

Contract No.: 233-02-0086
MPR Reference No.: 6244-500

2007 Health Care Survey of DoD Beneficiaries:

Adult Codebook and User's Guide

February 2007

Quarter I

Survey Fielded: October 2006

Submitted to:

TRICARE Management Activity
5111 Leesburg Pike, Suite 810
Falls Church, VA 22041
(703) 681-3636

Task Order Officer:

CDR Kimberley Marshall, Ph. D.

Submitted by:

Mathematica Policy Research, Inc.
600 Maryland Ave., SW, Suite 550
Washington, DC 20024-2512
(202) 484-9220

Project Director:

Eric Schone, Ph. D.

Table of Variables

		Page
QUARTERLY FREQUENCIES		
SAMPLING VARIABLES		
MPRID	- Unique MPR Identifier	103
SVCSMPL	- Branch of Service Sampling Variable.....	103
SEXSMPL	- Sex Sampling Variable	103
STRATUM	- Sampling stratum	104
CACSMPL	- Catchment Area	110
ENBGSMPL	- Enrollment by beneficiary category	113
MPCSMPL	- Military Personnel Category	113
NHFF	- Stratum Sample Size	113
SERVAREA	- Service Area.....	114
QUARTER	- Survey Quarter	114
DCATCH	- Catchment Area	115
MSM	- Multiple Service Market Areas	118
D_FAC	- Facility Type Code.....	118
D_HEALTH	- Health Service Region	118
TNEXREG	- TRICARE Next Generation of Contracts Region grouping	119
SERVAFF	- Service Affiliation.....	119
BWT	- Basic Sampling Weight	119
DEERS VARIABLES		
MRTLSTAT	- Marital Status	120
RACEETHN	- Race/Ethnic Code	120
PNSEXCD	- Person Gender.....	120
LEGDDSCD	- DDS Code	121
DAGEQY	- Age at time of data collection	121
FIELDAGE	- Age at start of fielding period	121
PCM	- Primary Manager Code (Civilian or Military)	122
ACV	- Alternate Care Value.....	122
DBENCAT	- Beneficiary Category.....	123
DMEDELG	- Medical Privilege Code	123
DSPONSVC	- Derived Sponsor Branch of Service	123
MBRRELCD	- Member Relationship Code.....	124
MEDTYPE	- Medicare Type.....	124
PATCAT	- Aggregated Beneficiary Category	124
PNTYPCD	- Person Type Code	124
PNLCATCD	- Personnel Category Code (Duty Status).....	125
QUESTIONNAIRE RESPONSES		
H07001	- Are you the person listed on envelope.....	125
H07002A	- Health plan(s) covered: TRICARE Prime.....	125
H07002C	- Health plan(s) covered: TRICARE Ext/Std.....	125
H07002F	- Health plan(s) covered: MEDICARE	126
H07002G	- Health plan(s) covered: FEHBP	126
H07002H	- Health plan(s) covered: Medicaid	126
H07002I	- Health plan(s) covered: Civilian HMO	126
H07002J	- Health plan(s) covered: Other civilian	126
H07002K	- Health plan(s) covered: USFHP	127
H07002L	- Health plan(s) covered: Not sure	127
H07002M	- Health plan(s) covered: Veterans	127
H07002N	- Health plan(s) covered: TRICARE Plus	127
H07002O	- Health plan(s) covered: TRICARE For Life	127
H07002P	- Health plan(s) covered: TRICARE Supplemental Insurance	128
H07002Q	- Health plan(s) covered: TRICARE Reserve	128

H07002R	- Health plan(s) covered: Other Government Health Insurance	128
H07003	- Currently Covered Medicare Part A	128
H07004	- Currently Covered Medicare Part B	129
H07005	- Currently Covered Medicare Supplemental	129
H07006	- Which health plan did you use most in the past 12 months?	129
H07007	- Months or years in a row with health plan	130
H07008	- Have one person you think of as personal doctor	130
H07009	- Rating of your personal doctor or nurse	130
H07010	- Had same personal Dr/nurse before joining health plan	131
H07011	- Health plan: problem to get a personal doctor or nurse you are happy with	131
H07012	- In last year: you or a doctor or nurse think you needed to see a specialist.....	131
H07013	- In last year: how much of a problem to see a specialist you needed to see	131
H07014	- In last year: did you see a specialist	132
H07015	- Rating of specialist seen most often in last year	132
H07016	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself.....	132
H07017	- In last year: when you called during regular office hours how often got help or advice you needed.....	133
H07018	- In last year: have illness/injury/condition that needed care right away	133
H07019	- In last year: when needed care right away for an illness or injury got care as soon as wanted.....	133
H07020	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury	134
H07021	- In last year: made any appointment for regular or routine health care.....	134
H07022	- In last year: how often made appointments for regular or routine health care as soon as you wanted.....	134
H07023	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	135
H07024	- In last year: times went to an emergency room for own care.....	135
H07025	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room).....	135
H07026	- In last year: did you/Dr believe you needed any care, tests, or treatment	136
H07027	- In last year: problem to get necessary care	136
H07028	- In last year: need approval from health plan for any care, tests, or treatment	136
H07029	- In last year: problem with delays in healthcare while waiting for approval from health plan	137
H07030	- In last year: how often taken to exam room within 15 minutes of appointment....	137
H07031	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect.....	137
H07032	- In last year: how often office staff at a doctor's office or clinic as helpful as expected	138
H07033	- In last year: how often doctors or other health providers listen carefully to you....	138
H07034	- In last year: how often doctors or other health providers explain things in way you could understand.....	138
H07035	- In last year: how often doctors or other health providers show respect for what you had to say.....	139
H07036	- In last year: how often doctors or other health providers spend enough time with you	139
H07037	- Rating of all healthcare in last year	139
H07038	- In last year: facility used most for health care	140
H07039	- In last year: sent in any claims to your health plan.....	140
H07040	- In last year: health plan handled claims in a reasonable time.....	140
H07041	- In last year: how often health plan handled claims correctly.....	141
H07042	- In last year: look for any information in written materials/internet on how health plan works.....	141
H07043	- In last year: problem to find or understand information in the written materials/internet	141
H07044	- In last year: called health plan's customer service to get information or help	141

H07045	- In last year: problem to get the help you needed when called health plan's customer service.....	142
H07046	- In last year: have to fill out paperwork for your health plan.....	142
H07047	- In last year: how much problem with paperwork for your health plan.....	142
H07048	- Rating of all experience with health plan.....	143
H07049	- Blood pressure: when last reading.....	143
H07050	- Blood pressure: know if blood pressure is too high or not.....	143
H07051	- When did you last have a flu shot.....	144
H07052	- Smoked at least 100 cigarettes in life.....	144
H07053	- Smoke everyday, some days, or not at all.....	144
H07054	- How long since you quit smoking.....	144
H07055	- Last year: number of visits advised to quit smoking.....	145
H07056	- Last year: number of visits medication was recommended or discussed to assist with quitting smoking.....	145
H07057	- Last year: number of visits recommended or discussed methods and strategies to assist quitting smoking.....	145
H07058	- Are you male or female.....	146
H07059	- Female: Last have a Pap smear test.....	146
H07060	- Female: Are you under age 40.....	146
H07061	- Female: Last time breasts checked mammography.....	147
H07063	- Female: Been pregnant in last year or pregnant now.....	147
H07064	- Female: In what trimester is your pregnancy.....	147
H07065	- Female: Trimester first received prenatal care.....	148
H07066	- In general how would you rate your overall health.....	148
H07067	- Limited in any way in any activities because of any impairment or health problem.....	148
H07068F	- Feet portion of height without shoes.....	149
H07068I	- Inches portion of height without shoes.....	149
H07069	- Weight without shoes.....	150
H07070	- Are you Spanish, Hispanic, or Latino.....	154
H07070A	- No, Not Spanish, Hispanic, or Latino.....	155
H07070B	- Yes, Mexican, Mexican American, Chicano.....	155
H07070C	- Yes, Puerto Rican.....	155
H07070D	- Yes, Cuban.....	155
H07070E	- Yes, Other Spanish, Hispanic, or Latino.....	155
SREDA	- Highest grade completed.....	156
SRRACEA	- Race: White.....	156
SRRACEB	- Race: Black or African American.....	156
SRRACEC	- Race: American Indian or Alaska Native.....	156
SRRACED	- Race: Asian.....	157
SRRACEE	- Race: Native Hawaiian/other Pacific Islanders.....	157
SRAGE	- What is your age now?.....	157
S07G18	- Self/Spouse/Parent reservist on active duty for more than 30 consecutive days in support of contingency operations in past year.....	157
S07G19	- Reservist activated for contingency operations for more than 30 consecutive days in past year.....	158
S07G20	- Operation you were most recently activated in support of contingency operations.....	158
S07G21	- When activated for contingency operation.....	158
S07G22	- Length of time initial activation orders stated that this activation would last.....	159
S07G23	- Spouse/parent reservist activated for contingency operations for more than 30 consecutive days in past year.....	159
S07G24	- Contingency operation for which reservist spouse/parent was most recently activated.....	159
S07G25	- When was reservist spouse/parent first activated for this operation.....	160
S07G26	- Length of time initial activation orders stated that this contingency activation would last.....	160
S07G27	- Covered by civilian health insurance before becoming eligible for TRICARE.....	160

S07G28	- Current health care coverage.....	161
S07G29A	- Don't use TRICARE: Greater choice of doctors with my civilian plan	161
S07G29B	- Don't use TRICARE: Better customer service with civilian plan	161
S07G29C	- Don't use TRICARE: Personal doctor is not available through TRICARE	162
S07G29D	- Don't use TRICARE: TRICARE benefits are poor compared to civilian plan	162
S07G29E	- Don't use TRICARE: It is easier to get care through civilian plan	162
S07G29F	- Don't use TRICARE: Pay less for civilian care than would for TRICARE	162
S07G29G	- Don't use TRICARE: No military facilities near me	163
S07G29H	- Don't use TRICARE: Prefer civilian doctors	163
S07G29I	- Don't use TRICARE: Prefer civilian hospitals	163
S07G29J	- Don't use TRICARE: Happy with civilian plan and have no reason to change	163
S07G29K	- Don't use TRICARE: Another reason.....	164
S07G30	- Self/policy holder now pay all/part of the premium for your civilian health insurance	164
S07G31	- Problem getting information about TRICARE benefits once become eligible for TRICARE	164
S07G32	- Is personal doctor a civilian.....	164
S07G33	- Personal doctor accepts TRICARE.....	165
S07G34	- Difficult to see personal doctor once become eligible for TRICARE	165
S07G35	- Difficult to see specialist once become eligible for TRICARE	165
S07G36	- Self or a reservist in immediate family deactivated after 11/6/03.....	166
S07G37	- As reservist/family member of reservist, eligible for TRICARE for any period of time immediately before the reservist reported to active duty.....	166
S07G38	- Length of time in days eligible for this coverage	166
S07G39	- Eligible for TRICARE coverage for any period of time after self/reservist in immediate family deactivated.....	167

SURVEY FIELDING VARIABLES

ONTIME	- Responded Within 8 weeks of Mail-Out	167
FLAG_FIN	- Final Disposition	167
DUPFLAG	- Multiple Response Indicator.....	167
FNSTATUS	- Final Status	167
KEYCOUNT	- Number of Key Questions Answered	168
WEB	- Web survey indicator.....	168

CODING SCHEME FLAGS AND COUNTS

N1	- Coding Scheme Note 1	168
N2	- Coding Scheme Note 2	169
N3	- Coding Scheme Note 3	169
N4	- Coding Scheme Note 4	169
N5	- Coding Scheme Note 5	170
N6	- Coding Scheme Note 6	170
N7	- Coding Scheme Note 7	170
N8	- Coding Scheme Note 8	171
N9	- Coding Scheme Note 9	171
N10	- Coding Scheme Note 10	171
N11	- Coding Scheme Note 11	171
N12	- Coding Scheme Note 12	172
N13	- Coding Scheme Note 13	172
N14	- Coding Scheme Note 14	172
N15A1	- Coding Scheme Note 15A1.....	173
N15A2	- Coding Scheme Note 15A2.....	173
N15A3	- Coding Scheme Note 15A3.....	173
N15A4	- Coding Scheme Note 15A4.....	174
N15A5	- Coding Scheme Note 15A5.....	174
N15A6	- Coding Scheme Note 15A6.....	174
N16	- Coding Scheme Note 16	175
N17A	- Coding Scheme Note 17A.....	175
N17B	- Coding Scheme Note 17B.....	175

2007 HEALTH CARE SURVEY OF DOD BENEFICIARIES –QUARTER I

N18	- Coding Scheme Note 18	176
N19	- Coding Scheme Note 19	176
MISS_1	- Count of: Violates Skip Pattern	176
MISS_4	- Count of: Incomplete grid error	176
MISS_5	- Count of: Scalable response of Don't know	177
MISS_6	- Count of: Not applicable - valid skip	177
MISS_7	- Count of: Out-of-range error	178
MISS_8	- Count of: Multiple response error	178
MISS_9	- Count of: No response - invalid skip	179
MISS_TOT	- Total number of missing responses	180
CONSTRUCTED VARIABLES		
XENRLLMT	- Enrollment in TRICARE Prime	181
XENR_PCM	- Enrollment by PCM type	181
XINS_COV	- Insurance Coverage	181
XBENCAT	- Beneficiary Category	182
XENR_RSV	- Enrollment by PCM type - Reservist	182
XINS_RSV	- Insurance Coverage - Reservist	183
XREGION	- Region	183
XTNEXREG	- TRICARE Next Generation of Contracts Region grouping	184
CONUS	- CONUS/OCONUS Indicator	184
XOCONUS	- Overseas Europe/Pacific/Latin Indicator	184
OUTCATCH	- Out of Catchment Area Indicator	184
XSEXA	- Male or Female (Recode)	185
XBMI	- Body Mass Index	185
XBMICAT	- Body Mass Index Category	185
XBNFGRP	- Constructed Beneficiary Group	185
XSERVAFF	- Service Affiliation	186
KMILOFFC	- Office wait of 15 min or more at military facility	186
KCIVOFFC	- Office wait of 15 min or more at civilian facility	186
KBGPRB1	- Big problem getting referrals to specialist	186
KBGPRB2	- Big problem getting necessary care	187
KMILOPQY	- Outpatient visits to military facility	187
KCIVOPQY	- Outpatient visits to civilian facility	187
KCIVINS	- Beneficiary covered by civilian insurance	187
HP_PRNTL	- Pregnant in last year received care in 1st trimester	188
HP_MAMOG	- Women age 40 and over mammography in past 2 years	188
HP_MAM50	- Women age 50 and over mammography in past 2 years	188
HP_PAP	- All women Pap smear in last 3 years	188
HP_BP	- Blood pressure check in last 2 years know results	189
HP_FLU	- Age 65 and older flu shot in last 12 months	189
HP_OBESE	- Obese or morbidly obese	189
HP_SMOKE	- Advised to quit smoking in last 12 months	189
HP_SMOKH	- Smoker under HEDIS definition	190
HP_CESH	- Had smoking cessation counseling - HEDIS	190
XCATCH	- XCATCH - Catchment Area (Reporting)	190
POSTCELL	- Poststratification cell for new weights	193
WEIGHTS		
FWRWT1	- Replicated/JackKnife Weight 1	195
FWRWT2	- Replicated/JackKnife Weight 2	196
FWRWT3	- Replicated/JackKnife Weight 3	196
FWRWT4	- Replicated/JackKnife Weight 4	196
FWRWT5	- Replicated/JackKnife Weight 5	197
FWRWT6	- Replicated/JackKnife Weight 6	197
FWRWT7	- Replicated/JackKnife Weight 7	197
FWRWT8	- Replicated/JackKnife Weight 8	198
FWRWT9	- Replicated/JackKnife Weight 9	198
FWRWT10	- Replicated/JackKnife Weight 10	198

FWRWT11	- Replicated/JackKnife Weight 11	199
FWRWT12	- Replicated/JackKnife Weight 12	199
FWRWT13	- Replicated/JackKnife Weight 13	199
FWRWT14	- Replicated/JackKnife Weight 14	200
FWRWT15	- Replicated/JackKnife Weight 15	200
FWRWT16	- Replicated/JackKnife Weight 16	200
FWRWT17	- Replicated/JackKnife Weight 17	201
FWRWT18	- Replicated/JackKnife Weight 18	201
FWRWT19	- Replicated/JackKnife Weight 19	201
FWRWT20	- Replicated/JackKnife Weight 20	202
FWRWT21	- Replicated/JackKnife Weight 21	202
FWRWT22	- Replicated/JackKnife Weight 22	202
FWRWT23	- Replicated/JackKnife Weight 23	203
FWRWT24	- Replicated/JackKnife Weight 24	203
FWRWT25	- Replicated/JackKnife Weight 25	203
FWRWT26	- Replicated/JackKnife Weight 26	204
FWRWT27	- Replicated/JackKnife Weight 27	204
FWRWT28	- Replicated/JackKnife Weight 28	204
FWRWT29	- Replicated/JackKnife Weight 29	205
FWRWT30	- Replicated/JackKnife Weight 30	205
FWRWT31	- Replicated/JackKnife Weight 31	205
FWRWT32	- Replicated/JackKnife Weight 32	206
FWRWT33	- Replicated/JackKnife Weight 33	206
FWRWT34	- Replicated/JackKnife Weight 34	206
FWRWT35	- Replicated/JackKnife Weight 35	207
FWRWT36	- Replicated/JackKnife Weight 36	207
FWRWT37	- Replicated/JackKnife Weight 37	207
FWRWT38	- Replicated/JackKnife Weight 38	208
FWRWT39	- Replicated/JackKnife Weight 39	208
FWRWT40	- Replicated/JackKnife Weight 40	208
FWRWT41	- Replicated/JackKnife Weight 41	209
FWRWT42	- Replicated/JackKnife Weight 42	209
FWRWT43	- Replicated/JackKnife Weight 43	209
FWRWT44	- Replicated/JackKnife Weight 44	210
FWRWT45	- Replicated/JackKnife Weight 45	210
FWRWT46	- Replicated/JackKnife Weight 46	210
FWRWT47	- Replicated/JackKnife Weight 47	211
FWRWT48	- Replicated/JackKnife Weight 48	211
FWRWT49	- Replicated/JackKnife Weight 49	211
FWRWT50	- Replicated/JackKnife Weight 50	212
FWRWT51	- Replicated/JackKnife Weight 51	212
FWRWT52	- Replicated/JackKnife Weight 52	212
FWRWT53	- Replicated/JackKnife Weight 53	213
FWRWT54	- Replicated/JackKnife Weight 54	213
FWRWT55	- Replicated/JackKnife Weight 55	213
FWRWT56	- Replicated/JackKnife Weight 56	214
FWRWT57	- Replicated/JackKnife Weight 57	214
FWRWT58	- Replicated/JackKnife Weight 58	214
FWRWT59	- Replicated/JackKnife Weight 59	215
FWRWT60	- Replicated/JackKnife Weight 60	215
FWRWT	- Final Weight	215

H07001	- Are you the person listed on envelope	125
H07002A	- Health plan(s) covered: TRICARE Prime	125
H07002C	- Health plan(s) covered: TRICARE Ext/Std	125
H07002F	- Health plan(s) covered: MEDICARE	126
H07002G	- Health plan(s) covered: FEHBP	126
H07002H	- Health plan(s) covered: Medicaid	126
H07002I	- Health plan(s) covered: Civilian HMO	126
H07002J	- Health plan(s) covered: Other civilian	126
H07002K	- Health plan(s) covered: USFHP	127
H07002L	- Health plan(s) covered: Not sure	127
H07002M	- Health plan(s) covered: Veterans	127
H07002N	- Health plan(s) covered: TRICARE Plus	127
H07002O	- Health plan(s) covered: TRICARE For Life	127
H07002P	- Health plan(s) covered: TRICARE Supplemental Insurance	128
H07002Q	- Health plan(s) covered: TRICARE Reserve	128
H07002R	- Health plan(s) covered: Other Government Health Insurance	128
H07003	- Currently Covered Medicare Part A	128
H07004	- Currently Covered Medicare Part B	129
H07005	- Currently Covered Medicare Supplemental	129
H07006	- Which health plan did you use most in the past 12 months?	129
H07007	- Months or years in a row with health plan	130
H07008	- Have one person you think of as personal doctor	130
H07009	- Rating of your personal doctor or nurse	130
H07010	- Had same personal Dr/nurse before joining health plan	131
H07011	- Health plan: problem to get a personal doctor or nurse you are happy with	131
H07012	- In last year: you or a doctor or nurse think you needed to see a specialist	131
H07013	- In last year: how much of a problem to see a specialist you needed to see	131
H07014	- In last year: did you see a specialist	132
H07015	- Rating of specialist seen most often in last year	132
H07016	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself	132
H07017	- In last year: when you called during regular office hours how often got help or advice you needed	133

H07018	- In last year: have illness/injury/condition that needed care right away	133
H07019	- In last year: when needed care right away for an illness or injury got care as soon as wanted.....	133
H07020	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury	134
H07021	- In last year: made any appointment for regular or routine health care.....	134
H07022	- In last year: how often made appointments for regular or routine health care as soon as you wanted	134
H07023	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	135
H07024	- In last year: times went to an emergency room for own care.....	135
H07025	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room).....	135
H07026	- In last year: did you/Dr believe you needed any care, tests, or treatment	136
H07027	- In last year: problem to get necessary care	136
H07028	- In last year: need approval from health plan for any care, tests, or treatment	136
H07029	- In last year: problem with delays in healthcare while waiting for approval from health plan	137
H07030	- In last year: how often taken to exam room within 15 minutes of appointment.....	137
H07031	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect.....	137
H07032	- In last year: how often office staff at a doctor's office or clinic as helpful as expected	138
H07033	- In last year: how often doctors or other health providers listen carefully to you....	138
H07034	- In last year: how often doctors or other health providers explain things in way you could understand.....	138
H07035	- In last year: how often doctors or other health providers show respect for what you had to say.....	139
H07036	- In last year: how often doctors or other health providers spend enough time with you	139
H07037	- Rating of all healthcare in last year	139
H07038	- In last year: facility used most for health care	140
H07039	- In last year: sent in any claims to your health plan.....	140
H07040	- In last year: health plan handled claims in a reasonable time.....	140
H07041	- In last year: how often health plan handled claims correctly.....	141
H07042	- In last year: look for any information in written materials/internet on how health plan works.....	141
H07043	- In last year: problem to find or understand information in the written materials/internet	141
H07044	- In last year: called health plan's customer service to get information or help	141
H07045	- In last year: problem to get the help you needed when called health plan's customer service.....	142
H07046	- In last year: have to fill out paperwork for your health plan.....	142
H07047	- In last year: how much problem with paperwork for your health plan	142
H07048	- Rating of all experience with health plan.....	143
H07049	- Blood pressure: when last reading.....	143
H07050	- Blood pressure: know if blood pressure is too high or not	143
H07051	- When did you last have a flu shot	144
H07052	- Smoked at least 100 cigarettes in life	144
H07053	- Smoke everyday, some days, or not at all	144
H07054	- How long since you quit smoking	144
H07055	- Last year: number of visits advised to quit smoking.....	145
H07056	- Last year: number of visits medication was recommended or discussed to assist with quitting smoking	145
H07057	- Last year: number of visits recommended or discussed methods and strategies to assist quitting smoking	145
H07058	- Are you male or female	146
H07059	- Female: Last have a Pap smear test	146

H07060	- Female: Are you under age 40.....	146
H07061	- Female: Last time breasts checked mammography	147
H07063	- Female: Been pregnant in last year or pregnant now	147
H07064	- Female: In what trimester is your pregnancy	147
H07065	- Female: Trimester first received prenatal care.....	148
H07066	- In general how would you rate your overall health.....	148
H07067	- Limited in any way in any activities because of any impairment or health problem	148
H07068F	- Feet portion of height without shoes	149
H07068I	- Inches portion of height without shoes.....	149
H07069	- Weight without shoes	150
H07070	- Are you Spanish, Hispanic, or Latino	154
H07070A	- No, Not Spanish, Hispanic, or Latino	155
H07070B	- Yes, Mexican, Mexican American, Chicano.....	155
H07070C	- Yes, Puerto Rican	155
H07070D	- Yes, Cuban	155
H07070E	- Yes, Other Spanish, Hispanic, or Latino	155
HP_BP	- Blood pressure check in last 2 years know results	189
HP_CESH	- Had smoking cessation counseling - HEDIS.....	190
HP_FLU	- Age 65 and older flu shot in last 12 months	189
HP_MAM50	- Women age 50 and over mammography in past 2 years.....	188
HP_MAMOG	- Women age 40 and over mammography in past 2 years.....	188
HP_OBESE	- Obese or morbidly obese	189
HP_PAP	- All women Pap smear in last 3 years	188
HP_PRNTL	- Pregnant in last year received care in 1st trimester	188
HP_SMOKE	- Advised to quit smoking in last 12 months	189
HP_SMOKH	- Smoker under HEDIS definition	190
KBGPRB1	- Big problem getting referrals to specialist	186
KBGPRB2	- Big problem getting necessary care	187
KCIVINS	- Beneficiary covered by civilian insurance	187
KCIVOFFC	- Office wait of 15 min or more at civilian facility	186
KCIVOPQY	- Outpatient visits to civilian facility	187
KEYCOUNT	- Number of Key Questions Answered	168
KMILOFFC	- Office wait of 15 min or more at military facility	186
KMILOPQY	- Outpatient visits to military facility	187

Chapter

1

Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the 2007 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to assist users in creating tables and generating analyses above and beyond those associated with this project.

Beginning with 2006, reporting and documentation of the HCSDB will be performed on a fiscal year basis. In previous years, reporting and documentation were based on calendar years. Thus the current codebook describes Quarter I of fiscal year 2007. Throughout, Quarter I refers to Quarter I of fiscal year 2007.

This version of the Codebook and User's Guide describes the first quarter data set. It contains frequency counts of all variables from the first quarter of fiscal year 2007.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

How to Use This Guide

Chapter 2 describes the survey fielding process.

Chapter 3 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 4 provides table-making instructions in both SAS and SPSS and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™ or WesVar PC®. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 5, where we describe the quarterly counts for each variable in the database, including a list of all possible values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata
- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling

- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis
- Weights

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for an alphabetical quick-reference list intended to assist users in locating each variable.

Users interested in learning more about the technical aspects of the database creation, construction of new variables, or MPR's report production procedures may refer to "The 2007 Health Care Survey of DoD Beneficiaries: Adult Technical Manual," available from the TRICARE Management Activity Office.

What is the HCSDB?

The HCSDB is a health care survey of active duty military personnel, retirees, and their adult family members. It is comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. The adult survey is fielded every quarter, whereas the child survey is fielded only in the third quarter of each fiscal year. Results from each quarter are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The surveys collect data on beneficiaries' satisfaction with, and access to, health care; knowledge of the TRICARE system; and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2007 HSCDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001, 2002, 2003, 2004, 2005, 2006, and 2007. The annotated questionnaire appears in Appendix A. A crosswalk between the 2007 questions and the questions from the 1997, 1998, 1999, 2000, 2002, 2003, 2004, 2005 and 2006 surveys appears as Appendix C.

The HCSDB fixed questionnaire covers the following topics:

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance.
- **Your Personal Doctor or Nurse.** In this section, respondents are asked about their relationship with their personal doctor or nurse. They are asked to rate their personal doctor or nurse on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Getting Health Care from a Specialist.** This section collects information about respondents' need for and access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Calling Doctors' Offices.** Questions in this section ask beneficiaries whether they were able to access care and obtain information by telephone from their doctor's office or clinic.

- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It also covers topics such as the availability of providers and their staff, convenience, and courtesy and respect shown by providers and their staff.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0 is the lowest rating and 10 is the highest rating. Additionally, respondents are asked questions about any problems they may have encountered with claims processing, accessing and comprehending written materials, customer service, and processing paperwork.
- **Your Preventive Health Care.** This section collects information on the use of preventive health care services, including blood pressure readings and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography. All respondents are asked whether they smoke. Smokers are asked whether, and how often, they have received smoking cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health. They are further asked to report their height, weight, education level, race, and age.

