# 2014 Health Care Survey of DoD Beneficiaries:

## Adult Codebook and User's Guide

June 2014  
Quarter II  
Survey Fielded: January 2014

Submitted to:

TRICARE Management Activity  
7700 Arlington Boulevard, Suite 5101  
Falls Church, VA 22042-5101  
(703) 681-3636

Task Order Officer:

Richard R. Bannick, Ph. D., FACHE

Submitted by:

Mathematica Policy Research, Inc.  
1100 First Street, NE, 12th Floor  
Washington, DC 20002-4221  
(202) 484-9220

Project Director:

Nancy A. Clusen

## Contents

Lists	Page
Table of Variables .....	v
Alphabetical Table of Variables .....	xiii
 Chapters	
1 Introduction .....	1
2 Survey of Adults .....	5
3 Description of the Adult HCSDDB Database.....	17
4 Programming Guide.....	21
- How to Make a Table Using SAS.....	21
- How to Make a Table Using SPSS .....	56
- Calculating Variances of Estimates.....	134
5 Codebook .....	139
References .....	257
 Appendices	
A Annotated Questionnaire – Quarter II.....	A.1
B Survey Fielding Letters – Quarter II.....	B.1
C Crosswalk between 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, and 2014 Questions for Adult HCSDDB – Quarter II .....	C.1
D Coding Scheme and Coding Tables – Quarter II.....	D.1
E SAS Proc Contents – Alphabetical 2014 Adult HCSDDB – Quarter II.....	E.1
F SAS Proc Contents – Creation Order 2014 Adult HCSDDB – Quarter II .....	F.1
G Response Rate Tables – Quarter II.....	G.1

## TABLE OF VARIABLES

Page

<b>SAMPLE VARIABLES</b>		
MPRID	- Unique MPR identifier.....	141
SVCSMPL	- Branch of service sampling variable.....	141
SEXSMPL	- Sex sampling variable .....	141
STRATUM	- Sampling stratum .....	141
JSFLAG	- Joint Service Flag .....	147
ENBGSMPL	- Enrollment by beneficiary category.....	147
MPCSMPL	- Military personnel category.....	148
NHFF	- Stratum sample size.....	148
QUARTER	- Survey quarter .....	148
D_HEALTH	- Health service region.....	148
TNEXREG	- TRICARE next generation of contracts region grouping .....	149
SERVAFF	- Service affiliation .....	149
BWT	- Basic sampling weight.....	149
<b>DEERS VARIABLES</b>		
RACEETHN	- Race/Ethnic code .....	150
PNSEXCD	- Person gender .....	150
RDAGEQY	- Age at time of sample preparation-Capped (18 and below, 86 and above) .....	150
RFLDAGE	- Age at start of fielding period-Capped (18 and below, 86 and above) .....	151
PCM	- Primary manager code (civilian or military) .....	151
ACV	- Alternate care value.....	152
DBENCAT	- Beneficiary category .....	152
DSPONSVC	- Derived sponsor branch of service.....	153
PATCAT	- Aggregated beneficiary category.....	153
PNTYPECD	- Person type code.....	153
<b>QUESTIONNAIRE RESPONSES</b>		
H14001	- Are you the person listed on the cover letter .....	153
H14002A	- Health plan(s) covered: TRICARE Prime .....	154
H14002C	- Health plan(s) covered: TRICARE Ext/Stnd.....	154
H14002N	- Health plan(s) covered: TRICARE Plus .....	154
H14002O	- Health plan(s) covered: TRICARE For Life .....	154
H14002P	- Health plan(s) covered: TRICARE Supplemental Insurance.....	154
H14002Q	- Health plan(s) covered: TRICARE Reserve Select.....	155
H14002S	- Health plan(s) covered: TRICARE Retired Reserve .....	155
H14002T	- Health plan(s) covered: TRICARE Young Adult Prime .....	155
H14002V	- Health plan(s) covered: TRICARE Young Adult Ex or Standard.....	155
H14002K	- Health plan(s) covered: Uniformed Services Family Health Plan (USFHP) .....	155
H14002U	- Health plan(s) covered: Continued Health Care Benefit Program (CHCBP).....	156
H14002F	- Health plan(s) covered: Medicare.....	156
H14002G	- Health plan(s) covered: Federal Employees Health Benefit Program (FEHBP) .....	156
H14002H	- Health plan(s) covered: Medicaid.....	156
H14002I	- Health plan(s) covered: civilian HMO .....	156
H14002J	- Health plan(s) covered: other civilian .....	157
H14002M	- Health plan(s) covered: Veterans .....	157
H14002R	- Health plan(s) covered: other Non-US government health insurance .....	157
H14002L	- Health plan(s) covered: not sure .....	157
H14003	- Which health plan did you use most in the past 12 months? .....	158
H14004	- Months or years in a row with health plan .....	158
H14005	- In last year: facility used most for health care .....	159
H14006	- In last year: have illness/injury/condition that needed care right away .....	159
H14007	- In last year: how often got care as soon as you believed you need it .....	159
H14008	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury.....	160

H14009	- In last year: made appointments for non-urgent health care.....	160
H14010	- In last year: how often got appointments for non-urgent health care as soon as you wanted .....	160
H14011	- In last year: days between making an appointment for regular or routine care and actually seeing a provider.....	161
H14012	- In last year: times went to an emergency room for own care.....	161
H14013	- In last year: times went to a doctor's office or clinic for yourself (not counting times went to an emergency room).....	161
H14014	- In last year: how often talk to doctor or other health care provider about illness prevention.....	162
H14015	- In last year: doctor or other health care provider talked about more than 1 choice for treatment .....	162
H14016	- In last year: doctor talked about pros/cons of each treatment/health care choice .....	162
H14017	- In last year: doctor/health care provider asked which treatment option you thought was best for you when there was more than one choice of treatment.....	163
H14018	- Rating of all health care in last year .....	163
H14019	- Have one person you think of as your personal doctor .....	163
H14020	- In last year: number of times visited personal doctor for care for self.....	164
H14021	- In last year: how often personal doctor listened carefully to you .....	164
H14022	- In last year: how often personal doctor explained things in a way that was easy to understand.....	164
H14023	- In last year: how often your personal doctor showed respect for what you have to say .....	165
H14024	- In last year: how often your personal doctor spent enough time with you .....	165
H14025	- In last year: got care from doctor or other health provider other than personal doctor .....	165
H14026	- In last year: how often personal doctor seemed informed and up-to-date about care received from other doctors .....	166
H14027	- Rating of your personal doctor .....	166
H14028	- In last year: tried to make appointment to see a specialist.....	166
H14029	- In last year: how often it was easy to get appointments with specialists .....	167
H14030	- In last year: how many specialists seen .....	167
H14031	- Rating of specialist seen most often in last year .....	167
H14032	- In last year: tried to get care, tests, or treatment through health plan .....	168
H14033	- In last year: how often easy to get care, tests, or treatment you thought you needed through health plan.....	168
H14034	- In last year: looked for information in written material or on the Internet about how health plan works.....	168
H14035	- In last year: how often written material/Internet provide information you needed about how your plan works.....	168
H14036	- In last year: looked for information from health plan on cost of health care service or equipment.....	169
H14037	- In last year: how often able to find out from health plan cost of health care service or equipment.....	169
H14038	- In last year: looked for information from health plan on cost of prescription medications .....	169
H14039	- In last year: how often able to find out cost of prescription medications .....	170
H14040	- In last year: tried to get information or help from health plan's customer service .....	170
H14041	- In last year: how often did customer service give needed information or help.....	170
H14042	- In last year: how often did customer service treat with courtesy and respect .....	171
H14043	- In last year: health plan gave forms to fill out .....	171
H14044	- In last year: how often forms from health plan were easy to fill out.....	171
H14045	- In last year: sent in any claims to your health plan .....	172
H14046	- In last year: how often health plan handled claims quickly.....	172
H14047	- In last year: how often health plan handled claims correctly .....	172
H14048	- Rating of all experience with health plan .....	173

H14049	- Blood pressure: when last reading .....	173
H14050	- Blood pressure: know if blood pressure is too high or not.....	173
H14051	- When did you last have a flu shot .....	174
H14052	- Smoked at least 100 cigarettes in life.....	174
H14053	- Smoke or use tobacco everyday, some days, or not at all .....	174
H14054	- Last year: how often advised by doctor to quit smoking or use tobacco .....	174
H14055	- Last year: how often medication was recommended or discussed by doctor to assist with quitting smoking or using tobacco .....	175
H14056	- Last year: how often doctor recommended or discussed methods and strategies to assist quitting smoking or using tobacco .....	175
H14057A	- Do you smoke or use: cigarettes .....	175
H14057B	- Do you smoke or use: dip, chewing tobacco, snuff, or snus .....	175
H14057C	- Do you smoke or use: cigars .....	176
H14057D	- Do you smoke or use: pipes, bidis, or kreteks .....	176
H14058	- Are you male or female .....	176
H14059B	- Female: last have a PAP smear test.....	176
H14060	- Female: are you under age 40 .....	177
H14061	- Female: last time breasts checked by mammography.....	177
H14062	- Female: been pregnant in last year or pregnant now .....	177
H14063	- Female: in what trimester is your pregnancy.....	178
H14064	- Female: trimester first received prenatal care .....	178
H14065	- In general how would you rate your overall health.....	178
H14066	- Limited in any way in any activities because of any impairment or health problem .....	178
H14067	- In last year: seen doctor or other health provider 3 or more times for same condition or problem.....	179
H14068	- Condition lasted for at least 3 months .....	179
H14069	- Need to take medicine prescribed by a doctor .....	179
H14070	- Medicine to treat condition that has lasted for at least 3 months .....	179
H14071F	- Feet portion of height without shoes.....	180
H14071I	- Inches portion of height without shoes .....	180
H14072	- Weight without shoes in pounds.....	180
SREDA	- Highest grade completed .....	184
H14073	- Are you Spanish, Hispanic, or Latino .....	184
H14073A	- No, not Spanish, Hispanic, or Latino .....	184
H14073B	- Yes, Mexican, Mexican American, Chicano .....	185
H14073C	- Yes, Puerto Rican.....	185
H14073D	- Yes, Cuban.....	185
H14073E	- Yes, other Spanish, Hispanic, or Latino .....	185
SRRACEA	- Race: White.....	185
SRRACEB	- Race: Black or African American.....	186
SRRACEC	- Race: American Indian or Alaska native .....	186
SRRACED	- Race: Asian .....	186
SRRACEE	- Race: Native Hawaiian/other Pacific Islander.....	186
SRAGE	- What is your age now? .....	187
H14074	- Currently covered by Medicare .....	187
H14075	- Currently covered by Medicare part A .....	187
H14076	- Currently covered by Medicare part B .....	188
H14077	- Enrolled in a Medicare Advantage plan.....	188
H14078	- Currently covered Medicare supplemental .....	188
H14079	- Enrolled in Medicare Part D.....	188
S14009	- Had the same personal doctor or nurse before joining this health plan .....	189
S14010	- Since joined health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with? .....	189
S14015	- When did you last have cholesterol screening .....	189
S14016	- Have you ever had a PSA test.....	190
S14017	- How long has it been since you had PSA test .....	190
S14B01	- Self rating of overall mental/emotional health .....	190

S14B02	- Last year: needed treatment/counseling for personal/family problem.....	191
S14B03	- Last year: problem getting needed treatment/counseling .....	191
S14B04	- Last year: rating of treatment/counseling received.....	191
S14BC01A	- Past 12 mth: did you try making appt at MTF? Yes, by calling.....	192
S14BC01B	- Past 12 mth: did you try making appt at MTF? Yes, online .....	192
S14BC01C	- Past 12 mth: did you try making appt at MTF? Yes, in person.....	192
S14BC01D	- Past 12 mth: did you try making appt at MTF? No .....	192
S14BC02A	- Why make appt at MTF? New illness, condition, or injury.....	193
S14BC02B	- Why make appt at MTF? Needed referral to specialist .....	193
S14BC02C	- Why make appt at MTF? Routine wellness.....	193
S14BC02D	- Why make appt at MTF? Follow-up on illness, condition, or injury .....	193
S14BC03A	- True when you tried to make appt at MTF: no appts available .....	194
S14BC03B	- True when you tried to make appt at MTF: appt too far in future .....	194
S14BC03C	- True when you tried to make appt at MTF: no convenient times .....	194
S14BC03D	- True when you tried to make appt at MTF: always able to make appt.....	194
S14BC04A	- Why not try to make appt at MTF? Didn't need health care .....	195
S14BC04B	- Why not try to make appt at MTF? Wouldn't have been able to get appt when needed .....	195
S14BC04C	- Why not try to make appt at MTF? Wouldn't have gotten appt at good time .....	195
S14BC04D	- Why not try to make appt at MTF? Did not have needed referral for specialist .....	195
S14BC04E	- Why not try to make appt at MTF? Inconvenient MTF location.....	196
S14BC04F	- Why not try to make appt at MTF? Only use civilian providers .....	196
S14BC04G	- Why not try to make appt at MTF? Prefer civilian providers.....	196
S14BC05A	- Past 12 mth: did you try making appt at civ provider? Yes, by calling.....	196
S14BC05B	- Past 12 mth: did you try making appt at civ provider? Yes, online .....	197
S14BC05C	- Past 12 mth: did you try making appt at civ provider? Yes, in person.....	197
S14BC05D	- Past 12 mth: did you try making appt at civ provider? No .....	197
S14BC06A	- Why make appt at MTF? New illness, condition, or injury.....	197
S14BC06B	- Why make appt at MTF? Referral for specialist care .....	197
S14BC06C	- Why make appt at MTF? Routine wellness.....	198
S14BC06D	- Why make appt at MTF? Follow-up on illness, condition, or injury .....	198
S14BC07A	- True when you tried to make appt at civ provider: no appts available.....	198
S14BC07B	- True when you tried to make appt at civ provider: appt too far in future .....	198
S14BC07C	- True when you tried to make appt at civ provider: no convenient times .....	199
S14BC07D	- True when you tried to make appt at civ provider: always able to make appt.....	199
S14BC08A	- Why not try to make appt at civ provider? Didn't need health care .....	199
S14BC08B	- Why not try to make appt at civ provider? Get all health care from MTF .....	199
S14BC08C	- Why not try to make appt at civ provider? Wouldn't have been able to get appt when needed.....	200
S14BC08D	- Why not try to make appt at civ provider? Wouldn't have gotten appt at good time .....	200
S14BC08E	- Why not try to make appt at civ provider? Did not have needed referral for specialist.....	200
S14BC08F	- Why not try to make appt at civ provider? Inconvenient location .....	200
S14R01	- Does hlth plan require referral from dr to see splst .....	201
S14R02	- Lst yr: did dr refer you to splst .....	201
S14R03A	- How splst selected in lst yr: did not see splst.....	201
S14R03B	- How splst selected in lst yr: dr told me what splst to see.....	201
S14R03C	- How splst selected in lst yr: suggestion from friend/relative .....	202
S14R03D	- How splst selected in lst yr: picked from list supplied by TRICARE or hlth plan.....	202
S14R03E	- How splst selected in lst yr: picked on my own.....	202
S14R04A	- How appt made in lst yr: contacted appt line or referral desk .....	202
S14R04B	- How appt made in lst yr: called an MTF .....	203
S14R04C	- How appt made in lst yr: called prsnl dr.....	203
S14R04D	- How appt made in lst yr: called splst .....	203
S14R04E	- How appt made in lst yr: asked prsnl dr to make appt .....	203
S14R04F	- How appt made in lst yr: prsnl dr made appt.....	204

S14R04G	- How appt made in 1st yr: other .....	204
S14R05	- 1st yr: how much prblm understanding process needed to see spclst.....	204
S14R06	- 1st yr: referred to any civilian spclsts.....	204
S14R07	- How much prblm was wait time to see civilian spclst .....	205
S14R08	- 1st yr: longest time spent traveling to see civilian spclst .....	205
S14R09	- 1st yr: travel more than 100 miles to see civilian spclst .....	205
S14R10	- 1st yr: how often did dr seem informed about care from civilian spclsts .....	206
S14R11	- 1st yr: referred to spclst at MTF .....	206
S14R12	- How much prblm was wait time to see spclst at MTF .....	206
S14R13	- 1st yr: longest time spent traveling to see spclst at MTF .....	207
S14R14	- 1st yr: travel more than 100 miles to see spclst at MTF .....	207
S14R15	- 1st yr: how often did dr seem informed about care from spclsts at MTF .....	207

**SURVEY FIELDING VARIABLES**

ONTIME	- Responded within 8 weeks of mail-out .....	208
FLAG_FIN	- Final disposition .....	208
DUPFLAG	- Multiple response indicator .....	208
FNSTATUS	- Final status .....	208
KEYCOUNT	- Number of key questions answered .....	209
WEB	- Web survey indicator .....	209
EMAILRES	- Email response.....	209

**CODING SCHEME FLAGS AND COUNTS**

N1	- Coding Scheme Note 1 .....	209
N2	- Coding Scheme Note 2 .....	210
N3_Q2	- Coding Scheme Note 3_Q2 .....	210
N3_BC1	- Coding Scheme Note 3_BC1 .....	210
N3_BC2	- Coding Scheme Note 3_BC2 .....	210
N4	- Coding Scheme Note 4 .....	211
N5	- Coding Scheme Note 5 .....	211
N6	- Coding Scheme Note 6 .....	211
N7	- Coding Scheme Note 7 .....	211
N8	- Coding Scheme Note 8 .....	212
N8_01	- Coding Scheme Note 8_01 .....	212
N9	- Coding Scheme Note 9 .....	212
N10	- Coding Scheme Note 10 .....	212
N10_B1	- Coding Scheme Note 10_B1 .....	213
N11	- Coding Scheme Note 11 .....	213
N12	- Coding Scheme Note 12 .....	213
N13	- Coding Scheme Note 13 .....	213
N14	- Coding Scheme Note 14 .....	214
N15	- Coding Scheme Note 15 .....	214
N16	- Coding Scheme Note 16 .....	214
N17	- Coding Scheme Note 17 .....	214
N17_R1	- Coding Scheme Note 17_R1 .....	215
N17_R2	- Coding Scheme Note 17_R2.....	215
N17_R3	- Coding Scheme Note 17_R3.....	215
N17_R4	- Coding Scheme Note 17_R4.....	215
N18	- Coding Scheme Note 18 .....	215
N19A_Q2	- Coding Scheme Note 19A_Q2 .....	216
N19B_Q2	- Coding Scheme Note 19B_Q2 .....	216
N19_01	- Coding Scheme Note 19_01 .....	216
N20	- Coding Scheme Note 20 .....	216
N21	- Coding Scheme Note 21 .....	217
N22	- Coding Scheme Note 22 .....	217
N23	- Coding Scheme Note 23 .....	217
N23_HT	- Coding Scheme Note 23_HT .....	217
N23_WT	- Coding Scheme Note 23_WT .....	218
N24	- Coding Scheme Note 24 .....	218
N25	- Coding Scheme Note 25 .....	218

2014 HEALTH CARE SURVEY OF DOD BENEFICIARIES – QUARTER II

MISS_1	- Count of: violates skip pattern .....	218
MISS_4	- Count of: incomplete grid error .....	218
MISS_5	- Count of: scalable response of don't know .....	219
MISS_6	- Count of: not applicable - valid skip .....	219
MISS_7	- Count of: out-of-range error .....	219
MISS_9	- Count of: no response - invalid skip .....	220
MISS_TOT	- Total number of missing responses .....	220
<b>CONSTRUCTED VARIABLES</b>		
XENRLLMT	- Enrollment in TRICARE prime .....	221
XENR_PCM	- Enrollment by PCM type .....	221
XINS_COV	- Insurance coverage .....	222
XBENCAT	- Beneficiary category .....	222
XENR_RSV	- Enrollment by PCM type - reservist .....	223
XINS_RSV	- Insurance coverage - reservist .....	223
XREGION	- Region .....	224
XTNEXREG	- TRICARE next generation of contracts region grouping .....	224
USA	- CONUS/OCONUS indicator .....	224
XOCONUS	- Overseas Europe/Pacific/Latin indicator .....	225
OUTCATCH	- Out of catchment area indicator .....	225
XSEXA	- Male or female (recode) .....	225
XBMI	- Body mass index .....	225
XBMICAT	- Body mass index category .....	226
XBNFGRP	- Constructed beneficiary group .....	226
XSERVAFF	- Service affiliation .....	226
KMILOPQY	- Outpatient visits to military facility .....	227
KCIVOPQY	- Outpatient visits to civilian facility .....	227
KCIVINS	- Beneficiary covered by civilian insurance .....	227
HP_PRNTL	- Pregnant in last year received care in 1st trimester .....	228
HP_MAMOG	- Women age 40 and over: mammography in past 2 years .....	228
HP_MAM50	- Women age 50 and over: mammography in past 2 years .....	228
HP_PAP	- All women: PAP smear in last 3 years .....	228
HP_BP	- Blood pressure check in last 2 years and know results .....	229
HP_FLU	- Age 65 and older: flu shot in last 12 months .....	229
HP_OBESE	- Obese or morbidly obese .....	229
HP_SMOKE	- Advised to quit smoking in last 12 months .....	229
HP_SMKH3	- Smoker under HEDIS definition (modified) .....	230
HP_CESH3	- Had smoking cessation counseling - HEDIS (modified) .....	230
XCATCH	- XCATCH - Catchment area (reporting) .....	230
<b>POSTSTRATIFICATION</b>		
POSTCELL	- Poststratification cell for new weights .....	233
<b>WEIGHTS</b>		
FWRWT1	- Replicated/Jackknife quarterly weight 1 .....	236
FWRWT2	- Replicated/Jackknife quarterly weight 2 .....	236
FWRWT3	- Replicated/Jackknife quarterly weight 3 .....	236
FWRWT4	- Replicated/Jackknife quarterly weight 4 .....	237
FWRWT5	- Replicated/Jackknife quarterly weight 5 .....	237
FWRWT6	- Replicated/Jackknife quarterly weight 6 .....	237
FWRWT7	- Replicated/Jackknife quarterly weight 7 .....	238
FWRWT8	- Replicated/Jackknife quarterly weight 8 .....	238
FWRWT9	- Replicated/Jackknife quarterly weight 9 .....	238
FWRWT10	- Replicated/Jackknife quarterly weight 10 .....	239

H14023	- In last year: how often your personal doctor showed respect for what you have to say .....	165
H14024	- In last year: how often your personal doctor spent enough time with you .....	165
H14025	- In last year: got care from doctor or other health provider other than personal doctor .....	165
H14026	- In last year: how often personal doctor seemed informed and up-to-date about care received from other doctors .....	166
H14027	- Rating of your personal doctor .....	166
H14028	- In last year: tried to make appointment to see a specialist.....	166
H14029	- In last year: how often it was easy to get appointments with specialists .....	167
H14030	- In last year: how many specialists seen .....	167
H14031	- Rating of specialist seen most often in last year .....	167
H14032	- In last year: tried to get care, tests, or treatment through health plan .....	168
H14033	- In last year: how often easy to get care, tests, or treatment you thought you needed through health plan.....	168
H14034	- In last year: looked for information in written material or on the Internet about how health plan works.....	168
H14035	- In last year: how often written material/Internet provide information you needed about how your plan works.....	168
H14036	- In last year: looked for information from health plan on cost of health care service or equipment.....	169
H14037	- In last year: how often able to find out from health plan cost of health care service or equipment.....	169
H14038	- In last year: looked for information from health plan on cost of prescription medications .....	169
H14039	- In last year: how often able to find out cost of prescription medications .....	170
H14040	- In last year: tried to get information or help from health plan's customer service .....	170
H14041	- In last year: how often did customer service give needed information or help.....	170
H14042	- In last year: how often did customer service treat with courtesy and respect .....	171
H14043	- In last year: health plan gave forms to fill out .....	171
H14044	- In last year: how often forms from health plan were easy to fill out.....	171
H14045	- In last year: sent in any claims to your health plan .....	172
H14046	- In last year: how often health plan handled claims quickly.....	172
H14047	- In last year: how often health plan handled claims correctly .....	172
H14048	- Rating of all experience with health plan .....	173
H14049	- Blood pressure: when last reading .....	173
H14050	- Blood pressure: know if blood pressure is too high or not.....	173
H14051	- When did you last have a flu shot .....	174
H14052	- Smoked at least 100 cigarettes in life.....	174
H14053	- Smoke or use tobacco everyday, some days, or not at all.....	174
H14054	- Last year: how often advised by doctor to quit smoking or use tobacco .....	174
H14055	- Last year: how often medication was recommended or discussed by doctor to assist with quitting smoking or using tobacco .....	175
H14056	- Last year: how often doctor recommended or discussed methods and strategies to assist quitting smoking or using tobacco.....	175
H14057A	- Do you smoke or use: cigarettes .....	175
H14057B	- Do you smoke or use: dip, chewing tobacco, snuff, or snus .....	175
H14057C	- Do you smoke or use: cigars.....	176
H14057D	- Do you smoke or use: pipes, bidis, or kreteks .....	176

H14058	- Are you male or female .....	176
H14059B	- Female: last have a PAP smear test .....	176
H14060	- Female: are you under age 40 .....	177
H14061	- Female: last time breasts checked by mammography .....	177
H14062	- Female: been pregnant in last year or pregnant now .....	177
H14063	- Female: in what trimester is your pregnancy .....	178
H14064	- Female: trimester first received prenatal care .....	178
H14065	- In general how would you rate your overall health .....	178
H14066	- Limited in any way in any activities because of any impairment or health problem .....	178
H14067	- In last year: seen doctor or other health provider 3 or more times for same condition or problem .....	179
H14068	- Condition lasted for at least 3 months .....	179
H14069	- Need to take medicine prescribed by a doctor .....	179
H14070	- Medicine to treat condition that has lasted for at least 3 months .....	179
H14071F	- Feet portion of height without shoes .....	180
H14071I	- Inches portion of height without shoes .....	180
H14072	- Weight without shoes in pounds .....	180
H14073	- Are you Spanish, Hispanic, or Latino .....	184
H14073A	- No, not Spanish, Hispanic, or Latino .....	184
H14073B	- Yes, Mexican, Mexican American, Chicano .....	185
H14073C	- Yes, Puerto Rican .....	185
H14073D	- Yes, Cuban .....	185
H14073E	- Yes, other Spanish, Hispanic, or Latino .....	185
H14074	- Currently covered by Medicare .....	187
H14075	- Currently covered by Medicare part A .....	187
H14076	- Currently covered by Medicare part B .....	188
H14077	- Enrolled in a Medicare Advantage plan .....	188
H14078	- Currently covered Medicare supplemental .....	188
H14079	- Enrolled in Medicare Part D .....	188
HP_BP	- Blood pressure check in last 2 years and know results .....	229
HP_CESH3	- Had smoking cessation counseling - HEDIS (modified) .....	230
HP_FLU	- Age 65 and older: flu shot in last 12 months .....	229
HP_MAM50	- Women age 50 and over: mammography in past 2 years .....	228
HP_MAMOG	- Women age 40 and over: mammography in past 2 years .....	228
HP_OBESE	- Obese or morbidly obese .....	229
HP_PAP	- All women: PAP smear in last 3 years .....	228
HP_PRNTL	- Pregnant in last year received care in 1st trimester .....	228
HP_SMKH3	- Smoker under HEDIS definition (modified) .....	230
HP_SMOKE	- Advised to quit smoking in last 12 months .....	229
JSFLAG	- Joint Service Flag .....	147

N18	- Coding Scheme Note 18 .....	215
N19_01	- Coding Scheme Note 19_01 .....	216
N19A_Q2	- Coding Scheme Note 19A_Q2 .....	216
N19B_Q2	- Coding Scheme Note 19B_Q2 .....	216
N2	- Coding Scheme Note 2 .....	210
N20	- Coding Scheme Note 20 .....	216
N21	- Coding Scheme Note 21 .....	217
N22	- Coding Scheme Note 22 .....	217
N23	- Coding Scheme Note 23 .....	217
N23_HT	- Coding Scheme Note 23_HT .....	217
N23_WT	- Coding Scheme Note 23_WT .....	218
N24	- Coding Scheme Note 24 .....	218
N25	- Coding Scheme Note 25 .....	218
N3_BC1	- Coding Scheme Note 3_BC1 .....	210
N3_BC2	- Coding Scheme Note 3_BC2 .....	210
N3_Q2	- Coding Scheme Note 3_Q2 .....	210
N4	- Coding Scheme Note 4 .....	211
N5	- Coding Scheme Note 5 .....	211
N6	- Coding Scheme Note 6 .....	211
N7	- Coding Scheme Note 7 .....	211
N8	- Coding Scheme Note 8 .....	212
N8_01	- Coding Scheme Note 8_01 .....	212
N9	- Coding Scheme Note 9 .....	212
NHFF	- Stratum sample size .....	148
ONTIME	- Responded within 8 weeks of mail-out .....	208
OUTCATCH	- Out of catchment area indicator .....	225
PATCAT	- Aggregated beneficiary category .....	153
PCM	- Primary manager code (civilian or military) .....	151
PNSEXCD	- Person gender .....	150
PNTYPECD	- Person type code .....	153
POSTCELL	- Poststratification cell for new weights .....	233
QUARTER	- Survey quarter .....	148
RACEETHN	- Race/Ethnic code .....	150
RDAGEQY	- Age at time of sample preparation-Capped (18 and below, 86 and above) .....	150
RFLDAGE	- Age at start of fielding period-Capped (18 and below, 86 and above) .....	151
S14009	- Had the same personal doctor or nurse before joining this health plan .....	189
S14010	- Since joined health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with? .....	189
S14015	- When did you last have cholesterol screening .....	189
S14016	- Have you ever had a PSA test .....	190
S14017	- How long has it been since you had PSA test .....	190
S14B01	- Self rating of overall mental/emotional health .....	190
S14B02	- Last year: needed treatment/counseling for personal/family problem .....	191
S14B03	- Last year: problem getting needed treatment/counseling .....	191
S14B04	- Last year: rating of treatment/counseling received .....	191
S14BC01A	- Past 12 mth: did you try making appt at MTF? Yes, by calling .....	192
S14BC01B	- Past 12 mth: did you try making appt at MTF? Yes, online .....	192
S14BC01C	- Past 12 mth: did you try making appt at MTF? Yes, in person .....	192

S14BC01D	- Past 12 mth: did you try making appt at MTF? No .....	192
S14BC02A	- Why make appt at MTF? New illness, condition, or injury.....	193
S14BC02B	- Why make appt at MTF? Referral for specialist care .....	193
S14BC02C	- Why make appt at MTF? Routine wellness.....	193
S14BC02D	- Why make appt at MTF? Follow-up on illness, condition, or injury .....	193
S14BC03A	- True when you tried to make appt at MTF: no appts available .....	194
S14BC03B	- True when you tried to make appt at MTF: appt too far in future .....	194
S14BC03C	- True when you tried to make appt at MTF: no convenient times .....	194
S14BC03D	- True when you tried to make appt at MTF: always able to make appt.....	194
S14BC04A	- Why not try to make appt at MTF? Didn't need health care .....	195
S14BC04B	- Why not try to make appt at MTF? Wouldn't have been able to get appt when needed .....	195
S14BC04C	- Why not try to make appt at MTF? Wouldn't have gotten appt at good time .....	195
S14BC04D	- Why not try to make appt at MTF? Did not have needed referral for specialist .....	195
S14BC04E	- Why not try to make appt at MTF? Inconvenient MTF location.....	196
S14BC04F	- Why not try to make appt at MTF? Only use civilian providers .....	196
S14BC04G	- Why not try to make appt at MTF? Prefer civilian providers.....	196
S14BC05A	- Past 12 mth: did you try making appt at civ provider? Yes, by calling.....	196
S14BC05B	- Past 12 mth: did you try making appt at civ provider? Yes, online .....	197
S14BC05C	- Past 12 mth: did you try making appt at civ provider? Yes, in person.....	197
S14BC05D	- Past 12 mth: did you try making appt at civ provider? No .....	197
S14BC06A	- Why make appt at MTF? New illness, condition, or injury.....	197
S14BC06B	- Why make appt at MTF? Referral for specialist care .....	197
S14BC06C	- Why make appt at MTF? Routine wellness.....	198
S14BC06D	- Why make appt at MTF? Follow-up on illness, condition, or injury .....	198
S14BC07A	- True when you tried to make appt at civ provider: no appts available.....	198
S14BC07B	- True when you tried to make appt at civ provider: appt too far in future .....	198
S14BC07C	- True when you tried to make appt at civ provider: no convenient times .....	199
S14BC07D	- True when you tried to make appt at civ provider: always able to make appt.....	199
S14BC08A	- Why not try to make appt at civ provider? Didn't need health care .....	199
S14BC08B	- Why not try to make appt at civ provider? Get all health care from MTF .....	199
S14BC08C	- Why not try to make appt at civ provider? Wouldn't have been able to get appt when needed.....	200
S14BC08D	- Why not try to make appt at civ provider? Wouldn't have gotten appt at good time .....	200
S14BC08E	- Why not try to make appt at civ provider? Did not have needed referral for specialist.....	200
S14BC08F	- Why not try to make appt at civ provider? Inconvenient location .....	200
S14R01	- Does hlth plan require referral from dr to see spclst .....	201

## Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the Quarter II, 2014 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to assist users in creating tables and generating analyses above and beyond those associated with this project.

Beginning with 2006, reporting and documentation of the HCSDB are performed on a fiscal year basis. In previous years, reporting and documentation were based on calendar years. Thus, the current codebook describes the Quarter II, 2014 dataset for fiscal year 2014. Throughout, 2014 Quarter II dataset refers to the fiscal year 2014.

This version of the Codebook and User's Guide describes the Quarter II data set. It contains frequency counts of all variables in the second quarter of fiscal year 2014.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

### HOW TO USE THIS GUIDE

Chapter 2 describes the survey fielding process.

Chapter 3 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 4 provides table-making instructions in both SAS and SPSS and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN<sup>TM</sup>, WesVar PC<sup>®</sup>, or SAS/STAT V8 or higher. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 5, where we give the quarterly counts for each variable in the database, including a list of all existing values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata

- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling
- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis
- Poststratification variables
- Weights

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for an alphabetical quick-reference list intended to assist users in locating each variable.

Users interested in learning more about the technical aspects of the database creation, construction of new variables, or Mathematica's report production procedures may refer to "The 2014 Health Care Survey of DoD Beneficiaries: Adult Technical Manual," available in late 2014 from the TRICARE Management Activity Office.

#### What is the HCSDB?

The HCSDB is a health care survey of Active Duty military personnel, retirees, and their adult family members. Prior to 2011, it was comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. In 2011, only the adult survey was fielded to a representative sample of beneficiaries. The adult survey is fielded every quarter, whereas the child survey was fielded only in one quarter of each fiscal year. In FY 2013, the survey for quarter 4 was cancelled as a result of sequestration. Results from each quarter of the adult survey are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The survey collects data on beneficiaries' satisfaction with, and access to, health care; knowledge of the TRICARE system; and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly (with a change to 3 quarters in 2013 as noted above) and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2014 HCSDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012 and 2013 (3 quarters only in 2013 as noted above). The annotated questionnaire for this quarter, including the percent of responses for each variable value by all respondents to each question, appears in Appendix A. A crosswalk between the 2014 questions and the questions from the 2006, 2007, 2008, 2009, 2010, 2011, 2012 and 2013 surveys appears as Appendix C.

#### CAHPS Questions

To make responses comparable to civilian surveys, the HCSDB core questions are similar in content and format to questions used in the Consumer Assessment of Healthcare Providers and Systems

(CAHPS) Health Plan Survey. CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality (AHRQ), U.S. Department of Health and Human Services, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services. In 2014, the questionnaire was based on CAHPS version 5.

Core questions are described below.

#### Core questions

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance. Respondents are also asked about their Medicare coverage.
- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It covers topics such as the availability of providers and their staff for both urgent and regular care. Respondents are asked to rate their health care on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating. They are also asked if the health care providers informed them of the available treatment options.
- **Your Personal Doctor.** In this section, respondents are asked about their relationship with their personal doctor. They are asked to rate their personal doctor on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating. It also covers topics like the ability of the personal doctor to listen carefully and respectfully, clearly explain things, and be informed about care received from another doctor.
- **Getting Health Care from a Specialist.** This section collects information about respondents' access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0 is the lowest rating and 10 is the highest rating. Additionally, respondents are asked questions about any problems they may have encountered with getting necessary care, claims processing, customer service, processing paperwork, and finding necessary information in written materials or from the Internet.
- **Preventive Care.** This section collects information on the use of preventive health care services, including blood pressure readings and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography. All respondents are asked whether they smoke or use tobacco products. Tobacco users are asked to identify the type of tobacco products they used and how often they received cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health. They are further asked to report their height, weight, education level, race, and age.

#### Quarter II Supplements

- **Mental or Emotional Health.** Questions in this supplement concern overall mental or emotional health. Respondents are asked to rate their mental or emotional health. They are also asked questions about any mental or emotional treatment or counseling they may have received.

- **Personal Doctor.** Questions in this supplement cover the respondent's personal doctor. Respondents are asked whether they had the same personal doctor prior to joining their current health plan and whether they were happy with their personal doctor once they joined the health plan.
- **Referrals to Specialist.** Questions in this supplement cover the respondent's experiences getting referrals to specialists. Respondents are also asked about their comprehension of the process to see a specialist, wait time prior to seeing the civilian or military specialist and distance travelled to see specialists.
- **Preventive Care.** Questions in this supplement cover the use of additional preventive healthcare services, including cholesterol screening. Male respondents are also asked when they had a Prostate-Specific Antigen (PSA) test.
- **Health Care Appointments.** Questions in this supplement cover various aspects of making appointments at both MTFs and with civilian health care providers. Respondents are asked about their reasons for making, and not making, appointments, as well as the availability of the appointments that were needed.

### Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a specific reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on Active Duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days), and other special categories of people who qualify for benefits
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members of people from the first two categories.

A stratified sample design was used to select DoD health care beneficiaries for the Quarter II, 2014 Adult HCSDB.

From a sample of 100,000 beneficiaries, 9,282 adult MHS beneficiaries completed and returned a 2014 Adult HCSDB questionnaire for the second quarter, yielding a response rate of 9.3 percent. Information on developing response rates will be found in the "2014 Health Care Survey of DoD Beneficiaries: Adult Technical Manual".

### Other Documents on the 2014 HCSDB

This document is intended for programmers and analysts using the Quarter II, 2014 Adult HCSDB data. The following is a list of other documents that may be requested from the TRICARE Management Activity Office:

- 2014 Health Care Survey of DoD Beneficiaries: Adult Technical Manual (Available late 2014)
- 2014 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report (Available late 2014)

Chapter  
2

---

## Survey of Adults

This chapter presents information on the survey administration cycle for the Quarter II, 2014 Adult Health Care Survey of DoD Beneficiaries (HCSDB), with specific details on the survey mailing cycle and the number of surveys returned.

### A. SURVEY OPERATIONS ACTIVITIES

The Health Care Survey of DoD Beneficiaries (HCSDB) converted from a mail survey with Internet option in previous years to an all-Internet survey in FY2014. Operational support for the HCSDB involved two mailings to all beneficiaries on January 20, 2014 and February 14, 2014 and six emailings to Active Duty members from January 22, 2014 to March 10, 2014 in Quarter II.

The mailings include:

1. Invitation letter with instructions on how to access the Internet survey.
2. Reminder letter

The invitation letter includes instructions on how to do the survey via the Internet. The reminder letter encourages the beneficiary to complete the survey and provides the respondent with their Internet password. Furthermore, Mathematica emailed the Active Duty members six times over the course of the Quarter II survey period. Each email included the service members' password for the survey.

### B. SAMPLE

A change in the sample file to increase response rate was initiated in Quarter I, 2014. Up to Quarter 1, 2009, the Adult HCSDB was conducted quarterly on a sample of 50,000 beneficiaries, and starting in Quarter II, 2009, the sample size was increased to 51,000. In Quarter I, 2014 the sample size was again increased, this time to approximately 100,000 records.

