata were defined by a combination of enrollment status groups, and beneficiary groups, and geographic areas. Specific information on the sample design appears in "2003 Health Care Survey of DoD Beneficiaries: Quarters 1 and 2 2003 Adult Sample Design", Mathematica Policy Research, Washington, D.C.

From a sample of 45,000 beneficiaries, 11,400 adult MHS beneficiaries completed and returned a 2003 Adult HCSDB questionnaire for the third quarter during the period, yielding a response rate of 26 percent. Information on developing response rates can be found in the "2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual."

Other Documents on the 2003 HCSDB

This document is intended for programmers and analysts using the 2003 Adult HCSDB data. The following is a list of other documents that may be requested from the TRICARE Management Activity Office:

- 2003 Health Care Survey of DoD Beneficiaries: 2003 Adult Quarters 1 and 2 2003 Sampling Report
- The 2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual (available February 2004)
- The 2003 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report (available February 2004)

Chapter
2

Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

Variable Naming Conventions

The conventions used to name variables on the 2003 Adult HCSDB data file are listed below and summarized in Table 2.1. The naming conventions will remain constant across the four quarters of the 2003 HCSDB.

- **Survey Variables.** Core survey variable names consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("03") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the survey. The original variables are suffixed with "_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. The supplements in the third quarter contained questions relating to military pharmacies, military facilities, TRICARE's civilian network and briefings on TRICARE eligibility. Like the core questions, supplemental questions also include eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("03"). The variable ends with an alpha character and the question number in the supplemental series.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables N1-N22, reference the notes in the Coding Scheme for Adult Survey. See Appendix C for the Coding Scheme for Quarter III for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable SRSEX was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2010 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "W."

TABLE 2.1

NAMING CONVENTIONS FOR 2003 HCSDB VARIABLES – QUARTER III

1 st Character: Survey Type	2 nd – 3 rd Character S: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
H= Health Beneficiaries (18 and older, Adult Questionnaire)	03	001 to 082	A to O are used to label responses associated with a multiple response question _O denotes an original version of a recoded variable
S = Supplemental Question		----- Quarter III Y01-Y25 – Supplemental questions about beneficiaries' filling prescriptions V01-V07 – Supplemental questions about TRICARE's civilian network.	-----

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People</i> 2010 variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)

Cleaning and Editing Conventions

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme appears in Appendix C. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when NRC created the SAS dataset:
 - Skipped items were encoded with SAS missing value code of ‘.’.
 - Multiple responses, where there should be a single response, were encoded with SAS missing value ‘A’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in the 2003 Adult HCSDB Quarter III data file appear in Chapter 4 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

Record Selection Criteria

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database.

To determine if a questionnaire is “complete”, 26 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (fourteen or more) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H03006, H03008, H03009, H03010, H03011, H03012, H03014, H03015, H03017, H03018, H03019, H03022, H03023, H03025, H03026, H03027, H03029, H03036, H03038, H03043, H03045, H03050, H03052, H03072, SREDA, H03082.

Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2003 Adult HCSDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Sampling weights are equivalent to the reciprocal of the probability of each respondent’s selection into the sample. Sampling weights are further adjusted for nonresponse within classes defined by sampling strata: a cross-classification of enrollment status, geographic area, and beneficiary group. These nonresponse-adjusted weights are then ratio-adjusted to population counts from the DEERS files to compensate for variations from the estimated population counts. Chapter 4 contains the weighted and unweighted frequencies for each variable in the third quarter of 2003.

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

Chapter
3

Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the third quarter of data from the 2003 HCSDB.

How To Make a Table Using SAS

The 2003 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 6.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 6 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the adult dataset for Quarter III is located on a CD-ROM in the subdirectory HCSDB03\FORMA\Q3, your LIBNAME statement must look like this:

LIBNAME INFORMA 'F:\HCSDB03\FORMA\Q3';

The adult dataset can then be referred to as INFORMA.HCSDB03, where INFORMA is the location of the file HCSDB03.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

LIBNAME LIBRARY 'C:\HCSDB03\FORMA\Q3\FMTLIB';

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

OPTIONS PS=79 LS=132;

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

OPTIONS PS=50 LS=175 NOCENTER;

DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of active duty by sex:

```
/* Active duty males */
IF XSEXA = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;
* Active duty females;
ELSE IF XSEXA = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /* */ or beginning with * and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION CACSMPL H03056 H03014;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only region 3 observations */
IF XREGION = 3;
```

- Create a new temporary dataset. For example, CAC_1 is a temporary file of observations for only those respondents in catchment area 1:

```
LIBNAME INFORMA 'F:\HCSDB03\FORMA';
DATA CAC_1;
/* Input file is HCSDB03 */
SET INFORMA.HCSDB03;
IF CACSMPL = 1;
RUN;
```

- Create a new permanent dataset. For example, OUT.CAC_9901 is a permanent dataset only of Region 1 out-of-catchment respondents:

```
LIBNAME INFORMA 'F:\HCSDB03\FORMA';
LIBNAME OUT 'C:\HCSDB03\FORMA';
DATA OUT.CAC_9901;
SET INFORMA.HCSDB03;
IF CACSMPL = 9901;
RUN;
```

PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;
  CLASS class variables;
  VAR analysis variables;
  TABLE << page expression, > row expression, > column expression </ table options >;
  WEIGHT WRWT;
  RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in catchment area 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE CACSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XREGION, XSEXA, and CACSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE state, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each analysis variable. In the HCSDB for 2003, the weight variable is WRWT.

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

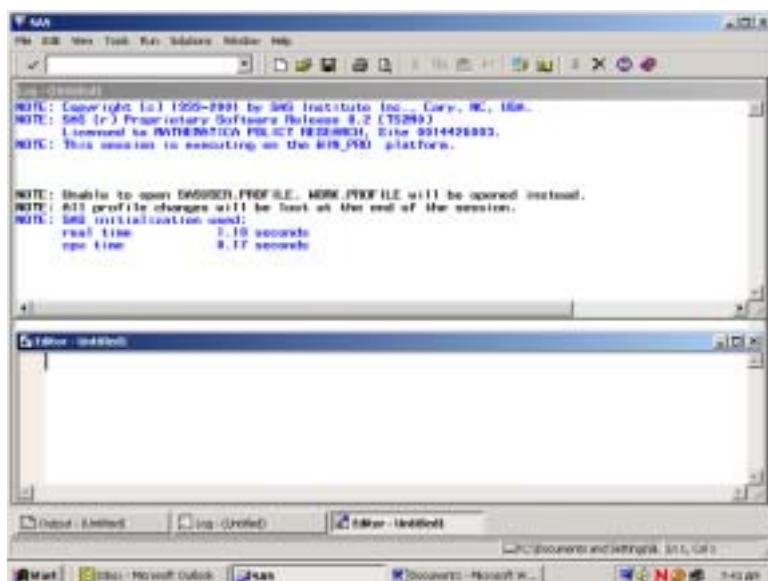

- Analysis variables

- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form ='*label*'; for example, XREGION='Region' or MEAN=' ' (to eliminate the word MEAN from the headings).
- Crossing operator * (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H03036 *MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H03036 H03052.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

(XBNFGRP ALL)*XSEXA

The SAS Display Manager System

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 8, the following screen opens.

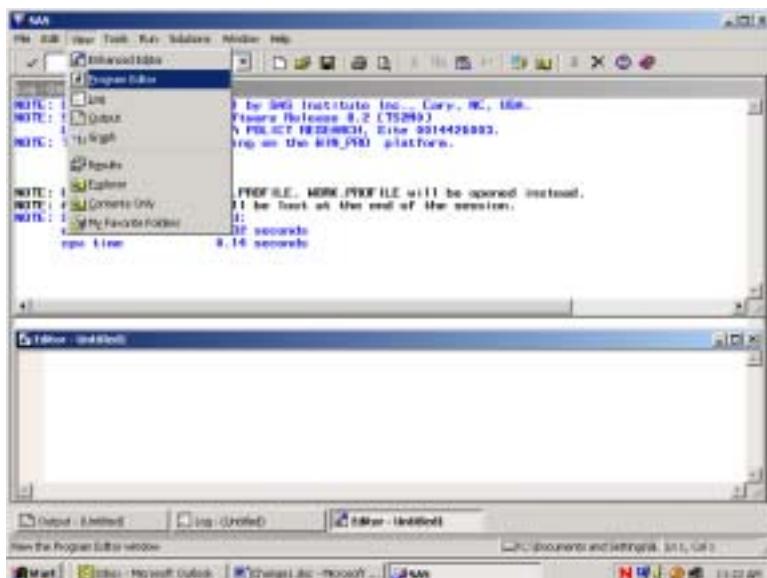

The screen is divided into two windows, a Log window above and an Editor window below.

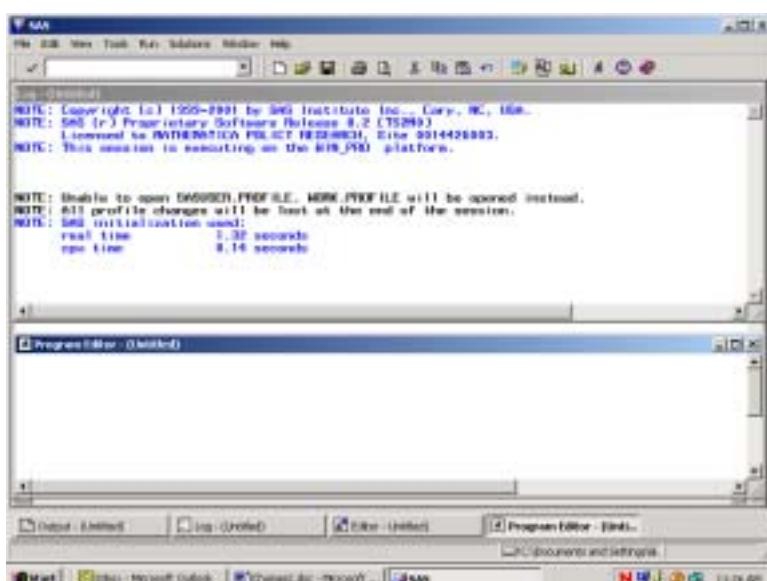

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 8 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

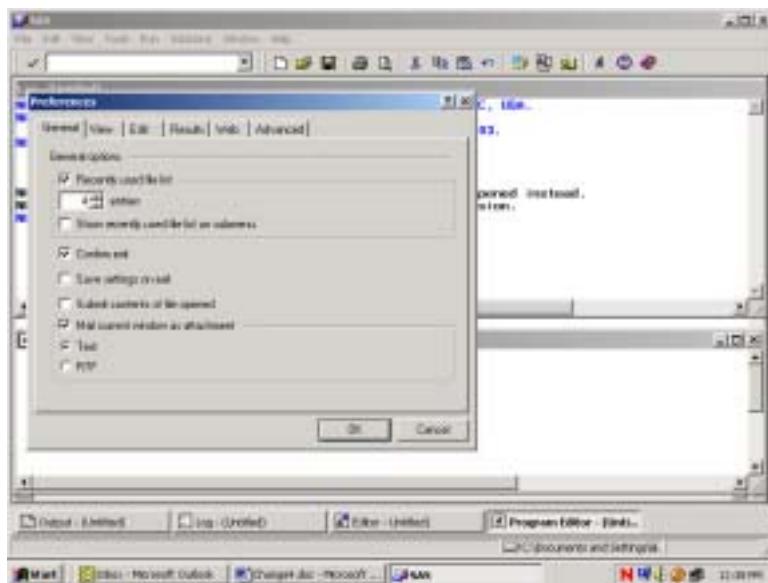

Click on View and select Program Editor as in the following:

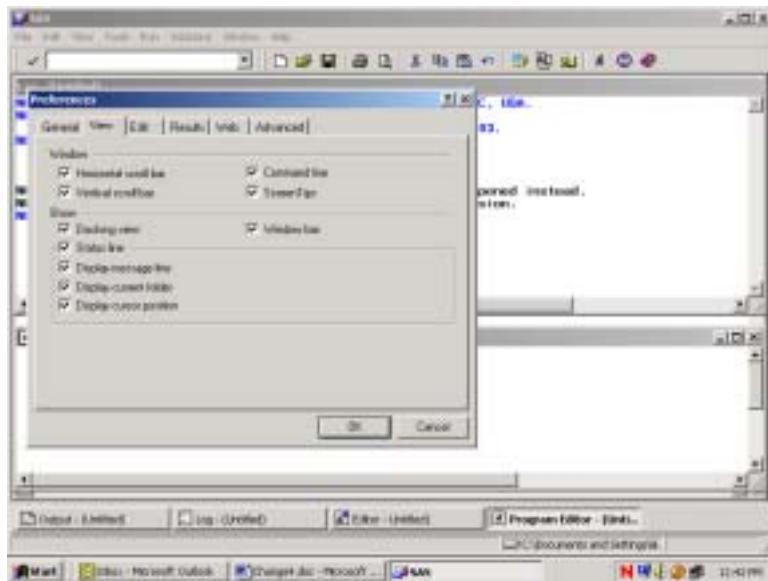

The lower Editor Window has now changed to Program Editor as in the following screen:

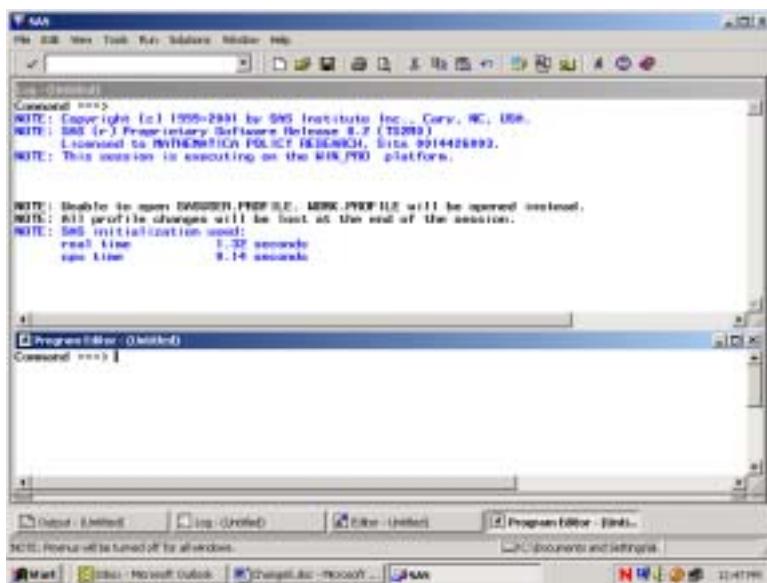

Open the Tools menu and choose Options and preferences.

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

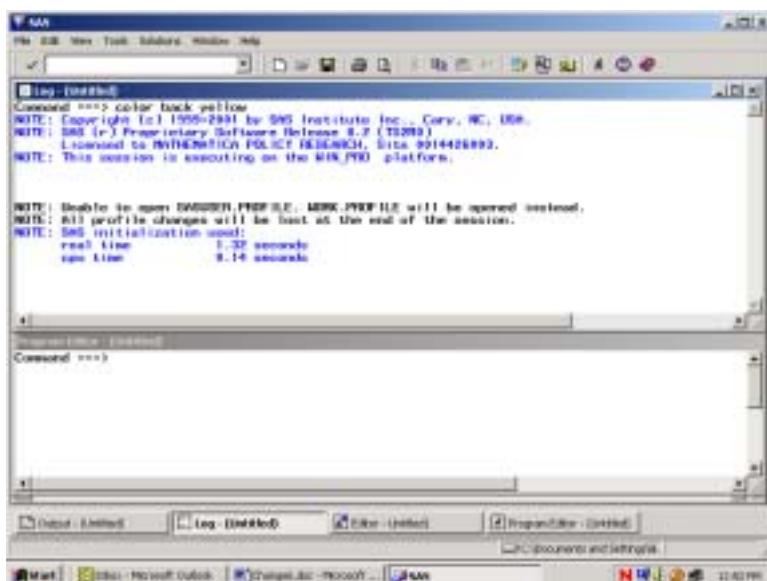

Click on OK and a command line will be added as in the screen below.

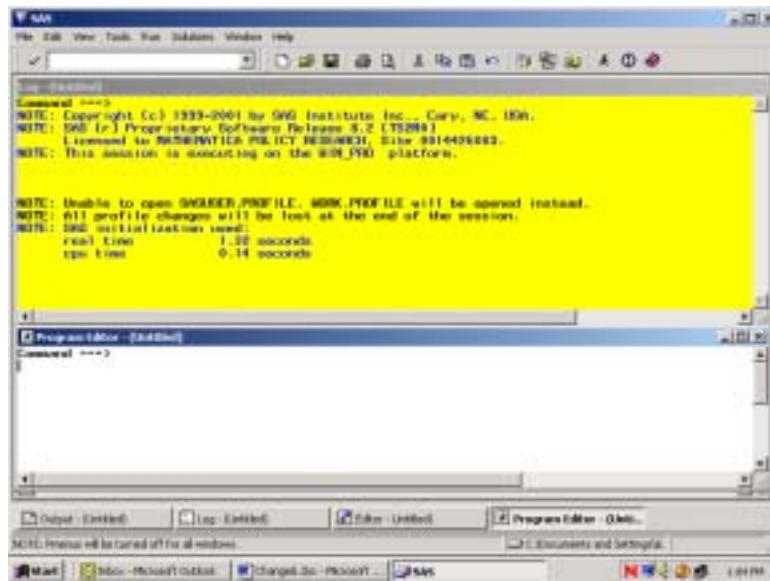

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

Toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allows you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

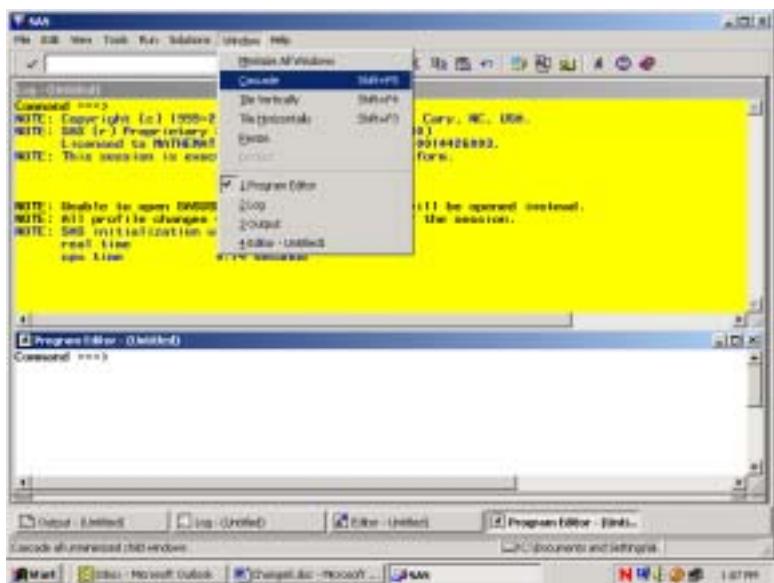

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

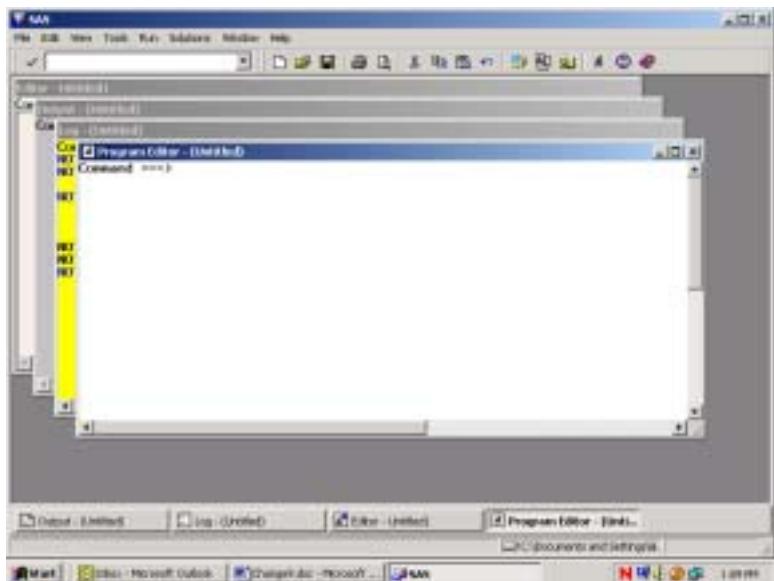

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

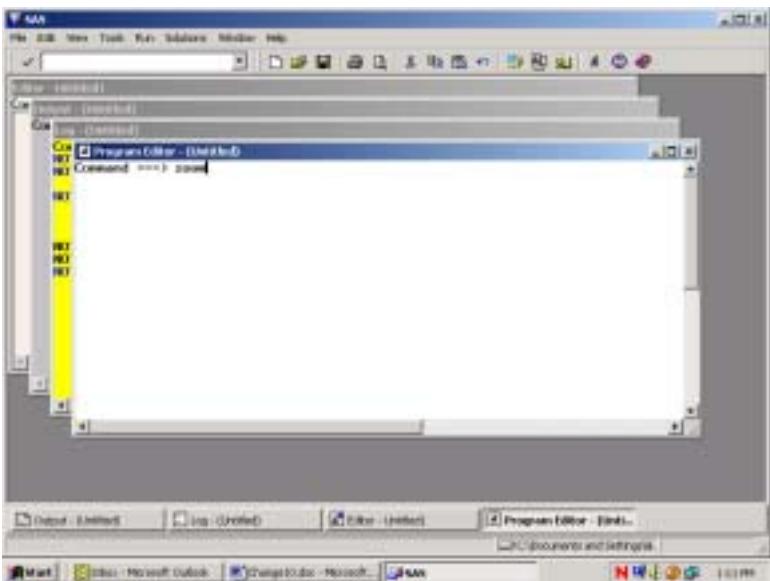

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option Cascade produces the following result.

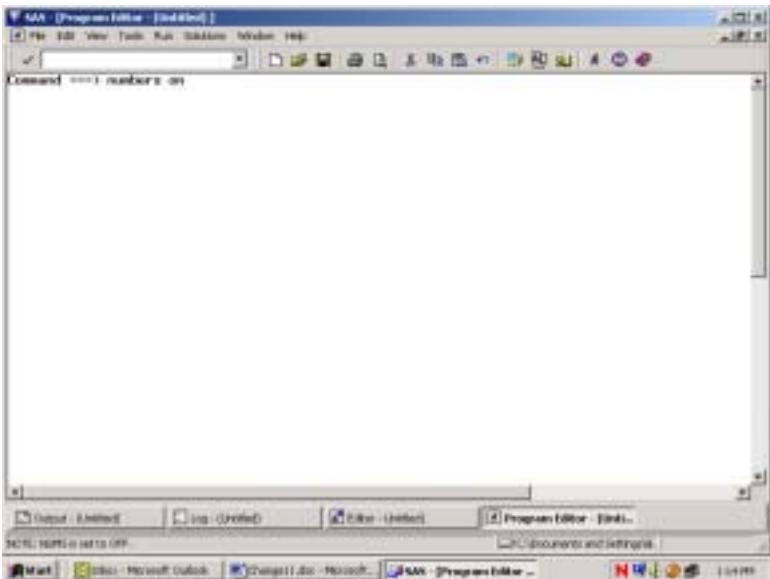

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

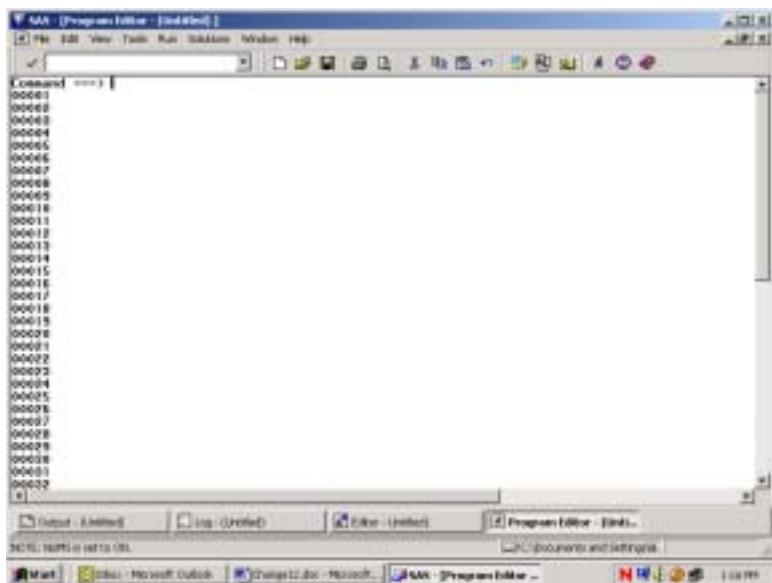

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). At the **Command** line type "numbers on" as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

Below is an example of a PROC TABULATE to construct a table of health care variables by beneficiary group by gender for respondents in region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The health care variables (H03052 and H03072) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

```
OPTIONS PS=79 LS=95;  
LIBNAME IN 'C:\FILES\DoD\ADULT 2003';  
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2003\FMTLIB';  
PROC TABULATE DATA=IN.HCS033_1;  
WHERE XREGION = 3; /* limit to Region 3 */  
CLASS XBNFGRP XSEXA;  
VAR H03052 H03072;  
WEIGHT CRWT;  
TABLE (H03052 H03072)*MEAN, /* Row Dimension */  
      XBNFGRP*(XSEXA ALL) ALL; /* Column Dimension */  
TITLE "Table III-1";  
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';  
RUN;
```

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

The screenshot shows the SAS Program Editor window. The code in the editor is as follows:

```
Comand ----> SUBMIT  
00001 OPTIONS PS=2 LS=95;  
00002 LIBNAME DH 'C:\FILESD\DOB\ADULT_2003';  
00003 LIBNAME LIBRARY 'C:\FILESD\DOB\ADULT_2003\FTL10';  
00004 PROC TABULATE DATA=IN.HEAD3.;  
00005 WHERE X06L010N = 2; /* LIMIT TO REGION 3 */  
00006 CLASS X08P09P X08D09;  
00007 VAR X03P02 X03P07;  
00008 TITLE1 'TABLE 1: HOUSEHOLD24MEAN /* ROW DIMENSION */'  
00009 'SUMMARY=MEAN ALL; ALL; /* COLUMN DIMENSION */'  
00010 TITLE2 'TITLE 111.1';  
00011 TITLE2 'CONSTRUCTED BENEFICIARY GROUP BY GENDER FOR REGION 3';  
00012 FMT;  
00013  
00014  
00015  
00016  
00017  
00018  
00019  
00020  
00021  
00022  
00023  
00024  
00025  
00026  
00027  
00028  
00029  
00030  
00031  
00032
```

Enter the Submit command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

The screenshot shows the SAS Log window. The log output is as follows:

```
Comand ---->

```

You can correct the error by entering WRWT, the correct variable name, in the weight statement. Then, rerunning the procedure.