CAHPS Questions

To make responses comparable to civilian surveys, the questions are similar in content and format to questions used in the Consumer Assessment of Healthcare Providers and Systems (CAHPS) Health Plan Survey. CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality, U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services. In 2007 we used questions from CAHPS version 3.0.

Quarter I Supplements

- **Reservists.** These supplemental questions concern health care coverage provided to National Guard and Reserves and members of their immediate families.

Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a specific reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on active duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days, and other special categories of people who qualify for benefits)
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members.

A stratified sample design was used to select DoD health care beneficiaries for Quarter I, 2007 Adult HCSDB. Specific information on the sample design appears in "Health Care Survey of DoD Beneficiaries: 2007 Adult Sampling Report", Mathematica Policy Research, Washington, D.C.

From a sample of 50,000 beneficiaries, 12,684 adult MHS beneficiaries completed and returned a 2007 Adult HCSDb questionnaire for the first quarter during the period, yielding a response rate of 25.7 percent. Information on developing response rates can be found in the "2007 Health Care Survey of DoD Beneficiaries: Adult Technical Manual."

Other Documents on the 2007 HCSDB

This document is intended for programmers and analysts using the 2007 Adult HCSDb data. The following is a list of other documents that may be requested from the TRICARE Management Activity Office:

- Health Care Survey of DoD Beneficiaries: 2007 Adult Sampling Report
- 2007 Health Care Survey of DoD Beneficiaries: Adult Technical Manual
- 2007 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report

Chapter
2

Survey of Adults

This chapter presents information on the survey administration cycle for Quarter I, 2007 Adult Health Care Survey of DoD Beneficiaries (HCSDB), with specific details on the survey mailing cycle and the number of surveys received.

A. Survey Operations Activities

Operational support for the Health Care Survey of DoD Beneficiaries (HCSDB) involved four mailings to beneficiaries between September 11, 2006 to November 1, 2006 in Quarter I.

The mailings include:

1. Pre-Notification Letter – Letter of explanation encouraging participation
2. Questionnaire 1 – The survey, including a brief letter of explanation
3. Postcard – A reminder to complete the survey and a thank you for completion
4. Questionnaire 2 – The survey, including a brief letter of explanation

Starting this quarter, the letter of explanation that accompanied the survey was eliminated. Instead, information about the survey and contact phone numbers and email addresses were included on the front cover of the survey. The survey was inkjetted to include the Beneficiaries' unique internet password if they wanted to do the survey online instead of mailing back the survey.

B. Sample

The Adult HCSDB is conducted quarterly on a sample of 50,000 beneficiaries.

C. SURVEY PROCESSING

Synovate applies a Bar Code, Control Number (MIQ) & Password to each beneficiary upon receipt of the sample. This system ensures that all data collected is aggregated and available throughout the survey lifecycle. Each of the identifying labels is detailed below:

Barcode

- Digit 1 - Quarter Marker (1-4)
- Digit 2 - Wave Marker (1-4)
- Digit 3 - Study Marker (1=sample, 2=supplemental, 3=child)
- Digits 4-8 - Sequential ID#

Control Number (MIQ) - 8-digit unique identifier

- Digits 1-7 – Sequential ID #
- Digit 8 – Check Digit

Password

Non-sequential 6-digit password (for online response access) – Password is unique across all samples

D. Addresses

The HCSDB is designed so that beneficiaries may receive up to four mailings. Synovate may collect up to eight addresses for each beneficiary in order to maximize the receipt rate for mailing.

The first available address in the following order was used for each mailing.

1. Respondent Updated
2. Updated Residential
3. NCOA
4. Original Residential
5. Updated Sponsor
6. Original Sponsor
7. Updated Unit
8. Original Unit

The origin of the addresses is as follows:

- Altarum - DEERS Addresses

In the initial sample file, Altarum provides up to three addresses for each beneficiary. Synovate considers these addresses to be Original Residential, Original Sponsor and Original Unit.

STI also provides updates on each of the three addresses prior to the Questionnaire, Postcard and 2nd Questionnaire mailings. Synovate records these addresses as Updated Residential, Updated Sponsor, Updated Unit.

- NCOA Address

Upon receipt of the initial sample and prior to the Pre-Notification mailing, Synovate sends each address to a National Change of Address (NCOA) vendor for updating and hygiene services. The updated address returned by the vendor is marked as the NCOA address.

- Respondent Updates

Respondents were able to report address and status changes via telephone, voicemail, fax, and email. Addresses changes submitted by respondent were considered priority over any other address type.

- Address correction via USPS

The United States Postal Service provided address corrections on returned mail if available. This is marked as a respondent updated.

Tables 2.1 gives the address breakdown for each mailing by beneficiary category.

F. Disposition Codes

Synovate assigns disposition codes to each sample member as the information is received and questionnaire is returned. These codes are outlined below.

- FLAG_FIN=1
Returned survey – survey was completed and returned.
- FLAG_FIN=2
Returned ineligible – survey was returned with at least one question marked and information that the beneficiary was ineligible. The information indicating ineligibility may have come by mail, phone, fax, or the survey itself.
- FLAG_FIN=3
Returned blank – temporarily ill or incapacitated. Survey was returned blank along with information that the beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=4
Returned blank – deceased. Survey was returned blank along with information that the beneficiary was deceased. These sample members were ineligible.
- FLAG_FIN=5
Returned blank – incarcerated or permanently incapacitated. Survey was returned blank along with information that the beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG_FIN=6
Returned blank – left military or divorced after the fielding date, retired. Survey was returned blank along with information that the beneficiary left the military after the fielding date, divorced after the fielding date, or retired. These sample members were eligible.

- FLAG_FIN=7
Returned blank – not eligible on the fielding date. Survey was returned blank along with information that the beneficiary was not eligible for Military Health System Plan on the fielding date. These sample members were ineligible.
- FLAG_FIN=8
Returned blank – other eligible. Survey was returned blank along with a reason given by the sample member. These sample members were eligible.
- FLAG_FIN=9
Returned blank – no reason. Survey was returned blank without an explanation. These sample members were eligible.
- FLAG_FIN=10
No return – temporarily ill or incapacitated. Survey was not returned and beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=11
No return – active refuser. Survey was not returned and beneficiary refused to take part in the survey. These sample members were eligible.
- FLAG_FIN=12
No return – deceased. Survey was not returned and beneficiary deceased. These sample members were ineligible.
- FLAG_FIN=13
No return – incarcerated or permanently incapacitated. Survey was not returned, beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG_FIN=14
No return – left military or divorced after the fielding date, retired. Survey was not returned, beneficiary left service after the fielding date, divorced after the fielding date, or retired. These sample members were eligible.
- FLAG_FIN=15
No return – not eligible on the fielding date. Survey was not returned, beneficiary was not eligible for Military Health System Plan on the fielding date. These sample members were ineligible.

Example: Beneficiary turned 21 and is no longer covered under parents' plan.

- FLAG_FIN=16
No return – other eligible. Survey was not returned, beneficiary gave other reason for not completing the survey. These sample members were eligible.

Examples: Beneficiary claims they have not used benefits in past 12 months.

Beneficiary is away at college, on a religious mission, lives overseas.

Received information that Beneficiary chosen for survey does not speak English well enough to participate.

- FLAG_FIN=17
No return – no reason. Survey was not returned, beneficiary gave no reason.

- FLAG_FIN=18
PND – no address remaining. All addresses were attempted, mailing was returned PND.
- FLAG_FIN=19
PND – address remaining at the close of field. At the close of field, the last address used was found invalid, next available was not attempted.
- FLAG_FIN=20
Original Non-Locatable – no address at start of mailing. Substantially incomplete or blank address field before the survey was administered, no mailings attempted.
- FLAG_FIN=21
Beneficiary provides written documentation declining to participate but doesn't specify a reason.
- FLAG_FIN=22
Beneficiary indicates they are hospitalized but without providing any way to determine whether incapacity is temporary or permanent. Therefore, eligibility determination can not be made.
- FLAG_FIN=23
Returned blank – deployed. Survey was returned blank along with information that the beneficiary was deployed.
- FLAG_FIN=24
No return – deployed. Survey was not returned, beneficiary was deployed.
- FLAG_FIN=25
Beneficiary coded as deceased due to refresh.
- FLAG_FIN=26
No match. Missing address after refresh, otherwise ineligible.

Tables 2.2 shows frequencies of these disposition codes by beneficiary category.

Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

Variable Naming Conventions

The conventions used to name variables on the 2007 Adult HCSDB data file are listed below and summarized in Table 3.1. The naming conventions remain constant across the four quarters of the 2007 HCSDB.

- **Survey Variables.** Variable names for core survey questions consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("07") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the annotated survey. The original variables are suffixed with "_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. Like the core questions, supplemental questions also include eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("07"). The variable ends with an alpha character denoting the supplemental topic followed by the question number in the supplemental series.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables N1-N19, reference the notes in the Coding Scheme for Adult Survey. See Appendix D for the Coding Scheme for Quarter I for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable PNSEXCD was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2010 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "FW."

TABLE 3.1

NAMING CONVENTIONS FOR 2007 HCSDB VARIABLES – QUARTER I

1 st Character: Survey Type	2 nd – 3 rd Character s: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
<p>H= Health Beneficiaries (18 and older, Adult Questionnaire)</p> <hr/> <p>S = Supplemental Question</p>	<p>07</p>	<p>001 to 070</p> <hr/> <p>Quarter I G18-G39 – Supplemental questions about reservists.</p> <p>Quarter II V01-V02, V05-V018G – Supplemental questions about TRICARE’s civilian network.</p> <p>Q01-Q06 – Supplemental questions about colon cancer or colon cancer screening tests.</p> <p>Quarter III B01-B04 – Supplemental questions about overall mental or emotional health.</p> <p>V01-V02, V05-V018G – Supplemental questions about TRICARE’s civilian network.</p> <p>Quarter IV Y01, Y06A-Y06J, Y17-19J, Y22-Y24, Y26-Y37N – Supplemental questions about prescription medicine.</p>	<p>A to R are used to label responses associated with a multiple response question</p> <p>_O denotes an original version of a recoded variable</p> <hr/>

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People 2010</i> variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)
FW=Quarterly Weighting variables	Descriptive text, e.g., FWRWT for the final quarterly weight and number referring to replicate weights, e.g., FWRWT10

Cleaning and Editing Conventions

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme for each quarter appears in Appendix D. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout each quarterly questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when Synovate created the SAS dataset:
 - Skipped items were encoded with SAS missing value code of ‘.’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “.N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “.C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “.O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in the fiscal year 2007 Adult HCSDB data file appear in Chapter 5 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

Record Selection Criteria

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database.

To determine if a questionnaire is “complete”, 27 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least

50 percent of these key items (more than thirteen) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H07006, H07008, H07009, H07010, H07011, H07012, H07014, H07015, H07016, H07017, H07018, H07019, H07021, H07024, H07025, H07027, H07030, H07037, H07038, H07042, H07044, H07046, H07048, H07066, SREDA, H07070, and the race indicator.

Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2007 Adult HCSDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Sampling weights are equivalent to the reciprocal of the probability of each respondent's selection into the sample. Sampling weights are further adjusted for nonresponse within the classes formed based on the percentiles of the propensity scores from the propensity model. Finally, we poststratified the nonresponse adjusted weights to the frame totals to obtain specific domain weighted totals equal to the population totals. Chapter 5 contains the weighted and unweighted frequencies for each variable in Quarter I. For further details of the 2007 weighting, see Health Care Survey of DoD Beneficiaries: 2007 Technical manual. (2007).

Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the 2007 HCSDDB dataset.

How To Make a Table Using SAS

The Quarter I, 2007 Adult HCSDDB dataset is provided in a Statistical Analysis System (SAS) 6.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 6 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

File References, Libraries, and Options

SAS recognizes two types of datasets – permanent and temporary. Permanent datasets, such as the HCSDDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the 2007 Quarter I adult dataset is located on a CD-ROM in the subdirectory HCSDDB07\FORMA\Q1, your LIBNAME statement must look like this:

```
LIBNAME INFORMA 'F:\HCSDDB07\FORMA\Q1';
```

The adult dataset can then be referred to as INFORMA.HCSDDB07, where INFORMA is the location of the file HCSDDB07.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

```
LIBNAME LIBRARY 'C:\HCSDDB07\FORMA\Q1\FMTLIB';
```

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

```
OPTIONS PS=79 LS=132;
```

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

```
OPTIONS PS=50 LS=175 NOCENTER;
```

DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of active duty by sex:

```
/* Active duty males */  
IF XSEXA = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;  
* Active duty females;  
ELSE IF XSEXA = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;  
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /* */ or beginning with * and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION CACSMPL H07050 H07014;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only TNEX region 3 observations */  
IF XTNEXREG = 3;
```

- Create a new temporary dataset. For example, CAC_1 is a temporary file of observations for only those respondents in catchment area 1:

```
LIBNAME INFORMA 'F:\HCSDB07\FORMA';  
DATA CAC_1;  
/* Input file is HCSDB07 */  
SET INFORMA.HCSDB07;  
IF CACSMPL = 1;  
RUN;
```

- Create a new permanent dataset. For example, OUT.CAC_9901 is a permanent dataset only of out-of-catchment north respondents:

```
LIBNAME INFORMA 'F:\HCSDB07\FORMA';  
LIBNAME OUT 'C:\HCSDB07\FORMA';  
DATA OUT.CAC_9901;  
SET INFORMA.HCSDB07;  
IF CACSMPL = 9901;  
RUN;
```

PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;  
CLASS class variables;  
VAR analysis variables;  
TABLE << page expression, > row expression, > column expression </ table options >;  
WEIGHT FWRWT;  
RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in catchment area 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE CACSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XTNEXREG, XSEXA, and CACSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE statement, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each *analysis* variable. In the HCSDB for Quarter I, 2007, the weight variable is FWRWT.

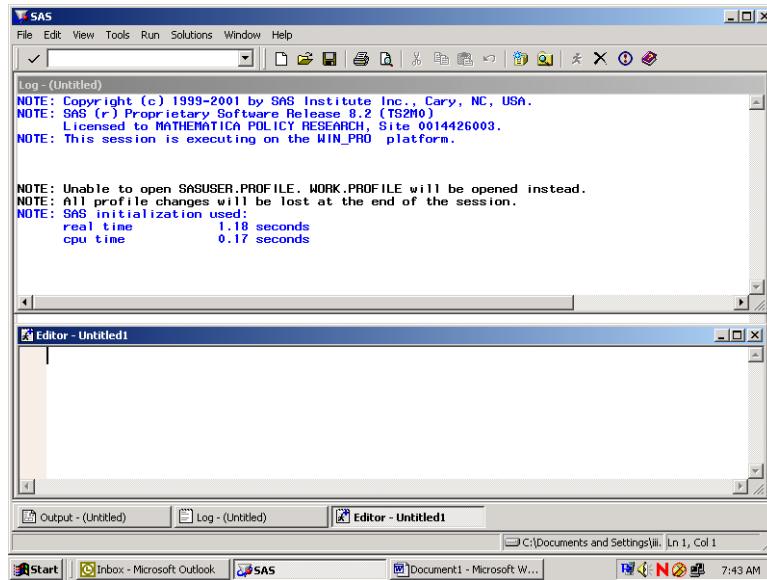

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

- Analysis variables
- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form =*label*; for example, XTNEXREG='Tnex Region' or MEAN='' (to eliminate the word MEAN from the headings).
- Crossing operator * (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT*XSEX to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H07037 *MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H07037 H07048.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

(XBNFGRP ALL)*XSEX

The SAS Display Manager System

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 8, the following screen opens.

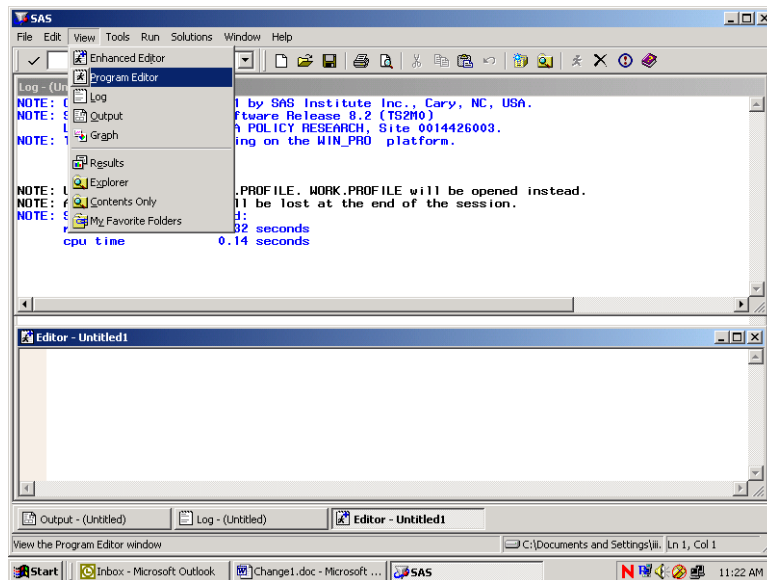

The screen is divided into two windows, a Log window above and an Editor window below.

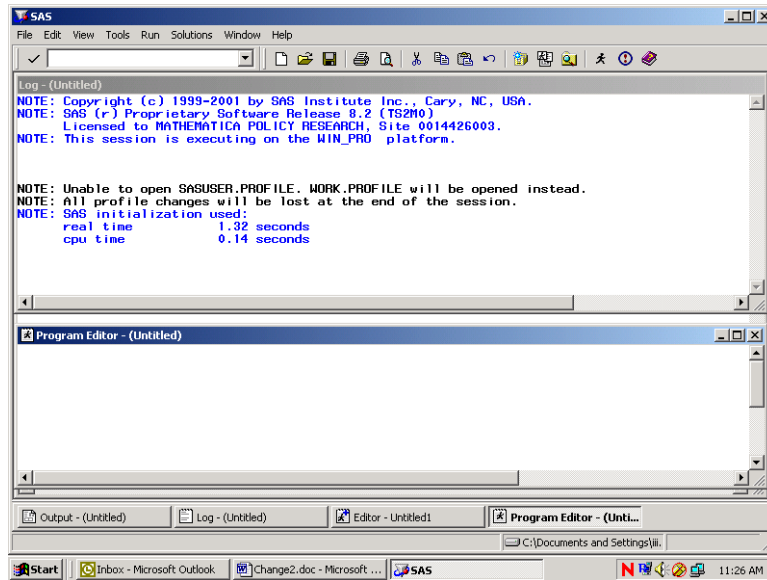

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 8 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

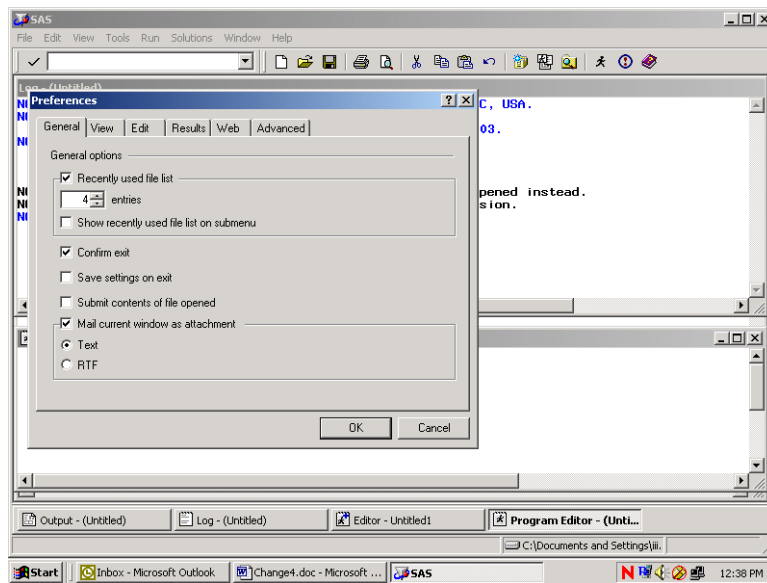

Click on View and select Program Editor as in the following:

The lower Editor Window has now changed to Program Editor as in the following screen:

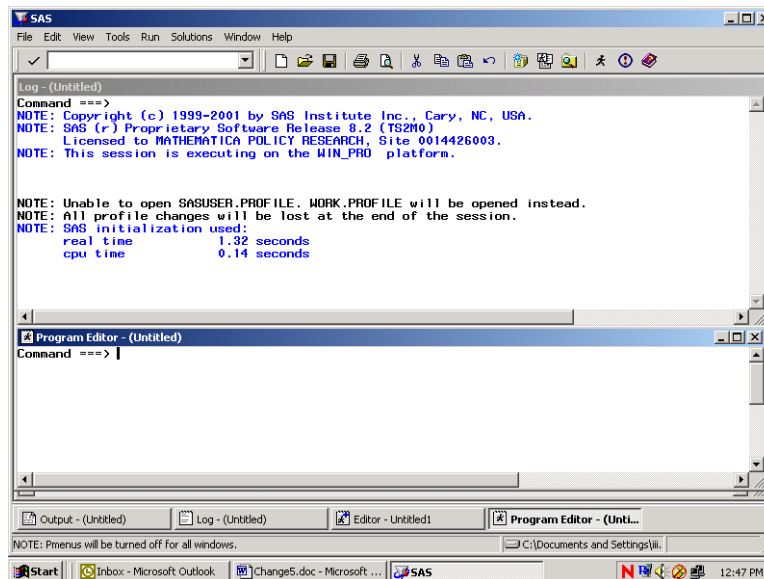

Open the Tools menu and choose Options and preferences.

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

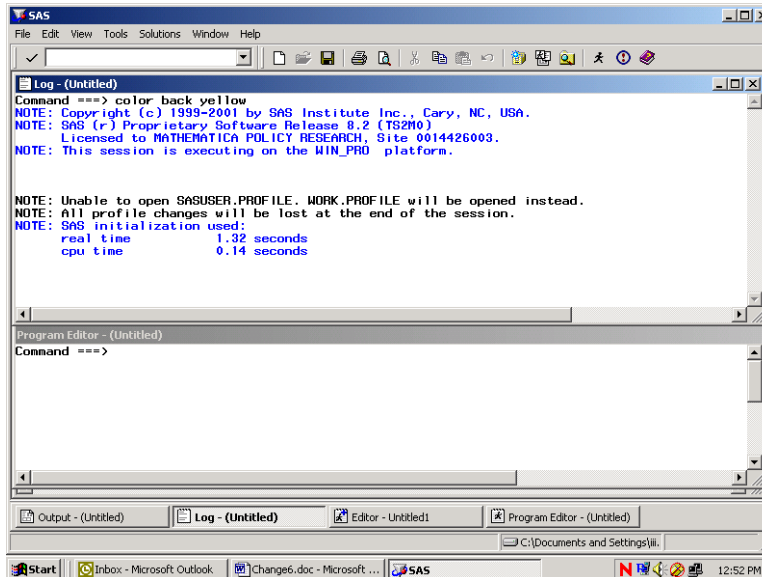

Click on OK and a command line will be added as in the screen below.

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allow you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

All SAS statements for building and processing SAS datasets are typed into the Program Editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option Cascade produces the following result.

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). At the **Command** line type “numbers on” as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

Below is an example of a PROC TABULATE to construct a table of health status and satisfaction with health plan by beneficiary group and gender for respondents in TNEX region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The variables (H07048 and H07066) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

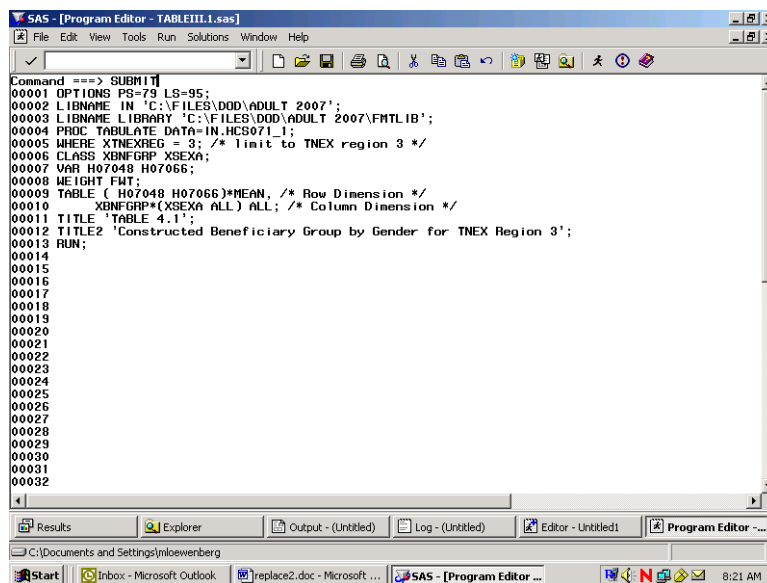

Enter the following SAS statements into the **Program Editor**.

```

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2007';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2007\FMTLIB';
PROC TABULATE DATA=IN.HCS071_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEX;
VAR H07048 H07066;
WEIGHT FWT;
TABLE (H07048 H07066)*MEAN, /* Row Dimension */
      XBNFGRP*(XSEX ALL) ALL; /* Column Dimension */
TITLE "Table 4.1";
TITLE2' Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;

```

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

```

SAS - [Program Editor - TABLEIII.1.sas]
File Edit View Tools Run Solutions Window Help
Command ==> SUBMIT
00001 OPTIONS PS=79 LS=95;
00002 LIBNAME IN 'C:\FILES\DoD\ADULT 2007';
00003 LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2007\FMTLIB';
00004 PROC TABULATE DATA=IN.HCS071_1;
00005 WHERE XTNEXREG = 3; /* limit to TNEX region 3 */
00006 CLASS XBNFGRP XSEX;
00007 VAR H07048 H07066;
00008 WEIGHT FWT;
00009 TABLE ( H07048 H07066)*MEAN, /* Row Dimension */
00010        XBNFGRP*(XSEX ALL) ALL; /* Column Dimension */
00011 TITLE 'TABLE 4.1';
00012 TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
00013 RUN;
00014
00015
00016
00017
00018
00019
00020
00021
00022
00023
00024
00025
00026
00027
00028
00029
00030
00031
00032

```

Enter the Submit command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

```

SAS - [Log - (Untitled)]
File Edit View Tools Solutions Window Help
Command ==>
40 OPTIONS PS=79 LS=95;
41 LIBNAME IN 'C:\FILES\DOD\ADULT 2007';

ERROR: Variable FWT not found.
48 TABLE ( H07048 H07066)*MEAN, /* Row Dimension */
49         XBNGGRP*(XSEXA ALL) ALL; /* Column Dimension */
50 TITLE 'TABLE 4.1';
51 TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
52 RUN;

NOTE: The SAS System stopped processing this step because of errors.
NOTE: PROCEDURE TABULATE used:
      real time    0.01 seconds
      cpu time     0.01 seconds
    
```

The variable **FWT** was not found in the dataset. Type **Pgm** on the Command line to return to the Program Editor. Type **Recall** on the Command line and the program statements will reappear in the window.

You can correct the error by entering **FWRWT**, the correct variable name, in the weight statement. Then, rerun the procedure.

The corrected program produces the following output.

TABLE 4.1 08:08 Thursday, February 8, 2007 1
Constructed Beneficiary Group by Gender for TNEX Region 3

		Constructed Beneficiary Group					
		Active Duty <65			Family of Active <65		
		Male or Female - R		All	Male or Female - R		
		Male	Female		Male	Female	
Rating of all experience with hith plan	Mean	7.26	7.43	7.28	8.08	7.48	
In gnr1, how would you rate overall hith	Mean	3.83	3.78	3.82	3.38	3.72	

(Continued)

The result of this process is Table 4.1.

Note that the **TITLE** statement defines the heading for each page. Titles of more than one line are entered as **TITLE**, **TITLE2**, etc.