The Quarter II, 2014 sample contained 99,630 records. This quarter the HCSDB invitation letter was mailed/emailed out to 98,871 respondents. The remaining 759 records did not include either the respondents' names or addresses (or in the case of Active Duty, the email or mailing address) and so were not able to be mailed/emailed.

### C. SURVEY PROCESSING

Ipsos applies a Bar Code, Control Number (MIQ) and Password to each beneficiary upon receipt of the sample. This system ensures that all data collected is aggregated and available throughout the survey lifecycle. Each of the identifying labels is detailed below:

Barcode

Digit 1 - Quarter Marker (1-4)

Digit 2 - Wave Marker (1-4)

Digit 3 - Study Marker (1=sample, 2=supplemental, 3=child)

Digits 4-8 - Sequential ID#

Control Number (MIQ) - 10-digit unique identifier

Digits 1-9 – Sequential ID #

Digit 10 – Check Digit

Password

Non-sequential 7-digit password (for online response access) – To ensure that the password is unique across all samples and across all DoD studies, the first digit is assigned to a specific quarter and study.

#### D. ADDRESSES

The HCSDB is designed so that beneficiaries may receive up to two mailings. Ipsos may collect up to seven addresses for each beneficiary in order to maximize the receipt rate for mailing. Addresses from Center for Health Care Strategies, Inc (CHCS) were used starting in Quarter I, 2008.

The first available address in the following order was used for each mailing.

- |  |  |
|--|--|
| 1. Respondent Updated                      | 9. Updated Residential (depending on date in file) |
| 2. USPS Updated                            | 10. Updated Sponsor                                |
| 3. National Change of Address (NCOA)       | 11. Updated Unit                                   |
| 4. Default - CHCS                          | 12. Original CHCS                                  |
| 5. Default – Residential                   | 13. Original Residential                           |
| 6. Default – Sponsor                       | 14. Original Sponsor                               |
| 7. Default - Unit                          | 15. Original Unit                                  |
| 8. Updated CHCS(depending on date in file) |  |

The origin of the addresses is as follows:

- Altarum/DEERS Addresses

In the initial sample file, Altarum provides up to four addresses for each beneficiary. Ipsos considers these addresses to be Original CHCS, Original Residential, Original Sponsor and Original Unit.

Altarum also provides updates on each of the four addresses prior to the Invitation letter, and reminder letter mailings. Ipsos records these addresses as CHCS Updated, Residential Updated, Sponsor Updated, and Unit Updated.

- NCOA Address

Upon receipt of the initial sample and prior to the Pre-Notification mailing, Ipsos selects the best available address for each beneficiary and sends it to an NCOA vendor for updating and hygiene services. The updated address returned by the vendor is marked as the NCOA address. The current definition of “best address” requires Ipsos to compare the date on the Residential address to the date on the CHCS address. The address that has the more current date was sent off for NCOA processing. If the dates are the same or if one/both are missing dates, then the hierarchy of CHCS then Residential prevails.

- Respondent Address Changes

Respondents were able to report address and status changes via regular mail, telephone, voicemail, fax, and email. Address changes submitted by respondent were considered priority over any other address type.

- Address Correction via USPS

The United States Postal Service provided address corrections on returned mail if available.

- Sample Refreshes

Starting in Quarter I, 2009, Ipsos only used the deceased and nomatch information from the sample refreshes sent by Altarum, and did not use any refreshed addresses in order to maintain the integrity of the NCOA address. Addresses that were updated due to the previous address being undeliverable are marked as “Default” (Residential, CHCS, Sponsor, or Unit). Starting in Quarter IV, 2011, the only Active Duty respondents who were mailed surveys were those who did not have a valid/known email address.

Table 2.1 gives the address breakdown for each mailing by beneficiary category.

Table 2.1

F. DISPOSITION CODES

Ipsos assigns disposition codes to each sample member as the information is received and questionnaire is returned. These codes are outlined below.

- FLAG\_FIN=1  
Returned survey – survey was completed and returned.
- FLAG\_FIN=2  
Returned ineligible – survey was returned with at least one question marked and information that the beneficiary was ineligible. The information indicating ineligibility may have come by mail, phone, fax, or the survey itself.
- FLAG\_FIN=3  
Returned blank – temporarily ill or incapacitated. Survey was returned blank along with information that the beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG\_FIN=4  
Returned blank – deceased. Survey was returned blank along with information that the beneficiary was deceased. These sample members were ineligible.
- FLAG\_FIN=5  
Returned blank – incarcerated or permanently incapacitated. Survey was returned blank along with information that the beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG\_FIN=6  
Returned blank – left military or divorced after fielding date, retired. Survey was returned blank along with information that the beneficiary left the military after fielding date, divorced after fielding date, or retired. These sample members were eligible.

- FLAG\_FIN=7  
Returned blank – not eligible on fielding date. Survey was returned blank along with information that the beneficiary was not eligible for Military Health System Plan on fielding date. These sample members were ineligible.
- FLAG\_FIN=8  
Returned blank – other eligible. Survey was returned blank along with a reason given by the sample member. These sample members were eligible.
- FLAG\_FIN=9  
Returned blank – no reason. Survey was returned blank without an explanation. These sample members had unknown eligibility.
- FLAG\_FIN=10  
No return – temporarily ill or incapacitated. Survey was not returned and beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG\_FIN=11  
No return – active refuser. Survey was not returned and beneficiary refused to take part in the survey. These sample members were eligible.
- FLAG\_FIN=12  
No return – deceased. Survey was not returned and beneficiary deceased. These sample members were ineligible.
- FLAG\_FIN=13  
No return – incarcerated or permanently incapacitated. Survey was not returned, beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG\_FIN=14  
No return – left military or divorced after fielding date, retired. Survey was not returned, beneficiary left service after fielding date, divorced after fielding date, or retired. These sample members were eligible.
- FLAG\_FIN=15  
No return – not eligible on fielding date. Survey was not returned, beneficiary was not eligible for Military Health System Plan on fielding date. These sample members were ineligible.  
  
Example: Beneficiary is no longer covered under parents' plan.
- FLAG\_FIN=16  
No return – other eligible. Survey was not returned, beneficiary gave other reason for not completing the survey. These sample members were eligible.  
  
Examples:       Beneficiary claims they have not used benefits in past 12 months.  
                      Beneficiary is away at college, on a religious mission, lives overseas.  
                      Received information that beneficiary chosen for survey does not speak English well enough to participate.
- FLAG\_FIN=17  
No return – no reason. Survey was not returned, beneficiary gave no reason. These sample members had unknown eligibility.

- FLAG\_FIN=18  
Postal Non Deliverable (PND) – no address remaining. All addresses were attempted, mailing was returned PND. These sample members had unknown eligibility.
- FLAG\_FIN=19  
PND – address remaining at the close of field. At the close of field, the last address used was found invalid, next available was not attempted. These sample members had unknown eligibility.
- FLAG\_FIN=20  
Original Non-Locatable – no address at start of mailing. Substantially incomplete or blank address field before the survey was administered, no mailings attempted. These sample members had unknown eligibility.
- FLAG\_FIN=21  
Beneficiary provides written documentation declining to participate but doesn't specify a reason. These sample members were eligible.
- FLAG\_FIN=22  
Beneficiary indicates they are hospitalized but without providing any way to determine whether incapacity is temporary or permanent. Therefore, eligibility determination can not be made. These sample members had unknown eligibility.
- FLAG\_FIN=23  
Returned blank – deployed. Survey was returned blank along with information that the beneficiary was deployed. These sample members were eligible.
- FLAG\_FIN=24  
No return – deployed. Survey was not returned, beneficiary was deployed. These sample members were eligible.
- FLAG\_FIN=25  
Deceased. Beneficiary coded as deceased due to refresh sample sent by Altarum. These sample members were ineligible.
- FLAG\_FIN=26  
No match. Not eligible indicated by Altarum-DEERS update. Beneficiary coded as no longer being eligible for TRICARE coverage due to sample refresh.

Tables 2.2 shows frequencies of these disposition codes by beneficiary category.

## Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

### VARIABLE NAMING CONVENTIONS

The conventions used to name variables on the 2014 Adult HCSDB data file are listed below and summarized in Table 3.1. The naming conventions remain constant across the three quarters of the 2014 HCSDB.

- **Survey Variables.** Variable names for core survey questions consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("14") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the annotated survey. The original variables are suffixed with "\_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. Like the core questions, supplemental questions also include up to eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("14"). The variable ends with an alphanumeric character or characters denoting the supplemental topic followed by the question number in the supplemental series as necessary.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables like N1-N25, reference the notes in the Coding Scheme for the Adult Survey. See Appendix D for the Coding Scheme for Quarter II for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable PNSEXCD was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2020 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Constructed Restricted Use Variables.** Original DEERS variables that have been recoded to maintain the confidentiality of the respondent are prefixed with "R."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "FW".

TABLE 3.1

NAMING CONVENTIONS FOR 2014 HCSDB VARIABLES – QUARTER II

1 <sup>st</sup> Character: Survey Type	2 <sup>nd</sup> – 3 <sup>rd</sup> Characters: Survey Year	4 <sup>th</sup> – 6 <sup>th</sup> Characters: Question #	Additional Characters: Additional Information
H= Health Beneficiaries (18 and older, Adult Questionnaire) ----- S = Supplemental Question	14	001 to 079  ----- Quarter II 009-010 – Supplemental questions about respondent’s personal doctor and about the visits to the respondent’s healthcare provider.  015-017 – Supplemental questions about preventive health care.  B01-B04 – Supplemental questions about overall mental or emotional health.  R01-R15 – Supplemental questions about referrals to specialists.	A to V are used to label responses associated with a multiple response question
1 <sup>st</sup> Character: Survey Type	2 <sup>nd</sup> – 3 <sup>rd</sup> Characters: Survey Year	4 <sup>th</sup> – 7 <sup>th</sup> Characters: Question #	Additional Characters: Additional Information
S = Supplemental Question	14	Quarter II BC01-BC08 – Supplemental questions about health care appointments.	A to G are used to label responses associated with a multiple response question

1 <sup>st</sup> Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding Scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People 2020</i> variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
R=Constructed restricted use variables	Descriptive text, e.g., RDAGEQY (Age at time of data collection-capped-grouped those 18 and below, 86 and above)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)
FW=Quarterly weighting variables	Descriptive text, e.g., FWRWT for the overall final quarterly weight; Number referring to replicate weights, e.g., FWRWT10

## CLEANING AND EDITING CONVENTIONS

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme for Quarter II appears in Appendix D. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when Ipsos created the SAS dataset:
  - Skipped items were encoded with SAS missing value code of ‘.’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “.N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “.C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “.O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in Quarter II, 2014 Adult HCSDB data file appear in Chapter 5 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

## RECORD SELECTION CRITERIA

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database. If there are multiple questionnaires received from a single respondent, only the most complete questionnaire is retained.

To determine if a questionnaire is “complete”, 20 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (more than nine) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H14003, H14005, H14006, H14009, H14013, H14018, H14019, H14027, H14028, H14031, H14033, H14040, H14043, H14048, H14051, H14052, H14065, H14073, SREDA, and the race indicator.

### Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2014 Adult HCSDDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Basic sampling weights are equivalent to the reciprocal of the probability of each respondent’s selection into the sample. These basic sampling weights are further adjusted for nonresponse within the classes formed based on the percentiles of the propensity scores from the propensity model. Finally, we poststratified the nonresponse adjusted weights to the frame totals to obtain specific domain weighted totals equal to the population totals. Chapter 5 contains the weighted and unweighted frequencies for each variable in Quarter II. For further details on the 2014 weighting, see “2014 Health Care Survey of DoD Beneficiaries: Technical Manual”.

---

## Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the 2014 Quarter II HCSDB dataset.

### HOW TO MAKE A TABLE USING SAS

The Quarter II, 2014 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 8.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 8 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

#### File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the 2014 Quarter II adult dataset is located on a CD-ROM in the subdirectory HCSDB14\FORMA\Q2, your LIBNAME statement must look like this:

```
LIBNAME INFORMA 'F:\HCSDB14\FORMA\Q2';
```

The adult dataset can then be referred to as INFORMA.HCSDB14, where INFORMA is the location of the file HCSDB14.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

```
LIBNAME LIBRARY 'C:\HCSDB14\FORMA\Q2\FMTLIB';
```

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

```
OPTIONS PS=79 LS=132;
```

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

```
OPTIONS PS=50 LS=175 NOCENTER;
```

## DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of Active Duty by sex:

```
/* Active Duty males */  
IF XSEX = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;  
* Active Duty females;  
ELSE IF XSEX = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;  
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /\* \*/ or beginning with \* and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION SVCSMPL H14050 H14052;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only TNEX region 3 observations */  
IF XTNEXREG = 3;
```

- Create a new temporary dataset. For example, SVC\_1 is a temporary file of observations for only those respondents in service branch 1 (Army):

```
LIBNAME INFORMA 'F:\HCSDB14\FORMA\Q2';  
DATA SVC_1;  
/* Input file is HCSDB14 */  
SET INFORMA.HCSDB14;  
IF SVCSMPL = 1;  
RUN;
```

- Create a new permanent dataset. For example, OUT.SVC\_2 is a permanent dataset only of Navy respondents:

```
LIBNAME INFORMA 'F:\HCSDB14\FORMA\Q2';

```

## PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N                    number of observations with nonmissing values
- NMISS             number of observations with missing values
- MEAN              the arithmetic mean
- SUM                the sum
- PCTN              percent that one frequency represents of another frequency
- PCTSUM           percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;  
CLASS class variables;  
VAR analysis variables;  
TABLE << page expression, > row expression, > column expression </ table options >;  
WEIGHT FWRWT;  
RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in service branch 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE SVCSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XTNEXREG, XSEXA, and SVCSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE statement, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each analysis variable. In the HCSDB for Quarter II, 2014, the weight variable is FWRWT.

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

- Analysis variables

- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form =*label*; for example, XTNEXREG=TNEX Region' or MEAN=' ' (to eliminate the word MEAN from the headings).
- Crossing operator \* (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT\*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H14018 \*MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H14018 H14048.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

**(XBNFGRP ALL)\*XSEXA**

### **The SAS Display Manager System**

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 9, the following screen opens.

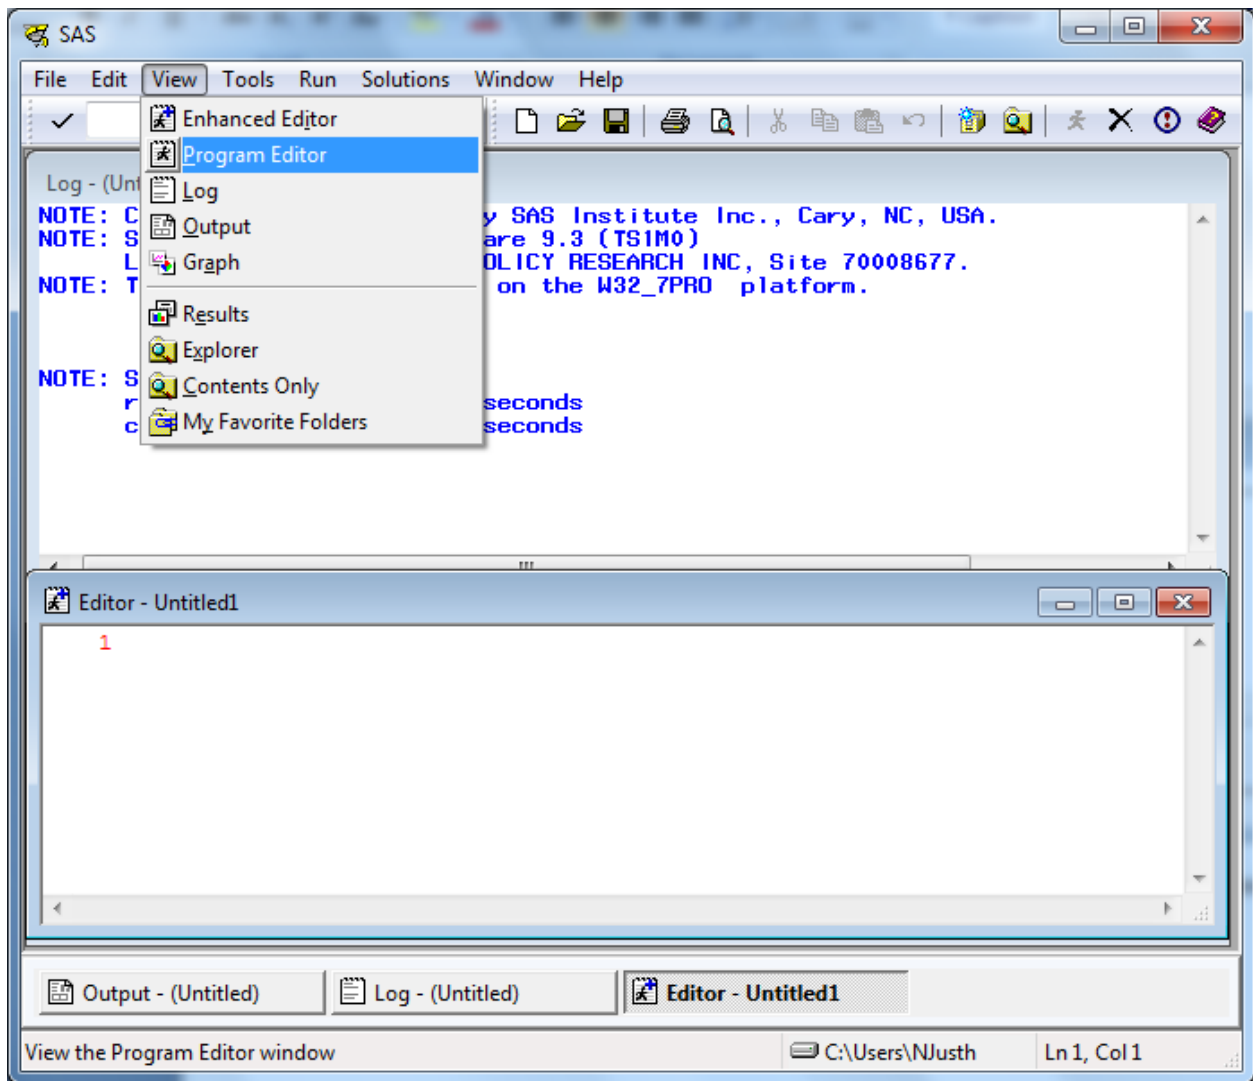

The screen is divided into two windows, a Log window above and an Editor window below.

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 9 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

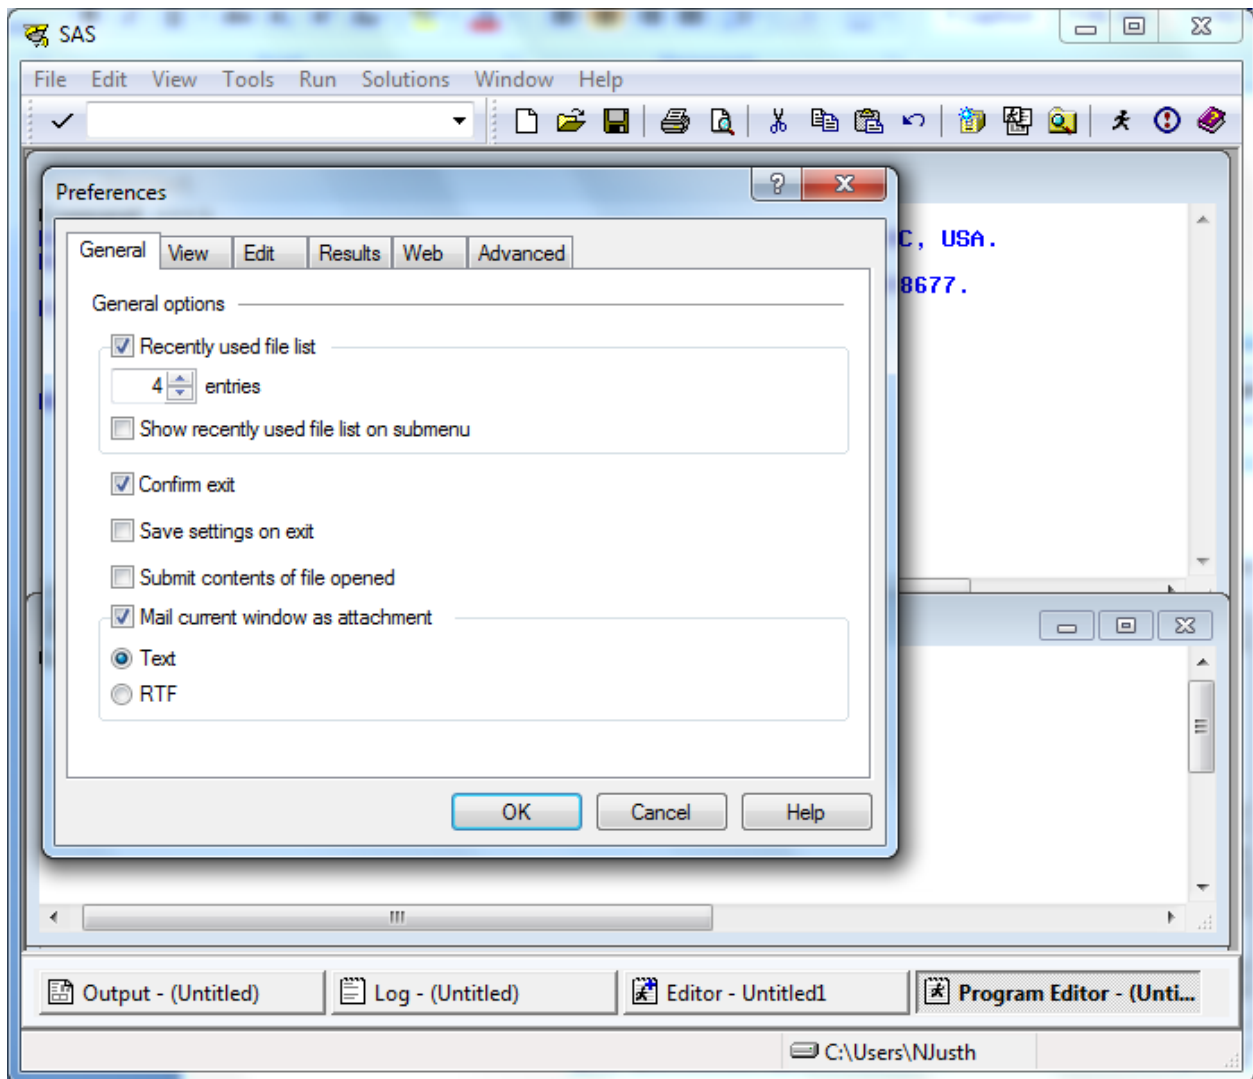

Click on View and select Program Editor as in the following:

The lower Editor Window has now changed to Program Editor as in the following screen:

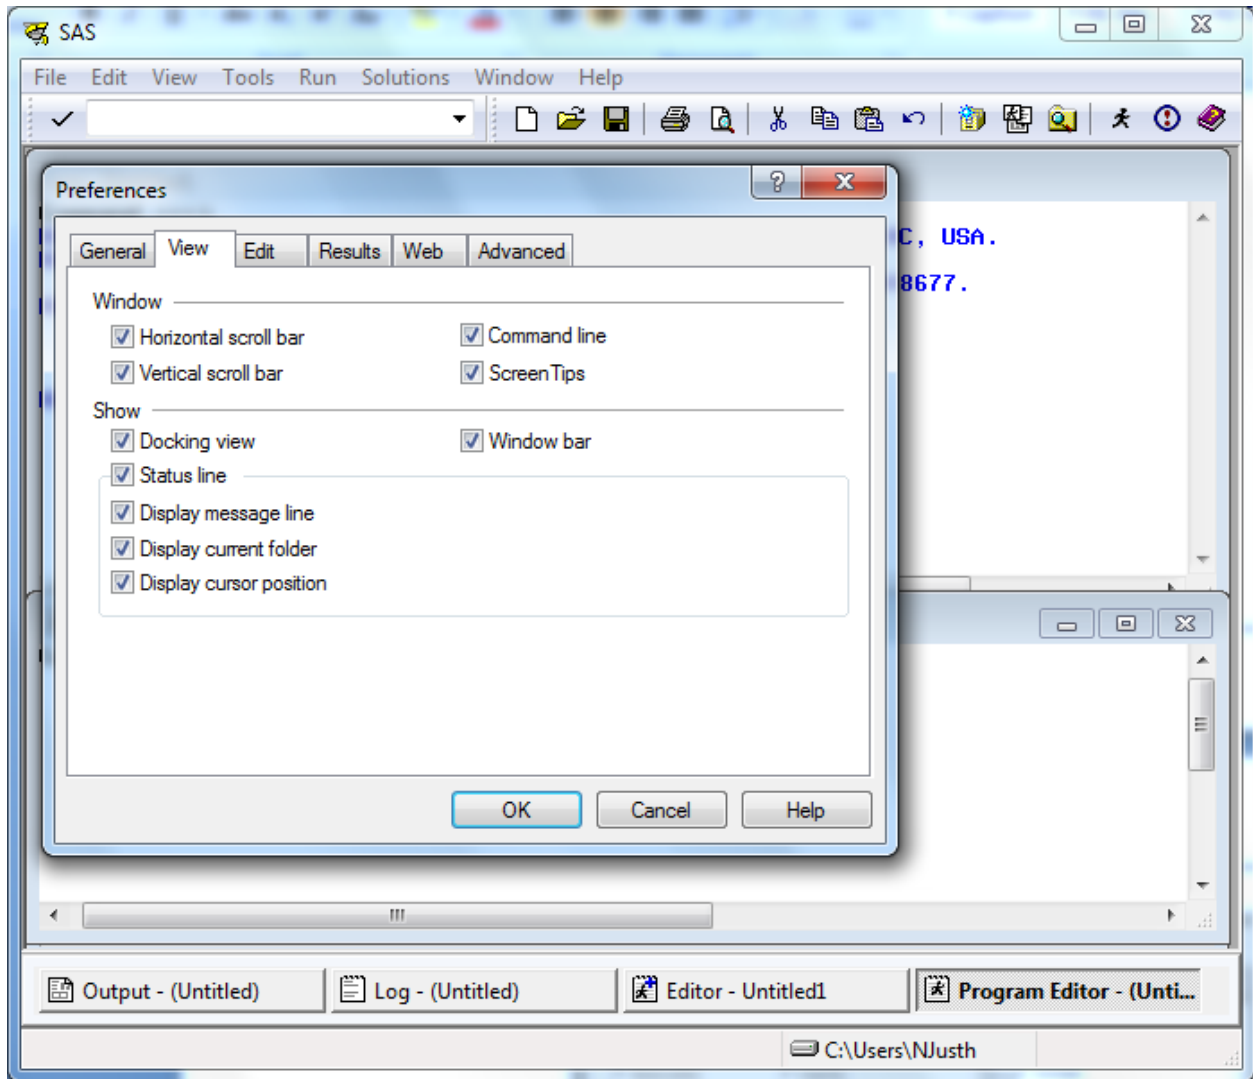

Open the Tools menu and choose Options and Preferences.

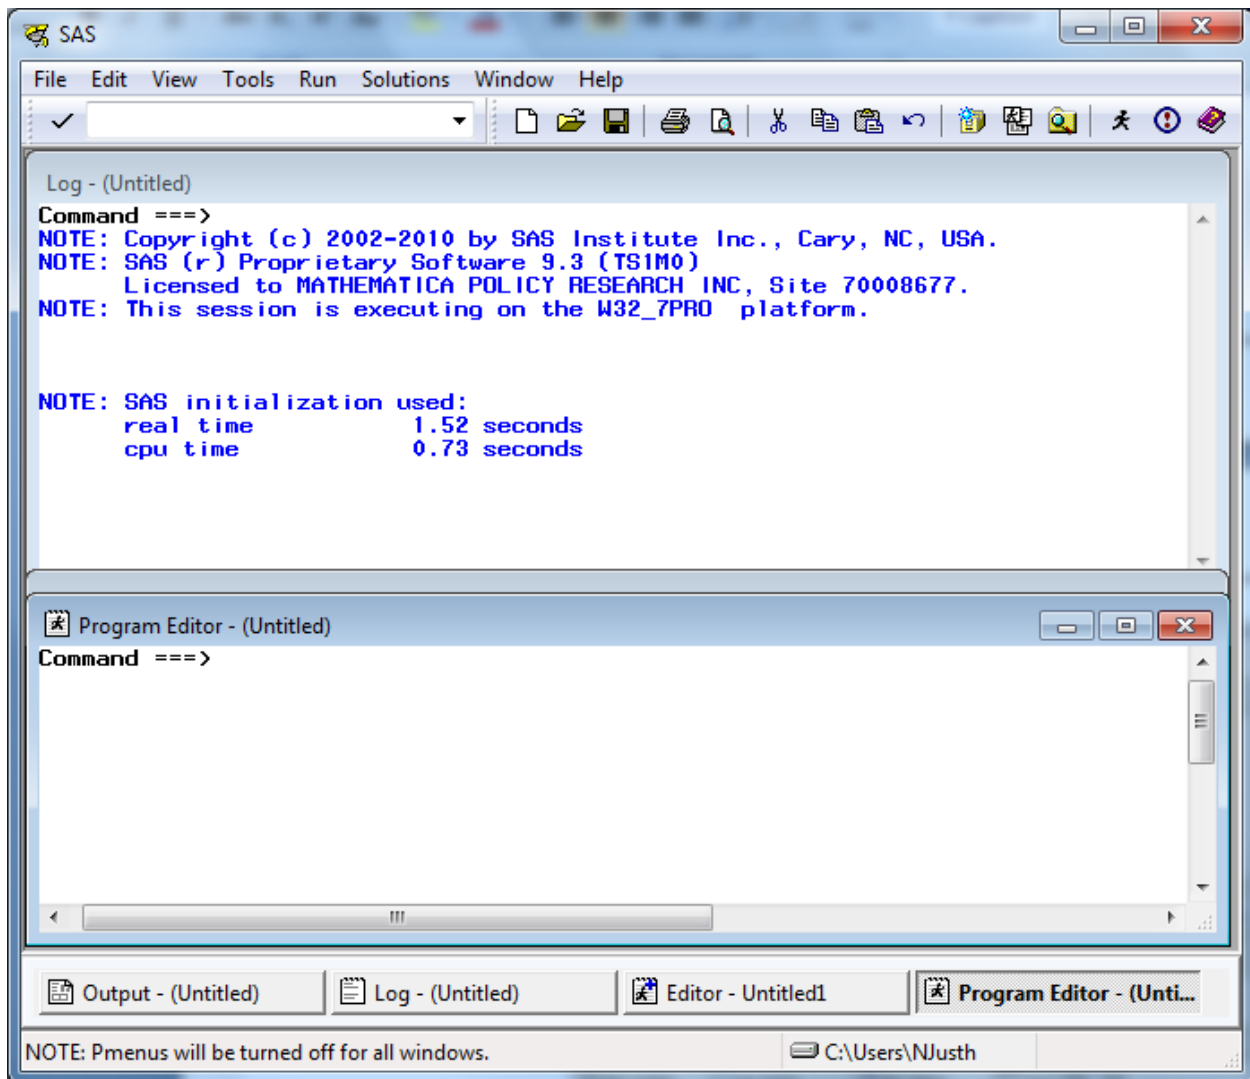

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

Click on OK and a command line will be added as in the screen below.

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allow you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

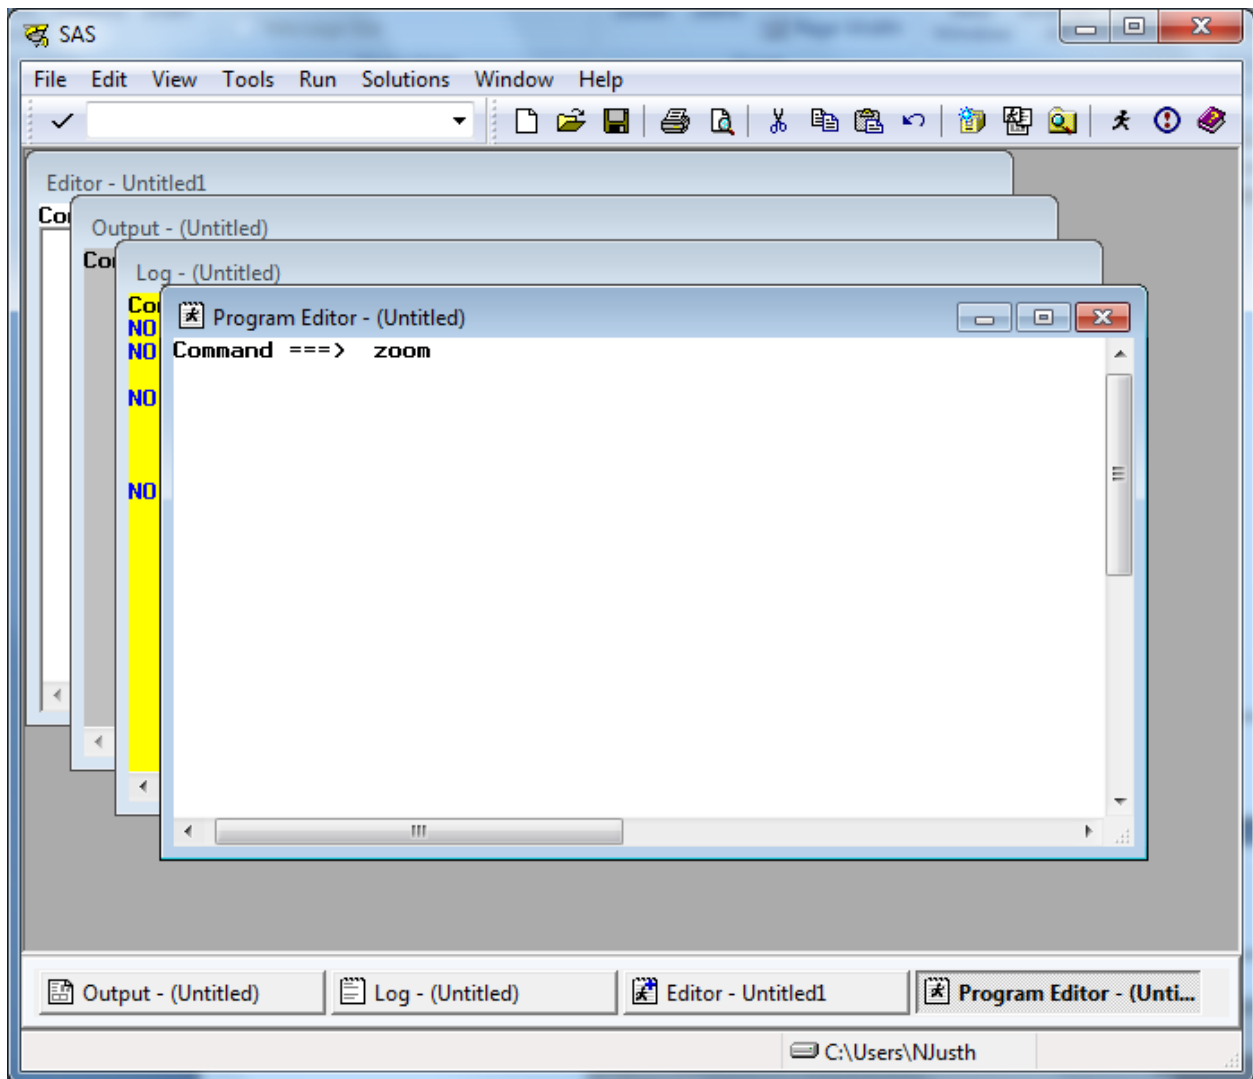

*Cascading* the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option Cascade produces the following result.

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). At the **Command** line type “numbers on” as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

Below is an example of a PROC TABULATE to construct a table of health status and respondent's weight by beneficiary group and gender for respondents in TNEX region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The variables (H14072 and H14065) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

```

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2014';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2014\FMTLIB';
PROC TABULATE DATA=IN.HCS142_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H14072 H14065;
WEIGHT FWT;
TABLE (H14072 H14065)*MEAN, /* Row Dimension */

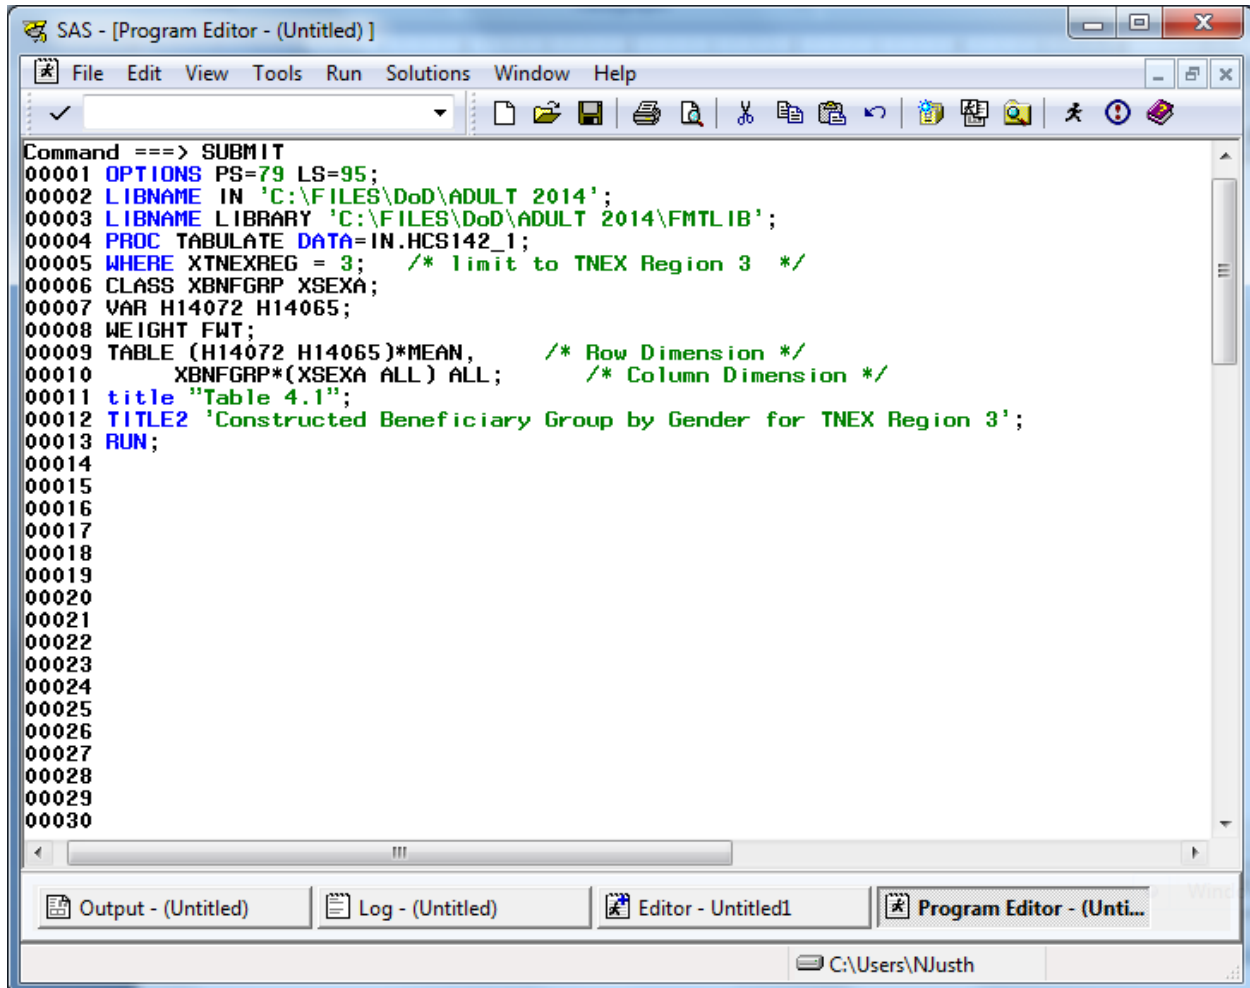

```

```

XBNFGRP*(XSEX A ALL); /* Column Dimension */
TITLE "Table 4.1";
TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;

```

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

The screenshot shows the SAS Program Editor window with the following code:

```

Command ==> SUBMIT
00001 OPTIONS PS=79 LS=95;
00002 LIBNAME IN 'C:\FILES\DoD\ADULT 2014';
00003 LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2014\FMTLIB';
00004 PROC TABULATE DATA=IN.HCS142_1;
00005 WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
00006 CLASS XBNFGRP XSEX A;
00007 VAR H14072 H14065;
00008 WEIGHT FWT;
00009 TABLE (H14072 H14065)*MEAN, /* Row Dimension */
00010 XBNFGRP*(XSEX A ALL); /* Column Dimension */
00011 title "Table 4.1";
00012 TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
00013 RUN;
00014
00015
00016
00017
00018
00019
00020
00021
00022
00023
00024
00025
00026
00027
00028
00029
00030

```

The window also shows the Output, Log, and Editor windows at the bottom, and the user's name 'C:\Users\NJusth' in the bottom right corner.