The corrected program produces the following output.

		Constructed Beneficiary Group					
		Active Duty (ES)			Family of Active (ES)		
		Male or Female = R		Male or Female = R		Male or Female = R	
Housing of self or spouse related with health question	None	Male	Female	All	Male	Female	
In general, how would you rate overall health	None	6.09	7.04	6.93	6.39	7.51	
		3.81	3.81	3.81	3.86	3.86	

(Continued)

SAS Output Window: Title: TABLE III.1 12:41 Friday, October 31, 2003
Content: Constructed Beneficiary Group table for Active Duty (ES) and Family of Active (ES) groups, comparing Male and Female responses for various health-related questions.

The result of this process is Table III.1.

Note that the TITLE statement defines the heading for each page. Titles of more than one line are entered as TITLE, TITLE2, etc.

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2003\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is active duty; if XBNFGRP equals 2, the respondent is a family member of active duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

```
FORMAT _ALL_;
```

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table III.1, the values of the statistics are of the form x.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space plus some extra room to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

MEAN*F=6.2

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP are active duty, family members of active duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

XBNFGRP=' '

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

MEAN=' *F=6.2

The headings for XSEXA and ALL can be improved:

XSEXA='Gender'

ALL='Group Total' for the ALL that is crossed with XBNFGRP

ALL='Total' for the Region 3 total

Table III.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group				
		Active Duty <65			Family of Active <65	
		Male or Female - R		All	Male or Female - R	
		Male	Female		Male	Female
Rating of all experience with hlth plan	Mean	6.89	7.04	6.93	6.99	7.51
In gnrl, how would you rate ovrall hlth	Mean	3.81	3.81	3.81	3.86	3.85

(Continued)

Table III.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group					
		Family of Active <65	Ret/Surv/Fam <65			All	
			Male or Female - R		Male		
			All	Male			
Rating of all experience with hlth plan	Mean	7.48	7.12	7.78	7.49	8.73	
In gnrl, how would you rate ovrall hlth	Mean	3.85	3.43	3.28	3.34	3.05	

(Continued)

Table III.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group		
		Ret/Surv/Fam 65+		
		Male or Female - R		
		Female	All	All
Rating of all experience with hlth plan	Mean			
		8.77	8.75	7.70
In gnrl, how would you rate ovrrall hlth	Mean			
		3.09	3.07	3.43

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2003';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2003\FMTLIB';
PROC TABULATE DATA=IN.HCS033_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H03052 H03072;
WEIGHT WRWT;
TABLE (H03052 H03072)*MEAN= /*F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP= /*(XSEXA='Gender' ALL='Group Total')
ALL='Total';

TITLE "Table III.2";
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Typing these statements into the Program Window produces the following screen.

```
/*SAS - [Program Editor - TBLIII2.sas]*/
File Edit View Tools Run Sources Window Help
Command ----> SUBMIT
***** OPTIONS PS=27 LS=95;
***** LIBNAME DH 'C:\FILES\DOB\ADULT 2003';
***** LIBNAME LIBRARY 'C:\FILES\2003\ADULT 2003\FRTLIB';
***** PROC TABULATE DATA=DH(KEEP=1);
***** WHERE X001010N = 3; /* LIMIT TO REGION 3 */
***** CLASS X00104P X00201;
***** VAR X00202 X00203;
***** DEF1010N;
***** TABLE 1 HAVING X00202*X00104P /* BY X001010N */;
***** /COLUMNS X00104P=1 X00202=1 X001010N=1 GROUP TOTAL 3
***** ALL=1 TOTAL;
***** TITLE "TABLE III.2";
***** TITLE2 "CONSTRUCTED BENEFICIARY GROUP BY GENDER FOR REGION 3";
***** RUN;
```

After the **Submit** command is entered, the following table is displayed in the Output window.

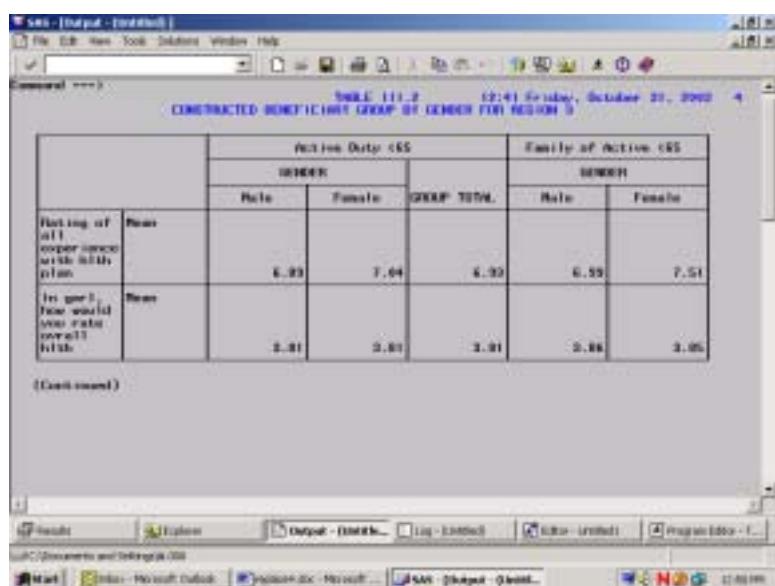

TABLE III.2 2003 Survey, October 20, 2002

CONSTRUCTED BENEFICIARY GROUP BY GENDER FOR REGION 3

		Active Duty (ES)			Family of Active (ES)	
		GENDER		GENDER		
		Male	Female	GROUP TOTAL	Male	Female
Having all copper coated wire with plan	Males	6.23	7.64	6.30	6.55	7.51
In general how would you rate your health	Females	2.81	2.81	2.81	2.88	2.85

(Continued)

The resulting output is in Table III.2.

Table III.2

Table III.2
Constructed Beneficiary Group by Gender for Region 3

	Ret/Surv/Fam 65+			Total	
	Gender		Group		
	Male	Female			
Rating of all experience with hlth plan	8.73	8.77	8.75	7.70	
In gnrl, how would you rate ovrall hlth	3.05	3.09	3.07	3.43	

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

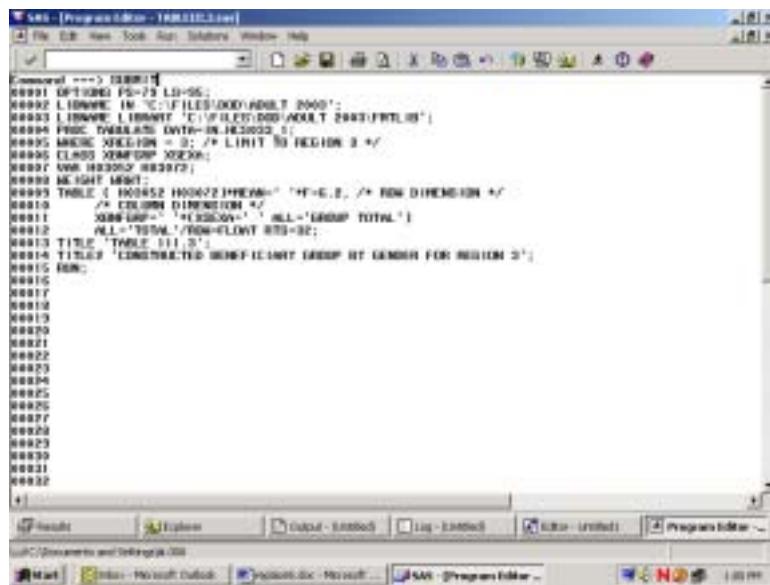

```

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2003';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2003\FMTLIB';
PROC TABULATE DATA=IN.HCS033_1;

```

```
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H03052 H03072;
WEIGHT WRWT;
TABLE (H03052 H03072)*MEAN='**F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP='*(XSEXA=' ALL='Group Total')
ALL='Total' / ROW=FLOAT RTS=32;
Title "Table III.3";
TITLE2' Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Typed into the Program Window, the revised program appears as follows.

The output table is displayed in the Output Window as follows.

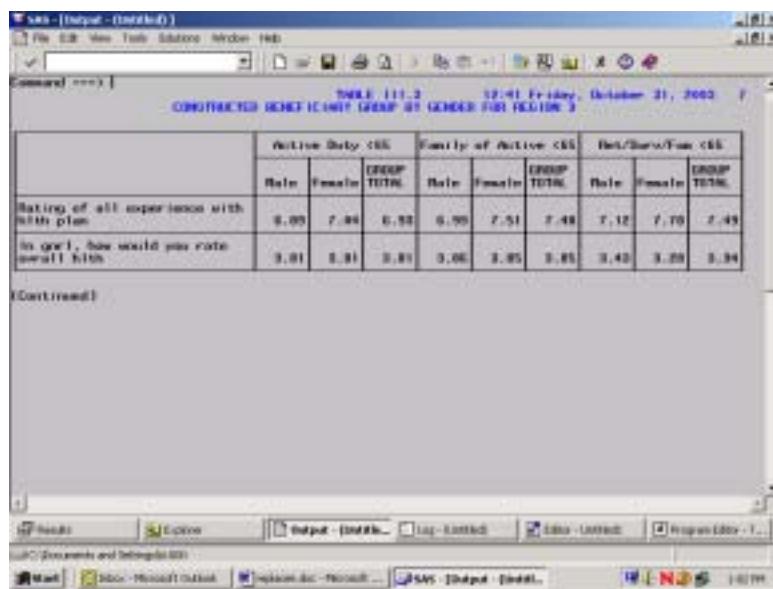

TABLE III.3 12:41 Friday, October 31, 2003
CONSTRUCTED BENEFICIARY GROUP BY GENDER FOR REGION 3

	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65		
	Male	Female	Group Total	Male	Female	Group Total	Male	Female	Group Total
Rating of all experience with hlt plan	6.89	7.04	6.93	6.99	7.51	7.48	7.12	7.78	7.49
In gnrl, how would you rate ovrall hlt	3.81	3.81	3.81	3.86	3.85	3.85	3.43	3.28	3.34

(Continued)

The result is Table III.3.

In gnrl, how would you rate ovrall hlt	3.34	3.05	3.09	3.07	3.43	

Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all *class* variables that define the *row*. For example, if you want to look at the percentage of people in your region and each of the catchment areas who answered yes (or no) to question 14, ‘In the last 12 months, did you see a specialist?’, your TABLE statement in the TABULATE procedure would look like this:

```
WHERE XREGION = 6;  
  
TABLE H03014 ALL='Total',  
  
(All='Region Total' CACSMPL)*PCTN<H03014 ALL>='Percent';
```

Table III.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

The screenshot shows the SAS Program Editor window with the following code:

```
/*-----3-----*/  
LIBNAME PS 'C:\FILES\0001\ADULT_2003';  
LIBNAME L 'C:\FILES\0001\ADULT_2003';  
PROC FORMAT;  
  PCTN100=VALUE H03014;  
  WHERE XREGION = 6; /* LIMIT TO REGION 6 */  
CLASS H03014 CACSMPL;  
WEIGHT WTNT;  
TABLE H03014 ALL='Total',  
      (ALL='REGION TOTAL' CACSMPL='1')  
      (H='1' W='5.2' PCTN100 H03014 ALL='1' H='6.2')  
      /HTD=25;  
TITLE 'TABLE III.4';  
TITLE2 'PEOPLE WHO SAW A SPECIALIST IN THE LAST 12 MONTHS';  
TITLE3 'FOR REGION 6 CATCHMENT AREAS';  
RUN;
```

The submitted statements produce the following output.

	REGION TOTAL		Little Rock AFB		Barksdale AFB		Ft. Polk		Tinker AFB	
	#	%	#	%	#	%	#	%	#	%
<i>In 1st yr:did you see a specialist</i>

Total	55	100.00	127	100.00	123	100.00	72	100.00	57	100.00

(Continued)

Table III.4
People Who Saw a Specialist in the Last 12 Months
for Region 6 Catchment Areas

	Lackland AFB		NH Corpus Christi		Randolph AFB		Out/Area-Reg 6	
	#	%	#	%	#	%	#	%
In 1st yr: did you see a specialist								
Yes	55	53.40	37	43.53	47	53.41	180	61.86
No	48	46.60	48	56.47	41	46.59	111	38.14
Total	103	100.00	85	100.00	88	100.00	291	100.00

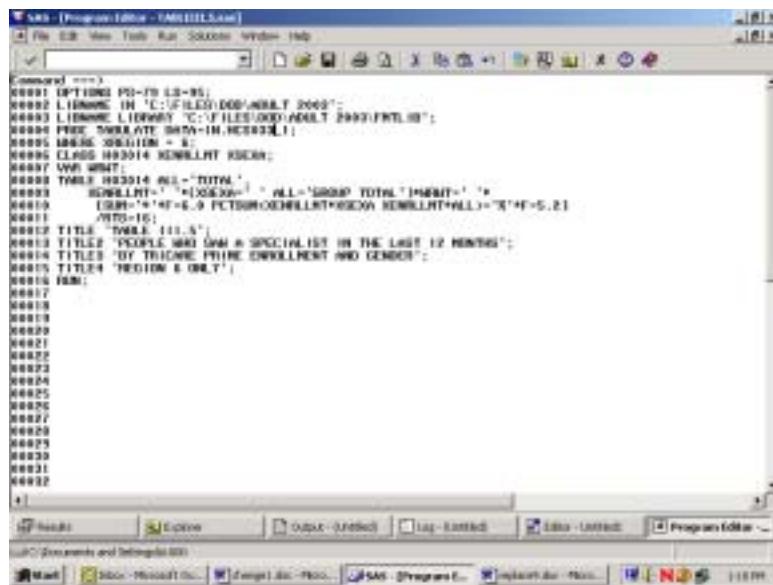

The statistic N is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table III.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report seeing a specialist in the past 12 months, this would be a row percentage. To calculate a row percentage, the denominator definition must include all *class* variables that define the *column*. Your TABLE statement would look like this:

**TABLE H03014 ALL='Total',
XENRLLMT *(XSEXA= ' All='Group Total')*
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';**

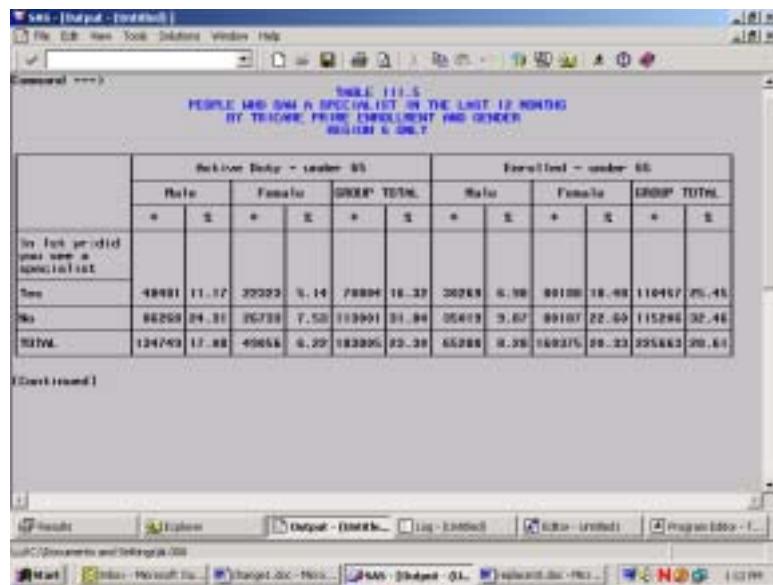

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include WRWT (the 2003 weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table III.5.

The following screen shows the new program typed into the Program Editor.

```

How to Make a Table Using SPSS

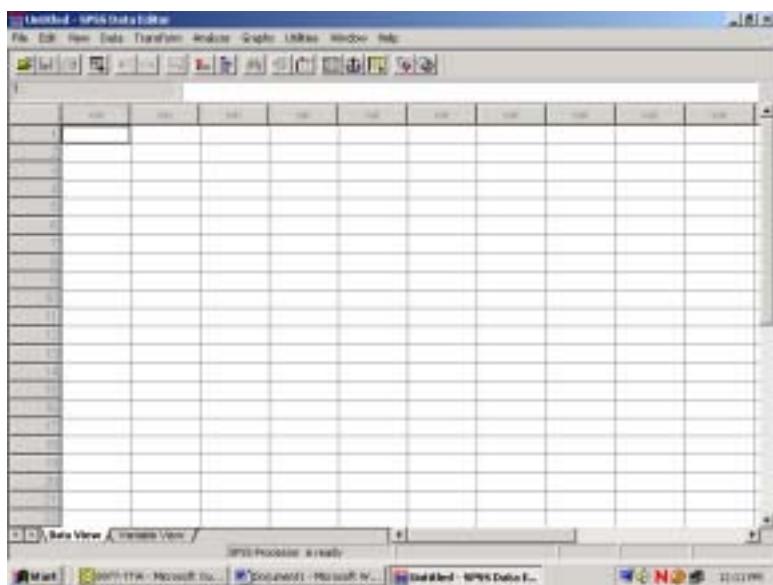

The 2003 Adult HCSDB dataset is in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

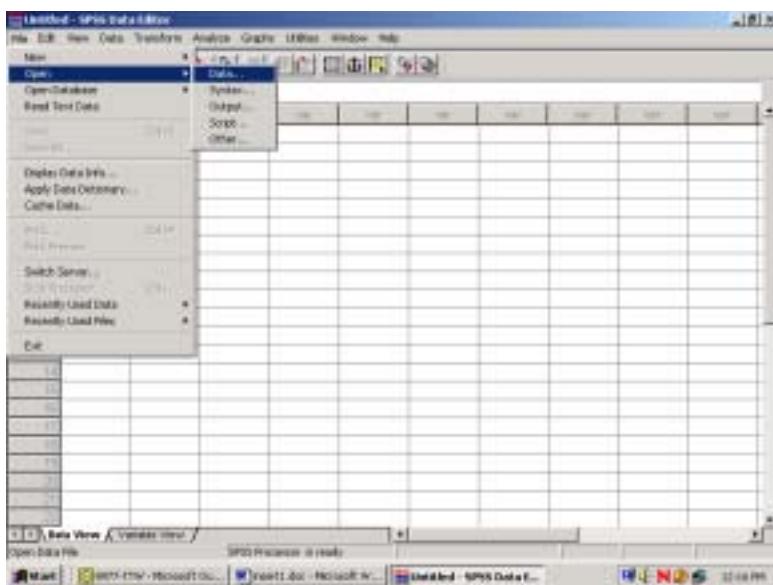

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

Locating and opening the data file

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a blank spreadsheet like the following screen:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The 2003 Adult HCSDB dataset has been opened and is displayed below.

	ingrid	sexcempt	xsexcempt	xfitstatus	xfitcompl	xfitgroupid	xfitcompt	shift	semesters	quarter	duelink

Constructing new variables

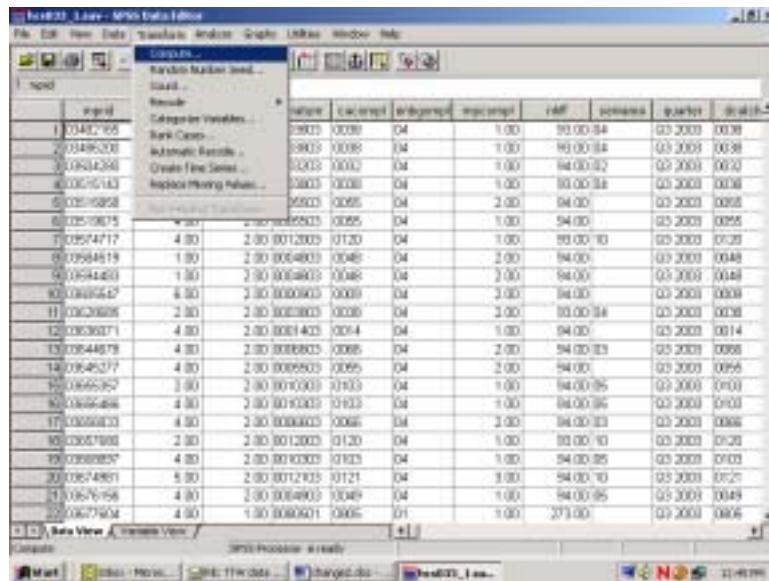

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

For example, the variable in the file for beneficiary group at the time of sampling is called xbnfgrp, and the variable for sex is xsexa. The value 1 for xbnfgrp indicates that the individual is on active duty. The relationships for constructing a new variable of active duty by sex are:

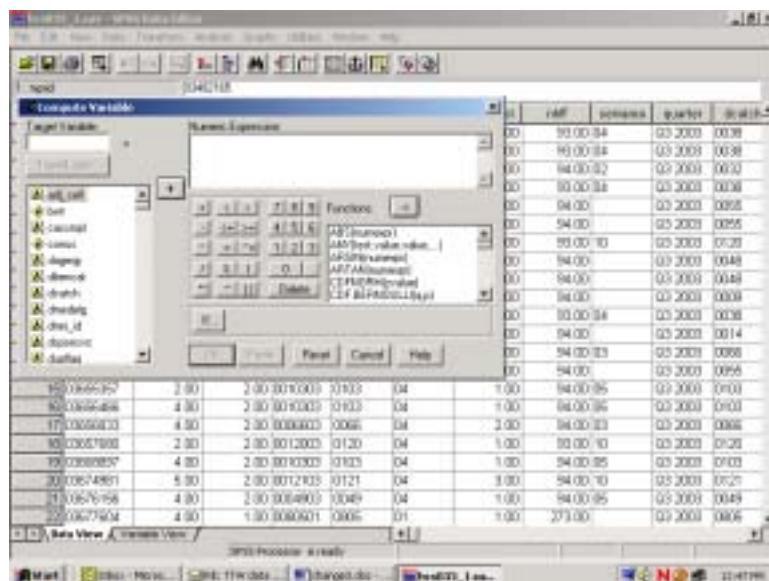

Active-duty-males: $xsexa=1$ and $XBNFGRP=1$

Active-duty-females: ***xsex=2 and XBNFGRP=1***

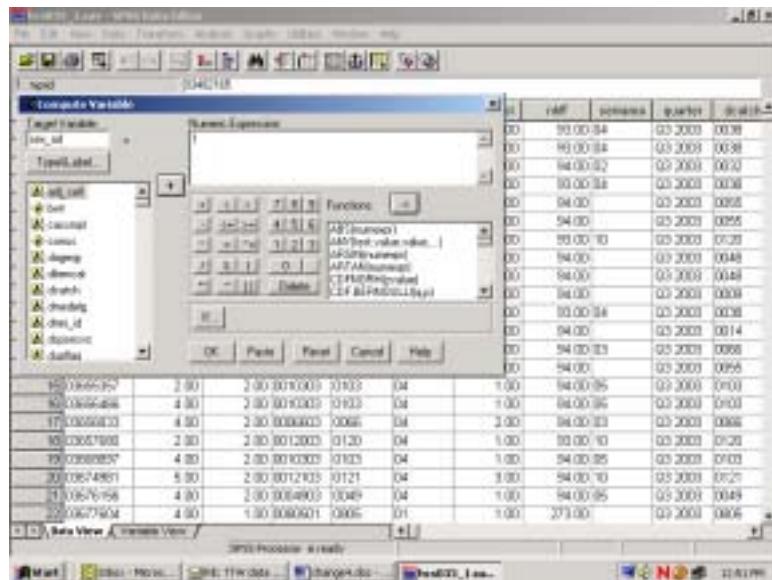

Open the Transform menu and select Compute as in the following:

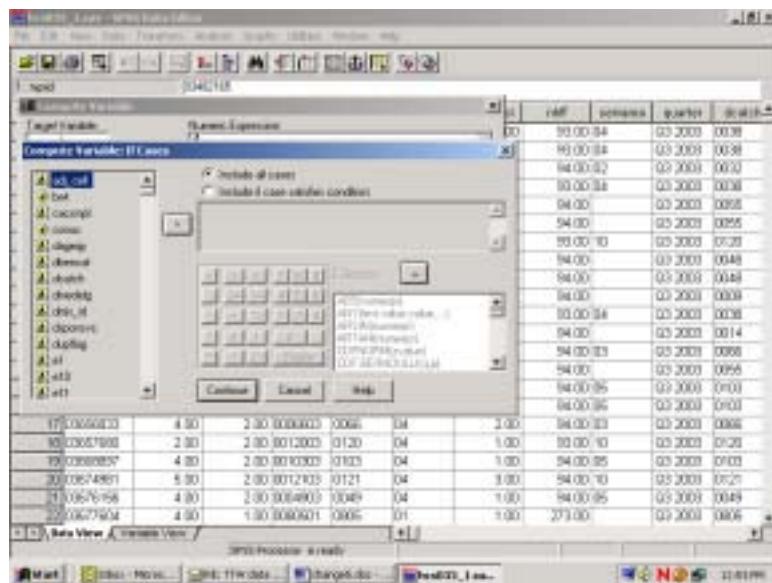

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable sex_ad. Next, assign the value 1 to sex_ad by entering it into the slot for Numeric Expression. Your screen should look like the following:

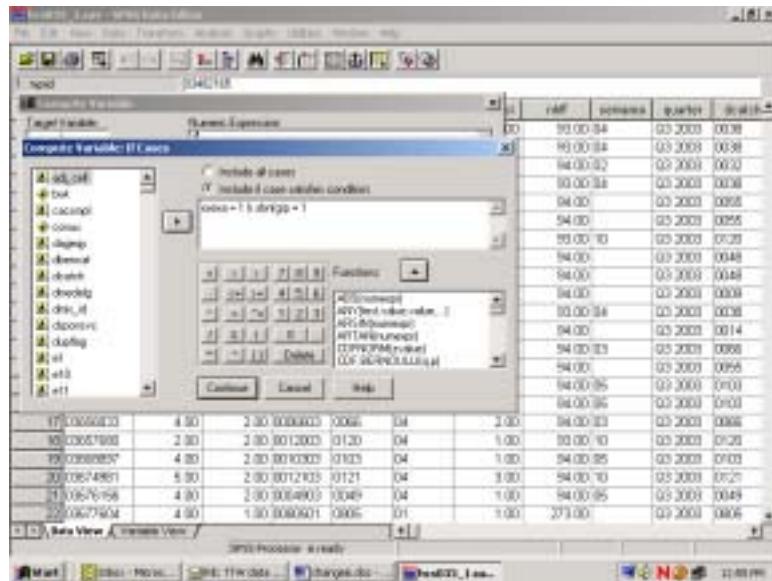

Once you we have assigned the value 1 to sex_ad, you can build the condition that qualifies the assignment. Click on If..and open the following dialog box:

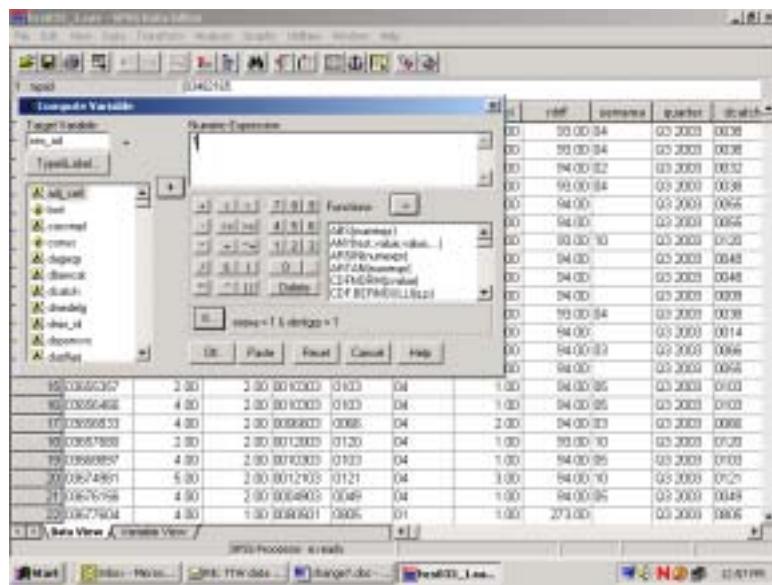

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the “if” condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements xsexa = 1 & xbnfgrp = 1.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable sex_ad will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply

assign the value 2 to `sex_ad`, press If, and enter the new condition to identify active duty females. Click Continue, and finish with OK. The condition, if `xsexa = 2` and `xbnfgrp = 1`, will be added to the new variable `sex_ad`.

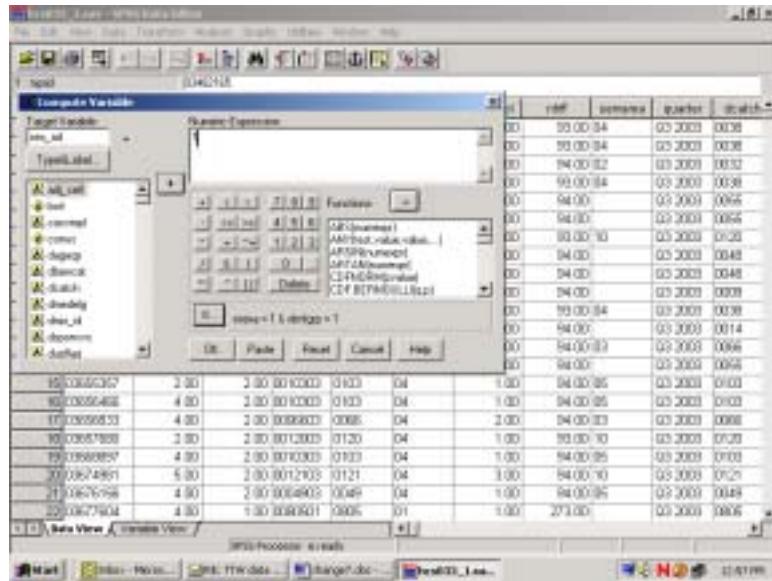

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

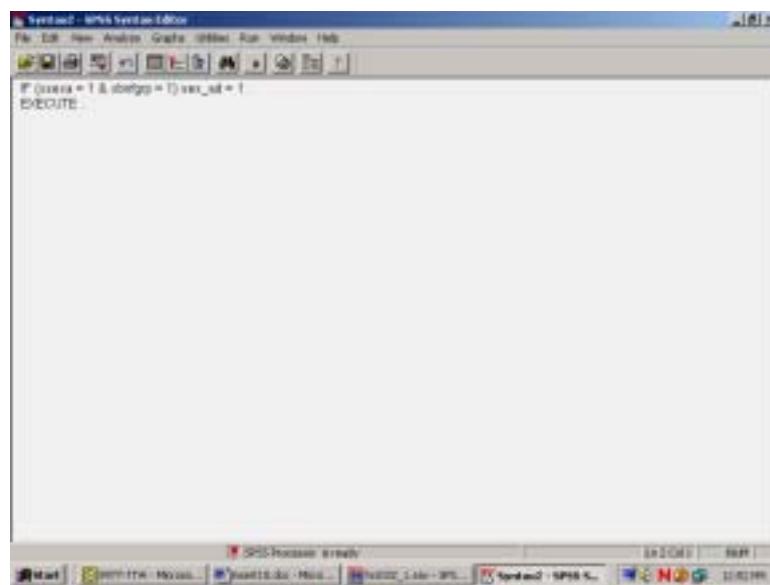

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

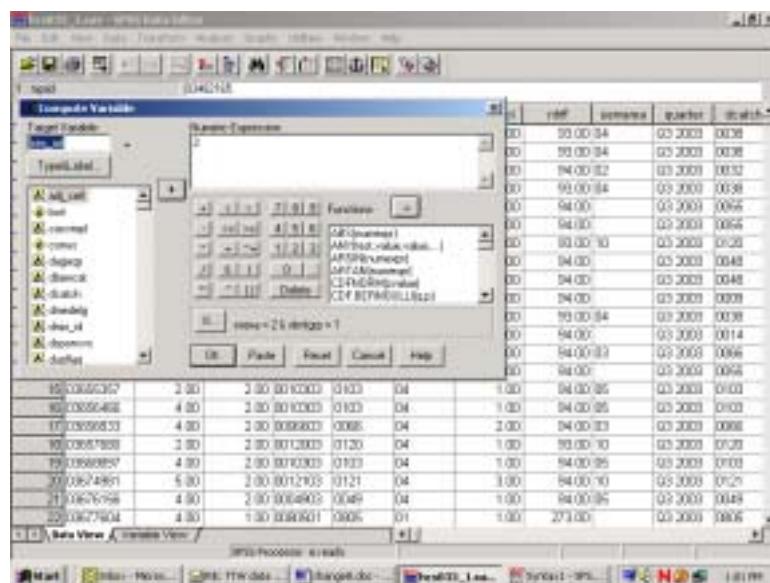

Recall the compute example for the new variable `sex_ad`. The screen below is the result of assigning 1 to `sex_ad` according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

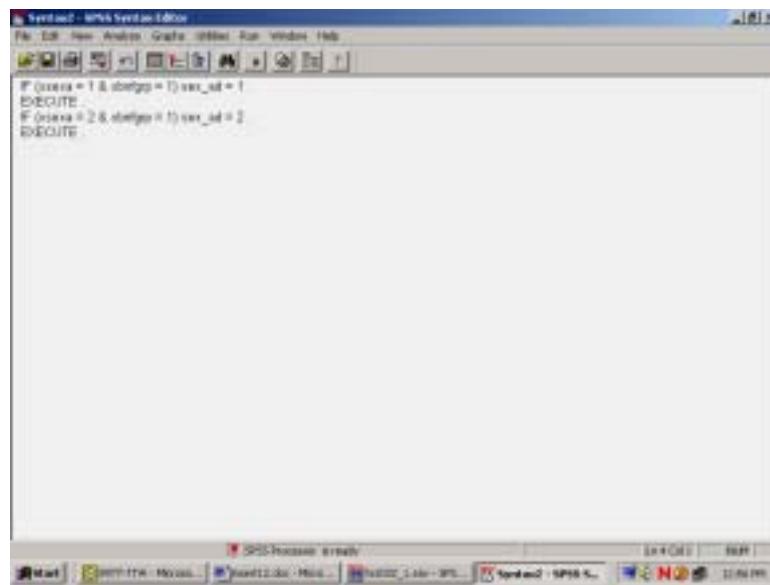

Click on the Paste button, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex_ad** as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **DAGEQY**, which exists on our dataset. **DAGEQY** is coded in years from 18 to 104, which can be grouped into four age categories:

- 18 to 34 = 1 - label: "young adult"
- 35 to 49 = 2 - label: "mature adult"
- 50 to 65 = 3 – label: "middle-age"
- 66 to 104 = 4 – label: "senior citizen"

The new variable is called **age_grp**.

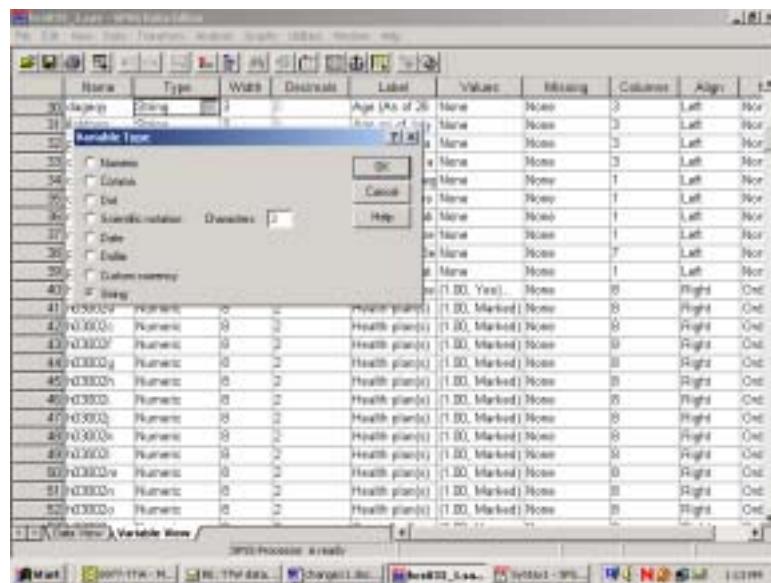

DAGEQY is a string variable. In order for it to be recoded using grouping criteria, it must be converted to a numeric variable. In the data window go to the column for the variable **DAGEQY** and click in the gray area at the top of the column causing the variable to be selected as the following screen indicates.

Click on the Variable View tab at the Lower Left of your screen and the screen will change to the following:

Name	Type	Width	Decimals	Label	Values	Missing	Columns	Align	Type
30_dagen	String	3		Age (As of 26)	None	None	3	Left	Not
31_dagej	String	3		Age as of July	None	None	3	Left	Not

50_i03002w	Number	10	2	Health plan(s)	(1,00, Marked)	None	8	Right	Not
51_i03002t	Number	10	2	Health plan(s)	(1,00, Marked)	None	8	Right	Not
52_i03003z	Number	10	2	Health plan(s)	(1,00, Marked)	None	8	Right	Not

In the Type column click on the gray square and the following Menu will open.

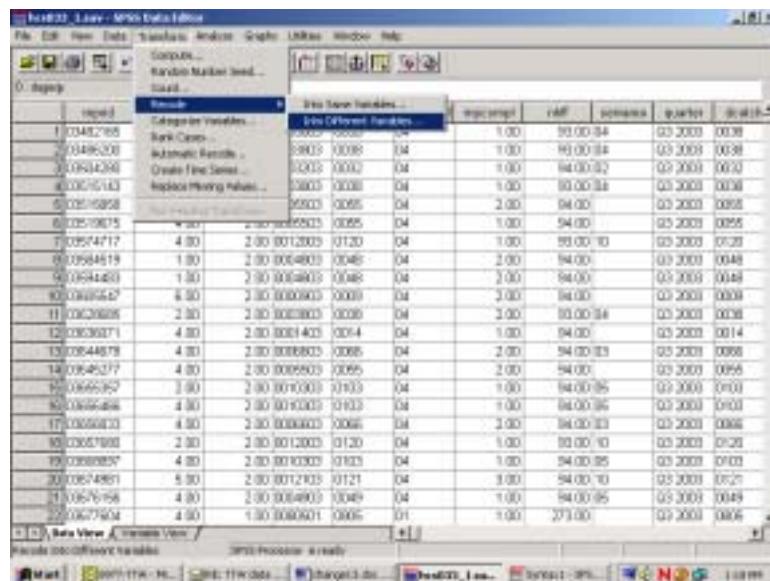

Transfer the black dot from String to Numeric as follows:

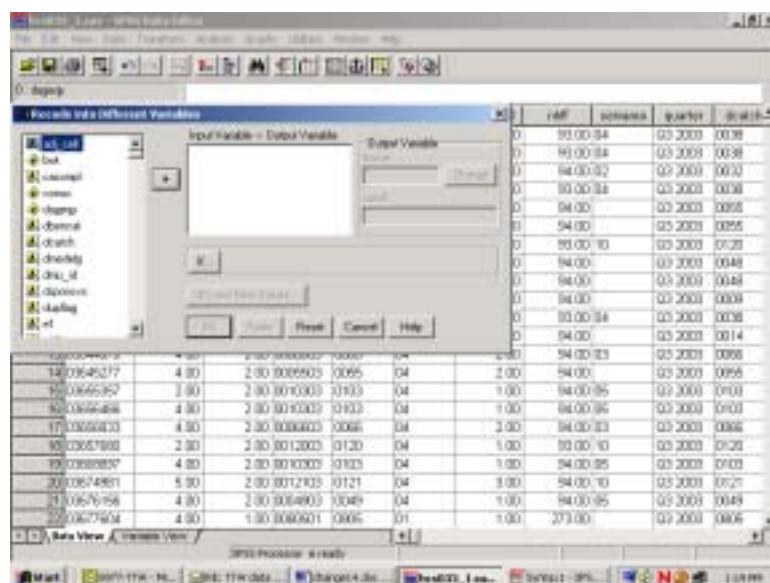

Click on Continue to set the changes. Click on the Data View tab to return to the Data Editor window.

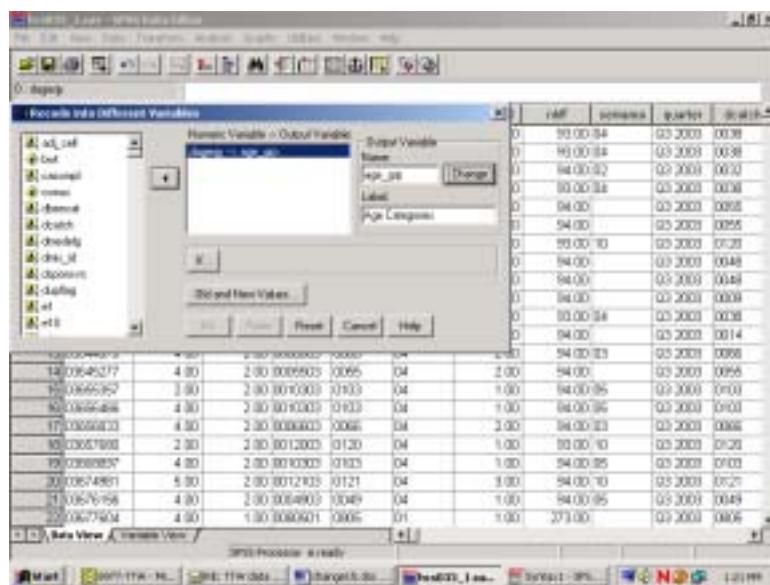

Now from the **Transform** menu, choose **Recode** and **Into Different Variables** as pictured below:

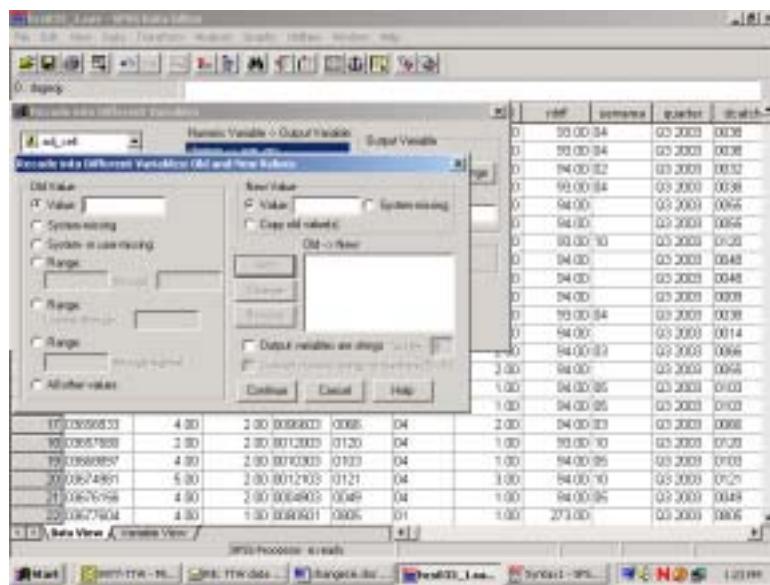

The following dialog box will open:

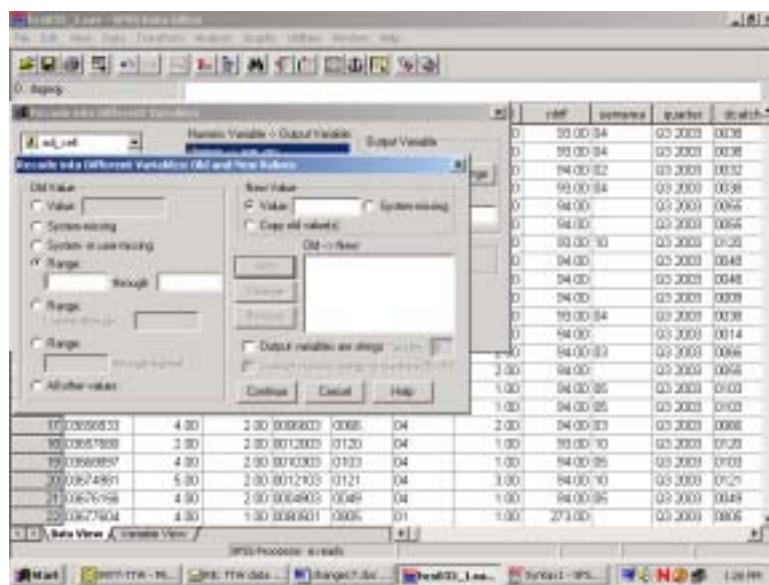

Move **DAGEQY** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

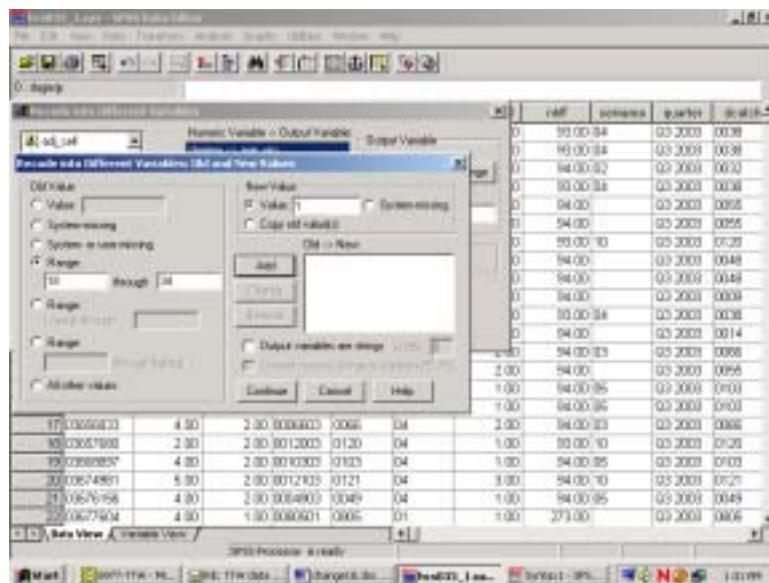

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

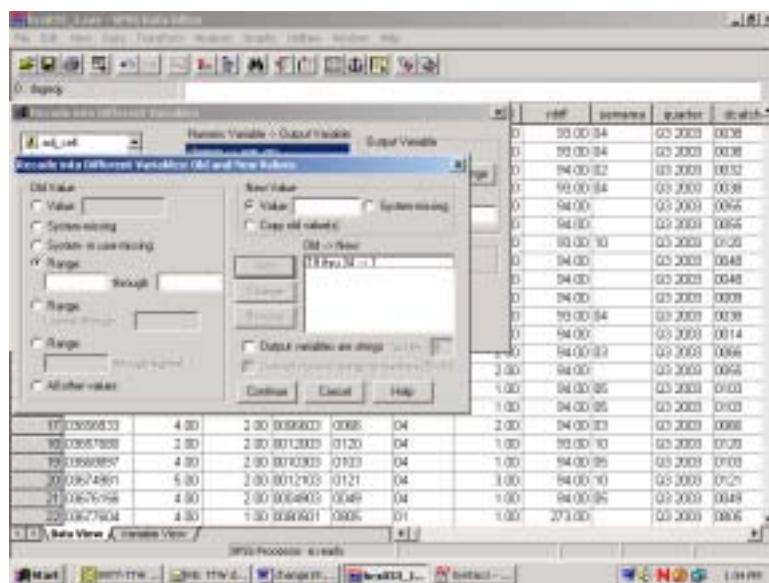

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 through 34 in the slots provided under **Range**. Next, enter the value **1** in the **Value** slot under **New Value**. **Add** is now illuminated.