Table 4.1

In gnrl, how would you rate overall hlth	Mean	3.17	3.26	3.48

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2007\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is active duty; if XBNFGRP equals 2, the respondent is a family member of active duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

FORMAT _ALL_;

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table 4.1, the values of the statistics are of the form x.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space plus some extra room to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

MEAN*F=6.2

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP

are active duty, family members of active duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

XBNFGRP= ‘

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

MEAN= **F=6.2

The headings for XSEXA and ALL can be improved:

XSEXA= ‘Gender’

ALL= ‘Group Total’ for the ALL that is crossed with XBNFGRP

ALL= ‘Total’ for the TNEX Region 3 total

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2007';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2007\FMTLIB';
PROC TABULATE DATA=IN.HCS071_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H07048 H07066;
WEIGHT FWRWT;
TABLE (H07048 H07066)*MEAN= **F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP= *(XSEXA= ‘Gender’ ALL= ‘Group Total’)
ALL= ‘Total’;

TITLE “Table 4.2”;
TITLE2 ‘Constructed Beneficiary Group by Gender for TNEX Region 3’;
RUN;
```

Typing these statements into the Program Window produces the following screen.

```

In gnrl, how would you rate ovrall hlth	3.17	3.26	3.48

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2007';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2007\FMTLIB';
PROC TABULATE DATA=IN.HCS071_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNGGRP XSEX;

Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all *class* variables that define the *row*. For example, if you want to look at the percentage of people in your region and each of the catchment areas who answered yes (or no) to question 14, 'In the last 12 months, did you see a specialist?', your TABLE statement in the TABULATE procedure would look like this:

```
WHERE XTNEXREG = 2;
TABLE H07014 ALL='Total',
(All='TNEX Region Total' CACSMPL)*PCTN<H07014 ALL>='Percent';
```

Table 4.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

```

Total	69	100.00	1112	100.00

The statistic N is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table 4.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report seeing a specialist in the past 12 months, this would be a row percentage. To calculate a row percentage, the denominator definition must include all class variables that define the column. Your TABLE statement would look like this:

```
TABLE H07014 ALL='Total',
XENRLLMT *(XSEXA=' ' All='Group Total')*
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';
```

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include FWRWT (the 2007 weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table 4.5.

The following screen shows the new program typed into the Program Editor.

```

How to Make a Table Using SPSS

The 2007 Adult HCSDB dataset is in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

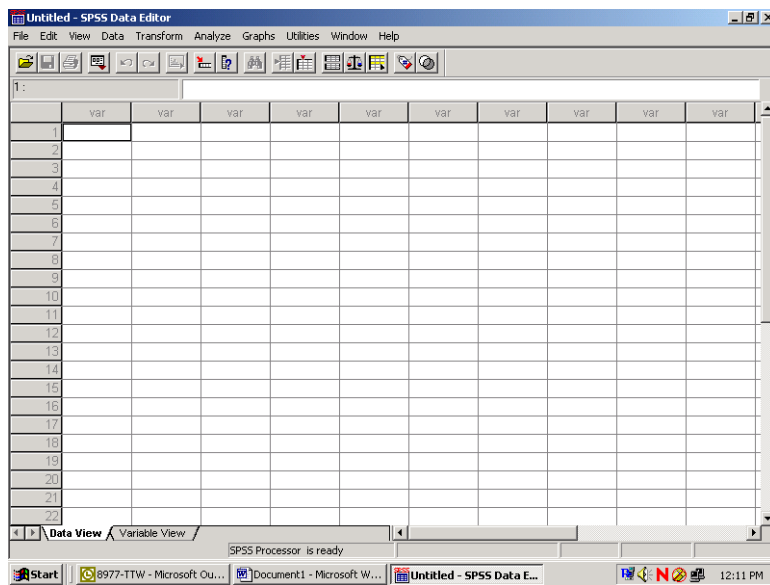

- Construct new variables
- Recode existing variables

- Select cases for analysis
- Weight cases for analysis
- Create customized tables

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

Locating and opening the data file

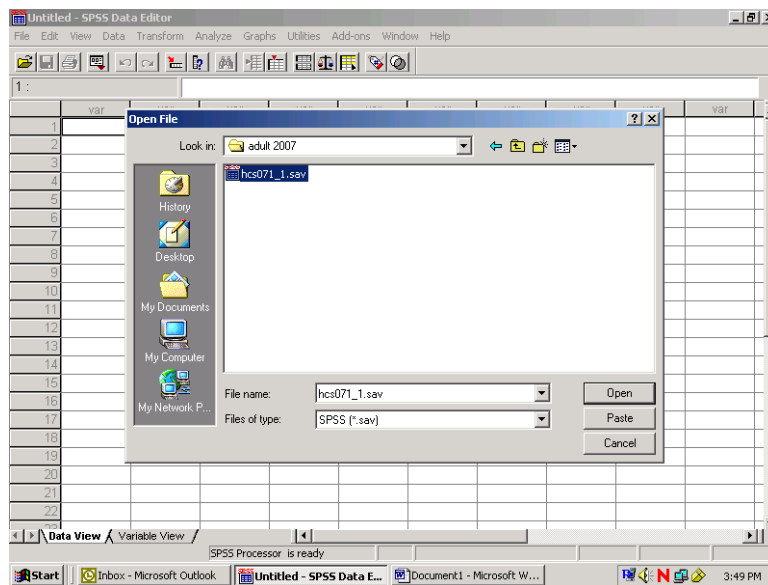

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a blank spreadsheet like the following screen:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** and **data** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The Quarter I, 2007 Adult HCSDB dataset has been opened and is displayed below.

Constructing new variables

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

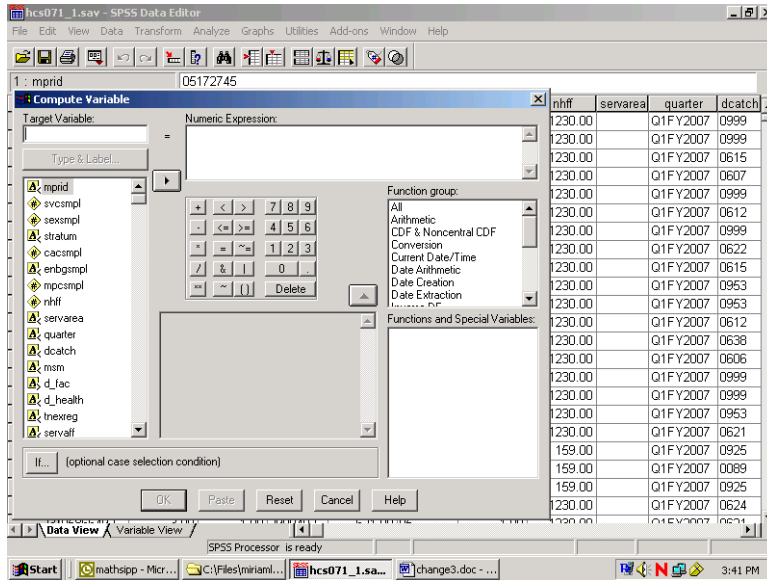

For example, the variable in the file for beneficiary group at the time of sampling is called *xbnfgrp*, and the variable for sex is *xsexa*. The value 1 for *xbnfgrp* indicates that the individual is on active duty. The relationships for constructing a new variable of active duty by sex are:

Active-duty-males: ***xsexa=1 and XBNFGRP=1***

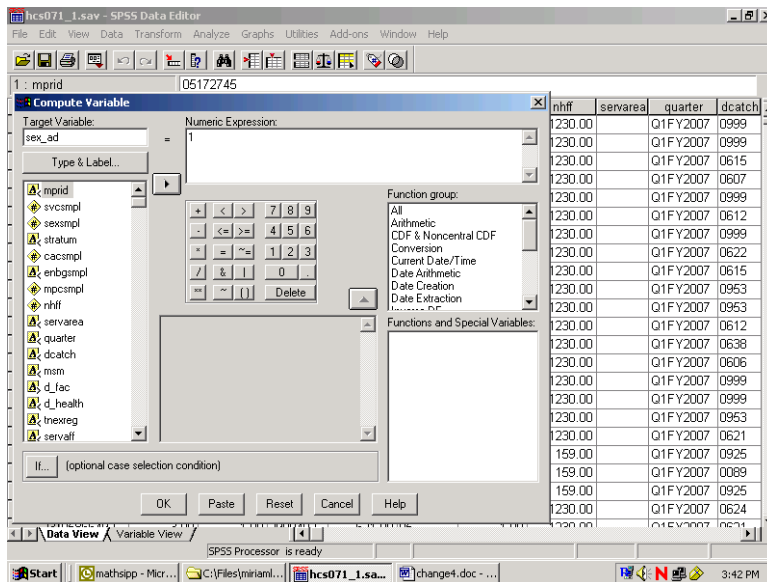

Active-duty-females: ***xsexa=2 and XBNFGRP=1***

Open the Transform menu and select Compute as in the following:

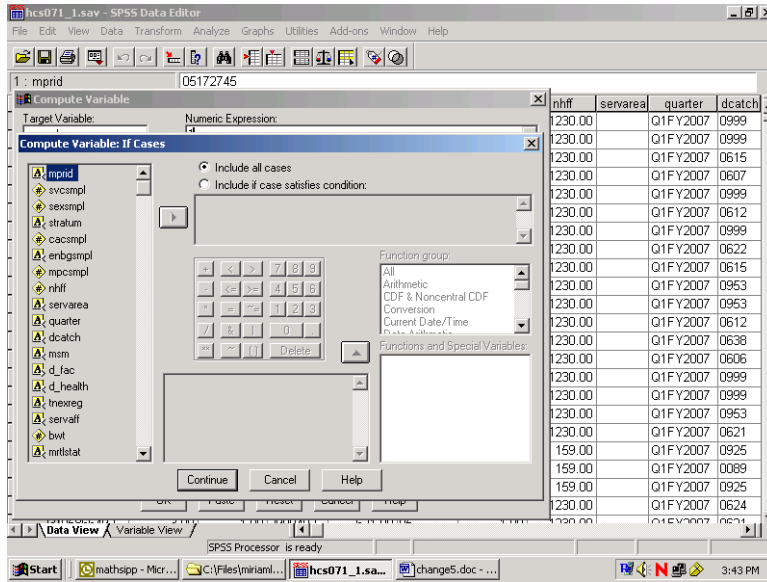

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable sex_ad. Next, assign the value 1 to sex_ad by entering it into the slot for Numeric Expression. Your screen should look like the following:

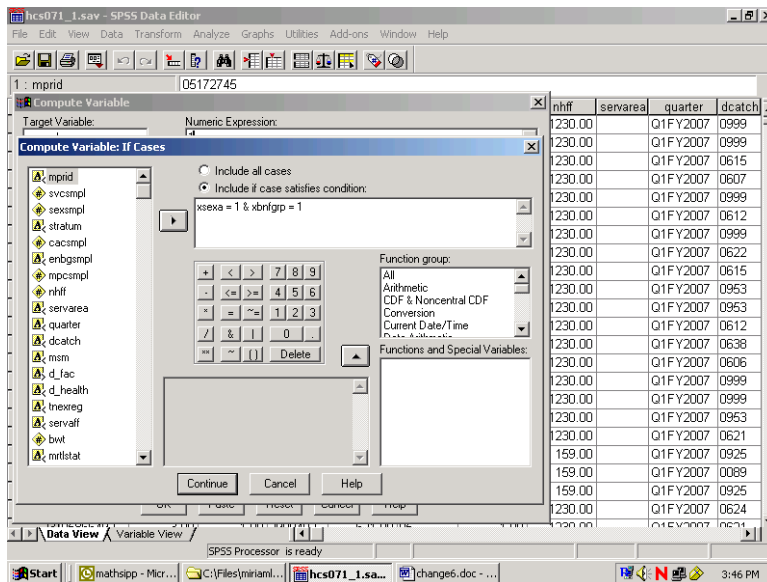

Once you we have assigned the value 1 to sex_ad, you can build the condition that qualifies the assignment. Click on If and open the following dialog box:

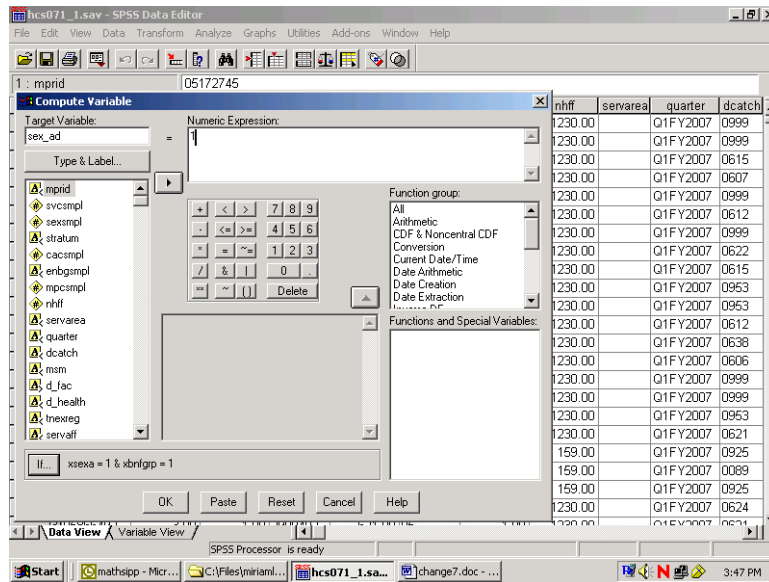

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the "if" condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements xsexa = 1 & xbnfgrp = 1.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable sex_ad will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply assign the value 2 to sex_ad, press If, and enter the new condition to identify active duty females. Click Continue, and finish with OK. The condition, if xsexa = 2 and xbnfgrp = 1, will be added to the new variable sex_ad.

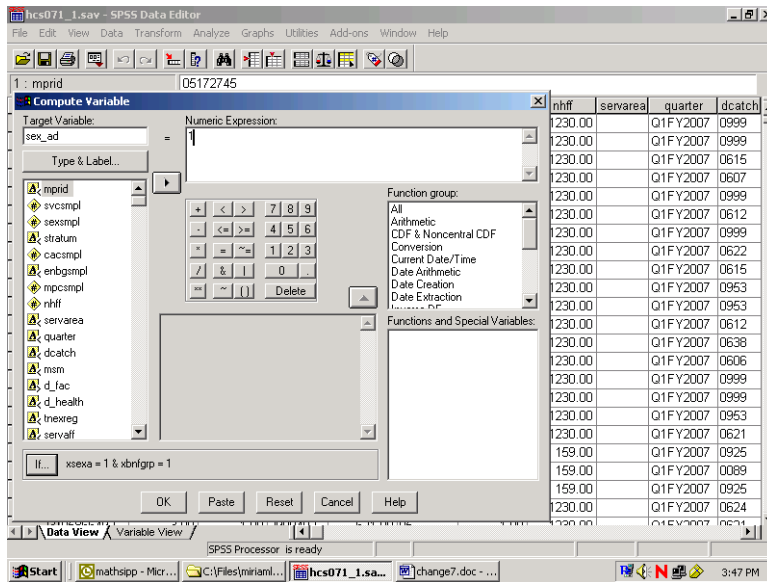

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

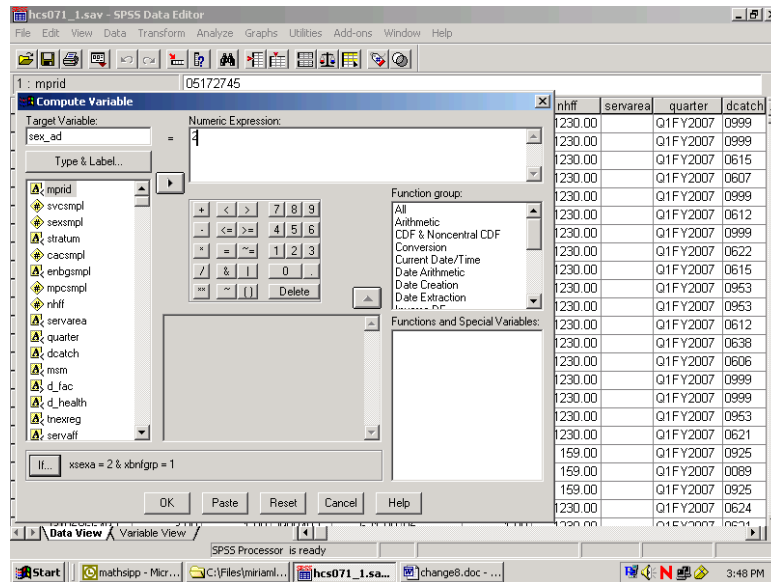

Recall the compute example for the new variable sex_ad. The screen below is the result of assigning 1 to sex_ad according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

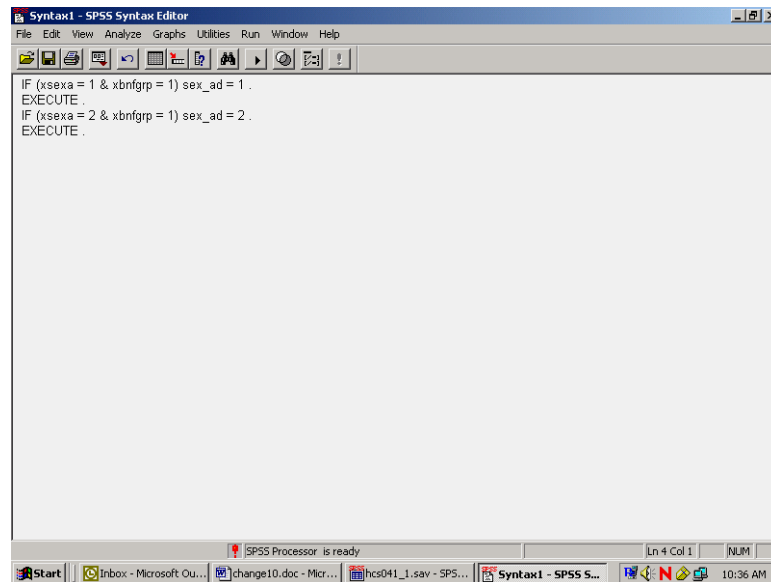

Click on the Paste button, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex_ad** as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **DAGEQY**, which exists on our dataset. **DAGEQY** is coded in years from 18 to 93, which can be grouped into four age categories:

18 to 34 = 1 - label: "young adult"

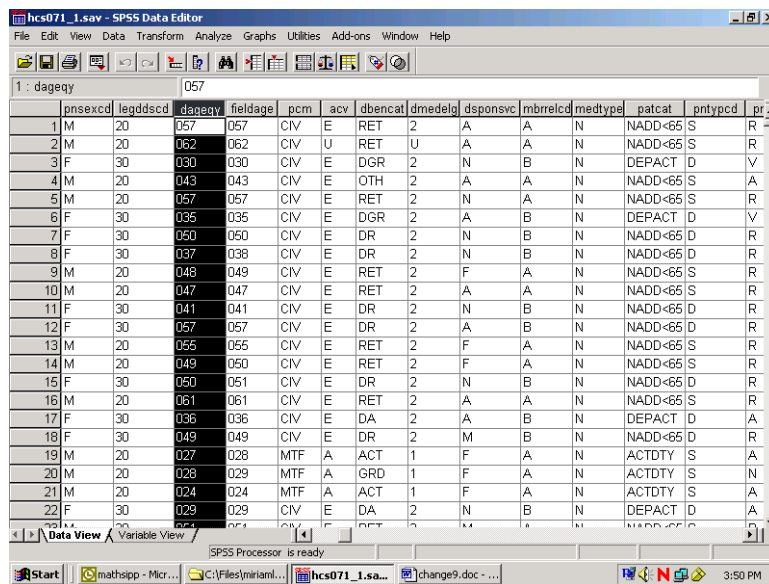

35 to 49 = 2 - label: "mature adult"

50 to 65 = 3 – label: "middle-age"

66 to 93 = 4 – label: "senior citizen"

The new variable is called **age_grp**.

DAGEQY is a string variable. In order for it to be recoded using grouping criteria, it must be converted to a numeric variable. In the data window go to the column for the variable **DAGEQY** and click in the gray area at the top of the column causing the variable to be selected as the following screen indicates.

Click on the Variable View tab at the lower left of your screen and the screen will change to the following:

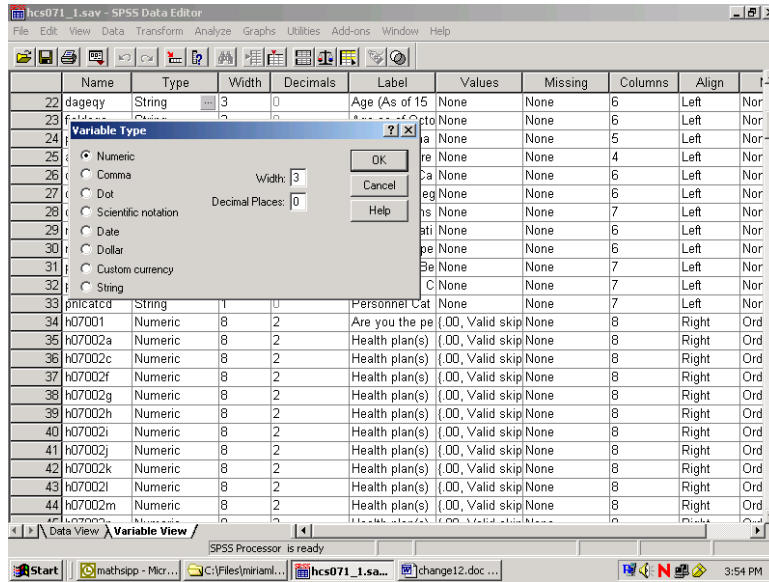

2007 HEALTH CARE SURVEY OF DOD BENEFICIARIES – QUARTER I

Name	Type	Width	Decimals	Label	Values	Missing	Columns	Align	Format
dagegy	String	3	0	Age (As of 15	None	None	6	Left	Nor

h07002k	Numeric	8	2	Health plan(s)	(.00, Valid skip	None	8	Right	Ord
h07002l	Numeric	8	2	Health plan(s)	(.00, Valid skip	None	8	Right	Ord
h07002m	Numeric	8	2	Health plan(s)	(.00, Valid skip	None	8	Right	Ord

Transfer the black dot from String to Numeric as follows:

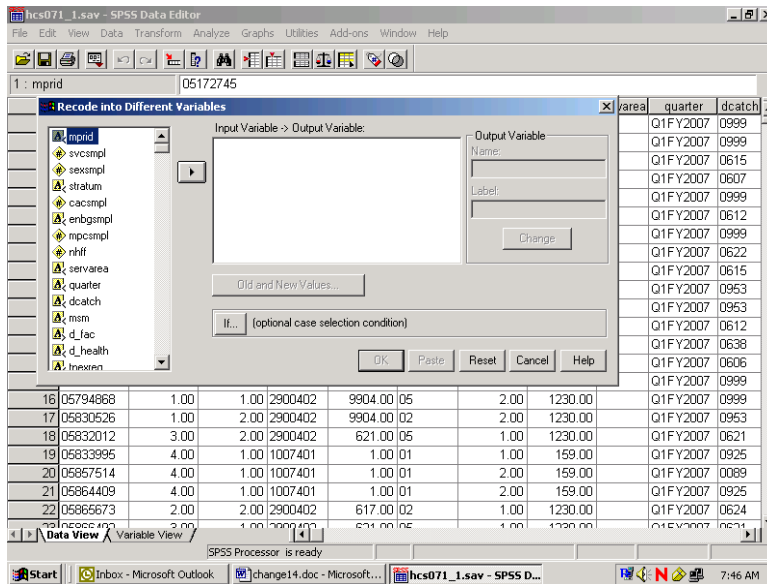

Click on OK to set the changes. Click on the Data View tab to return to the Data Editor window.

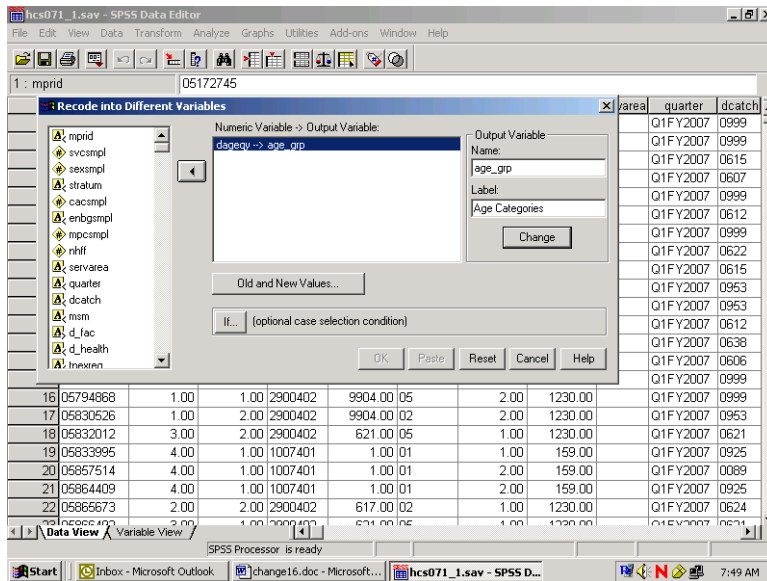

Now from the **Transform** menu, choose **Recode** and **Into Different Variables** as pictured below:

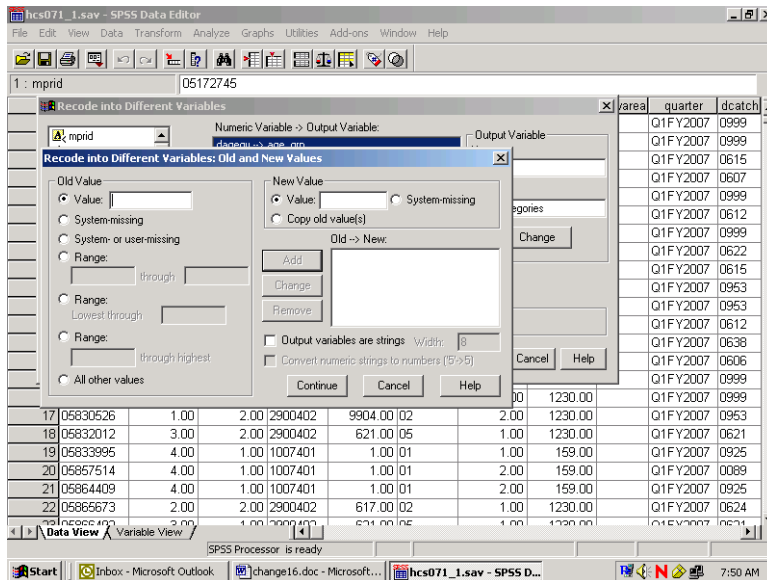

The following dialog box will open:

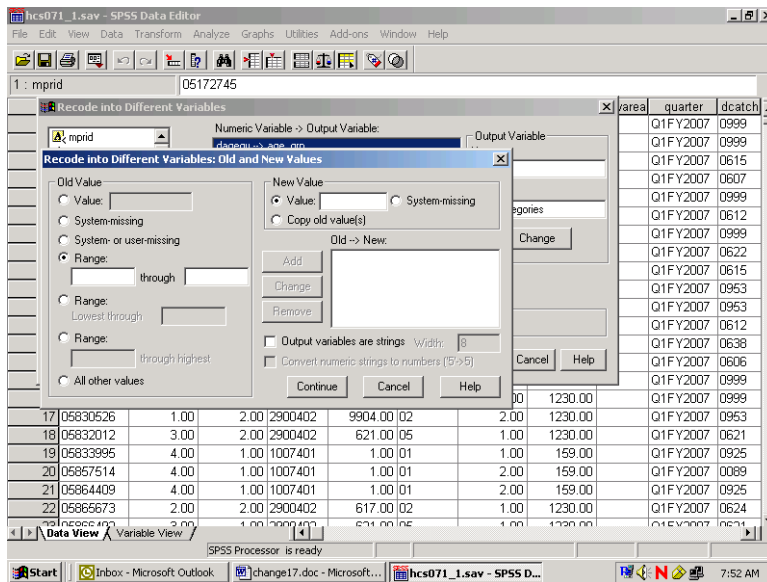

Move **DAGEQY** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on **Old and New Values**, and the following dialog box will open:

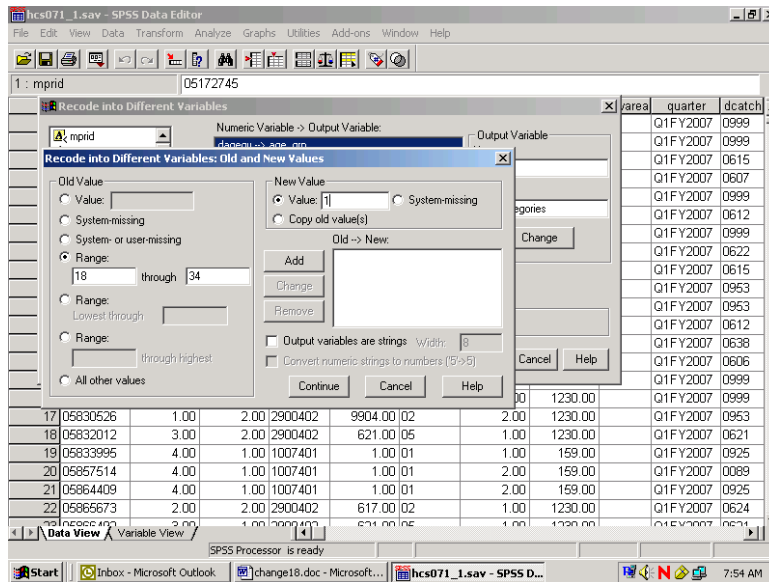

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

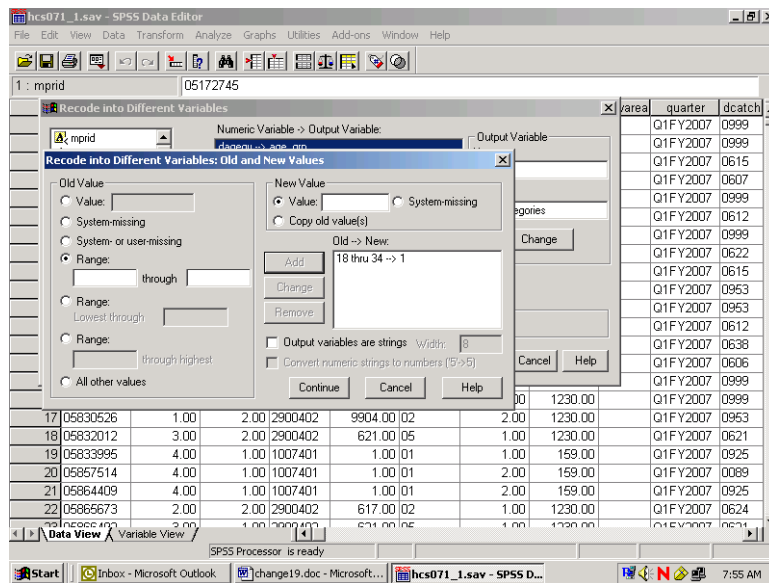

Once the appropriate slots are open, you have four ranges to enter.