Enter the Submit command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

```

SAS - [Log - (Untitled)]

NOTE: PROCEDURE TABULATE used (Total process time):
      real time      0.05 seconds
      cpu time       0.06 seconds

```

The variable `FWT` was not found in the dataset. Type **Pgm** on the Command line to return to the Program Editor. Type **Recall** on the Command line and the program statements will reappear in the window.

You can correct the error by entering `FWRWT`, the correct variable name, in the weight statement. Then, rerun the procedure.

The corrected program produces the following output.

Command ==>

Table 4.1      14:35 Tuesday, May 27,  
Constructed Beneficiary Group by Gender for TNEX Region 3

		Beneficiary Group				
		Active Duty <65			Family of Active <65

In gnrl, how would you rate ovrall hlth	Mean	3.43	3.48	3.65

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2014\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is Active Duty; if XBNFGRP equals 2, the respondent is a family member of Active Duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

**FORMAT \_ALL\_;**

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table 4.1, the values of the statistics are of the form xxx.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

**MEAN\*F=6.2**

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP are Active Duty, family members of Active Duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

**XBNFGRP= ' '**

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

**MEAN=’ \*F=6.2**

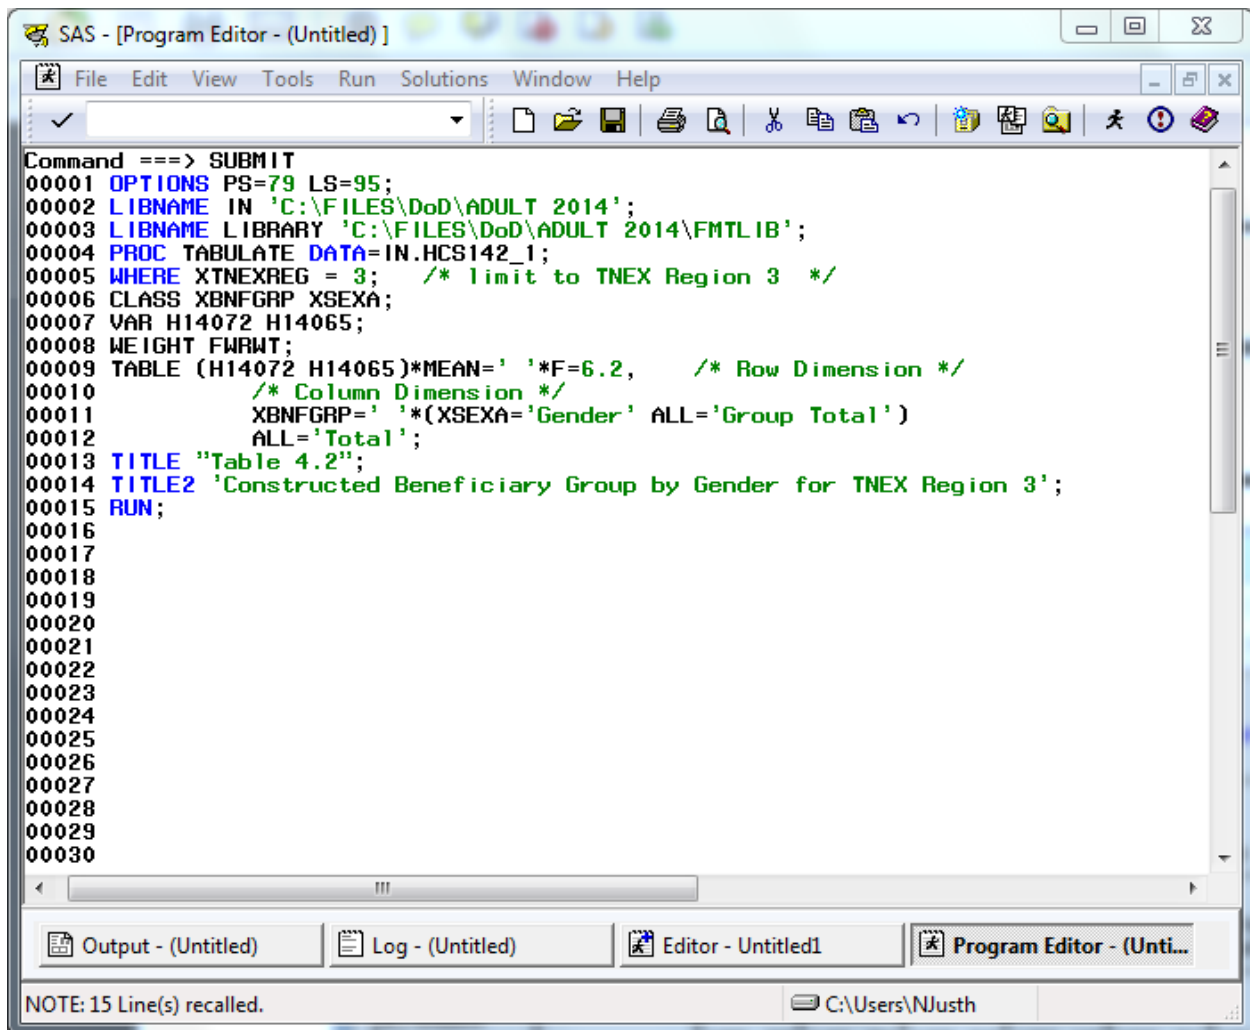

The headings for XSEXA and ALL can be improved:

**XSEXA=’Gender’**  
**ALL=’Group Total’ for the ALL that is crossed with XBNFGRP**  
**ALL=’Total’ for the TNEX Region 3 total**

The new program looks like this:

```
OPTIONS PS=79 LS=95;  
LIBNAME IN 'C:\FILES\DoD\ADULT 2014';  
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2014\FMTLIB';  
PROC TABULATE DATA=IN.HCS142_1;  
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */  
CLASS XBNFGRP XSEXA;  
VAR H14072 H14065;  
WEIGHT FWRWT;  
TABLE (H14072 H14065)*MEAN=’ *F=6.2, /* Row Dimension */  
/* Column Dimension */  
XBNFGRP=’ *(XSEXA=’Gender’ ALL=’Group Total’)  
ALL=’Total’;  
  
TITLE “Table 4.2”;  
TITLE2 ‘Constructed Beneficiary Group by Gender for TNEX Region 3’;  
RUN;
```

Typing these statements into the Program Window produces the following screen.

```
Command ==> SUBMIT
00001  OPTIONS PS=79 LS=95;
00002  LIBNAME IN 'C:\FILES\DoD\ADULT 2014';
00003  LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2014\FMTLIB';
00004  PROC TABULATE DATA=IN.HCS142_1;
00005  WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
00006  CLASS XBNFGRP XSEX;
00007  VAR H14072 H14065;
00008  WEIGHT FWRMT;
00009  TABLE (H14072 H14065)*MEAN= ' *F=6.2, /* Row Dimension */
00010          /* Column Dimension */
00011          XBNFGRP= ' *(XSEX='Gender' ALL='Group Total')
00012          ALL='Total';
00013  TITLE "Table 4.2";
00014  TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';

(Continued)

Output - (Untitled) | Log - (Untitled) | Editor - Untitled1 | Program Editor - (Unfitl... | C:\Users\NJusth

The resulting output is in Table 4.2.

Table 4.2  
Constructed Beneficiary Group by Gender for TNEX Region 3

	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65			Ret/S- urv/F- am 65+
	Gender		Group Total	Gender		Group Total	Gender		Group Total	Gender Male
	Male	Female		Male	Female		Male	Female		
Weight without shoes	183.80	143.64	175.81	191.74	148.87	151.59	199.80	160.16	177.81	198.28
In gnrl, how would you rate ovrall hlth	3.83	3.84	3.83	3.80	3.93	3.92	3.53	3.54	3.53	3.53

(Continued)

Table 4.2  
Constructed Beneficiary Group by Gender for TNEX Region 3

	Ret/Surv/Fam 65+		Group Total	Total
	Gender			
	Female	Total		
Weight without shoes	150.37	176.97	172.93	
In gnrl, how would you rate ovrall hlth	3.43	3.48	3.65	

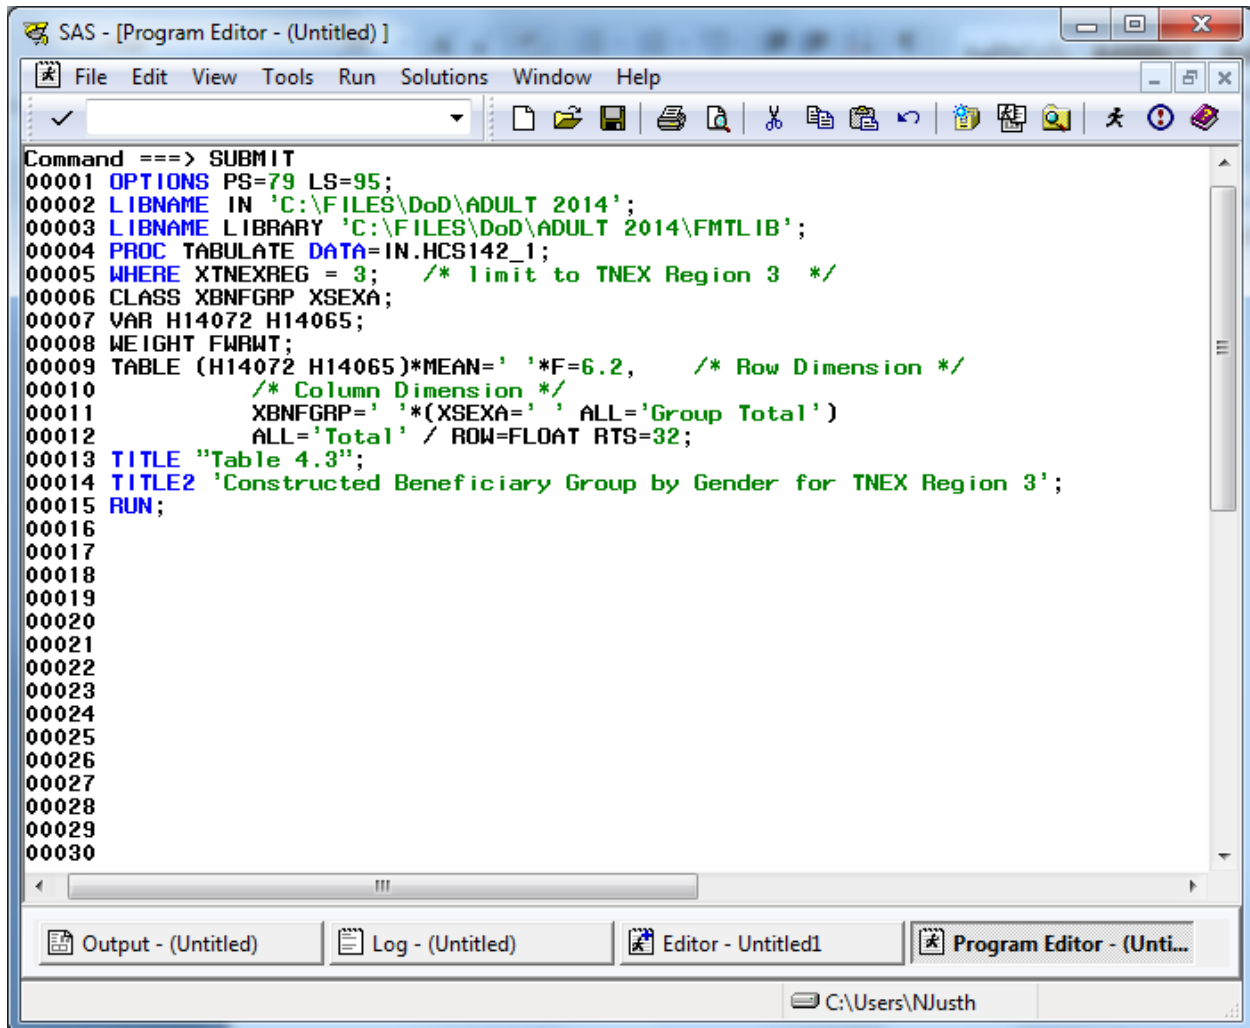

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2014';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2014\FMTLIB';
PROC TABULATE DATA=IN.HCS142_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H14072 H14065;
WEIGHT FWRWT;
TABLE (H14072 H14065)*MEAN=' *F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP=' *(XSEXA=' ' ALL='Group Total')
ALL='Total' / ROW=FLOAT RTS=32;
    
```

```
TITLE "Table 4.3";
TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;
```

Typed into the Program Window, the revised program appears as follows.

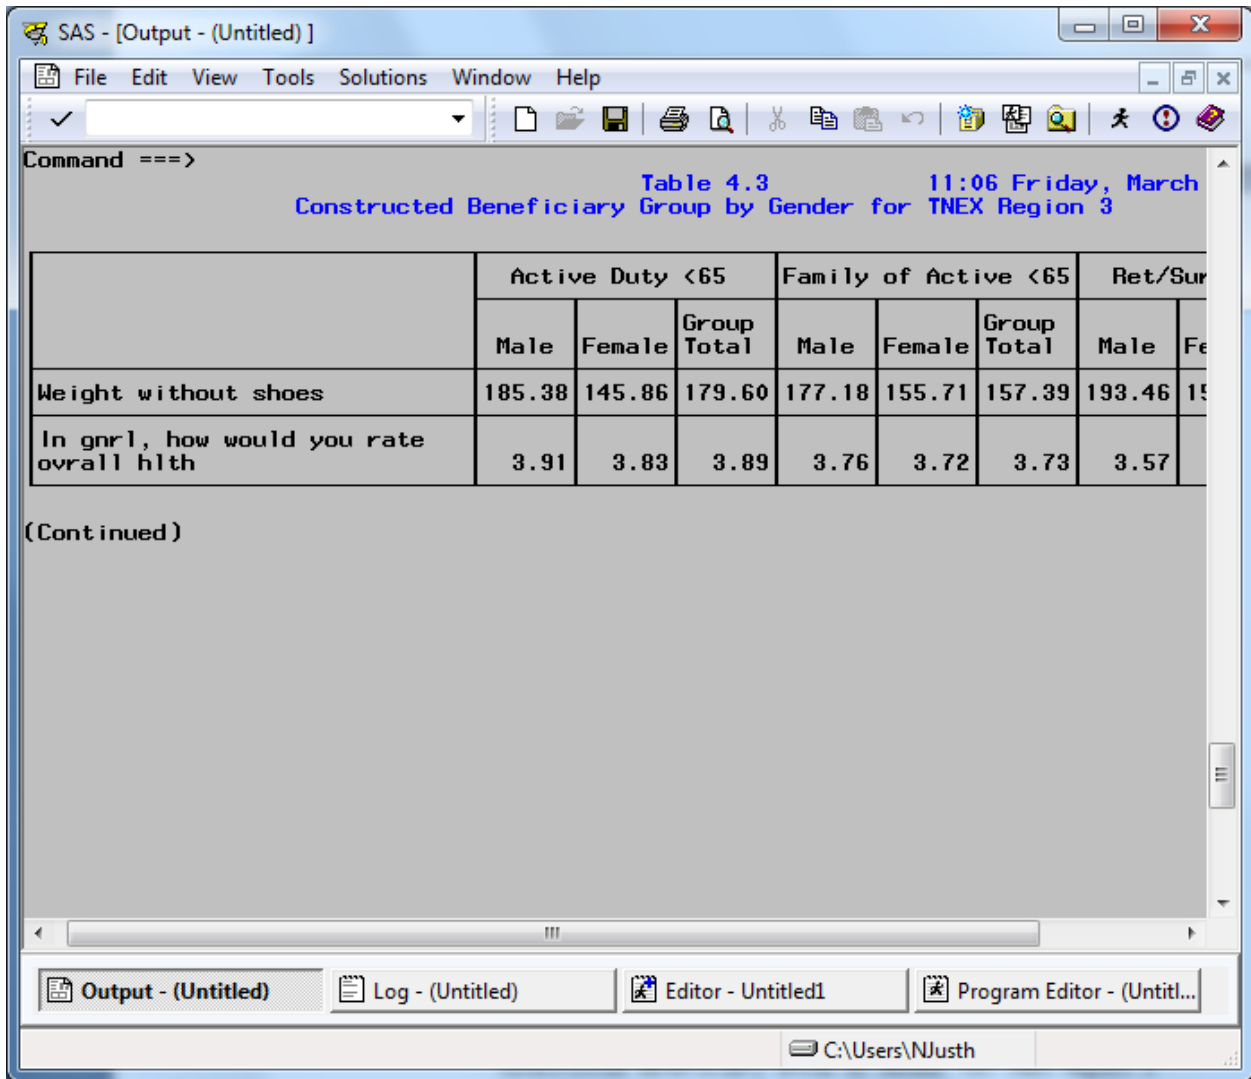

The screenshot shows the SAS Program Editor window with the following code:

```
Command ==> SUBMIT
00001  OPTIONS PS=79 LS=95;
00002  LIBNAME IN 'C:\FILES\DoD\ADULT 2014';
00003  LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2014\FMTLIB';
00004  PROC TABULATE DATA=IN.HCS142_1;

In gnr1, how would you rate ovrall hlth	3.53	3.43	3.48	3.65

### Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all *class* variables that define the *row*. For example, if you want to look at the percentage of people in region 2 and each branch of service who answered yes (or no) to variable H14052, 'Have you ever smoked at least 100 cigarettes in your entire life?', your TABLE statement in the TABULATE procedure would look like this:

```
WHERE XTNEXREG = 2;
TABLE H14052 ALL='Total',
(All='Service Total' SVCSMPL)*PCTN<H14052 ALL>='Percent';
```

Table 4.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

The screenshot shows the SAS Program Editor window with the following code:

```
Command ==> SUBMIT
00001  OPTIONS PS=79 LS=95;
00002  LIBNAME IN 'C:\FILES\DoD\ADULT 2014';
00003  LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2014\FMTLIB';
00004  PROC TABULATE DATA=IN.HCS142_1;
00005  WHERE XTNEXREG = 2; /* limit to Region 2 */
00006  CLASS H14052 SVCSMPL;
00007  WEIGHT FWRWT;
00008  TABLE H14052 ALL='Total',
00009  (ALL='Region Total' SVCSMPL=' ')*
00010  (N=' '*F=5.0 PCTN<H14052 ALL>='% '*F=6.2)
00011  /RTS=25;
00012  TITLE "Table 4.4";
00013  TITLE2 'Have You Ever Smoked At Least 100 Cigarettes In Your Entire Life';
00014  TITLE3 'for Service Branches within TNEX Region 2';

Total	83	100.00	23	100.00

The statistic N is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table 4.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

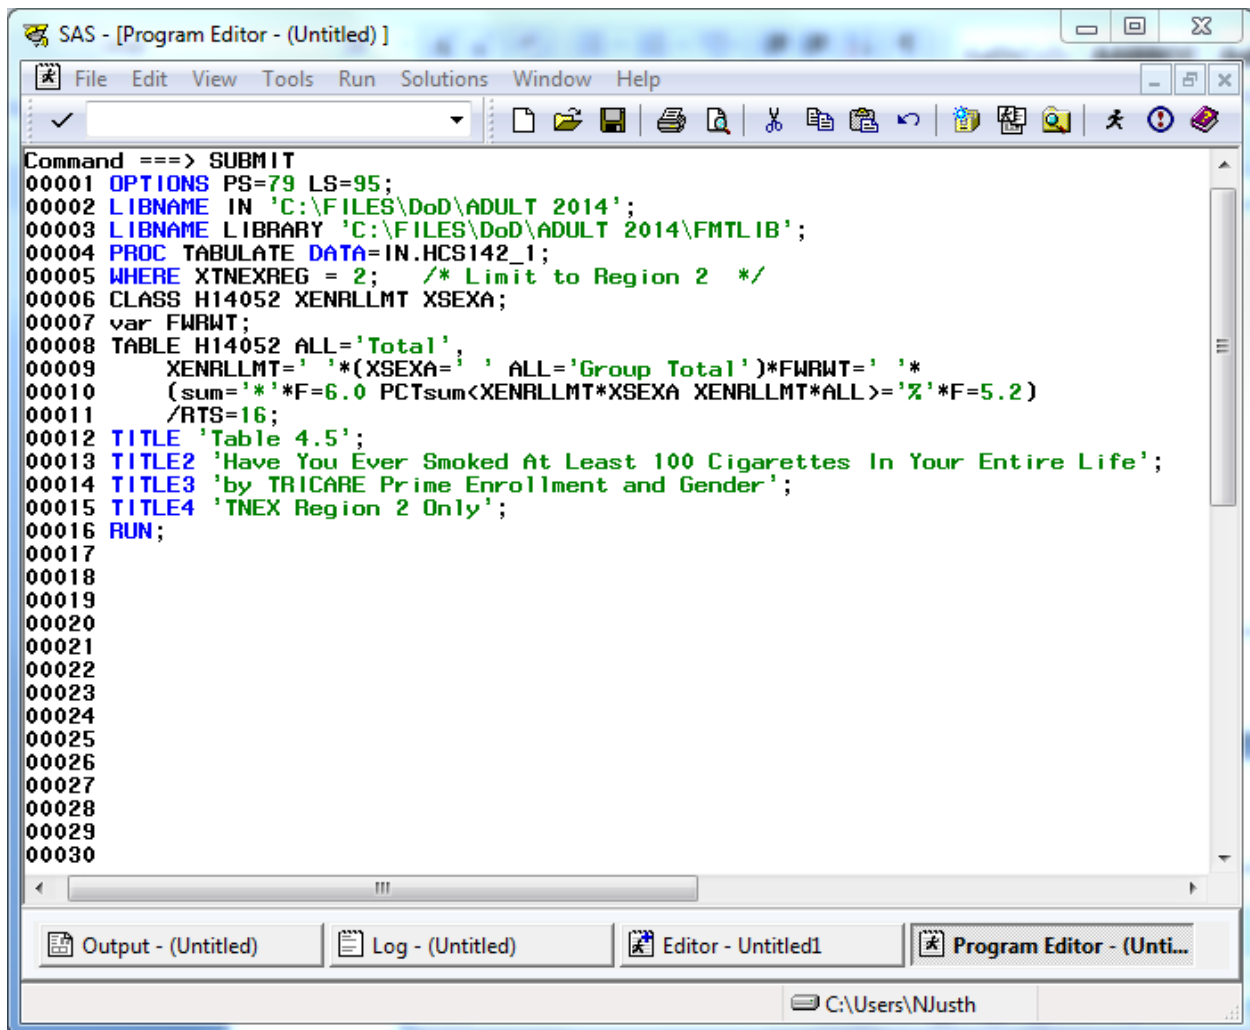

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report having smoked at least 100 cigarettes in their lifetime, this would be a row percentage. To calculate a row percentage, the denominator definition must include all *class* variables that define the *column*. Your TABLE statement would look like this:

```
TABLE H14052 ALL='Total',
XENRLLMT *(XSEXA=' ' All='Group Total')*
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';
```

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include FWRWT (the 2014 quarterly weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table 4.5.