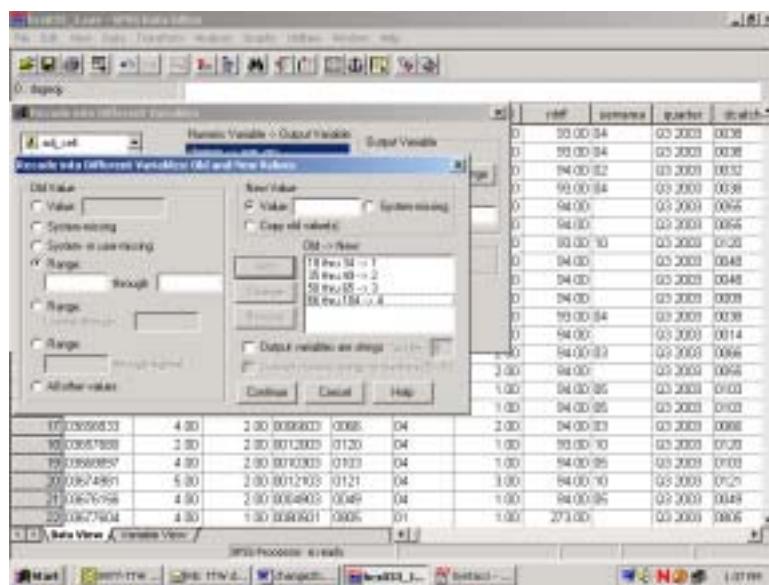

Clicking on Add produces the following result:

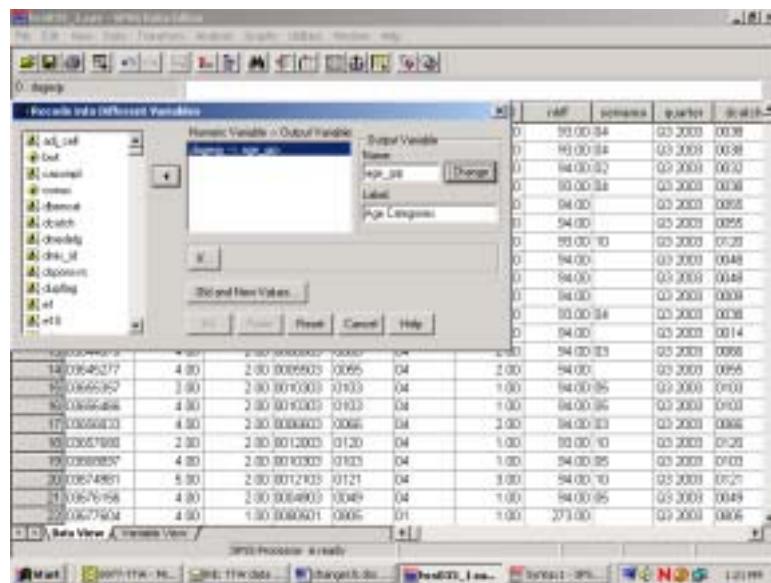

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

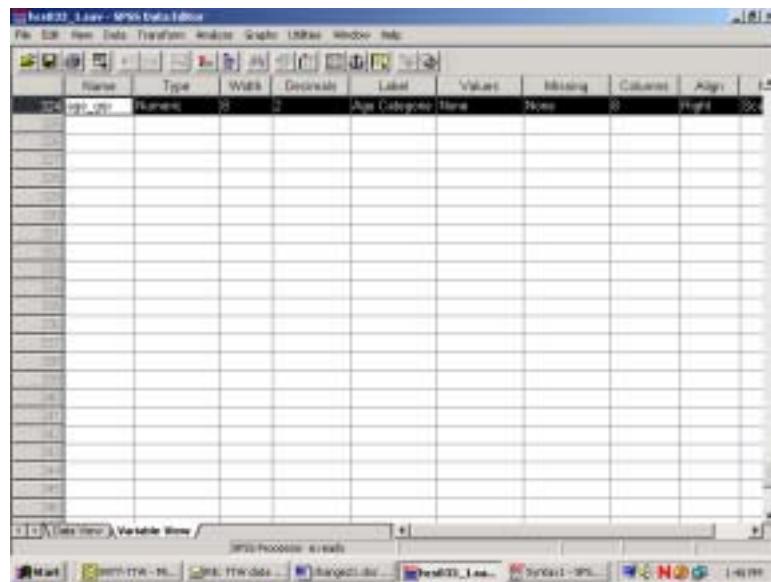

Click on Continue and return to the previous screen.

Click on **OK** to exit the screen. The new variable **age_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

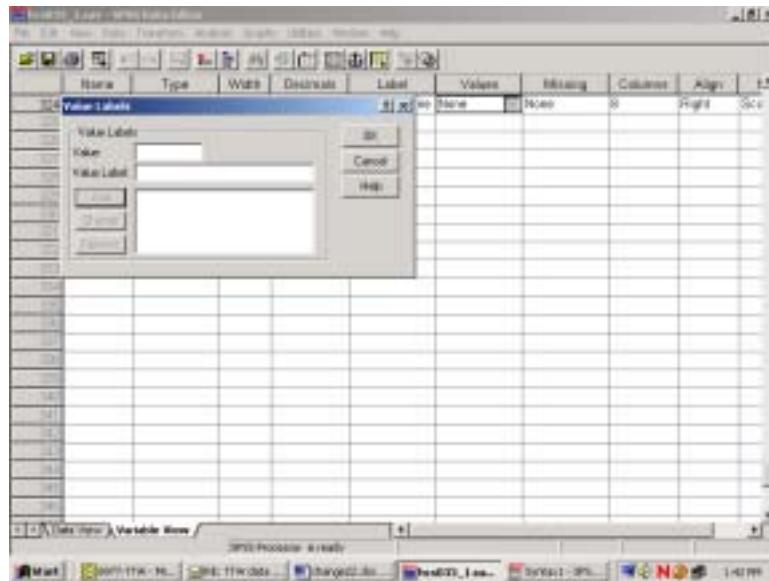

The final task is to create the value labels for the new variable **age_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

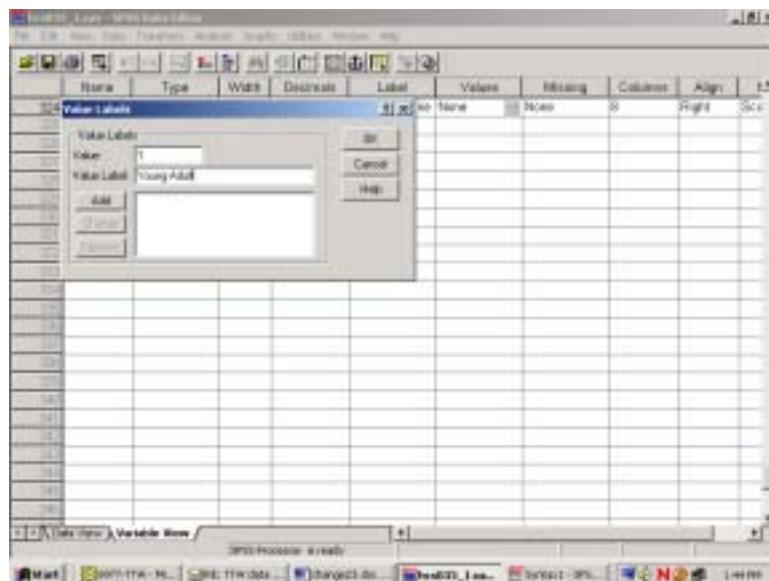

The variable **age_grp** is shown with its attributes.

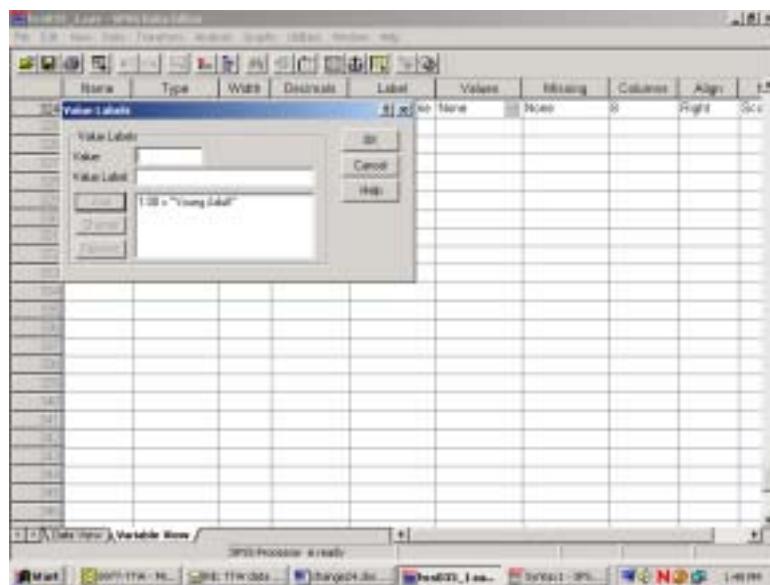

Click in the cell under **Values** and the following dialog box will open:

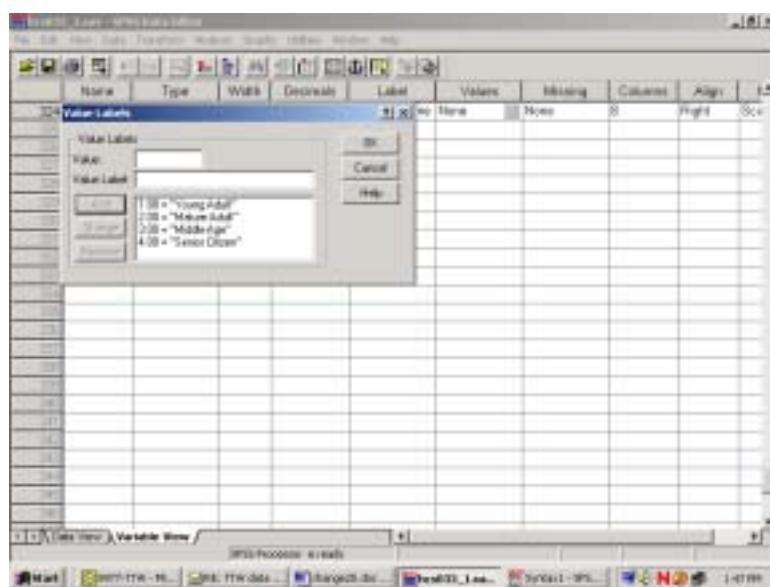

You can then begin to label the *values* of **age_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked **Value Label**. The screen will look like the following:

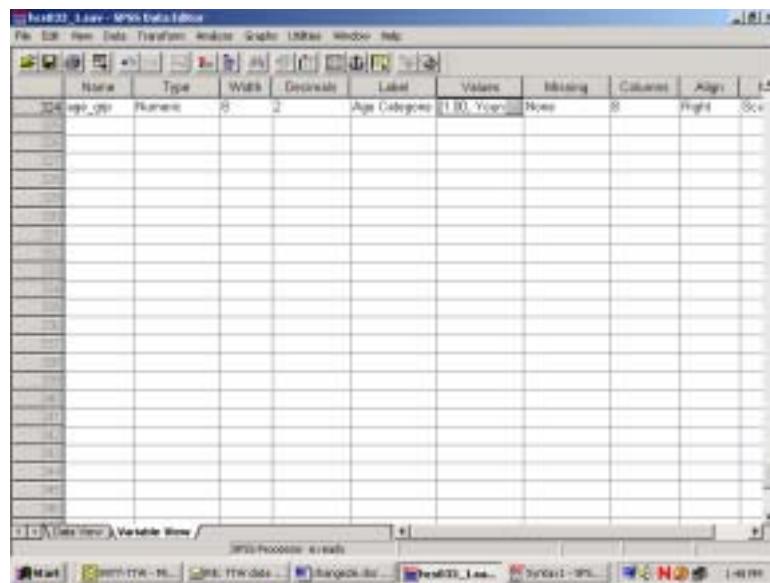

Add is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

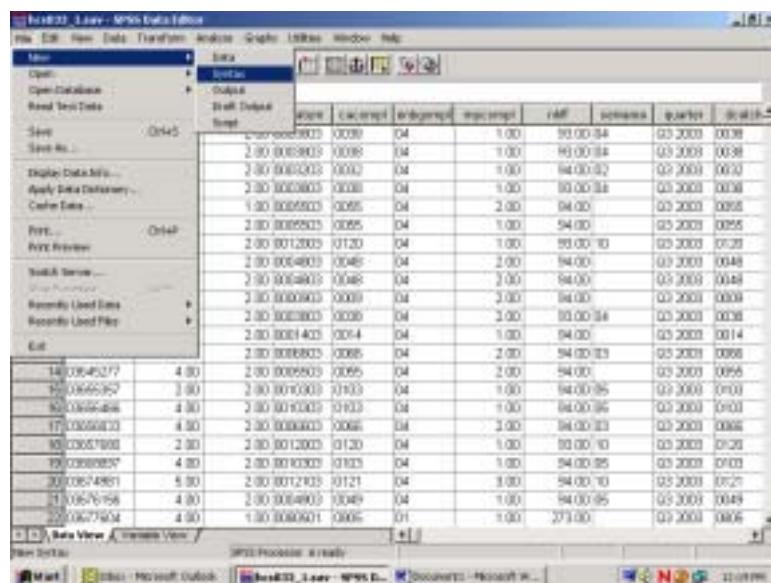

Limits the Number of Variables

The HCSDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate the rating of all experiences with the health plan as it relates to the beneficiaries' state of health. You are also interested in the differences between military and civilian services, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among catchment areas. You can do all the work on a subset of only nine variables, saving them in a separate file.

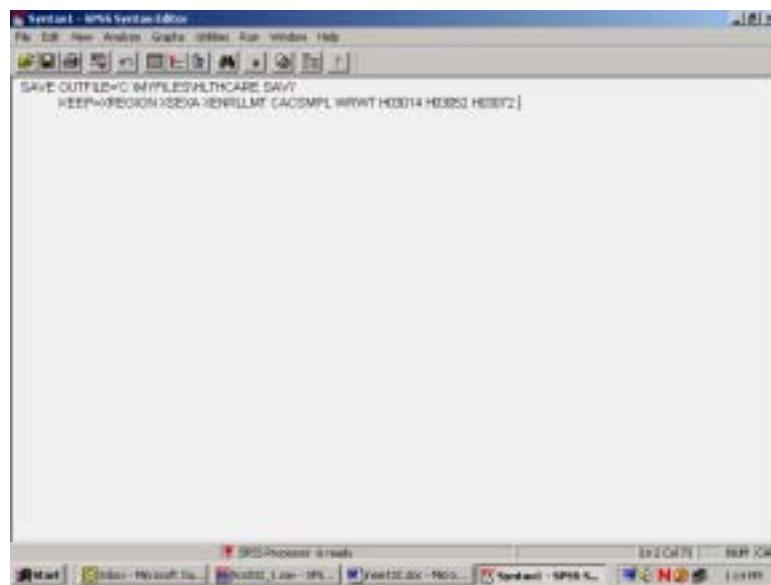

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New**, **Syntax** on the **File** menu as in the following:

A blank syntax window will open.

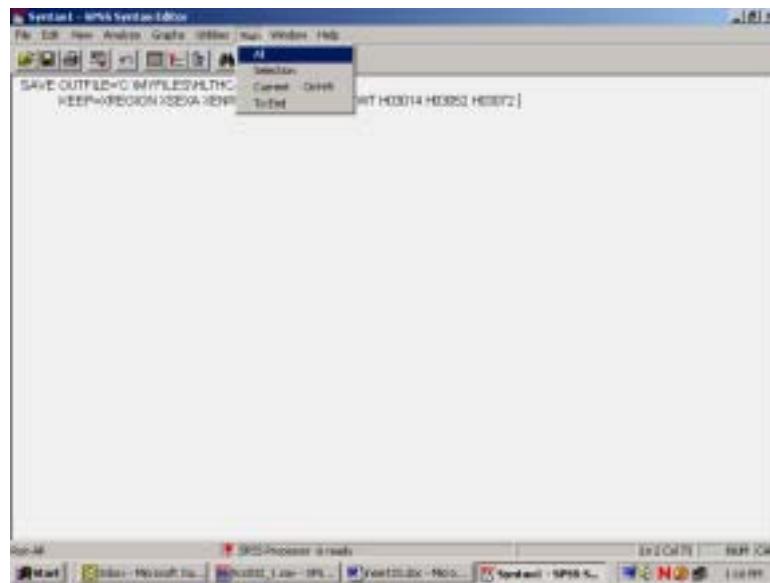

Write the following command, substituting the file name and directory specification:

**SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XREGION XSEXA XENRLLMT
CACSMPL WRWT XBNFGRP H03014 H03052 H03072.** as in the following:

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

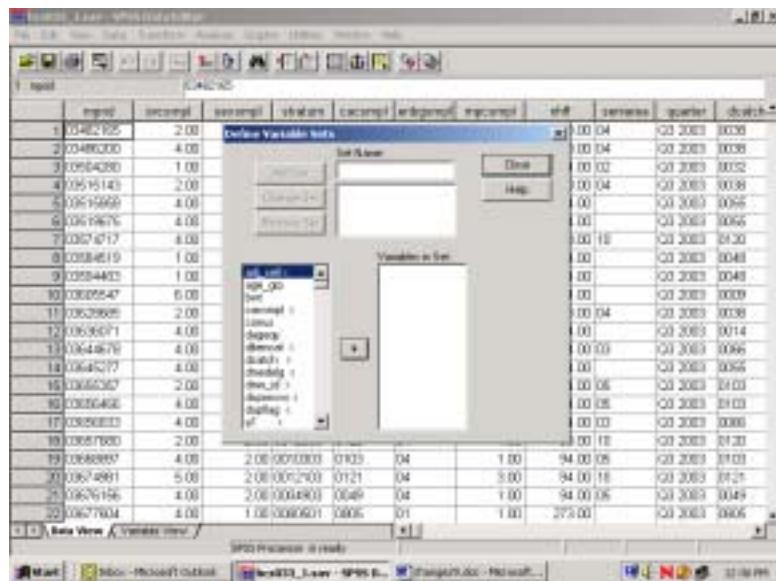

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utility** menu, define a subset of variables as in the following:

A screenshot of the SPSS Data View window. The 'Utilities' menu is open, with 'Define Sets...' highlighted. The main menu bar shows 'File Edit View Data Transform Analyze Graphs Utilities Data Window Help'. The status bar at the bottom indicates 'SPSS Processor is ready'.

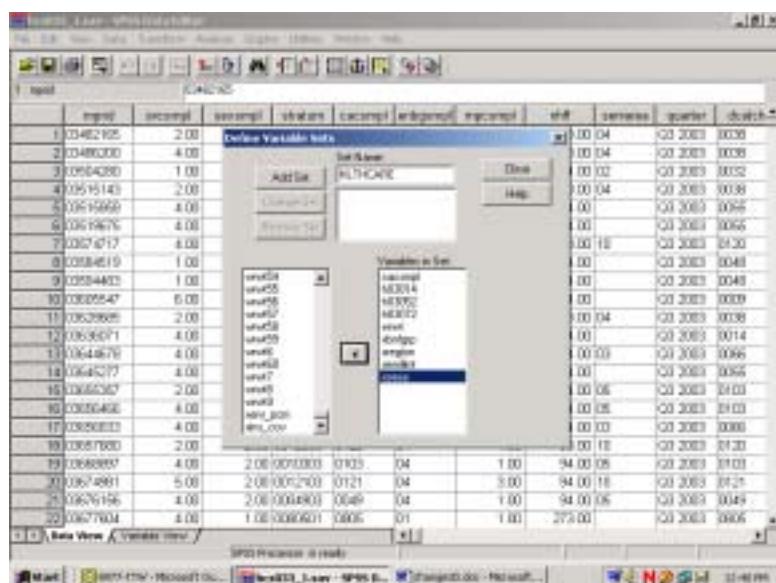

id	ageid	incsmp	excsmp	use	admitsmp	repsmp	cmf	postmmp	quarter	year

21	030876798	4.80	2.80	00000003	0049	04	1.00	94.00	95	03 2003	0049
22	030877934	4.80	1.80	00000001	0006	01	1.00	27.00		03 2003	0006

Select Define Sets.

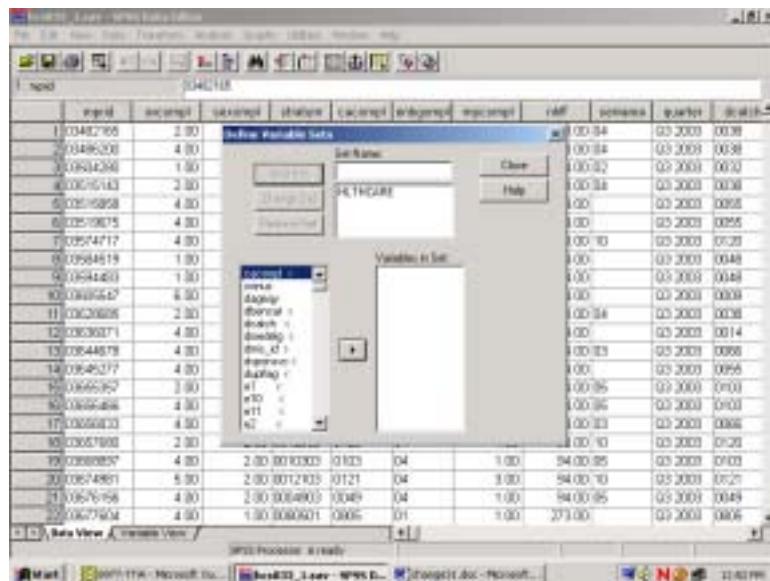

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

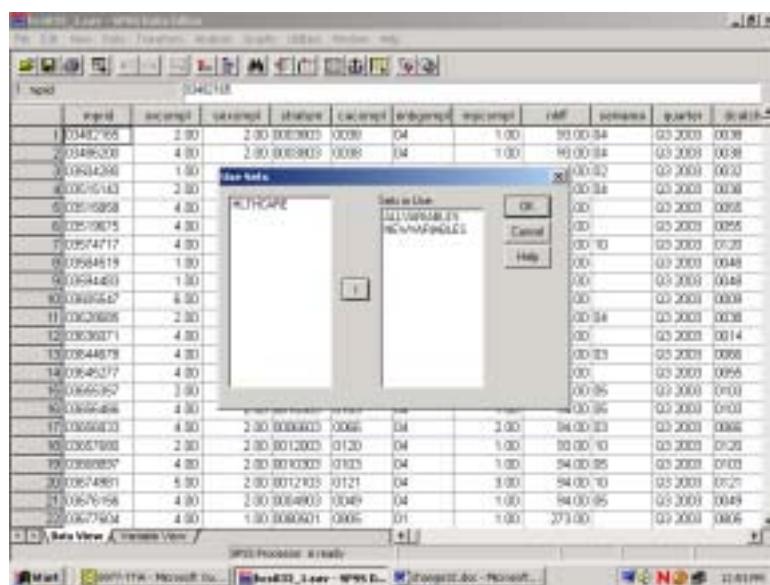

The screen should look like the following:

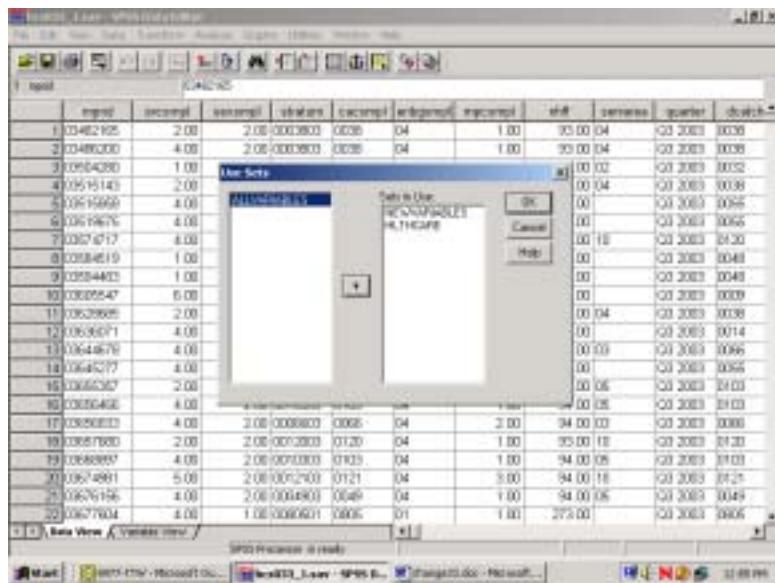

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Sets...**, and receive this screen:

Move HLTHCARE from the left slot to the right slot, which is labeled **Sets in Use**. Transfer ALLVARIABLES from the right to the left slot. Leave NEWVARIABLES where it is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

Limiting the Number of Observations

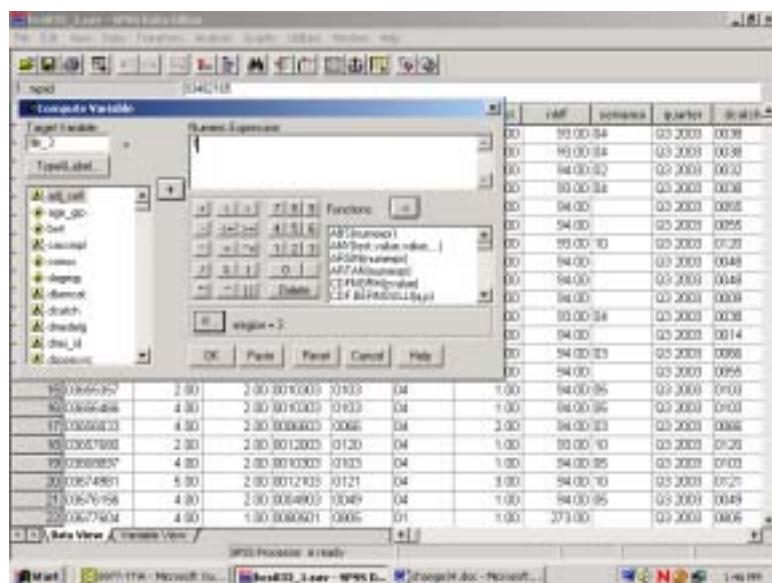

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

The first task is to **compute** a filter variable for all the cases in the file.