First, enter **18 through 34** in the slots provided under **Range**. Next, enter the value **1** in the **Value** slot under **New Value**. **Add** is now illuminated.

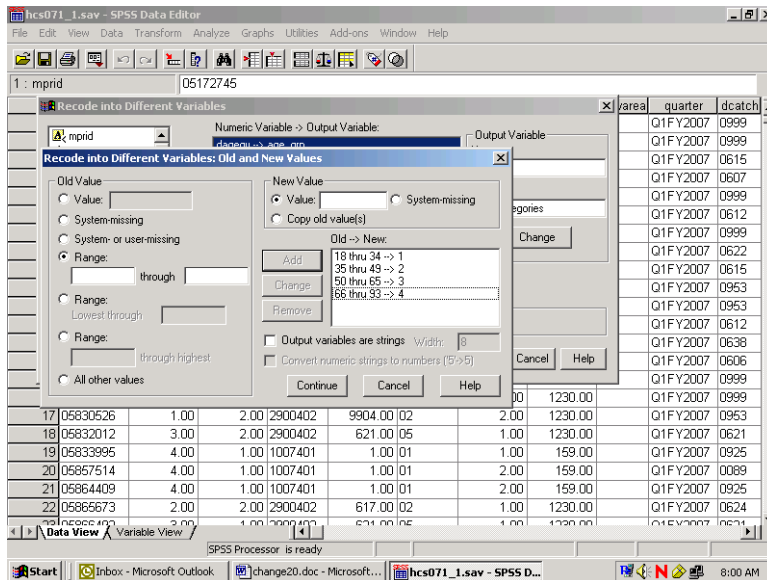

Clicking on Add produces the following result:

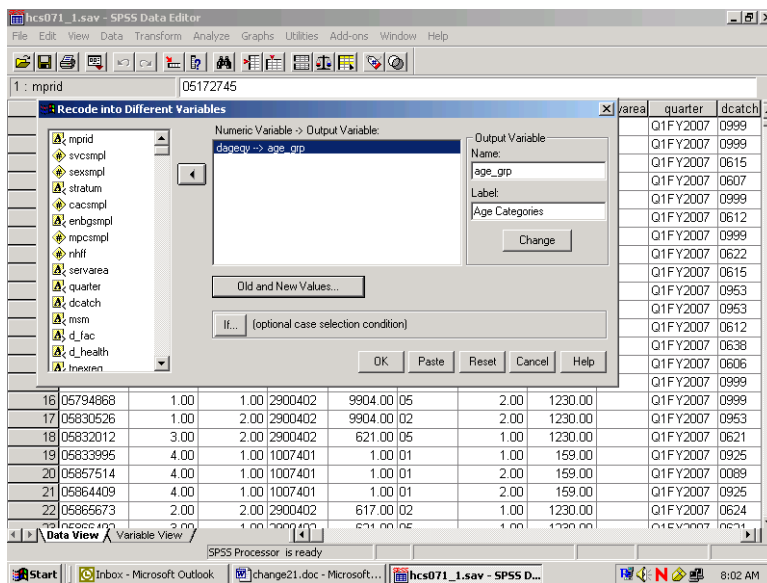

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

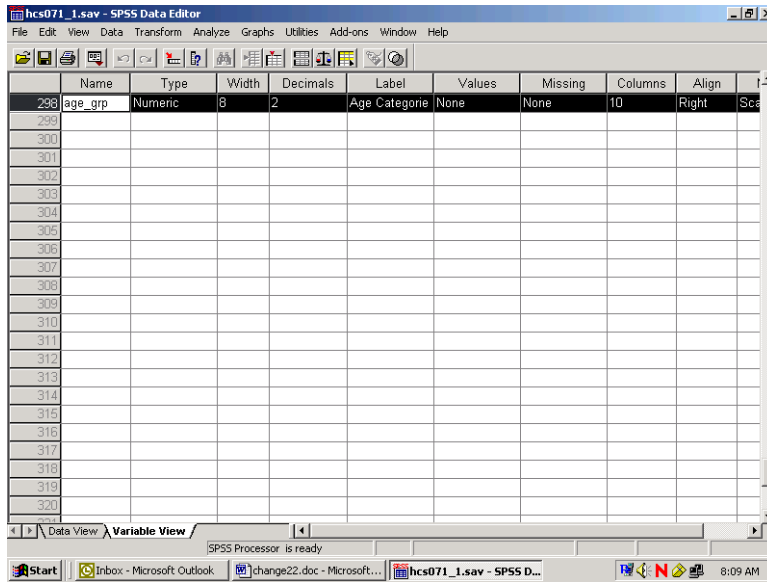

Click on Continue and return to the previous screen.

Click on **OK** to exit the screen. The new variable **age_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

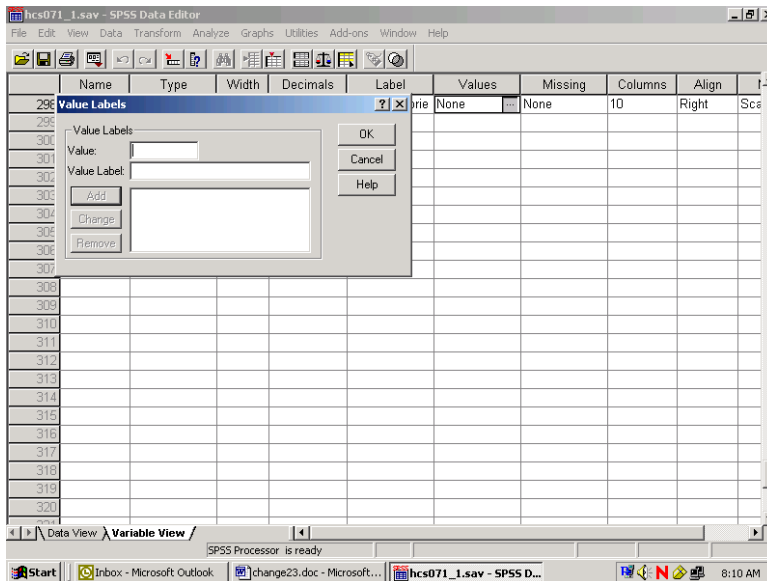

The final task is to create the value labels for the new variable **age_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

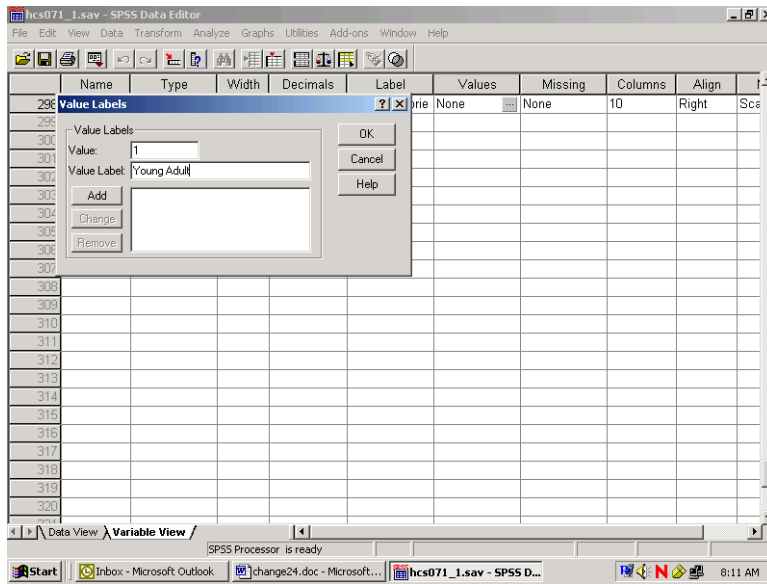

The variable **age_grp** is shown with its attributes.

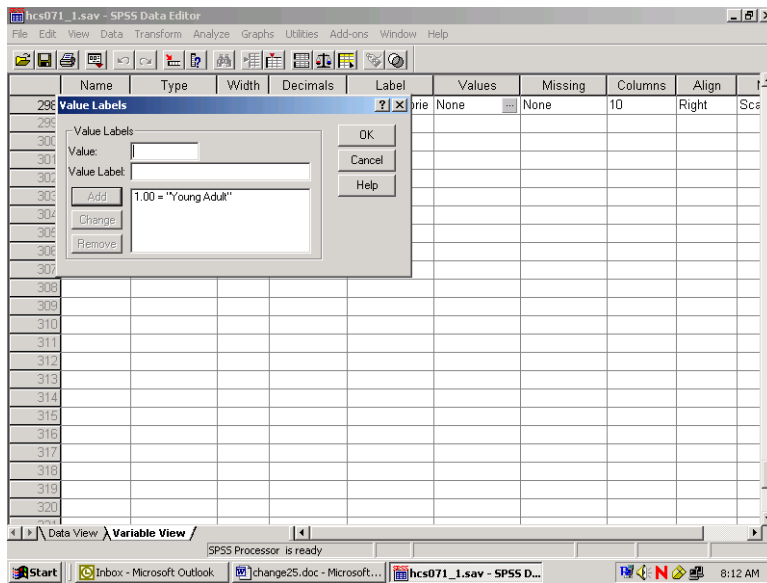

Click in the cell under **Values** and the following dialog box will open:

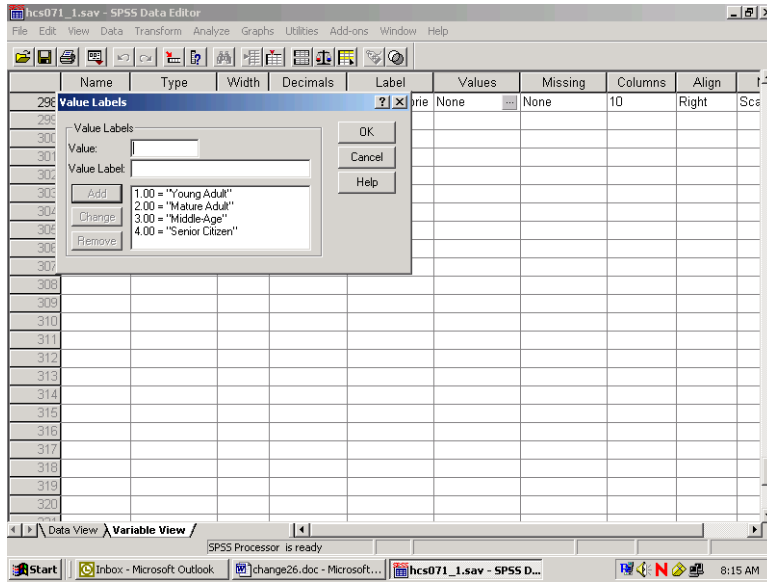

You can then begin to label the *values* of **age_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked Value Label. The screen will look like the following:

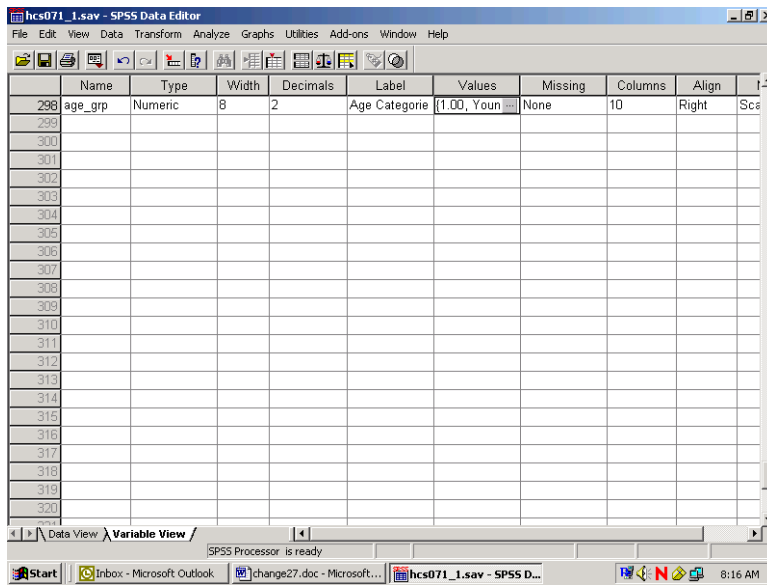

Add is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

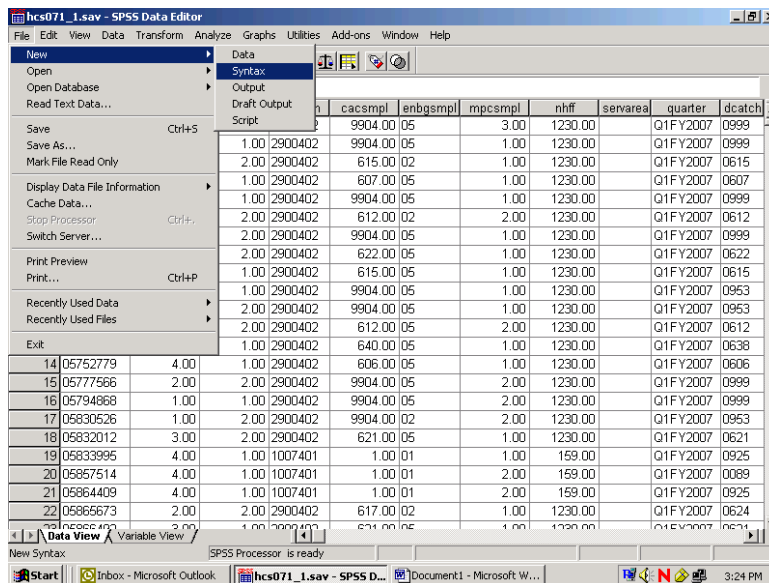

Limiting the Number of Variables

The HCSDDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate the rating of all experiences with the health plan as it relates to the beneficiaries' state of health. You are also interested in people that see a specialist, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among catchment areas by beneficiary group and enrollment. You can do all the work on a subset of only nine variables, saving them in a separate file.

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New, Syntax** on the **File** menu as in the following:

A blank syntax window will open.

Write the following command, substituting the file name and directory specification:

**SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XTNEXREG XSEXA XENRLMT
CACSMPL FWRWT XBNFGRP H07014 H07048 H07066.**

as in the following:

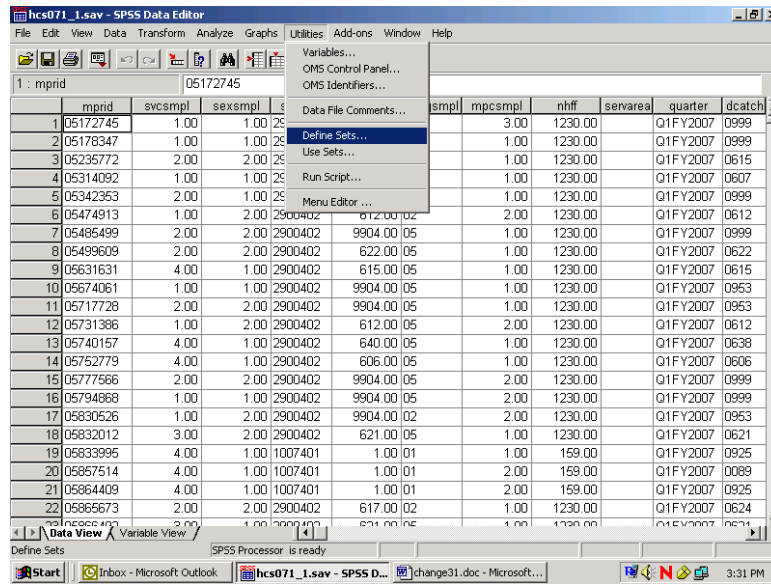

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

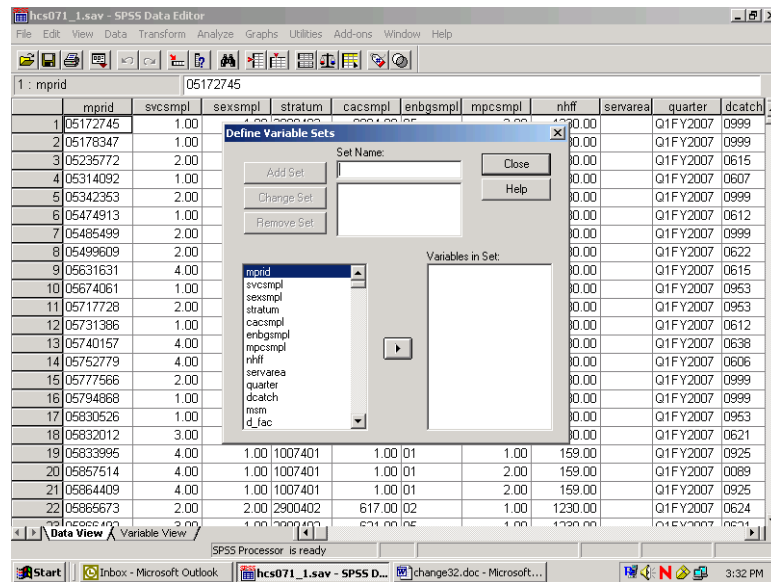

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utility** menu, define a subset of variables as in the following:

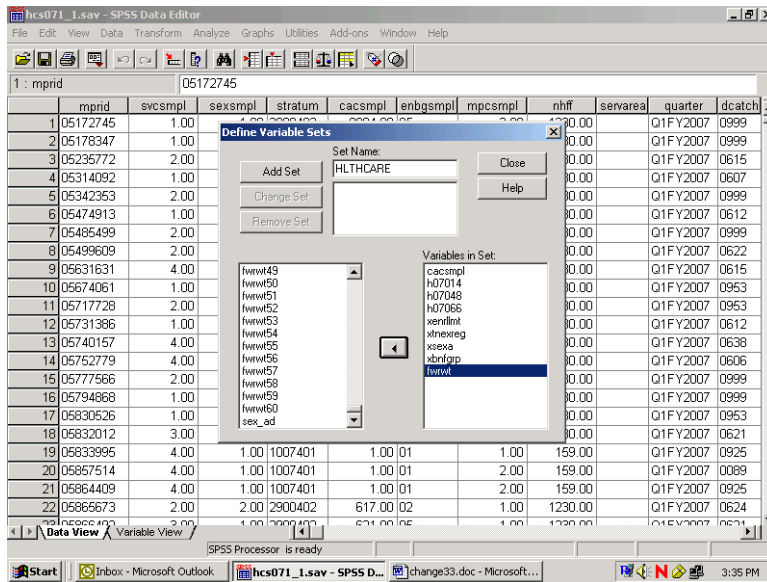

Select Define Sets.

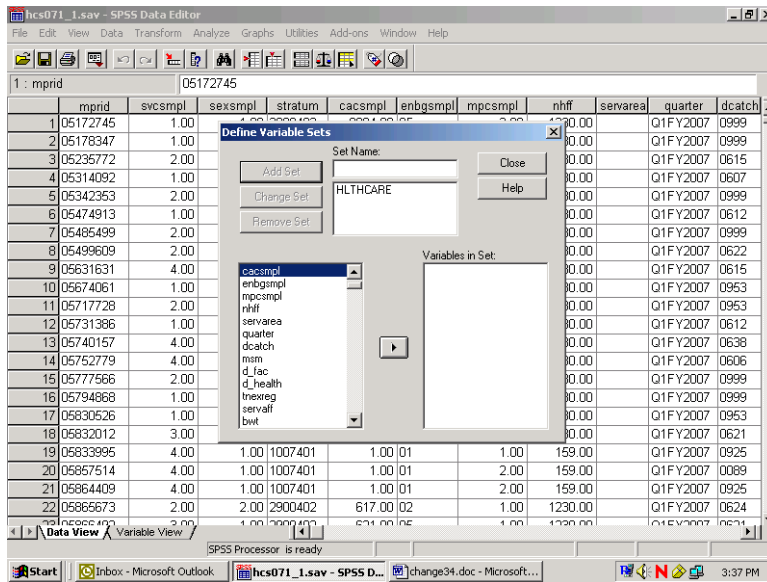

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

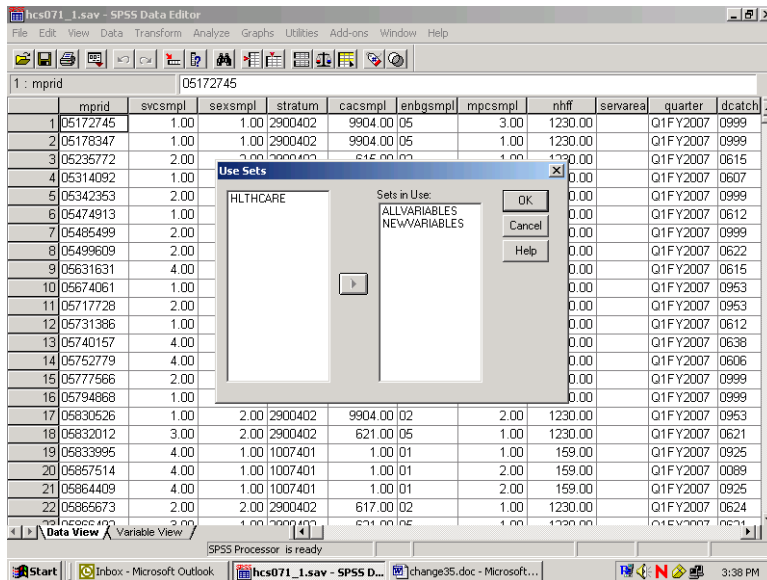

The screen should look like the following:

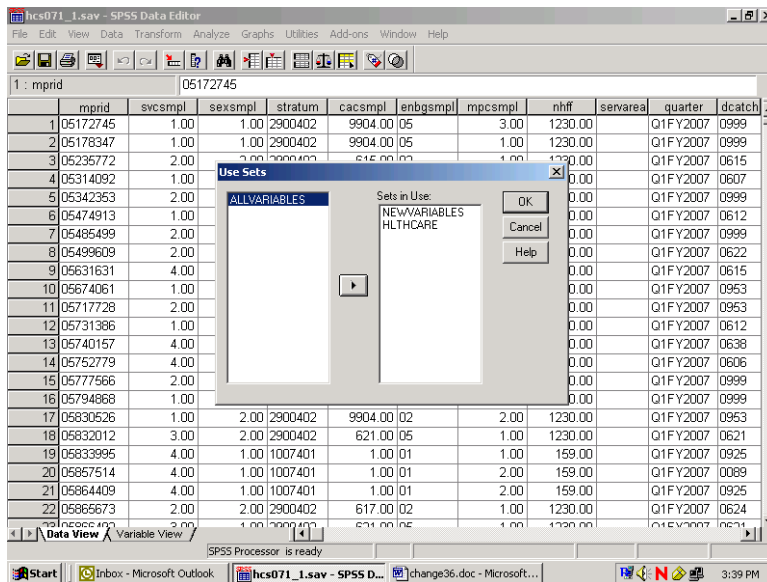

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Sets...**, and receive this screen:

Move HLTHCARE from the left slot to the right slot, which is labeled **Sets in Use**. Transfer ALLVARIABLES from the right to the left slot. Leave NEWVARIABLES where it is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

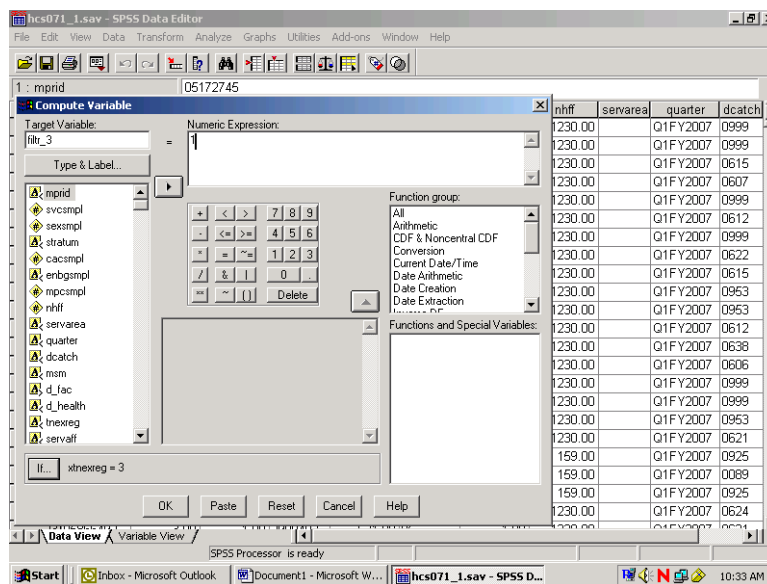

Limiting the Number of Observations

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

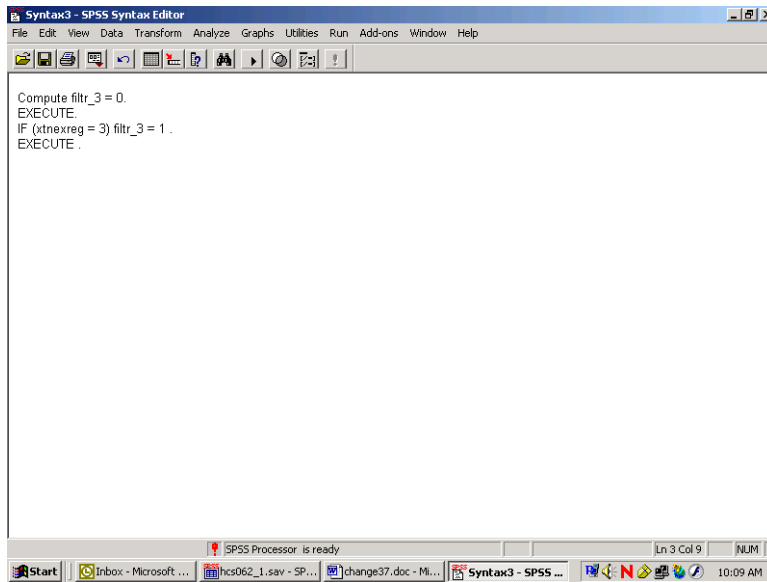

The first task is to **compute** a filter variable for all the cases in the file. A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the West, i.e., cases for which the variable **xtnexreg = 3**. You would build a filter variable named **filtr_3**, which has the value **1** associated with the cases in the West and 0 for all the other cases in the file. The logic is: if **xtnexreg = 3**, then **filtr_3 = 1**, else **filtr_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the “If” condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

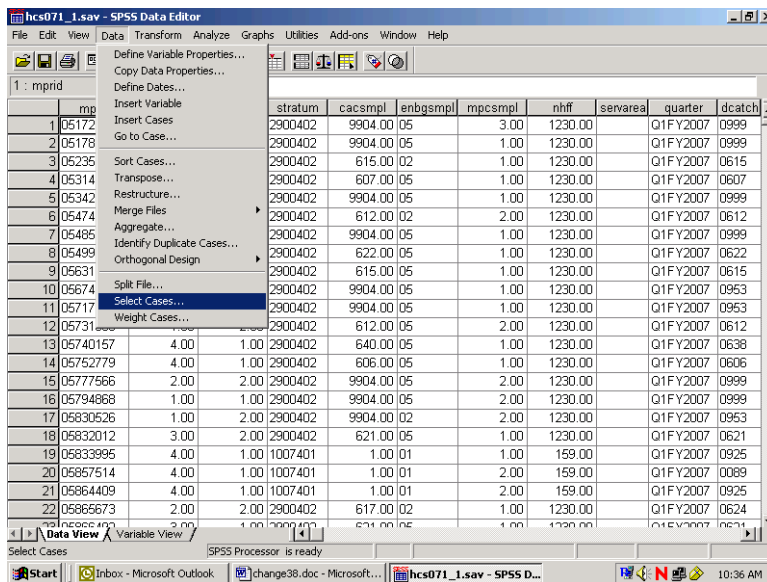

The screen that follows shows the syntax that was generated as you built the variable **filtr_3**.