The following screen shows the new program typed into the Program Editor.

```

### HOW TO MAKE A TABLE USING SPSS

The Quarter II, 2014 Adult HCSDB dataset is in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

### Locating and opening the data file

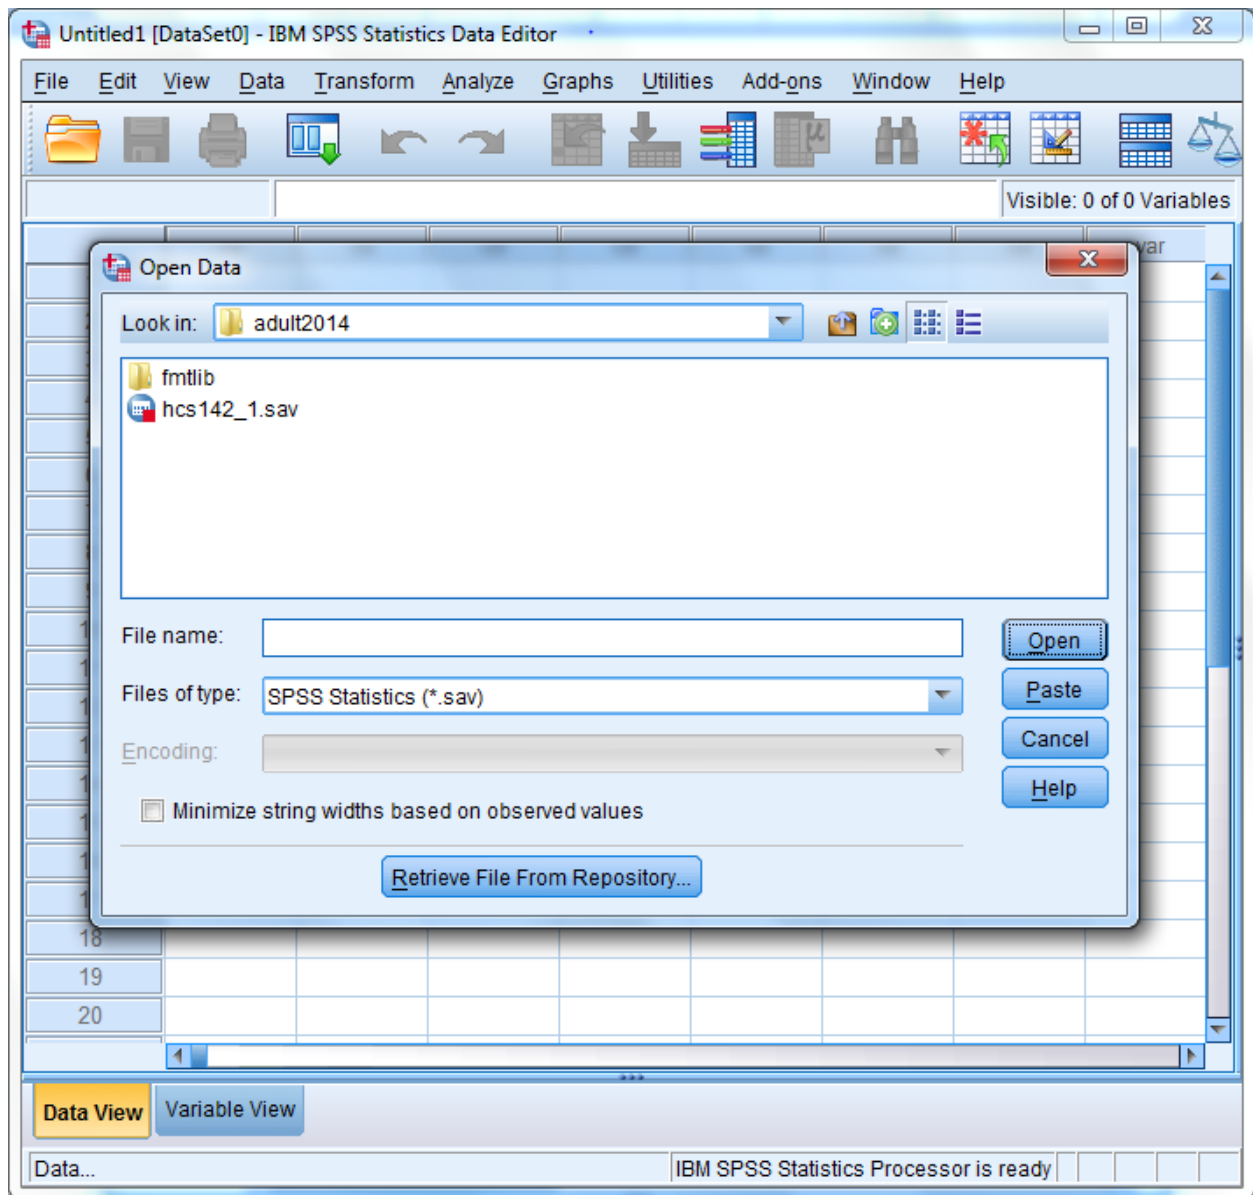

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a spreadsheet with a dialog box. Click Cancel in the bottom right corner to close the dialog box and a blank spreadsheet will appear:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** and **data** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The Quarter II, 2014 Adult HCSDB dataset has been opened and is displayed below.

hcs142\_1.sav [DataSet1] - IBM SPSS Statistics Data Editor

Data View Variable View

IBM SPSS Statistics Processor is ready

### Constructing new variables

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

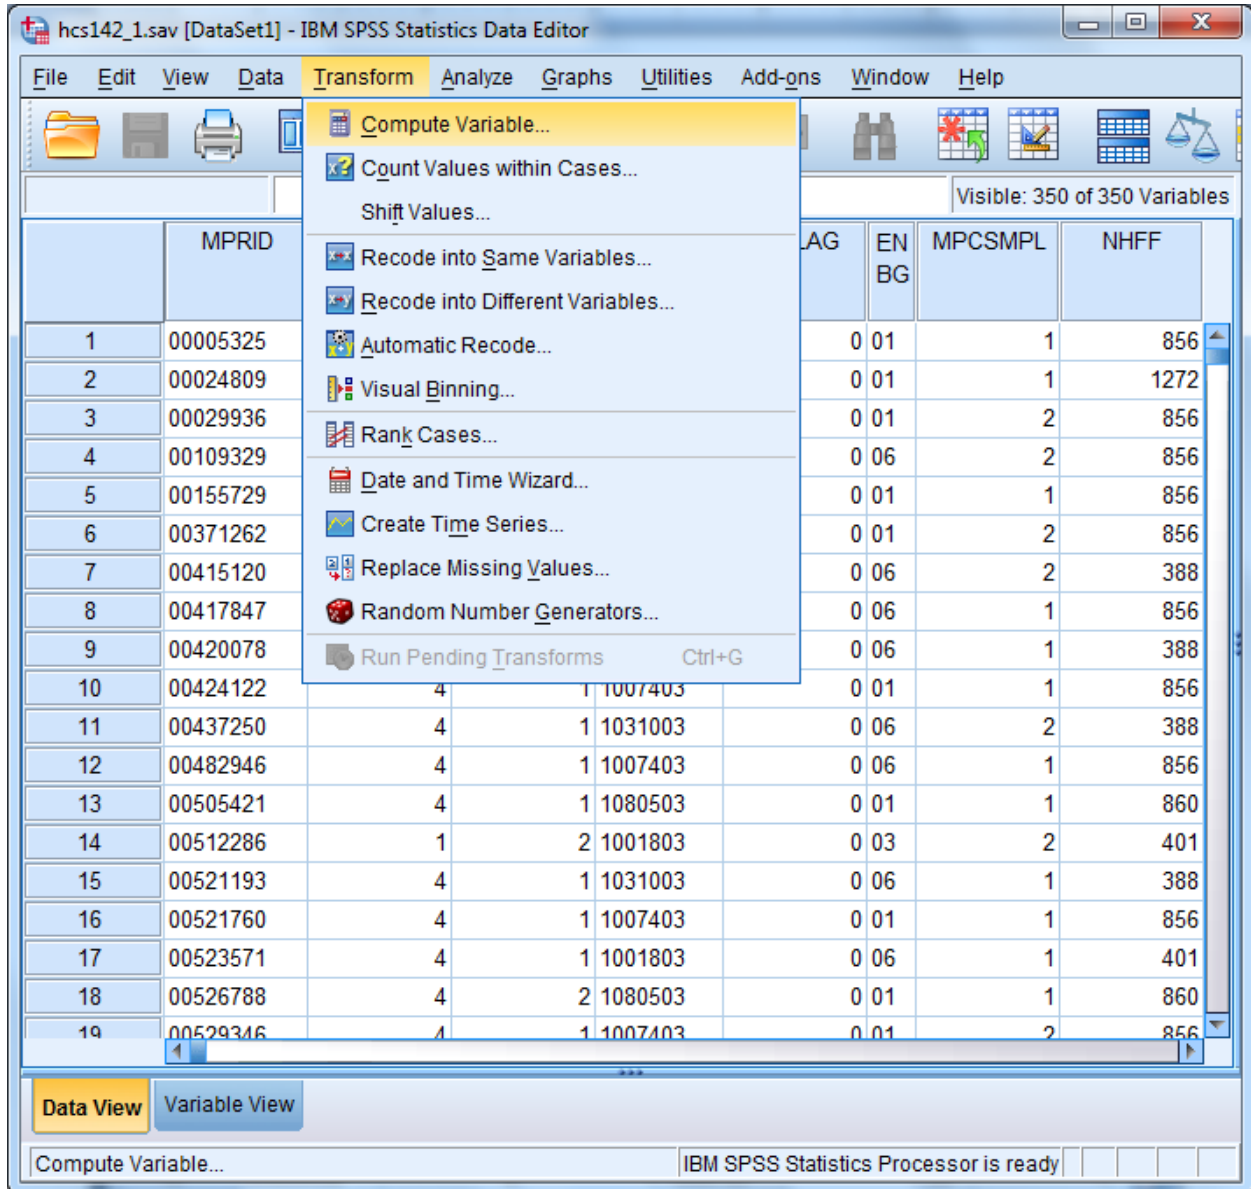

For example, the variable in the file for beneficiary group at the time of sampling is called `xbnfgrp`, and the variable for sex is `xsexa`. The value 1 for `xbnfgrp` indicates that the individual is on Active Duty. The relationships for constructing a new variable of Active Duty by sex are:

Active Duty-males: ***XSEXA=1 and XBNFGRP=1***

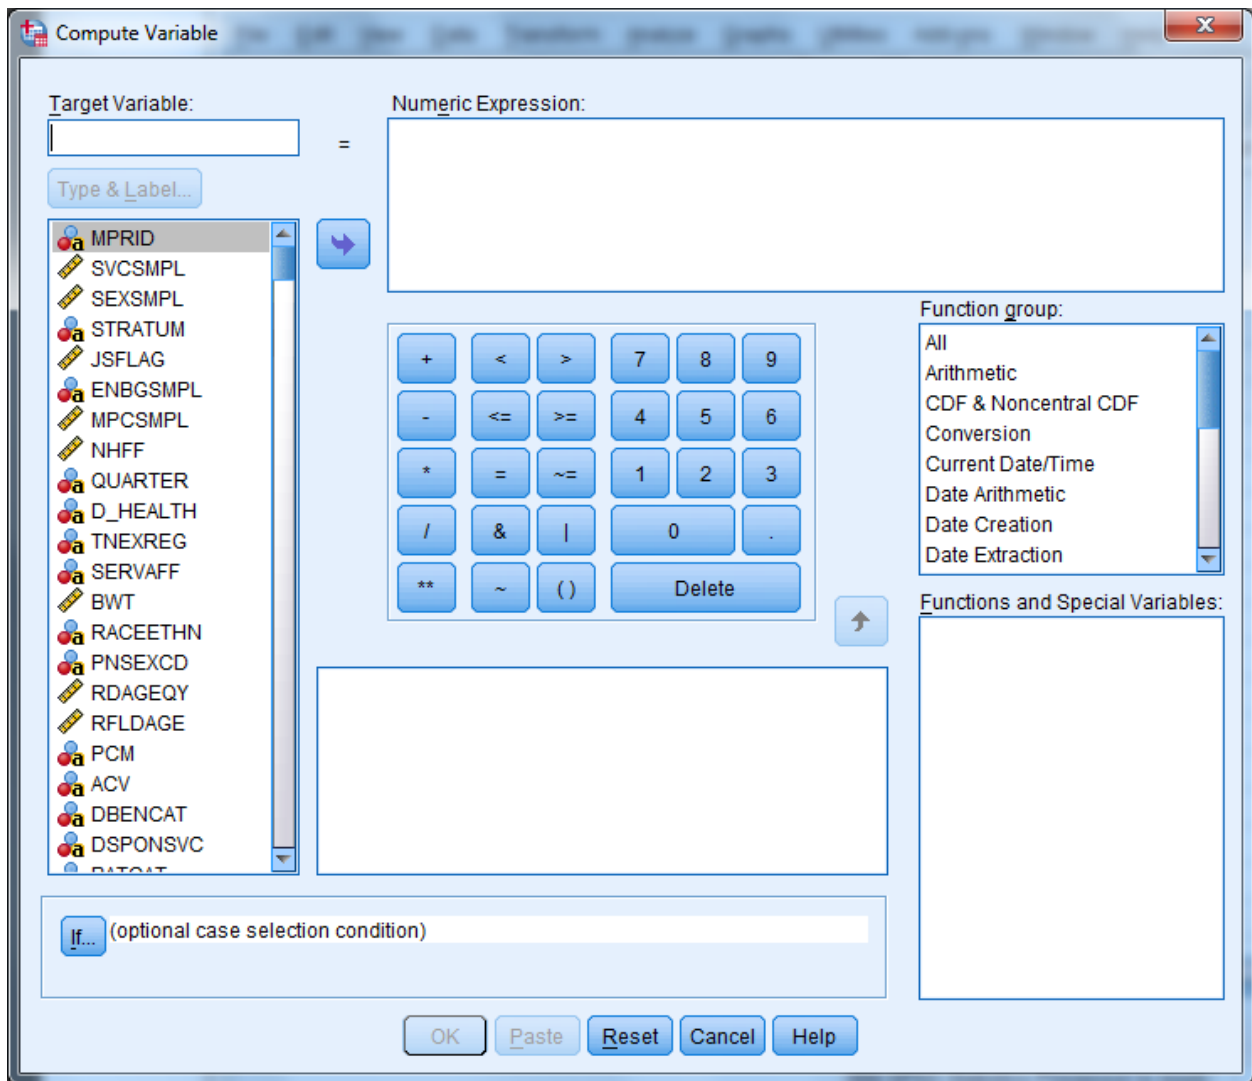

Active Duty-females: ***XSEXA=2 and XBNFGRP=1***

Open the Transform menu and select Compute Variable as in the following:

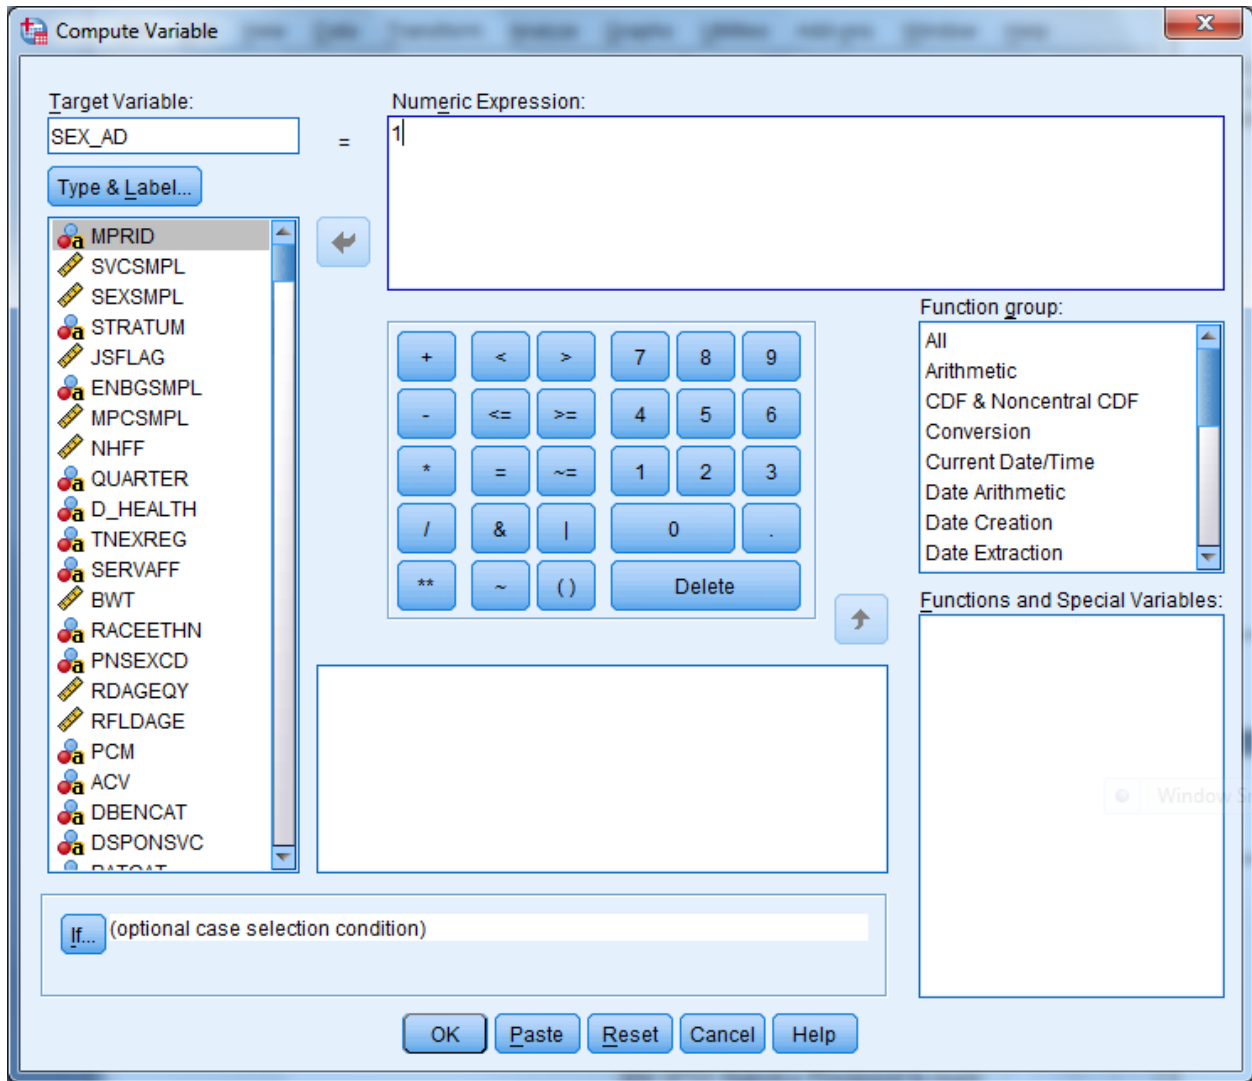

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable sex\_ad. Next, assign the value 1 to sex\_ad by entering it into the slot for Numeric Expression. Your screen should look like the following:

Once you we have assigned the value 1 to sex\_ad, you can build the condition that qualifies the assignment. Click on If and open the following dialog box:

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the “if” condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements `xsex = 1 & xbnfgrp = 1`.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable `sex_ad` will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply assign the value 2 to `sex_ad`, press If, and enter the new condition to identify Active Duty females. Click Continue, and finish with OK. The condition, if `xsexa = 2` and `xbnfgrp = 1`, will be added to the new variable `sex_ad`.

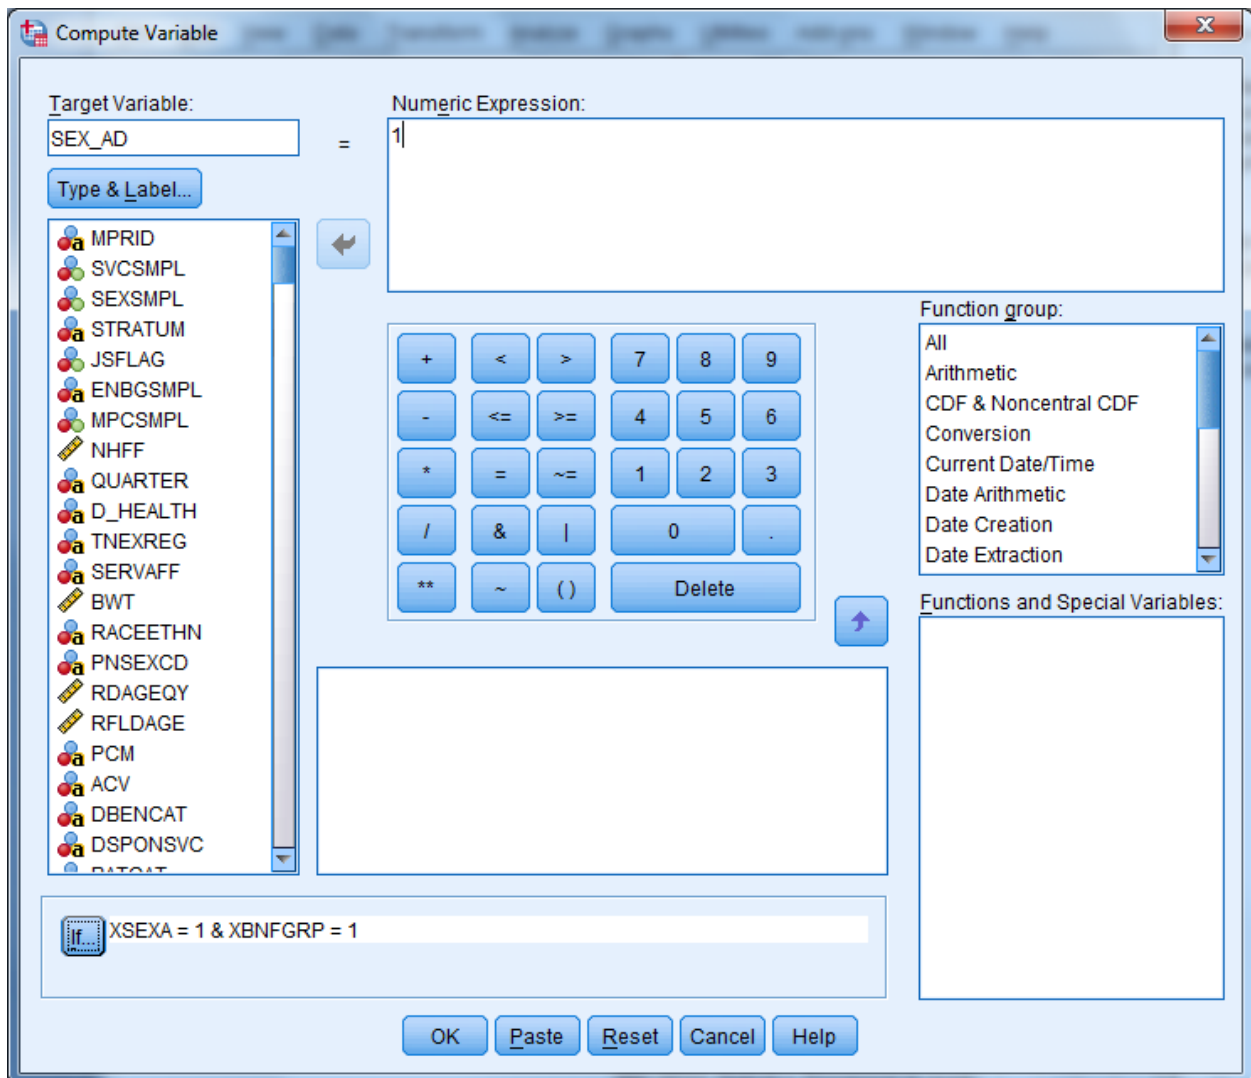

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

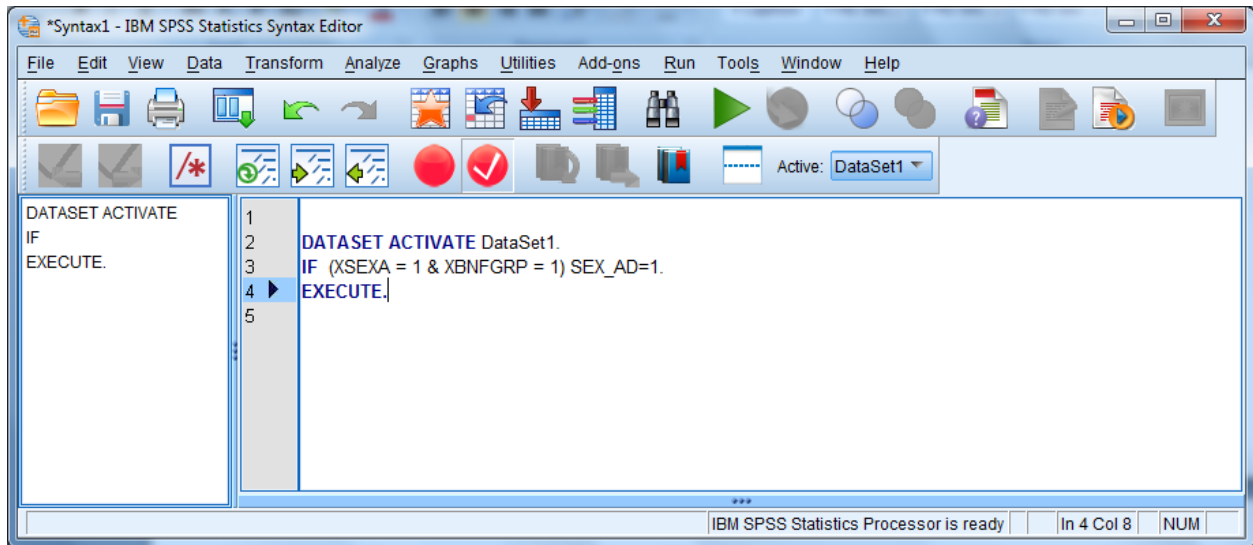

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

Recall the compute example for the new variable sex\_ad. The screen below is the result of assigning 1 to sex\_ad according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

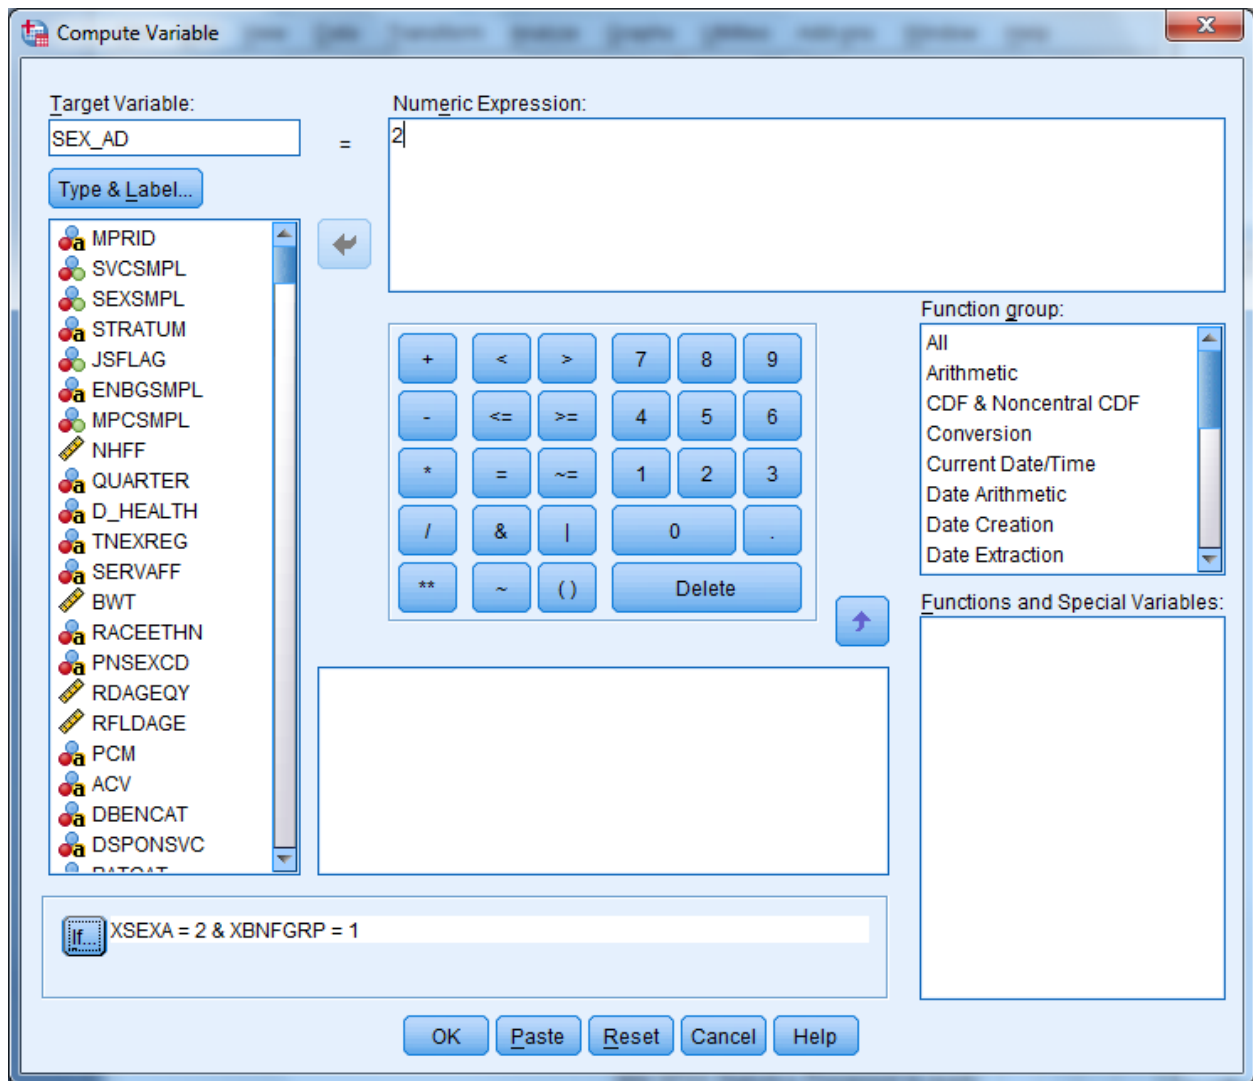

Click on the Paste button. A dialog box that says “Change existing variable?” will pop up. Click on OK, and the syntax window below will open with the syntax written in it.

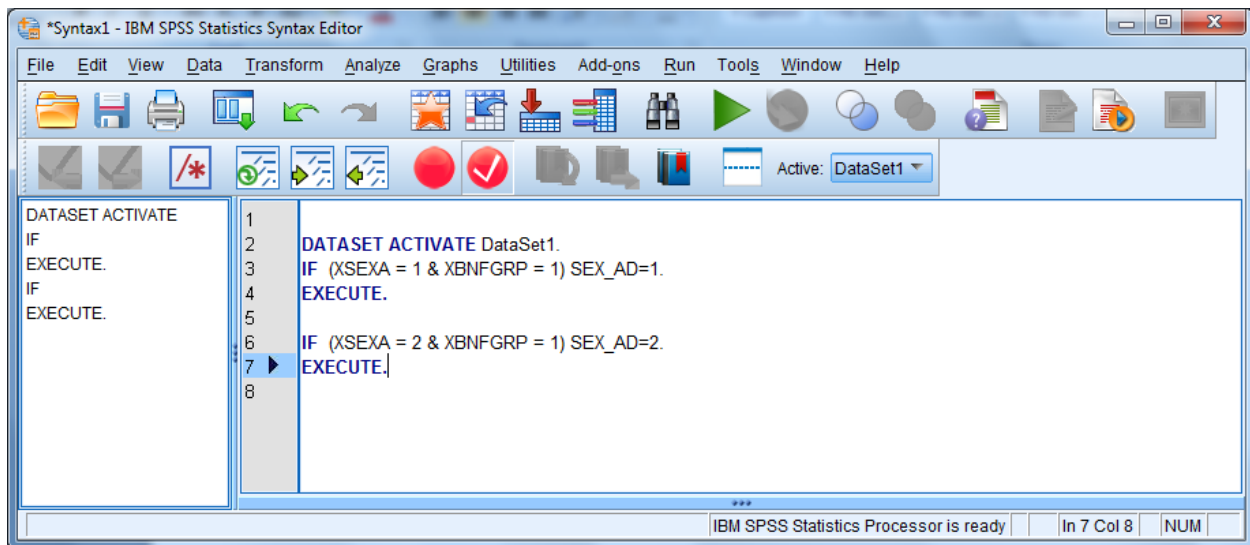

Now return to the compute dialog box.

Assign the value **2** to **sex\_ad** and build the “**if**” condition as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New\_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **RFLDAGE**, which exists on our dataset. **RFLDAGE** is coded in years from 18 to 86, which can be grouped into four age categories:

18 to 34 = 1 - label: "young adult"

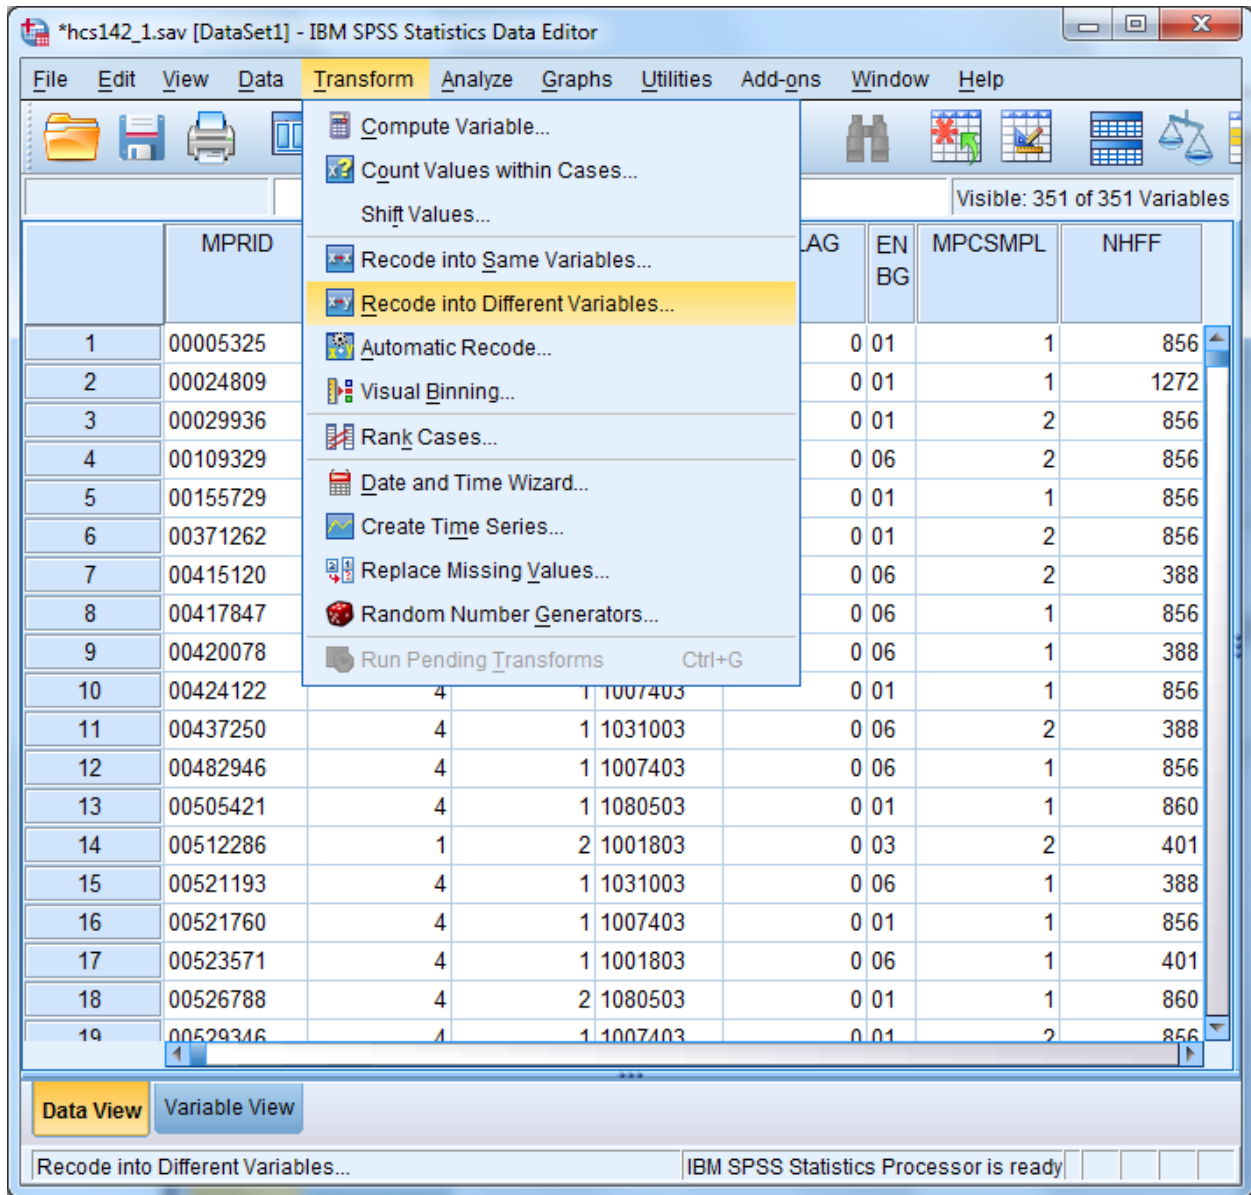

35 to 49 = 2 - label: "mature adult"

50 to 65 = 3 – label: "middle-age"

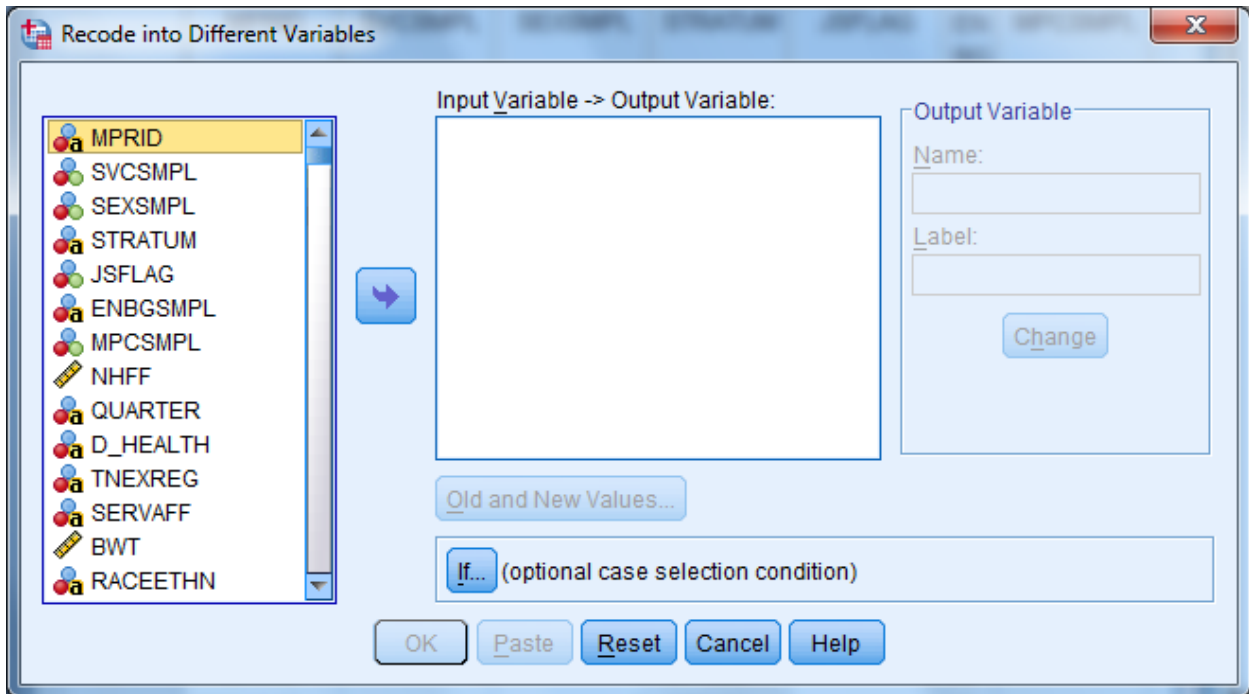

66 to 86 = 4 – label: "senior citizen"

The new variable is called **age\_grp**.

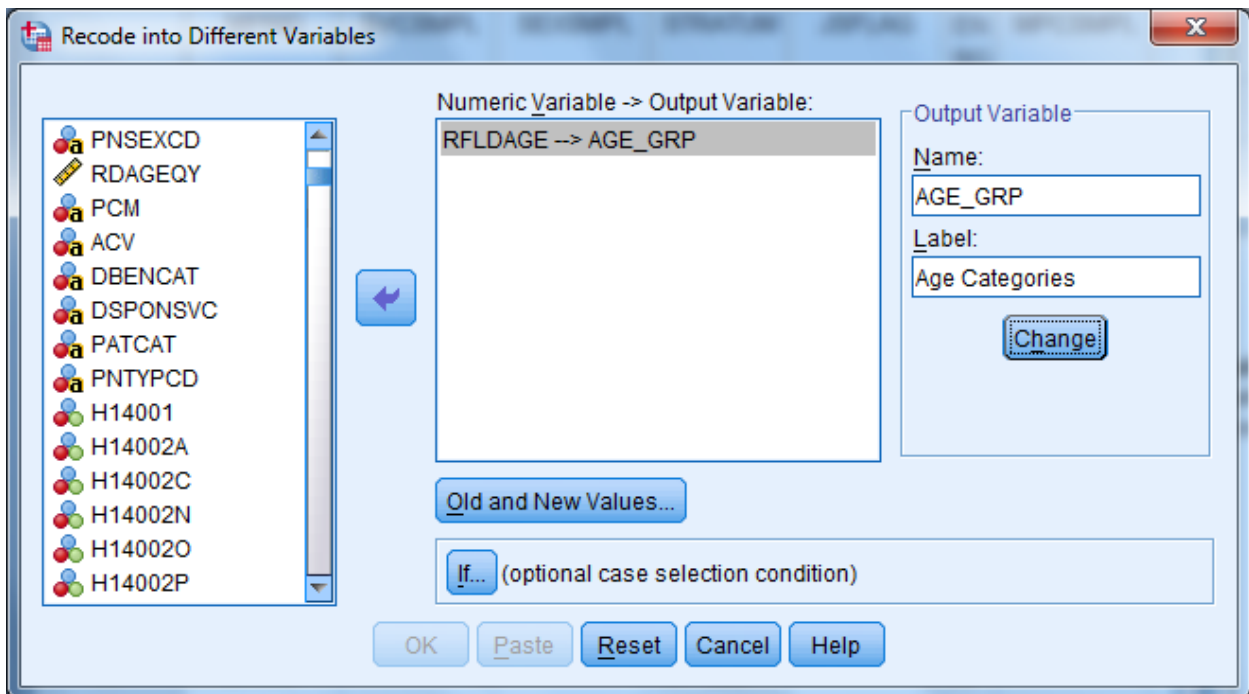

From the **Transform** menu, choose **Recode Into Different Variables** as pictured below:

The following dialog box will open:

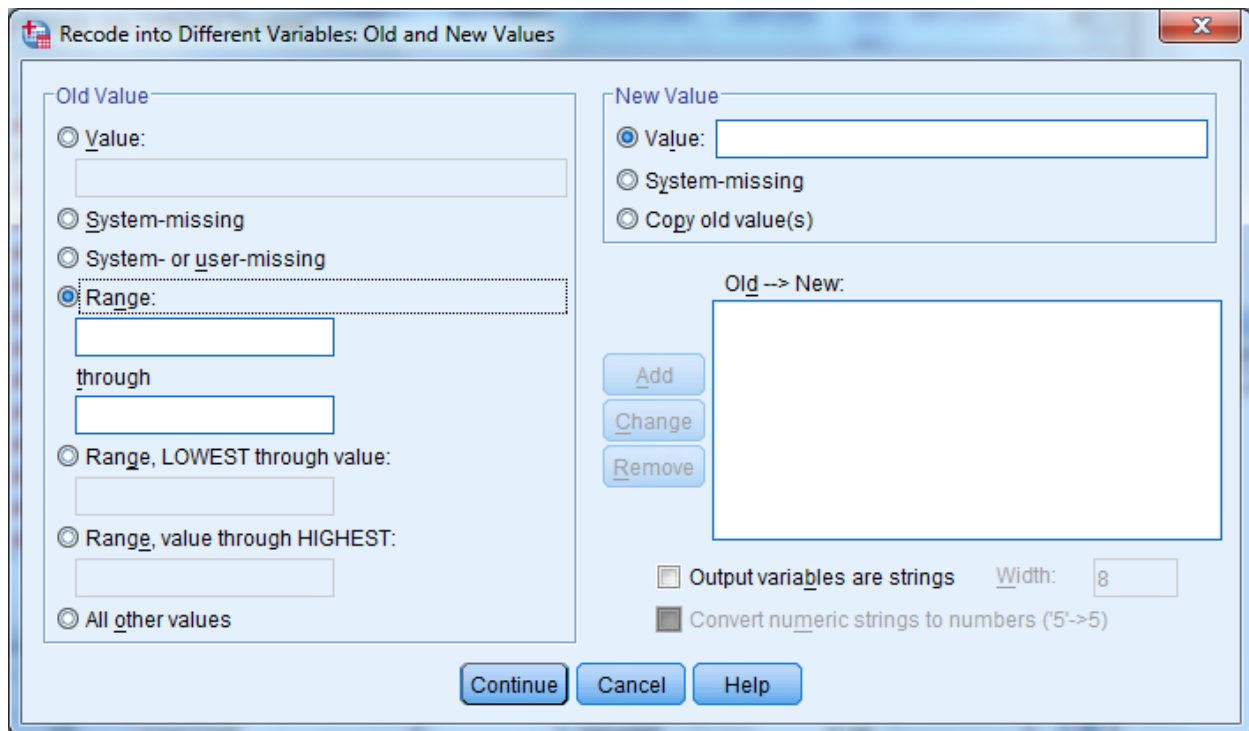

Move **RFLDAGE** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age\_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

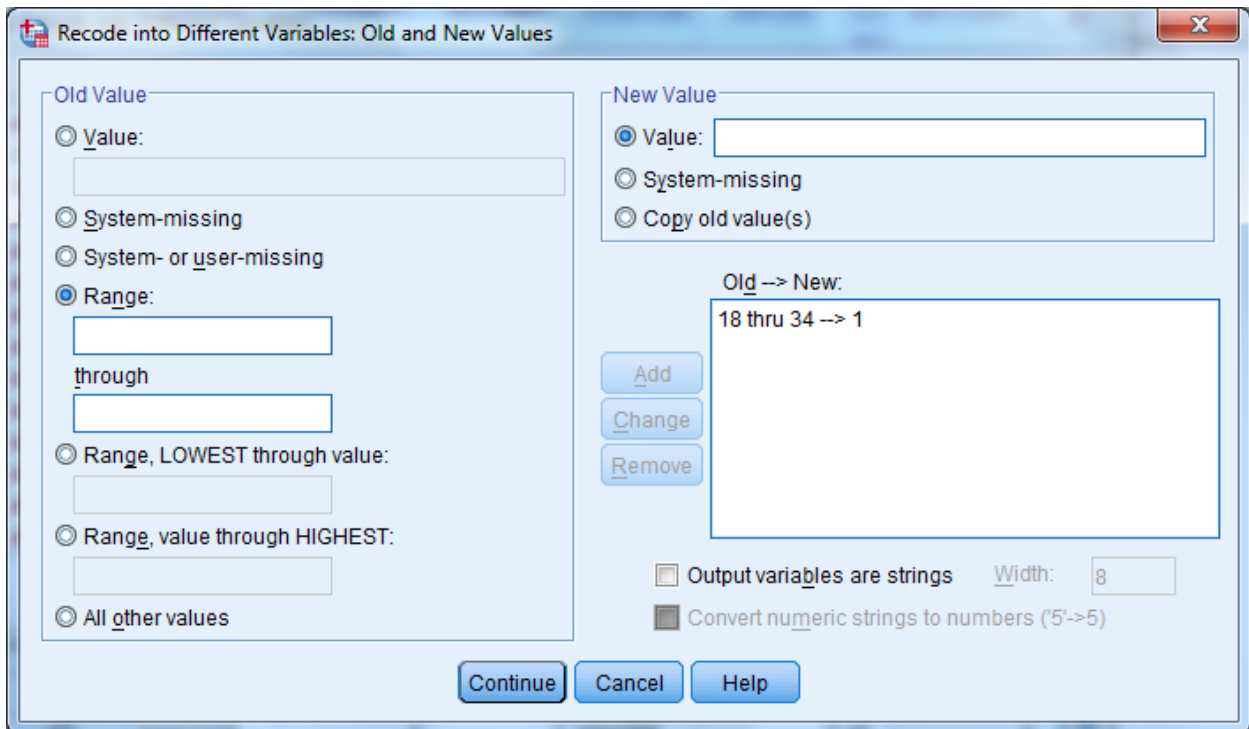

The image shows the 'Recode into Different Variables: Old and New Values' dialog box in SPSS. The 'Old Value' section has the 'Range:' radio button selected. The 'New Value' section has the 'Value:' radio button selected. The 'Add' button is highlighted. The 'Output variables are strings' checkbox is checked, and the 'Width' is set to 8. The 'Convert numeric strings to numbers' checkbox is unchecked. The 'Continue', 'Cancel', and 'Help' buttons are at the bottom.

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 **through** 34 in the slots provided under **Range**. Next, enter the value 1 in the **Value** slot under **New Value**. **Add** is now illuminated.

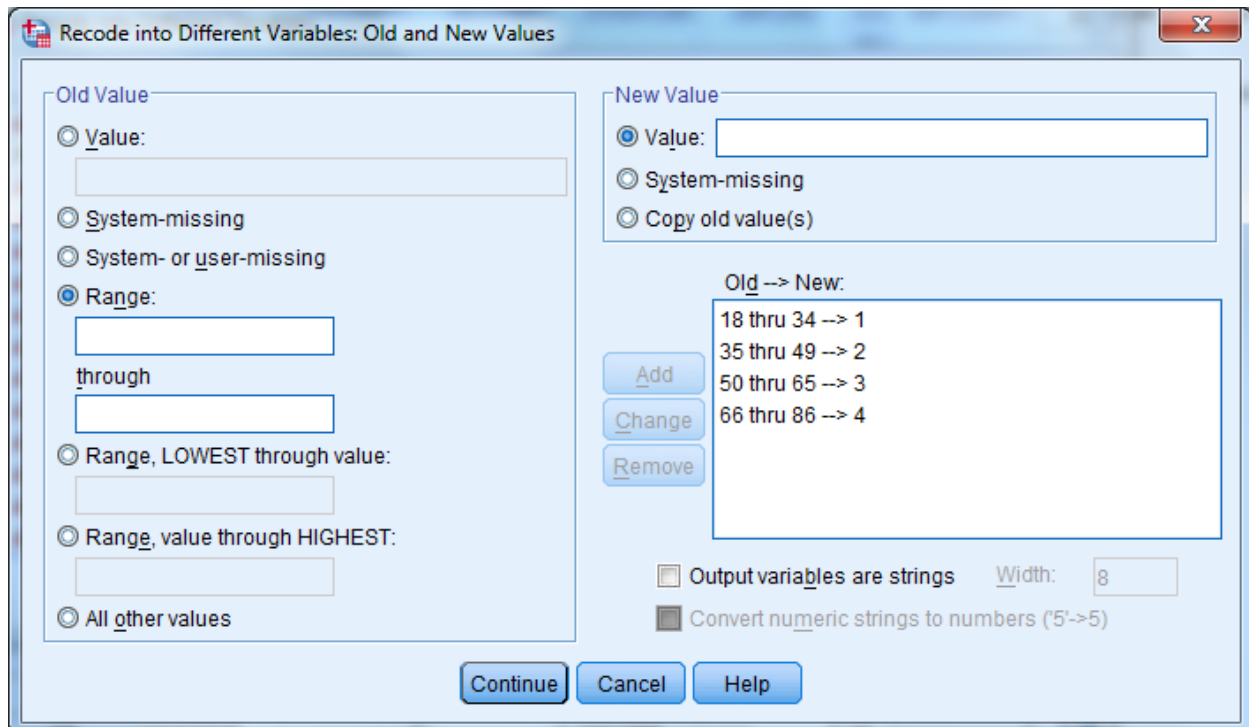

Clicking on Add produces the following result:

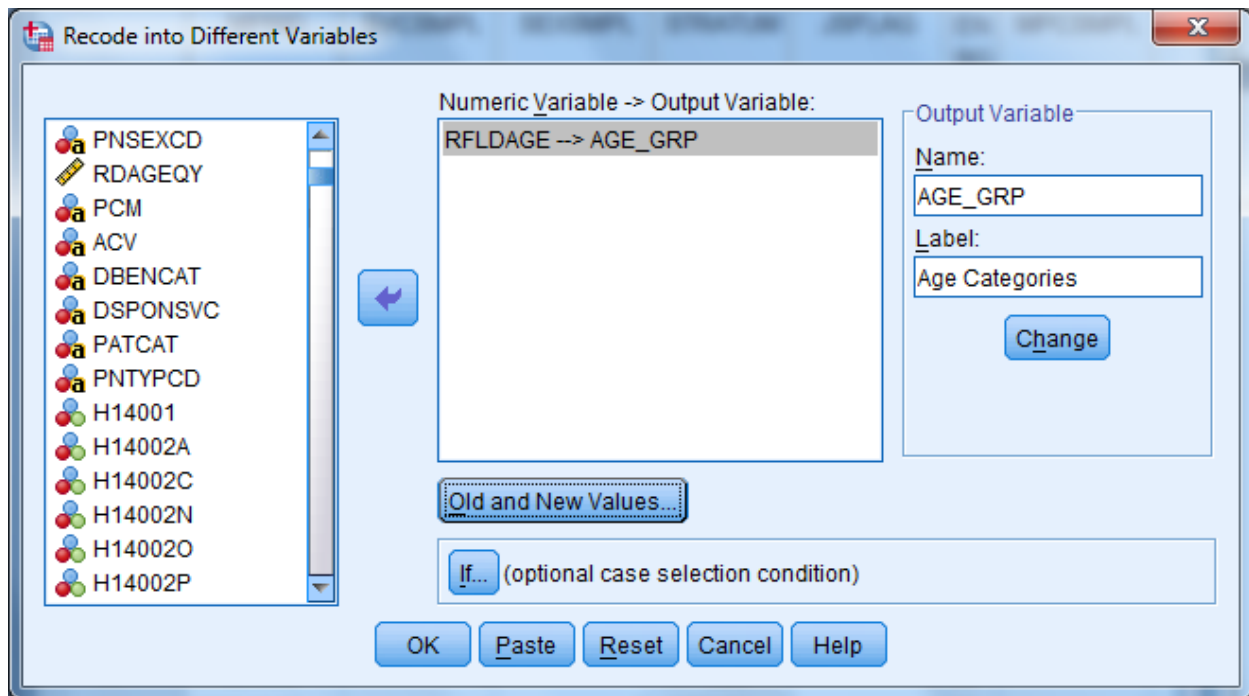

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

Click on Continue and return to the previous screen.

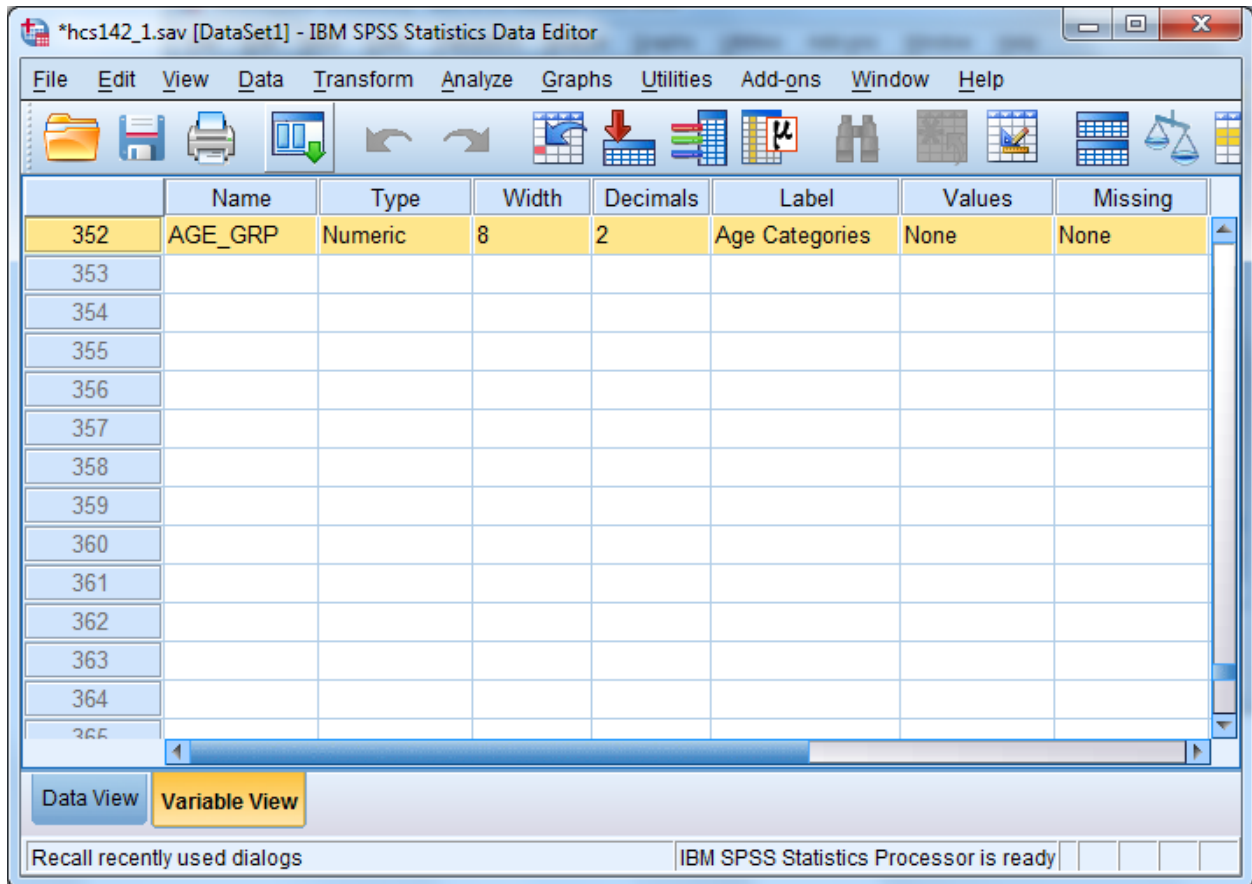

Click on **OK** to exit the screen. The new variable **age\_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

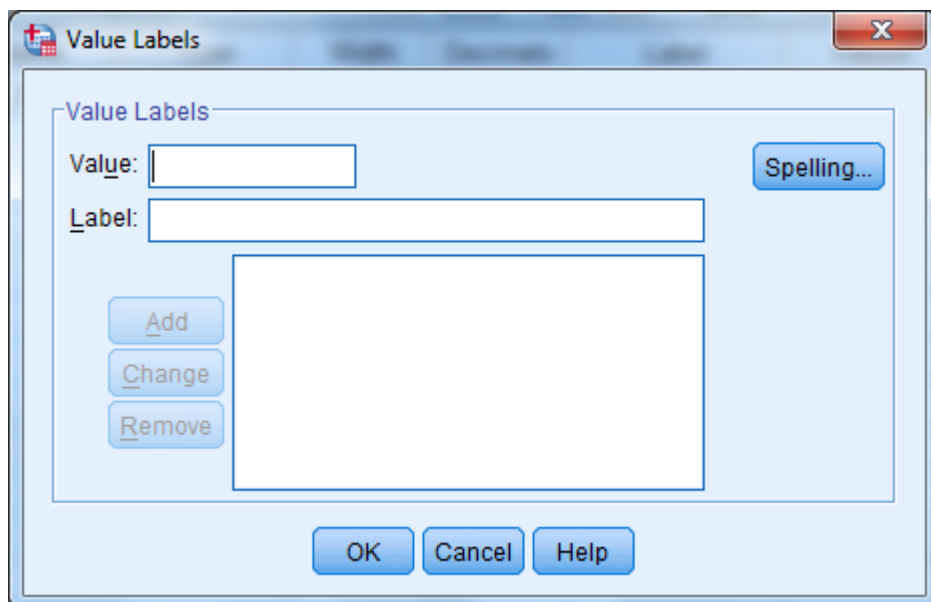

The final task is to create the value labels for the new variable **age\_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age\_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

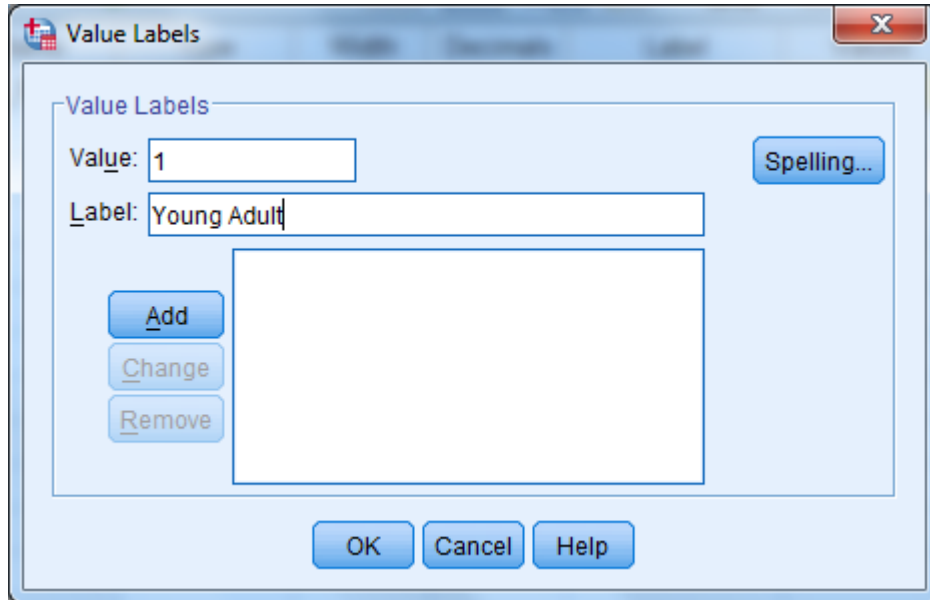

The variable **age\_grp** is shown with its attributes.

Click in the cell under **Values** and the following dialog box will open:

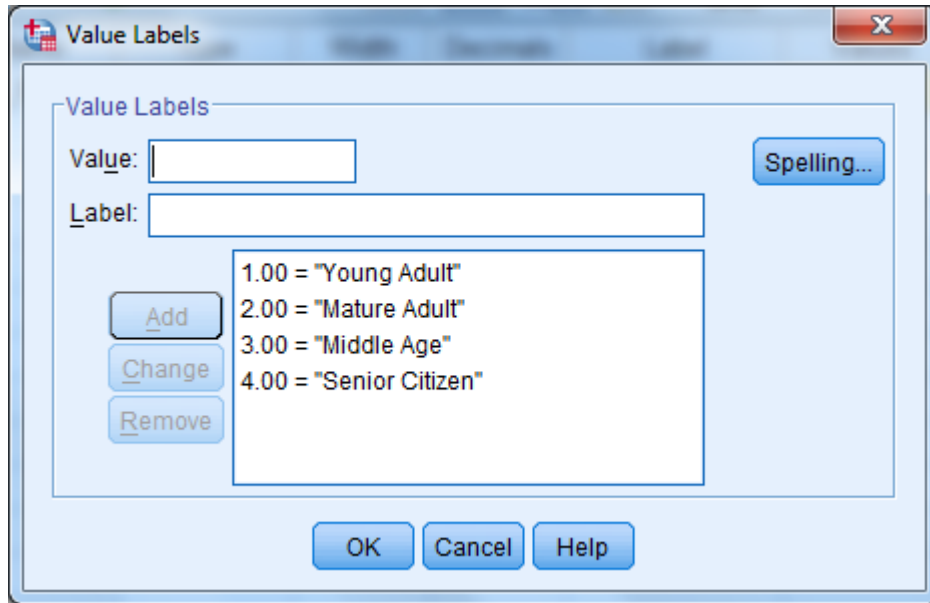

You can then begin to label the *values* of **age\_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked Value Label. The screen will look like the following:

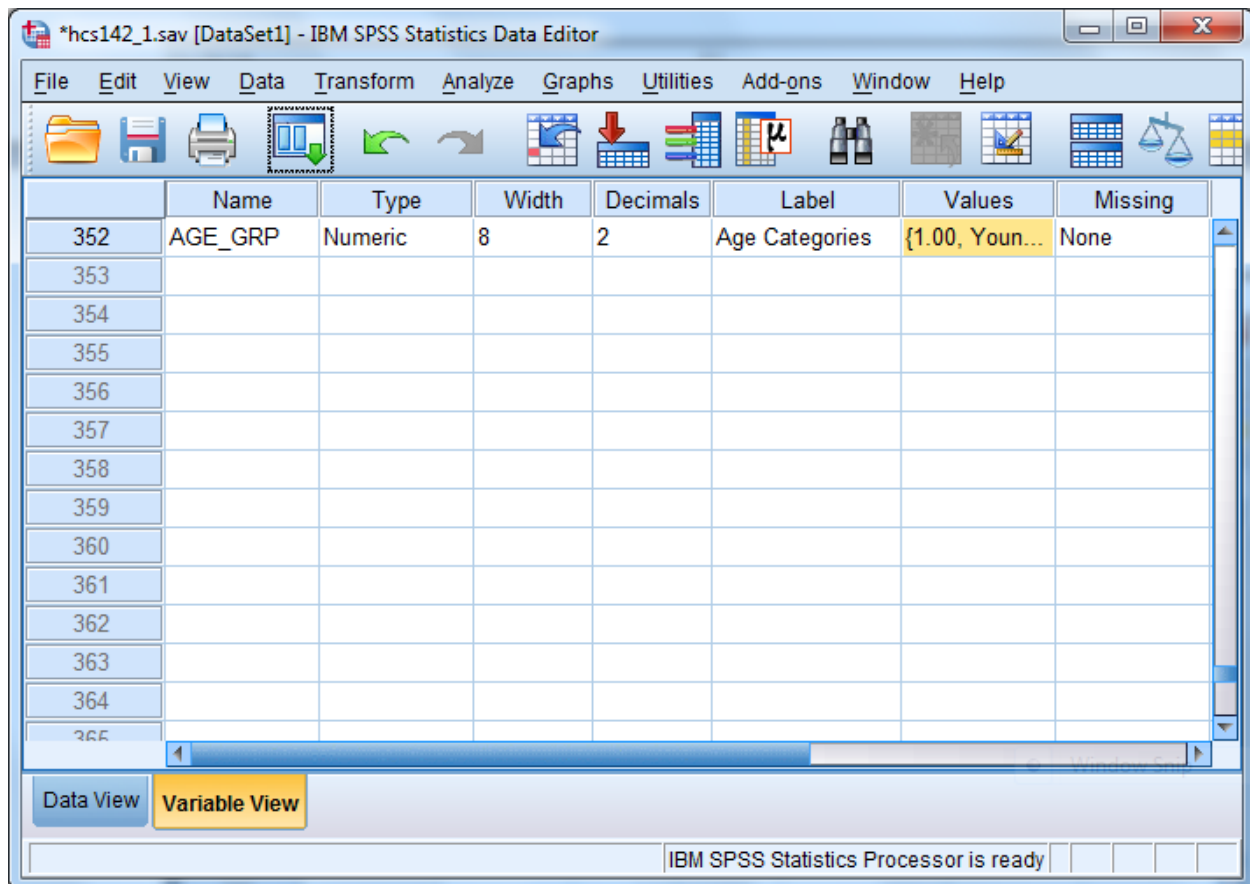

**Add** is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

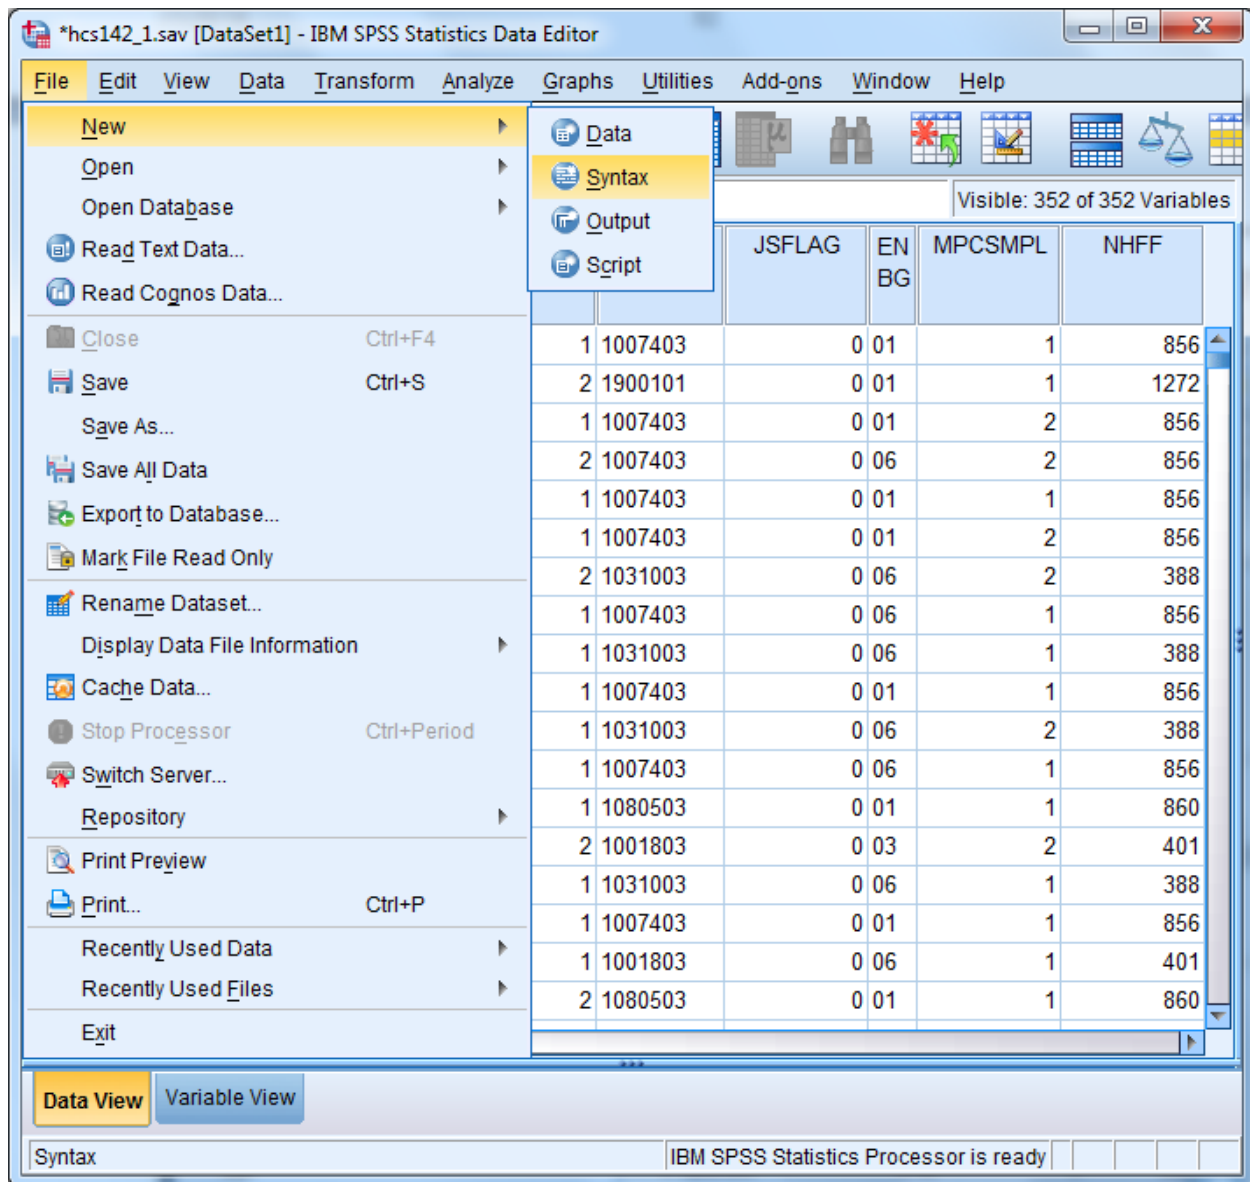

### Limiting the Number of Variables

The HCSDDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate respondent's weight as it relates to their state of health. You are also interested in people that have smoked at least 100 cigarettes in their lifetime, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among branches of service by beneficiary group and enrollment. You can do all the work on a subset of only nine variables, saving them in a separate file.

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New, Syntax** on the **File** menu as in the following:

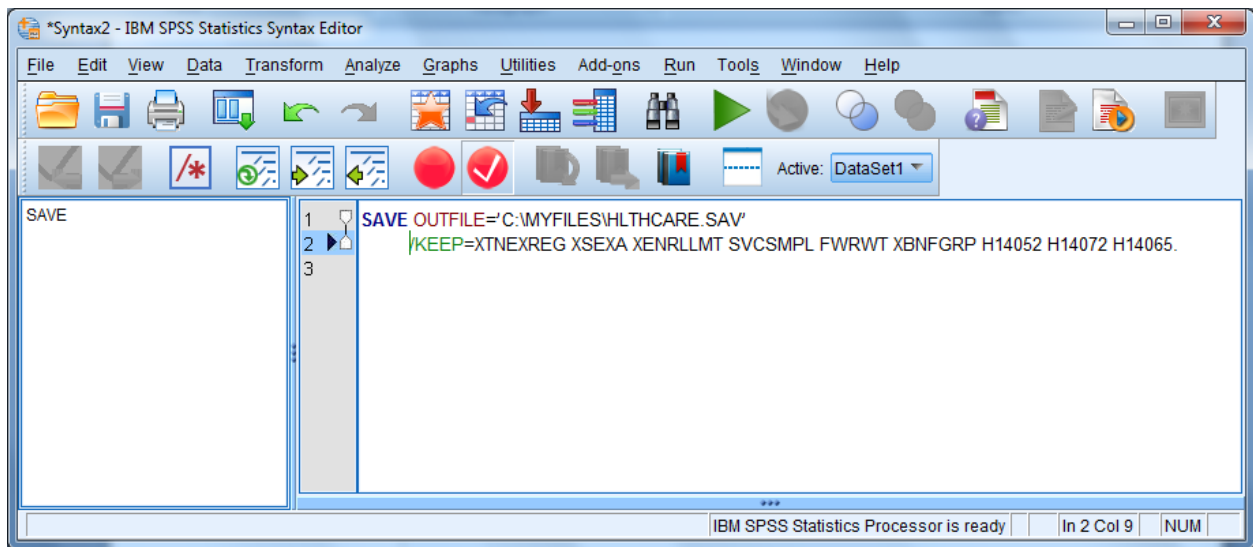

A blank syntax window will open.

Write the following command, substituting the file name and directory specification:

**SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XTNEXREG XSEXA XENRLLMT  
SVCSMPL FWRWT XBNFGRP H14052 H14072 H14065.**

as in the following:

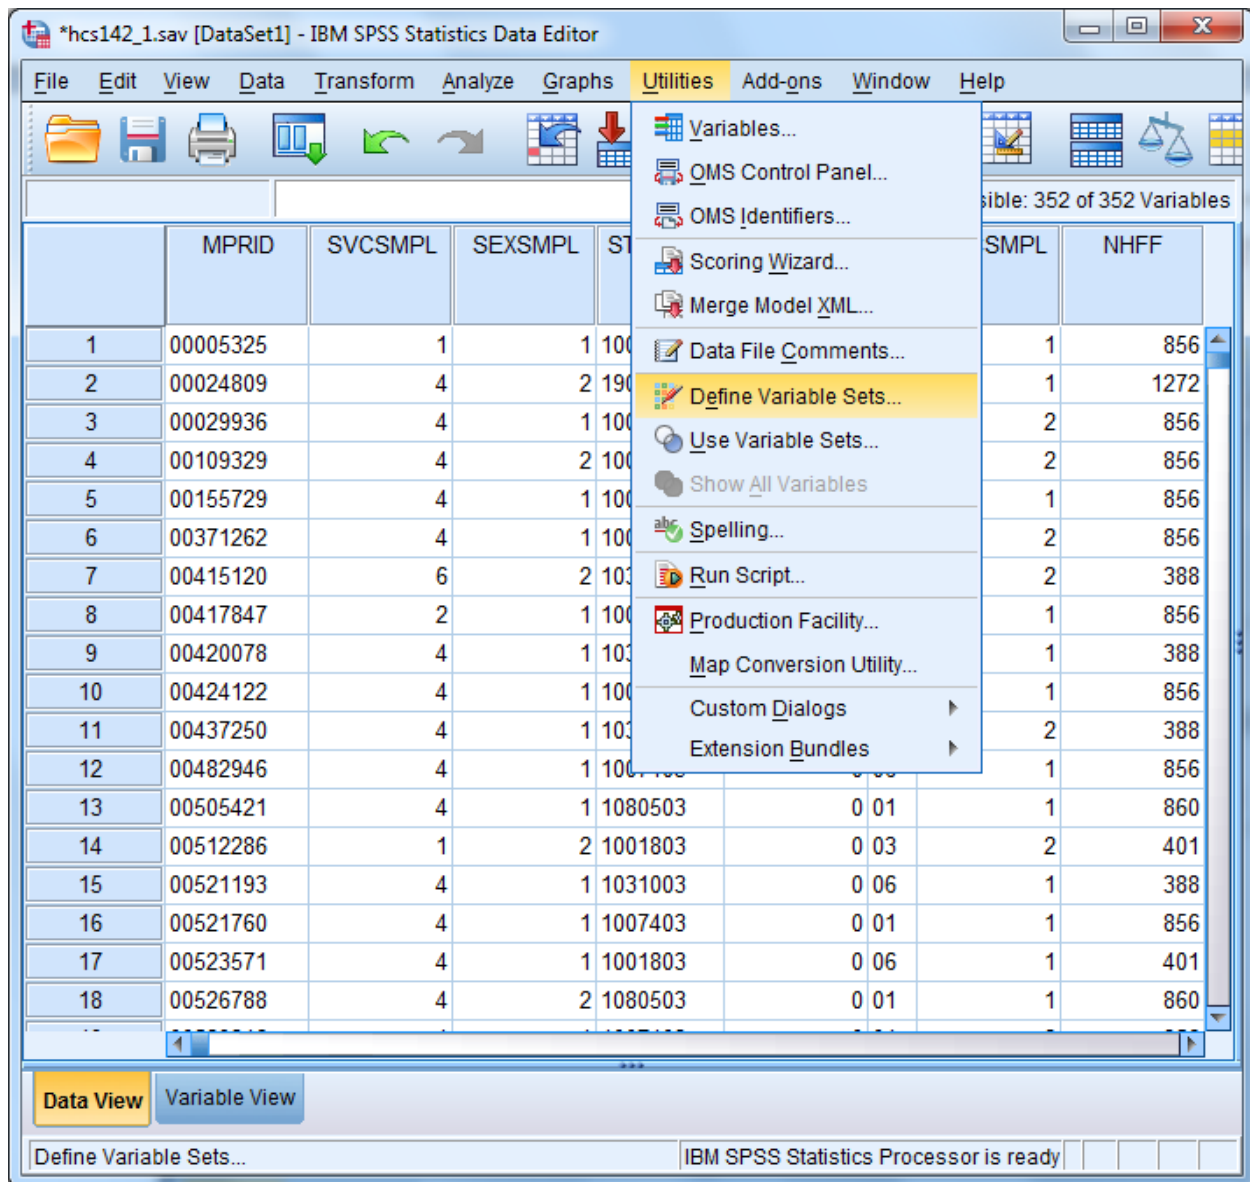

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utilities** menu, define a subset of variables as in the following:

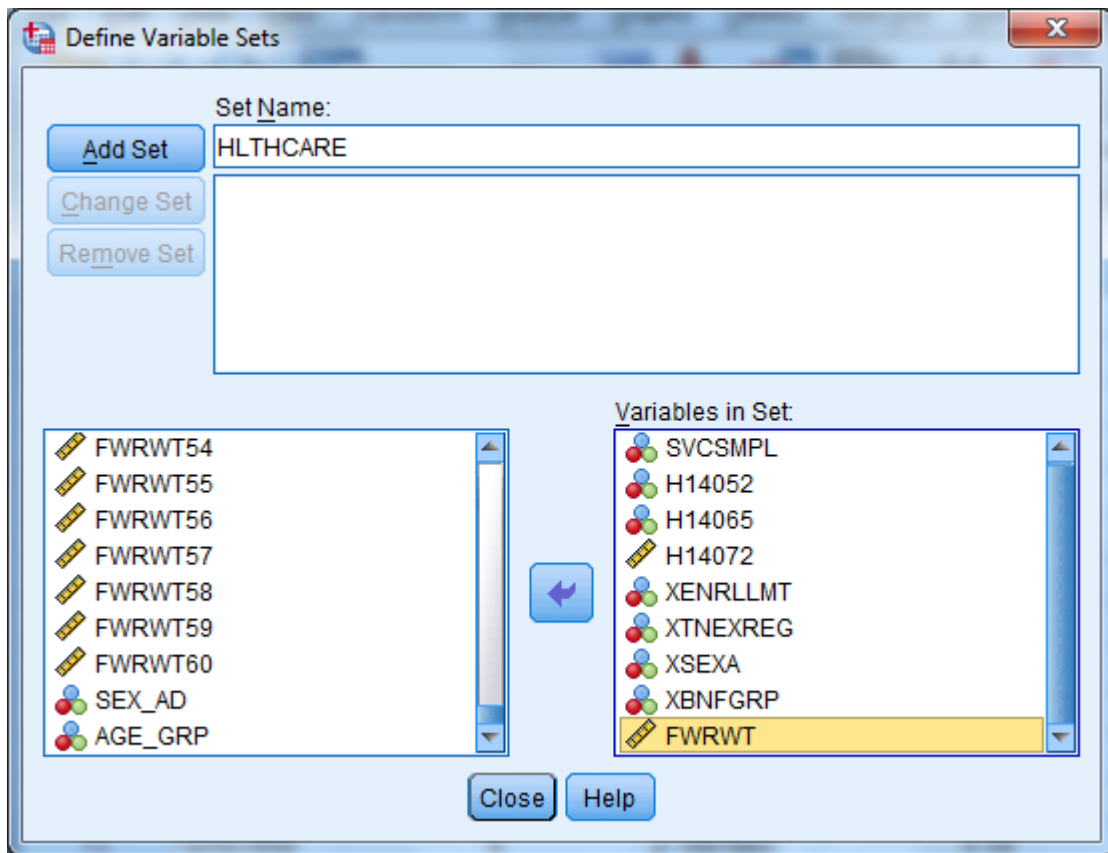

Select Define Variable Sets.

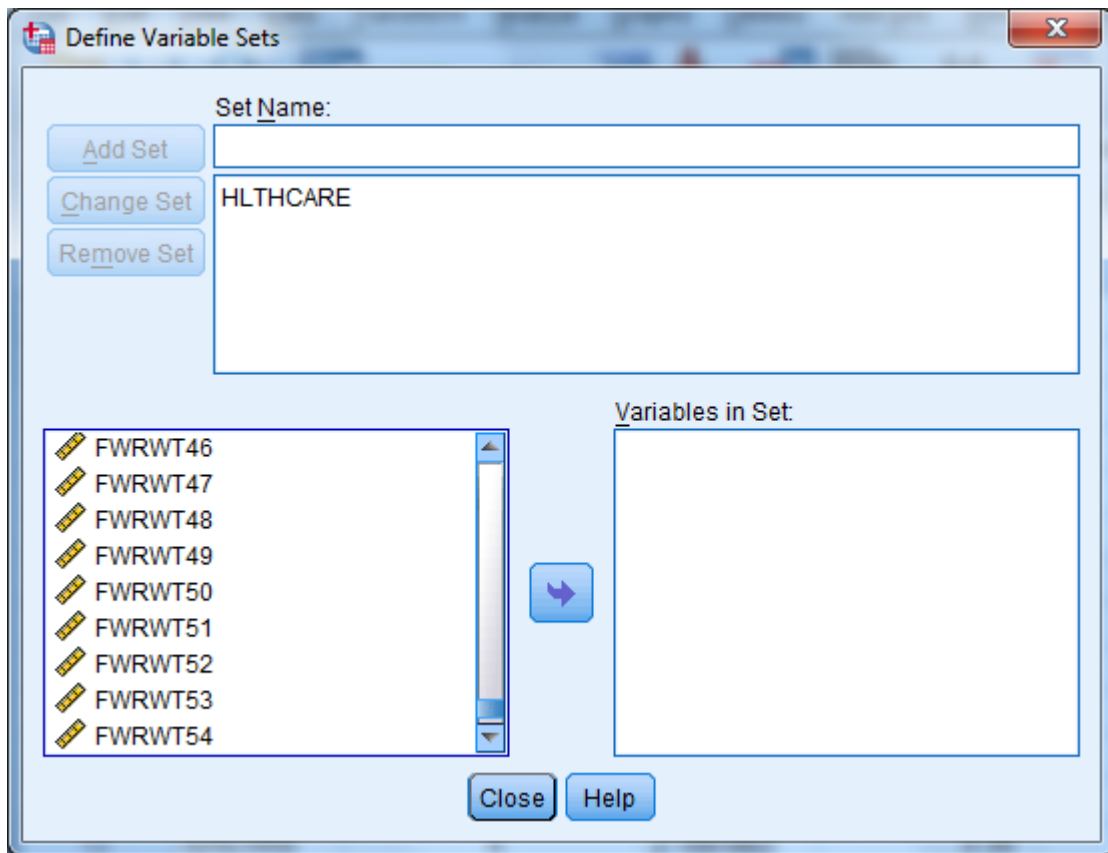

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

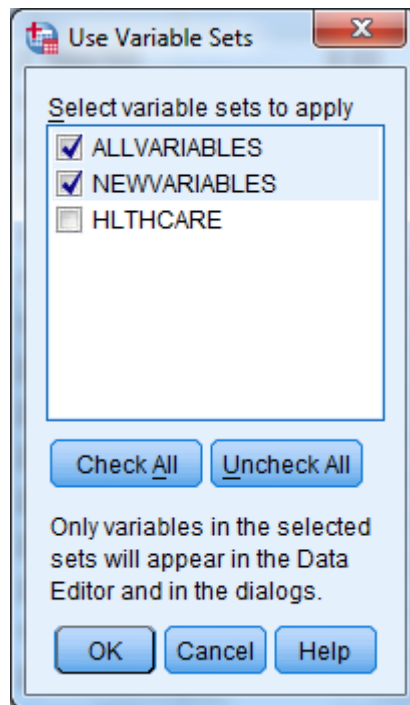

The screen should look like the following:

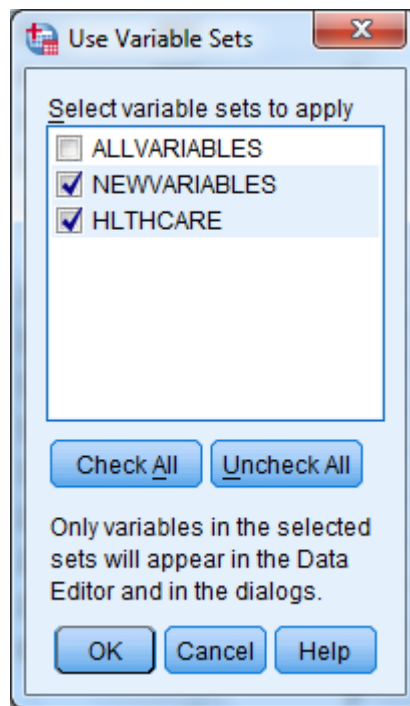

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Variable Sets...**, and receive this screen:

Click the checkbox next to HLTHCARE, and unclick the checkbox next to ALLVARIABLES. Leave NEWVARIABLES as is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

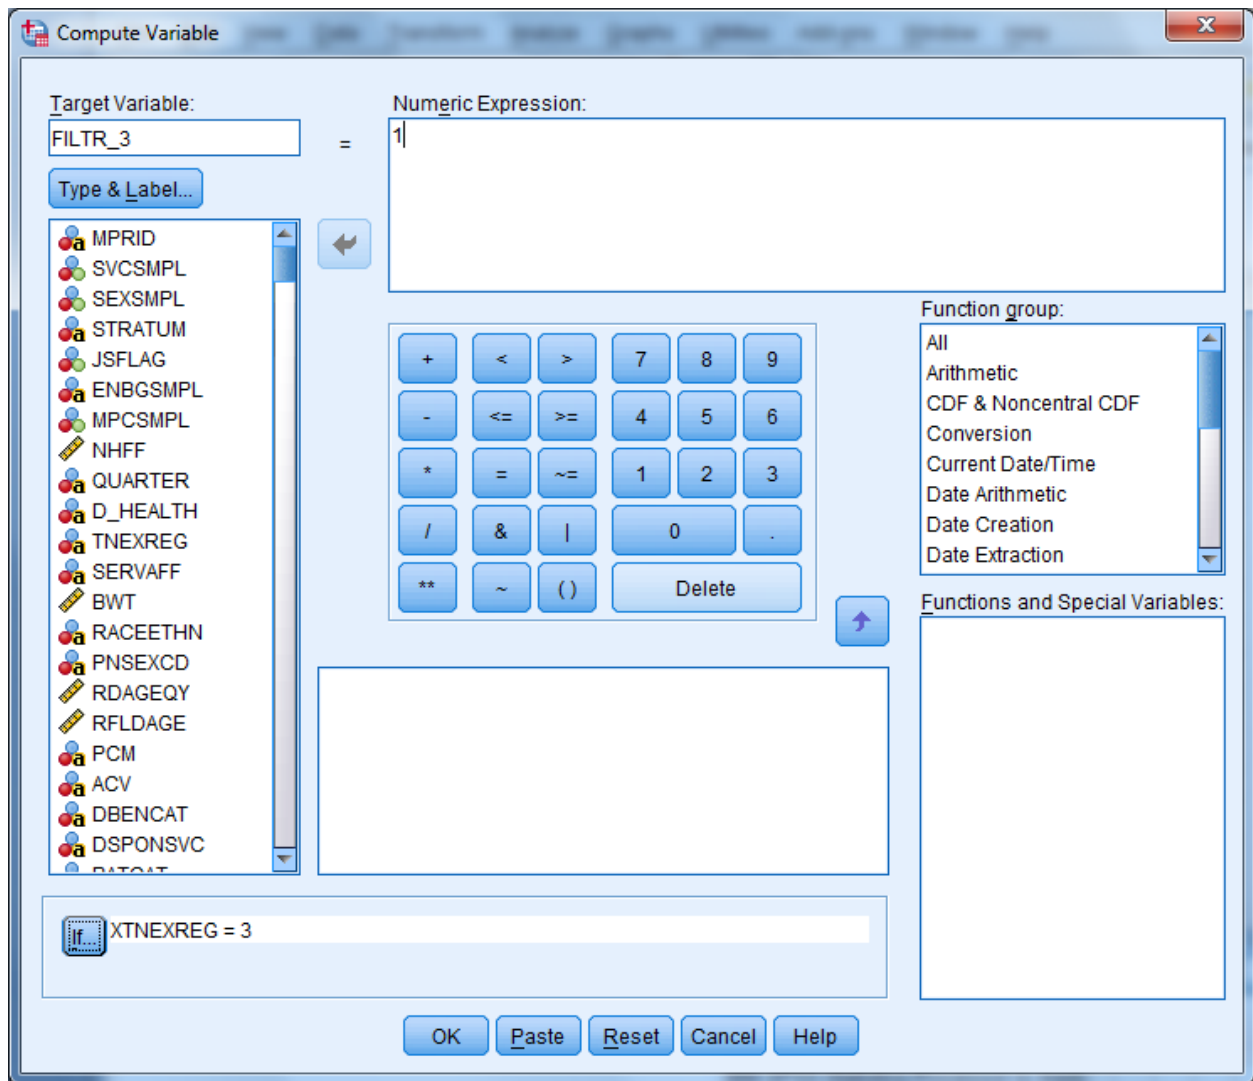

### Limiting the Number of Observations

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

The first task is to **compute** a filter variable for all the cases in the file. A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the West, i.e., cases for which the variable **xtnexreg = 3**. You would build a filter variable named **filtr\_3**, which has the value **1** associated with the cases in the West and 0 for all the other cases in the file. The logic is: if **xtnexreg = 3**, then **filtr\_3 = 1**, else **filtr\_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the "If" condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

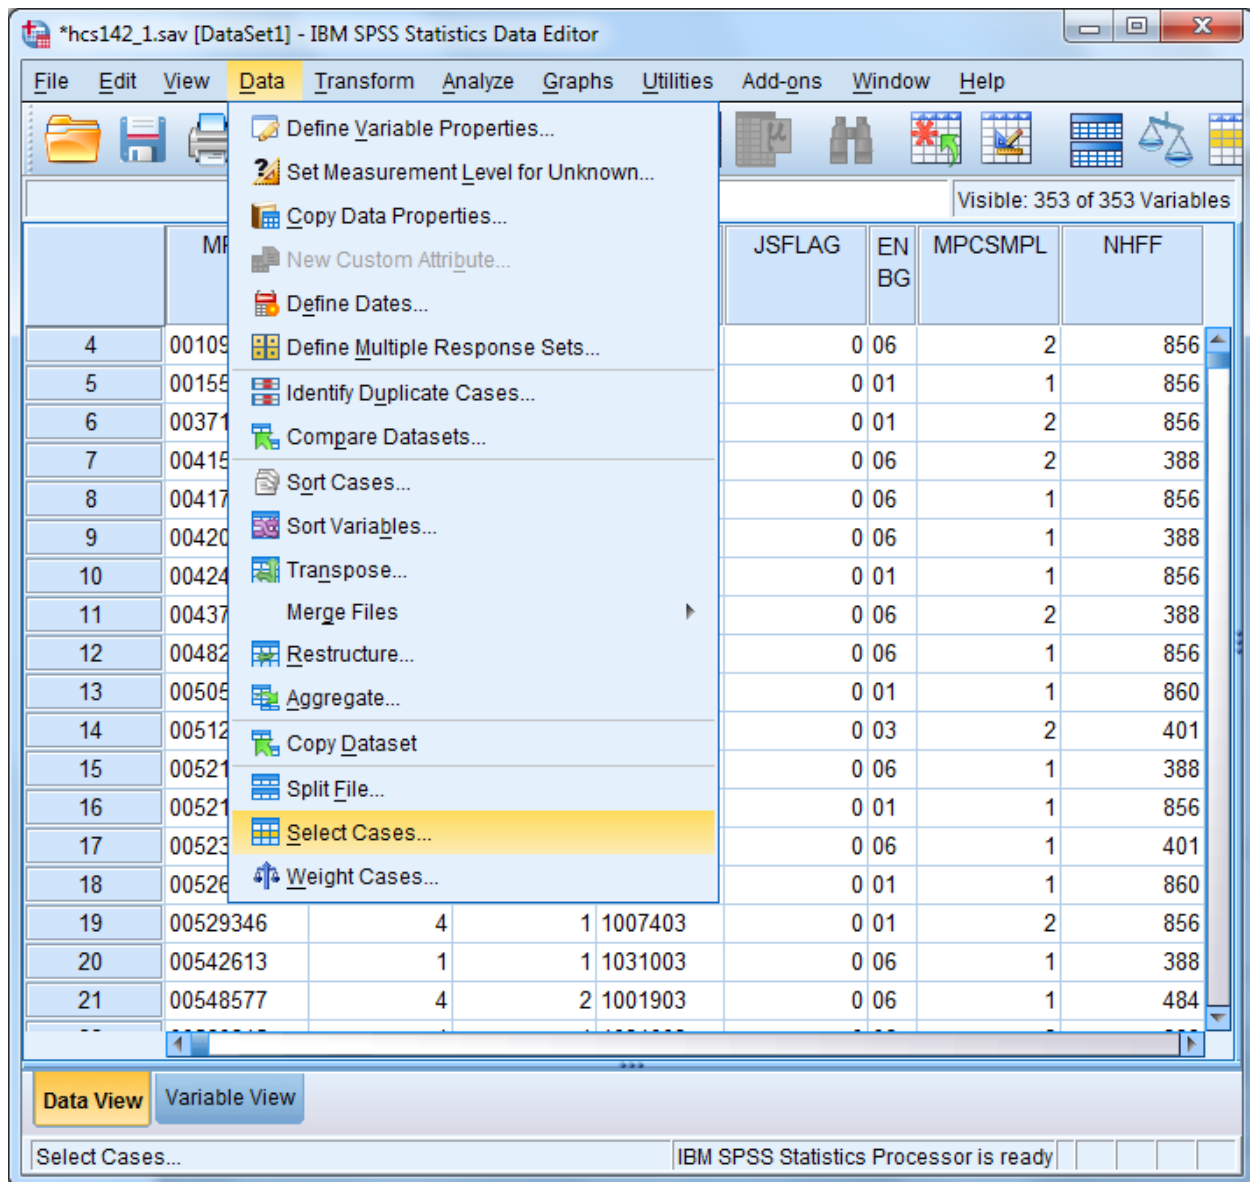

The screen that follows shows the syntax that was generated as you built the variable filtr\_3.

Once you build the filter variable, you can apply it for analyzing only those people from the West.

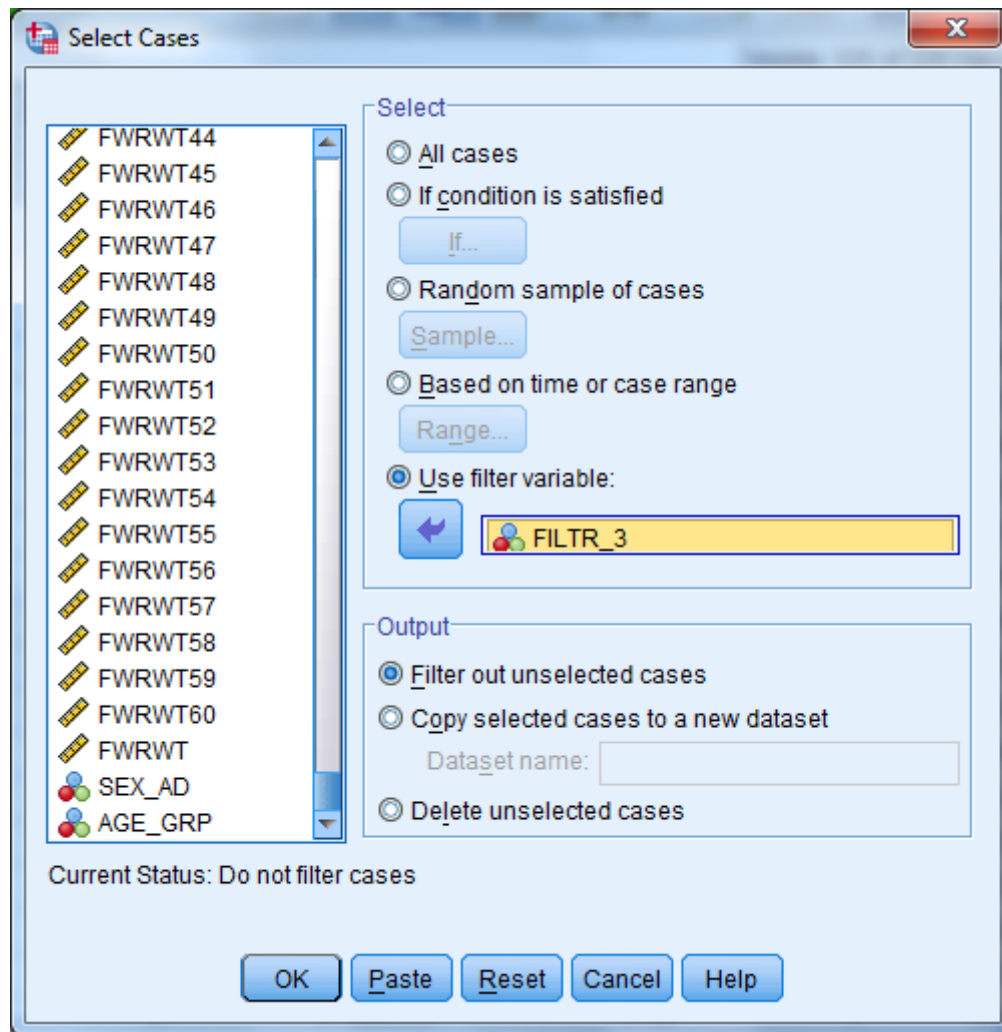

Using the **Data** menu, choose **Select Cases**.

In the dialog box, check **Use filter variable**. Move the variable **filtr\_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filter out unselected cases** is checked under **Output**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

17	00523571	4	1	1001803	0	06	1	401
18	00526788	4	2	1080503	0	01	1	860
19	00529346	4	1	1007403	0	01	2	856
20	00542613	1	1	1031003	0	06	1	388
21	00548577	4	2	1001903	0	06	1	484

IBM SPSS Statistics Processor is ready | Filter On

You can now produce tables for the subset of cases.

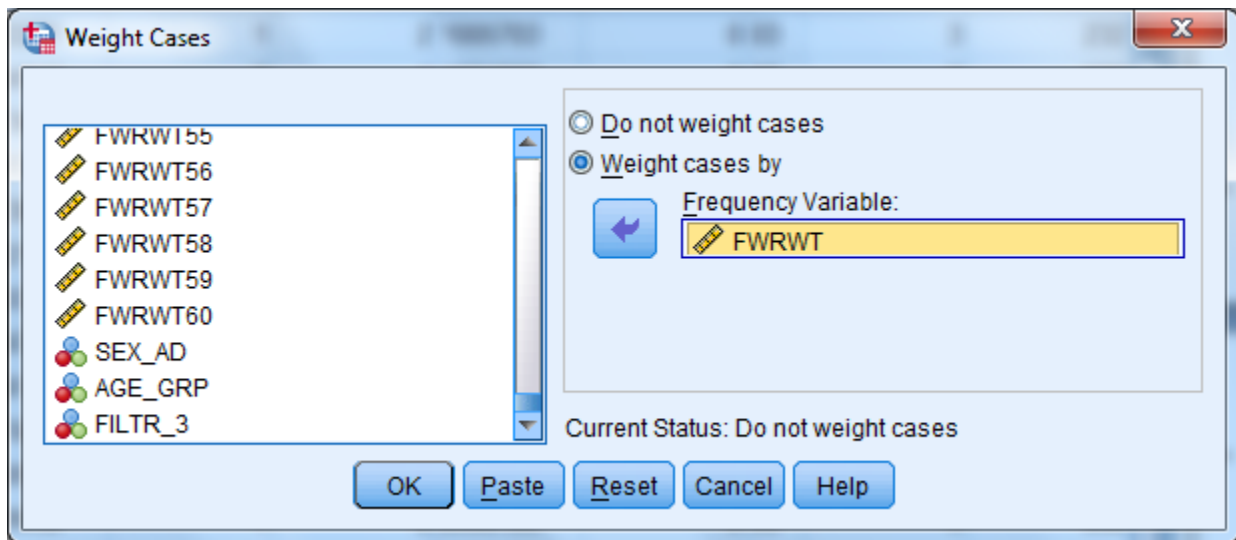

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see *which* filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

### Weighting Data

The data file includes a weighting variable, FWRWT, which should be applied to all procedures and runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

Visible: 353 of 353 Variables

	MPRID	SVCSMPL	SEXSMPL	STRATUM	JSFLAG	EN BG	MPCSMPL	NHFF
4	00109329	4	2	1007403	0	06	2	856

21	00548577	4	2	1001903	0	06	1	484

IBM SPSS Statistics Processor is ready | Weight On

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

## BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H14052, H14072, H14065, svcsmpl, xbnfgrp, xsexa, xtnexreg, xenrllmt, FWRWT, and filtr\_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

## Calculating Means

As an example, suppose you want to analyze the health care variables and you want to focus on the West (**xtnexreg = 3**). Suppose you are also interested in how the respondent's weight relates to his

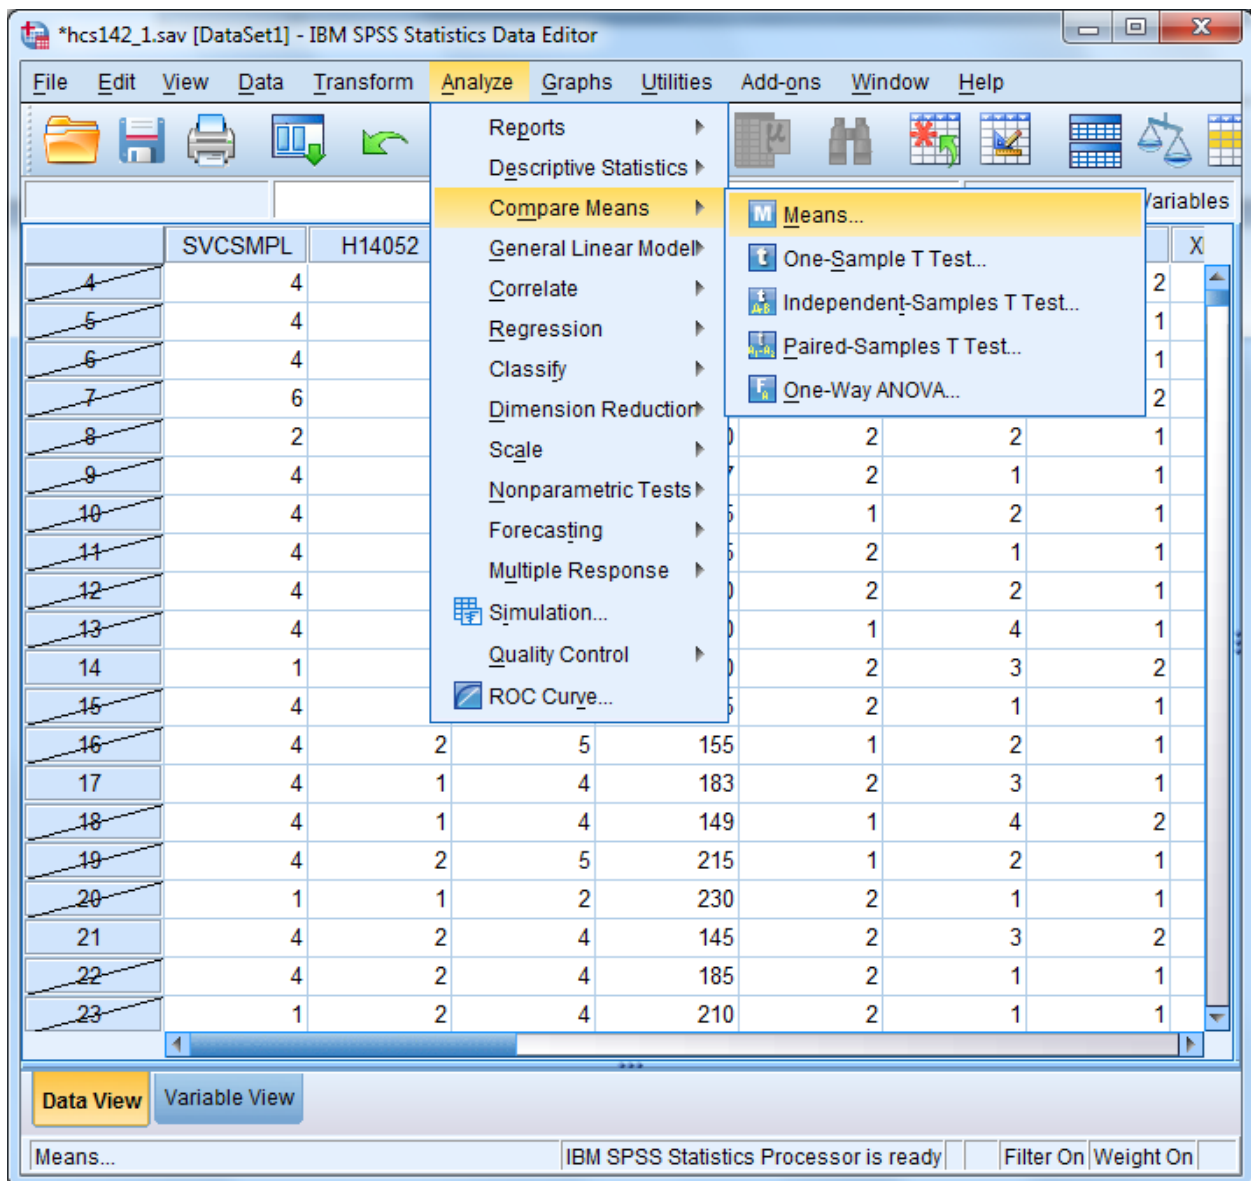

self-evaluation of his health for the West region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H14072** (respondent’s weight), and **H14065** (assessment of the state of health). The statistic you want to see is the mean of the health care variables for each group in our breakdown.