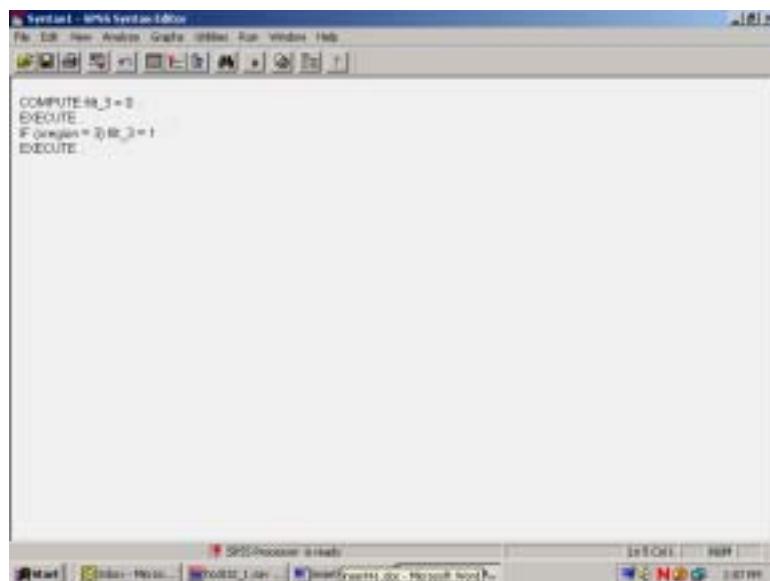

A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the Southeast, i.e., cases for which the variable **xregion = 3**. You would build a filter variable named **filtr_3**, which has the value **1** associated with the cases in the Southeast and 0 for all the other cases in the file. The logic is: if **xregion = 3**, then **filtr_3 = 1**, else **filtr_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the "If" condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

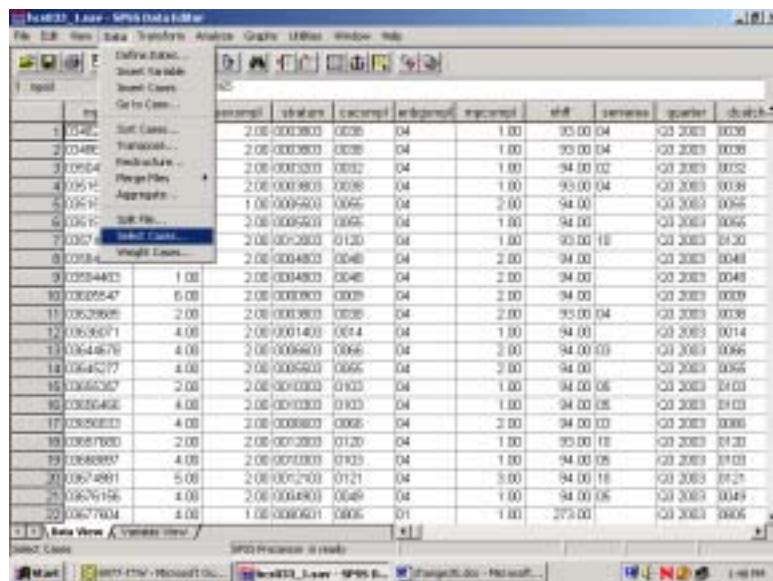

The screen that follows shows the syntax that was generated as you built the variable `filtr_3`.

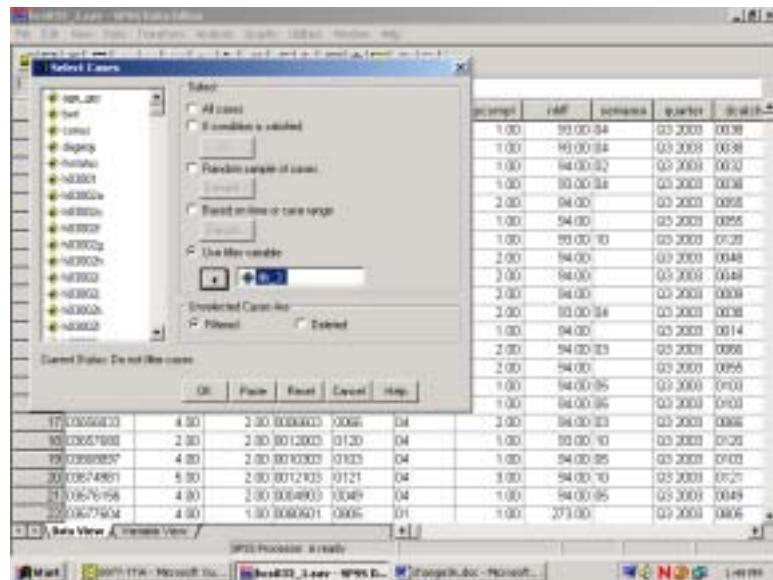

Once you build the filter variable, you can apply it for analyzing only those people from the Southeast.

Using the **Data** menu, choose **Select Cases**.

In the dialog box, check **Use filter variable**. Move the variable **filtr_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filtered** is checked under **Unselected Cases Are**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

The screenshot shows the SPSS Data Editor window with a subset of cases selected. The status bar at the bottom indicates "Filter On".

103674480	5.00	2.00	00000003	0121	04	2.00	94.00	10	Q3 2003	0121	
103676156	4.00	2.00	00000003	0049	04	1.00	94.00	05	Q3 2003	0049	
103677934	4.00	1.00	00000001	0006	01	1.00	27.00		Q3 2003	0006	

You can now produce tables for the subset of cases.

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see which filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

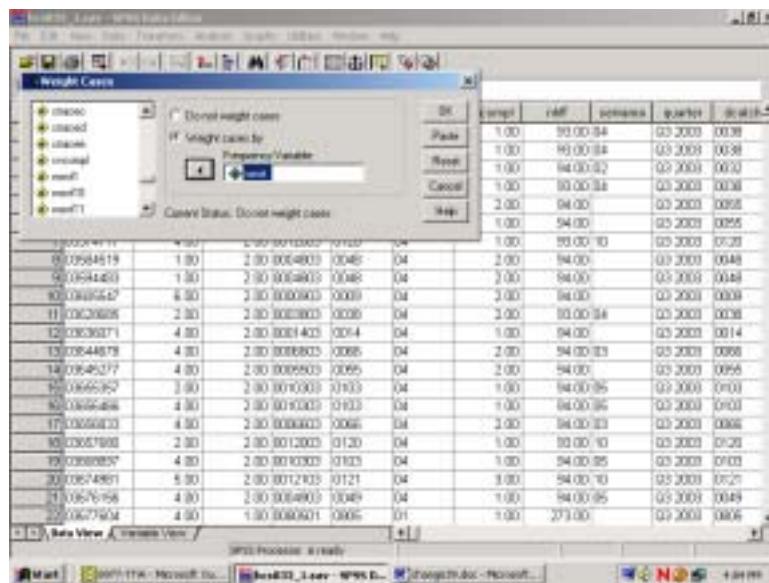

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

The screenshot shows the "Select Cases" dialog box with "All cases" selected. The status bar at the bottom indicates "Filter Off".

Weighting Data

The data file includes a weighting variable, **WRWT**, which should be applied to all procedure runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H03014, H03052, H03072, cacsmpl, xbnfgrp, xsexa, xregion, xenrlmt, wrwt, and filtr_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

Calculating Means

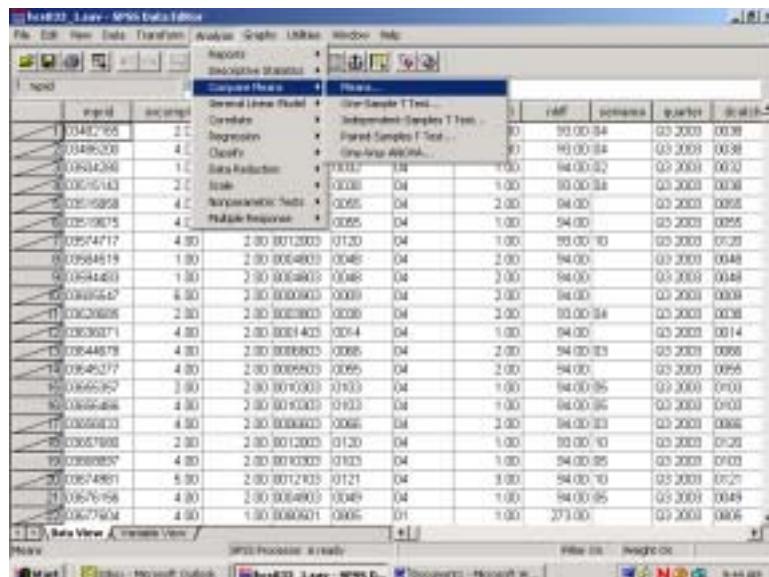

As an example, suppose you want to analyze the health care variables and you want to focus on the Southeast (**xregion** = 3). Suppose you are also interested in overall differences in the mean rating for care received as it relates to the beneficiary's self-evaluation of his health for the Southeast region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgp**, and sex, **xsexa**.

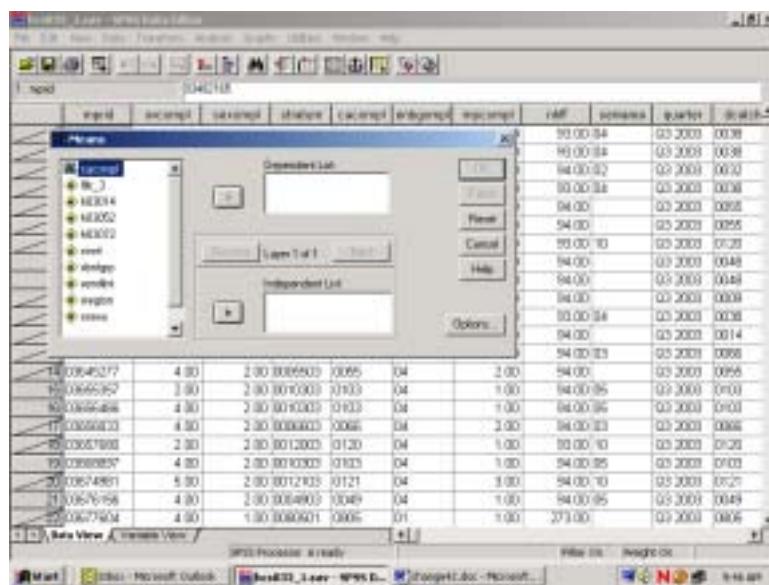

The health care variables are **H03052** – rating of the health plan, and **H03072** – assessment of the state of health. The statistic you want to see is the mean of the health care variables for each group in our breakdown.

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **wrwt**, which you would activate for procedure runs. The subset also includes the new variable, **filtr_3**, which allows us to select only those cases in the Southeast.

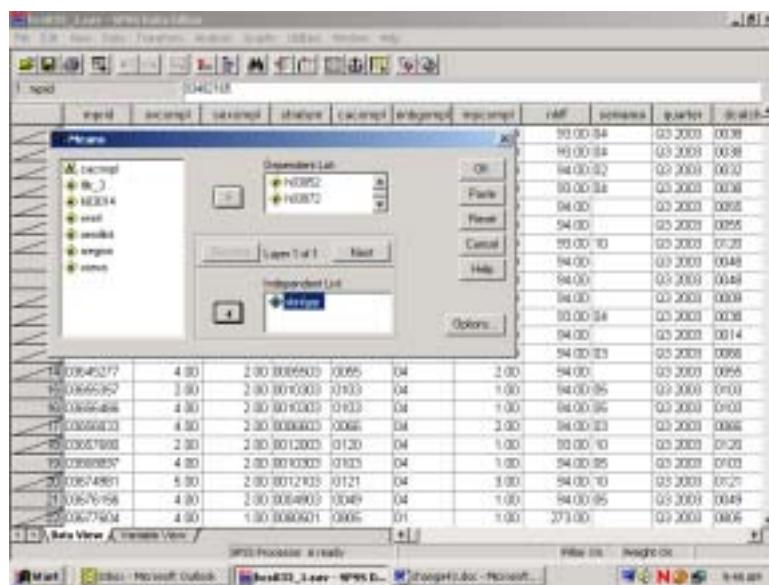

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **wrwt**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr_3**. On the status line, **Filter On** and **Weight On** should appear.

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

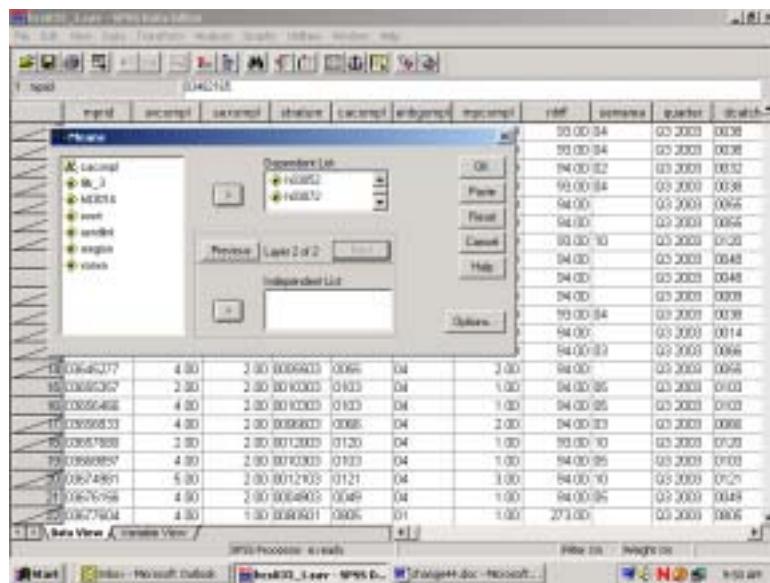

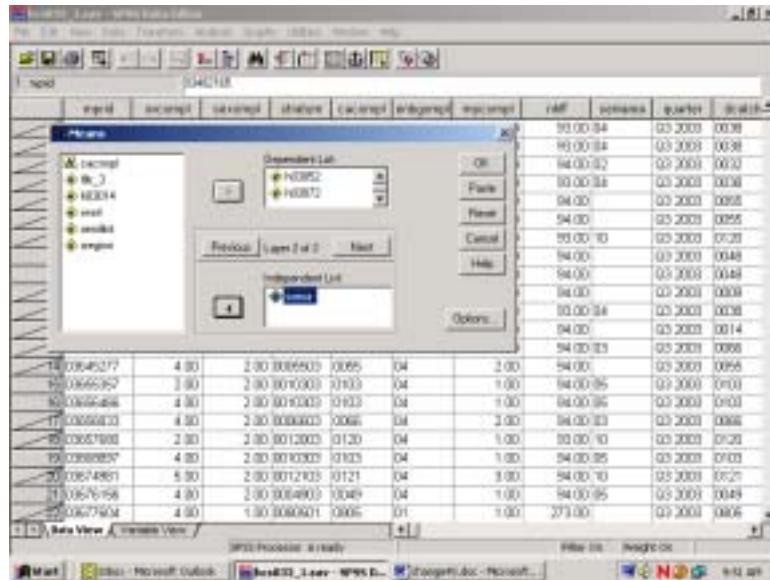

Move the health care variables **H03052** and **H03072**, from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **xbnfgrp** from the variable list on the left into the box under **Independent List**. **xbnfgrp** is the first grouping variable. The screen should look like the following:

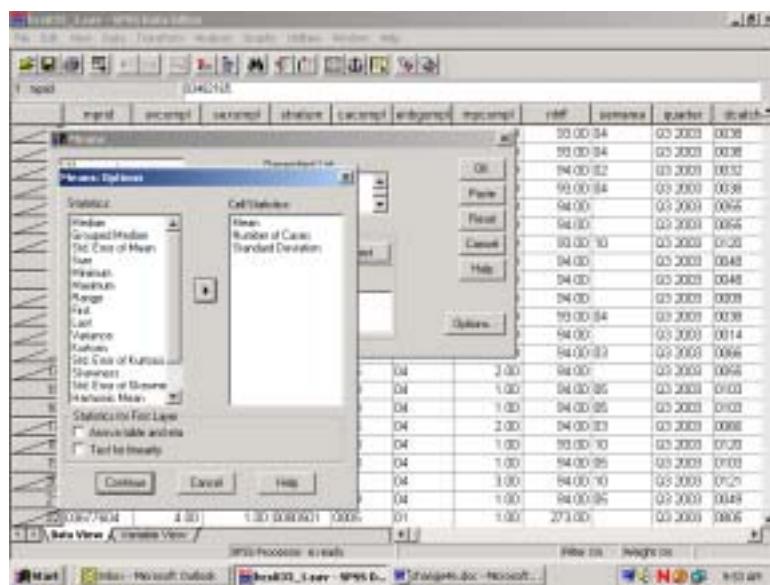

Click on **Next** in the center of the box to create a second layer. The following screen will open:

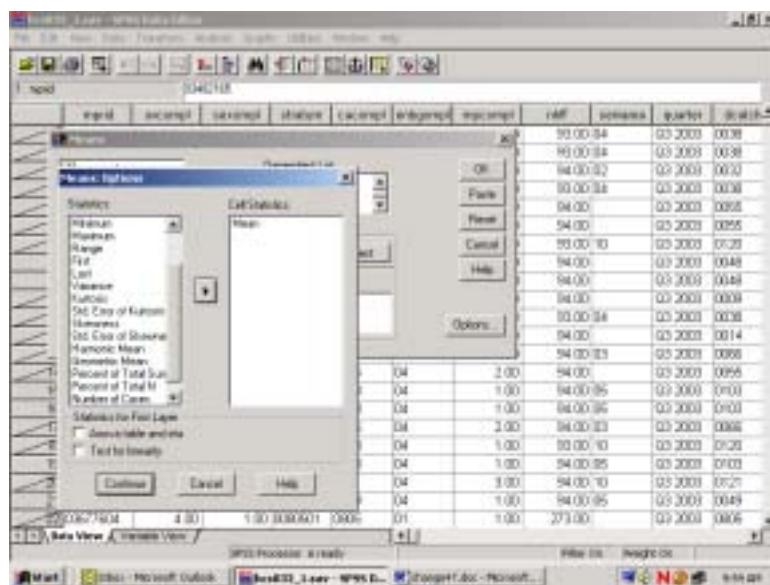

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsex** from the variable list on the left into the box under **Independent List**. **Xsex** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

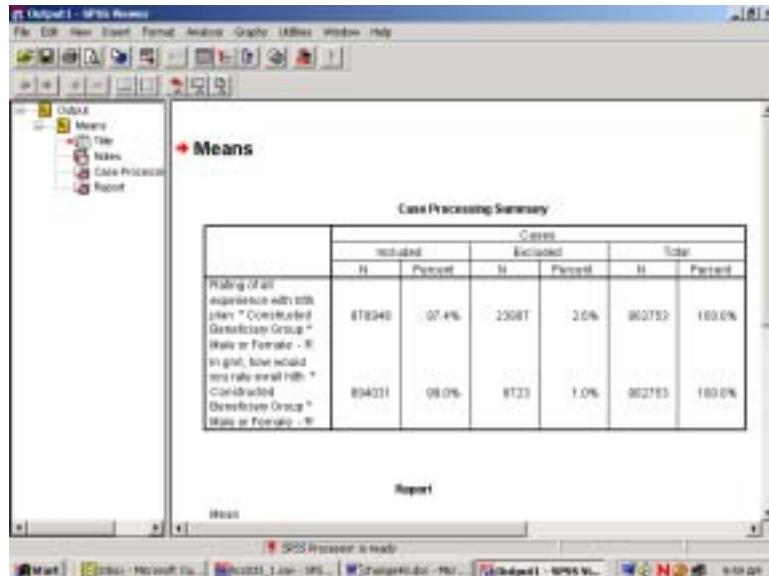

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

The screenshot shows the SPSS Output 1 interface. On the left, the tree view shows 'Measures' selected under 'Output'. The main area displays a table titled 'Case Processing Summary' with three columns: 'Included', 'Excluded', and 'Total'. The table includes a header row with 'N' and 'Percent' columns. Below the header, there are two rows of data. The first row corresponds to the 'Rating of all experience with health plan' item, and the second row corresponds to the 'In good, how would you rate overall health?' item. The cursor is currently inside the title 'Means'.

	Cases					
	Included N	Included Percent	Total N	Total Percent		
Rating of all experience with health plan "Constituted Beneficiary Group" - Male or Female - R	818940	97.4%	23081	2.6%	802751	100.0%
In good, how would you rate overall health? "Constituted Beneficiary Group" - Male or Female - R	804031	98.0%	8123	1.0%	802751	100.0%

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

The screenshot shows the SPSS Output 1 interface. The tree view now shows 'Notes' selected under 'Output'. The main area displays a table titled 'Case Processing Summary' with three columns: 'Included', 'Excluded', and 'Total'. The table includes a header row with 'N' and 'Percent' columns. Below the header, there are two rows of data, identical to the previous screenshot. The title 'Means' has been replaced by 'Mean Rating of Health Plan w/ Health Assessment'.

	Cases					
	Included N	Included Percent	Total N	Total Percent		
Rating of all experience with health plan "Constituted Beneficiary Group" - Male or Female - R	818940	97.4%	23081	2.6%	802751	100.0%
In good, how would you rate overall health? "Constituted Beneficiary Group" - Male or Female - R	804031	98.0%	8123	1.0%	802751	100.0%

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

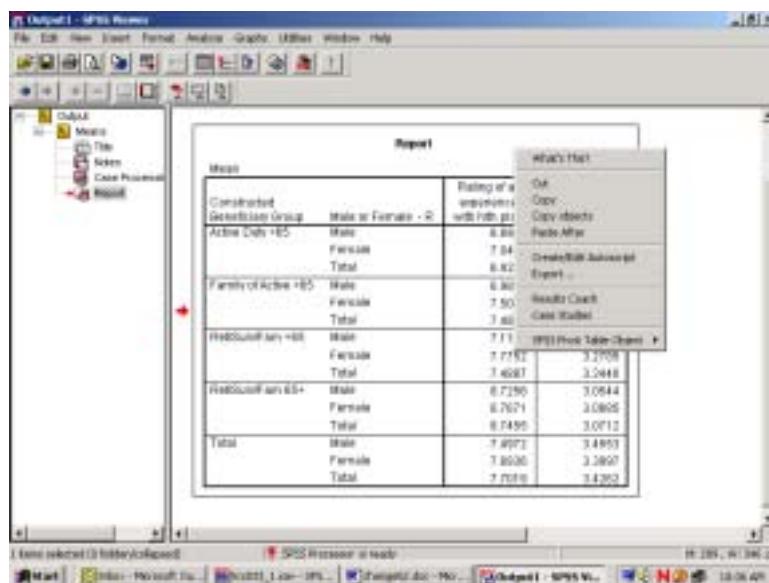

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

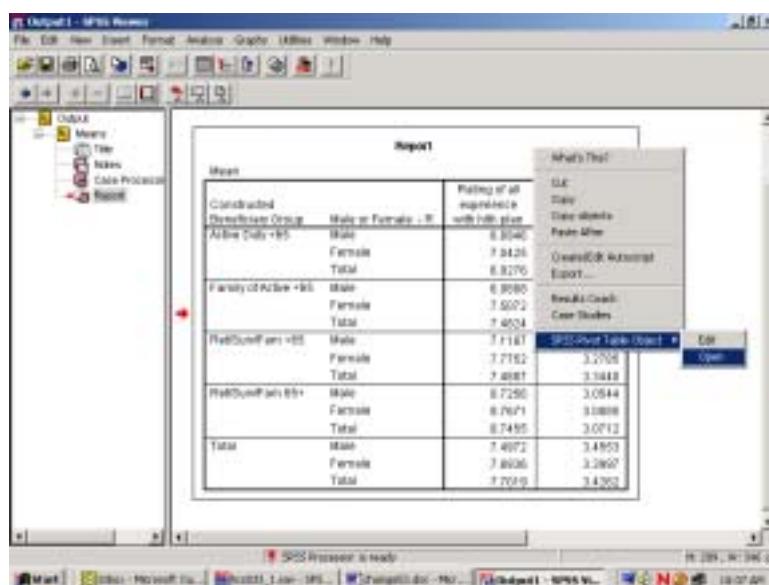

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

Select **SPSS Pivot Table Object** and **Open** as pictured below:

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

The screenshot shows the SAS Pivot Table Editor window. The menu bar includes File, Edit, View, Insert, Pivot, Format, and Help. A toolbar with various icons is at the top. The main area is titled "Report" and contains a table with the following data:

Contributed Beneficiary Status	Male or Female - R	Missing child experience with child (plan)	
		Avail, live without res. rate	count (N)
Active Duty -M	Male	8.0848	3.8085
	Female	7.0425	3.8132
	Total	8.0278	3.8188
Family of Active -F	Male	8.0808	3.8081
	Female	7.5873	3.8982
	Total	7.4824	3.8886
PriVill and Part -R	Male	7.1167	3.4387
	Female	7.3762	3.2186
	Total	7.4807	3.3440
PriVill and Part -B	Male	8.1298	3.8944
	Female	8.7871	3.8685
	Total	8.1458	3.8717
Total	Male	7.4872	3.4553
	Female	7.0838	3.3987
	Total	7.1219	3.4282

In this special editor, there are many options for formatting the table.