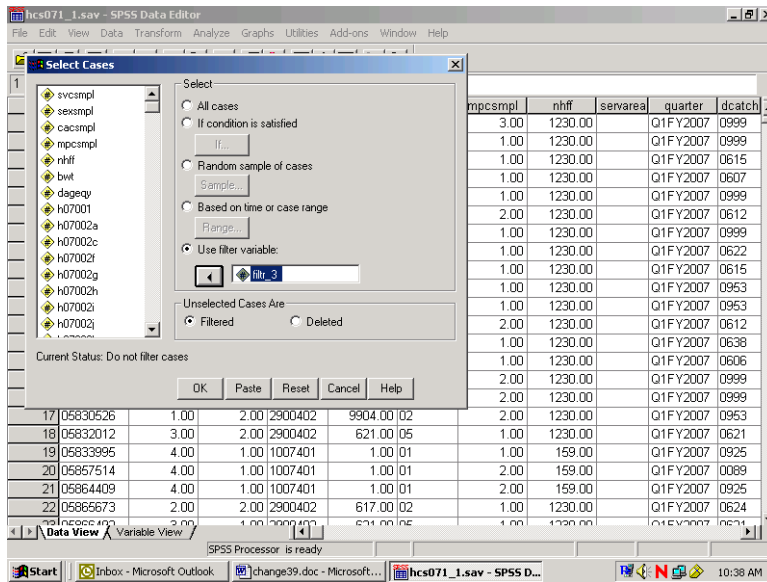

Once you build the filter variable, you can apply it for analyzing only those people from the West.

Using the **Data** menu, choose **Select Cases**.

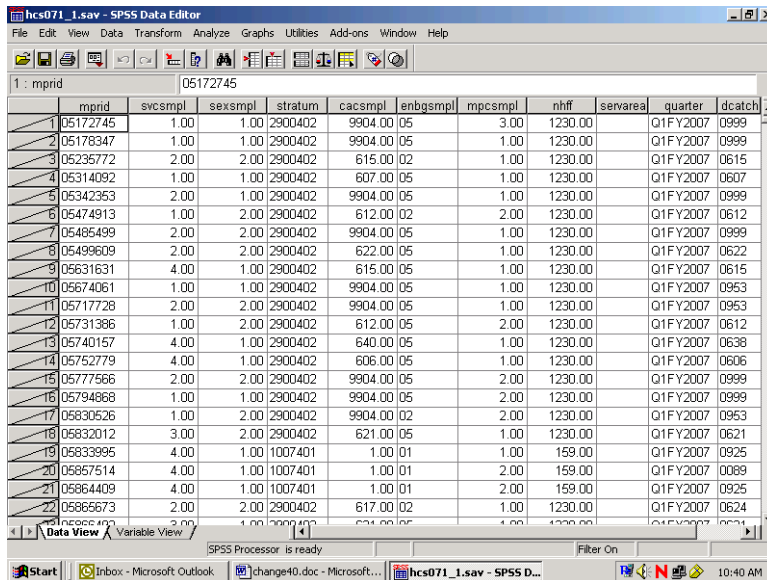

In the dialog box, check **Use filter variable**. Move the variable **filtr_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filtered** is checked under **Unselected Cases Are**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

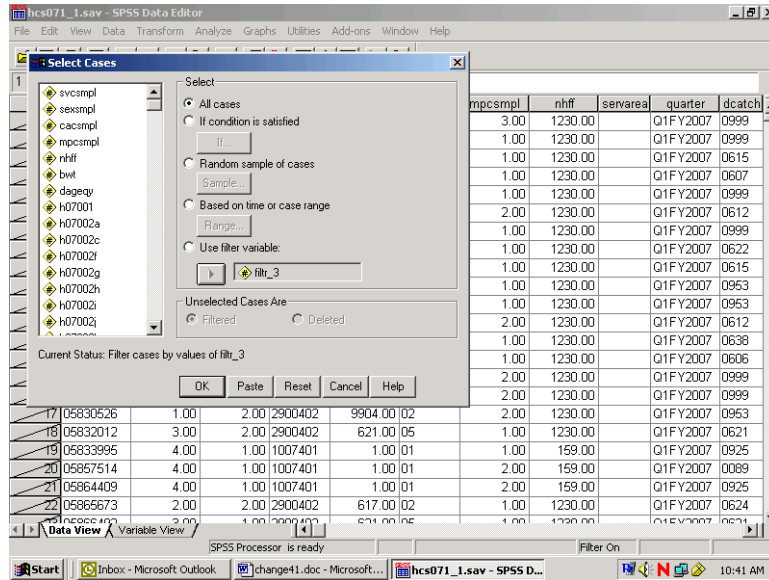

You can now produce tables for the subset of cases.

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see *which* filter is

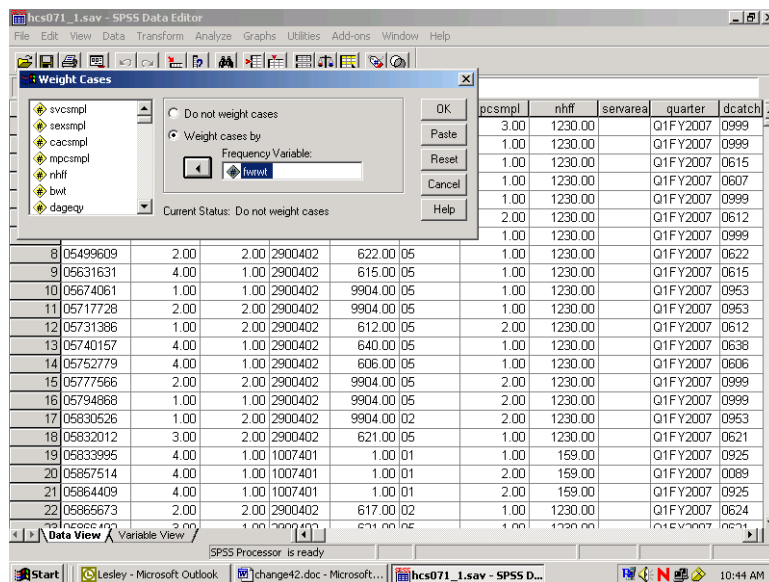

active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

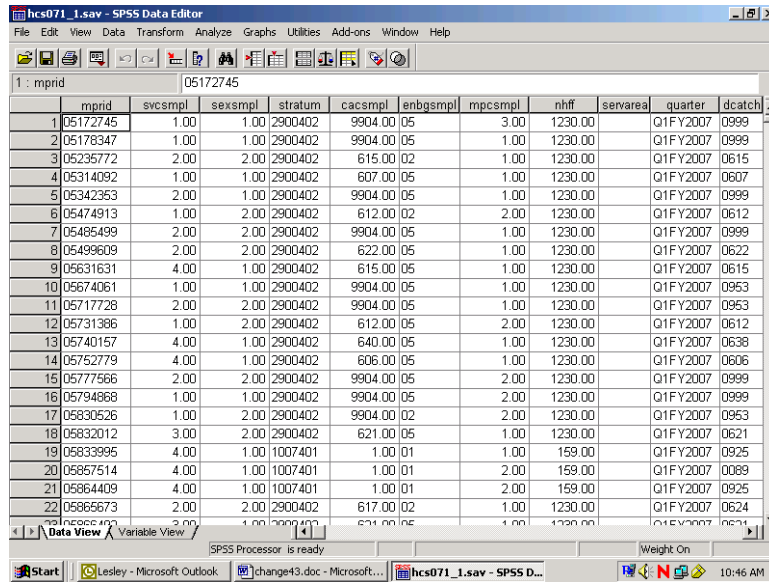

Weighting Data

The data file includes a weighting variable, FWRWT, which should be applied to all procedure runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H07014, H07048, H07066, cacsmpl, xbnfgrp, xsexa, xtnexreg, xenrlmt, FWRWT, and filtr_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

Calculating Means

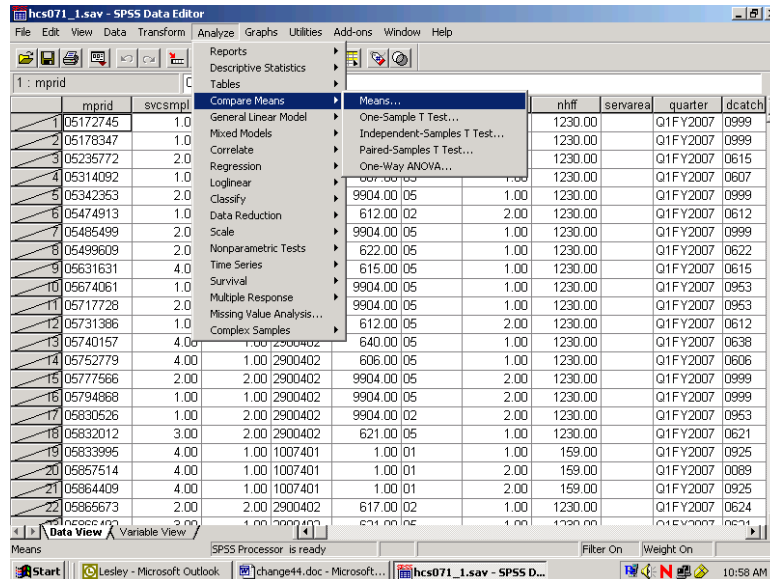

As an example, suppose you want to analyze the health care variables and you want to focus on the West (**xtnexreg = 3**). Suppose you are also interested in overall differences in the mean rating of health plans received as it relates to the beneficiary's self-evaluation of his health for the West region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H07048** – rating of the health plan, and **H07066** – assessment of the state of health. The statistic you want to see is the mean of the health care variables for each group in our breakdown.

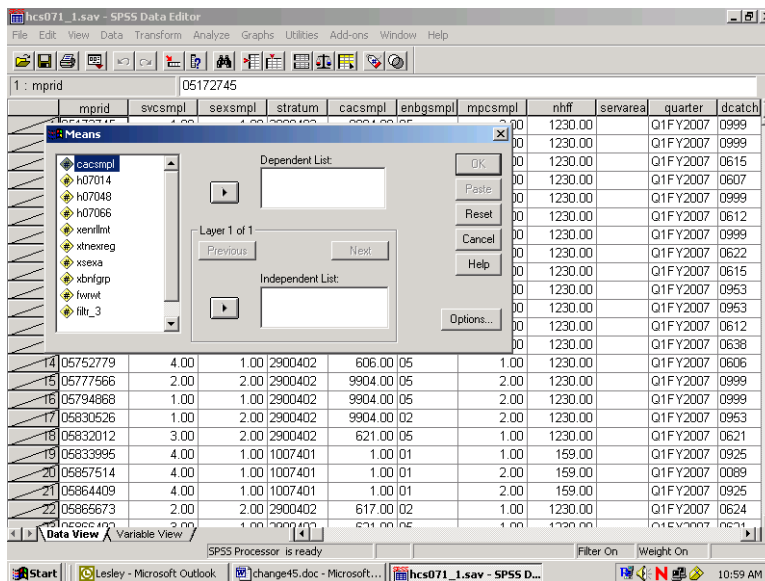

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **FWRWT**, which you would activate for procedure runs. The subset also includes the new variable, **filtr_3**, which allows us to select only those cases in the West.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **fwrwt**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr_3**. On the status line, **Filter On** and **Weight On** should appear.

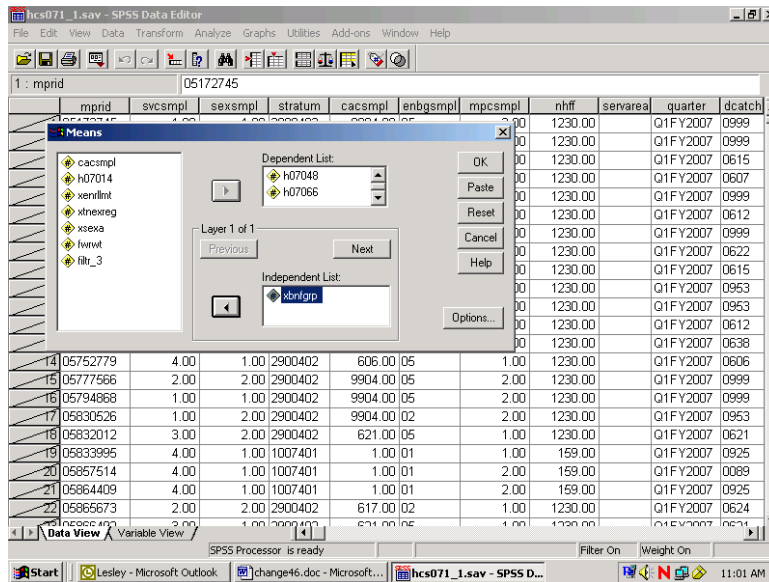

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

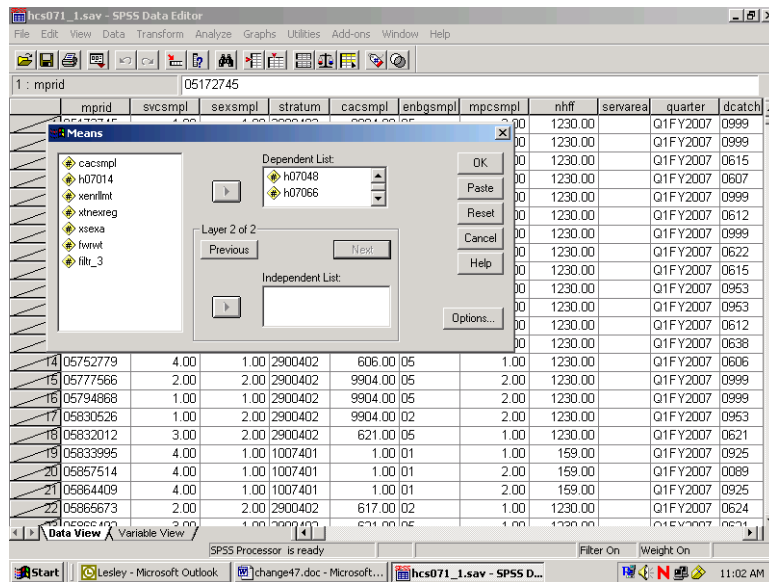

The dialog box for the Means procedure will open as in the following screen:

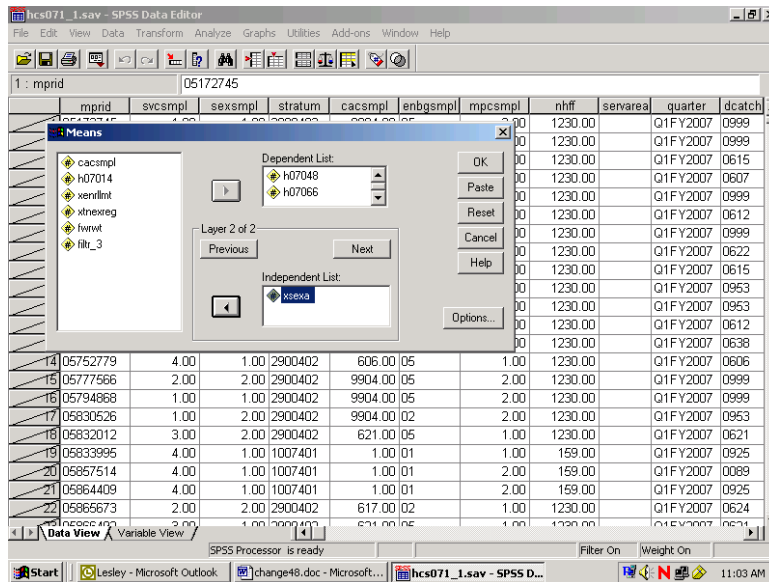

Move the health care variables **H07048** and **H07066**, from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **XBNFGRP** from the variable list on the left into the box under **Independent List**. **XBNFGRP** is the first grouping variable. The screen should look like the following:

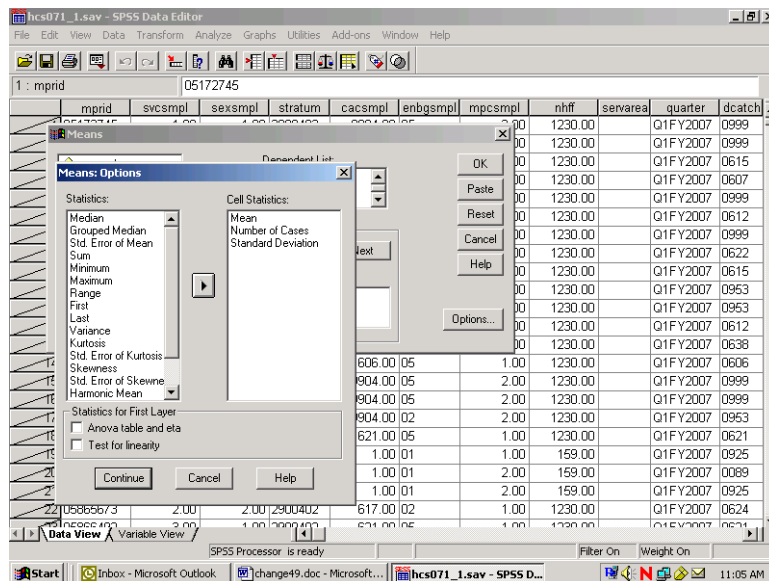

Click on **Next** in the center of the box to create a second layer. The following screen will open:

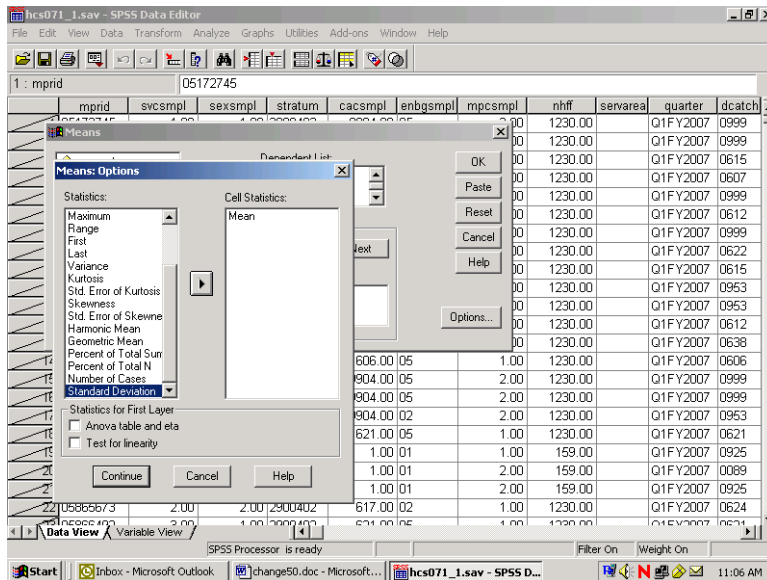

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsexa** from the variable list on the left into the box under **Independent List**. **Xsexa** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

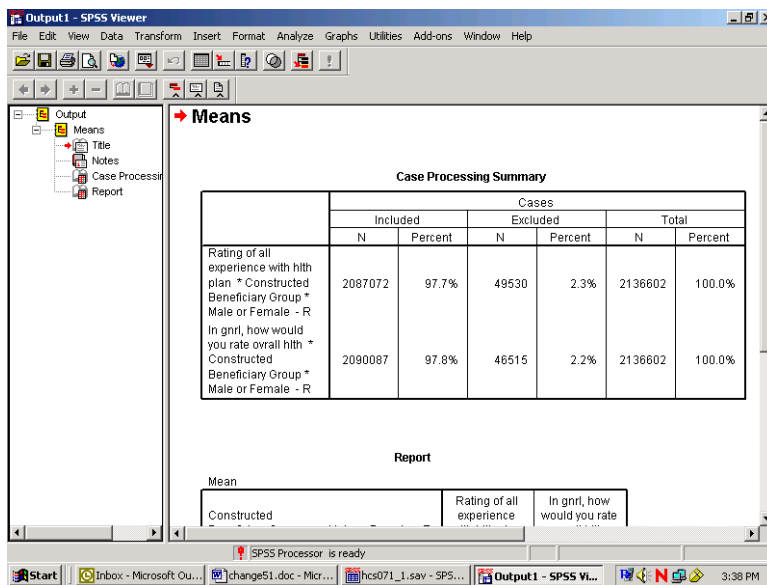

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates

that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

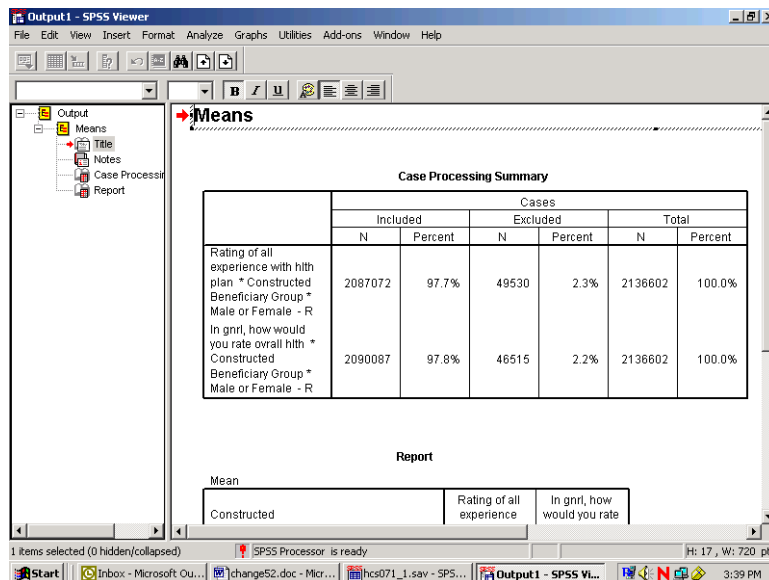

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

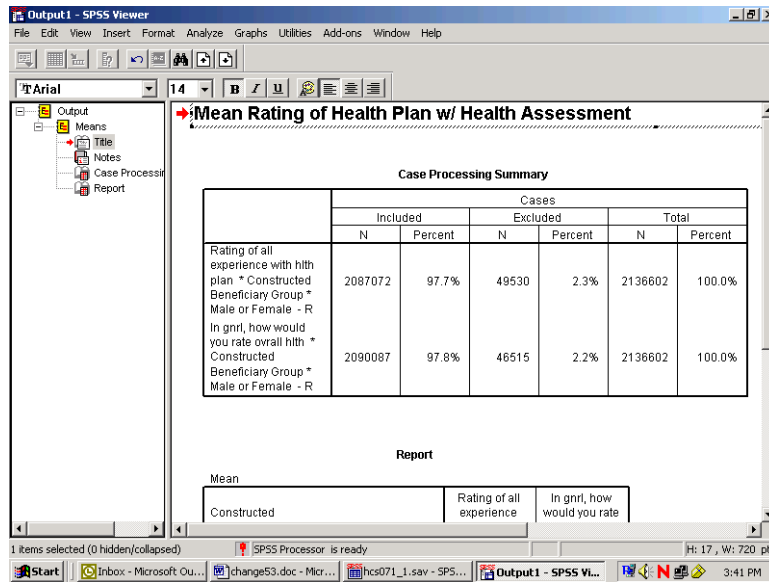

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

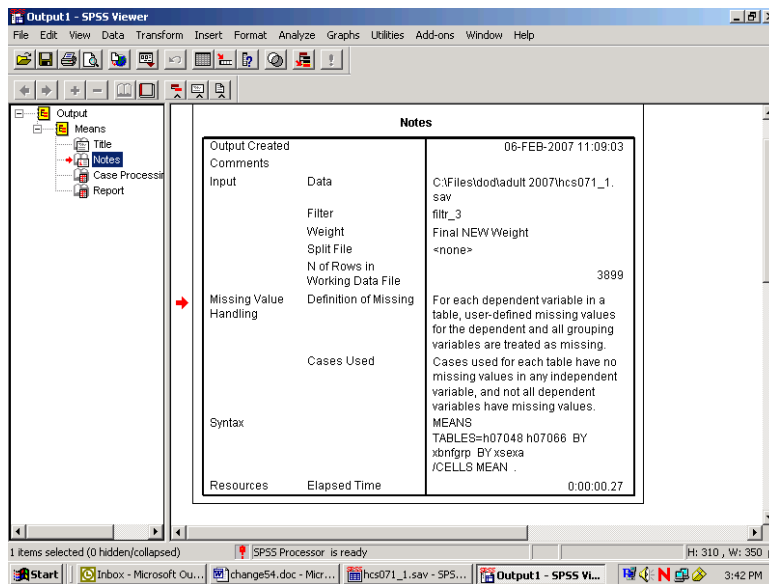

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

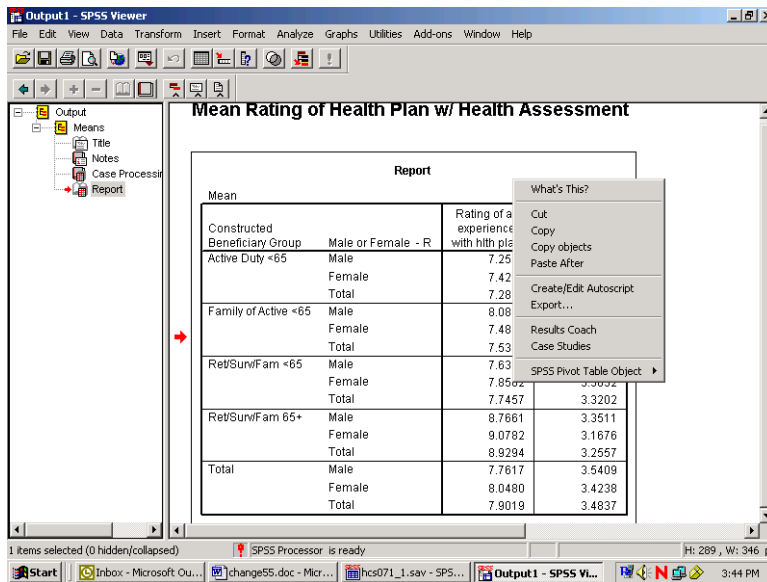

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is

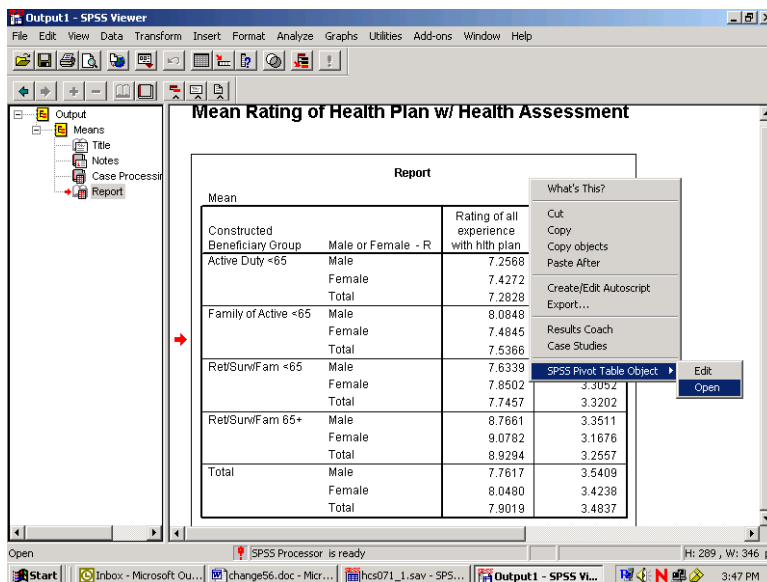

important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

Select **SPSS Pivot Table Object** and **Open** as pictured below:

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

SPSS Pivot Table - table1

File Edit View Insert Pivot Format Help

	Total	7.9019	3.4837

Taskbar: Start, Inbox - Micros..., change58.doc, hcs071_1.sav, Output1 - SP5..., SPSS Pivot T..., 3:48 PM

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all the table editing in the left section of the table, and the changes will spread through the entire table.