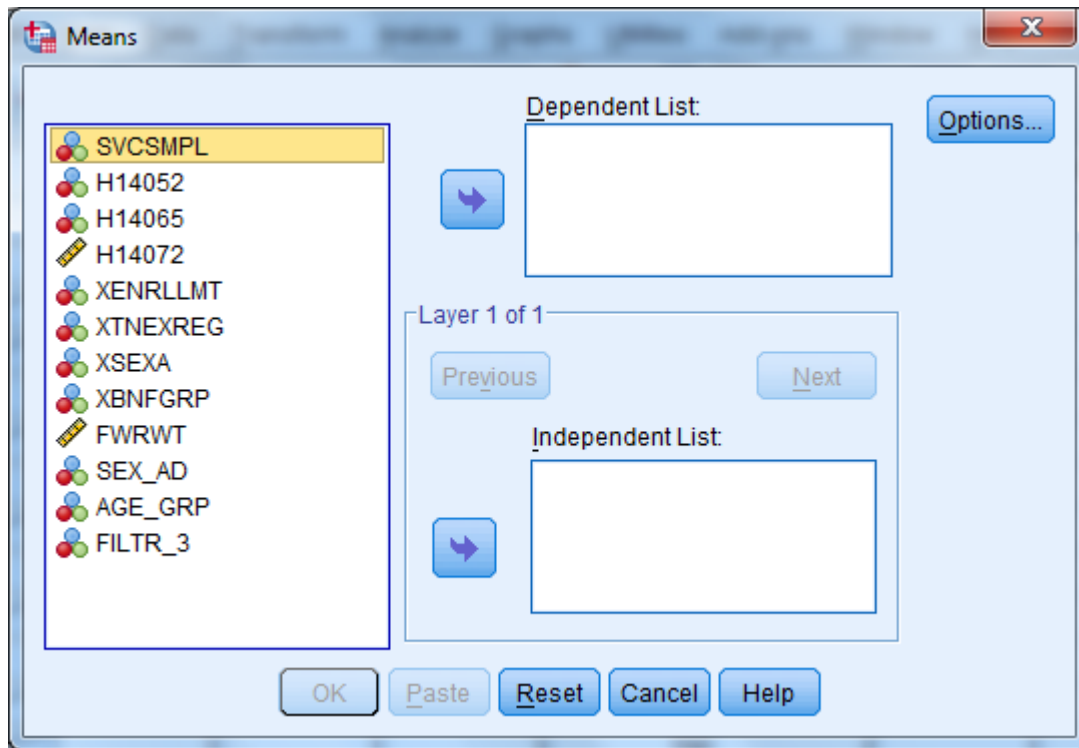

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **FWRWT**, which you would activate for procedure runs. The subset also includes the new variable, **filtr\_3**, which allows us to select only those cases in the West.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **FWRWT**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr\_3**. On the status line, **Filter On** and **Weight On** should appear.

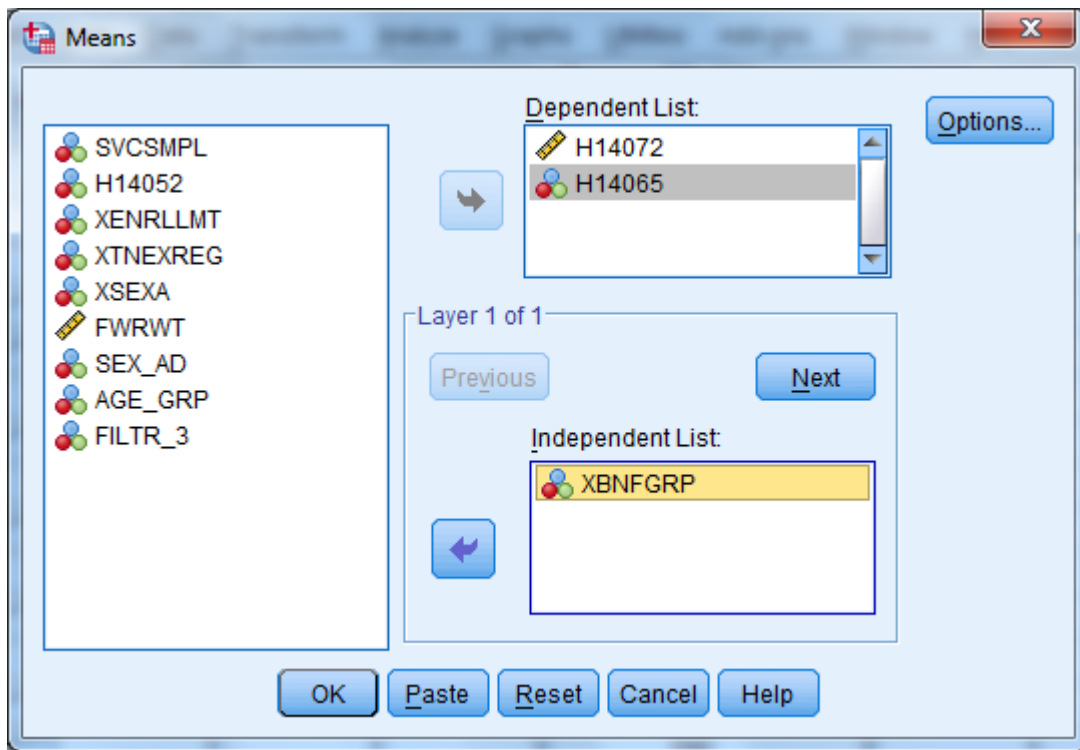

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

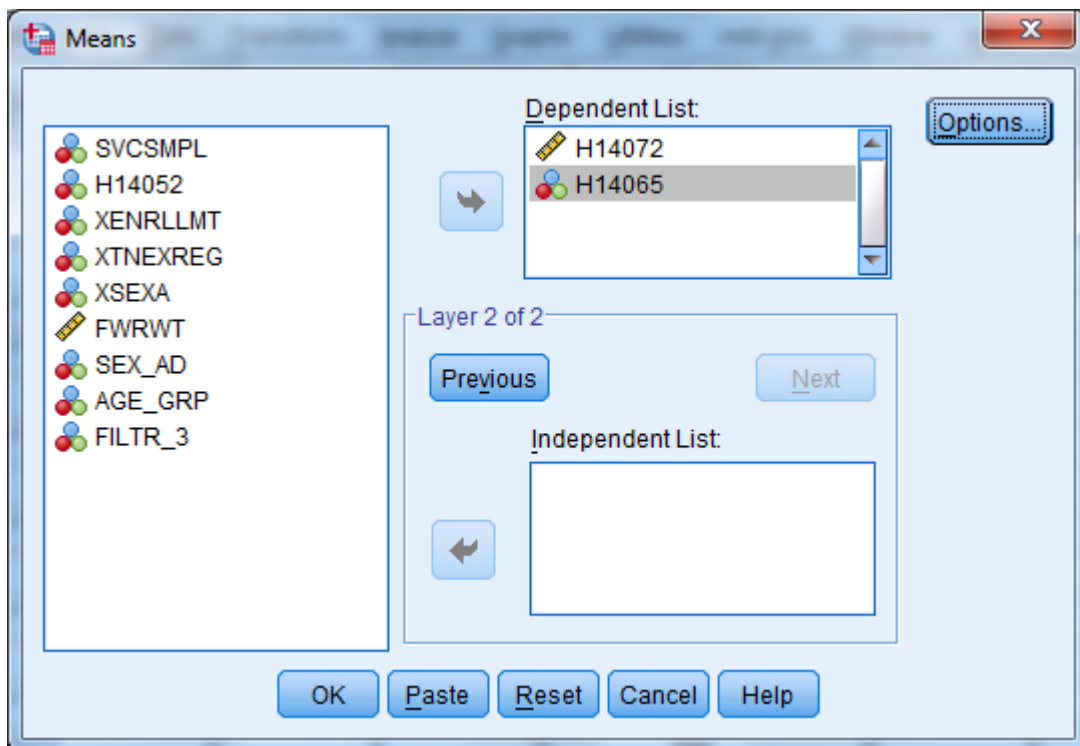

The dialog box for the Means procedure will open as in the following screen:

Move the variables **H14072** and **H14065**, from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **XBNFGRP** from the variable list on the left into the box under **Independent List**. **XBNFGRP** is the first grouping variable. The screen should look like the following:

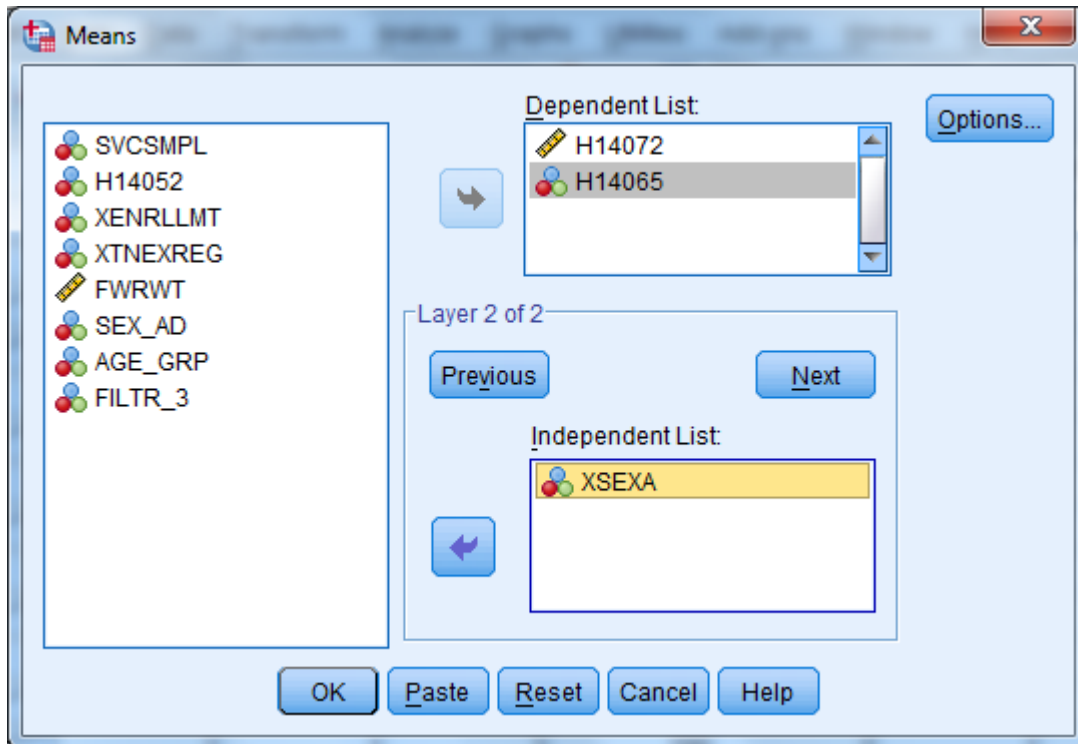

Click on **Next** in the center of the box to create a second layer. The following screen will open:

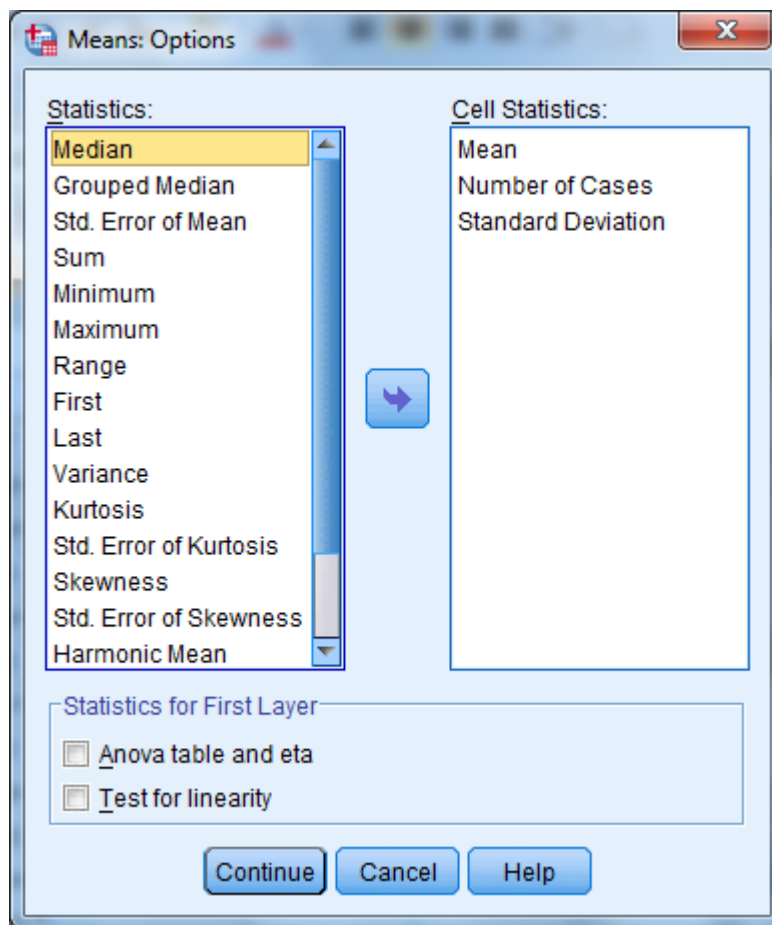

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsex** from the variable list on the left into the box under **Independent List**. **Xsex** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The screenshot shows the IBM SPSS Statistics Viewer interface. The left pane contains a tree view with the following structure:

- Output
  - Log
  - Means (selected)
    - Title
    - Notes
    - Case Processing Summary
    - Report

The right pane displays the following tables:

### Means

#### Case Processing Summary

	Cases					
	Included		Excluded		Total	
	N	Percent	N	Percent	N	Percent
Weight without shoes * Beneficiary Group * Male or Female - R	2092434	91.2%	202171	8.8%	2294604	100.0%
In gnrl, how would you rate ovrrl hith * Beneficiary Group * Male or Female - R	2161855	94.2%	132749	5.8%	2294604	100.0%

#### Report

Mean

Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrrl hith
Active Duty <65	Male	183.80	3.83
	Female	143.64	3.84
	Total	175.81	3.83
Family of Active <65	Male	191.74	3.80
	Female	148.87	3.93
	Total	151.59	3.92

IBM SPSS Statistics Processor is ready | H: 0.23, W: 5.81 in

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

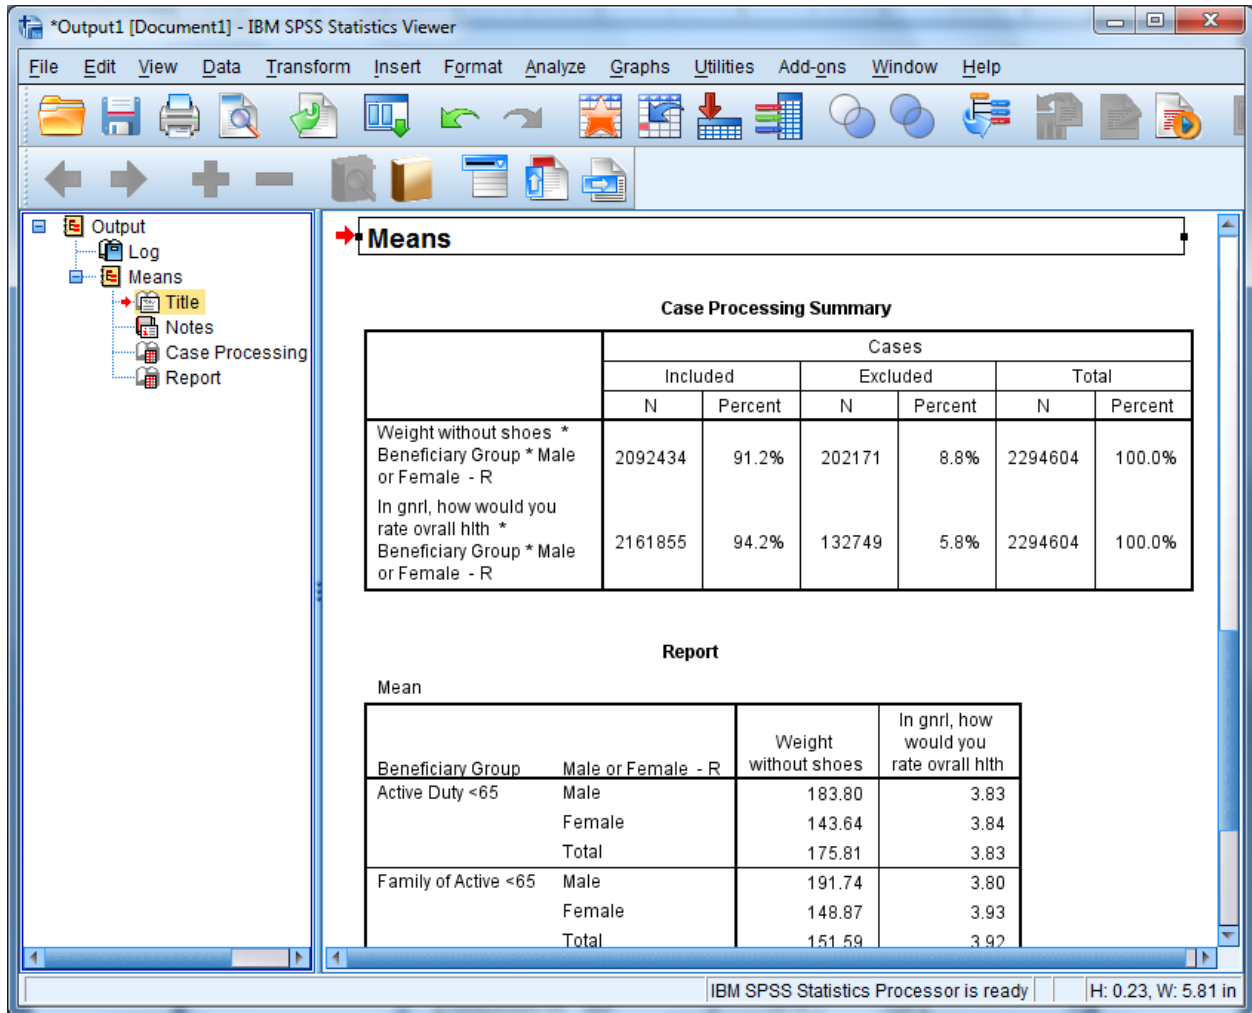

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

**Mean of Respondent's Weight w/ Health Assessment**

**Case Processing Summary**

	Cases					
	Included		Excluded		Total	
	N	Percent	N	Percent	N	Percent
Weight without shoes * Beneficiary Group * Male or Female - R	2092434	91.2%	202171	8.8%	2294604	100.0%
In gnrl, how would you rate ovrrall hlth * Beneficiary Group * Male or Female - R	2161855	94.2%	132749	5.8%	2294604	100.0%

**Report**

Mean

Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrrall hlth
Active Duty <65	Male	183.80	3.83
	Female	143.64	3.84
	Total	175.81	3.83
Family of Active <65	Male	191.74	3.80
	Female	148.87	3.93
	Total	151.59	3.92
Ret/Surv/Fam <65	Male	199.80	3.53
	Female	160.16	3.54
	Total	177.94	3.53

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

The screenshot shows the IBM SPSS Statistics Viewer interface. On the left, a tree view shows the 'Output' folder expanded to 'Means', which contains 'Report'. A red arrow points to the 'Report' icon. The main window displays a Pivot Table report titled 'Report' with the following data:

Report			
Mean			
Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrrll hith
Active Duty <65	Male	183.80	3.83
	Female	143.64	3.84
	Total	175.81	3.83
Family of Active <65	Male	191.74	3.80
	Female	148.87	3.93
	Total	151.59	3.92
Ret/Surv/Fam <65	Male	199.80	3.53
	Female	160.16	3.54
	Total	177.81	3.53
Ret/Surv/Fam 65+	Male	198.28	3.53
	Female	150.37	
	Total	176.97	
Total	Male	193.13	
	Female	152.75	
	Total	172.93	

A context menu is open over the table, showing the following options: Cut, Copy, Copy Special..., Paste After, Create/Edit Autoscript..., Export..., and Edit Content. The 'Edit Content' option is highlighted with a right-pointing arrow.

Select **Edit Content** and **In Separate Window** as pictured below:

The screenshot shows the IBM SPSS Statistics Viewer interface. The main window displays a report titled "Report" with the following data:

Beneficiary Group		Weight without shoes	In gnrl, how would you rate ovrrll hith
Active Duty <65	Male	183.80	3.83
	Female	143.64	3.84
	Total	175.81	3.83
Family of Active <65	Male	191.74	3.80
	Female	148.87	3.93
	Total	151.59	3.92
Ret/Surv/Fam <65	Male	199.80	3.53
	Female		
	Total		
Ret/Surv/Fam 65+	Male		
	Female		
	Total		
Total	Male		
	Female		
	Total		

A context menu is open over the table, with the "Edit Content" option highlighted. The menu options are: Cut, Copy, Copy Special..., Paste After, Create/Edit Autoscript..., Export..., Edit Content, In Viewer, and In Separate Window. The "In Separate Window" option is highlighted in yellow.

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

**Report**

Statistics Mean

Beneficiary Group	Male or Female - R	Weight without shoes	In gnrl, how would you rate ovrall hlth
Active Duty <65	Male	183.80	3.83
	Female	143.64	3.84
	Total	175.81	3.83
Family of Active <65	Male	191.74	3.80
	Female	148.87	3.93
	Total	151.59	3.92
Ret/Surv/Fam <65	Male	199.80	3.53
	Female	160.16	3.54
	Total	177.81	3.53
Ret/Surv/Fam 65+	Male	198.28	3.53
	Female	150.37	3.43
	Total	176.97	3.48
Total	Male	193.13	3.65
	Female	152.75	3.65
	Total	172.93	3.65

In this special editor, there are many options for formatting the table.

Suppose you want to change the table format from vertical to horizontal. Open the **Pivot** menu in the tool bar and choose **Transpose Rows and Columns** as shown below:

The screenshot shows a Pivot Table Report window with a menu open over the table. The table data is as follows:

Beneficiary Group	Male or Female - R	vveirgnt without shoes	would you rate ovrall hith
Active Duty <65	Male	183.80	3.83
	Female	143.64	3.84
	Total	175.81	3.83
Family of Active <65	Male	191.74	3.80
	Female	148.87	3.93
	Total	151.59	3.92
Ret/Surv/Fam <65	Male	199.80	3.53
	Female	160.16	3.54
	Total	177.81	3.53
Ret/Surv/Fam 65+	Male	198.28	3.53
	Female	150.37	3.43
	Total	176.97	3.48
Total	Male	193.13	3.65
	Female	152.75	3.65
	Total	172.93	3.65

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all of the table editing in the left section of the table, and the changes will spread through the entire table.

**Report**

Statistics Mean

	Beneficiary Group								
	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65		
	Male or Female - R			Male or Female - R			Male or Female - R		
	Male	Female	Total	Male	Female	Total	Male	Female	Total
Weight without shoes	183.80	143.64	175.81	191.74	148.87	151.59	199.80	160.16	177.81
In gnrl, how would you rate ovrrll hlth	3.83	3.84	3.83	3.80	3.93	3.92	3.53	3.54	3.53

You would then notice that certain labels are redundant. The labels, **Beneficiary Group and Male or Female - R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

The screenshot shows a Pivot Table Report window with a menu open over the table. The table has the following structure:

Statistics Mean	Beneficiary Group					
	Active Duty <65			Family of Active <65		
	Male or Female - R		Total	Male or Female - R		Total
	Male	Female	Total	Male	Female	Total
Weight without shoes	183.80	143.64	175.81	191.74	148.87	170.30
In gnrl, how would you rate ovrrll hlth	3.83	3.84	3.83	3.80	3.93	3.86

The context menu is open over the 'Male or Female - R' section of the table, showing options such as Cut, Copy, Paste, Delete, Select, Hide Dimension Label, Hide Category, Group, Ungroup, Sort Rows, Create Graph, Table Properties..., Cell Properties..., TableLooks..., and Insert Footnote.

Click inside the table section labeled **Male or Female - R** and repeat the above procedure. An improved table is shown in the following screen.

The screenshot shows a Pivot Table Report window with the following data:

Report										
Statistics Mean										
	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65			N
	Male	Female	Total	Male	Female	Total	Male	Female	Total	
Weight without shoes	183.80	143.64	175.81	191.74	148.87	151.59	199.80	160.16	177.81	1
In gnrl, how would you rate ovrall hlth	3.83	3.84	3.83	3.80	3.93	3.92	3.53	3.54	3.53	

The mean values reported are formatted to allow space for the labels of the satisfaction variables. You can shorten these labels and add the lost information in another place, according to the following procedures:

Double-click on the label for health state. Delete the text, entering only the words, **Health State**. Do the same for the health care label, entering only the words, **Weight in pounds**.

Double-click on the word, **Report**, in the center at the top of the table, right-click, and choose **Delete** from the dialog box.

**Mean of Respondent's Weight w/Health Assessment: By Beneficiary Status and Gender: West Region**

Statistics Mean

	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65			Ret/Surv/Fam 65	
	Male	Female	Total	Male	Female	Total	Male	Female	Total	Male	Female
Weight in pounds	183.80	143.64	175.81	191.74	148.87	151.59	199.80	160.16	177.81	198.28	150.37
Health State	3.83	3.84	3.83	3.80	3.93	3.92	3.53	3.54	3.53	3.53	3.43

After all the editing changes have been made, exit the Pivot Table editor and return to the output navigator. Click on the File menu and choose Print Preview. Zoom in on the page and review the appearance of the report. The page will appear as the page below.

### Calculating Percents

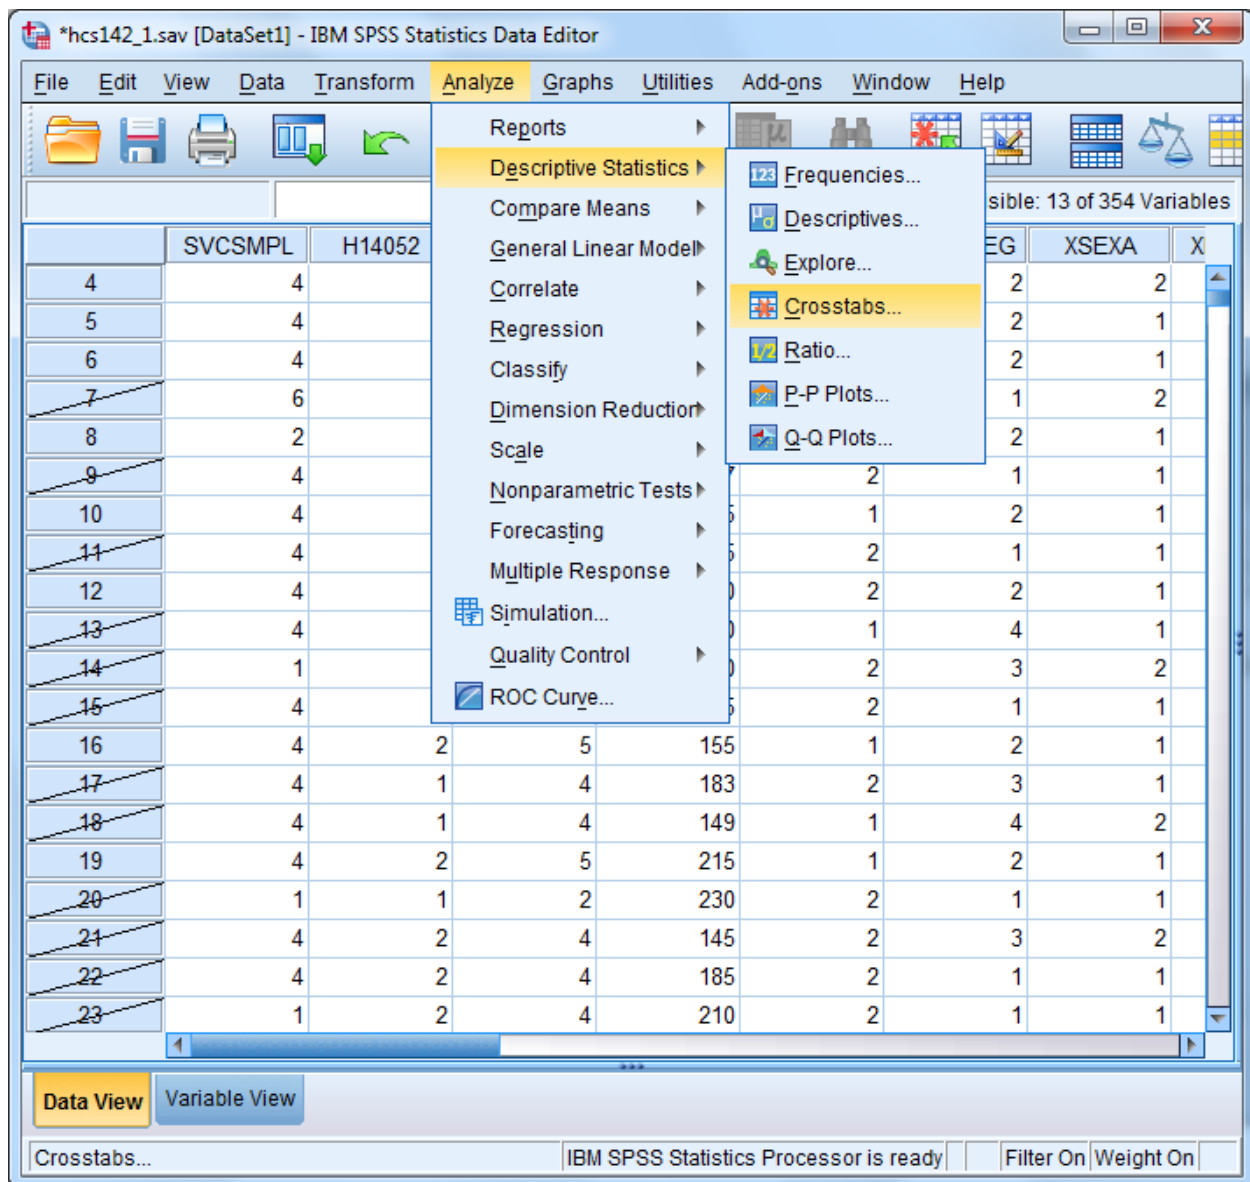

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

For example, suppose you want to see the percentage of people within each branch of service who answered “yes” or “no” to the question, “Did you ever smoke at least 100 cigarettes in your life?” The variables in this analysis are **svcsmpl** – the branch of service, and **H14052** – the questionnaire variable. The cases for the analysis are from the South only.