Suppose you want to change the table format from vertical to horizontal. Open the **Pivot** menu in the tool bar and choose **Transpose Rows and Columns** as shown below:

The screenshot shows the SAS Pivot Table Editor window with the "Transpose Rows and Columns" option highlighted in the Pivot menu. The main area displays the same table data as the previous screenshot.

Contributed Beneficiary Status	Male or Female - R	Missing child experience with child (plan)	
		Avail, live without res. rate	count (N)
Active Duty -M	Male	8.0848	3.8085
	Female	7.0425	3.8132
	Total	8.0278	3.8188
Family of Active -F	Male	8.0808	3.8081
	Female	7.5873	3.8982
	Total	7.4824	3.8886
PriVill and Part -R	Male	7.1167	3.4387
	Female	7.3762	3.2186
	Total	7.4807	3.3440
PriVill and Part -B	Male	8.1298	3.8944
	Female	8.7871	3.8685
	Total	8.1458	3.8717
Total	Male	7.4872	3.4553
	Female	7.0838	3.3987
	Total	7.1219	3.4282

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all the table editing in the left section of the table, and the changes will spread through the entire table.

The screenshot shows a SPSS Pivot Table Editor window. The table has three main sections: 'Constructed Beneficiary Group' (with rows for 'Active Duty - R', 'Male or Female - R', and 'Total'), 'Male or Female' (with rows for 'Male', 'Female', and 'Total'), and 'Response of all experience with HHS plan in past year, how would you rate overall health' (with rows for 'Male', 'Female', and 'Total'). The 'Male or Female' section contains redundant labels: 'Male or Female - R' and 'Male'.

			Constructed Beneficiary Group					
			Active Duty - R		Female of Active - R	Male or Female - R		Male or Female - R
			Male	Female	Total	Male	Female	Total
Response of all experience with HHS plan in past year, how would you rate overall health	Male	Female	Total	Male	Female	Total	Male	Female
	3,6848	7,0429	6,8278	6,9989	7,9072	7,4934	7,1181	7,7753
	2,0895	3,9133	3,8128	3,8881	3,8582	3,8586	3,4281	3,2785
								3,3480

You would then notice that certain labels are redundant. The labels, **Constructed Beneficiary Group** and **Male or Female - R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Constructed Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

The screenshot shows the same SPSS Pivot Table Editor window as before, but with a context menu open over the 'Male or Female' section of the table. The menu is titled 'Table Properties...' and includes options like 'Cell Properties...', 'Table Tools...', 'Insert PivotTable', 'Format Selection...', 'Create Graph...', 'Resting Days...', 'Toolbar...', 'Result Coach...', and 'Clear Rules...'. The option 'Hide Dimension Label' is highlighted in blue.

Click inside the table section labeled **Male or Female - R** and repeat the above procedure. An improved table is shown in the following screen.

The screenshot shows a Microsoft Windows desktop with several open windows. In the foreground, there is a SPSS Pivot Table window titled "Report". The table has three rows of data. The first row contains the column headers: "Statistics", "Mean", and three groups of "Active Duty +88", "Family of Active +88", and "PostShareFrom +88", each with "Male", "Female", and "Total" sub-headings. The second row contains the labels for the data: "Rating of all experiences with health plan in past year", "Plan Rating", and "Health State". The third row contains the mean values: 3.0818, 3.0425, 3.0218; 3.8988, 3.8372, 3.8024; and 3.8104, 3.8081, 3.8086 respectively. The bottom of the screen shows the Windows taskbar with various icons.

Statistics	Mean	Active Duty +88	Family of Active +88	PostShareFrom +88						
		Male	Female	Total	Male	Female	Total	M		
Rating of all experiences with health plan in past year	3.0818	3.0425	3.0218	3.8988	3.8372	3.8024	3.1181	3.7752	3.4937	8
Plan Rating	3.0818	3.0425	3.0218	3.8988	3.8372	3.8024	3.4381	3.2785	3.3440	3
Health State	3.0818	3.0425	3.0218	3.8988	3.8372	3.8024	3.4781	3.2785	3.3440	3

The mean values reported are formatted to allow space for the labels of the satisfaction variables. The spaces between the values are not pleasing to the eye. You can shorten these labels and add the lost information in another place, according to the following procedures:

Double-click on the label for health state. Delete the text, entering only the word, **Health State**. Do the same for the health care label, entering only the words, **Plan Rating**.

Double-click on the word, **Report**, in the center at the top of the table, right-click, and choose **Delete** from the dialog box.

The screenshot shows the same SPSS Pivot Table window as before, but now it only contains two rows of data. The first row is identical to the one above: "Statistics", "Mean", and three groups of "Active Duty +88", "Family of Active +88", and "PostShareFrom +88", each with "Male", "Female", and "Total" sub-headings. The second row contains the labels for the data: "Plan Rating" and "Health State". The mean values remain the same: 3.0818, 3.0425, 3.0218; 3.8988, 3.8372, 3.8024; and 3.8104, 3.8081, 3.8086 respectively. The bottom of the screen shows the Windows taskbar with various icons.

Statistics	Mean	Active Duty +88	Family of Active +88	PostShareFrom +88						
		Male	Female	Total	Male	Female	Total	M		
Plan Rating	3.0818	3.0425	3.0218	3.8988	3.8372	3.8024	3.1181	3.7752	3.4937	8
Health State	3.0818	3.0425	3.0218	3.8988	3.8372	3.8024	3.4781	3.2785	3.3440	3

The resulting table is much more readable. You can then add the deleted information to clarify the table output. Open the **Insert** menu and choose **Title** as in the following:

A screenshot of the SPSS Pivot Table Editor window. The title bar says "SPSS Pivot Table - Table1". The menu bar includes File, Edit, View, Insert, Print, Format, and Help. A toolbar with various icons is at the top. The main area contains a table with three rows and four columns. The first row has three columns labeled "Active Duty >80", "Family of Active >80", and "PostWarFrom >80", with a "Title" column header above it. The second row has three columns labeled "Male", "Female", and "Total". The third row has three columns labeled "Plan Rating" and "Health Status". The data values are: Plan Rating: Male = 0.0448, Female = 0.0425, Total = 0.0275; Health Status: Male = 0.0008, Female = 0.0123, Total = 0.0131. The bottom right corner of the table cell contains the number "8".

		Active Duty >80			Family of Active >80			PostWarFrom >80			Title
		Male	Female	Total	Male	Female	Total	Male	Female	Total	Title
Plan Rating		0.0448	0.0425	0.0275	0.0008	0.0002	0.0004	0.0181	0.0182	0.0363	8
Health Status		0.0008	0.0123	0.0131	0.0001	0.0002	0.0003	0.0001	0.0001	0.0002	8

Type in a new title for the table. The final result appears below.

A screenshot of the SPSS Pivot Table Editor window, identical to the one above but with a new title. The title bar now says "SPSS Pivot Table - Table1". The title of the table in the main area is "Mean Health Status With Mean Rating of Health Plus by Beneficiary Status and Gender". The rest of the table structure and data are the same as the previous screenshot.

		Active Duty >80			Family of Active >80			PostWarFrom >80			Title
		Male	Female	Total	Male	Female	Total	Male	Female	Total	Title
Plan Rating		0.0448	0.0425	0.0275	0.0008	0.0002	0.0004	0.0181	0.0182	0.0363	8
Health Status		0.0008	0.0123	0.0131	0.0001	0.0002	0.0003	0.0001	0.0001	0.0002	8

After all the editing changes have been made, exit the Pivot Table editor and return to the output navigator. Click on the File menu and choose Print Preview. Zoom in on the page and review the appearance of the report. The page will appear as the page below.

Output 1 - SPSS Viewer [Extracted output]

File Edit View Insert Options Data Transform Analyze Graphs Utilities Insert Page Help Close

Mean Health Status With Mean Rating of Health Plan By Beneficiary Status and Gender

Mean

	Active Duty - 85			Family of Active - 85		
	Male	Female	Total	Male	Female	Total

Calculating Percents

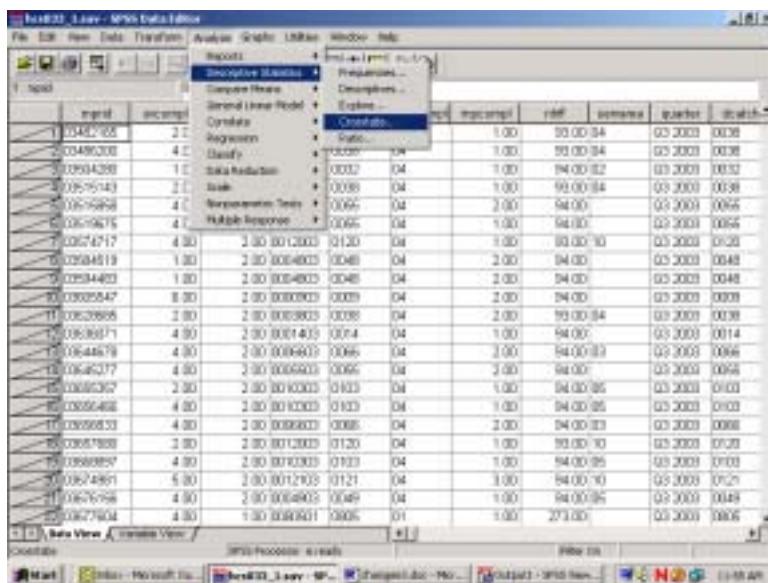

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

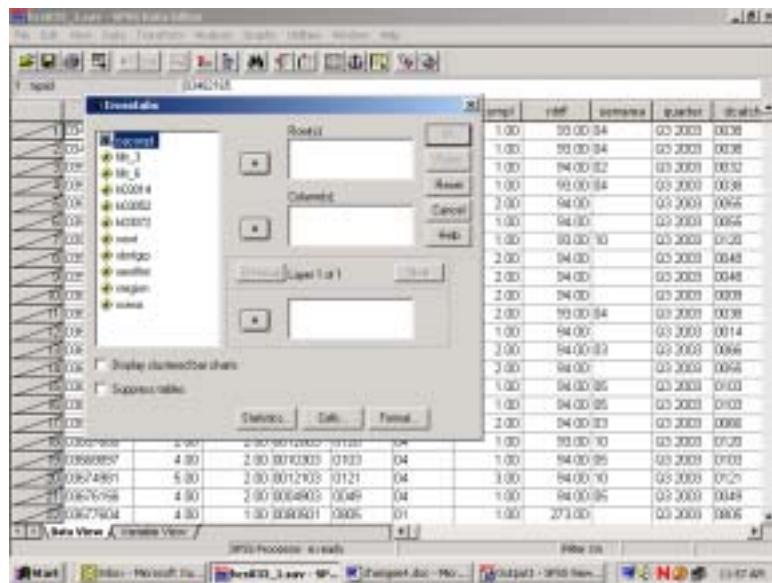

For example, suppose you want to see the percentage of people in the Southwest catchment areas who answered “yes” or “no” to the question, “Did you see a specialist in the last 12 months?” The variables in this analysis are **cacsmp1** – the catchment area, and **H03014** – the question variable. The cases for the analysis are from the Southwest only.

The first task is to build a new filter variable, assigning **1** to the variable when **xregion = 6**. You would call the variable **filtr_6** and build it the same way you built the filter, **filtr_3**. Cases from the Southwest are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

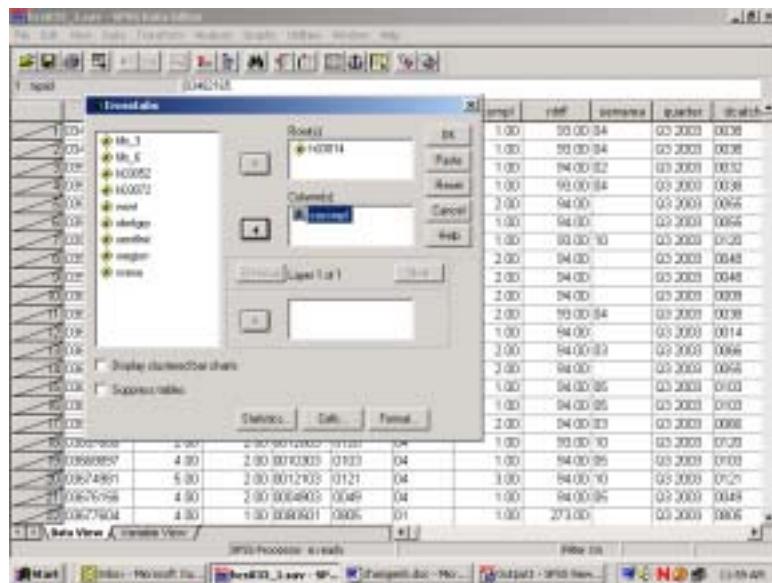

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

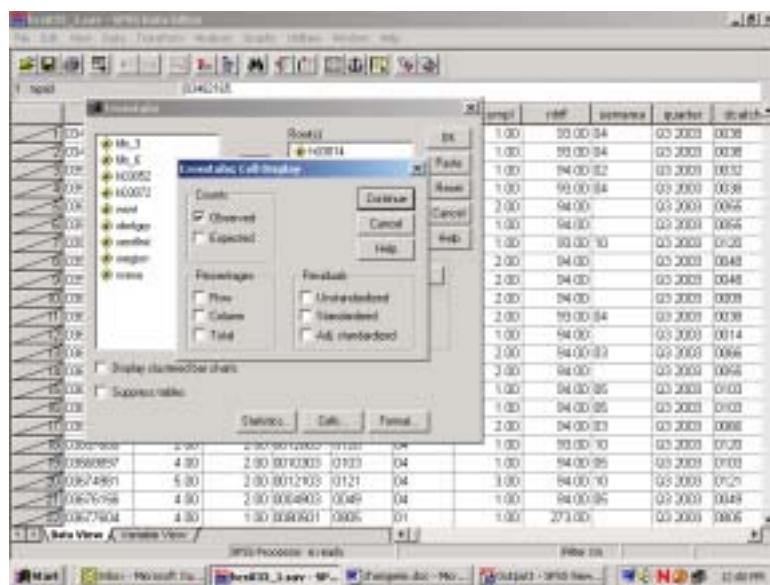

Move **H03014** from the variable list on the left into the box marked **Row(s):**, and move the variable **cacsmpl** into the box marked **Column(s):**. The screen will resemble the following:

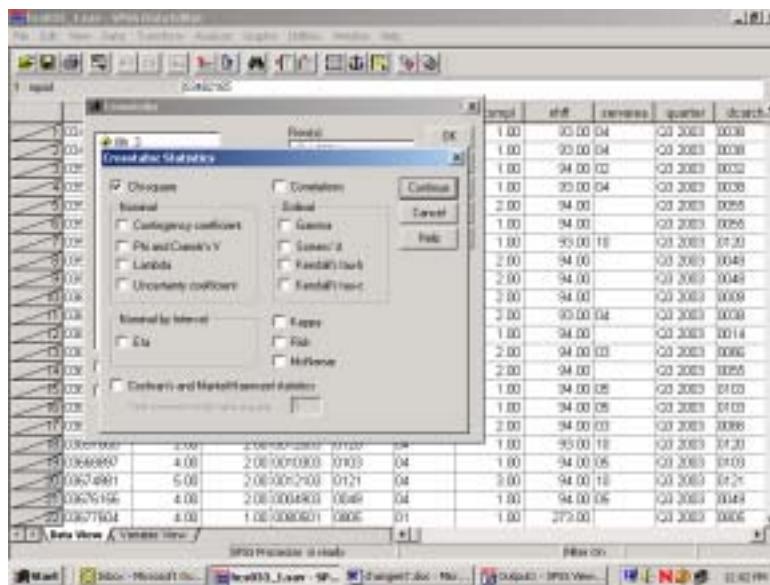

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

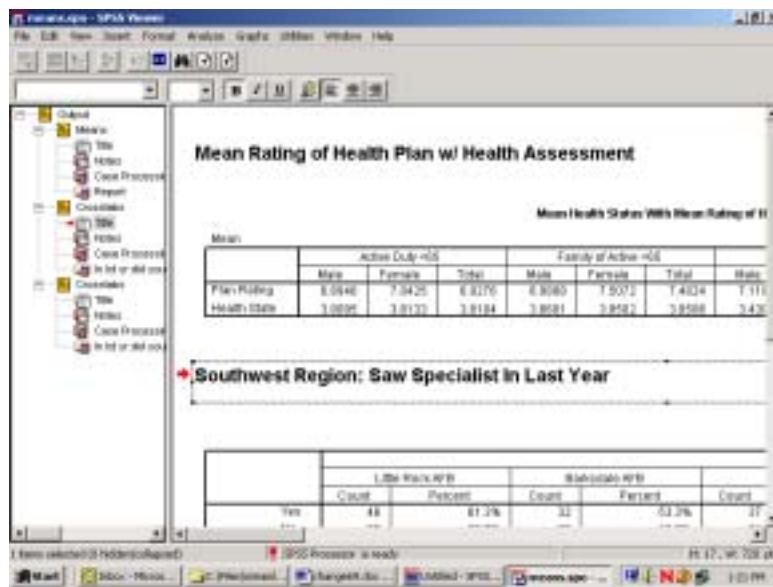

Under **Counts, Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each catchment area. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

Check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output—in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and the **Case Processing Summary** as you did before.

Navigate to the procedure icon. Follow the procedure for opening an **SPSS Pivot Table Object**, open the table in the special editor and maximize the screen as in the following:

SPSS Pivot Table - Table1

In last year you saw a specialist? - CACMPL - Catchment Area Cross-tabulation

In last year you saw a specialist?	Yes	Detail	CACMPL - Catchment Area						
			Little Rock AFG	Barksdale AFB	El Paso	Tinker AFG	Fl. Base	Ft. Sam Houston	TL
No	Detail	29	28	24	45	24	47	41	4
No	% within CACMPL - Catchment Area	28.7%	48.7%	41.7%	40.4%	43.8%	37.0%	31	1
Total	Detail	75	68	71	93	55	127	111	11
Total	% within CACMPL - Catchment Area	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	11

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

SPSS Pivot Table - Table1

In last year you saw a specialist? - CACMPL - Catchment Area Cross-tabulation

In last year you saw a specialist?	Yes	Detail	CACMPL - Catchment Area						
			Little Rock AFG	Barksdale AFB	El Paso	Tinker AFG	Fl. Base	Ft. Sam Houston	TL
No	Detail	29	28	24	45	24	47	41	4
No	% within CACMPL - Catchment Area	28.7%	48.7%	41.7%	40.4%	43.8%	37.0%	31	1
Total	Detail	75	68	71	93	55	127	111	11
Total	% within CACMPL - Catchment Area	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	11

The pivoting tool will appear:

		CACSMPL - Catchment Area						
		Little Rock AFB	Fort Polk	Ft. Sill	Ft. Huachuca	Ft. Bliss		
Did you see a specialist?	Yes	Count	46	32	37	48	21	80
		% within CACSMPL - Catchment Area	65.3%	55.3%	52.7%	51.8%	56.4%	63.0%
	No	Count	29	38	34	35	24	47
		% within CACSMPL - Catchment Area	34.7%	44.7%	47.3%	48.2%	43.6%	37.0%
Total		Count	75	68	71	83	65	127
		% within CACSMPL - Catchment Area	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Pivoting Trays

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H03014** – saw specialist in the last 12 months, and **Statistics** – the percent of people in each catchment area. On the column axis is the variable, **cacsmp1** – the catchment area.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

		CACSMPL - Catchment Area						
		Little Rock AFB	Fort Polk	Ft. Sill	Ft. Huachuca	Ft. Bliss		
Did you see a specialist?	Yes	Count	46	32	37	48	21	80
		% within CACSMPL - Catchment Area	65.3%	55.3%	52.7%	51.8%	56.4%	63.0%
	No	Count	29	38	34	35	24	47
		% within CACSMPL - Catchment Area	34.7%	44.7%	47.3%	48.2%	43.6%	37.0%
Total		Count	75	68	71	83	65	127
		% within CACSMPL - Catchment Area	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Pivoting Trays

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **cacsmp1**. Select it by double-clicking and edit it for clarity (see the screen below).

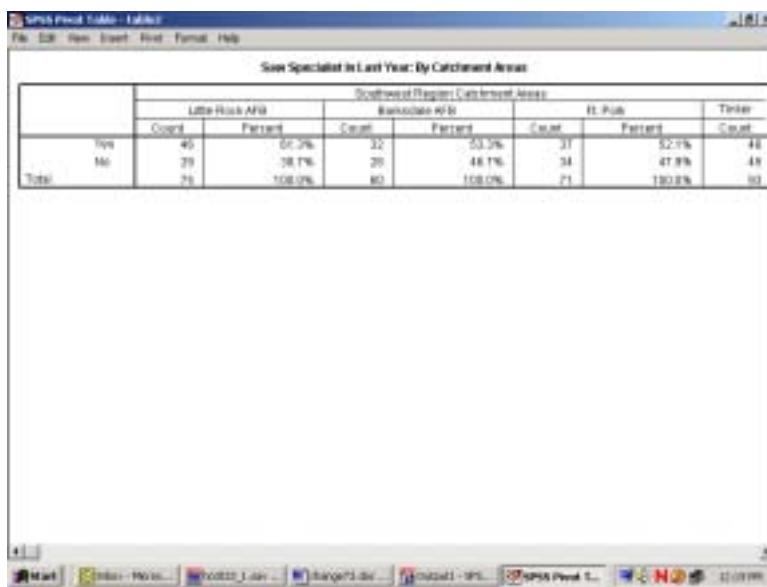

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

A screenshot of the SPSS Pivot Table Editor window. The title bar reads "SPSS Pivot Table Editor". The menu bar includes "File", "Edit", "New", "Insert", "View", "Format", "Help". The main title of the table is "In last year did you see a specialist? - CACSMP1 - Catchment Area Cross-tabulation". The table has three columns: "Bivariate Region Catchment Areas", "Bivariate ATM", and "RT POS". The first column has two rows: "Count" and "Percent". The second column has two rows: "Count" and "Percent". The third column has two rows: "Count" and "Percent". The data rows are: "In last year did you see a specialist? Yes" (Count: 88, Percent: 66.2%), "No" (Count: 43, Percent: 33.7%), and "Total" (Count: 131, Percent: 100.0%). The table is displayed in a grid format with various columns and rows for different variables and their sub-categories.

		Bivariate Region Catchment Areas			
		Bivariate ATM		RT POS	
		Count	Percent	Count	Percent
In last year did you see a specialist?	Yes	88	66.2%	32	23.9%
	No	43	33.7%	36	47.8%
	Total	131	100.0%	68	100.0%

Next, notice that the label for **H03014** is awkward. Select and clear it.