Statistics	Report									
	Constructed Beneficiary Group									
	Active Duty <65			Family of Active <65			Ret/SurvFam <65			R
	Male or Female - R			Male or Female - R			Male or Female - R			Mal
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M:
Rating of all experience with hith plan	7.2568	7.4272	7.2828	8.0848	7.4845	7.5366	7.6339	7.8502	7.7457	8
In gnr1, how would you rate overall hith	3.8279	3.7779	3.8203	3.3771	3.7228	3.6929	3.3362	3.3052	3.3202	3

You would then notice that certain labels are redundant. The labels, **Constructed Beneficiary Group** and **Male or Female - R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Constructed Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

Statistics	Report									
	Constructed Beneficiary Group									
	Active Duty <65			Family of Active <65			Ret/SurvFam <65			R
	Male or Female - R			Male or Female - R			Male or Female - R			Mal
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M:
Rating of all experience with hith plan	7.2568	7.4272	7.2828	8.0848	7.4845	7.5366	7.6339	7.8502	7.7457	8
In gnr1, how would you rate overall hith	3.8279	3.7779	3.8203	3.3771	3.7228	3.6929	3.3362	3.3052	3.3202	3

Click inside the table section labeled **Male or Female - R** and repeat the above procedure. An improved table is shown in the following screen.

The screenshot shows an SPSS Pivot Table window titled "SPSS Pivot Table - table1". The window displays a report with the following data:

Statistics	Active Duty <65			Family of Active <65			Ret/SurvFam <65			R
	Male	Female	Total	Male	Female	Total	Male	Female	Total	
Rating of all experience with health plan	7.2568	7.4272	7.2828	8.0848	7.4845	7.5366	7.6339	7.8502	7.7457	8
In general, how would you rate overall health	3.8279	3.7779	3.8203	3.3771	3.7228	3.6929	3.3362	3.3052	3.3202	3

The mean values reported are formatted to allow space for the labels of the satisfaction variables. The spaces between the values are not pleasing to the eye. You can shorten these labels and add the lost information in another place, according to the following procedures:

Double-click on the label for health state. Delete the text, entering only the words, **Health State**. Do the same for the health care label, entering only the words, **Plan Rating**.

Double-click on the word, **Report**, in the center at the top of the table, right-click, and choose **Delete** from the dialog box.

The screenshot shows the same SPSS Pivot Table window, but with the following changes to the table:

Statistics	Active Duty <65			Family of Active <65			Ret/SurvFam <65			R
	Male	Female	Total	Male	Female	Total	Male	Female	Total	
Plan Rating	7.2568	7.4272	7.2828	8.0848	7.4845	7.5366	7.6339	7.8502	7.7457	8
Health State	3.8279	3.7779	3.8203	3.3771	3.7228	3.6929	3.3362	3.3052	3.3202	3

The resulting table is much more readable. You can then add the deleted information to clarify the table output. Open the **Insert** menu and choose **Title** as in the following:

Statistics	Title									
	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65			R
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M
Plan Rating	7.2568	7.4272	7.2828	8.0848	7.4845	7.5366	7.6339	7.8502	7.7457	8
Health State	3.8279	3.7779	3.8203	3.3771	3.7228	3.6929	3.3362	3.3052	3.3202	3

Type in a new title for the table. The final result appears below.

West Region: Mean Health State with Mean Rating of Health Plan By Beneficiary Status and Gender										
Statistics	Mean									
	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65			R
	Male	Female	Total	Male	Female	Total	Male	Female	Total	M
Plan Rating	7.2568	7.4272	7.2828	8.0848	7.4845	7.5366	7.6339	7.8502	7.7457	8
Health State	3.8279	3.7779	3.8203	3.3771	3.7228	3.6929	3.3362	3.3052	3.3202	3

After all the editing changes have been made, exit the Pivot Table editor and return to the output navigator. Click on the File menu and choose Print Preview. Zoom in on the page and review the appearance of the report. The page will appear as the page below.

Mean Rating of Health Plan w/ Health Assessment

Calculating Percents

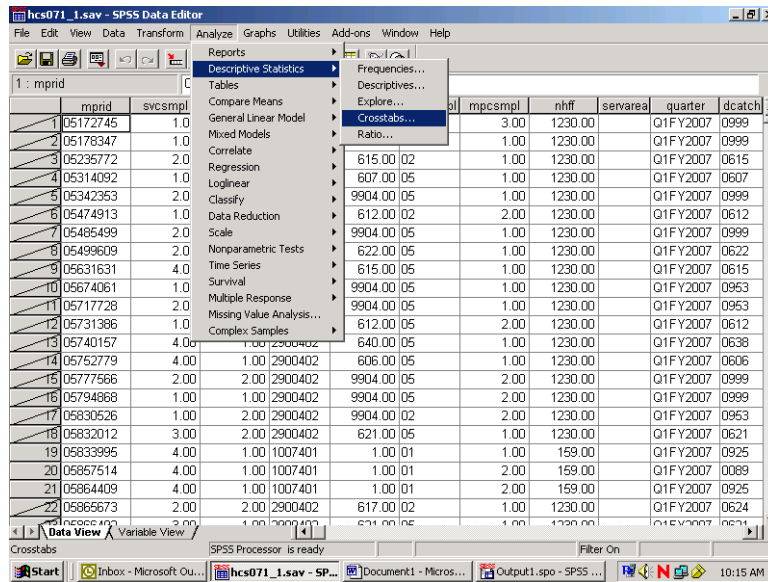

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

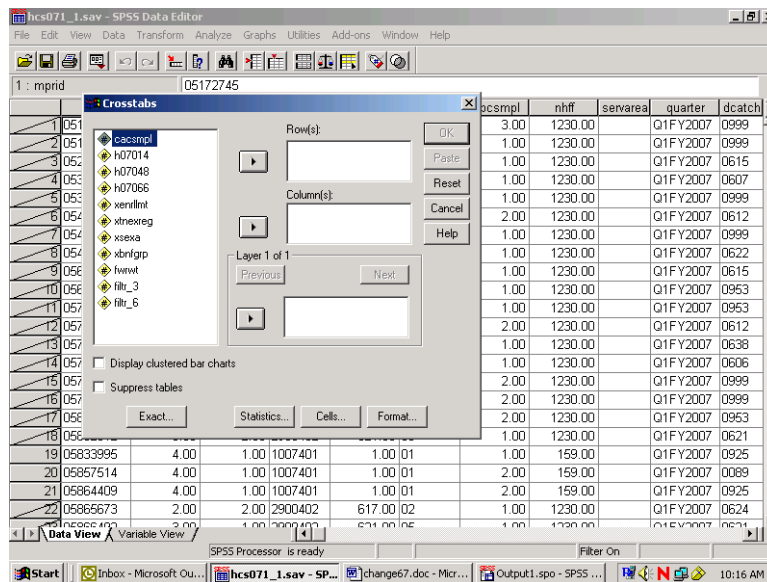

For example, suppose you want to see the percentage of people in the South catchment areas who answered “yes” or “no” to the question, “Did you see a specialist in the last 12 months?” The variables in this analysis are **cacsmpl** – the catchment area, and **H07014** – the questionnaire variable. The cases for the analysis are from the South only.

The first task is to build a new filter variable, assigning **1** to the variable when **XTNEXREG = 2**. You would call the variable **filtr_6** and build it the same way you built the filter, **filtr_3**. Cases from the South are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

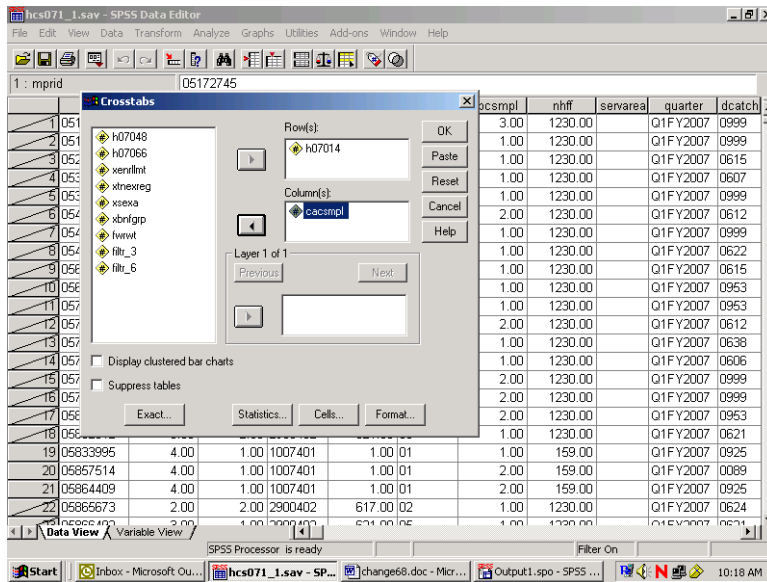

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The Crosstabs dialog box will open as follows:

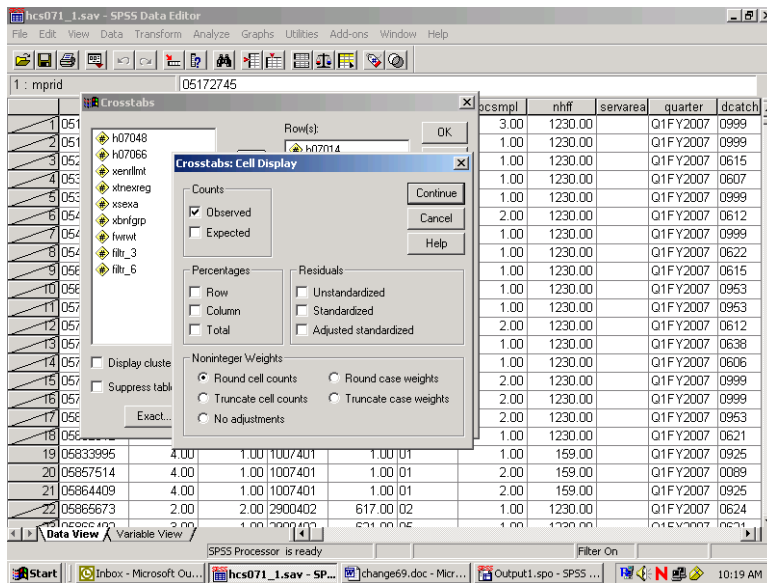

Move **H07014** from the variable list on the left into the box marked **Row(s)**., and move the variable **cacsmp1** into the box marked **Column(s)**:. The screen will resemble the following:

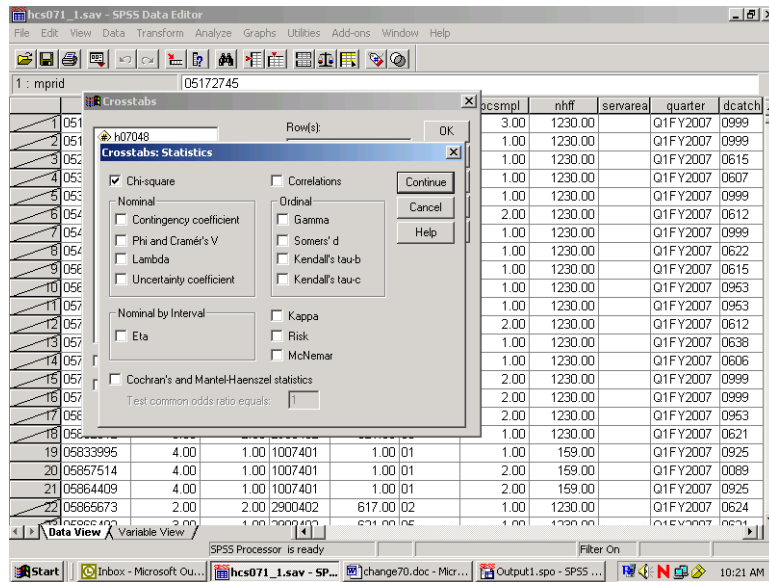

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

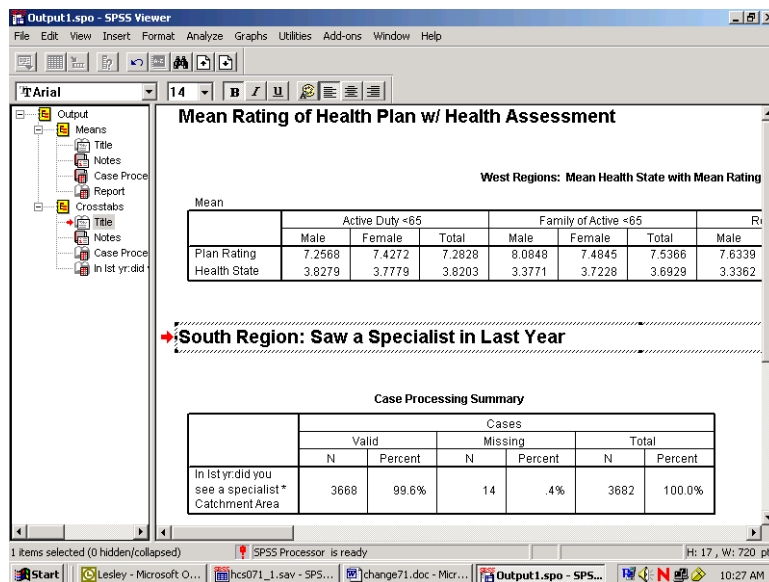

Under **Counts**, **Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each catchment area. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

Check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output—in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and the **Case Processing Summary** as you did before.

Navigate to the procedure icon. Follow the procedure for opening an **SPSS Pivot Table Object**, open the table in the special editor and maximize the screen as in the following:

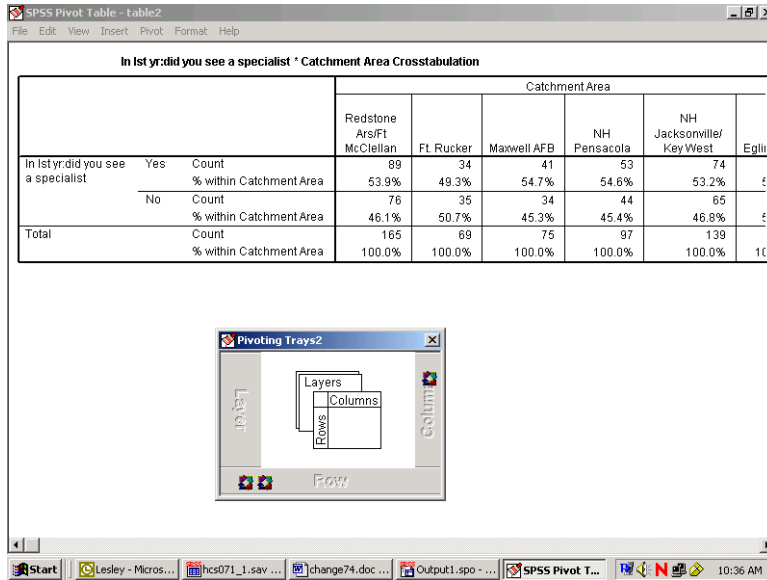

The screenshot shows the SPSS Pivot Table window titled "SPSS Pivot Table - table2". The main content is a crosstabulation table titled "In 1st yr. did you see a specialist * Catchment Area Crosstabulation". The table has a row dimension for "In 1st yr. did you see a specialist" (Yes, No) and a column dimension for "Catchment Area" (Redstone Ars/Ft McClellan, Ft. Rucker, Maxwell AFB, NH Pensacola, NH Jacksonville/Key West, Eglin). The cells contain counts and percentages within the catchment area.

		Catchment Area					
		Redstone Ars/Ft McClellan	Ft. Rucker	Maxwell AFB	NH Pensacola	NH Jacksonville/Key West	Eglin
In 1st yr. did you see a specialist	Yes	Count 89	34	41	53	74	
		% within Catchment Area 53.9%	49.3%	54.7%	54.6%	53.2%	£
No	Count 76	35	34	44	65		
	% within Catchment Area 46.1%	50.7%	45.3%	45.4%	46.8%	£	
Total	Count 165	69	75	97	139		
	% within Catchment Area 100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

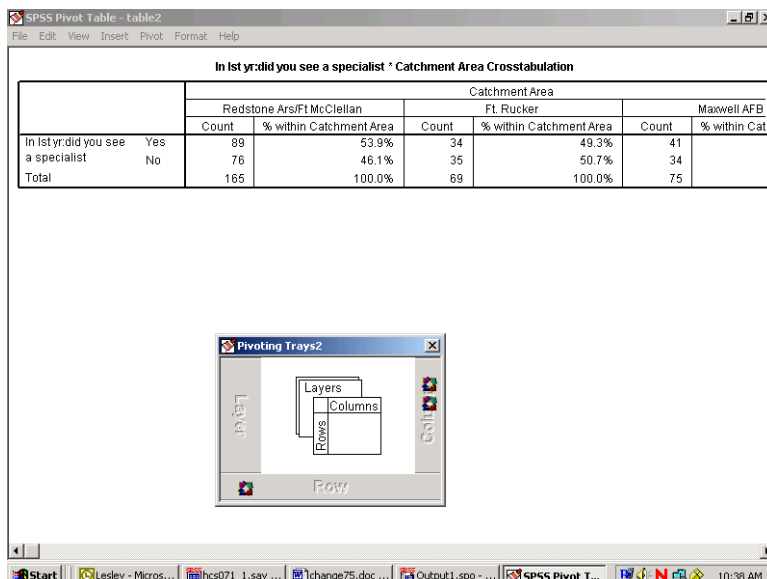

The screenshot shows the same SPSS Pivot Table window, but with the "Pivot" menu open. The "Pivoting Trays" option is highlighted, indicating the user is about to change the pivot settings to realign the percent statistic.

The pivoting tool will appear:

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H07014** – saw specialist in the last 12 months, and **Statistics** – the percent of people in each catchment area. On the column axis is the variable, **cacsmpl** – the catchment area.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **cacsmpl**. Select it by double-clicking and edit it for clarity (see the screen below).

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

The screenshot shows an SPSS Pivot Table window titled "SPSS Pivot Table - table2". The table is titled "In 1st yr:did you see a specialist * Catchment Area Crosstabulation". The data is organized by South Region: Catchment Areas (Redstone Ars/Ft McClellan, Ft. Rucker, Maxwell AFB) and In 1st yr:did you see a specialist (Yes, No). The table includes columns for Count and Percent for each category.

		South Region: Catchment Areas					
		Redstone Ars/Ft McClellan		Ft. Rucker		Maxwell AFB	
		Count	Percent	Count	Percent	Count	Percent
In 1st yr:did you see a specialist	Yes	89	53.9%	34	49.3%	41	54.7%
	No	76	46.1%	35	50.7%	34	45.3%
Total		165	100.0%	69	100.0%	75	100.0%

Next, notice that the label for **H07014** is awkward. Select and clear it.

Last, edit the text in the table label so that it better expresses the content of the table. The finished table appears as follows:

The screenshot shows the same SPSS Pivot Table window, but the table title has been updated to "Saw a Specialist in Last Year: By Catchment Areas". The table structure is similar to the previous one, but it includes an additional column for Count for the 'Yes' and 'No' categories.

		South Region: Catchment Areas						
		Redstone Ars/Ft McClellan		Ft. Rucker		Maxwell AFB		
		Count	Percent	Count	Percent	Count	Percent	
Yes		89	53.9%	34	49.3%	41	54.7%	53
	No	76	46.1%	35	50.7%	34	45.3%	44
Total		165	100.0%	69	100.0%	75	100.0%	97

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H07014**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrlimt**, who saw a specialist in the past 12 months. Suppose you are also interested in sex differences, **xsexa**, among the groupings. **Xsexa** is the **Layer** variable. You want to remain in the South region, using **filtr_6** as the filter variable. The cases will be weighted by **FWRWT**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

Do the following:

- Run **Crosstabs**.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

SPSS Pivot Table - table4

File Edit View Insert Pivot Format Help

In 1st yr:did you see a specialist * Enrollment in TRICARE Prime * Male or Female - R Crosstabulation

Male or Female - R				Enrollment in TRICARE Prime			
				Active Duty - under 65	Enrolled - under 65	Not enrolled - under 65	Not enrolled - 65 or over
Male	In 1st yr:did you see a specialist	Yes	Count 135909	Count 128202	Count 127740	Count 241239	
		% within Enrollment in TRICARE Prime	37.0%	55.8%	57.4%	81.8%	
	No	Count 231673	Count 101573	Count 94930	Count 53833		
		% within Enrollment in TRICARE Prime	63.0%	44.2%	42.6%	18.2%

Windows taskbar: Start, Lesley - Micros..., hcs071_1.sav..., change79.doc..., Output1.spo..., SPSS Pivot T..., 10:51 AM

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **Male or Female - R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

SPSS Pivot Table - table4

In 1st yr did you see a specialist * Enrollment in TRICARE Prime * Male or Female - R Crosstabulation

			Enrollment in TRICARE Prime						Total
			Active Duty - under 65		Enrolled - under 65		Not enrolled - under 65		
			Male or Female - R		Male or Female - R		Male or Female - R		
In 1st yr did you see a specialist	Yes	Count	135909	35642	128202	223903	127740	171581	2
		% within Enrollment in TRICARE Prime	37.0%	53.1%	55.8%	52.8%	57.4%	62.9%	
No	Count	231673	31456	101573	200283	94930	101087	1	
	% within Enrollment in TRICARE Prime	63.0%	46.9%	44.2%	47.2%	42.6%	37.1%		
Total	Count	367582	67098	229775	424186	222670	272668	2	
	% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	

Pivoting Trays4

Start | Inbox - Mic... | hcs071_1... | change90... | Output1.s... | SPSS Pivo... | 10:54 AM

Then drag the **Statistics** icon to the COLUMN dimension to produce the following change:

SPSS Pivot Table - table4

In 1st yr did you see a specialist * Enrollment in TRICARE Prime * Male or Female - R Crosstabulation

			Enrollment in TRICARE Prime					
			Active Duty - under 65			Enrolled - under 65		
			Male or Female - R			Male or Female - R		
In 1st yr did you see a specialist	Yes	Count	% within Enrollment in TRICARE Prime	Count	% within Enrollment in TRICARE Prime	Count	% within Enrollment in TRICARE Prime	
		135909	37.0%	35642	53.1%	128202	55.8%	
No	Count	231673	63.0%	31456	46.9%	101573	44.2%	
	% within Enrollment in TRICARE Prime	367582	100.0%	67098	100.0%	229775	100.0%	
Total	Count	367582	67098	229775	424186	222670	272668	
	% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	

Pivoting Trays4

Start | Inbox - Mic... | hcs071_1... | change91... | Output1.s... | SPSS Pivo... | 10:56 AM

Close the **Pivoting Trays** and hide the dimension label, **Male or Female - R**, in the table. Then, change the percent label to “Percent” and delete the label for **H07014** in the row dimension. Last, revise the label above the table to make it more informative.

The resulting table is both clear and informative.

South Regions: Saw a Specialist in Last Year: Enrollment Status by Gender

	Enrollment in TRICARE Prime							
	Active Duty - under 65				Enrolled - under 65			
	Male		Female		Male		Female	
	Count	Percent	Count	Percent	Count	Percent	Count	Percent
Yes	135909	37.0%	35642	53.1%	128202	55.8%	223903	52.8%
No	231673	63.0%	31456	46.9%	101573	44.2%	200283	47.2%
Total	367582	100.0%	67098	100.0%	229775	100.0%	424186	100.0%

The Print Preview, as in the view below, shows how the report will print.

South Regions: Saw a Specialist in Last Year: Enrollment Status by Gender

	Enrollment in TRICARE Prime					
	Active Duty - under 65					
	Male		Female

No	101573	44.2%	200283	47.2%		
Total	229775	100.0%	424186	100.0%		

CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the Quarter I, 2007 Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

Variance Estimation Methods

To account for complex estimators for the sample design,¹ it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or jackknife replication, the public release files for the Quarter I, 2007 Adult HCSDB include the following variables:

- The stratum variable (STRATUM) for the Taylor series linearization method
- Quarterly final weight (FWRWT) and jackknife replicate weights (FWRWT01 to FWRWT60)

Two popular software packages are available for performing Taylor series linearization or the jackknife replication method: SUDAANTM (Shah et al. 1997) and WesVarPC (Brick et al. 1996), respectively.² The discussion below explains how SUDAAN and WesVarPC are used to calculate variance estimates using Taylor series linearization and jackknife replication methods.

Taylor Series Linearization Method

For most sample designs (including the 2007 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in “The 2007 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”.

¹The 2007 HCSDB uses a stratified sampling design. For details, see “Health Care Survey of DoD Beneficiaries: 2007 Adult Sampling Report.” Washington, DC: Mathematica Policy Research, November 2006.

²The latest version for SUDAAN 8.0 can be used for replication methods including jackknife variance estimation. SAS 8.0 also includes procedures for performing Taylor series utilization, but SUDAAN contains more options.

To calculate variance estimates based on the Taylor series linearization method with HCSDb's stratified sampling design, both the stratum variable (STRATUM) and the final weight (FWRWT) specified for each data record are needed.