The first task is to build a new filter variable, assigning **1** to the variable when **XTNEXREG = 2**. You would call the variable **filtr\_6** and build it the same way you built the filter, **filtr\_3**. Cases from the South are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

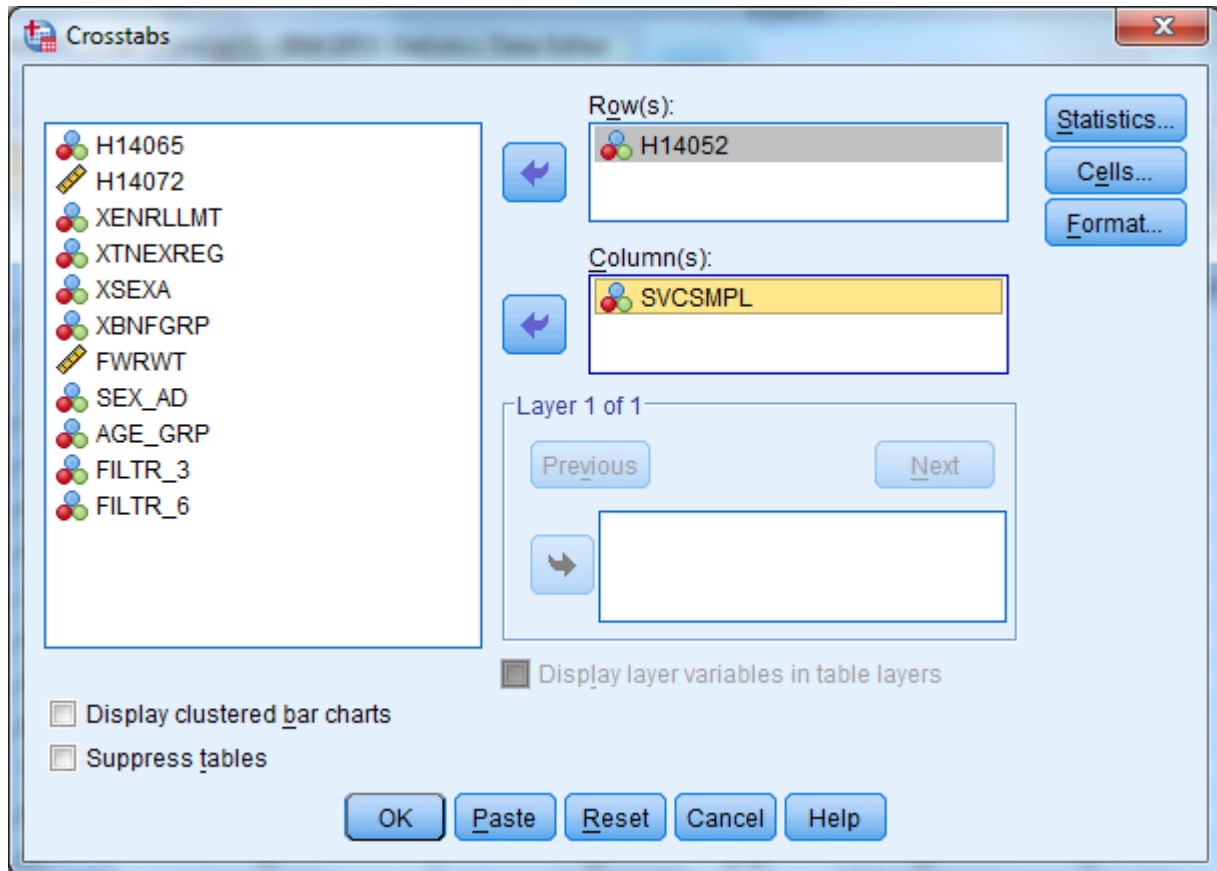

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

Move **H14052** from the variable list on the left into the box marked **Row(s)**;, and move the variable **svcsmpl** into the box marked **Column(s)**;. The screen will resemble the following:

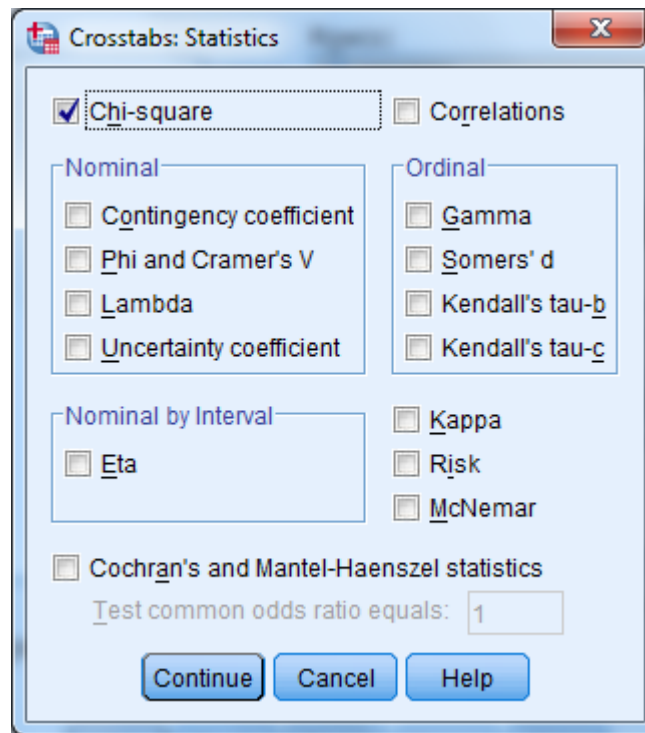

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

Under **Counts**, **Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each branch of service. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

If you wanted to calculate chi-square, you would check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter. For this crosstabulation we will not reflect the chi-square statistics.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output--in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

The screenshot shows the IBM SPSS Statistics Viewer interface. The main window displays a pivot table titled "Mean of Respondent's Weight w/ Health Assessment". The table is broken down by "Active Duty <65" and "Family of Active <65", with further sub-categories for "Male", "Female", and "Total". The rows represent "Weight in pounds" and "Health State".

Mean	Active Duty <65			Family of Active <65			Ret/S
	Male	Female	Total	Male	Female	Total	Male
Weight in pounds	183.80	143.64	175.81	191.74	148.87	151.59	199.80
Health State	3.83	3.84	3.83	3.80	3.93	3.92	3.53

Below the pivot table, there is a section titled "Case Processing Summary" for the variable "Smoked at least 100 cigarettes in life \*". The summary shows that 2,335,549 cases (97.2%) are valid, and 665,131 cases (2.8%) are missing. The total number of cases is 2,402,062.

	Cases					
	Valid		Missing		Total	
	N	Percent	N	Percent	N	Percent
Smoked at least 100 cigarettes in life * SVCSMPL - Branch of Service	2335549	97.2%	665131.123	2.8%	2402062.123	100.0%

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and the **Case Processing Summary** as you did before.

Navigate to the procedure icon. Follow the procedure for opening an **SPSS Pivot Table Object**, open the table in the special editor and maximize the screen as in the following:

			SVCSMPL - Branch of Service					
			Army	Navy	Marine Corps	Air Force	Coast Guard	Other/Unknown
Smoked at least 100 cigarettes in life	Yes	Count	357904	197299	43596	305868	18273	1779
		% within SVCSMPL - Branch of Service	38.3%	43.5%	45.5%	38.7%	38.7%	12.7%
	No	Count	576941	256427	52286	483992	28913	12271
		% within SVCSMPL - Branch of Service	61.7%	56.5%	54.5%	61.3%	61.3%	87.3%
Total		Count	934845	453726	95882	789860	47186	14050
		% within SVCSMPL - Branch of Service	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

			SVCSMPL - Branch of Service					
			Army	Navy	Marine Corps	Air Force	Coast Guard	Other/Unknown
Smoked at least 100 cigarettes in life	Yes	Count	357904	197299	43596	305868	18273	1779
		% within SVCSMPL - Branch of Service	38.3%	43.5%	45.5%	38.7%	38.7%	12.7%
	No	Count	576941	256427	52286	483992	28913	12271
		% within SVCSMPL - Branch of Service	61.7%	56.5%	54.5%	61.3%	61.3%	87.3%
Total		Count	934845	453726	95882	789860	47186	14050
		% within SVCSMPL - Branch of Service	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The pivoting tool will appear:

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H14052** – smoked at least 100 cigarettes in life, and **Statistics** – the percent of people in each branch of service. On the column axis is the variable, **svcsmpl** – the branch of service.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

		SVCSMPL - Branch of Service								
		Army		Navy		Marine Corps		Air Force		
		Count	% within SVCSMPL - Branch of Service	Count	% within SVCSMPL - Branch of Service	Count	% within SVCSMPL - Branch of Service	Count	% within SVCSMPL - Branch of Service	
Smoked at least 100 cigarettes in life	Yes	357904	38.3%	197299	43.5%	43596	45.5%	305868	38.7%	18273
	No	576941	61.7%	256427	56.5%	52286	54.5%	483992	61.3%	28913
Total		934845	100.0%	453726	100.0%	95882	100.0%	789860	100.0%	47186

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **svcsmpl**. Select it by double-clicking and edit it for clarity (see the screen below).

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

The screenshot shows a PivotTable window titled "Pivot Table Smoked at least 100 cigarettes in life \* SVCSMPL - Branch of Service Crosstabulation". The table is structured as follows:

		Branch of Service										
		Army		Navy		Marine Corps		Air Force		Coast Guard		Other/M
		Count	Percent	Count	Percent	Count	Percent	Count	Percent	Count	Percent	Count
Smoked at least 100 cigarettes in life	Yes	357904	38.3%	197299	43.5%	43596	45.5%	305868	38.7%	18273	38.7%	1779
	No	576941	61.7%	256427	56.5%	52286	54.5%	483992	61.3%	28913	61.3%	12271
Total		934845	100.0%	453726	100.0%	95882	100.0%	789860	100.0%	47186	100.0%	14050

Next, notice that the label for **H14052** is awkward. Select and clear it.

Last, edit the text in the table label so that it better expresses the content of the table. The finished table appears as follows:

**Smoked at Least 100+ Cigarettes in Life: By Branch of Service: South Region**

	Branch of Service												Cour
	Army		Navy		Marine Corps		Air Force		Coast Guard		Other/Unknown		
	Count	Percent	Count	Percent	Count	Percent	Count	Percent	Count	Percent	Count	Percent	
Yes	357904	38.3%	197299	43.5%	43596	45.5%	305868	38.7%	18273	38.7%	1779	12.7%	9247
No	576941	61.7%	256427	56.5%	52286	54.5%	483992	61.3%	28913	61.3%	12271	87.3%	14108
Total	934845	100.0%	453726	100.0%	95882	100.0%	789860	100.0%	47186	100.0%	14050	100.0%	23355

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H14052**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrllmt**, who smoked at least 100 cigarettes in their lifetime. Suppose you are also interested in sex differences, **xsexa**, among the groupings. **Xsexa** is the **Layer** variable. You want to remain in the South region, using **filtr\_6** as the filter variable. The cases will be weighted by **FWRWT**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

Do the following:

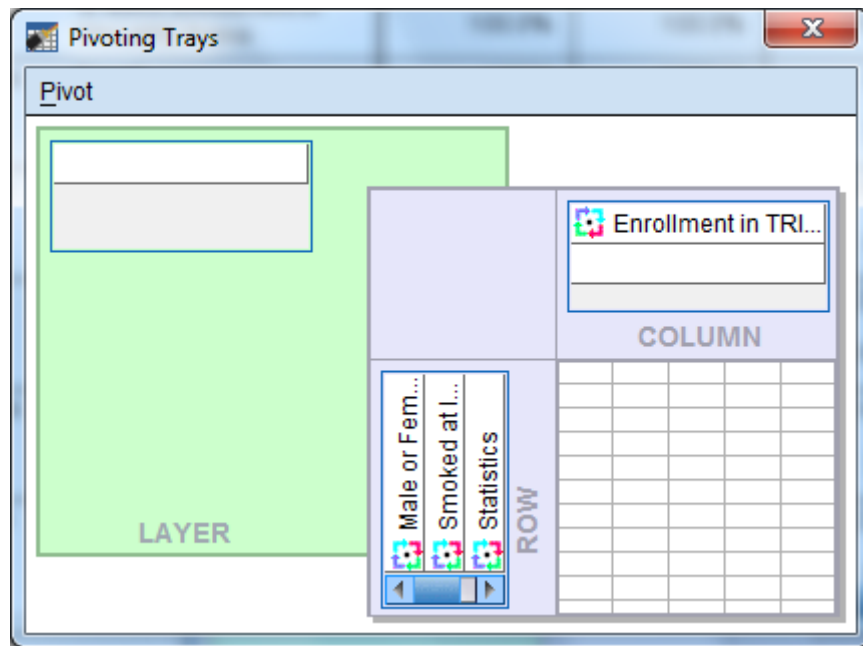

- Run Crosstabs.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

The screenshot shows an Excel window titled "Pivot Table Smoked at least 100 cigarettes in life \* Enrollment in TRICARE Prime \* Male or Female - R Crosstabulation". The PivotTable is structured as follows:

Male or Female - R				Enrollment in TRICARE Prime				
				Active Duty - under 65	Enrolled - under 65	Not enrolled - under 65	Not enrolled - 65 or over	Enrolled - 65 or over
Male	Smoked at least 100 cigarettes in life	Yes	Count	101650	115008	80758	249905	20692
			% within Enrollment in TRICARE Prime	34.8%	48.7%	45.1%	64.0%	71.4%
	No	Count	190172	121065	98132	140703	8277	
			% within Enrollment in TRICARE Prime	65.2%	51.3%	54.9%	36.0%	28.6%
	Total		Count	291822	236073	178890	390608	28969
			% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%
Female	Smoked at least 100 cigarettes in life	Yes	Count	22769	136267	78577	98828	14824
			% within Enrollment in TRICARE Prime	28.0%	26.6%	28.5%	34.0%	50.0%
	No	Count	58476	376897	197274	191651	14824	
			% within Enrollment in TRICARE Prime	72.0%	73.4%	71.5%	66.0%	50.0%
	Total		Count	81245	513164	275851	290479	29648
			% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%
Total	Smoked at least 100 cigarettes in life	Yes	Count	124419	251275	159335	348733	35516
			% within Enrollment in TRICARE Prime	33.4%	33.5%	35.0%	51.2%	60.6%
	No	Count	248648	497962	295406	332354	23101	
			% within Enrollment in TRICARE Prime	66.6%	66.5%	65.0%	48.8%	39.4%
	Total		Count	373067	749237	454741	681087	58617
			% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **Male or Female - R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

Pivot Table Smoked at least 100 cigarettes in life \* Enrollment in TRICARE Prime \* Male or Female - R Crosstabulation

## CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the Quarter II, 2014 Adult HCSDDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

## Variance Estimation Methods

The 2014 HCSDB uses a stratified sample design. To account for complex estimators for the sample design, it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or Jackknife replication, the public release files for the Quarter II, 2014 Adult HCSDB include the following variables:

- The stratum variable (STRATUM) for the Taylor series linearization method
- Quarterly final weight (FWRWT)
- Quarterly jackknife replicate weights (FWRWT01 to FWRWT60)

Three popular software packages are available for performing Taylor series linearization method: SAS/STAT<sup>®</sup> version 8.0 or higher, SUDAAN<sup>™</sup> (Research Triangle Institute, 2001) and WesVarPC (Brick et al. 1996), respectively. The last two software packages can be used for replication methods including Jackknife variance estimation. The discussion below explains how SUDAAN and SAS are used to calculate variance estimates using Taylor series linearization method, and how SUDAAN and WesVarPC are used to calculate variance estimates using Jackknife replication method.

### Taylor Series Linearization Method

For most sample designs (including the Quarter II, 2014 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in “The 2014 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”.

To calculate variance estimates based on the Taylor series linearization method with HCSDB's stratified sampling design, both the stratum variable (STRATUM) and the final weight (FWRWT) specified for each data record are needed.

### SUDAAN

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling design. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter II, 2014 Adult HCSDB, the data file for adults must be sorted by STRATUM before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can

be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.

- The WEIGHT variable is FWRWT.

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H14031), among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H14052=1) for each TNEC region (XTNEXREG)