Last, edit the text in the table label so that it better expresses the content of the table. The finished table appears as follows:

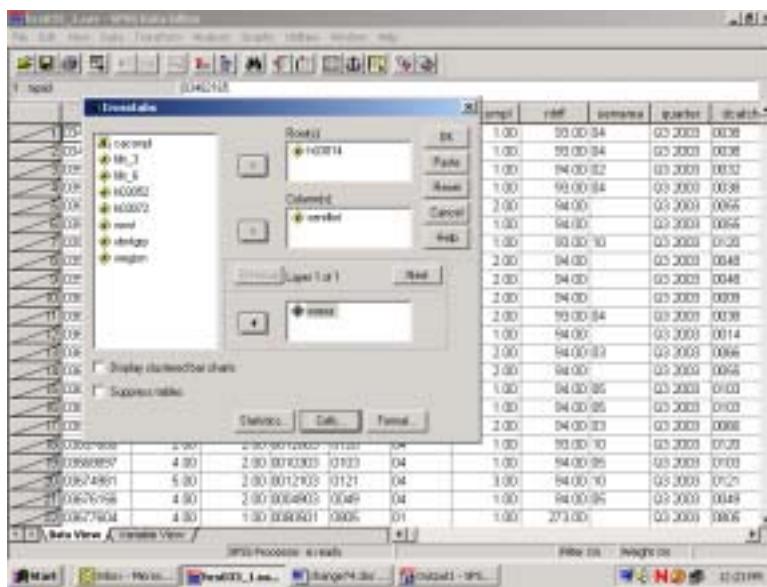

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H03014**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrlmt**, who saw a specialist in the past 12 months. Suppose you are also interested in sex differences, **xsex**, among the groupings. **Xsex** is the **Layer** variable. You want to remain in the Southwest region, using **filtr_6** as the filter variable. The cases will be weighted by **wrwt**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

Do the following:

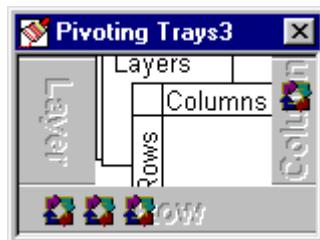

- Run **Crosstabs**.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

The screenshot shows a SPSS Pivot Table Object window. The title bar reads "SPSS Pivot Table Object". The main area displays a crosstab titled "Male or Female - R". The rows are categorized by "Male" and "Female", and the columns by "Employment in TRICARE Prime". The table includes sub-totals for "Total" and percentages for "% within Employment in TRICARE Prime". The data is as follows:

		Employment in TRICARE Prime				
		All but Daily	Employed - under 65	Not employed - under 65	Not employed - 65 or older	
Male	In hospital or clinic - specialist	Yes	Count	28289	48033	
			% within Employment in TRICARE Prime	58.8%	62.6%	
		No	Count	20118	27216	
Female	In hospital or clinic - specialist		% within Employment in TRICARE Prime	54.8%	57.2%	
		Total	Count	134748	112708	
			% within Employment in TRICARE Prime	100.0%	100.0%	
		All	Count	58188	49585	
			% within Employment in TRICARE Prime	58.8%	60.0%	
		Total	Count	26723	31933	
			% within Employment in TRICARE Prime	54.8%	58.0%	
		Total	Count	49056	100000	
			% within Employment in TRICARE Prime	100.0%	100.0%	

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **Male or Female - R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

		Enrollment in TRICARE Prime								
		Active Duty - Under 65		Enrollees - under 65		Not enrolled - under 65		Total	Male	Female
		Male or Female - R		Male or Female - R		Male or Female - R		Total	Male	Female
In last year did you know a specialist	Yes	Count	49491	22121	30298	80196	48923	48975		
		% within Enrollment in TRICARE Prime	36.8%	45.5%	46.4%	50.0%	42.9%	55.0%		
	No	Count	85268	35753	39818	80187	37214	48181		
		% within Enrollment in TRICARE Prime	64.2%	54.5%	53.6%	50.0%	57.2%	45.0%		
Total		Count	134759	57874	60116	160373	73231	97156	1	1
		% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%		

Printing Tools dialog box is visible at the bottom.

Then drag the **Statistics** icon to the COLUMN dimension to produce the following change:

		Enrollment in TRICARE Prime								
		Active Duty - Under 65		Enrollees - under 65		Not enrolled - under 65		Total	Male	Female
		Male or Female - R		Male or Female - R		Male or Female - R		Total	Male	Female
		Count	% within Enrollment in TRICARE Prime	Count	% within Enrollment in TRICARE Prime	Count	% within Enrollment in TRICARE Prime	Total	Male	Female
In last year did you know a specialist	Yes	49491	36.8%	22121	45.5%	30298	46.4%	48923	48975	
	No	85268	64.2%	35753	54.5%	39818	53.6%	37214	48181	
Total		134759	100.0%	57874	100.0%	60116	100.0%	85180	100.0%	1

Printing Tools dialog box is visible at the bottom.

Close the **Pivoting Trays** and hide the dimension label, **Male or Female - R**, in the table. Then, change the percent label to “Percent” and delete the label for **H03014** in the row dimension. Last, revise the label above the table to make it more informative.

The resulting table is both clear and informative.

Southwest Region: Saw a Specialist in Last Year: Enrollment Status By Gender							
	Enrollment in TRICARE Prime						
	Active Duty - under 65				Enlisted - under 65		
	Male	Female	Male	Female	Male	Female	Female Co.
	Count	Percent	Count	Percent	Count	Percent	Co.
Yes	45469	55.6%	22123	45.5%	30358	45.4%	8
No	86258	84.0%	25731	54.5%	35819	53.6%	8
Total	131727	100.0%	47854	100.0%	66177	100.0%	16

The Print Preview, as in the view below, shows how the report will print.

CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the 2003 Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

Variance Estimation Methods

To account for the sample design,¹ it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or jackknife replication, the public release files for the Quarter III 2003 Adult HCSDB include the following variables:

- The stratum variable (ADJ_CELL) for the Taylor series linearization method
- Quarterly final weight (WRWT) and jackknife replicate weights (WRWT01 to WRWT60)

Two popular software packages are available for performing Taylor series linearization or the jackknife replication method: SUDAAN™ (Shah et al. 1997) and WesVarPC (Brick et al. 1996), respectively.² The discussion below explains how SUDAAN and WesVarPC are used to calculate variance estimates using Taylor series linearization and jackknife replication methods.

Taylor Series Linearization Method

For most sample designs (including the 2003 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in “The 2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”.

To calculate variance estimates based on Taylor series linearization method with HCSDB’s stratified sampling design, both the stratum variable (ADJ_CELL) and the final weight (WRWT) specified for each data record are needed.

¹The 2003 HCSDB uses a stratified sampling design. For details, see “2003 Health Care Survey of DoD Beneficiaries: Quarters 1 and 2 2003 Adult Sampling Report.” Washington, DC: Mathematica Policy Research, February 2003.

²The latest version for SUDAAN 8.0 can be used for replication methods including jackknife variance estimation. SAS 8.0 also includes procedures for performing Taylor series utilization, but SUDAAN contains more options.

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling designs. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter III 2003 Adult HCSDB, the data file for adults must be sorted by ADJ_CELL before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is WRWT