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling designs. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter I, 2007 Adult HCSDb, the data file for adults must be sorted by STRATUM before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is FWRWT

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H07015), among all beneficiaries in the past 12 months who saw a specialist (H07014=1) for each region (XTNEXREG)

```
PROC DESCRIPT DATA=HCSDb /*FILETYPE=SAS*/ DESIGN=STRWR;  
WEIGHT          FWRWT;  
NEST            STRATUM;  
SUBPOPN        H07014=1;  
SUBGROUP       XTNEXREG;  
LEVELS         4;  
VAR            H07015;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in TNEX region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H07049) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDb /*FILETYPE=SAS*/ DESIGN=STRWR;  
WEIGHT          FWRWT;  
NEST            STRATUM;  
SUBPOPN        XTNEXREG = 3;  
SUBGROUP       H07049 XENRLLMT;  
LEVELS         3 5;  
TABLES         H07049 *XENRLLMT;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.
- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Shah et al. (1997).

Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (FWRWT01-FWRWT60) for the Quarter I, 2007 Adult HCSDB file. Construction of these weights is described in the Adult Technical Manual. With the replicate weights, you can produce jackknife standard errors using in-house or custom written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 7.8. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvar/demo/index.html>), the following example explains how it is used to produce jackknife variance estimates for statistics from the Quarter I, 2007 Adult HCSDB.

Suppose you want to estimate the mean rating of specialists (H07015) by beneficiaries who went to a specialist in the past 12 months (H07014=1) for each region (XTNEXREG). You would use WesVarPC as follows.

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the *Prep* menu, choose the *Import Data Files* screen and import all variables for the analysis. For this example, input H07014, H07015, and XTNEXREG into the **Variables** box, FWRWT01-FWRWT60 into the **Replicates** box, and MPRID into the **ID** box. Also specify the replication method as JK1 on this screen.
- Create a data file for the subpopulation. Specify the subpopulation by choosing the *Subpop WesVarPC Data File* from the *Prep* menu: H07014=1.
- **Calculate estimates.** From the *Tables* menu, choose *New* and select the file created from the above procedure. Then, from the *Table Request* screen, specify H07015 as the **Analysis** variable, MEAN (H07015) as the **Compute Statistics**, and XTNEXREG as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

H07011 - Health plan: problem to get a personal doctor or nurse you are happy with					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
.	342	2.70	198772.30	2.81	Did not answer
C	639	5.04	537663.70	7.60	Should be skipped
N	994	7.84	768975.10	10.87	Valid skip
1	1836	14.47	811548.10	11.47	A big problem
2	2829	22.30	1350887.00	19.09	A small problem
3	6044	47.65	3409172.00	48.17	Not a problem

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age. You will notice that the last range representing ages “75 years and older” includes 422 respondents age 75 and older.

DAGEQY - Age at time of data collection					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
018 -- 034	3611	28.47	2234757.00	31.58	018--034
035 -- 044	2973	23.44	977028.50	13.81	035--044
045 -- 054	2517	19.84	869430.50	12.29	045--054
055 -- 064	2539	20.02	1221772.00	17.26	055--064
065 -- 074	622	4.90	1044023.00	14.75	065--074
075 -- 093	422	3.33	730006.50	10.32	075 yrs and older

MPRID - Unique MPR Identifier					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
05172745 -- 10935165	12684	100.00	7077018.00	100.00	00000001--99999999

SVCSMPL - Branch of Service Sampling Variable					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
1	4253	33.53	2508250.00	35.44	Army
2	2859	22.54	1663378.00	23.50	Navy
3	724	5.71	492520.30	6.96	Marine Corps
4	4452	35.10	2219425.00	31.36	Air Force
5	312	2.46	168968.80	2.39	Coast Guard
6	84	0.66	24475.83	0.35	Other/Unknown

SEXSMPL - Sex Sampling Variable					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
1	6182	48.74	3665390.00	51.79	Male
2	6502	51.26	3411628.00	48.21	Female

STRATUM - Sampling stratum					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

Health Care Survey of DoD Beneficiaries

We need your help!

The Department of Defense is conducting a world-wide survey of DoD health care beneficiaries aimed at understanding and improving your health care. You have been randomly selected to participate in this important study. ***Even if you do not receive health care from a military facility, please complete this survey since your views are important to us and your opinions count.*** Your participation will help improve the health care offered to DoD Beneficiaries throughout the world.

Please fill this out and mail it in the enclosed postage-paid envelope. Or, you can complete the survey online by visiting www.synovate.net/dodq1sat and using your unique 6-digit password which can be found on the top of this page.

The results of this survey will be posted at <http://www.tricare.osd.mil/survey/hcsurvey/>.

YOUR PRIVACY

Your participation in this survey effort is very important. Your responses are confidential and your participation is voluntary. The number in the upper left hand corner is ONLY used to let us know if you returned your survey so we don't have to send you reminders.

This is your opportunity to tell officials of your opinions and experiences with the current military health care system. It is also an opportunity to provide feedback and identify areas where improvements are needed.

The survey processing center removes all identifying information before sending the results to the Department of Defense.

Your information is grouped with others and no individual information is shared. Only group statistics will be compiled and reported. No information about you as an individual will be disclosed.

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55; Section 706, Public Law 102-484; E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military health care system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

Questions about the survey?

Any questions about the survey, or if you want to remove yourself from the survey mailing list, please contact us:

Veterans: Contact the US Department of Veterans Affairs at **1-877-222-VETS**; or go to www.va.gov

SURVEY INSTRUCTIONS

Answer all the questions by checking the box to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see an arrow with a note that tells you what question to answer next, like this:

Yes → **Go to Question 42**

No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (HA)
TMA/HPAE
c/o Synovate
PO Box 5030
Chicago, IL 60680-4138

SURVEY STARTS HERE

As an eligible TRICARE beneficiary, please complete this survey even if you did not receive your health care from a military facility.

Please recognize that some specific questions about TRICARE benefits may not apply to you, depending on your entitlement and particular TRICARE program.

This survey is about the health care of the person whose name appears on the envelope. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to that person.

1. Are you the person whose name appears on the mailing label of this envelope?

H07001

- 1 Yes → Go to Question 2
- 2 No → Please give this questionnaire to the person addressed on the envelope.

2. By which of the following health plans are you currently covered? MARK ALL THAT APPLY.

H07002A- H07002R

Military Health Plans

- A TRICARE Prime
- C TRICARE Extra or Standard (CHAMPUS)
- N TRICARE Plus
- O TRICARE for Life
- P TRICARE Supplemental Insurance
- Q TRICARE Reserve Select

Other Health Plans

- F Medicare
- G Federal Employees Health Benefit Program (FEHBP)
- H Medicaid
- I A civilian HMO (such as Kaiser)
- J Other civilian health insurance (such as Blue Cross)
- K Uniformed Services Family Health Plan (USFHP)
- M The Veterans Administration (VA)
- R Government health insurance from a country other than the US
- L Not sure

3. Currently, are you covered by Medicare Part A?

Medicare is the federal health insurance program for people aged 65 or older and for certain persons with disabilities. Medicare Part A helps pay for inpatient hospital care.

H07003

- 1 Yes, I am now covered by Medicare Part A
- 2 No, I am not covered by Medicare Part A

4. Currently, are you covered by Medicare Part B?

Medicare is the federal health insurance program for people aged 65 or older and for certain persons with disabilities. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

H07004

- 1 Yes, I am now covered by Medicare Part B
- 2 No, I am not covered by Medicare Part B

5. Currently, are you covered by Medicare supplemental insurance? Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

H07005

- 1 Yes, I am now covered by Medicare supplemental insurance
- 2 No, I am not covered by Medicare supplemental insurance

6. Which health plan did you use for all or most of your health care in the last 12 months? **MARK ONLY ONE.**

- 1 TRICARE Prime
- 3 TRICARE Extra or Standard (CHAMPUS)
- 11 TRICARE Plus
- 12 TRICARE Reserve Select
- 4 Medicare (may include TRICARE for Life)
- 5 Federal Employees Health Benefit Program (FEHBP)
- 6 Medicaid
- 7 A civilian HMO (such as Kaiser)
- 8 Other civilian health insurance (such as Blue Cross)
- 9 Uniformed Services Family Health Plan (USFHP)
- 10 The Veterans Administration (VA)
- 13 Government health insurance from a country other than the US
- 5 Not sure
- 6 Did not use any health plan in the last 12 months → **Go to Question 8**

H07006	See Note 1
--------	------------

For the remainder of this questionnaire, the term **health plan** refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- 1 Less than 6 months
- 2 6 up to 12 months
- 3 12 up to 24 months
- 4 2 up to 5 years
- 5 5 up to 10 years
- 6 10 or more years

H07007
See Note 1

YOUR PERSONAL DOCTOR OR NURSE

The next questions ask about your own health care. **Do not** include care you got when you stayed overnight in a hospital. **Do not** include the times you went for dental care visits.

8. **A personal doctor or nurse** is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant. Do you have one person you think of as your personal doctor or nurse?

H07008
See Note 2

- 1 Yes
- 2 No → **Go to Question 11**

9. Using any number from 0 to 10, where 0 is the worst personal doctor or nurse possible and 10 is the best personal doctor or nurse possible, what number would you use to rate your personal doctor or nurse?

- 0 0 Worst personal doctor or nurse possible
- 1 1
- 2 2
- 3 3
- 4 4
- 5 5
- 6 6
- 7 7
- 8 8
- 9 9
- 10 10 Best personal doctor or nurse possible
- 6 I don't have a personal doctor or nurse.

H07009
See Note 2

10. Did you have the same personal doctor or nurse before you joined this health plan?

- 1 Yes → **Go to Question 12**
- 2 No

H07010
See Note 2

11. Since you joined your health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- 1 A big problem
- 2 A small problem
- 3 Not a problem

H07011
See Note 2

GETTING HEALTH CARE FROM A SPECIALIST

When you answer the next questions, do not include dental visits.

12. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the last 12 months, did you or a doctor think you needed to see a specialist?

- 1 Yes
- 2 No → Go to Question 14

H07012
See Note 3

13. In the last 12 months, how much of a problem, if any, was it to see a specialist that you needed to see?

- 1 A big problem
- 2 A small problem
- 3 Not a problem
- 6 I didn't need a specialist in the last 12 months.

H07013
See Note 3

14. In the last 12 months, did you see a specialist?

- 1 Yes
- 2 No → Go to Question 16

H07014
See Note 4

15. We want to know your rating of the specialist you saw most often in the last 12 months. Using any number from 0 to 10, where 0 is the worst specialist possible and 10 is the best specialist possible, what number would you use to rate the specialist?

- 0 0 Worst specialist possible
- 1 1
- 2 2
- 3 3
- 4 4
- 5 5
- 6 6
- 7 7
- 8 8
- 9 9
- 10 10 Best specialist possible
- 6 I didn't see a specialist in the last 12 months

H07015
See Note 4

CALLING DOCTORS' OFFICES

16. In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?

- 1 Yes
- 2 No → Go to Question 18

H07016
See Note 5

17. In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I didn't call for help or advice during regular office hours in the last 12 months.

H07017
See Note 5

YOUR HEALTH CARE IN THE LAST 12 MONTHS

18. In the last 12 months, did you have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor's office?

- 1 Yes H07018 See Note 6
- 2 No → Go to Question 21

19. In the last 12 months, when you needed care right away for an illness, injury, or condition, how often did you get care as soon as you wanted?

- 1 Never H07019
See Note 6
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I didn't need care right away for an illness, injury or condition in the last 12 months.

20. In the last 12 months, when you needed care right away for an illness, injury, or condition, how long did you usually have to wait between trying to get care and actually seeing a provider?

- 1 Same day H07020
See Note 6
- 2 1 day
- 3 2 days
- 4 3 days
- 5 4-7 days
- 6 8-14 days
- 7 15 days or longer
- 6 I didn't need care right away for an illness, injury or condition in the last 12 months.

21. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for health care.

In the last 12 months, not counting the times you needed health care right away, did you make any appointments with a doctor or other health provider for health care?

- 1 Yes H07021 See Note 7
- 2 No → Go to Question 24

22. In the last 12 months, not counting times you needed health care right away, how often did you get an appointment for health care as soon as you wanted?

- 1 Never H07022
See Note 7
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no appointments in the last 12 months.

23. In the last 12 months, not counting the times you needed health care right away, how many days did you usually have to wait between making an appointment and actually seeing a provider?

- 1 Same day H07023
See Note 7
- 2 1 day
- 3 2-3 days
- 4 4-7 days
- 5 8-14 days
- 6 15-30 days
- 7 31 days or longer
- 6 I had no appointments in the last 12 months.

24. In the last 12 months, how many times did you go to an emergency room to get care for yourself?

- 1 None
- 2 1
- 3 2
- 4 3
- 5 4
- 6 5 to 9
- 7 10 or more

H07024

25. In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get care for yourself?

- 1 None → Go to Question 38
- 2 1
- 3 2
- 4 3
- 5 4
- 6 5 to 9
- 7 10 or more

H07025

See Note 8

26. In the last 12 months, did you or a doctor believe you needed any care, tests, or treatment?

- 1 Yes
- 2 No → Go to Question 28

H07026

See Notes 8 and 9

27. In the last 12 months, how much of a problem, if any, was it to get the care, tests or treatment you or a doctor believed necessary?

- 1 A big problem
- 2 A small problem
- 3 Not a problem
- 6 I had no visits in the last 12 months.

H07027

See Notes 8 and 9

28. In the last 12 months, did you need approval from your health plan for any care, tests, or treatment?

- 1 Yes
- 2 No → Go to Question 30

H07028

See Notes 8 and 10

29. In the last 12 months, how much of a problem, if any, were delays in health care while you waited for approval from your health plan?

- 1 A big problem
- 2 A small problem
- 3 Not a problem
- 6 I had no visits in the last 12 months.

H07029

See Notes 8 and 10

30. In the last 12 months, how often were you taken to the exam room within 15 minutes of your appointment?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no visits in the last 12 months.

H07030

See Note 8

31. In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no visits in the last 12 months.

H07031

See Note 8

32. In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no visits in the last 12 months.

H07032
See Note 8

33. In the last 12 months, how often did doctors or other health providers listen carefully to you?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no visits in the last 12 months.

H07033
See Note 8

34. In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no visits in the last 12 months.

H07034
See Note 8

35. In the last 12 months, how often did doctors or other health providers show respect for what you had to say?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no visits in the last 12 months.

H07035
See Note 8

36. In the last 12 months, how often did doctors or other health providers spend enough time with you?

- 1 Never
- 2 Sometimes
- 3 Usually
- 4 Always
- 6 I had no visits in the last 12 months.

H07036
See Note 8

37. Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your health care in the last 12 months?

- 0 0 Worst health care possible
- 1 1
- 2 2
- 3 3
- 4 4
- 5 5
- 6 6
- 7 7
- 8 8
- 9 9
- 10 10 Best health care possible
- 6 I had no visits in the last 12 months.

H07037
See Note 8

38. In the last 12 months, where did you go most often for your health care? **MARK ONLY ONE ANSWER.**

- 1 A military facility – This includes:
Military clinic
Military hospital
PRIMUS clinic
NAVCARE clinic
- 2 A civilian facility – This includes:
Doctor's office
Clinic
Hospital
Civilian TRICARE contractor
- 3 Uniformed Services Family Health Plan facility (USFHP)
- 4 Veterans Affairs (VA) clinic or hospital
- 5 I went to none of the listed types of facilities in the last 12 months.

H07038

YOUR HEALTH PLAN

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

39. Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you. In the last 12 months, did you or anyone else send in any claims to your health plan?

- 1 Yes

H07039
See Note 11
- 2 No → Go to Question 42
- 5 Don't know → Go to Question 42

40. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- 1 Never

H07040
See Note 11
- 2 Sometimes
- 3 Usually
- 4 Always
- 5 Don't know
- 6 No claims were sent for me in the last 12 months.

41. In the last 12 months, how often did your health plan handle your claims correctly?

- 1 Never

H07041
See Note 11
- 2 Sometimes
- 3 Usually
- 4 Always
- 5 Don't know
- 6 No claims were sent for me in the last 12 months.

42. In the last 12 months, did you look for any information about how your health plan works in written material or on the Internet?

- 1 Yes

H07042
See Note 12
- 2 No → Go to Question 44

43. In the last 12 months, how much of a problem, if any, was it to find or understand this information?

- 1 A big problem

H07043
See Note 12
- 2 A small problem
- 3 Not a problem
- 6 I didn't look for information from my health plan in the last 12 months.

44. In the last 12 months, did you call your health plan's customer service to get information or help?

- 1 Yes

H07044

See Note 13

- 2 No → Go to Question 46

45. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- 1 A big problem

H07045
See Note 13
- 2 A small problem
- 3 Not a problem
- 6 I didn't call my health plan's customer service in the last 12 months.

46. In the last 12 months, did you have to fill out any paperwork for your health plan?

- 1 Yes

H07046
See Note 14
- 2 No → Go to Question 48

47. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- 1 A big problem
- 2 A small problem
- 3 Not a problem
- 6 I didn't have any experiences with paperwork for my health plan in the last 12 months.

H07047
See Note 14

48. Using any number from 0 to 10, where 0 is the worst health plan possible and 10 is the best health plan possible, what number would you use to rate your health plan?

- 0 0 Worst health plan possible
- 1 1
- 2 2
- 3 3
- 4 4
- 5 5
- 6 6
- 7 7
- 8 8
- 9 9
- 10 10 Best health plan possible

H07048

RESERVISTS

The following questions concern health care coverage provided to reservists (National Guard and Reserves) and members of their immediate families. An immediate family member is a reservist's TRICARE eligible spouse or child.

49. Are you or your spouse or parent a reservist who was on active duty for more than 30 consecutive days in support of contingency operations during the past 12 months (e.g. Operation Iraqi Freedom, Noble Eagle/Enduring Freedom, Kosovo, Bosnia)?

- 1 Yes
- 2 No → Go to Question 71

S07G18
See Note 15A1

50. Are you a reservist activated for contingency operations for more than 30 consecutive days during the past 12 months?

- 1 Yes, I am a reservist who is currently on active duty for a contingency operation → Go to Question 51
- 2 Yes, I am a reservist who has been on active duty for a contingency operation but was deactivated in the past 12 months → Go to Question 51
- 3 No, I am a reservist but I have not been on active duty for a contingency operation in the past 12 months → Go to Question 54
- 4 No, I am not a reservist → Go to Question 54

S07G19
See Notes 15A1 and 15A2

51. For which operation were you most recently activated in support of contingency operations?

- 1 Operation Noble Eagle, Operation Enduring Freedom, or Operation Iraqi Freedom
- 2 Bosnia
- 3 Kosovo
- 4 Another contingency Operation

S07G20
See Notes 15A1 and 15A2

52. When were you activated for this contingency operation?

- 1 Less than 6 months ago
- 2 At least 6 months ago but less than 12 months ago
- 3 Twelve months ago or more

S07G21
See Notes 15A1 and 15A2

53. How long did the initial activation orders state that this activation would last?

- 1 Less than 6 months
- 2 At least 6 months but less than 12 months
- 3 Twelve months or more

S07G22
See Notes 15A1 and 15A2

54. Is your spouse or parent a reservist who was activated for contingency operations for more than 30 consecutive days during the past 12 months?

- 1 Yes, my spouse or parent is a reservist currently on active duty for a contingency operation → **Go to Question 55**
- 2 Yes, my reservist spouse or parent had been on active duty for a contingency operation but was deactivated within the past 12 months → **Go to Question 55**
- 3 No, my spouse or parent is a reservist but has not been on active duty for a contingency operation within the past 12 months → **Go to Question 58**
- 4 No, my spouse or parent is not a reservist → **Go to Question 58**

S07G23

See Notes 15A1 and15A3

55: For which contingency operation was your reservist spouse or parent activated most recently?

- 1 Operation Noble Eagle, Operation Enduring Freedom, or Operation Iraqi Freedom
- 2 Bosnia
- 3 Kosovo
- 4 Another contingency Operation

S07G24

See Notes 15A1 and15A3

56: When was your reservist spouse or parent first activated for this operation?

- 1 Less than 6 months ago
- 2 At least 6 months ago but less than 12 months ago
- 3 Twelve months ago or more
- 5 Don't know

S07G25

See Notes 15A1 and15A3

57: How long did the initial activation orders state that this contingency activation would last?

- 1 Less than 6 months
- 2 At least 6 months but less than 12 months
- 3 Twelve months or more
- 5 Don't know

S07G26

See Notes 15A1 and15A3

58. Before becoming eligible for TRICARE, were you covered by civilian health insurance?

S07G27

See Note 15A1

- 1 Yes, through my own policy
- 2 Yes, through the policy of a reservist spouse or parent
- 3 Yes, through the policy of a non-reservist in my family
- 4 No, I had no civilian coverage

59. Which of the following describes your current health care coverage?

- 1 I use only TRICARE → **Go to Question 62**
- 2 I use both TRICARE and civilian coverage → **Go to Question 61**
- 3 I use only civilian coverage → **Go to Question 60**
- 5 Don't know → **Go to Question 61**

S07G28

See Notes 15A1 and15A4

60. Why don't you use TRICARE? MARK ALL THAT APPLY.

- A I have a greater choice of doctors with my civilian plan
- B I get better customer service with civilian plans
- C My personal doctor is not available to me through TRICARE
- D TRICARE benefits are poor compared to my civilian plan
- E It is easier for me to get care through my civilian plan
- F I pay less for civilian care than I would for TRICARE
- G There are no military facilities near me
- H I prefer civilian doctors
- I I prefer civilian hospitals
- J I am happy with my civilian plan and have no reason to change
- K Another reason

S07G29A-S07G29K

See Notes 15A1 and15A4

61. Do you or the policy-holder now pay all or part of the premium for your civilian health insurance?

- S07G30
- 1 Yes, we pay all See Notes 15A1 and15A4
- 2 Yes, we pay part
- 3 No, we pay nothing
- 5 Don't know

62. When you became eligible for TRICARE, how much of a problem was it to get information about your TRICARE benefits?

- S07G31
- 1 A big problem See Note 15A1
- 2 A small problem
- 3 Not a problem
- 6 I did not try to get information about TRICARE

63. Is the doctor you consider your personal doctor a civilian?

- S07G32
- 1 Yes See Notes 15A1 and15A5
- 2 No → Go to Question 65
- 6 I do not have a personal doctor → Go to Question 66

64. Does your personal doctor accept TRICARE?

- S07G33
- 1 Yes See Notes 15A1 and15A5
- 2 No
- 5 Don't know
- 6 I do not have a personal doctor

65. Since you became eligible for TRICARE, how difficult is it to see the personal doctor you want to see?

- 1 It is now more difficult
- 2 It is now less difficult
- 3 It is about the same
- 6 I do not have a personal doctor
- S07G34 See Notes 15A1 and15A5

66. Since you became eligible for TRICARE, how difficult is it to see the specialists you want to see?

- S07G35
- 1 It is now more difficult See Note 15A1
- 2 It is now less difficult
- 3 It is about the same
- 6 I have not needed to see any specialists

67. Were you or a reservist in your immediate family deactivated after November 6, 2003?

- S07G36
- 1 Yes See Notes 15A1 and15A6
- 2 No → Go to Question 70
- 5 Don't know → Go to Question 70

68. Either as a reservist or a family member of a reservist, were you eligible for TRICARE coverage for any period of time immediately before the reservist reported to active duty?

- S07G37
- 1 Yes See Notes 15A1 and15A6
- 2 No → Go to Question 70
- 3 Don't know → Go to Question 70

69. How long were you eligible for this coverage?

Directions: Write the number of days in the shaded blank boxes. Check the box next to the matching number.

Example:

Eligibility		Eligibility	
Days		Days	
	9		5
<input type="checkbox"/>	0	<input type="checkbox"/>	0
<input type="checkbox"/>	1	<input type="checkbox"/>	1
<input type="checkbox"/>	2	<input type="checkbox"/>	2
<input type="checkbox"/>	3	<input type="checkbox"/>	3
<input type="checkbox"/>	4	<input type="checkbox"/>	4
<input type="checkbox"/>	5	<input checked="" type="checkbox"/>	5
<input type="checkbox"/>	6	<input type="checkbox"/>	6
<input type="checkbox"/>	7	<input type="checkbox"/>	7
<input type="checkbox"/>	8	<input type="checkbox"/>	8
<input checked="" type="checkbox"/>	9	<input type="checkbox"/>	9

-5 Don't know

S07G38

See Notes 15A1 and 15A6

70. Were you eligible for TRICARE coverage for any period of time after you or a reservist in your immediate family deactivated?

- 1 Yes
- 2 No
- 3 Don't know

S07G39
See Note 15A1

PREVENTIVE CARE

Preventive care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or blood pressure screening are examples of preventive care.

71. When did you last have a blood pressure reading?

- 3 Less than 12 months ago
- 2 1 to 2 years ago
- 1 More than 2 years ago

H07049

72. Do you know if your blood pressure is too high?

- 1 Yes, it is too high
- 2 No, it is not too high
- 3 Don't know

H07050

73. When did you last have a flu shot?

- 4 Less than 12 months ago
- 3 1-2 years ago
- 2 More than 2 years ago
- 1 Never had a flu shot

H07051

74. Have you ever smoked at least 100 cigarettes in your entire life?

- 1 Yes
- 2 No → Go to Question 80
- 5 Don't know → Go to Question 80

H07052
See Note 16

75. Do you now smoke every day, some days or not at all?

H07053

See Note 16

- 4 Every day → Go to Question 77
- 3 Some days → Go to Question 77
- 2 Not at all → Go to Question 76
- 5 Don't know → Go to Question 80

76. How long has it been since you quit smoking cigarettes?

H07054

See Note 16

- 3 Less than 12 months → Go to Question 77
- 2 12 months or more → Go to Question 80
- 5 Don't know → Go to Question 80

77. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

H07055

See Note 16

- 1 None
- 2 1 visit
- 3 2 to 4 visits
- 4 5 to 9 visits
- 5 10 or more visits
- 6 I had no visits in the last 12 months.

78. On how many visits was medication recommended or discussed to assist you with quitting smoking (for example: nicotine gum, patch, nasal spray, inhaler, prescription medication)?

H07056

See Note 16

- 1 None
- 2 1 visit
- 3 2 to 4 visits
- 4 5 to 9 visits
- 5 10 or more visits
- 6 I had no visits in the last 12 months

79. On how many visits did your doctor or health provider recommend or discuss methods and strategies (other than medication) to assist you with quitting smoking?

H07057

See Note 16

- 1 None
- 2 1 visit
- 3 2 to 4 visits
- 4 5 to 9 visits
- 5 10 or more visits
- 6 I had no visits in the last 12 months

80. Are you male or female?

- 1 Male → Go to Question 87
- 2 Female → Go to Question 81

H07058

See Note 17A

81. When did you last have a Pap smear test?

- 5 Within the last 12 months
- 4 1 to 3 years ago
- 3 More than 3 but less than 5 years ago
- 2 5 or more years ago
- 1 Never had a Pap smear test

H07059

See Notes 17A and 17B

82. Are you under age 40?

- 1 Yes → Go to Question 84
- 2 No

H07060

See Notes 17A, 17B, and 18

83. When was the last time your breasts were checked by mammography?

- 5 Within the last 12 months
- 4 1 to 2 years ago
- 3 More than 2 years ago but less than 5 years ago
- 2 5 or more years ago
- 1 Never had a mammogram

H07061

See Notes 17A, 17B, and 18

84. Have you been pregnant in the last 12 months or are you pregnant now?

H07063

See Notes 17A, 17B, and 19

- 1 Yes, I am currently pregnant → **Go to Question 85**
- 2 No, I am not currently pregnant, but have been pregnant in the past 12 months → **Go to Question 86**
- 3 No, I am not currently pregnant, and have not been pregnant in the past 12 months → **Go to Question 87**