```
PROC DESCRIPT DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
WEIGHT          FWRWT;  
NEST            STRATUM;  
SUBPOPN        H14052=1;  
SUBGROUP       XTNEXREG;  
LEVELS         4;  
VAR            H14031;  
RUN;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in TNEC region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H14049) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
WEIGHT          FWRWT;  
NEST            STRATUM;  
SUBPOPN        XTNEXREG = 3;  
SUBGROUP       H14049 XENRLLMT;  
LEVELS         3 5;  
TABLES         H14049 *XENRLLMT;  
RUN;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.
- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Research Triangle Institute (2001).

## SAS

SAS/STAT version 8.0 and higher provide procedures for survey sampling. These procedures can be used to analyze data from a stratified random sampling. These procedures include:

- PROC SURVEYMEANS: for estimating population means, totals, and proportions, including domain (subpopulation) estimates

- PROC SURVEYREG: for performing linear regression model fitting.

The following procedures were added to SAS/STAT version 9.0:

- PROC SURVEYFREQ: for constructing one-way frequency tables, two-way and multiway crosstabulation tables, and estimating population totals and proportions
- PROC SURVEYLOGISTIC: for performing cumulative logit regression model fitting, logit, complementary log-log, and probit link functions, and generalized logit regression model fitting.

The above procedures currently provide only the Taylor series linearization method to estimate standard error or variance of the estimate.

The following program is an example of how to use SAS/STAT to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H14031), among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H14052=1) for each TNEX region (XTNEXREG)

```
PROC SURVEYMEANS DATA=HCSDB;  
WEIGHT          FWRWT;  
STRATA          STRATUM;  
DOMAIN          H14052 * XTNEXREG;  
VAR             H14031;  
RUN;
```

The above codes will provide output for H14052=1 and 2. User only needs to use output from H14052=1.

The following program is an example of how to use SAS/STAT to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in each TNEX region who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H14049) by TRICARE enrollment (XENRLLMT).

```
PROC SURVEYFREQ DATA=HCSDB;  
WEIGHT          FWRWT;  
STRATA          STRATUM;  
TABLES          XTNEXREG * H14049 * XENRLLMT;  
RUN;
```

For a more detailed and complete discussion of how to use SAS/STAT, see SAS Institute Inc. (1999) and SAS Institute Inc. (2004)..

### Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as Jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, Jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (FWRWT01-FWRWT60) for the Quarter II, 2014 Adult HCSDb file. Construction of these weights is described in the “2014 Health Care Survey of DoD Beneficiaries: Adult Technical Manual”. With the replicate weights, you can produce Jackknife standard errors using in-house or custom-written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 8. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvar/demo/index.html>), the example below explains how it is used to produce Jackknife variance estimates for statistics from the Quarter II, 2014 Adult HCSDb.

Suppose you want to estimate the mean rating of the specialist seen most often (H14031) among all beneficiaries who smoked at least 100 cigarettes in their lifetime (H14052=1) for each region (XTNEXREG). You would use SUDAAN or WesVarPC as follows.

#### SUDAAN

```
PROC DESCRIPT DATA=HCSDb DESIGN=JACKKNIFE;  
WEIGHT FWRWT ;  
JACKWGTS FWRWT1-FWRWT60 / ADJJACK=1 ;  
SUBPOPN H14052=1;  
SUBGROUP XTNEXREG;  
LEVELS 4;  
VAR H14031 ;  
OUTPUT NSUM MEAN SEMEAN / TABLECELL=DEFAULT FILENAME=OUT1 ;  
RUN;
```

#### WESVARPC

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the *Prep* menu, choose the *Import Data Files* screen and import all variables for the analysis. For this example, input H14052, H14031, and XTNEXREG into the *Variables* box, FWRWT1-FWRWT60 into the *Replicates* box, and MPRID into the *ID* box. Also specify the replication method as JK1 on this screen.
- **Create a data file for the subpopulation.** Specify the subpopulation by choosing the *Subpop WesVarPC Data File* from the *Prep* menu: H14052=1.
- **Calculate estimates.** From the *Tables* menu, choose *New* and select the file created from the above procedure. Then, from the *Table Request* screen, specify H14031 as the *Analysis* variable, MEAN (H14031) as the *Compute Statistics*, and XTNEXREG as the *Table*.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Chapter  
**5**

## Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

<b>H14005 - In last year: facility used most for health care</b>					
<b>Value</b>	<b>Unweighted</b>		<b>Weighted</b>		<b>Formatted Value</b>
	<b>Count</b>	<b>Percent</b>	<b>Count</b>	<b>Percent</b>	
.	19	0.20	11646.20	0.16	Did not answer
1	5397	58.14	2613347.00	34.97	A military facility
2	3184	34.30	4179438.00	55.93	A civilian facility
3	33	0.36	63876.80	0.85	Uniformed Services Fam Hlth Plan facility
4	293	3.16	285904.40	3.83	Veterans Affairs (VA) clinic or hospital
5	356	3.84	317887.90	4.25	Went to none of listed types of facility

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age. You will notice that the second to last range representing ages “75 years to 85” includes 160 respondents aged 75 to 85.

<b>RDAGEQY - Age at time of sample preparation-Capped (18 and below, 86 and above)</b>					
<b>Value</b>	<b>Unweighted</b>		<b>Weighted</b>		<b>Formatted Value</b>
	<b>Count</b>	<b>Percent</b>	<b>Count</b>	<b>Percent</b>	
18	68	0.73	83714.41	1.12	18 and younger
19 -- 34	2928	31.54	2191481.00	29.33	19--34
35 -- 44	1948	20.99	890025.40	11.91	35--44
45 -- 54	1700	18.32	815867.90	10.92	45--54

# Health Care Survey of DoD Beneficiaries

A world-wide survey of beneficiaries  
eligible for health care coverage through  
the military health system

January 2014

***THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.***

**Military Health Care Survey:**

**Adult Questionnaire**

**January 2014**

**Privacy Advisory**

Providing information in this Survey is voluntary. There is no penalty nor will your benefits be affected if you choose not to respond, although maximum participation is encouraged so that the data will be complete and representative.

The Survey was written so that answers should not require you to provide any personally identifiable information (PII), but please be assured that any PII provided will be treated as confidential. Your responses are collected via a secure system which does not collect any information that could be used to determine your identity.

Answering the questions is voluntary; you may stop the Survey at any time.

According to the Privacy Act of 1974 (5 U.S.C. §552a), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

**Authority:** 10 U.S.C. §1074 (Medical and Dental Care for Members and Certain Former Members, as amended by National Defense Authorization Act of 1993, Public Law 102-484, §706); 10 U.S.C. §1074f (Medical Tracking System for Members Deployed Overseas); 32 C.F.R. §199.17 (TRICARE Program); 45 C.F.R. Part 160 Subparts A and E of Part 164 (Health Insurance Portability and Accountability Act of 1996, Privacy Rule); DoD 6025.18-R (Department of Defense Health Information Privacy Regulation); DoD 6025.13-R (Military Health System Clinical Quality Assurance Program Regulation); 64 FR 22837 (DHA 08 – Health Affairs Survey Data Base, April 28, 1999); and, E.O. 9397 (as amended, November 20, 2008, for SSN collection).

**Purpose:** This survey helps health policy makers gauge beneficiary satisfaction with the current military health care system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

**Routine Uses:** None.

**Disclosure:** Participation is voluntary. Failure to respond will not result in any penalty to the respondent however maximum participation is encouraged so that data will be as complete and representative as possible.

## **SURVEY INSTRUCTIONS**

Thank you for taking the time to participate in this online survey.

Please note, if the survey is idle for more than 5 minutes, you will be logged out automatically to protect your privacy. If that happens, simply wait 15 minutes and log back in. Please keep your password because you may need it later.

During the survey, please do not use your browser's FORWARD and BACK buttons. Instead, please always use the buttons below to move backward and forward through the survey.

To begin, just click on the "Next" button below. This will take you right into the survey.

## SURVEY STARTS HERE

As an eligible TRICARE beneficiary, please complete this survey even if you did not receive your health care from a military facility.

Please recognize that some specific questions about TRICARE benefits may not apply to you, depending on your entitlement and particular TRICARE program.

This survey is about the health care of the person whose name appears on the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to that person.

**Question 1: Are you the person whose name appears on the cover letter?**

**Variable name:** H14001

**Editing notes:** none

<b>Response</b>	<b>Directions</b>	<b>Value</b>	<b>Percent</b>
Yes	Go to Question 2	1	99.8%
No	Please give this questionnaire to the person addressed on the cover letter.	2	0.2%

**Question 2: By which of the following health plans are you currently covered?****MARK ALL THAT APPLY****Variable names:** H14002A-H14002V**Editing notes:** none**Military Health Plans**

<b>Response</b>	<b>Variable Name</b>	<b>Percent Marked</b>
TRICARE Prime (including most Active Duty, TRICARE Prime Remote, and TRICARE Overseas)	H14002A	47.1%
TRICARE Extra or Standard (CHAMPUS)	H14002C	13.3%
TRICARE Plus	H14002N	0.6%
TRICARE for Life	H14002O	28.9%
TRICARE Supplemental Insurance	H14002P	0.6%
TRICARE Reserve Select	H14002Q	2.6%
TRICARE Retired Reserve	H14002S	2.0%
TRICARE Young Adult Prime	H14002T	0.6%
TRICARE Young Adult Extra or Standard	H14002V	0.4%
Uniformed Services Family Health Plan (USFHP)	H14002K	1.2%
Continued Health Care Benefit Program (CHCBP) (a COBRA-like premium-based health care program)	H14002U	0.0%

**Other Health Plans**

<b>Response</b>	<b>Variable Name</b>	<b>Percent Marked</b>
Medicare	H14002F	28.3%
Federal Employees Health Benefit Program (FEHBP)	H14002G	2.4%
Medicaid	H14002H	0.6%
A civilian HMO (such as Kaiser)	H14002I	1.3%
Other civilian health insurance (such as Blue Cross)	H14002J	7.8%
The Veterans Administration (VA)	H14002M	6.4%
Government health insurance from a country other than the US	H14002R	0.1%
Not sure	H14002L	1.9%

**Question 3: Which health plan did you use for all or most of your healthcare in the last 12 months?**

**MARK ONLY ONE**

**Variable name:** H14003

**Editing notes:** See Note 1

<b>Response</b>	<b>Directions</b>	<b>Value</b>	<b>Percent</b>
TRICARE Prime (including most Active Duty, TRICARE Prime Remote, and TRICARE Overseas)		1	47.4%
TRICARE Extra or Standard (CHAMPUS)		3	8.2%
TRICARE Plus		11	0.7%

TRICARE Young Adult Extra or Standard		17	0.2%
Uniformed Services Family Health Plan (USFHP)		9	1.0%
Continued Health Care Benefit Program (CHCBP) (a COBRA-like premium-based health care program)		16	0.0%
Medicare (may include TRICARE for Life)		4	24.4%
Federal Employees Health Benefit Program (FEHBP)		5	1.4%
Medicaid		6	0.3%
A civilian HMO (such as Kaiser)		7	1.2%
Other civilian health insurance (such as Blue Cross)		8	6.0%
The Veterans Administration (VA)		10	2.8%
Government health insurance from a country other than the US		13	0.1%
Not sure	Go to Question 5	-5	2.5%
Did not use any health plan in the last 12 months	Go to Question 5	-6	

**For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 3.**

**Question 4: How many months or years in a row have you been in this health plan?**

**Variable name:** H14004

**Editing notes:** See Note 1

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Less than 6 months	1	1.7%
6 up to 12 months	2	5.8%
12 up to 24 months	3	8.9%
2 up to 5 years	4	19.7%
5 up to 10 years	5	20.1%
10 or more years	6	43.8%

## YOUR HEALTH CARE IN THE LAST 12 MONTHS

These questions ask about your own health care. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

**Question 5: In the last 12 months, where did you go most often for your health care?**

**MARK ONLY ONE ANSWER**

**Variable name:** H14005

**Editing notes:** none

Response	Value	Percent
A military facility – This includes: Military clinic Military hospital PRIMUS clinic NAVCARE clinic	1	35.0%
A civilian facility – This includes: Doctor’s office Clinic Hospital Civilian TRICARE contractor	2	56.0%
Uniformed Services Family Health Plan facility (USFHP)	3	0.9%
Veterans Affairs (VA) clinic or hospital	4	3.8%
I went to none of the listed types of facilities in the last 12 months	5	4.3%

**Question 6: In the last 12 months, did you have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor’s office?**

**Variable name:** H14006

**Editing notes:** See Note 2

Response	Directions	Value	Percent
Yes		1	40.0%
No	Go to Question 9	2	60.0%

**Question 7: In the last 12 months, when you needed care right away, how often did you get care as soon as you needed?**

**Variable name:** H14007

**Editing notes:** See Note 2

Response	Value	Percent
Never	1	2.5%
Sometimes	2	11.9%
Usually	3	17.5%
Always	4	68.2%
I didn’t need care right away for an illness, injury or condition in the last 12 months	-6	

**Question 8: In the last 12 months, when you needed care right away for an illness, injury, or condition, how long did you usually have to wait between trying to get care and actually seeing a provider?**

**Variable name:** H14008

**Editing notes:** See Note 2

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Same day	1	62.2%
1 day	2	13.7%
2 days	3	7.0%
3 days	4	3.9%
4-7 days	5	5.9%
8-14 days	6	3.2%
15 days or longer	7	3.9%
I didn't need care right away for an illness, injury or condition in the last 12 months	-6	

**Question 9: In the last 12 months, not counting the times you needed health care right away, did you make any appointments for your health care at a doctor's office or clinic?**

**Variable name:** H14009

**Editing notes:** See Note 3\_Q2

I had no treatment or counseling in the last 12 months	-6	

## YOUR HEALTH PLAN

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 3.

**Question 46: In the last 12 months, did you try to get any kind of care, tests, or treatment through your health plan?**

**Variable name:** H14032

**Editing notes:** See Note 11

Response	Directions	Value	Percent
Yes		1	76.9%
No	Go to Question 48	2	23.1%

**Question 47: In the last 12 months, how often was it easy to get the care, tests, or treatment you needed?**

**Variable name:** H14033

**Editing notes:** See Note 11

Response	Value	Percent
Never	1	1.8%
Sometimes	2	8.6%
Usually	3	23.2%
Always	4	66.3%
I didn't need care, tests, or treatment through my health plan in the last 12 months	-6	

**Question 48: In the last 12 months, did you look for any information in written materials or on the Internet about how your health plan works?**

**Variable name:** H14034

**Editing notes:** See Note 12

Response	Directions	Value	Percent
Yes		1	34.3%
No	Go to Question 50	2	65.7%

**Question 49: In the last 12 months, how often did the written material or the Internet provide the information you needed about how your plan works?**

**Variable name:** H14035

**Editing notes:** See Note 12

Response	Value	Percent
Never	1	3.0%
Sometimes	2	25.1%
Usually	3	46.7%
Always	4	25.2%
I didn't look for information from my health plan in the last 12 months	-6	

**Question 50: Sometimes people need services or equipment beyond what is provided in a regular or routine office visit, such as care from a specialist, physical therapy, a hearing aid, or oxygen. In the last 12 months, did you look for information from your health plan on how much you would have to pay for a health care service or equipment?**

**Variable name:** H14036

**Editing notes:** See Note 13

Response	Directions	Value	Percent
Yes		1	15.3%
No	Go to Question 52	2	84.7%

**Question 51: In the last 12 months, how often were you able to find out from your health plan how much you would have to pay for a health care service or equipment?**

**Variable name:** H14037

**Editing notes:** See Note 13

Response	Value	Percent
Never	1	12.6%
Sometimes	2	22.4%
Usually	3	37.1%
Always	4	27.9%
I didn't need a health care service or equipment from my health plan in the last 12 months	-6	

**Question 52: In some health plans, the amount you pay for a prescription medicine can be different for different medicines, or can be different for prescriptions filled by mail instead of at the pharmacy. In the last 12 months, did you look for information from your health plan on how much you would have to pay for specific prescription medicines?**

**Variable name:** H14038

**Editing notes:** See Note 14

Response	Directions	Value	Percent
Yes		1	21.6%
No	Go to Question 54	2	78.4%

**Question 53: In the last 12 months, how often were you able to find out from your health plan how much you would have to pay for specific prescription medications?**

**Variable name:** H14039

**Editing notes:** See Note 14

## REFERRALS TO SPECIALISTS

The following questions ask about your experiences getting referrals to specialists. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of healthcare. Beneficiaries enrolled in TRICARE Prime must get a referral before seeing a specialist, while other health plans may have different requirements.

**Question 63: Does the plan you use for all or most of your healthcare require you to get a referral from a doctor in order to see a specialist?**

**Variable name:** S14R01

**Editing notes:** See Note 17\_R1

Response	Directions	Value	Percent
Yes		1	63.5%
No	Go to Question 65	2	36.5%

**Question 64: In the last 12 months did a doctor refer you to a specialist?**

**Variable name:** S14R02

**Editing notes:** See Note 17\_R1

Response	Value	Percent
Yes	1	62.7%
No	2	37.3%

**Question 65: In the last 12 months how did you select the specialist(s) you saw?**

**MARK ALL THAT APPLY**

**Variable names:** S14R03A-S14R03E

**Editing notes:** See Note 17\_R2

Response	Directions	Variable Name	Percent Marked
I did not see a specialist in the last 12 months	Go to Question 78	S14R03A	34.0%
My doctor told me what specialist to see		S14R03B	65.8%
I received a suggestion from a friend or relative		S14R03C	8.8%
I picked the specialist from a list supplied by TRICARE or my health plan		S14R03D	17.3%
I picked the specialist on my own		S14R03E	19.4%

**Question 66: In the last 12 months, when you needed to see a specialist, how did you make an appointment?**

**MARK ALL THAT APPLY**

**Variable names:** S14R04A-S14R04G

**Editing notes:** See Note 17\_R2

Response	Variable Name	Percent Marked
Contacted the appointment line or referral desk	S14R04A	20.7%
Called an MTF	S14R04B	6.6%
Called my personal doctor's office	S14R04C	5.3%
Called the specialist's office	S14R04D	54.0%
Asked my personal doctor to make the appointment	S14R04E	4.9%
My personal doctor made the appointment for me	S14R04F	24.0%
Other	S14R04G	4.9%

**Question 67: In the last 12 months, how much of a problem, if any, was it to understand the process you needed to follow to see a specialist?**

**Variable name:** S14R05

**Editing notes:** See Note 17\_R2

Response	Value	Percent
A big problem	1	3.9%
A small problem	2	13.4%
Not a problem	3	82.7%

**Question 68: In the last 12 months, were you referred to any civilian specialists?**

**Variable name:** S14R06

**Editing notes:** See Notes 17\_R2 and 17\_R3

## PREVENTIVE CARE

Preventive care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or blood pressure screening are examples of preventive care.