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H03015), among all beneficiaries in the past 12 months who saw a specialist (H03014=1) for each region (XREGION)

```
PROC DESCRIPT DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    H03014=1;  
  SUBGROUP    XREGION;  
  LEVELS      16;  
  VAR         H03015;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H03055) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    XREGION = 3;  
  SUBGROUP    H03055 XENRLLMT;  
  LEVELS      3 5;  
  TABLES     H03055 *XENRLLMT;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.

- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Shah et al. (1997).

Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (WRWT01-WRWT60) for the 2003 Adult HCSDB in the Quarter III file. Construction of these weights is described in the Adult Technical Manual. With the replicate weights, you can produce jackknife standard errors using in-house or custom written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 7.5. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvarpc/index.html>), the following example explains how it is used to produce jackknife variance estimates for statistics from the 2003 Adult HCSDB.

Suppose you want to estimate the mean rating of specialists (H03015) by beneficiaries who went to a specialist in the past 12 months (H03014=1) for each region (XREGION). You would use WesVarPc as follows.

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the **Prep** menu, choose the **Import Data Files** screen and import all variables for the analysis. For this example, input H03014, and XREGION into the **Variables** box, WRWT01-WRWT60 into the **Replicates** box, and MPRID into the **ID** box. Also specify the replication method as JK1 on this screen.
- Create a data file for the subpopulation. Specify the subpopulation by choosing the **Subpop WesVarPC Data File** from the **Prep** menu: H03014=1.
- **Calculate estimates.** From the **Tables** menu, choose **New** and select the file created from the above procedure. Then, from the **Table Request** screen, specify H03015 as the **Analysis** variable, MEAN (H03015) as the **Compute Statistics**, and XREGION as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

H03009 - Health plan: problem to get a personal doctor or nurse you are happy with						
Value	Unweighted		Weighted			
	Count	Percent	Count	Percent	Formatted Value	
.	862	7.56	469203.80	6.76	Did not answer	
N	3232	28.35	2226338.00	32.09	Didn't get a new personal doctor/nurse	
A	13	0.11	8885.71	0.13	Invalid multiple responses	
C	628	5.51	403266.30	5.81	Should be skipped	
1	765	6.71	451987.20	6.51	A big problem	
2	1291	11.32	713054.20	10.28	A small problem	
3	4609	40.43	2665358.00	38.42	Not a problem	

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age. You will notice that the last range representing ages “75 years and older” includes 731 respondents age 75 and older.

DAGEQY - Age (As of 28 February 2003)					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
018 -- 034	2957	25.94	1532823.00	22.09	018--034
035 -- 044	2311	20.27	1191011.00	17.17	035--044
045 -- 054	1878	16.47	1102642.00	15.89	045--054
055 -- 064	2111	18.52	1391816.00	20.06	055--064
065 -- 074	1412	12.39	1103224.00	15.90	065--074
075 -- 104	731	6.41	616578.40	8.89	075 yrs and older

MPRID - Unique MPR Identifier						
Value	Unweighted		Weighted		Formatted Value	
	Count	Percent	Count	Percent		
03482165 -- 08534964	11400	100.00	6938094.00	100.00	00000001--99999999	

SVCSMPL - Branch of Service Sampling Variable						
Value	Unweighted		Weighted		Formatted Value	
	Count	Percent	Count	Percent		
1	3863	33.89	2513851.00	36.23	Army	
2	2246	19.70	1654322.00	23.84	Navy	
3	698	6.12	453283.90	6.53	Marine Corps	
4	4334	38.02	2157554.00	31.10	Air Force

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes Go to Question 1
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-9462

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Section 572, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

----- SURVEY STARTS HERE -----

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

1. Are you the person whose name appears on the mailing label of this envelope?

Yes Go to Question 2
 No Please give this questionnaire to the person addressed on the envelope.
2. By which of the following health plans are you currently covered? (Active duty service members are automatically covered by TRICARE Prime or TRICARE Prime Remote.) MARK ALL THAT APPLY.
 - a. Military Health Plans

TRICARE Prime or TRICARE Prime Remote
 TRICARE Extra or Standard (CHAMPUS)
 TRICARE Plus
 TRICARE for Life
 - b. Other Health Plans

Medicare
 Federal Employees Health Benefit Program (FEHBP)
 Medicaid
 A civilian HMO (such as Kaiser)
 Other civilian health insurance (such as Blue Cross)
 Uniformed Services Family Health Plan (USFHP)
 The Veterans Administration (VA)
 Not Sure
3. Currently, are you covered by Medicare Part A? Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

Yes, I am now covered by Medicare Part A
 No, I am not covered by Medicare Part A

4. **Currently, are you covered by Medicare Part B?** Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

5. **Currently, are you covered by Medicare supplemental insurance?** Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

6. **Which health plan did you use for all or most of your healthcare in the last 12 months? MARK ONLY ONE.**

- TRICARE Prime or TRICARE Prime Remote
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plans (USFHP)
- The Veterans Administration (VA)
- Not sure
- Did not use any health plan in the last 12 months **Go to Question 8**

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. **How many months or years in a row have you been in this health plan?**

- Less than 6 months
- 6 up to 12 months
- 12 up to 24 months
- 2 up to 5 years
- 5 up to 10 years
- 10 or more years

----- YOUR PERSONAL DOCTOR, OR NURSE -----

The next questions ask about your own healthcare. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. **A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.**

When you joined your health plan or at any time since then, did you get a new personal doctor or nurse?

- Yes
- No **Go to Question 10**

9. **With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?**

- A big problem
- A small problem
- Not a problem
- I didn't get a new personal doctor or nurse.

10. **Do you have one person you think of as your personal doctor or nurse?**

- Yes
- No **Go to Question 12**

11. **We want to know your rating of your personal doctor or nurse.**

Use any number from 0 to 10 where 0 is the worst personal doctor or nurse possible, and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?

- 0 Worst personal doctor or nurse possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best personal doctor or nurse possible
- I don't have a personal doctor or nurse.

--- GETTING HEALTHCARE FROM A SPECIALIST ---

When you answer the next questions, do not include dental visits.

12. **Specialists** are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of healthcare.

In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?

Yes No Go to Question 14

13. In the last 12 months, how much of a problem, if any, was it to get a referral to a specialist that you needed to see?

A big problem
 A small problem
 Not a problem
 I didn't need to see a specialist in the last 12 months.

14. In the last 12 months, did you see a specialist?

Yes No Go to Question 17

15. We want to know your rating of the specialist you saw most often in the last 12 months, including a personal doctor if he or she was a specialist.

Use any number from 0 to 10 where 0 is the worst specialist possible, and 10 is the best specialist possible. How would you rate the specialist?

0 Worst specialist possible
 1
 2
 3
 4
 5
 6
 7
 8
 9
 10 Best specialist possible
 I didn't see a specialist in the last 12 months.

16. In the last 12 months, was the specialist you saw most often the same doctor as your personal doctor?

Yes
 No
 I don't have a personal doctor or I didn't see a specialist in the last 12 months.

----- CALLING DOCTORS' OFFICES -----

17. In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?

Yes No Go to Question 19

18. In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed?

Never
 Sometimes
 Usually
 Always
 I didn't call for help or advice during regular office hours in the last 12 months.

----- YOUR HEALTHCARE IN THE LAST 12 MONTHS -----

19. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for healthcare.

In the last 12 months, did you make any appointments with a doctor or other health provider for regular or routine healthcare?

Yes No Go to Question 22

20. In the last 12 months, how often did you get an appointment for regular or routine healthcare as soon as you wanted?

- Never
- Sometimes
- Usually
- Always
- I didn't need an appointment for regular or routine care in the last 12 months.

21. In the last 12 months, how many days did you usually have to wait between making an appointment for regular or routine care and actually seeing a provider?

- Same day
- 1 day
- 2-3 days
- 4-7 days
- 8-14 days
- 15-30 days
- 31 days or longer
- I tried but could not get an appointment.
- I didn't need an appointment for regular or routine care in the last 12 months.

22. In the last 12 months, did you have an illness or injury that needed care right away from a doctor's office, clinic, or emergency room?

- Yes
 - No
- Go to Question 25**

23. In the last 12 months, when you needed care right away for an illness or injury, how often did you get care as soon as you wanted?

- Never
- Sometimes
- Usually
- Always
- I didn't need care right away for an illness or injury in last 12 months.

24. In the last 12 months, how long did you usually have to wait between trying to get care and actually seeing a provider for an illness or injury?

- Same day
- 1 day
- 2 days
- 3 days
- 4-7 days
- 8-14 days
- 15 days or longer
- I didn't need care right away for an illness or injury in the last 12 months.

25. In the last 12 months, how many times did you go to an emergency room to get care for yourself?

- None
- 1
- 2-3
- 4-6
- More than 6

26. In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get care for yourself?

- None **Go to Question 37**
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

27. In the last 12 months, how much of a problem, if any, was it to get the care you or a doctor believed necessary?

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

28. In the last 12 months, how much of a problem, if any, were delays in healthcare while you waited for approval from your health plan?

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

29. In the last 12 months, how often did you wait in the doctor's office or clinic more than 15 minutes past your appointment time to see the person you went to see?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

30. In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

31. In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

32. In the last 12 months, how often did doctors or other health providers listen carefully to you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

33. In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

34. In the last 12 months, how often did doctors or other health providers show respect for what you had to say?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

35. In the last 12 months, how often did doctors or other health providers spend enough time with you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

36. We want to know your rating of all your healthcare in the last 12 months from all doctors and other health providers.

Use any number from 0 to 10 where 0 is the worst healthcare possible, and 10 is the best healthcare possible.
How would you rate all your healthcare?

- 0 Worst healthcare possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best healthcare possible
- I had no visits in the last 12 months.

37. In the last 12 months, where did you go most often for your healthcare? MARK ONLY ONE ANSWER.

- A military facility - This includes: Military clinic, Military hospital, PRIMUS clinic, NAVCARE clinic
- A civilian facility - This includes: Doctor's office, Clinic, Hospital, Civilian TRICARE contractor
- Uniformed Services Family Health Plan facility (USFHP)
- Veterans Affairs (VA) clinic or hospital
- I went to none of the listed types of facilities in the last 12 months.

----- PRESCRIPTION MEDICINE -----

38. In the last 90 days, have you filled any prescriptions? A prescription means either a new prescription or a refill of an old prescription.

Yes No Go to Question 63

39. How far do you have to travel from where you live to use a military treatment facility (MTF) pharmacy.

- I live on a military installation containing a pharmacy
- Less than 5 miles
- At least 5 miles but less than 10 miles
- At least 10 miles but less than 15 miles
- At least 15 miles

40. In the last 90 days, have you filled any prescriptions at a MTF pharmacy? A prescription means either a new prescription or a refill of an old prescription.

- Yes, new prescriptions only
- Yes, refills only Go to Question 42
- Yes, both new prescriptions and refills
- No Go to Question 45

41. In the last 90 days, when you filled new prescriptions at a MTF pharmacy, what kind of information about your medications did you usually receive?

- Verbal instructions or information
- Written instructions or information provided with the prescription
- Both written and verbal instructions or information
- No information at all
- I did not fill any new prescriptions at a MTF

42. In the last 90 days, how often did you have to wait more than 30 minutes at a MTF pharmacy for your prescription to be filled?

- Never
- Sometimes
- Usually
- Always

43. In the last 90 days, why did you choose to fill your prescriptions at a MTF pharmacy? MARK ALL THAT APPLY

- I was at the MTF for a medical appointment
- I was visiting the military installation for another reason
- The MTF pharmacy is conveniently located
- Prescription drugs are free at the MTF pharmacy
- I like the service at the MTF pharmacy
- My doctor recommended I use the MTF pharmacy
- I get better instructions and information at the MTF pharmacy than at other pharmacies
- I trust the MTF pharmacy more than others to fill prescriptions correctly

44. We want to know your rating of the MTF pharmacy where you filled prescriptions in the last 90 days.

Use any number from 0 to 10 where 0 is the worst pharmacy possible, and 10 is the best pharmacy. How would you rate your MTF pharmacy now?

- 0 Worst pharmacy possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best pharmacy possible
- I did not fill any prescriptions at a MTF pharmacy

TRICARE retail network pharmacies are civilian pharmacies that sign agreements to work with TRICARE. At network pharmacies, you pay only a small copay for a 30-day supply of a prescription drug. At non-network civilian pharmacies, you may have to pay the full cost of the prescription and file claims for reimbursement. You then must pay a deductible and a larger copay.

45. How far do you have to travel, from your home or workplace to use a TRICARE retail network pharmacy?

- Less than 2 miles
- At least 2 miles but less than 5 miles
- At least 5 miles but less than 15 miles
- At least 15 miles
- Don't Know

46. In the last 90 days, have you filled any prescriptions at a TRICARE retail network pharmacy? A prescription means either a new prescription or a refill of an old prescription.

- Yes, new prescriptions only
- Yes, refills only **Go to Question 48**
- Yes, both new prescriptions and refills
- No **Go to Question 52**

47. In the last 90 days, when you filled new prescriptions at a TRICARE retail network pharmacy, what kind of information about your medications did you usually receive?

- Verbal instructions or information
- Written instructions or information provided with the prescription
- Both written and verbal instructions or information
- No information at all
- I did not fill any new prescriptions at a network pharmacy

48. In the last 90 days, how often did you have to wait more than 30 minutes at a TRICARE retail network pharmacy for your prescription to be filled?

- Never
- Sometimes
- Usually
- Always

49. In the last 90 days, have you filled any prescriptions at a TRICARE retail network pharmacy for medications you have been taking or will take for a long time (at least 90 days)?

- Yes
- No **Go to Question 51**

50. In the last 90 days, why did you choose to fill your long term prescriptions at a TRICARE retail network pharmacy? MARK ALL THAT APPLY

- I do not know how to get drugs through the mail order pharmacy
- I do not feel comfortable getting drugs through the mail
- The network pharmacy is most convenient
- The mail order pharmacy does not have the medication I need
- I like the service at the network pharmacy
- I get better instructions and information at the network pharmacy than at other pharmacies
- The MTF pharmacy does not have the medication I need
- I trust the network pharmacy more than others to fill prescriptions correctly

51. We want to know your rating of the TRICARE retail network pharmacy where you filled prescriptions in the last 90 days.

Use any number from 0 to 10 where 0 is the worst pharmacy possible, and 10 is the best pharmacy. How would you rate your network pharmacy now?

- 0 Worst pharmacy possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best pharmacy possible
- I did not fill any prescriptions at a network pharmacy

52. In the last 90 days, have you filled any prescriptions at a non-network civilian pharmacy? A prescription means either a new prescription or a refill of an old prescription.

- Yes, new prescriptions only
- Yes, refills only **Go to Question 54**
- Yes, both new prescriptions and refills
- No **Go to Question 58**

53. In the last 90 days, when you filled new prescriptions at a non-network pharmacy, what kind of information about your medications did you usually receive?

- Verbal instructions or information
- Written instructions or information provided with the prescription
- Both written and verbal instructions or information
- No information at all
- I did not fill any new prescriptions at a network pharmacy

54. In the last 90 days, did you file any claims for prescriptions that you filled at non-network pharmacies?

- Yes
- No

Go to Question 56

55. In the last 90 days, what problems, if any, did you encounter with your claims? MARK ALL THAT APPLY.

- None
- Instructions for completing the claim form were difficult to understand
- It was difficult to obtain a claim form
- It took more than 20 days for my claim to be processed

56. In the last 90 days, why did you choose to fill your prescription at a non-network pharmacy? MARK ALL THAT APPLY

- I used other health insurance (not TRICARE)
- I was traveling
- The network pharmacy is not conveniently located
- I did not know how to determine if the pharmacy was in the network
- I prefer the non-network pharmacy
- I did not know there was a difference between network and non-network pharmacies

57. We want to know your rating of the non-network civilian pharmacy where you filled prescriptions in the last 90 days.

Use any number from 0 to 10 where 0 is the worst pharmacy possible, and 10 is the best pharmacy. How would you rate your non-network pharmacy now?

- 0 Worst pharmacy possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best pharmacy possible
- I did not fill any prescriptions at a non-network pharmacy.

The TRICARE mail order pharmacy enables you to get drugs from TRICARE through the mail. Through the mail order pharmacy, you may fill a prescription for a 90-day supply of most drugs for a small copay.

58. In the last 90 days, have you filled any prescriptions through the TRICARE mail order pharmacy? A prescription means either a new prescription or a refill of an old prescription.

- Yes, new prescriptions only
- Yes, refills only
- Yes, both new prescriptions and refills
- No

59. In the last 90 days, how often did you get prescription drugs from the TRICARE mail order pharmacy within 14 days of the day you placed your order.

- Never
- Sometimes
- Usually
- Always
- I did not order drugs from the mail-order pharmacy

60. In the last 90 days, have you tried to use the Express Scripts website to order refills? Express Scripts is the contractor that operates the TRICARE mail order pharmacy.

Yes No [Go to Question 62](#)

61. In the last 90 days, how much of a problem, if any, was it to order refills on the Express Scripts website?

- A big problem
- A small problem
- No problem
- I did not try to use the Express Scripts website

62. We want to know your rating of the TRICARE mail order pharmacy.

Use any number from 0 to 10 where 0 is the worst pharmacy possible, and 10 is the best pharmacy. How would you rate that pharmacy now?

- 0 Worst pharmacy possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best pharmacy possible
- I did not fill any prescriptions at the mail order pharmacy.

----- TRICARE'S CIVILIAN NETWORK -----

The following questions ask about your experiences with the TRICARE civilian provider network. TRICARE, including TRICARE Prime and Extra, is the healthcare system of the Department of Defense that provides care for active duty and retired military personnel and their dependents. TRICARE includes the hospitals, clinics and pharmacies of the three services, supplemented by a civilian network. The TRICARE civilian provider network is made up of the doctors, clinics, hospitals and other health care providers who are part of DoD's preferred provider pool. The next six questions refer to health services you received from the civilian network.

63. In the past 12 months, how much of your healthcare did you receive from the TRICARE civilian provider network?

- All of my healthcare
- Most of my healthcare
- Some of my healthcare
- None of my healthcare
- I did not need healthcare in the past 12 months [Go to Question 69](#)

64. In the past 12 months, how much of a problem was it to get the healthcare you wanted from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to get healthcare from the civilian network

65. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

In the past 12 months, how much of a problem was it to find a conveniently located doctor from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a personal doctor from the civilian network

66. In the past 12 months, how much of a problem was it to find a conveniently located lab or x-ray facility in the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a lab or x-ray facility in the civilian network

67. **Specialists** are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of healthcare.

In the past 12 months, how much of a problem was it to find a conveniently located specialist from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a specialist in the civilian network.

68. In the past 12 months, did you learn that a doctor whom you wanted to see had left the TRICARE civilian provider network?

- Yes
- No
- I did not want to see any network doctors

----- YOUR HEALTH PLAN -----

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

69. **Claims are sent to a health plan for payment.** You may send in the claims yourself, or doctors, hospitals, or others may do this for you.

In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes
- No Go to Question 73
- Don't know Go to Question 73

70. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

71. In the last 12 months, how often did your health plan handle your claims correctly?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

72. In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

73. In the last 12 months, did you look for any information in written materials from your health plan?

- Yes
- No Go to Question 75

74. In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?

- A big problem
- A small problem
- Not a problem
- I didn't look for information from my health plan in the last 12 months.

75. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes
- No Go to Question 77

76. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem
- A small problem
- Not a problem
- I didn't call my health plan's customer service in the last 12 months.

77. In the last 12 months, have you called or written your health plan with a complaint or problem?

- Yes
- No

Go to Question 80

78. How long did it take for the health plan to resolve your complaint?

- Same day
- 1 week
- 2 weeks
- 3 weeks
- 4 or more weeks
- I am still waiting for it to be settled.
- I haven't called or written with a complaint or problem in the last 12 months.

79. Was your complaint or problem settled to your satisfaction?

- Yes
- No
- I am still waiting for it to be settled.
- I haven't called or written with a complaint or problem in the last 12 months.

80. Paperwork means things like having your records changed, processing forms, or other paperwork related to getting care.

In the last 12 months, did you have any experiences with paperwork for your health plan?

- Yes
- No

Go to Question 82

81. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem
- A small problem
- Not a problem
- I didn't have any experiences with paperwork for my health plan in the last 12 months.

82. We want to know your rating of all your experience with your health plan.

Use any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible. How would you rate your health plan now?

- 0 Worst health plan possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best health plan possible

83. If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?

- Very unlikely
- Unlikely
- Neither likely nor unlikely
- Likely
- Very likely
- Not sure
- I am not currently enrolled in TRICARE Prime

----- PREVENTATIVE CARE -----

Preventative care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or a cholesterol screening are examples of preventative care.

84. When did you last have a blood pressure reading?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago

85. Do you know if your blood pressure is too high?

- Yes, it is too high
- No, it's not too high
- Don't know

86. When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a cholesterol screening

87. When did you last have a flu shot?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago
- Never had a flu shot

88. Have you ever smoked at least 100 cigarettes in your entire life?

- Yes
- No Go to Question 92
- Don't know Go to Question 92

89. Do you now smoke every day, some days or not at all?

- Every day Go to Question 91
- Some days Go to Question 91
- Not at all Go to Question 90
- Don't know Go to Question 92

90. How long has it been since you quit smoking cigarettes?

- Less than 12 months Go to Question 91
- 12 months or more Go to Question 92
- Don't know Go to Question 92

91. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

92. Are you male or female?

- Male Go to Question 93
- Female Go to Question 94

93. When was the last time you had a prostate gland examination or blood test for prostate disease?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a prostate gland examination

Go to Question 101

94. When did you last have a Pap smear test?

- Within the last 12 months
- 1 to 3 years ago
- More than 3 but less than 5 years ago
- 5 or more years ago
- Never had a Pap smear test

95. Are you under age 40?

- Yes Go to Question 98
- No

96. When was the last time your breasts were checked by mammography?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a mammogram

97. When was the last time you had a breast exam by a healthcare professional?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a breast exam

98. Have you been pregnant in the last 12 months or are you pregnant now?

- Yes, I am currently pregnant **Go to Question 99**
- No, I am not currently pregnant, but have been pregnant in the past 12 months **Go to Question 100**
- No, I am not currently pregnant, and have not been pregnant in the past 12 months **Go to Question 101**

99. In what trimester is your pregnancy?

- First trimester
- Second trimester
- Third trimester

100. In which trimester did you first receive prenatal care?

- First trimester
- Second trimester
- Third trimester
- Did not receive prenatal care

----- ABOUT YOU -----

101. Would you say that in general your health is:

- Excellent
- Very Good
- Good
- Fair
- Poor

102. Are you limited in any way in any activities because of any impairment or health problem?

- Yes
- No

103. Thinking about your physical health, which includes physical illness and injury, for how many days during the past 30 days was your physical health not good?

- 0
- 7
- 14

- 5
- 12
- 19
- 26
- 6
- 13
- 20
- 27

105. During the past 30 days, for about how many days did poor physical or mental health keep you from doing your usual activities, such as self-care, work, or recreation?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

106. During the past 30 days, for about how many days did pain make it hard for you to do your usual activities, such as self-care, work, or recreation?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

107. During the past 30 days, for about how many days have you felt sad, blue, or depressed?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

108. During the past 30 days, for about how many days have you felt worried, tense or anxious?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

109. During the past 30 days, for about how many days have you felt you did not get enough rest or sleep?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

110. During the past 30 days, for about how many days have you felt very healthy and full of energy?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

111. What is the highest grade or level of school that you have completed?

- 8th grade or less
 Some high school, but did not graduate
 High school graduate or GED
 Some college or 2-year degree
 4-year college graduate
 More than 4-year college degree

112. Are you of Hispanic or Latino origin or descent? (Mark "NO" if not Spanish/Hispanic/Latino.)

- No, not Spanish, Hispanic, or Latino
 Yes, Mexican, Mexican American, Chicano
 Yes, Puerto Rican
 Yes, Cuban
 Yes, other Spanish, Hispanic, or Latino

113. What is your race? (Mark ONE OR MORE races to indicate what you consider yourself to be.)

- White
 Black or African American
 American Indian or Alaska Native
 Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
 Native Hawaiian or other Pacific Islander (e.g., Somoan, Guamanian, or Chamorro)

114. What is your age now?

- 18 to 24
- 25 to 34
- 35 to 44
- 45 to 54
- 55 to 64
- 65 to 74
- 75 or older

THANK YOU FOR TAKING THE TIME TO COMPLETE THE SURVEY! Your generous contribution will greatly aid efforts to improve the health of our military community.

Return your survey in the postage-paid envelope. If envelope is missing, please send to: National Research Corporation, Survey Processing Center, PO BOX 82660, Lincoln, NE 68501-9465

CODING SCHEME AND CODING TABLES

2003 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB)
CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS	ASCII/EBCDIC	
Numeric	Numeric	Description
.	-9	No response
.A	-8	Multiple response error
.O	-7	Out of range error
.N	-6	Not Applicable or valid skip
.D	-5	Scalable response of “Don’t know” or “not sure”
.I	-4	Incomplete grid error
.C	-1	Question should have been skipped.

Missing values ‘.’, multiple responses ‘.A’, and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

Coding Table for Note 1:

H03006, H03007

N1	H03006 is:	H03007 is:	H03006 is coded as:	H03007 is coded as:	*
1	1-11, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 2:

H03008, H03009

N2	H03008 is:	H03009 is:	H03008 is coded as:	H03009 is coded as:	*
1	1: yes	1-3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't get a new doctor	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1- 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't get a new doctor	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3:
H03010, H03011

N3	H03010 is:	H03011 is:	H03010 is coded as:	H03011 is coded as:	*
1	1: yes	0-10, missing, or multiple response	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	-6, I don't have a personal doctor or nurse	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	0-10 or multiple response	1: yes	Stands as original value	B
4	2: no	-6, I don't have a personal doctor or nurse, or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 4:
H03012, H03013

N4	H03012 is:	H03013 is:	H03012 is coded as:	H03013 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 5:
H03014, H03015, H03016

N5	H03014 is: Are:	H03015, H03016 Are:	H03014 is coded as:	H03015, H03016 Are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 5:
H03015 and H0316 are both missing.

Definition of “blank or NA” in Coding Table for Note 5:
H03015 and H03016 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 5:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

Coding Table for Note 6:
H03017, H03018

N6	H03017 is:	H03018 is:	H03017 is coded as:	H03018 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often, multiple response	1: yes	Stands as original value	B
4	2: no	-6: no calls or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 7:
H03019, H03020, H03021**

N7	H03019 is:	H03020 & H03021 are:	H03019 is coded as:	H03020 & H03021 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:

Responses to H03020 and H03021 are both missing.

Definition of “blank or NA” in Coding Table for Note 7:

Responses to H03020 and H03021 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 7:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 8:
H03022, H03023, H03024**

N8	H03022 is:	H03023 & H03024 are:	H03022 is coded as:	H03023 & H03024 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 8:

Responses to H03023 and H03024 are both missing.

Definition of “blank or NA” in Coding Table for Note 8:

Responses to H03023 and H03024 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 8:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 9:
H03026, H03027-H03036**

N9	H03026 is:	H03027- H03036 are:	H03026 is coded as:	H03027- H03036 are coded as:	*
1	1: None	At least one is “marked”, “All are blank”, or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
4	Missing response	“All are blank”	Stands as original value	Stand as original value	
5	Multiple response	“All are blank”	1: None	.N, valid skip	B
6	Missing or Multiple Response	At least one is “Marked”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9:

Responses to H03027-H03036 are all missing.

Definition of “Blank or NA” in Coding Table for Note 9:

Responses to H03027-H03036 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 9:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

Coding Table for Note 9E:
S03Y01, S03Y02 - S03Y25

N9E	S03Y01 is:	S03Y02 - S03Y25 are:	S03Y01 is coded as:	S03Y02 - S03Y25 are coded as:	*
1	1: yes	"All are blank" or at least one is "marked"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"All are blank" or "blank or NA"	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 9E:

Responses to S03Y02-S03Y25 are both missing.

Definition of "blank or NA" in Coding Table for Note 9E:

Responses to S03Y02-S03Y25 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of "marked" in Coding Table for Note 9E:

Any pattern of marks outside the definitions "all are blank" and "blank or NA"

Coding Table for Note 9F:
S03Y03, S03Y04, S03Y05- S03Y07

N9F	S03Y03 is:	S03Y04 is:	S03Y05 - S03Y07 are:	S03Y03 is coded as:	S03Y04 is coded as:	S03Y05 - S03Y07 are coded as:	*
1	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	Stands as original value	Stands as original value	Stands as original value	
2	1, 3: yes, new prescription (only or and refills)	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	Stand as original value	Stand as original value	
3	2: yes, refills only	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	4: no	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	3: Yes, both new prescriptions and refills	Stand as original value	Stand as original value	B
6	Missing or multiple response	Missing response	Marked, missing or multiple response	Stands as original value	Stand as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9F:

Responses to S03Y04-S03Y07 are all missing.

Definition of “Blank or NA” in Coding Table for Note 9F:

Responses to S03Y04-S03Y07 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 9F:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

Coding Table for Note 9G:
S03Y09, S03Y10, S03Y11-S03Y14

N9G	S03Y09 is:	S03Y10 is:	S03Y11 - S03Y14 are:	S03Y09 is coded as:	S03Y10 is coded as:	S03Y11 - S03Y14 are coded as:	*
1	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	Stands as original value	Stands as original value	Stands as original value	
2	1, 3: yes, new prescription (only or and refills)	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	Stand as original value	Stand as original value	
3	2: yes, refills only	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	4: no	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	3: Yes, both new prescriptions and refills	Stand as original value	Stand as original value	B
6	Missing or multiple response	Missing response	Marked, missing or multiple response	Stands as original value	Stand as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9G:

Responses to S03Y10-S03Y14 are all missing.

Definition of “Blank or NA” in Coding Table for Note 9G:

Responses to S03Y10-S03Y14 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 9G:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

Coding Table for Note 9H:
S03Y12, S03Y13A-S03Y13H

N9H	S03Y12 is: Are:	S03Y13A-S03Y13H Are:	S03Y12 is coded as:	S03Y13A-S03Y13H Are coded as:	*
1	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	Stands as original value	Stands as original value	
2	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
3	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
4	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
5	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
6	Missing response	“All are blank”	Stands as original value	Stand as original value	
7	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9H:
S03Y13A-S03Y13H are both missing.

Definition of “blank or NA” in Coding Table for Note 9H:
S03Y13A-S03Y13H are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 9H:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 9I:
S03Y15, S03Y16, S03Y17-S03Y20**

N9I	S03Y15 is:	S03Y16 is:	S03Y17 - S03Y20 are:	S03Y15 is coded as:	S03Y16 is coded as:	S03Y17 - S03Y20 are coded as:	*
1	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	Stands as original value	Stands as original value	Stands as original value	
2	1, 3: yes, new prescription (only or and refills)	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	Stand as original value	Stand as original value	
3	2: yes, refills only	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	4: no	Marked, missing, or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	3: Yes, both new prescriptions and refills	Stand as original value	Stand as original value	B
6	Missing or multiple response	Missing response	Marked, missing or multiple response	Stands as original value	Stand as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9I:

Responses to S03Y16-S03Y20 are all missing.

Definition of “Blank or NA” in Coding Table for Note 9I:

Responses to S03Y16-S03Y20 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 9I:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

Coding Table for Note 9J:
S03Y17, S03Y18A-S03Y18D

N9J	S03Y17 is: Are:	S03Y18A-S03Y18D Are:	S03Y17 is coded as:	S03Y18A-S03Y18D Are coded as:	*
1	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	Stands as original value	Stands as original value	
2	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
3	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
4	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
5	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
6	Missing response	“All are blank”	Stands as original value	Stand as original value	
7	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9J:
S03Y18A-S03Y18D are both missing.

Definition of “blank or NA” in Coding Table for Note 9J:
S03Y18A-S03Y18D are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 9J:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

Coding Table for Note 9K:

S03Y21, S03Y22-S03Y25

N9K	S03Y21 is:	S03Y22-S03Y25 Are:	S03Y21 is coded as:	S03Y22-S03Y25 Are coded as:	*
1	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	Stands as original value	Stands as original value	
2	1, 2, 3: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
3	1, 2, 3: yes, missing, or multiple response	“Blank or NA”	4: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
4	4: no, missing, or multiple response	At least one is “marked”	3: yes, both new prescription and refills	Stand as original value	B
5	4: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
6	Missing response	“All are blank”	Stands as original value	Stand as original value	
7	Multiple response	“All are blank”	4: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9K:

S03Y22-S03Y25 are both missing.

Definition of “blank or NA” in Coding Table for Note 9K:

S03Y22-S03Y25 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 9K:

Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

Coding Table for Note 9L:

S03Y23, S03Y24

N9L	S03Y23 is:	S03Y24 is:	S03Y23 is coded as:	S03Y24 is coded as:	*
1	.N, valid skip or .C, question should not have been answered	.N, valid skip or .C, question should not have been answered	Stands as original value	Stands as original value	
2	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
3	1: yes, missing, or multiple response	-6: didn’t use Express Scripts website	2: No	.C question should be skipped	B
4	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
5	2: no	Missing, or -6: didn’t use Express Scripts website	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 13:
S03V01, S03V02, S03V04-S03V07

N13	S03V01 is: Are:	S03V02, S03V04-S03V07	S03V01 is coded as:	S03V02, S03V04-S03V07	*
1	1,2,3,4: some or no healthcare	"All are blank" or at least one is "marked"	Stands as original value	Stand as original value	
2	1,2,3: at least some healthcare, missing, or multiple response	"Blank or NA"	-6: didn't need healthcare in past 12 months	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	4: no healthcare	"Blank or NA"	Stands as original value	Stands as original value	
4	-6: didn't need healthcare in past 12 months	At least one is "marked", "All are blank" or "blank or NA"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stands as original value	
6	Multiple response	"All are blank"	-6, didn't need healthcare in past 12 months	.N, valid skip	B F
7	Missing or Multiple response	At least one is "marked"	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 13:
S03V02, S03V04-S03V07 are all missing.

Definition of "blank or NA" in Coding Table for Note 13:
S03V02, S03V04-S03V07 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of "marked" in Coding Table for Note 13:
Any pattern of marks outside the definitions "all are blank" and "blank or NA."

Coding Table for Note 14:
H03039, H03040-H03042

N14 H03039 is:		H03040-H03042 are:	H03039 is coded as:	H03040-H03042 are coded as:	*
1	1: yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	Stand as original value	
2	1: yes, -5: don’t know, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, -5: don’t know, missing, or multiple response	At least one is “marked” or “blank or don’t know”	1: yes	Stand as original value	B
4	2: no, -5: don’t know	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 14:

Responses to H03040-H03042 are all missing.

Definition of “blank or NA” in Coding Table for Note 14:

Responses to H03040-H03042 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 14:

Responses to H03040-H03042 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 14:

Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

Table for Note 15:
H03043, H03044

N15	H03043 is:	H03044 is:	H03043 is coded as:	H03044 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't look for information in health plan	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't look for information in health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 16:
H03045, H03046

N16	H03045 is:	H03046 is:	H03045 is coded as:	H03046 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't call health plan	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't call health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 17:
H03047, H03048, H03049

N17	H03047 is:	H03048 & H03049 are:	H03047 is coded as:	H03048 & H03049 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 17:

Responses to H03048 and H03049 are both missing.

Definition of “blank or NA” in Coding Table for Note 17:

Responses to H03048 and H03049 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 17:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 18:
H03050, H03051

N18	H03050 is:	H03051 is:	H03050 is coded as:	H03051 is coded as:	*

Coding Table for Note 20:

Note 20 (Part B):

H03063, SEX, XSEXA, H03064-H03071

N20B	H03063:	SEX is:	H03064 is:	H03065--H03071 are:	XSEXA is coded as:
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male
14	2, female	Any value	Missing or multiple response	Any marked	2, female
15	2, female	M	Marked	All missing or multiple response	1, male
16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H03063), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

Note 20 (Part C):
XSEXA, H03064

N20C	XSEXA is:	H03064 is:	H03064 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Note 20 (Part D):
XSEXA, H03065 - H03071

N20D	XSEXA is:	H03065--H03071 are:	H03065 --H03071 are coded as:	*
1	1: Male	“All are blank”	.N, valid skip	F
2	1: Male	At least one is “marked”	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stands as original value	
4	Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 20d:

All variables H03065--H03071 are missing.

Definition of “marked” in Coding Table for Note 20d:

Any pattern of marks outside the definition “all are blank.”

Coding Table for Note 21
XSEXA, AGE, H03066, H03067, H03068

N21	XSEXA is:	AGE is:	H03066 is:	H03067 & H03068 are:	H03066 is coded as:	H03067 & H03068 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value

79	H03029	Num	4	280	OFTEN9_.	11.	In 1st yr:wait > 15 min past appt see Dr
80	H03030	Num	4	284	OFTEN9_.	11.	In 1st yr:how oftn treat w/crtsy/rspct
81	H03031	Num	4	288	OFTEN9_.	11.	In 1st yr:how oftn staff helpful
82	H03032	Num	4	292	OFTEN9_.	11.	In 1st yr:how oftn Drs listen to you
83	H03033	Num	4	296	OFTEN9_.	11.	In 1st yr:how oftn Drs explain things
84	H03034	Num	4	300	OFTEN9_.	11.	In 1st yr:how oftn Drs show respect
85	H03035	Num	4	304	OFTEN9_.	11.	In 1st yr:how oftn Drs spend enough time
86	H03036	Num	4	308	RATE3_.	11.	Rating of all health care in 1st yr
87	H03038	Num	4	312	PLACE.	11.	In 1st yr:fclty use most for Health care
88	H03039	Num	4	316	YNDNK.	11.	In 1st yr:send in any claims
89	H03040	Num	4	320	OFTEN6_.	11.	In 1st yr:Hlth pln handle in rsmble time
90	H03041	Num	4	324	OFTEN6_.	11.	In 1st yr:how oftn handle correctly
91	H03042	Num	4	328	OFTEN6_.	11.	In 1st yr:before care, know amt to pay
92	H03043	Num	4	332	YN.	11.	In 1st yr:info in written materials
93	H03044	Num	4	336	PROB7_.	11.	In 1st yr:prblm to find/undrstnd mtrls
94	H03045	Num	4	340	YN.	11.	In 1st yr:health plan's cstmr svrc help
95	H03046	Num	4	344	PROB8_.	11.	In 1st yr:prblm get help from cstmr svrc
96	H03047	Num	4	348	YN.	11.	Call or write plan with complaint/prblm
97	H03048	Num	4	352	TIME3_.	11.	How long for Hlth pln to resolve cmplnt
98	H03049	Num	4	356	YNSET.	11.	Complaint/prblm settled to satisfaction
99	H03050	Num	4	360	YN.	11.	In 1st yr:experiences with paperwork
100	H03051	Num	4	364	PROB9_.	11.	In 1st yr:prblms with paperwork
101	H03052	Num	4	368	RATE5_.	11.	Rating of all experience with hlth plan
102	H03053	Num	4	372	LIKELY.	11.	In nxt yr:lkly to dsrnl in TRICARE Prime
103	H03055	Num	4	376	TIME5_.	11.	Blood pressure: when 1st reading
104	H03056	Num	4	380	YNBP_.	11.	Blood pressure: know if too high or not
105	H03057	Num	4	384	TIME6_.	11.	When 1st have cholesterol screening
106	H03058	Num	4	388	TIME7_.	11.	When did you 1st have a flu shot
107	H03059	Num	4	392	YNDNK.	11.	Smoked at least 100 cigarettes in life
108	H03060	Num	4	396	TIME8_.	11.	Smoke everyday, some days or not at all
109	H03061	Num	4	400	TIME9_.	11.	How long since you quit smoking
110	H03062	Num	4	404	OFTEN8_.	11.	1st yr: # visits advised to quit smoking
111	H03063	Num	4	408	SEX.	11.	Are you male or female
112	H03064	Num	4	412	TIME10_.	11.	1st prostate disease exam or blood test
113	H03065	Num	4	416	TIME11_.	11.	1st have a Pap smear test
114	H03066	Num	4	420	YN.	11.	Are you under age 40
115	H03067	Num	4	424	TIME12_.	11.	1st time: breasts checked mammography
116	H03068	Num	4	428	TIME13_.	11.	1st time: breast exam by professional
117	H03069	Num	4	432	YNPREG.	11.	Been pregnant in 1st yr or pregnant now
118	H03070	Num	4	436	PREG1_.	11.	In what trimester is your pregnancy
119	H03071	Num	4	440	PREG2_.	11.	Trimester first received prenatal care
120	H03072	Num	4	444	HEALTH.	11.	In gnrl, how would you rate ovrral hlth
121	H03073	Num	4	448	YN.	11.	Impairment/Hlth prblm limit activities
122	H03074	Num	4	452	TIME14_.	11.	Last 30 days:Days physical hlth not good
123	H03075	Num	4	456	TIME14_.	11.	Last 30 days:Days mental hlth not good
124	H03076	Num	4	460	TIME14_.	11.	Last 30 days:Days Health hinder actvty
125	H03077	Num	4	464	TIME14_.	11.	Last 30 days:Days Pain hndr usual actvty
126	H03078	Num	4	468	TIME14_.	11.	Last 30 days:Days felt Sad/Depressed
127	H03079	Num	4	472	TIME14_.	11.	Last 30 days:Days wrried/tense/anxious
128	H03080	Num	4	476	TIME14_.	11.	Last 30 days:Days without enough sleep
129	H03081	Num	4	480	TIME14_.	11.	Last 30 days:Days hlthy, full of enrgy
130	H03082	Num	4	484	HISP.	11.	Are you Spanish/Hispanic/Latino
41	H03002A	Num	4	128	MARKED.	11.	Health plan(s) covered: TRICARE Prime
42	H03002C	Num	4	132	MARKED.	11.	Health plan(s) covered: TRICARE Ext/Stnd
43	H03002F	Num	4	136	MARKED.	11.	Health plan(s) covered: MEDICARE
44	H03002G	Num	4	140	MARKED.	11.	Health plan(s) covered: FEHBP
45	H03002H	Num	4	144	MARKED.	11.	Health plan(s) covered: Medicaid
46	H03002I	Num	4	148	MARKED.	11.	Health plan(s) covered: Civilian HMO