85: In what trimester is your pregnancy?

- 1 First trimester (up to 12 weeks after 1st day of last period) → **Go to Question 87**
- 2 Second trimester (13th through 27th week)
- 3 Third trimester (28th week until delivery)

H07064

See Notes 17A, 17B, and 19

86: In which trimester did you first receive prenatal care?

- 4 First trimester (up to 12 weeks after 1st day of last period)
- 3 Second trimester (13th through 27th week)
- 2 Third trimester (28th week until delivery)
- 1 Did not receive prenatal care

H07065

See Notes 17A, 17B, and 19

ABOUT YOU

87. In general, how would you rate your overall health now?

H07066

- 5 Excellent
- 4 Very good
- 3 Good
- 2 Fair
- 1 Poor

88: Are you limited in any way in any activities because of any impairment or health problem?

H07067

- 1 Yes
- 2 No

89. How tall are you without your shoes on? Please give your answer in feet and inches.

H07068F
H07068I

Example:

Height	
Feet	Inches
<u>5</u>	<u>6</u>
<input type="checkbox"/> 1	<input type="checkbox"/> 0
<input type="checkbox"/> 2	<input type="checkbox"/> 1
<input type="checkbox"/> 3	<input type="checkbox"/> 2
<input type="checkbox"/> 4	<input type="checkbox"/> 3
<input checked="" type="checkbox"/> 5	<input type="checkbox"/> 4
<input type="checkbox"/> 6	<input type="checkbox"/> 5
<input type="checkbox"/> 7	<input checked="" type="checkbox"/> 6
	<input type="checkbox"/> 7
	<input type="checkbox"/> 8
	<input type="checkbox"/> 9
	<input type="checkbox"/> 10
	<input type="checkbox"/> 11

Height	
Feet	Inches
<u> </u>	<u> </u>
<input type="checkbox"/> 1	<input type="checkbox"/> 0
<input type="checkbox"/> 2	<input type="checkbox"/> 1
<input type="checkbox"/> 3	<input type="checkbox"/> 2
<input type="checkbox"/> 4	<input type="checkbox"/> 3
<input type="checkbox"/> 5	<input type="checkbox"/> 4
<input type="checkbox"/> 6	<input type="checkbox"/> 5
<input type="checkbox"/> 7	<input type="checkbox"/> 6
	<input type="checkbox"/> 7
	<input type="checkbox"/> 8
	<input type="checkbox"/> 9
	<input type="checkbox"/> 10
	<input type="checkbox"/> 11

90. How much do you weigh without your shoes on? Please give your answer in pounds.

H07069

Example:

Weight		
Pounds		
<u>1</u>	<u>6</u>	<u>0</u>
<input type="checkbox"/> 0	<input type="checkbox"/> 0	<input checked="" type="checkbox"/> 0
<input checked="" type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
<input type="checkbox"/> 2	<input type="checkbox"/> 2	<input type="checkbox"/> 2
<input type="checkbox"/> 3	<input type="checkbox"/> 3	<input type="checkbox"/> 3
	<input type="checkbox"/> 4	<input type="checkbox"/> 4
	<input type="checkbox"/> 5	<input type="checkbox"/> 5
	<input checked="" type="checkbox"/> 6	<input type="checkbox"/> 6
	<input type="checkbox"/> 7	<input type="checkbox"/> 7
	<input type="checkbox"/> 8	<input type="checkbox"/> 8
	<input type="checkbox"/> 9	<input type="checkbox"/> 9

Weight		
Pounds		
<u> </u>	<u> </u>	<u> </u>
<input type="checkbox"/> 0	<input type="checkbox"/> 0	<input type="checkbox"/> 0
<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
<input type="checkbox"/> 2	<input type="checkbox"/> 2	<input type="checkbox"/> 2
<input type="checkbox"/> 3	<input type="checkbox"/> 3	<input type="checkbox"/> 3
	<input type="checkbox"/> 4	<input type="checkbox"/> 4
	<input type="checkbox"/> 5	<input type="checkbox"/> 5
	<input type="checkbox"/> 6	<input type="checkbox"/> 6
	<input type="checkbox"/> 7	<input type="checkbox"/> 7
	<input type="checkbox"/> 8	<input type="checkbox"/> 8
	<input type="checkbox"/> 9	<input type="checkbox"/> 9

91. What is the highest grade or level of school that you have completed?

SREDA

- 1 8th grade or less
- 2 Some high school, but did not graduate
- 3 High school graduate or GED
- 4 Some college or 2-year degree
- 5 4-year college graduate
- 6 More than 4-year college degree

92: Are you of Hispanic or Latino origin or descent? (Mark "NO" if not Spanish/Hispanic/Latino.)

- A No, not Spanish, Hispanic, or Latino
- B Yes, Mexican, Mexican American, Chicano
- C Yes, Puerto Rican
- D Yes, Cuban
- E Yes, other Spanish, Hispanic, or Latino

H07070, H07070A- H07070E

93: What is your race? (Mark ONE OR MORE races to indicate what you consider yourself to be.)

SRACEA-SRACEE

- A White
- B Black or African American
- C American Indian or Alaska Native
- D Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
- E Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian, or Chamorro)

94: What is your age now?

SRAGE

- 1 18 to 24
- 2 25 to 34
- 3 35 to 44
- 4 45 to 54
- 5 55 to 64
- 6 65 to 74
- 7 75 or older

THANK YOU FOR TAKING THE TIME TO COMPLETE THE SURVEY! Your generous contribution will greatly aid efforts to improve the health of our military community.

Return your survey in the postage-paid envelope. If the envelope is missing, please send to:

APPENDIX B
SURVEY FIELDING LETTERS – QUARTER I

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

September 1, 2006

12345670
PVT DAVID BRYANT
222 S. RIVERSIDE DRIVE
APT 4C
WHEATON, IL 60999

Dear Pvt David Bryant:

We need your help! The Department of Defense (DoD) is requesting your cooperation in completing a worldwide survey of all DoD health care beneficiaries aimed at understanding and improving your health care experiences. **In a few weeks**, we will mail you the *Health Care Survey of Department of Defense Beneficiaries* that includes questions about the health care services you have received in the past 12 months. Your views are important to us and your opinions count. By completing the survey, you will provide important information that will help us improve the health care services for the entire DoD community. Please take advantage of this opportunity to share your opinions by participating in the survey.

Taking part in this survey is voluntary. You are among only a few beneficiaries randomly selected to participate. As an eligible military beneficiary, your benefits include both civilian care and care you receive within our military facilities. **Even if you do not receive health care from a military facility, please still complete the survey.** All the information from the survey is private.

Your feedback is important to help us improve our services and to provide you with the best possible health care. Although we made every attempt to ensure that our information is correct, we apologize if you received this mailing in error. If the address above is incorrect, if the person listed above is currently deployed, or if you have questions about the survey, please contact the Synovate Survey Processing Center either by calling us or by the email address below. When calling or writing, please provide your name, address, and the 8-digit number above your address in this letter.

Email: dod-survey@synovate.net

Toll-free phone (in the US, Puerto Rico and Canada): 1-877-236-2390, available 24 hours a day.

Toll-free fax (in the US and Canada): 1-800-409-7681

International Toll-Free numbers:

Germany: 0 800 182 1532

Great Britain: 008 234 7139

Japan: 0053 11 30 814

South Korea: 003 0813 1286

Mexico: 001 877 238 5171

Philippines: 1 800 1116 2366

Thank you for your service to our country, and thank you in advance for your help!

Sincerely,

Michael R. Peterson, DVM, MPH, DrPH

WE NEED YOUR HELP!

HELLO!

1H86-01

Recently, we mailed you the *Health Care Survey of DoD Beneficiaries*, a Department of Defense sponsored survey. You are among only a few randomly selected to receive this survey and we have not heard from you yet! As an eligible military beneficiary, we want to know about the health care services you receive within civilian and within military facilities. **Even if you did not receive your health care from a military facility, please complete the survey.**

Taking part in this survey is voluntary and the information you provide us is kept private. The end of the survey period is December 1, 2006 so return your copy today!

If you did not receive the survey or if you need another copy, please call toll free 1-877-236-2390 (within the U.S.) or email us at dod-survey@synovate.net.

If you have already sent in your survey, please ignore this message.

THANK YOU!

Michael R. Peterson, DVM, MPH, DrPH
Director, Office of the Assistant Secretary of Defense (Health Affairs)

APPENDIX D

CODING SCHEME AND CODING TABLES – QUARTER I

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

QUARTER I

2007 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS		ASCII/EBCDIC	Description
Numeric	Numeric		
.	-9	No response	
.O	-7	Out of range error	
.N	-6	Not Applicable or valid skip	
.D	-5	Scalable response of “Don’t know” or “not sure”	
.I	-4	Incomplete grid error	
.C	-1	Question should have been skipped.	

Missing values ‘.’ and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:
H07006, H07007**

N1	H07006 is:	H07007 is:	H07006 is coded as:	H07007 is coded as:	*
1	1-13, health plan, -5, not sure	Marked or missing response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked or missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:
H07008, H07009, H07010, H07011**

N2	H07008 is:	H07009 is:	H07010 is:	H07011 is:	H07008 is coded as:	H07009 is coded as:	H07010 is coded as:	H07011 is coded as:	*
1	1: yes or missing response	-6: Don't have a personal Dr	Any value	Any value	2: no	.C, question should be skipped	.N, valid skip if missing; .C, question should be skipped, if marked	Stands as original value	B F
2	1: yes	0-10 or missing response	1: yes	1-3	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
3	1: yes	0-10 or missing response	Missing response	1-3	Stands as original value	Stands as original value	2: no	Stands as original value	B
4	1: yes	0-10 or missing response	1: yes	Missing response	Stands as original value	Stands as original value	Stands as original value	.N, valid skip if missing	F
5	1: yes	0-10 or missing response	2: no	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
6	1: yes	0-10 or missing response	Missing response	Missing response	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
7	2: no or missing response	0-10	1: yes	1-3	1: yes	Stands as original value	Stands as original value	.C, question should be skipped	F B
8	2: no or missing response	0-10	Missing response	1-3	1: yes	Stands as original value	Stands as original value	Stands as original value	B
9	2: no or missing response	0-10	Missing response	Missing response	1: yes	Stands as original value	Stands as original value	Stands as original value	B
10	2: no	Missing response	1: yes	1-3	Stands as original value	.N, valid skip if missing	.C, question should be skipped	Stands as original value	F
11	2: no	-6: Don't have a personal Dr	Any value	Any value	Stands as original value	.C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	B F

Coding Table for Note 2 continued:

N2	H07008 is:	H07009 is:	H07010 is:	H07011 is:	H07008 is coded as:	H07009 is coded as:	H07010 is coded as:	H07011 is coded as:	*
12	2: no or missing response	0-10 or missing	1: yes	Missing	1: yes	Stands as original value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	B F
13	2: no or missing response	0-10 or missing	2: no	Any value	1: yes	Stands as original value	Stands as original value	Stands as original value	B
14	2: no	Missing response	Missing response	Any value	Stands as original value	.N, valid skip if missing	.N, valid skip	Stands as original value	F
15	Missing response	Missing response	Missing response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 3:
H07012, H07013**

N3	H07012 is:	H07013 is:	H07012 is coded as:	H07013 is coded as:	*
1	1: yes	1, 2, 3, or missing response	Stands as original value	Stands as original value	
2	1: yes or missing response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B F
3	2: no or missing response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 4:
H07014, H07015**

N4	H07014 is:	H07015 is:	H07014 is coded as:	H07015 is coded as:	*
1	1: yes	0-10, or missing response	Stands as original value	Stands as original value	
2	1: yes or missing response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B F
3	2: no or missing response	0-10	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 5:
H07016, H07017**

N5	H07016 is:	H07017 is:	H07016 is coded as:	H07017 is coded as:	*
1	1: yes	1-4: how often, or missing response	Stands as original value	Stands as original value	
2	1: yes or missing response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no or missing response	1-4: how often	1: yes	Stands as original value	B
4	2: no	-6: no calls or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:
H07018, H07019, H07020**

N6	H07018 is:	H07019-H07020 are:	H07018 is coded as:	H07019-H07020 are coded as:	*
1	1: yes	“All are blank”	Stands as original value	Stand as original value otherwise	
2	1: yes or missing response	“Blank or NA”	2: no	.N, valid skip if missing, .C, question should be skipped if marked	B F
3	1: yes	“One marked, and one NA”	Stands as original value	., missing if -6, stands as original value otherwise	F
4	1: yes	At least one is “marked”	Stands as original value	Stands as original value	
5	2: no	“One marked, and one NA”	Stands as original value	.C, question should be skipped if marked	F
6	2: no or missing response	At least one is “marked”	1: yes	., missing if -6, stands as original value otherwise	B F
7	2: no	“All are blank” or “Blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
8	Missing response	“All are blank”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 6:
Responses to H07019-H07020 are all missing.

Definition of “Blank or NA” in Coding Table for Note 6:
All of the following are true: H07019-H07020 are a combination of not applicable (-6) or missing.

Definition of “One marked and one NA” in Coding Table for Note 6:
H07019-H07020 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 6:
Any pattern of marks outside the definitions “all are blank”, “One marked and one NA”, and “Blank or NA.”

**Coding Table for Note 7:
H07021, H07022, H07023**

N7	H07021 is:	H07022-H07023 are:	H07021 is coded as:	H07022-H07023 are coded as:	*
1	1: yes	“All are blank”	Stands as original value	Stands as original value otherwise	
2	1:yes or missing response	“Blank or NA”	2: no	.N, valid skip if missing, .C, question should be skipped if marked	B F
3	1: yes	“One marked and one NA”	Stands as original value	., missing if -6, stands as original value otherwise	F
4	1: yes	At least one is “marked”	Stands as original value	Stands as original value	
5	2: no	“One marked and one NA”	Stands as original value	.C, question should be skipped if marked	F
6	2: no or missing response	At least one is “marked”	1: yes	., missing if -6, stands as original value otherwise	B F
7	2: no	“All are blank” or “Blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
8	Missing response	“All are blank”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:
Responses to H07022-H07023 are all missing.

Definition of “Blank or NA” in Coding Table for Note 7:
All of the following are true: H07022-H07023 are a combination of not applicable (-6) or missing.

Definition of “One marked and one NA” in Coding Table for Note 7:
H07022-H07023 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 7:
Any pattern of marks outside the definitions “all are blank”, “One marked and one NA”, and “Blank or NA.”

**Coding Table for Note 8:
H07025, H07026-H07037**

N8	H07025 is:	H07026-H07037 are:	H07025 is coded as:	H07026-H07037 are coded as:	*
1	1: None	At least one is “marked”, “all are blank”, or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	2-7, or missing response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2-7	At least one is “marked” or “all are blank”	Stands as original value	., missing if -6, stands as original value otherwise	F
4	Missing response	“All are blank”	Stands as original value	Stand as original value	
5	Missing response	At least one is “marked”	Stands as original value	., missing if -6, stands as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 8:
Responses to H07026-H07037 are all missing.

Definition of “blank or NA” in Coding Table for Note 8:
All of the following are true: H07026-H07037 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 8:
Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

**Coding Table for Note 9:
H07026, H07027**

N9	H07026 is:	H07027 is:	H07026 is coded as:	H07027 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1-3: how much of a problem, missing response	Stands as original value	Stands as original value	
3	1: yes, missing response	-6: No visits	2: no	.C, question should be skipped	B F
4	2: no, missing response	1-3: how much of a problem	1: yes	Stands as original value	B
5	2: no	-6: No visits or missing response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 10:
H07028, H07029**

N10	H07028 is:	H07029 is:	H07028 is coded as:	H07029 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1-3: how much of a problem, missing response	Stands as original value	Stands as original value	
3	1: yes, missing response	-6: No visits	2: no	.C, question should be skipped	B F
4	2: no, missing response	1-3: how much of a problem	1: yes	Stands as original value	B
5	2: no	-6: No visits or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 11:
H07039, H07040-H07041**

N11	H07039 is:	H07040-H07041 are:	H07039 is coded as:	H07040-H07041 are coded as:	*
1	1: yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	Stand as original value , missing if -6	F
2	1: yes, -5: don’t know, missing	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, -5: don’t know, missing	At least one is “marked” or “blank or don’t know”	1: yes	., missing if -6, stands as original value otherwise	B F
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	-5: don’t know	“All are blank”	Stands as original value	.N, valid skip if missing	F
6	Missing response	“All are blank”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11:
Responses to H07040-H07041 are all missing.

Definition of “blank or NA” in Coding Table for Note 11:
Responses to H07040-H07041 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 11:
Responses to H07040-H07041 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 11:
Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

**Table for Note 12:
H07042, H07043**

N12	H07042 is:	H07043 is:	H07042 is coded as:	H07043 is coded as:	*
1	1: yes	1, 2, 3: how much of a problem, missing response	Stands as original value	Stands as original value	
2	1: yes, or missing response	-6: didn't look for information in health plan	2: no	.C question should be skipped	B F
3	2: no, or missing response	1, 2, 3: how much of a problem	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't look for information in health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 13:
H07044, H07045**

N13	H07044 is:	H07045 is:	H07044 is coded as:	H07045 is coded as:	*
1	1: yes	1-3: how much of a problem, missing response	Stands as original value	Stands as original value	
2	1: yes, missing response	-6: didn't call health plan	2: no	.C question should be skipped	B F
3	2: no, missing response	1-3: how much of a problem	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't call health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 14:
H07046, H07047**

N14	H07046 is:	H07047 is:	H07046 is coded as:	H07047 is coded as:	*
1	1: yes	1-3: how much of a problem, missing response	Stands as original value	Stands as original value	
2	1: yes or missing response	-6: didn't have any experience	2: no	.C question should be skipped	B F
3	2: no or missing response	1-3: how much of a problem	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't have any experience	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15A1:
S07G18, S07G19-S07G39**

N15A1	S07G18 is:	S07G19 is:	S07G23 is:	S07G20- S07G22 S07G24- S07G39 are:	S07G18 is coded as:	S07G19 is coded as:	S07G23 is coded as:	S07G20- S07G22 S07G24- S07G39 are coded as:	*
1	1: Yes	3: Reservist not on active duty for contingency operation, 4: Not a reservist	3: Spouse/ Parent Reservist not on active duty for contingency operation, 4: Spouse/ Parent not a reservist	Any value	2: No	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	B F
2	1: Yes	3: Reservist not on active duty for contingency operation, 4: Not a reservist	1, 2 : Yes, missing	Any value	Stands as original value	Stand as original value	Stand as original value	Stand as original value	
3	1: Yes	1, 2 : Yes, missing	Any value	Any value	Stands as original value	Stand as original value	Stand as original value	Stand as original value	
4	2: No, missing response	1, 2 : Yes	Any value	Any value	1: Yes	Stand as original value	Stand as original value	Stand as original value	B
5	2: No, missing response	3, 4, missing	1, 2 : Yes	Any value	1: Yes	Stand as original value	Stand as original value	Stand as original value	B
6	2: No	3: Reservist not on active duty for contingency operation, 4: Not a reservist, missing	3: Reservist not on active duty for contingency operation, 4: Not a reservist, missing	Any value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F

Coding Table for Note 15A1 continued:

N15A1	S07G18 is:	S07G19 is:	S07G23 is:	S07G20- S07G22- S07G24- S07G39 are:	S07G18 is coded as:	S07G19 is coded as:	S07G23 is coded as:	S07G20- S07G22- S07G24- S07G39 are coded as:	*
7	Missing response	Missing response	Missing response	Any value	Stands as original value	Stands as original value	Stands as original value	., if unmarked response to question with marked/unmarked responses (1/2); Stand as original value otherwise	F
8	Missing response	3: Reservist not on active duty for contingency operation, 4: Not a reservist	Any value	Any value	2: No	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	B F
9	Missing response	Any value	3: Reservist not on active duty for contingency operation, 4: Not a reservist	Any value	2: No	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” or “unmarked” in Coding Table for Note 15A1:
Responses to S07G20-S07G22, S07G24-S07G39 are all missing or unmarked.

Definition of “marked” in Coding Table for Note 15A1:
Any pattern of marks outside the definitions “all are blank ” or “unmarked”

**Coding Table for Note 15A2:
S07G19, S07G20-S07G22**

N15A2	S07G19 is:	S07G20-S07G22 are:	S07G19 is coded as:	S07G20-S07G22 are coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1, 2: Active Duty	Any value	Stands as original value	Stands as original value	
3	3, 4: Not Active Duty	Any value	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
4	Missing response	Any value	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15A3:
S07G23, S07G24-S07G26**

N15A3	S07G23 is:	S07G24-S07G26 are:	S07G23 is coded as:	S07G24-S07G26 are coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1, 2: Active Duty	Any value	Stands as original value	Stands as original value	
3	3, 4: Not Active Duty	Any value	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
4	Missing response	Any value	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15A4:
S07G28, S07G29A-S07G29K, S07G30**

N15A4	S07G28 is:	S07G29A- S07G29K are:	S07G30 is:	S07G28 is coded as:	S07G29A-S07G29K are coded as:	S07G30 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	3: Civilian Coverage	Any value	Any value	Stands as original value	Stands as original value	Stands as original value	
3	1: Only TRICARE	Any value	Any value	Stands as original value	.N, valid skip if “unmarked”, .C, question should be skipped if marked	.N, valid skip if missing, .C, question should be skipped if marked	F
4	2: Both, -5: Don’t know	Any value	Any value	Stands as original value	.N, valid skip if “unmarked”, .C, question should be skipped if marked	Stands as original value	F
5	Missing response	1: Marked	Any value	3: Civilian Coverage	Stand as original value	Stand as original value	B
6	Missing response	Any value	1,2,3,-5	-5: Don’t know	.N, valid skip if “unmarked”, .C, question should be skipped if marked	Stand as original value	B
7	Missing response	Any value	Any value	Stands as original value	Stand as original value	., if “unmarked”; Stand as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Definition of “unmarked” in Coding Table for Note 15A4:
Responses to S07G29A-S07G29K are not marked as 1.

**Coding Table for Note 15A5:
S07G32, S07G33-S07G34**

N15A5	S07G32 is:	S07G33 is:	S07G34 is:	S07G32 is coded as:	S07G33 is coded as:	S07G34 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	Any value	-6: No personal doctor	-6: No personal doctor	-6: No personal doctor	Stands as original value	Stands as original value	B
3	1: Yes	Any value	Any value	Stands as original value	., missing if -6; Stand as original value otherwise	., missing if -6; Stand as original value otherwise	F
4	2: No	Any value	Any value	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	Stands as original value	F
5	-6: No personal doctor	Any value	Any value	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	.N, valid skip if missing, .C, question should be skipped if marked	F
6	Missing response	Any value	Any value	Stands as original value	Stand as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15A6:
S07G36, S07G37-S07G38**

N15A6	S07G36 is:	S07G37 is:	S07G38 is:	S07G36 is coded as:	S07G37 is coded as:	S07G38 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	1: Yes	1: Yes, missing	Any value	Stands as original value	Stand as original value	Stand as original value	
3	1: Yes	2: No, 3: Don't know	Any value	Stands as original value	Stand as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
4	2: No, -5: Don't know	Any value	Any value	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Any value	Any value	Stands as original value	Stand as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 16:
H07052--H07057**

N16	H07052 is:	H07053 is:	H07054 is:	H07055 is:	H07056- H07057 are:	H07052 is coded as:	H07053 is coded as:	H07054 is coded as:	H07055 is coded as:	H07056- H07057 are coded as:	*
1	1: ever smoked	3 or 4: still smoke	Any value	Any value	Any value	Stands as original value	Stands as original value	.C, question should be skipped if marked, .N, valid skip if missing	Stands as original value	.N, if H07055=-6; Stand as original value otherwise	F
2	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Any value	Any value	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped if marked, .N, valid skip if missing	.C, question should be skipped if marked, .N, valid skip if missing	F
3	1: ever smoked	2: quit	3: quit <1 year ago, missing response	Any value	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	.N, if H07055=-6; Stand as original value otherwise	F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 17:

Note 17 (Part a)

H07058, SEX, XSEXA, H07059-H07065

N17A	H07058 is :	SEX is:	H07059--H07065 are:	XSEXA is coded as:
1	Missing response	F	Any marked	2, female
2	Missing response	F	All missing	2, female
3	Missing response	M	Any marked	1, male
4	Missing response	M	All missing	1, male
5	Missing response	Z, missing	Any marked	2, female
6	Missing response	Z	All missing	., missing value
7	Missing response	Missing	All missing	., missing value
8	1, male	Any value	All missing	1, male
9	1, male	F	Any marked	2, female
10	1, male	M, Z, or missing	Any marked	1, male
11	2, female	Any value	Any marked	2, female
12	2, female	M	All missing	1, male
13	2, female	F, Z, or missing	All missing	2, female

SEX (PNSEXCD) is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H07058), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

Note 17 (Part B):

XSEXA, H07059 - H07065

N17B	XSEXA is:	H07059--H07065 are:	H07059--H07065 are coded as:	*
1	1: Male	“All are blank”	.N, valid skip	F
2	1: Male	At least one is “marked”	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stands as original value	
4	Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 17b:
All variables H07059--H07065 are missing.

Definition of “marked” in Coding Table for Note 17b:
Any pattern of marks outside the definition “all are blank.”

Coding Table for Note 18
XSEXA, AGE, H07060, H07061

N18	XSEXA is:	AGE is:	H07060 is:	H07061 is:	H07060 is coded as:	H07061 is coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Missing	Marked	2: > 40	Stands as original value	B
5	2: Female	< 40	Missing	Missing	1: < 40	.N, valid skip	F B
6	2: Female	>=40	Missing	Missing	1: < 40	.N, valid skip	F B
7	2: Female	Missing	Missing	Missing	Stands as original value	Stands as original value	
8	Missing	Any value	Missing	Missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

AGE (DAGEQY) is from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

**Coding Table for Note 19:
XSEXA, H07063, H07064, H07065**

N19	XSEXA is:	H07063 is:	H07064 is:	H07065 is:	H07063 is coded as:	H07064 is coded as:	H07065 is coded as:	*

RESPONSE RATE TABLES

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

TABLE G.1

RESPONSE RATES BY ENROLLMENT AND BENEFICIARY – QUARTER I, 2007

	Unweighted Response Rate	Weighted Response Rate
Active duty	15.7	14.7
Active duty fam,Prime,civ PCM	25.5	26.8
Active duty fam,Prime,mil PCM	25.1	25.1
Active duty fam,non-enrollee	16.6	19.0
Retired,<65,civ PCM	54.6	56.5
Retired,<65,mil PCM	49.9	50.6
Retired,<65,non-enrollee	42.4	45.4
Retired,65+,enrolled	80.8	80.7
Retired,65+,non-enrollee	74.0	74.1
TRICARE Reserve Select	34.1	34.2

TABLE G.2

RESPONSE RATES BY XOCONUS – QUARTER I, 2007

	Unweighted Response Rate	Weighted Response Rate
In Conus/Missing Region	27.0	45.0
Europe	15.2	17.2
Western Pacific	15.3	16.4
Latin America	23.0	41.8

TABLE G.3

RESPONSE RATES BY SEX – QUARTER I, 2007

	Unweighted Response Rate	Weighted Response Rate
Male	21.8	41.2
Female	30.8	46.3

TABLE G.4

RESPONSE RATES BY CONUS/OCONUS INDICATOR – QUARTER I, 2007

	Unweighted Response Rate	Weighted Response Rate
Not in Conus	15.9	19.6
In Conus	26.5	45.1

TABLE G.5

RESPONSE RATES BY BENEFICIARY CATEGORY – QUARTER I, 2007

	Unweighted Response Rate	Weighted Response Rate
Active Duty and Guard/Reserve	16.2	14.8
Dependent of Active Duty & Guard/Reserve	22.5	24.2
Retiree/Depend of Retir/Surviv/Other 65+	75.5	74.7
Retiree/Depend of Retir/Surviv/Other <65	48.5	48.9

TABLE G.6

RESPONSE RATES BY CATCHMENT AREA - QUARTER I, 2007

	Unweighted Response Rate	Weighted Response Rate
Redstone Ars/Ft McClellan	33.6	45.9
Ft. Rucker	28.0	33.3
Maxwell AFB	33.2	41.4