**Question 78: When did you last have a blood pressure reading?**

**Variable name:** H14049

**Editing notes:** none

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Less than 12 months ago	3	93.2%
1 to 2 years ago	2	4.6%
More than 2 years ago	1	2.2%

**Question 79: Do you know if your blood pressure is too high?**

**Variable name:** H14050

**Editing notes:** none

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Yes, it is too high	1	15.5%
No, it is not too high	2	79.4%
Don't know	3	5.0%

**Question 80: When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?**

**Variable name:** S14015

**Editing notes:** none

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Less than 12 months ago	5	63.6%
1 to 2 years ago	4	14.3%
More than 2 but less than 5 years ago	3	6.2%
5 or more years ago	2	2.8%
Never had a cholesterol screening	1	13.2%

**Question 81: When did you last have a flu shot?**

**Variable name:** H14051

**Editing notes:** none

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Less than 12 months ago	4	72.0%
1 – 2 years ago	3	8.2%
More than 2 years ago	2	10.4%
Never had a flu shot	1	9.4%

**Question 82: Have you ever smoked at least 100 cigarettes in your entire life?**

**Variable name:** H14052

**Editing notes:** none

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Yes	1	38.4%
No	2	60.1%
Don't know	-5	1.5%

**Question 83: Do you now smoke cigarettes or use tobacco every day, some days or not at all?**

**Variable name:** H14053

**Editing notes:** See Note 18

<b>Response</b>	<b>Directions</b>	<b>Value</b>	<b>Percent</b>
Every day	Go to Question 84	4	8.4%
Some days	Go to Question 84	3	5.0%
Not at all	Go to Question 88	2	86.3%
Don't know	Go to Question 88	-5	0.3%

**Question 84: In the last 12 months, how often were you advised to quit smoking or using tobacco by a doctor or other health provider in your plan?**

**Variable name:** H14054

**Editing notes:** See Note 18

<b>Response</b>	<b>Value</b>	<b>Percent</b>
Never	1	22.2%
Sometimes	2	20.3%
Usually	3	20.8%
Always	4	36.8%

**Question 85: In the last 12 months, how often was medication recommended or discussed by a doctor or health provider to assist you with quitting smoking or using tobacco? Examples of medication are: nicotine gum, patch, nasal spray, inhaler, or prescription medication.**

SSGT JANE DOE  
222 S. RIVERSIDE DRIVE  
CHICAGO, IL 60606-5809

Dear SSGT JANE DOE:

We at the Department of Defense (DoD) invite you to participate in the **January 2014 Health Care Survey of Department of Defense Beneficiaries**. We would very much appreciate your opinions by completing a brief online survey. Your feedback will benefit not only you and your family, but also other fellow military families. This survey is not about a particular health care visit, but about your health care experiences overall. The results are used to evaluate the services you have received in meeting your health care needs either through TRICARE or any other health insurance plan. DoD takes this survey very seriously and your input is truly critical to our efforts.

Please find the survey web site below. Please complete it **before January 31st**. If you are an active duty service member, we will also send this link to your military email address through a digitally signed email.

[www.ipsosresearch.com/januarysurvey14](http://www.ipsosresearch.com/januarysurvey14)

Your password: **4654321**

You have been scientifically selected for this survey as representative of our 9.6 million eligible military health system beneficiaries. You may be asked to participate only once per year. Our records show you are eligible to use DOD's TRICARE health care program. Even if you don't use your TRICARE benefits, either on a military installation or in a civilian provider's office, we are still interested in understanding how you feel about your health care experience. Your answers will be kept confidential, and the survey vendor DoD has contracted with to field this survey will not share any information that could identify you. Your answers will not affect your benefits.

The survey takes about 15 minutes to complete. If your work or installation's server blocks the survey site, please try to reach the survey from a civilian internet source, like a home computer or tablet (such as an iPad, Surface, Kindle Fire, etc.). Also, if you are having trouble finding the survey, please make sure you are not searching for the web site address and instead, please type the web address directly in the address bar of your browser.

If you have questions about the survey or don't want to participate, please contact the Survey Processing Center by sending an email to [dod.health@ipsos-research.com](mailto:dod.health@ipsos-research.com); by calling **1-877-236-2390**; or sending a fax to **1-800-409-7681**. For prompt assistance, please include your ID number, **1234567890**. For questions related to TRICARE, please go to [www.tricare.mil/contactus](http://www.tricare.mil/contactus), or for the north region call 877-874-2273, south 800-444-5445, or west 888-874-9378.

Thank you for your time!  
Sincerely,

Richard D. Guerin, Ph.D.

Director, Defense Health Cost Assessment and Program Evaluation Office of the  
Assistant Secretary of Defense (Health Affairs)/Defense Health Agency

To verify the legitimacy of this survey, please go to the TRICARE web site at [www.tricare.mil/hpae/home](http://www.tricare.mil/hpae/home) and click on Current Active Surveys under Announcements. You can locate the survey by name or by its DoD RCS License Number - RCS# DD-HA(A) 1942. For more information about the survey, click on Health Care Survey of DoD Beneficiaries under Related Links.

222 S. RIVERSIDE DRIVE  
CHICAGO, IL 60606-5809

Dear SSGT JANE DOE:

Your input is critical to the success of the **January 2014 Health Care Survey of Department of Defense Beneficiaries**. Approximately a month ago, we sent you an invitation to take the survey. If you already completed the survey online, I thank you for your participation. If you have yet completed the survey, please log on at the web site below to complete the survey **before March 10, 2014**.

[www.ipsosresearch.com/januarysurvey14](http://www.ipsosresearch.com/januarysurvey14)

Your password: **7654321**

Be sure to enter the address into the address box of your internet browser, **not a search engine** (e.g., Google or Yahoo). The site can be accessed from any computer with internet access, at home or elsewhere. For more help, please look on the other side of this letter.

The purpose of the January 2014 Health Care Survey of DoD Beneficiaries is to examine the health care experiences of our 9.6 million military health system beneficiaries. The results of the survey will be used to evaluate the care that members of the military and their families receive either through TRICARE or any other program. Even if you don't use TRICARE now, either on a military installation or in a civilian provider's office, we still want to understand your health care experiences. Your answers will be kept confidential, and the survey vendor DoD has contracted with to field this survey will not share any information that could identify you. Your participation is voluntary and will not affect your health benefits. The survey takes about 15 minutes to complete.

If you have questions about the survey or don't want to participate, please contact the Survey Processing Center by sending an email to [dod.health@ipsos-research.com](mailto:dod.health@ipsos-research.com); by calling **1-877-236-2390**; or sending a fax to **1-800-409-7681**. ## SAMPLE FREQUENTLY ASKED QUESTIONS PAGE - Quarter II

### FREQUENTLY ASKED QUESTIONS

#### **Why should I take part in this survey?**

Your feedback will benefit not only you and your family, but also other fellow military families. This important survey about your health care experiences will be used to evaluate the services beneficiaries have received in meeting their health care needs.

#### **Is this survey regarding a particular health care visit?**

No, this survey will ask you questions regarding your overall experience with your health care and not about a specific health care visit.

#### **I don't currently use TRICARE. Do I need to complete this survey?**

Yes, even if you don't currently use TRICARE or visit a military hospital, we would still very much appreciate your responses to this survey. This survey will help improve TRICARE for those who currently use it and for you if you come to use it someday.

#### **How can I complete the survey if I do not have a computer?**

This survey cannot be completed over the phone or through the mail. However, there are several places in your community that may provide computers as well as Internet access to the public at no charge. You may find that your public libraries, recreational centers, seniors' centers, and community colleges have computers.

#### **How do I access the survey?**

Type the web site address (LISTED ON THE OTHER SIDE OF THIS LETTER) into your browser address bar—this is the box at the top of your browser window that displays the entire web address. Do *not* type the web address into the keyword search bar of a search engine, such as Google, Yahoo, or Bing. If your installation's server blocks the site, please try to access the survey website from a civilian internet source, like a home computer or tablet (such as an iPad, Surface, Kindle Fire, etc.).

#### **How was my name selected? Can you pick someone else?**

We selected a statistical sample of beneficiaries. Those selected cannot be replaced, and your responses to the survey are critical to helping us learn more about health care experiences. This survey is very important to DoD and your input is truly critical to our efforts.

#### **Who is Ipsos?**

Ipsos is a worldwide market research company hired by Defense Health Agency to conduct the study. Ipsos' US Public Affairs team conducts research on public policy issues and on the attitudes and behaviors of citizens. For more information, go to [www.ipsos.com](http://www.ipsos.com).

#### **I have questions regarding TRICARE, not this survey. Where can I get answers?**

The survey vendor, Ipsos, may not be able to answer questions regarding TRICARE or TRICARE eligibility. For those, please go to [www.tricare.mil/contactus](http://www.tricare.mil/contactus), or call 877-874-2273 for the north region, 800-444-5445 for the south, or 888-874-9378 for the west.

## QUARTER II

### 2014 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

#### BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS		ASCII/EBCDIC	Description
Numeric	Numeric		
.	-9	No response	
.O	-7	Out of range error	
.N	-6	Not applicable or valid skip	
.D	-5	Scalable response of “don’t know” or “not sure”	
.I	-4	Incomplete grid error	
.C	-1	Question should have been skipped	

Missing values ‘.’ and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:  
H14003, H14004**

N1	H14003 is:	H14004 is:	H14003 is coded as:	H14004 is coded as:	*
1	1-16: Health plan	Marked or missing response	Stands as original value	Stands as original value	
2	-6: No usage in past 12 months or -5: Not sure	Marked response	Stands as original value	.C: Question should be skipped	F
3	-6: No usage in past 12 months or -5: Not sure	Missing response	Stands as original value	.N: Valid skip	F
4	Missing response	Marked or missing response	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:  
H14006, H14007, H14008**

N2	H14006 is:	H14007-H14008 are:	H14006 is coded as:	H14007-H14008 are coded as:	*
1	1: Yes	“All are blank”	Stands as original value	Stand as original value	
2	1: Yes or .: missing	“Blank or NA”	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	1: Yes	“One marked and one NA”	Stands as original value	.: Missing if -6; stand as original value otherwise	F
4	1: Yes	At least one is “marked”	Stands as original value	Stand as original value	
5	2: No	“One marked and one NA”	Stands as original value	.C: Question should be skipped	F
6	2: No or .: missing	At least one is “marked”	1: Yes	.: Missing if -6; stand as original value otherwise	B F
7	2: No	“All are blank” or “blank or NA”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
8	.: Missing	“All are blank”	Stands as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 2:  
Responses to H14007-H14008 are all missing.

Definition of “blank or NA” in Coding Table for Note 2:  
All of the following are true: H14007-H14008 are a combination of not applicable (-6) or missing.

Definition of “one marked and one NA” in Coding Table for Note 2:  
H14007-H14008 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 2:  
Any pattern of marks outside the definitions “all are blank”, “one marked and one NA”, and “blank or NA”.

**Coding Table for Note 3\_Q2:  
H14009, H14010, H14011, S14BC01A-S14BC04G**

N3_Q2	H14009 is:	H14010-H14011 are:	S14BC01A- S14BC04G are:	H14009 is coded as:	H14010- H14011 are coded as:	S14BC01A- S14BC04G are coded as:	*
1	1: Yes	“All are blank”	Any value	Stands as original value	Stand as original value	Stand as original value	
2	1: Yes or .: missing	“Blank or NA”	Any value	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	B F
3	1: Yes	“One marked and one NA”	Any value	Stands as original value	.: Missing if -6; stand as original value otherwise	Stand as original value	F
4	1: Yes	At least one is “marked”	Any value	Stands as original value	Stand as original value	Stand as original value	
5	2: No	“One marked and one NA”	Any value	Stands as original value	.C: Question should be skipped	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
6	2: No or .: missing	At least one is “marked”	Any value	1: Yes	.: Missing if -6; stand as original value otherwise	Stand as original value	B F
7	2: No	“All are blank” or “blank or NA”	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
8	.: Missing	“All are blank”	Any value	Stands as original value	Stand as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 3:  
Responses to H14010-H14011 are all missing.

Definition of “blank or NA” in Coding Table for Note 3:  
All of the following are true: H14010-H14011 are a combination of not applicable (-6) or missing.

Definition of “one marked and one NA” in Coding Table for Note 3:  
H14010-H14011 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 3:  
Any pattern of marks outside the definitions “all are blank”, “one marked and one NA”, and “blank or NA”.

**Coding Table for Note 3\_BC1:**

**S14BC01A-S14BC01D, S14BC02A- S14BC02D, S14BC03A- S14BC03D, S14BC04A- S14BC04G**

N3_ BC1	S14BC01A- S14BC01C are:	S14BC01D is:	S14BC02A- S14BC02D S14BC03A- S14BC03D are:	S14BC04A - S14BC04G are:	S14BC01A - S14BC01C are coded as:	S14BC01D is coded as:	S14BC02A- S14BC02D S14BC03A- S14BC03D are coded as:	S14BC04A- S14BC04G is coded as:	*
---------	----------------------------	-----------------	--	--------------------------------	--	--------------------------	--	------------------------------------	---

1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original	Stands as original	Stands as original	Stands as original	
2	At least one is “marked”	Any value	Any value	Any value	Stands as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	Stands as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
3	“All are blank”	Marked	Any value	Any value	Stands as original	Stands as original	N: Valid skip if missing or unmarked; .C: question should be skipped if marked	Stands as original	F
4	“All are blank”	Not marked	Any value	Any value	Stands as original	Stands as original	Stands as original	Stands as original	

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 3\_BC1:  
Responses to S14BC01A- S14BC01C are all missing or unmarked.

Definition of “At least one is marked” in Coding Table for Note 3\_BC1:  
S14BC01A- S14BC01C have one response marked.

**Coding Table for Note 3\_BC2:**

**S14BC05A- S14BC05D, S14BC06A- S14BC06D, S14BC07A- S14BC07D, S14BC08A- S14BC08F**

N3_ BC2	S14BC05A- S14BC05C are:	S14BC05D is:	S14BC06A- S14BC06D S14BC07A- S14BC07D are:	S14BC08A - S14BC08F are:	S14BC05A - S14BC05C are coded as:	S14BC05D is coded as:	S14BC06A- S14BC06D S14BC07A- S14BC07D are coded as:	S14BC08A- S14BC08F is coded as:	*
---------	----------------------------	-----------------	--	--------------------------------	--	--------------------------	--	------------------------------------	---

1	At least one is "marked"	Any value	Any value	Any value	Stands as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	Stands as original	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
2	"All are blank"	Marked	Any value	Any value	Stands as original	Stands as original	N: Valid skip if missing or unmarked; .C: question should be skipped if marked	Stands as original	F
3	"All are blank"	Not marked	Any value	Any value	Stands as original	Stands as original	Stands as original	Stands as original	

\* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 3\_BC2:

Responses to S14BC05A- S14BC05C are all missing or unmarked.

Definition of "At least one is marked" in Coding Table for Note 3\_BC2:

S14BC05A- S14BC05C have one response marked.

**Coding Table for Note 4:  
H14013, H14014-H14018**

N4	H14013 is:	H14014-H14018 are:	H14013 is coded as:	H14014-H14018 are coded as:	*
1	1: None	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
2	2-7: Visits, or .: missing	“Blank or NA”	1: None	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2-7: Visits	At least one is “marked” or “all are blank”	Stands as original value	.: Missing if -6; stand as original value otherwise	F
4	.: Missing	“All are blank”	Stands as original value	Stand as original value	
5	.: Missing	At least one is “marked”	Stands as original value	.: Missing if -6; stand as original value otherwise	F

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 4:  
Responses to H14014-H14018 are all missing.

Definition of “blank or NA” in Coding Table for Note 4:  
All of the following are true: H14014-H14018 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 4:  
Any pattern of marks outside the definitions “all are blank” and “blank or NA”.

**Coding Table for Note 5:  
H14015, H14016-H14017**

N5	H14015 is:	H14016 is:	H14017 is:	H14015 is coded as:	H14016 is coded as:	H14017 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	1: Yes	Any value	Any value	Stands as original value	Stands as original value	Stands as original value	
3	2: No or .: missing	1: Definitely yes 2: somewhat yes	Any value	1: Yes	Stands as original value	Stands as original value	B
4	2: No or .: missing	3: Somewhat no, 4: definitely no, or .: missing	1: Definitely yes 2: somewhat yes	1: Yes	Stands as original value	Stands as original value	B
5	2: No	3: Somewhat no, 4: definitely no, or .: missing	3: Somewhat no, 4: definitely no, or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	3: Somewhat no, 4: definitely no, or .: missing	3: Somewhat no, 4: definitely no, or .: missing	Stands as original value	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:  
H14019, H14020-H14027, S14009**

N6	H14019 is:	H14020- H14024 are:	H14025- H14026, S14009 are:	H14027 is:	H14019 is coded as:	H14020- H14026, S14009 are coded as:	H14027 is coded as:	*
1	1: Yes	Any value	Any value	Any value	Stands as original value	Stand as original value	.: Missing if -6; stands as original value otherwise	F
2	2: No or .: missing	Any value	Any value	0-10	1: Yes	Stand as original value	Stands as original value	B
3	2: No or .: missing	At least one is "marked"	Any value	.: Missing	1: Yes	Stand as original value	Stands as original value	B
4	2: No	At least one is "marked"	Any value	-6: No personal doctor	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.C: Question should be skipped	F
5	2: No	"Blank or NA"	Any value	-6: No personal doctor or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	Any value	Any value	-6: No personal doctor	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	.C: Question should be skipped	B F
7	.: Missing	"Blank or NA"	Any value	.: Missing	Stands as original value	Stand as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of "blank or NA" in Coding Table for Note 6:

All of the following are true: H14020 is either 0: None or missing and H14021-H14024 are either not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 6:

Any pattern of marks for H14020-H14024 outside the definition "blank or NA".

**Coding Table for Note 7:  
H14020, H14021-H14026**

N7	H14020 is:	H14021-H14024 are:	H14025-H14026 are:	H14020 is coded as:	H14021-H14026 are coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Any value	Stands as original value	Stand as original value	
2	0: None	Any value	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	1-6: Visits, or .: missing	“Blank or NA”	Any value	0: None	.N: Valid skip if missing; .C: question should be skipped if marked	B F
4	1-6: Visits, or .: missing	At least one is “marked” or “all are blank”	Any value	Stands as original value	.: Missing if -6; stand as original value otherwise	F

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:  
Responses to H14021-H14024 are all missing.

Definition of “blank or NA” in Coding Table for Note 7:  
Responses to H14021-H14024 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 7:  
Any pattern of marks for H14021-H14024 outside the definitions “all are blank” and “blank or NA”.

**Coding Table for Note 8:  
H14025, H14026**

N8	H14025 is:	H14026 is:	H14025 is coded as:	H14026 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	1: Yes	Any value	Stands as original value	Stands as original value	
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	.: Missing	Stands as original value	.N: Valid skip	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 8\_01:  
S14009, S14010**

N8_01	S14009 is:	S14010 is:	S14009 is coded as:	S14010 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	Any value	Stands as original value	Stands as original value	
2	1: Yes	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: No	Any value	Stands as original value	Stands as original value	
4	.: Missing	Any value	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 9:  
H14028, H14029-H14031**

N9	H14028 is:	H14029-H14031 are:	H14028 is coded as:	H14029 is coded as:	H14030-H14031 are coded as:	*
1	1: Yes	Any value	Stands as original value	.: Missing if -6; stands as original value otherwise	Stand as original value	F
2	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stands as original value otherwise	Stand as original value	B
3	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	.: Missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	.N: Valid skip if missing; .C: question should be skipped if marked	B F
5	.: Missing	"All are blank"	Stands as original value	Stands as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 9:  
Responses to H14029-H14031 are all missing.

Definition of "blank or NA" in Coding Table for Note 9:  
All of the following are true: H14029 and H14031 are a combination of not applicable (-6) or missing. H14030 is either missing or 0: None.

Definition of "marked" in Coding Table for Note 9:  
Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 10:  
H14030, H14031**

N10	H14030 is:	H14031 is:	H14030 is coded as:	H14031 is coded as:	*
1	.N: Valid skip, or .C: question should be skipped	.N: Valid skip, or .C: question should be skipped	Stands as original value	Stands as original value	
2	1-5: Specialists	0-10 or .: missing	Stands as original value	Stands as original value	
3	1-5: Specialists or .: missing	-6: Didn't see a specialist in the last 12 months	0: None	.C: Question should be skipped	B F
4	0: None	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	0-10 or .: missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 10\_B1:  
S14B02, S14B03-S14B04**

N10_B1	S14B02 is:	S14B03-S14B04 are:	S14B02 is coded as:	S14B03-S14B04 are coded as:	*
1	1: Yes	Any value	Stands as original value	.: Missing if -6; stand as original value otherwise	F
2	2: No or .: missing	At least one is "marked"	1: Yes	.: Missing if -6; stand as original value otherwise	B F
3	2: No	"All are blank" or "blank or NA"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
4	.: Missing	"Blank or NA"	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
5	.: Missing	"All are blank"	Stands as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 10\_B1:  
Responses to S14B03-S14B04 are all missing.

Definition of "blank or NA" in Coding Table for Note 10\_B1:  
All of the following are true: S14B03-S14B04 are a combination of not applicable (-6) or missing.

Definition of "marked" in Coding Table for Note 10\_B1:  
Any pattern of marks outside the definitions "all are blank" and "blank or NA".

**Coding Table for Note 11:  
H14032, H14033**

N11	H14032 is:	H14033 is:	H14032 is coded as:	H14033 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't need care, tests, or treatment	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't need care, tests, or treatment or .: missing	Stands as original value	.N: Valid skip if missing; .C: Question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 12:  
H14034, H14035**

N12	H14034 is:	H14035 is:	H14034 is coded as:	H14035 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't look for information	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't look for information or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 13:  
H14036, H14037**

N13	H14036 is:	H14037 is:	H14036 is coded as:	H14037 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't need service or equipment	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't need service or equipment or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 14:  
H14038, H14039**

N14	H14038 is:	H14039 is:	H14038 is coded as:	H14039 is coded as:	*
1	1: Yes	1-4: How often or .: missing	Stands as original value	Stands as original value	
2	1: Yes or .: missing	-6: Didn't need prescription meds	2: No	.C: Question should be skipped	B F
3	2: No or .: missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn't need prescription meds or .: missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	.: Missing	.: Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15:  
H14040, H14041-H14042**

N15	H14040 is:	H14041-H14042 are:	H14040 is coded as:	H14041-H14042 are coded as:	*
1	1: Yes	At least one is “marked” or “all are blank”	Stands as original value	∴ Missing if –6; stand as original value otherwise	F
2	1: Yes or ∴ missing	“Blank or NA”	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2: No or ∴ missing	At least one is “marked”	1: Yes	∴ Missing if –6; stand as original value otherwise	B F
4	2: No	“All are blank” or “blank or NA”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	∴ Missing	“All are blank”	Stands as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 15:  
Responses to H14041-H14042 are all missing.

Definition of “blank or NA” in Coding Table for Note 15:  
All of the following are true: H14041-H14042 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 15:  
Any pattern of marks outside the definitions “all are blank” and “blank or NA”.

**Coding Table for Note 16:  
H14043, H14044**

N16	H14043 is:	H14044 is:	H14043 is coded as:	H14044 is coded as:	*
1	1: Yes	1-4: How often or ∴ missing	Stands as original value	Stands as original value	
2	1: Yes or ∴ missing	-6: Didn’t receive forms to fill out	2: No	.C: Question should be skipped	B F
3	2: No or ∴ missing	1-4: How often	1: Yes	Stands as original value	B
4	2: No	-6: Didn’t receive forms to fill out or ∴ missing	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	∴ Missing	∴ Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17:  
H14045, H14046-H14047**

N17	H14045 is:	H14046-H14047 are:	H14045 is coded as:	H14046-H14047 are coded as:	*
1	1: Yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	.: Missing if –6; stands as original value otherwise	F
2	1: Yes, -5: don’t know or .: missing	“Blank or NA” or “NA or don’t know”	2: No	.N: Valid skip if missing; .C: question should be skipped if marked	B F
3	2: No, -5: don’t know or .: missing	At least one is “marked”	1: Yes	.: Missing if –6; stands as original value otherwise	B F
4	2: No	None are “marked”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
5	-5: Don’t know	“Blank or don’t know” or “all are blank”	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
6	.: Missing	“Blank or don’t know” or “all are blank”	Stands as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 17:  
Responses to H14046-H14047 are all missing.

Definition of “blank or NA” in Coding Table for Note 17:  
Responses to H14046-H14047 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 17:  
Responses to H14046-H14047 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “NA or don’t know” in Coding Table for Note 17:  
Responses to H14046-H14047 are a combination of not applicable (-6) and don’t know (-5).

Definition of “marked” in Coding Table for Note 17:  
Any pattern of marks outside the definitions “all are blank,” “blank or NA,” “blank or don’t know,” or “NA or don’t know”.

**Coding Table for Note 17\_R1:  
S14R01, S14R02**

N17_R1	S14R01 is:	S14R02 is:	S14R01 is coded as:	S14R02 is coded as:	*
1	1: Yes or missing response	Any value	Stands as original value	Stands as original value	
2	2: No	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17\_R2:****S14R03A-S14R03E, S14R04A-S14R04G, S14R05-S14R15**

N17_R2	S14R03A is:	S14R03B-S14R03E, S14R04A-S14R04G, S14R05-S14R15 are:	S14R03A is coded as:	S14R03B-S14R03E, S14R04A-S14R04G, S14R05-S14R15 are coded as:	*
--------	----------------	---	-------------------------	--	---

1	1: Marked	At least one is "marked"	2: Unmarked	Stand as original value	B
2	1: Marked	"All are blank"	Stands as original value	.N: Valid skip	F
3	2: Unmarked	Any value	Stands as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 17\_R2:

Responses to S14R03B-S14R03E and S14R04A-S14R04G are all 2: unmarked and responses to S14R05-S14R15 are all missing.

Definition of "marked" in Coding Table for Note 17\_R2:

Any pattern of marks outside the definition "all are blank".

**Coding Table for Note 17\_R3:****S14R06, S14R07-S14R10**

N17_R3	S14R06 is:	S14R07-S14R10 are:	S14R06 is coded as:	S14R07-S14R10 are coded as:	*

3	2: No	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17\_R4:****S14R11, S14R12-S14R15**

N17_R4	S14R11 is:	S14R12-S14R15 are:	S14R11 is coded as:	S14R12-S14R15 are coded as:	*
--------	------------	--------------------	---------------------	-----------------------------	---

1	.N: valid skip	.N: valid skip	Stands as original value	Stand as original value	
2	1: Yes or missing response	Any value	Stands as original value	Stand as original value	
3	2: No	Any value	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 18:  
H14053, H14054-H14056, H14057A-H14057D**

N18	H14053 is:	H14054- H14056 are:	H14057A- H14057D are:	H14053 is coded as:	H14054- H14056, H14057A- H14057D are coded as:	*
1	3: Some days, 4: every day, or .: missing	Any value	Any value	Stands as original value	Stand as original value	
2	2: Not at all or -5: don't know	Any value	"All are unmarked"	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F
3	2: Not at all	Any value	At least one is "marked"	.: Missing	Stand as original value	B
4	-5: Don't know	Any value	At least one is "marked"	Stands as original value	.N: Valid skip if missing or unmarked; .C: question should be skipped if marked	F

\* Indication of backward coding (B) or forward coding (F).

Definition of "all are unmarked" in Coding Table for Note 18:  
Responses to H14057A-H14057D are all missing or unmarked.

Definition of "marked" in Coding Table for Note 18:  
Any pattern of marks outside the definition "all are unmarked"

**Coding Table for Note 19:**

**Note 19 (Part A)  
H14058, H14059B, H14060-H14064, SEX, XSEXA**

N19A _Q2	H14058 is:	SEX is:	H14059B--H14064 are:	XSEXA is coded as:
1	.: Missing	F	Any marked	2: Female
2	.: Missing	F	All missing	2: Female
3	.: Missing	M	Any marked	1: Male
4	.: Missing	M	All missing	1: Male
5	.: Missing	Z or .: missing	Any marked	2: Female
6	.: Missing	Z	All missing	.: Missing
7	.: Missing	.: Missing	All missing	.: Missing
8	1: Male	Any value	All missing	1: Male
9	1: Male	F	Any marked	2: Female
10	1: Male	M, Z, or .: missing	Any marked	1: Male
11	2: Female	Any value	Any marked	2: Female
12	2: Female	M	All missing	1: Male
13	2: Female	F, Z, or .: missing	All missing	2: Female

SEX (PNSEXCD) is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H14058), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

**Note 19B\_Q2**

**XSEXA, S14016-S14017, H14059B-H14064**

N19B_Q2	XSEXA is:	H14059B-H14064 are:	S14016-S14017 are:	H14059B-H14064 are coded as:	S14016-S14017 are coded as:	*
1	1: Male	Any value	Any value	.N: Valid skip if missing; .C: question should be skipped if marked	Stand as original value	F

13	.: Missing	.: Missing	Marked or .: missing	Any value	Stands as original value	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F)

**Coding Table for Note 22:  
H14067, H14068**

N22	H14067 is:	H14068 is:	H14067 is coded as:	H14068 is coded as:	*
1	1: Yes	Any value	Stands as original value	Stands as original value	
2	2: No or .: missing	1: Yes or 2: no	1: Yes	Stands as original value	B
3	2: No	.: Missing	Stands as original value	.N: Valid skip	F
4	.: Missing	.: Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 23:  
H14069, H14070**

N23	H14069 is:	H14070 is:	H14069 is coded as:	H14070 is coded as:	*
1	1: Yes	Any value	Stands as original value	Stands as original value	
2	2: No or .: missing	1: Yes or 2: no	1: Yes	Stands as original value	B
3	2: No	.: Missing	Stands as original value	.N: Valid skip	F
4	.: Missing	.: Missing	Stands as original value	Stands as original value	

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 23\_HT:  
H14069, H14071F, H14071I**

N23_HT	XSEXA is:	H14071F and H14071I are:	H14071F and H14071I are coded as:	*
1	1: Male or 2:Female	Height within range for gender or .: missing	Stands as original value	
2	1: Male or 2:Female	Height out of range for gender	.O: Out of range	F
3	.:Missing	Height within range for either gender or .: missing	Stands as original	
4	.:Missing	Height out of range for either gender	.O: Out of range	F

\* Indication of backward coding (B) or forward coding (F).

Definition of “Height within range for gender” in Coding Table for Note 23\_1:  
From 2006 NHIS, height for men is 63”-76” (5’3”-6’4”), height for woman is 59”-70” (4’11”-5’10”).

Definition of “Height out of range for gender” in Coding Table for Note 23\_1:  
Any height outside the definition of “Height within range for gender”.

Definition of “Height within range for either gender” in Coding Table for Note 23\_1:  
Use lowest and highest height from either gender to set range: 59”-76” (4’11”- 6’4”).

Definition of “Height out of range for either gender” in Coding Table for Note 23\_1:  
Any height outside the definition of “Height within range for either gender”.

**Coding Table for Note 23\_WT:  
H14069, H14070**

N23_WT	XSEXA is:	H14072 is:	H14072 is coded as:	*
1	1: Male or 2:Female	Weight within range for gender or .: missing	Stands as original value	
2	1: Male or 2:Female	Weight out of range for gender	.O: Out of range	F
3	.:Missing	Weight within range for either gender or .: missing	Stands as original	
4	.:Missing	Weight out of range for either gender	.O: Out of range	F

\* Indication of backward coding (B) or forward coding (F).

Definition of “Weight within range for gender” in Coding Table for Note 23\_2:  
From 2006 NHIS, weight for men is 126-299 pounds, weight for woman is 100-274 pounds.

Definition of “Weight out of range for gender” in Coding Table for Note 23\_2:  
Any height outside the definition of “Weight within range for gender”.

Definition of “Weight within range for either gender” in Coding Table for Note 23\_2:  
Use lowest and highest weight from either gender to set range: 100-299 pounds.

Definition of “Weight out of range for either gender” in Coding Table for Note 23\_2:  
Any height outside the definition of “Weight within range for either gender”.

**Coding Table for Note 24:  
H14073, H14073A-H14073E**

N24	H14073A is:	H14073B is:	H14073C is:	H14073D is:	H14073E is:	H14073 is coded as:	H14073A-E are coded as:	*
1	Any value	1: Marked	Any value	Any value	Any value	2: Yes, Mexican, Mexican American, Chicano	Stand as original value	F
2	Any value	2: Unmarked	Any value	Any value	1: Marked	5: Yes, other Spanish, Hispanic, or Latino	Stand as original value	F
3	Any value	2: Unmarked	1: Marked	Any value	2: Unmarked	3: Yes, Puerto Rican	Stand as original value	F
4	Any value	2: Unmarked	2: Unmarked	1: Marked	2: Unmarked	4: Yes, Cuban	Stand as original value	F
5	1: Marked	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	1: No, not Spanish, Hispanic, or Latino	Stand as original value	F
6	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	2: Unmarked	.: Missing	Stand as original value	F

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 25:  
H14074, H14075-H14079**

N25	H14074 is:	H14075-H14079 are:	H14074 is coded as:	H14075-H14079 are coded as:	*
1	1: Yes	Any value	Stands as original value	Stand as original value	
2	2: No or -5: don't know	"All are uncovered/unknown"	Stands as original value	.N: Valid skip if missing; .C: question should be skipped if marked	F
3	2: No, -5: don't know, or .: missing	At least one is "covered"	1: Yes	Stand as original value	B
4	.: Missing	"All are uncovered/unknown"	Stands as original value	Stand as original value	

\* Indication of backward coding (B) or forward coding (F).

Definition of "all are uncovered/unknown" in Coding Table for Note 25:  
Responses to H14075-H14079 are all 2: no, -5: don't know, or missing.

Definition of "covered" in Coding Table for Note 25:  
Any pattern of marks outside the definition "all are uncovered/unknown".

70	H14029	Num	4	OFTEN9_.		Lst yr: how often easy to get appointments with spclsts
71	H14030	Num	4	SPCLST.		Lst yr: how many spclsts seen
72	H14031	Num	4	RATE2_.		Rating of specialist seen in lst yr
73	H14032	Num	4	YN.		Lst yr: did try to get care, test, or trtmnt through health plan
74	H14033	Num	4	OFTEN11_.		Lst yr: how often easy to get care, test, or trtmnt

## The CONTENTS Procedure

## Alphabetic List of Variables and Attributes

#	Variable	Type	Len	Format	Informat	Label
75	H14034	Num	4	YN.		Lst yr: did look for info from written material/Internet
76	H14035	Num	4	OFTEN12_.		Lst yr: how often written material/Internet provide needed info
77	H14036	Num	4	YN.		Lst yr: did look for info from health plan on cost of service/equipment
78	H14037	Num	4	OFTEN13_.		Lst yr: how often able to find out cost of service/equipment
79	H14038	Num	4	YN.		Lst yr: did look for info from health plan on cost of prescription meds
80	H14039	Num	4	OFTEN14_.		Lst yr: how often able to find out cost of prescription meds
81	H14040	Num	4	YN.		Lst yr: did try to get info/help from health plan's cstmr service
82	H14041	Num	4	OFTEN15_.		Lst yr: how often did cstmr service give needed info/help
83	H14042	Num	4	OFTEN15_.		Lst yr: how often did cstmr service treat with courtesy/respect
84	H14043	Num	4	YN.		Lst yr: did health plan give any forms to fill out
85	H14044	Num	4	OFTEN16_.		Lst yr: how often were forms easy to fill out
86	H14045	Num	4	YNDNK.		Lst yr: send in any claims
87	H14046	Num	4	OFTEN6_.		Lst yr: how often did health plan handle claims quickly
88	H14047	Num	4	OFTEN6_.		Lst yr: how oft handle claims correctly
89	H14048	Num	4	RATE4_.		Rating of all experience with hlth plan
90	H14049	Num	4	TIME5_.		Blood pressure: when lst reading
91	H14050	Num	4	YNBP_.		Blood pressure: know if too high or not
92	H14051	Num	4	TIME7_.		When did you lst have a flu shot
93	H14052	Num	4	YNDNK.		Smoked at least 100 cigarettes in life
94	H14053	Num	4	TIME8_.		Smoke or use tobacco everyday, some days or not at all
95	H14054	Num	4	OFTEN8_.		Lst yr: how often advised to quit smoking or use tobacco
96	H14055	Num	4	OFTEN8_.		Lst yr: how often recom medic assist quit smoking or using tobacco
97	H14056	Num	4	OFTEN8_.		Lst yr: how often discu meth/strag asst quit smoking or using tobacco
102	H14058	Num	4	SEX.		Are you male or female
104	H14060	Num	4	YN.		Are you under age 40
105	H14061	Num	4	TIME12_.		Lst time: breasts checked mammography
106	H14062	Num	4	YNPREG.		Been pregnant in lst yr or pregnant now
107	H14063	Num	4	PREG1_.		In what trimester is your pregnancy
108	H14064	Num	4	PREG2_.		Trimester first received prenatal care
109	H14065	Num	4	HEALTH.		In gnrl, how would you rate ovrrall hlth
110	H14066	Num	4	YN.		Impairment/Hlth prblm limit activities
111	H14067	Num	4	YN.		Lst yr: have seen doctor 3 or more times for same condition
112	H14068	Num	4	YN.		Has condition lasted for at least 3 months
113	H14069	Num	4	YN.		Need to take medicine prescribed by a doctor
114	H14070	Num	4	YN.		Medicine to treat condition that has lasted for at least 3 months
117	H14072	Num	4	TIME14_.		Weight without shoes
119	H14073	Num	4	HISP.		Are you Spanish/Hispanic/Latino
131	H14074	Num	4	YNDNK.		Currently Covered Medicare
132	H14075	Num	4	MEDA.		Currently Covered Medicare Part A
133	H14076	Num	4	MEDB.		Currently Covered Medicare Part B
134	H14077	Num	4	YNDNK.		Enrolled Medicare Advantage
135	H14078	Num	4	MEDSUPP.		Currently Covered Medicare Supplemental
136	H14079	Num	4	YNDNK.		Enrolled Medicare Part D
25	H14002A	Num	4	MARKED.		Health plan(s) covered: TRICARE Prime
26	H14002C	Num	4	MARKED.		Health plan(s) covered: TRICARE Ext/Stnd
36	H14002F	Num	4	MARKED.		Health plan(s) covered: Medicare
37	H14002G	Num	4	MARKED.		Health plan(s) covered: FEHBP
38	H14002H	Num	4	MARKED.		Health plan(s) covered: Medicaid
39	H14002I	Num	4	MARKED.		Health plan(s) covered: civilian HMO
40	H14002J	Num	4	MARKED.		Health plan(s) covered: other civilian
34	H14002K	Num	4	MARKED.		Health plan(s) covered: USFHP
43	H14002L	Num	4	MARKED.		Health plan(s) covered: not sure
41	H14002M	Num	4	MARKED.		Health plan(s) covered: veterans
27	H14002N	Num	4	MARKED.		Health plan(s) covered: TRICARE Plus

**RESPONSE RATE TABLES – QUARTER II**

***THIS PAGE HAS BEEN LEFT BLANK FOR DOUBLE-SIDED COPYING.***

TABLE G.1

## RESPONSE RATES BY ENROLLMENT AND BENEFICIARY CATEGORY– QUARTER II, 2014

	Unweighted Response Rate	Weighted Response Rate
Active Duty	15.8	14.1
Active Duty fam,Prime,civ PCM	3.9	4.0
Active Duty fam,Prime,mil PCM	4.4	4.4
Active Duty fam,non-enrollee	3.6	3.6
Retired,<65,civ PCM	14.1	14.0
Retired,<65,mil PCM	13.4	14.0
Retired,<65,non-enrollee	11.4	12.9
Retired,65+,enrolled	20.8	21.4
Retired,65+,non-enrollee	22.1	21.9
TRICARE Reserve Select	9.7	9.7

TABLE G.2

## RESPONSE RATES BY XOCONUS – QUARTER II, 2014

	Unweighted Response Rate	Weighted Response Rate
In US/Missing Region	9.2	14.8
Europe	10.7	14.8
Western Pacific	9.1	10.9
Latin America	11.3	10.4

TABLE G.3

## RESPONSE RATES BY SEX – QUARTER II, 2014

	Unweighted Response Rate	Weighted Response Rate
Male	13.4	17.3
Female	6.8	12.1

TABLE G.4

## RESPONSE RATES BY CONUS/OCONUS INDICATOR – QUARTER II, 2014

	Unweighted Response Rate	Weighted Response Rate
Invalid/Missing	8.3	12.0
Not in USA	10.2	12.5
In USA	9.3	14.9

TABLE G.5

## RESPONSE RATES BY BENEFICIARY CATEGORY – QUARTER II, 2014

	Unweighted Response Rate	Weighted Response Rate
Active Duty and Guard/Reserve	15.7	14.0
Dependent of Active Duty & Guard/Reserve	4.0	4.2
Retiree/Depend of Retir/Surviv/Other 65+	22.0	21.9
Retiree/Depend of Retir/Surviv/Other <65	12.7	13.5
